THE PRESIDENT HAS PASSED AWAY.

CONTINUED FROM PAGE 1.

BUFFALO, Sept. 14.—President McKinley died at 2:15 a. m. without regaining consciousness. For nearly two hours there had been practically no pulse, and only a faint action of the heart was evident.

Before 6 o'clock last night it was clear to those at the president's bedside that he was dying, and preparations were made for the last sad offices from those who were nearest and dearest to him. Oxygen had been administered steadily, but with little effect in keeping back the approach of death. The president came out of one period of unconsciousness only to relapse into another. But in this period, when his mind was partially clear, occurred a series of events of profoundly touching character. Down stairs, with strained and tearstained faces, members of the cabinet were grouped in anxious waiting. They knew the end was near and that the time had come when they must see him for the last time on earth. This was about 6 o'clock. It was an awful moment for them. One by one they ascended the stairway, Secretary Root, Secretary Hitchcock and Attorney General Knox. Secretary Wilson also was there, but he held back, not wishing to see the president in his last agony. There was only a momentary stay of the cabinet officers at the threshold of the death chamber. Then they withdrew, the tears streaming down their faces and the words of intense grief choking in their throats.

After they left the sickroom the physicians rallied him to consciousness, and the president asked almost immediately that his wife be brought to him. The doctors fell back into the shadows of the room as Mrs. McKinley came through the doorway. The strong face of the dying man lighted up with a faint smile as their hands were clasped. She sat beside him and held his hand. Despite her physical weakness she bore up bravely under the ordeal.

The president in his last period of consciousness, which ended about 7:40, chanted the words of the beautiful hymn, "Nearer, My God, to Thee," and his last

PRESIDENT M'KINLEY.

audible conscious words as taken down by Dr. Mann at the bedside were:

"Goodby, all; goodby. It is God's way. His will be done."

Then his mind began to wander, and soon afterward he completely lost consciousness. His life was prolonged for hours by the administration of oxygen, and the president finally expressed a desire to be allowed to die. About 8:30 the administration of oxygen ceased, and the pulse grew fainter and fainter. He was sinking gradually like a child into the eternal slumber. By 10 o'clock the pulse could no longer be felt in his extremities, and they grew cold. Below stairs the grief stricken gathering waited sadly for the end. All the evening those who had hastened here fast as steel and steam could carry them continued to arrive. They drove up in carriages at a gallop or were whisked up in automobiles, all intent upon getting here before death came. One of the last to arrive was Attorney General Knox, who reached the house at 9:30. He was permitted to go upstairs to look for the last time upon the face of his chief. Those in the house at this time were Secretaries Hitchcock, Wilson and Root, Senators Fairbanks, Hanna and Burrows, Judge Day, Colonel Herrick, Abner McKinley, the president's brother, and his wife; Dr. and Mrs. Baer, who is a niece of the president; Mrs. Barber and Mrs. Duncan, the president's sisters; Miss Mary Barber, Mrs. McWilliams, Mrs. McKinley's cousin; the physicians, including Dr. McBurney, who arrived after 8 o'clock; John G. Milburn, John N. Scatcherd and Harry Hamlin, all of this city; Secretary Cortelyou and a number of others. Rev. C. D. Wilson, a Methodist minister of Tonawanda, N. Y., who was the president's pastor for three years at Canton, O., called at the residence to inquire whether his services were needed, but did not enter the house. Another Methodist minister who has a church near by remained at the Milburn residence for two hours in the belief that his services might be desired.

At 6 p. m. formal notification was sent out that the president was dying, but the president lingered on, his pulse growing fainter and fainter.

Theere was no need for official bulletins after this. Those who came from the house at intervals told the same story—that the president was dying and that the end might come at any time. His tremendous vitality was the only remaining factor in the result, and this gave hope only of brief postponement of the end. Dr. Mynter thought he might last until 2 a. m. Dr. Mann said at 11 o'clock that the president was still alive and probably would live an hour. Thus minutes lengthened to hours, and midnight came with the president still battling against death.

At midnight the Milburn house was the center of a scene as animated as though it were midday, although a solemn hush hung over the great crowd of watchers. The entire lower part of the house was aglow with light, and the many attendants, friends and relatives could be seen within, moving about and occasionally coming in groups to the front doorway for a breath of air. In the upper front chambers the lights were low, and around on the north side, where the chamber of death is located, there were fitful lights, sometimes burning brightly and then turned low.

Secretary Root and Secretary Wilson came from the house about midnight and paced up and down the sidewalk. All that Secretary Root said was, "The end has not come yet."

Despite the fact that vitality continued to ebb as midnight approached no efforts were spared to keep the spark of life glowing. Dr. Janeway of New York city arrived at the Buffalo depot at 11:40 o'clock. George Urban was waiting for him, and they drove at a breakneck pace to the Milburn house. He was shown to the president's room at once and began an examination of the almost inanimate form.

Secretary of the Navy Long arrived at the Milburn house at 12:06 o'clock. This was his first visit to the city, and he had the extreme satisfaction of seeing the president alive even though he was not conscious of his visitor's presence. Secretary Long was visibly affected.

Vice President Roosevelt had been notified early in the day of the critical state of affairs, and word came from him that he was on his way in a special train. There was no longer a doubt that in the approaching death of the president a complete change in the executive administration of the government would ensue.

President Arthur took the oath at 2 a. m. after the death of Garfield, and in that case Justice Brady of New York administered the oath. There is no requirement that the oath shall be administered by a justice of the United States supreme court, although that procedure is adopted when circumstances permit.

Shortly after midnight the president's breathing was barely perceptible. His pulse had practically ceased, and the extremities were cold. It was recognized that nothing remained but the last struggle, and some of the friends of the family who had remained through the day began to leave the house, not caring to be present at the final scene.

THE MORNING CONSULTATION.

The physicians in attendance on the president finished their morning consultation at 9:40 o'clock. They left the house together and stopped for a few minutes on the lawn to convey their verdict first to the president's brother.

Chaplain Sykes of the navy, in his black vestments, who had come to inquire after the president's health, lifted his hat as the men upon whom the president depends passed him. The physicians looked grave and serious as they walked away from the residence.

Dr. Mann and Dr. Mynter came away together. "We are very anxious," said Dr. Mann. "Very anxious," he repeated as he entered the carriage in waiting.

"Have you given up hope?"

"By no means," replied the doctor.

"Is he better than when you saw him last?"

"He is better than he was in the early hours of the morning," he responded as he directed the coachman to drive away.

Dr. Mynter had little encouragement to offer.

"I am not absolutely without hope," said he.

"The president has a fighting chance, but I would be more hopeful if the day was passed and he had gained a little strength. He has improved some since early this morning, but the improvement is very slight. The trouble lies with his heart. We are still stimulating it, and our treatment has been fairly successful."

The president when awake during the day was perfectly conscious despite his extreme weakness.

In the morning when the nurses sought to adjust the pillows so as to shut out the light of the window the president protested.

"No, I want to see the trees," he murmured. "They are so beautiful."

A stream of callers began arriving early at the Milburn house. Several of the foreigners connected with the exposition arrived to inquire about the president's condition.

All callers were met at the door by Mr. Milburn, who informed them that the president had rallied fairly well. Major Symmons of the army, one of the callers, said he had been informed that the president was a very, very sick man.

The scene about the Milburn residence was one that will live as long as life lasts in the memory of those who witnessed it. Down the street in every direction people were massed hundreds deep, while at the corner where the headquarters of the press are located correspondents of all the leading journals of the world were waiting ready to flash the first news far as the wires reach, while within the tents the busy telegraph instruments were clicking off the sad intelligence.

In front of the residence the blue coated soldiers paced with arms at right shoulder. All were waiting, waiting almost breathlessly, for the news.

Roosevelt Found on Mount Marcy.

ALBANY, N. Y., Sept. 14.—Superintendent H. H. Harrington of the New York Central and Hudson River Railroad company late last night received a telegram from Superintendent Hammond of the Delaware and Hudson Railroad company, who is at North Creek with a special train to convey Vice President Roosevelt to this city, stating that the vice president could not reach North Creek before 5 or 6 o'clock this morning and could not be brought to Albany before 7 or 8 o'clock. Vice President Roosevelt reached the camp of the Tahawus club, in the Adirondacks, thirty-five miles north of North Creek, at 9 o'clock. He was found on the top of Mount Marcy, where he had gone on a hunting expedition, by guides who had been sent out early in the day.

STORY OF RELAPSE.

President Grew Worse After Partaking Food.

A NIGHT OF GREAT ANXIETY.

The Sudden Development of Heart Failure Early Yesterday Morning Lessened the Hope of Recovery Which Had Seemed So Bright.

BUFFALO, Sept. 14.—President McKinley began to sink shortly after 2 o'clock yesterday morning after a critical period of twelve hours, in which alarm and hope mingled in the emotions of those who surrounded him. Trouble began on Thursday afternoon through the failure of the digestive organs to perform their functions.

The necessity for nourishment had been pressing for several days, and the partial failure of artificial means had led to the adoption of natural means. The rectum, through which nourishment had been injected previous to Wednesday, became irritated and rejected the enemas. This forced the physicians to try to feed him through the mouth probably before the stomach was prepared.

The first administration of beef juice through the mouth, however, seemed to agree with the patient, and the physicians were highly gratified at the way the stomach seemed to receive food.

Dr. McBurney was especially jubilant over the action of the stomach and before his departure for New York dwelt upon the fact that the stomach seemed to have resumed its normal functions. The breakfast of chicken broth, toast and coffee given Thursday morning was spoken of by all the physicians as strong evidence of the president's marked improvement. It was only when it became apparent late yesterday morning that this food had not agreed with the president that the first genuine anxiety appeared. The first note of alarm was sounded in the official bulletin Thursday afternoon, which spoke of the president's fatigue.

President McKinley, already weak from the ordeal of the tragedy and suffering, complained of an increasing feeling of fatigue. He had heretofore been so buoyant and cheerful that his complaints were seriously regarded. The pulse was then also abnormally high, 126 beats to the minute. With a temperature of 100.2 it should have been thirty beats lower. The weakness of the heart began to arouse serious concern. Instead of growing better the president's condition after that grew steadily worse.

At half past 8 Thursday night the physicians announced officially that the president's condition was not so good. The problem of disposing of the food in the stomach was becoming a serious one, and the danger of heart failure increased. As midnight approached the situation was growing critical. Calomel and oil were given to flush the bowels and digitalis to quiet the heart. However, just before midnight the president had two operations of the bowels, which relieved him very much, and the midnight bulletin was more favorable. It stated that all the conditions had improved since the last bulletin.

It was believed then that the opening of the bowels would have the effect of allaying the wild pulsations of the heart. His pulse did drop to 120, and the prospect was slightly better, but owing to the president's extreme weakness and his fatigue no attempt was made to conceal the serious apprehension which was felt. The feeling of depression increased in volume and intensity.

Hope came once more to the breasts of those who had waited for hours in anxiety. The physicians parted for the night, and every sign was a cheering one.

Shortly after 2 o'clock the physicians and nurses detected a weakening of the heart action. The pulse fluttered and weakened, and the president sank toward collapse.

The end appeared to be at hand. Restoratives were speedily applied, and the physicians fought the battle with all the reserve forces of science. Action was immediate and decisive. Digitalis and strychnine were administered, and as a last resort saline solution was injected into the veins.

A general alarm went speeding to the consulting physicians and trained nurses as fast as messengers, the telegraph and telephone could carry it.

The restoratives did not at once prove effective, and it was realized that the president was in an extremely critical condition. That realization, with the shadow of death behind it, led to another call, and that a summons to the cabinet, relatives and close personal friends of the president.

The messengers who returned with the doctors and nurses were hurried off after those within reach, and to those who were absent from the city telegrams conveying the painful tidings were quickly transmitted by telegraph.

As the telegraph instruments rattled away with their forlorn story the hastily aroused physicians began arriving. An automobile, racing at top speed, brought Dr. Mynter first. He did not stop to speak, but rushed into the house. Dr. Mann came almost on his heels, and he, too, sprinted down the street.

After them came Abner McKinley, pale and agitated. He had left the house scarcely two hours before and had departed with the assurance that the tide had turned in the case of his distinguished brother. He had been aroused from slumber by a messenger, who told him to come at once.

Secretary Wilson and Secretary Hitchcock, in grief at the peril of their beloved chief, arrived within a few moments. Neither knew the true state of the president at that moment, and in silent fear they quickly entered the house.

Another hurrying visitor was Dr. Wasdin, whose arrival completed the circle of physicians, and still another, Mrs. McWilliams, the loving friend of Mrs. McKinley.

The sudden attack of depression of the early morning came in the nature of a great surprise to the president's friends and physicians. They were prepared to hear that he might not be so well in the morning, but felt confident that the change would not be as severe as it proved to be.

Secretary Cortelyou and Mr. Milburn paced up and down in front of the house for twenty minutes just before the dawn came. They had little encouragement to offer. Secretary Wilson also came out on the porch and stood for ten minutes looking away into darkness. He said he had not abandoned hope, but his air was not one of conviction. Everything indicated that heart failure was feared. The day broke clear and bright. While the red streak of dawn was still in the east a flock of blackbirds flew directly over the Milburn house, and the watchers outside wondered if it was an ill omen. At half past 5 o'clock Secretary Wilson came out into the daylight looking haggard and dejected.

"The president has a fighting chance," said he. The tone of his words sounded like the expression of a forlorn hope.

TORRANCE FOR COMMANDER.

Grand Army of the Republic Elects Officers.

CLEVELAND, O., Sept. 14.—The convention of the thirty-fifth annual encampment of the Grand Army of the Republic came to a close yesterday amid the silence and gloom of impending death.

News of the grave condition of the president cast a shadow over the proceedings, and it was consequently decided to proceed with the election of officers and to refer all other important business of the session to the incoming council of administration. General Daniel E. Sickles of New York withdrew his name as a candidate for commander in chief before the nominations were made.

Comrade Ayers of Delaware moved the nomination of General Thomas J. Stewart of Pennsylvania, General Gobin seconding.

Governor Van Sant of Minnesota placed Judge Eli Torrence in nomination. The Torrance vote stood 476 to Stewart's 230, when General Wagner moved that the vote be made unanimous in favor of Torrance. The motion was carried.

Other officers elected were: Senior vice commander, John McElroy, Washington; junior vice commander, James O'Donnell, Illinois; surgeon general, Dr. W. R. Thrall, Cincinnati; chaplain in chief, Rev. L. M. Boyle, Pennsylvania.

The Ladies of the Grand Army of the Republic at their fifteenth annual convention have elected the following officers: President, Mrs. Emma Wall, Lawrence, Kan.; senior vice president, Elize Waggoner, San Francisco; junior vice president, Jennie Hornell, Kentucky; treasurer, Annie Michener, Germantown, Pa.; chaplain, Lavinia Brainard, New York; council of administration, Rachael Doran of Pittsburg, Mary T. Hagen of Chicago and Olive Allison of Richmond, Ind.

Colombian Troops at Rio Hacha.

COLON, Colombia, Sept. 14.—The Alexandre Bixio arrived at Colon last night. The delay was due to the fact that she was chartered at Savanilla by the Colombian government to convey 1,250 troops, with ammunition, to Rio Hacha. On her arrival there, Sept. 8, a Venezuelan squadron, consisting of the Restaurador (formerly the Atalanta) and two other gunboats, was on the point of bombarding the town. The French cruiser Suchet had been protesting against the bombardment, and this had been postponed for twenty-four hours in order to allow the foreign consuls and other noncombatants to leave. During the interval the Alexandre Bixio arrived and succeeded in landing a thousand troops, with ammunition, at Rio Hacha. This was entirely due to the protection afforded by the presence of the Suchet, which sailed for Curacao Sept. 9. The remainder of the troops were landed at Santa Marta Sept. 10. The General Pinzon accompanied the Alexandre Bixio from Rio Hacha to Cartagena and is now at the latter port. General Alban is on board.

Strike's End Near.

PITTSBURG, Sept. 14.—The absence of President Shaffer from Amalgamated headquarters was noted yesterday morning, and when the day passed and he did not appear the report that he was in New York was received from several good sources. The officials of the organization declined to discuss the strike in any form and said that they did not know where Mr. Shaffer was. It was learned last night that President Shaffer, with several of his advisers, took the 10 p. m. train for New York presumably under an arrangement with the steel people to settle the strike. It cannot be said positively that this is the case, but all evidence points to it. The indications are that a settlement of the strike is looked for by the Amalgamated men.

Chicago Crowd Against Anarchists.

CHICAGO, Sept. 14.—Chicago was quiet all evening. Around all the bulletin boards in different parts of the city large crowds gathered to get the latest news of the president's condition. There were many expressions of deep feeling against the murderer, and not a few were leveled at the anarchists confined in the county jail here and toward Miss Goldman, who is held in the annex of the Harrison street police station. There were no speeches, but the crowds, particularly in the downtown districts, were in a dangerous temper, and had any of the anarchists, man or woman, been turned loose a killing would have followed as soon as the crowd could manage it.

Extra Thick Armor Stood Test.

WASHINGTON, Sept. 14. — The thickest service armor plate yet tested has been tried at the Indian Head proving ground by the naval bureau of ordnance. This was a twelve inch barbette plate, representing about 600 tons of the armor for the battleship Missouri. Three shots were fired, at 1,675, 1,669 and 1,667 foot seconds velocity respectively. The penetration was slight, about three inches in each case, and the test was pronounced a most successful one.

Joliet Strike Ended.

JOLIET, Ill., Sept. 14.—Although not officially sanctioned by a joint conference of the lodges, the steel strike at Joliet is at an end. An order from President Shaffer is on the way declaring the strike here off. In the meantime the mills started up at 2 o'clock yesterday afternoon, and many of the strikers already have gone to work. Others will go on with additional turns, and several departments will be put in operation as speedily as possible.

Russian Battleship Sails Well.

LEWES, Del., Sept. 14.—The Russian battleship Retvizan returned to the Delaware Breakwater after an entirely successful sea trip. She did eighteen knots an hour without forcing and was not in the least damaged by the firing of her six inch and small guns.

Peace Conference Closed.

GLASGOW, Sept. 14.—The peace conference ended its sessions with a resolution appealing to the civilized nations to terminate international anarchy and turn the immense sums now expended on armaments into the channels of commerce and industry.

LAXAKOLA
The Great Tonic Laxative, as the One Great Family Remedy for All Stomach Ills.

Skin Blotches Muddy, Sallow Complexions Can Only Be Cured by Purifying the Blood. Laxakola Does It.
Blotched, sallow, unwholesome and muddy skin, with its consequent mortification, often leading to morbid seclusion, shows that your blood is bad. The only way to clear the complexion and restore it to its normal healthy, velvety condition is to clean out the entire system, purify the blood and remove the causes. *Laxakola does it*, as well as acting directly on the pores and assisting the perspiratory glands to throw off impurities.

Constipation Can Be Surely, Quickly and Permanently Cured. Laxakola Does It.
You have a full feeling, with dizziness, headache, heartburn, palpitation, foul breath and bad taste, the stomach becomes distended, the eyes heavy and yellow, and the skin pale, sallow, muddy and blotched, accompanied by loss of sleep, appetite and vitality. Laxakola at once relieves and speedily cures these by toning up the stomach, increasing the flow of gastric juice, resulting in a return to the natural feeling of good health.

For the Children Children Die from Stomach Diseases which Laxakola will Speedily Cure.
It is a dangerous thing to give little babies violent remedies that rack and rend their little bodies. DON'T DO IT—Give them Laxakola. For constipation, coated tongue, simple colds and fevers it is invaluable. It is the best and most effective laxative for children. BEST because it is safe and made entirely of harmless ingredients. BEST because it is non-irritating and never gripes or causes pain or irritation. BEST because it is sure and never fails. BEST because "*Children like it and ask for it.*"

SEARCHING FOR THE POLE.

Peary Still Undaunted After Two Failures.

NORTH SYDNEY, C. B., Sept. 14.—The Peary arctic steamer Erik, from Cape Sabine, Ellesmere Land, Aug. 29, has arrived here. All are reported well.

Peary left Fort Conger April 15, crossed Robeson channel to the west Greenland coast and followed it along on foot and over sea ice to the northward. On April 26 two natives were sent back, and from Cape Britannia two more were sent back in May. Lockwood's farthest north cairn of May 13, 1882, was opened May 8, and its records were taken, and at Cape Washington, the headland seen by him fifteen miles northeast in 1882, another cairn was erected, and a copy of the "farthest" record and additional memoranda were deposited. Peary pushed on and at 83 degrees 39 seconds north rounded the northern extremity of Greenland, finding the coast at this point to trend rapidly eastward. There on the most northerly known land in the world Peary built a cairn, in which he deposited records, etc. Peary then struck over the sea ice for the pole, but was able to advance only to 83 degrees 50 seconds north, when he was stopped by the broken pack and much open water. Retracing his steps, Peary pushed on along the Greenland coast, all the time eastward, about 100 miles beyond Lockwood's farthest, in latitude 83 degrees north, longitude 25 degrees west, or approximately but little more than a degree from Independence bay, discovered and named by him July 4, 1892. The reconnoissance ended with a definite demonstration of the western and northern coasts of Greenland.

In a letter detailing his work during 1900 Peary says:

"If I do not capture the pole itself in this spring campaign (1901), I shall try it again next spring.'

The Windward, fast in her winter quarters at Payer harbor, near Cape Sabine, with Mrs. Peary and Miss Peary on board, prisoners in the ice for nearly eight months, was reached May 6, and in her Peary established his headquarters until the auxiliary ship of 1901 should arrive. Not until the Windward was reached did Peary learn of the death, almost eighteen months before, of his daughter Francesca, born in Washington in January, 1899, following his departure for the north. On July 3 the Windward extricated herself from the ice and devoted July to a successful hunt for walrus to provide food for the natives and dogs during the field work of 1902. The Windward then went to Etah, Peary's headquarters of 1899-1900, where she awaited the Erik, which arrived there Aug. 4, fourteen days from Sydney, C. B., and bringing Peary, with other news, that of his mother's death in Portland, Me., in November last.

TRADE CONDITIONS.

Expansion of Trade Shown by the Month's Railway Records.

NEW YORK, Sept. 14.—R. G. Dun & Co.'s weekly review of trade says:

An assassin's bullet checked the progress of a nation. For a time projected undertakings were abandoned and orders held back that were about to be placed. Speculators sacrificed stocks and options on grain and cotton. Better news early in the week brought recovery in prices, and postponed business was transacted, but anxiety was again in evidence on Friday. Even if the cowardly attack proves successful it is probable that there will be a gradual return to former conditions, because the solid foundation of the country's prosperity is too deep to be permanently disturbed.

In the principal manufacturing industry there is a steady gain in the number of active mills, and full operation is considered near. Less urgency for immediate delivery of goods and less inclination to pay premiums on the part of well posted men suggest that these consumers anticipate a return to normal activity with little delay. Mills are accepting contracts for delivery of steel rails far into 1902 at $28, so that no change in price is near. Finished steel is freely taken wherever producers have goods to offer at reasonable terms, and the increased force in tin plate mills promises to reduce high prices and decrease imports.

Comparison with the corresponding time in the two preceding years of record breaking activity gives an idea of the marvelous expansion now in progress. The wonderful achievements in transportation are shown by railway earnings during August—13 per cent larger than last year and 22.7 per cent over 1899, a larger gain than was shown in any month this year, with the single exception of May. For the last week, despite interruptions, bank exchanges at this city were 82.8 per cent greater than a year ago and 23.3 per cent over 1899, while at other leading cities the increases were 21.2 and 13.5 per cent respectively.

Liabilities of commercial failures for the first ten days of September were very light, amounting to only $1,767,975, of which $765,351 were in manufacturing lines and $891,696 in trading. Failures for the week numbered 175 in the United States against 195 last year and 18 in Canada against 30 last year.

AT THE CAPITAL CITY

Sad News From Buffalo a Crushing Blow.

OFFICIAL BUSINESS SUSPENDED.

Citizens of Washington Had Been Very Hopeful In View of the Bulletins From the President's Sickbed.

WASHINGTON, Sept. 14.—The news of the expected death of President McKinley came as a crushing blow to the national capital. Nowhere perhaps had the citizens been so full of confidence in the ultimate recovery of their beloved president, and the buoyant bulletins of the past week from the sickbed had lulled them into a false sense of security which made the shock terrible when the news that the Buffalo tragedy would have a fatal ending came to them.

All day long the bulletin boards were surrounded by crowds waiting in suppressed excitement for the latest word from the Milburn home.

Little work was done in the great executive departments, as at the slightest excuse the clerks dropped their pens and turned to talk in small awestruck groups of the chances that their chief magistrate had against death in the gallant struggle he was making in the faraway city on the lake.

The three cabinet officers in the capital were pictures of distress. Two days ago Secretary Hay had left his chief apparently on the road to recovery, and yesterday Postmaster General Smith, who had left Buffalo even later, said that when he came from the Milburn home the president was, according to his best information, surely on the mend. The postmaster general returned to Buffalo on the 7:15 train last night. Secretary Hay had engaged accommodations on the night train, intending to return to his New Hampshire summer home for much needed rest, but canceled the order early in the day, as on him devolved important functions at once on the president's demise. He divided his time between the state department and his home, waiting for the end in patient resignation, prepared for his sorrowful duty of conveying to the nations of the world in official form the news of the demise of the third American president through the agency of an assassin's bullet within the short space of one human life.

As the senior member in rank of the cabinet upon Mr. Hay's shoulders also will rest the burden of government of the great republic in the short but important interval that must elapse before the vice president under the terms of the constitution assumes the cares and responsibilities of the great presidential office.

In many of the local churches men and women assembled for quiet prayer that the life of the president might be spared. The largest of these meetings was held at the Metropolitan Methodist church, where the president and Mrs. McKinley worshiped. Here many women offered earnest prayers that the life of the president might be spared. A number of them quietly told of pretty incidents on the part of the president that they had witnessed and dwelt especially on his fondness for children.

"Do you remember children's day," said one of the Sunday school teachers, "when he invited the little boys who could not find seats to come in his pew? They were so proud and happy."

"They say that just a little while before he was shot," broke in another, "he had shaken hands and spoken the kindest words to some little child."

Thus incident after incident illustrating the kindness, the love, the charity, the religion, of the president was recalled by the little group of women standing around his empty pew.

VICE PRESIDENT ROOSEVELT.

RAMSAY SUCCEEDS HOWISON.

The Vacancy on the Schley Court Quickly Filled.

WASHINGTON, Sept. 14.—Admiral Ramsay, at one time chief of the bureau of navigation, has been selected as Howison's successor on the Schley court.

Admiral Ramsay was the immediate predecessor of Admiral Crowninshield as chief of the navigation bureau of the navy department. He was appointed from Pennsylvania to the Naval academy as midshipman in 1850, and his record in the civil war is full of engagements with the enemy on the lower Mississippi and Yazoo rivers and around Fort Fisher and Richmond on the Atlantic coast. He is sixty-six years old. It is impossible now to predict as to his acceptability to Admiral Schley as a member of the court. The admiral did not care to commit himself, but referred all inquirers to his counsel, and as the latter are absent from Washington their views cannot be obtained here.

Bishop Leads the Autos.

ROCHESTER, N. Y., Sept. 14.—The first of the automobiles in the endurance race to arrive in Rochester was that of D. W. Bishop's gasoline, which came in covered with mud at 3:45 p. m. The second one of the racers to roll in was J. W. Packard's gasoline auto, which reached the stopping point here at 4:10. Others of the racers were very late. The roads between here and Lyons are reported to be in very bad condition.

"God's Will, Not Ours."

"God's will be done—not ours." Such were the last words of President William McKinley before he lapsed into unconsciousness which was followed by death. Typical were they of the great man whom the whole Nation had learned to love so well and whose untimely death is now mourned, not only by the people of these United States, but by the entire civilized globe as well. After twice receiving the greatest honor which the American people can bestow, he was struck down by the foul hand of an assassin, one of a band who are sworn enemies of all government and society.

Never has a Chief Executive of this country so won his way into the hearts of the people as did William McKinley. As a statesman he was confronted by problems for which there was no precedent in the history of the land. He met them calmly and with a trust in God. He did his best. That he did well, the present era of unexampled prosperity amply testifies. He was tried and not found wanting.

And it was William McKinley, the man, as well as William McKinley, the statesman. He was distinctly human. He had a home and family, and loved them as do few men. His private life was one of remarkable simplicity and purity. He was not a sham, and the American people loved him for his honesty and the worth and beauty of his character.

A true and loving wife was with him through it all. She admired William McKinley, the President and statesman, but William McKinley, the man, was precious indeed to her. His tender solicitude during her recent illness formed another tie to which served to bind the American people all the closer to him. And now to the faithful helpmate the sympathy of an entire nation is extended.

Truly, the ways of Providence are inscrutable. The land has suffered a grievous loss, but out of it will surely come a new awakening to the dangers which have long confronted this Republic. The dangers which have threatened the monarchies of Europe have unknowingly crept into this land. In the fear of abridging the precious boon of freedom, these dangerous elements have been allowed to grow unmolested. But today there comes from every part of the Union a demand with which the National Legislature will speedily comply. It may be that the vision of the dying President realized this and spoke with much truth when his lips framed the words, "God's will, not ours." These words will go down in history as the last utterance of one of the greatest Presidents who ever held office in these United States.

It is evident that the name of James E. Martine will not be presented at the Democratic State convention as a candidate for the gubernatorial nomination. While it was well understood that there was little likelihood of Mr. Martine receiving the nomination, although he is deserving of any honor that the Jersey Democrats can bestow, it was thought that the Union county delegation might give him a complimentary vote. The Democratic Union county committee has come out, however, for Mayor Seymour, of Newark, and has announced its intention of supporting his candidacy. It would be a nice thing if that complimentary nomination was made on the first ballot and the vote subsequently changed to the Seymour column.

If you happen to venture over in the confines of the borough of North Plainfield, let us advise you, keep to the right. This is particularly good advice if you happen to be driving. Now the sensible man will do that thing without being told, but it seems that there are other kinds of men who occasionally drive through the borough. In order to keep them on the right, the borough authorities have been compelled to take rather extreme measures. There is an ordinance which makes it necessary for teams to remain on the right hand side of borough thoroughfares and under the provisions of that law, several arrests have already been made. Take our advice therefore and keep to the right.

The bridge committee of the Somerset county Board of Freeholders is evenly divided regarding the building of a new bridge over Green brook at Giraud avenue. Half favor a concrete flooring and the others want a wooden one. The bulk of the travel will be by North Plainfield people so the Freeholders need not fear but that Somerset county will get its share of any improvement made there. The Union county Freeholders are all willing to agree to the concrete floor. It is the latter which the best judgment would seem to demand.

The Philadelphia Record relates that a Chicago savings bank has increased its business enormously by shrewd advertising in the newspapers. The manager scoffs at the suggestion that advertising is beneath the dignity of a financial institution. "We have induced thousands of careless people to become savers by daily calling their attention to the advantages of having money laid by," he says. "No concern should be too dignified to tell the people through the newspapers what they should be told."

The Democratic Union county committee certainly exceeded its authority when it endorsed any candidate for the gubernatorial nomination. Its function was to call the primaries to elect delegates who are to choose the candidate. Under those circumstances, it was certainly bad taste, no matter how the members of the comittee felt individually, to pass any such resolution. In justice to the local members of the committee, it is well to say that they all voted against the motion.

It is unfortunate that the borough schools are inadequate to accommodate all the children who desire to attend this year. The increase was exceptionally large, however, and the borough school authorities are doing everything possible to provide some kind of accommodation.

During his career as a newspaper man in this city Francis Edwin Whiteside has made many friends. They now wish him the best success possible in his new undertaking. He has definitely decided to study for the ministry for which he seems remarkably well fitted.

The careful and painstaking efforts of Rev. A. E. Main have not gone unappreciated. He has now received an important appointment at Alfred University which shows that his ability is properly appreciated by the members of his denomination.

There seems good reason why the local militia company should have a rifle range in a short time. It would not be very expensive and would give the local soldier boys plenty of opportunity to become good marksmen, a very needful quality.

With its usual enterprise The Daily Press yesterday gave the people of the borough the benefit of its bulletin service concerning the President's condition.

As Scotch Plains is so anxious to meet the best of Plainfield's united baseball nines, it might be well to accommodate the rooters of that place.

Dunellen, Sept. 14.—The funeral of Mrs. Sarah E. Emmons will be held this afternoon from her late home at 2 o'clock and from the Seventh day Baptist church at 2:30 o'clock. Rev. L. E. Livermore will officiate. The bearers who have been chosen are Mahlon Dayton, Alorn Burdick, Jesse Burdick, Z. P. Osmun, John Dayton and L. R. Curtis. Mrs. Emmons died Wednesday evening while at Muhlenberg Hospital, at the age of forty-one years. Typhoid fever was the cause of her death. Interment will be at Hillside cemetery, South Plainfield.

No other cases of the dreaded diphtheria have appeared in the borough as yet. The one case, that of Lester Kratzel, is but a light form. The Lincoln school still remains closed and will probably stay so until the building and books have been thoroughly fumigated. This building was thoroughly cleansed and fumigated last spring, and it is not known where the disease was contracted.

Michael Eganey gave permission to a traveling sign painter to put a sign upon his shop, in return for which privilege the decorator was to paint the whole building. Instead of filling the whole contract the man took a picture of the sign when it had been finished, and then skipped out. It is reported that he also left one or two unpaid bills for material bought.

The case of the estate of G. W. De Meza against Charles Sebring, which was called for yesterday afternoon before Justice Warden, has been settled out of court.

Mrs. Mary Hunt, of Westfield, returned home yesterday after an extended visit with her daughter, Mrs. Josephine Dunham.

Letters of administration have been granted to Eugene Runyon for the estate of the late Henry C. Gaskill.

Prof. C. R. Clawson has gone to Salem, W. Va., after a visit with relatives in the borough.

Mrs. C. Batson, of Plainfield, has returned home after a visit at the home of Mrs. W. H. Coles.

Adam Dealeman left today for Knowlton where he will spend a few days with relatives.

Mrs. Stephen Brown and daughter have gone to the seashore for a two weeks' visit.

Mrs. O. A. Douglas has been entertaining Mrs. Sarah Thompson, of Brooklyn.

Miss Edna Vail has returned home from a visit with relatives in Jersey City.

William H. Terry is spending the day with relatives in Port Richmond.

Mrs. Everett Gordon is visiting her daughter, Mrs. Moore, of Elizabeth.

Mrs. Sarah Striker is spending a few days with friends in Scranton.

Mrs. Lewis Churchill is visiting relatives at Ocean Grove.

Mrs. George Schenck is visiting relatives in Somerville.

NEW MARKET

(Special Correspondence.)

New Market, Sept. 14—One of this town's most successful and patriotic citizens has found it necessary to contradict the discreditable assertion which has been circulated in the community. Below is an open letter which was written by Mr. Kelly:

"Knowledge has come to me this afternoon that it has been circulated that I made uncomplimentary remarks about President McKinley, after the attempted assassination at Buffalo, N. Y., which is a falsehood and only circulated by those who are jealous of the little success I have made in this community and is circulated solely for the purpose of injuring me in my business and otherwise. I hope it will be treated with the contempt it deserves by all self-respecting people.

"Respectfully,

ON STAGE TOGETHER.

Divorced Couple Meet Nightly and Get Along Nicely.

She Is the Star, Ex-Husband Sings in Chorus—Strange Illustration of the Ups and Downs in American Life.

It might disconcert some young women to dance, sing and amuse a great audience night after night with a divorced husband on the stage joining lustily in the choruses, but Miss Marie George, of "The Strollers," is superior to that sort of thing.

Only a couple of days ago the matrimonial knot which bound Miss George to W. Lester Brown was severed by Justice Gildersleeve in the New York supreme court, giving the young actress an absolute divorce from her husband.

That official act, it would seem, separated the two for good and all. But every night the ex-wife and ex-husband meet on the stage of the Knickerbocker theater, New York, where "The Strollers" are playing.

They have little in common, however. The ex-wife shares the leading honors with Francis Wilson, and draws a salary of $150 a week, while the ex-husband's individuality is almost buried in the big chorus of men and women. His salary is said to be $18 a week.

But Miss George is as democratic as she is pretty, and, moreover, has a kindly heart. It would be an easy matter for her, the star, to remain in ignorance of the existence of her former husband in the chorus, but she does not take advantage of her position to humiliate him in any way. On the contrary, she has upset the traditions of the stage by being friendly with him.

Miss George was in the chorus herself years ago. She was drawing a small salary in "The Isle of Champagne" when she became the wife of Mr. Brown. He was then a stock broker at No. 2 Wall street and had a great deal of money. By some he

THEY MEET EVERY NIGHT.

was reputed to be a millionaire. Unfortunate business ventures dissipated his fortune, and now he values his humble role in "The Strollers."

The position of the two is reversed. Formerly the husband had all the money. Now the ex-wife has fame and money. There is one scene in "The Strollers" which must revive memories in the mind of the ex-husband of the days when he courted Miss George.

He is one of the eight cadets who, in the second act, rush forward to welcome with song Mimi, his former wife, as she comes whirling on to the stage in an automobile. But now he is only one of eight, whereas, in real life years ago he had the field to himself.

Miss George was seen in her dressing-room at the Knickerbocker after the performance, and when asked by a New York World reporter if it were not trying on the nerves to have her former husband on the stage she said:

"Oh, dear, no. He was in 'The Strollers' four weeks before I joined the company. When he joined neither he nor I knew that I was coming here, so there is nothing in that.

"It is not Mr. Brown's first connection with the stage. He had out his own company last year. No, it is not on my account that he is here."

Mr. Brown is a slender, clean-shaven young man of about 35. He said:

"While I respect Miss George as a woman and an artist, I am not in love with her. My presence in the same company is purely a matter of business, not of sentiment.

"We are good friends. I believe, as she does, that when husband and wife cannot agree they should separate. We agreed to disagree. I have been on the stage several years—ever since I quit Wall street—and the position is not new for me."

Mr. Brown spoke of his record as an amateur athlete and exhibited a gold medal he wears on his watch chain given him as victor in a seven-mile running race on Travers island in 1897. He still belongs to the Knickerbocker Athletic club.

These Goats Climb Trees.

In the Atlas mountains of northern Africa there are goats which climb trees to browse on the foliage. Some of them have been seen standing erect on branches 30 feet from the ground, while others were lazily reclining on boughs gently rocked by the wind.

AMENDMENTS TO THE CONSTITUTION OF NEW JERSEY, PROPOSED BY THE LEGISLATURE OF 1901.

BE IT RESOLVED by the Senate (the House of Assembly concurring), That the following amendments to the constitution of this state be and the same are hereby proposed, and when the same shall be agreed to by a majority of the members elected to the Senate and House of Assembly, the said amendments shall be entered on their journals, with the yeas and nays taken thereon, and referred to the legislature next to be chosen, and shall be published for three months previous to the first Tuesday after the first Monday of November next (being the fifth day of said month) in at least one newspaper of each county, if any be published therein, the said newspapers to be designated by the president of the Senate, the speaker of the House of Assembly and the secretary of state:

ARTICLE V

EXECUTIVE.

Insert in lieu of Paragraph 10, a new paragraph as follows:

10. The Governor or person administering the government, the Chancellor and the Attorney-General, or two of them of whom the Governor or person administering the government shall be one, may remit fines and forfeitures and grant pardons, after conviction, in all cases except impeachment.

ARTICLE VI.

JUDICIARY.

Insert in lieu of Section II., a new section as follows:

1. The Court of Errors and Appeals shall consist of a Chief Judge and four Associate Judges or any four of them.

2. In case any Judge of said Court shall be disqualified to sit in any cause, or shall be unable for the time being to discharge the duties of his office, whereby the whole number of Judges capable of sitting shall be reduced below four, the Governor shall designate a Justice of the Supreme Court, the Chancellor or a Vice-Chancellor, to discharge such duties until the disqualification or inability shall cease.

3. The Secretary of State shall be the Clerk of this Court.

4. When a writ of error shall be brought, any judicial opinion in the cause, in favor of or against any error complained of, shall be assigned to the Court in writing. When an appeal shall be taken from an order or decree of the Court of Chancery, the Chancellor or Vice-Chancellor making such decree or order shall inform the Court in writing of his reasons therefor.

5. The jurisdiction heretofore exercised by the Supreme Court by writ of error shall be exclusively vested in the Court of Errors and Appeals; but any writ of error pending in the Supreme Court at the time of the adoption of this amendment shall be proceeded upon as if no change had taken place.

Section IV.

Insert in lieu of Paragraph 1, a new paragraph as follows:

1. The Court of Chancery shall consist of a Chancellor and such number of Vice-Chancellors as shall be provided by law, each of whom may exercise the jurisdiction of the Court. The Court shall make rules governing the hearing of causes and the practice of the Court, where the same is not regulated by statute.

Section V.

At the end of Paragraph 1, add the following:

The Court may sit in divisions at the same or different times and places.

Strike out Paragraph 3.

Section VI.

Insert in lieu of Paragraphs 1 and 2, the following:

The Court of Common Pleas shall be constituted and held in each county in such manner as may be provided by law.

ARTICLE VII.

CIVIL OFFICERS.

Section II.

Insert in lieu of Paragraph 1, a new paragraph as follows:

1. Judges of the Court of Errors and Appeals, Justices of the Supreme Court, the Chancellor, the Vice-Chancellors and the Judges of the Circuit Court and of the Court of Common Pleas shall be nominated by the Governor and appointed by him with the advice and consent of the Senate. All persons now holding any office in this paragraph named except the Judges of the Court of Errors and Appeals as heretofore existing, shall continue in the exercise of the duties of their respective offices according to their respective commissions or appointments. The Judges of the Court of Errors and Appeals, except those first appointed; the Justices of the Supreme Court, the Chancellor and the Vice-Chancellors shall hold their offices for the term of seven years, and shall at stated times receive for their services a compensation which shall not be diminished during the term of their appointment; and they shall hold no other office under the government of this State or the United States.

The Judges of the Court of Errors and Appeals first appointed shall be appointed one for three years, two for five years and two for seven years. Judges of the Court of Common Pleas shall hold their offices for the term of five years.

Strike out Paragraph 2.

1. Resolved (the House of Assembly concurring), That the following amendments to the constitution of this state be and the same are hereby proposed, and when the same shall be agreed to by a majority of the members elected to the senate and house of assembly, the said amendments shall be entered on their journals, with the yeas and nays taken thereon, and referred to the legislature next to be chosen, and published for three months previous to the first Tuesday after the first Monday of November next, being the fifth days of said month, in at least one newspaper of each county, if any be published therein, the said newspaper to be designated by the president of the senate, the speaker of the house of assembly and the secretary of state.

1. Amend Paragraph 3, of Section 1, of Article IV, so as to read as follows:

3. Members of the senate and general assembly shall be elected on the first Tuesday after the first Monday in November; in the year nineteen hundred and three members of the general assembly shall be elected for the term of one year, and in the year nineteen hundred and four, and every second year thereafter, they shall be elected for the term of two years, each house of the legislature shall meet separately on the second Tuesday in January next after each election for members of the general assembly; the time for holding such elections may be altered by the legislature.

2. Amend Paragraphs 1 and 2, of Section 2, of Article IV, so as to read as follows:

1. The senate shall be composed of one senator from each county in the state, elected by the legal voters of the counties respectively for four years, except as provided in the following paragraph:

2. The terms of the senators elected in the year nineteen hundred and two shall be extended to four years from the commencement of their terms; as soon as the senate shall meet after the election to be held in the year nineteen hundred and three the senators elected in that year shall be divided by lot under the direction of the senate into two classes, as nearly equal as may be; the seats of the senators of one class shall be vacated at the expiration of three years, and of the other class at the expiration of five years; the seats of the senators elected in the year nineteen hundred and four, and of all senators elected thereafter, shall be vacated at the expiration of four years from the commencement of their terms, so that one-half the number of senators, as nearly as may be, shall be elected every second year, at the same time that members of the general assembly are elected; and all vacancies caused by resignation or otherwise shall be filled for the unexpired terms only.

3. Amend Section III, of article IV, by striking out the word "annually."

4. Amend Paragraph 7, of Section IV of Article IV, so as to read as follows:

7. Members of the senate and general assembly shall each receive the sum of five hundred dollars for each year of their term, and no other allowance or emolument, directly or indirectly, for any purpose whatever; the president of the senate and the speaker of the house of assembly shall, in virtue of their offices, receive an additional compensation equal to one-third of their allowance as members.

5. Amend Paragraph 3, of Article V, so as to read as follows:

3. The term of the Governor elected in the year nineteen hundred and four shall be extended to four years from the commencement of his term, and he shall hold his office until the third Tuesday of January, nineteen hundred and nine; thereafter the Governor shall hold his office for four years, to commence on the third Tuesday of January next ensuing his election, and to end on the Monday preceding the third Tuesday of January four years thereafter, and he shall be incapable of holding that office for four years next after his term of service shall have expired, and no appointment or nomination to office shall be made by the Governor during the last week of his said term.

COATS AND CAPES.

Many of the Richest Garments Are Cut Empire Shape.

The fall long coats show a great variety of styles. Heavy black silk will be worn well into the winter, when broadcloths and velvets will take its place. Black bengaline silk lined with satin can be trimmed later on with fur and is handsome at all times for carriage and evening wear. Most of the dressy long coats are made empire fashion, with triple cape effects or broad stitched bands coming up from under the arms and fastening in front with a jeweled clasp or button.

Many of the coats are appliqued or stitched with bands of a lighter or darker shade of the same color. Bands of oriental trimming are used on fawn colored garments. Some light gray broadcloths have collars and cuffs of eminence purple panne velvet.

The golf and outing capes continue practically the same. There is, however, a tendency toward increasing the fullness and the amount of trimming.

One of the latest golf capes is shown in the cut. It is made of gray double

GOLF CAPE.

faced goods. The inner plaid surface forms the lapels and the narrow bias ruffles at the lower edge. The hood is quite unique in shape. It comes well over the shoulders in front and is fastened down by means of pointed straps.

The jaunty little hat is of tan braided felt trimmed with red and white spotted foulard. JUDIC CHOLLET.

FOR THE MOUNTAINS.

Long Covert Coats and Flaring Short Skirts.

A long covert cloth coat is a necessity for whoever stays in the mountains this fall. These coats are excessively smart, especially on a girl of the petite type. The latest color is a bluish gray, and the real English article has a stitched belt passed through strapped loops fastened to the sides and back of the coat. These coats should be strictly tailor made. The desired touch of color lies in the lining, which is brilliant and much in evidence.

HUNTING COSTUME.

The new short skirts are easily distinguished from the old by the amount and variety of their stitching. In order to insure the extremely tight effect around the hips a yoke of stitching is frequently introduced. This is prettiest when stitched in a five pointed effect, the front point being appreciably deeper in order to give the long dip required by fashion. A striking point about these skirts is the graceful flare at the base and the skillful use of the gores in such a manner that the skirts flare only at a short distance from the bottom.

A very smart hunting costume is the subject of today's illustration. The skirt is made of black and white plaid, and the Norfolk jacket is of plain black goods to correspond. Some of the stiffness of the latter is taken away by the loose pouched effect in front. The skirt is laid and stitched in box plaits, beginning with the side seams.

With this costume there is worn a soft hat of red felt, tilted to one side and trimmed with a twist of foulard and two black quills.

[CONTINUED.]

Phorenice read the direction of my looks.

"The season," she said, "has been unhealthy of recent months. These lower people will not build fine houses to adorn my city, and because they choose to live on in their squalid, unsightly kennels, there have been calentures and other sicknesses among them, which make them disinclined for work. And then, too, for the moment, earning is not easy. Indeed, you may say trade is nearly stopped this last half-year since the rebels have been hammering so lustily at my city gates."

I fairly startled out of my decorum.

"Rebels!" I cried, "who are hammering at the gates of Atlantis? Is the city in a state of siege?"

'Of their condescension," said Phorenice, lightly, "they are giving us holiday to-day, and so, happily, my welcome to you comes undisturbed. If they were fighting, your ears would have told you of it. To give them their due, they are noisy enough in all their efforts. My spies say they are making ready new engines for use against the walls, which you may sally out to-morrow and break if it gives you amusement. But for to-day, Deucalion, I have you, and you have me, and there is peace round us, and some prettiness of display. If you ask for more I will give it you."

"I did not know of this rebellion," I said, "but as your majesty has made me your minister, it is well that I should know all about its scope at once. This is a matter we should be serious upon."

"And do you think I cannot take it seriously also?" she retorted. "Ylga," she said to the girl that stood behind, "set loose my dress at the shoulder."

And when the attendant had unlinked the jeweled clasp (as it seemed to me with a very ill grace), she herself stripped down the fabric, baring the pure skin beneath, and showing me just below the curve of her left breast a bandage of blood-stained linen.

"There is a guarantee of my seriousness yesterday, at any rate," she said, looking at me sidelong. "The arrow struck on a rib, and that saved me. If it had struck below, Deucalion would have been standing beside my funeral-pyre to-day, instead of riding on this pretty steed of mine which he admires so much. Your eye seems to feast itself most on the mammoth, Deucalion. Ah, poor me. I am not one of your shaggy creatures, and so it seems I shall never be able to catch your regard. Ylga," she said to the girl behind, "you may link my dress up again with its clasp. My Lord Deucalion has seen wounds before, and there is nothing else here to interest him."

CHAPTER V.

ZAEMON'S CURSE.

It appeared that for the present, at any rate, I was to have my residence in the royal pyramid. The glittering cavalcade drew up in the great paved square which lies before the building, and massed itself in groups. The mammoth was halted before the doorway, and when a stair had been brought, the trumpets sounded, and we three who had ridden in the golden half-castle under the canopy of snakes, descended to the ground.

It was plain that we were going from beneath the open sky to the apartments which lay inside the vast stone mazes of the pyramid, and, without thinking, the instinct of custom and reverence that had become part of my nature caused me to turn to where the towering rocks of the Sacred Mountain frowned above the city, and make the usual obeisance, and offer up in silence the prescribed prayer.

She said to me: "Come," and, turning to the doorway, cried for entrance, giving the secret word appointed for the day. The ponderous stone blocks which barred the porch swung back on their hinges, and with stately tread she passed out of the hot sunshine into the cool gloom beyond, with the fan-girl following decorously at her heels. I too went inside the pyramid, and the stone doors, with a sullen thud, closed behind us.

We did not go far just then. Phorenice halted in the hall of waiting. How well I remembered the place, with the pictures of kings on its red walls, and the burning fountain of earth-breath which blazed from a jet of bronze in the middle of the flooring and gave it light. The old king that was gone had come this far of his complaisance when he bade me farewell as I set out twenty years before for my viceroyalty in Yucatan. But the air of the hall was different to what it had been in those old days. Then it was pure and sweet. Now it was heavy with some scent, and I found it languid and oppressive.

"I am told you are a pretty fighter," said she. "Well, I hold some small skill in arms myself, and have a conceit that I am something of a judge. To-morrow we will take a taste of battle together. But to-day I must carry through the honorable reception I have planned for you, Deucalion. The feast will be ready soon, and you will wish to make ready for the feast. There are chambers here selected for your use, and stored with what is needful. Riga will show you their places."

We waited, the fan-girl and I, till Phorenice had passed out of the glow of the light-jet, and had left the hall of waiting through a doorway among the shadows of its further angle, and then (the girl taking a lamp and leading) we also threaded our way through the narrow mazes of the pyramid.

Everywhere the air was full of perfumes, and everywhere the passages turned and twisted and doubled through the solid stone of the pyramid, so that strangers might have spent hours—yes, or days—in search before they came to the chamber they desired. There was a fine cunningness about those forgotten builders who sat up this royal pyramid. They had no mind that kings should fall by the hand of vulgar assassins who might come in suddenly from outside. And it is said also that the king of the time, to make doubly sure, killed all that had built the pyramid, or seen even the lay of its inner stones.

But the fan-girl led the way with the lamp swinging in her hand, as one accustomed to the mazes. Here she doubled, there she turned, and here she stopped in the middle of a blank wall to push a stone, which swung to let us pass. And once she pressed at the corner of a flagstone on the floor, which reared up at the thrust of her foot, and showed us a stair steep and narrow. That we descended, coming to the foot of an inclined way which led us upward again; and so by degrees we came unto the chamber which had been given for my use.

"There is raiment in all these chests which stand by the walls," said the girl, "and jewels and gauds in that bronze coffer. They are Phorenice's first presents, she bid me say, and but a small earnest of what is to come. My Lord Deucalion can drop his simplicity now, and fig himself out in finery to suit the fashion."

"Girl," I said, sharply, "be more decorous with your tongue, and spare me such small advice."

"If my Lord Deucalion thinks this a rudeness, he can give a word to Phorenice, and I shall be whipped. If he asks it, I can be stripped and scourged before him. The empress will do much for Deucalion just now."

"Girl," I said, "you are nearer to that whipping than you think for."

"I have got a name," she retorted, looking at me sullenly from under her black brows. "They call me Ylga. You might have heard that as we rode here on the mammoth had you not been so wrapped up in Phorenice."

I gazed at her curiously. "You have never seen me before," I said, "and the first words you utter are those that might well bring trouble to yourself. There is some object in all this."

She went and pushed to the massive stone that swung in the doorway of the chamber. Then she put her little jeweled fingers on my garment and drew me carefully away from the air shaft into the farther corner. "I am the daughter of Zaemon," she said, "whom you knew."

"You bring me some message from him?"

"How could I? He lives in the priests' dwellings on the mountain you did obeisance to. I have not put eyes on him these two years. But when I saw you first step out from that red pavilion they had pitched at the harbor side, I—I felt a pity for you, Deucalion. I remembered you were my father's, Zaemon's, friend, and I knew what Phorenice had in store. She has been plotting it all these two months."

"I cannot hear words against the empress."

"And yet—"

"What?"

She stamped her sandal upon the stone of the floor. "You must be a very blind man, Deucalion, or a very daring one. But I shall not interfere further; at least, not now. I shall watch, and if at any time you seem to want a friend, I will try and serve you."

"I thank you for your friendship."

"You seem to take it lightly enough. Why, sir, even now I do not believe you know my power, any more than you guess my motive. You may be first man in this kingdom, but let me tell you, I rank as second lady. And remember, women stand high in Atlantis now. Believe me, my friendship is a commodity that has been sought with frequence and industry."

"And, as I say, I am grateful for it. You seem to think little enough of my gratitude, Ylga; but, credit me, I never have bestowed it on a woman before, and so you should treasure it for its rarity."

"Well," she said, "my lord, there is an education before you." She left me then, showing me how to call slaves when I wished for their help, and for a full minute I stood wondering at the words I had spoken to her. Who was this daughter of Zaemon, that she should induce me to change the habit of a lifetime?

The slaves came at my bidding, and showed themselves anxious to deck me with a thousand foolishnesses in the matter of robes and gauds, and (what seemed to be the modern fashion of their class) holding out the virtues of a score of perfumes and unguents. Their manner irritated me. Clean I was already, and shaved; my hair was trim, and my robe was unsoiled; and, considering these pressing attentions of theirs something of an impertinence, I set them to beat one another as a punishment, promising that if they did not do it with thoroughness, I would hand them on to the brander to be marked with stripes which would endure. It is strange, but a common menial can often surpass even a rebellious general in power of ruffling one.

I had seen many strange sights that day, and undergone many new sensations; but of all the things which came to my notice, Phorenice's manner of summoning the guests to her feast surprised me most. Nay, it did more; it shocked me profoundly; and I cannot say whether amazement at her profanity, or wonder at her power, was for the moment strongest in my breast. I sat in my chamber awaiting the summons, when gradually, growing out of nothing, a sound fell upon my ear which increased in volume with infinitely small gradations, till at last it became a clanging din which hurt the ear with its fierceness; and then (I guessed what was coming) the whole massive fabric of the pyramid trembled and groaned and shook, as though it had been merely a child's wooden toy brushed about by a strong man's sandal.

It was the portent served out yearly by the chiefs of the Priests' clan on the Sacred Mountain, when they bade all the world take count of their sins. It was the sacred reminder that from roaring, raging fire, and from the agony of monstrous earth tremors, man had been born, and that by these same agencies he would eventually be swallowed up—he and the sins within his breast. And here the empress was prostituting its solemnities into a mere call to gluttony, and sign for ribald laughter and sensuous display.

BATTLE WITH BEAR.

Remarkable Encounter in the Mountains of Wyoming.

Bruin Dragged Into Camp with a Rope and Finished with a Dozen Bullets — The Duel Described in Detail.

Henry A. Sommers, editor of the Elizabethtown (Ky.) News, who for more than a month has been roughing it in Wyoming, has had some exciting experiences in his search for big game. The country in which he has chosen to spend his vacation is famous for bears of the black and silver tip variety. More people are killed by these animals than by guns, and during the past 12 years over a dozen hunters have fallen victims to the beasts' rage. Last June Mr. Sommers was an eyewitness to a remarkable battle between a man and a bear, which he describes in a letter to his paper:

"In going down the mountains on the 22d of June," writes Mr. Sommers, "I saw one of the most wonderful fights with a bear that has probably ever occurred in this part of the country. I witnessed every detail of the exciting and dangerous conflict between man and beast. The hunter, whom I afterward met, was Mr. George Saban, one of the largest sheep owners in the state, and a man who served with great gallantry with the Rough Riders in the war with Spain.

"He saw a bear crossing a range of low hills. He had neither gun nor knife, but with the daring spirit of the frontiersman he started in pursuit, hoping to capture the animal with an ordinary rope which hung at the pommel of his saddle. Ten times he cast that rope with a trained hand and arm. Each time it fell with perfect precision over the

BEGINNING OF THE CONFLICT.

head of bruin, but each time the brute, with a movement which seemed almost human, with its forepaws lifted the rope from around his neck before Saban could tighten the noose. On the eleventh cast the rope struck the bear in his open mouth and before he could get it out the knot was drawn tight at the back of his head.

"Then the real battle began. First the bear would drag the horse and then the horse would drag the bear by the rope. Then the bear would make a rush at the rider, and only the finest horsemanship and a most agile broncho avoided the rush. Time and again as I witnessed these rushes I thought horse and rider would surely go down before them. I was unarmed, so could not go to his assistance, although he waved for help repeatedly. He told me afterward: 'I certainly at that point would have turned the bear loose had you not seen me, but after that my pride was up, and I determined to make the fight to a finish.'

"The battle lasted for more than an hour, gradually man and horse getting the better of it, and Bruin was finally dragged to Saban's sheep camp, where his herder and camp-mover were. Saban got a Winchester rifle and commenced pumping lead into the brute. He was dismounted and had fired four shots, each one entering the head, but still the bear came on. It was 'ntensely exciting. It looked like every minute the bear would be on the man. Saban told me at this juncture of the fight why he acted as he did. I will quote his own language:

"'I was surprised that I had not killed the bear. I knew with the shots I and the other men had fired that he had 12 balls in him, mostly in the head. I waited with my gun to my shoulder as he came on. I thought I had one more load in my gun. I let him get within two feet of me, with the barrel of the gun at his open mouth, when I pulled the trigger. It snapped; there was no load. I had made a fatal mistake. I thought it was all up with me. I turned to run and fell. In an instant I felt the hot breath of the bear in my face.'

"It was at this juncture that the other men got hold of the rope and with one tremendous pull dragged the bear from the prostrate man. In another instant he would have been killed. By this time the whole crowd was demoralized. The rope had gotten loose and the bear started for the forest. One of the men fired a shot which went directly through his heart and he fell dead in his tracks. It was worth going to Wyoming to see. There were 12 balls in that bear's head and neck and not one or all of them killed him."

COUNTY TICKET NOMINATED.

PROHIBITIONISTS ARE FIRST IN THE COUNTY TO HOLD CONVENTICN.

Selected Candidates for the Assembly—Passed Resolutions on McKinley.

(Special to The Daily Press.)

Elizabeth, September 14.—The Prohibitionists of Union county held a convention Thursday night in the W. C. T. U. Hall, on East Broad street. It was the largest and most enthusiastic convention ever held in the county, representatives being present from every section.

County Chairman W. B. Boyer, of this city, called the convention to order. Joel G. VanCise, of Summit, was chosen chairman, and E. W. Phares, of Elizabeth, secretary. Nominations for Assembly were made with the following result:

O. L. C. Reeve, of Summit; J. M. Brookfield, of Rahway; F. W. Myles, of Elizabeth.

The following were appointed as a committee on vacancies: George R. Sayre, W. B. Boyer and E. W. Phares.

Geo. J. Raven, the State chairman, was then introduced and made a very encouraging and helpful speech.

Dr. Howard made a few remarks after which a collection was taken, amounting to over $60.

A resolution was unanimously passed, sincerely regretting the attempt on the life of President McKinley.

The executive committee will meet Saturday, September 21.

SPORTING.

ROD AND GUN.

Herman A. Weber and Edward Sebring, together with a party of Plainfielders, have been spending several days at Barnegat. They report the fishing to be excellent.

DIDN'T ASSAULT HIM.

Chase, Jr., and Wearren Vindicated in City Court of Charge Made by Patrick Breen.

By their own statements and those of a number of reputable witnesses, Winfield Chase, Jr., and Thomas Wearren vindicated themselves in the City Court this morning of the charge made against them by Patriot Breen that they had assaulted him at the Dunellen trolley terminus last Monday evening.

Breen's story in court was vastly different from that told by him at first to the police, and he admitted that he had been drinking. The young men were honorably discharged, and Breen was informed that he would be lucky if they allowed the matter to drop at that.

Fall Schedule Begins.

The hours of service in Trinity Reformed church have been changed to the fall schedule, namely, preaching service at 10:30 a. m. and 7:30 p. m. Sunday-school at 2:30 p. m.

—B. W. Pursell, Kintersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve effected a permanent cure. Counterfeits are worthless. L. W. Randolph.

NO COUNCIL MEETING HELD.

THERE WAS SIMPLY ROLL CALL AND AN ADJOURNMENT.

No Need of Explanations—All Borough Councilmen Present But Two.

There was an awe of stillness about the Borough Council chamber last evening, which could not be misinterpreted. That some sad blow had befallen, or was about to befall, was perfectly evident. An adjourned meeting of the councilmanic body had been called. The regular meeting one week previously had stood adjourned on hearing the sad tidings of the cruel blow which had been struck the Nation, in the attempt on the President's life by a dastard in human form. Last evening the news had arrived that McKinley's life was fast passing away and that he stood at the very door of eternity.

It was one of those times which rarely comes in a generation when the patriotic instinct rises above all else, and no attention can be paid to temporal affairs. With the exception of Councilmen Swackhamer and Nichols all the members were present. Councilman Charles L. Lee arose as soon as the roll had been called and briefly moved that the meeting be adjourned. No mention was made of the occasion for none was needed. The motion was swiftly passed and the members of the body slowly wended their way from the room eager to hear the last word issued from the bedchamber of the dying statesman, soldier, president and friend.

Sunday Morning Meetings.

The Sunday morning prayer meetings of the First Baptist church which have been discontinued during the summer months will be resumed tomorrow morning at 9:30 o'clock.

Mr. Conde's work has always been of the highest order and a successful season is predicted by him. See his advertisement in The Press.

THE PRESIDENT'S FUNERAL.

No Definite Arrangements Made —Will Probably Be at Washington.

[From the Standard News Association.]

Buffalo, Sept. 14, 12:05 p. m.—No definite arrangements have been made for the President's funeral.

It is the desire of the Cabinet officers and others, who were close to McKinley, that the obsequies be held at the National Capitol and that the body be allowed to lie in state.

A great public funeral is the idea suggested by his friends, but it is understood that the family will wish the obsequies to take place in Canton.

The trip to Washington and then to Canton is counted upon as being too much for Mrs. McKinley's strength.

Mrs. McKinley is not being consulted in regard to arrangements, as she is in a weak condition.

Abner McKinley is acting as the representative of the family.

ASSASSIN REMOVED.

[From the Standard News Association.]

Buffalo, Sept. 14, 9:30 a. m.—The superintendent of police secretly removed Czolgosz from the police headquarters to the Erie county penitentiary last evening. The action was taken as soon as it was learned that the President was dying.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May Be Of Interest to Plainfield and Its Citizens.

"Cam week" in politics hasn't been the howling success that was expected. The edge of the appetites of the Franklin Murphy boomers was taken off by the shooting of the President; the Essex county Democrats couldn't get a square meal because of the raid on the feast by drunken hoodlums, and the Bob Davis outing, though largely attended, and the most enthusiastic of the three, was held under lowering skies. Now that this interesting period has been brought to a close, real politics ought to open up. "Don't be a clam" should now be the politician's motto.—Newark News.

Demand Legislative Action.

At last evening's meeting of Benevolent Council, No. 256, Jr. O. U. A. M., resolutions were adopted expressing the sympathy of the organization in the present national calamity and demanding that legislative action be taken tending to restrict the immigration to this land of those criminals whose sole object in life is the subversion of government and society.

Mass Meeting.

A mass meeting will be held tomorrow evening at the First church of Christ under the auspices of Benevolent Council, No. 256, Jr. O. U. A. M. All councils of this city and other patriotic orders, as well as every American citizen is earnestly invited to be present.

Mr. Whiteside Will Speak.

At the evening service in Warren chapel tomorrow, an address will be made by F. E. Whiteside, who is shortly to enter Drew Theological Seminary, to prepare for the ministry. The services will be in charge of Rev. J. O. McKelvey.

The Feed Crops.

Though this season's corn crop is no more than half what it should be, it is food for reflection that the coal crop of the Consumers' Coal Company, is A 1 in every particular. Try some of it.

—Neuman Bros. had a great sale of peaches today. They have a number of baskets left which they are offering very cheap this afternoon and evening, rather than carry them over until Monday.

NOTICE.

A mass meeting will be held in the First Church of Christ, tomorrow evening at eight o'clock, under the auspices of Benevolent Council, No. 256, Jr. O. U. A. M., to commemorate the death of President William McKinley. All Councils of this and any other patriotic order are earnestly invited to attend in a body and it is hoped that every American will also be present.

MOURNING SEEN EVERYWHERE.

FLAGS AT HALF MAST ALL OVER THE CITY.

Plainfielders Were Quick to Express Their Grief in Their Usual Manner.

From the regulation mourning position of the high mast of the city flag pole, at the intersection of Park avenue and Front street, waves the National banner in mute token of the sorrow visited upon the patriotic countrymen. Everywhere throughout the city and borough there is displayed emblems of mourning. The citizens of Plainfield were quick to express their grief by exhibiting the outward symbols of affliction.

There is such a general decoration within the corners of the city and borough that it is impossible to enumerate the countless instances. The First National Bank, the City National Bank, the headquarters of the G. A. R., Crosby & Hill's, Woodhull & Martin's, and other leading stores, The Daily Press, the headquarters of the fire department, Warren Engine Company, the West End Hose Company, and a multitude of other conspicuous buildings are appropriately adorned with the signs of mourning.

Flags at half mast and black and white bunting are being used extensively in the sorrowing decorations. Long before noon there was a general display of mourning everywhere.

ALL THE LOCAL CHURCHES UNITED TO MOURN THE PRESIDENT'S UNTIMELY DEATH.

Strong Words Of Denunciation Against Anarchy And Its Followers Heard From Many Of The Local Pulpits.

SEVERAL MEMORIAL SERVICES WERE HELD

DR. CARROLL, A PERSONAL FRIEND OF THE MARTYR PRESIDENT, SPOKE AT GRACE M. E. CHURCH.

Rev. Dr. D. J. Yerkes Favored Extreme Measures With Anarchists—Rev. Cornelius Schenck Denounced Yellow Journalism—Other Sermons of Similar Strain—Juniors Also Held a Memorial Service.

Without regard to denomination or political belief, the pastors of the Plainfield churches united with one accord yesterday to mourn the death of the Chief Executive of the Nation, and all the services at the local churches contained some reference to the great loss which the land has just suffered. Although the notice was brief, many of the clergymen spoke at length on the subject and were strong in their denunciations of anarchy and its followers, of which this despicable crime was the direct result.

FAVORS EXTREME MEASURES.

Rev. Dr. D. J. Yerkes Spoke on President McKinley and the Lesson of His Death.

At the morning service held at the First Baptist church yesterday, Rev. Dr. D. J. Yerkes, the pastor, took occasion to refer to the nation's sorrow and the service was appropriate to the occasion. An American flag draped with black covered the pulpit. The choir sang "Nearer My God to Thee" and "Lead, Kindly Light."

Dr. Yerkes said in part: "We are mourners as a nation today. Not our King, but our Ruler has been slain. We had hopes of the President's recovery, but God's ways are not our ways. Millions had prayed for his recovery, but today he lies silent in death. We must submit ourselves to God's will.

"Mr McKinley was a great executive and a great leader. During his service the country has become prosperous. The new and difficult problems that arose during his administration were met and settled to the satisfaction of the majority and in accordance with the constitution of the United States. The President was a Christian man who could say that 'This is God's way, Thy will be done.'"

"The man who caused the death of Mr. McKinley was the instrument of a society organized for assassination. This man was not alone. He was accomplishing a purpose that was set before him. Why should there be such an organization? Extreme measures must be adopted while this class of people is among us."

ENEMIES OF THE NATION.

Rev. Cornelius Schenck Believes Free Speech and Press Should be Controled.

The memorial service at Trinity Reformed church yesterday morning was largely attended. The pulpit was appropriately draped with an American flag, in the centre of which was a veil of black. Rev. A. F. Todd, of Dunellen, offered a fervent prayer in opening the service, after which Rev. Cornelius Schenck, pastor, delivered an impressive discourse taking for his text a portion of the thirty-ninth verse of the twenty-sixth chapter of Matthew: "O my Father, if it be possible, let this cup pass from me; nevertheless, not as I will, but as thou wilt."

Dr. Schenck spoke of the great sorrow at the death of the President. He considered it a personal grief, that the whole nation has lost a friend, a brother, who by his democratic ways, had consecrated himself to the people he represented.

Continuing, Mr. Schenck said in part: "He was a Christian. He had a hope in Jesus and his last words were 'Not my will, but thine be done.' Today we bow in humble submission to Him who holds the destiny of man. Next to the grief of the nation there is the sympathy for the stricken family, for her who was his companion. Then there is the admiration for our President. All agree that he was pure, kind and a most lovable man. His first thoughts were for his wife, then the wretch who took his life and then for the welfare of the Exposition. He was an exceptional character.

"We must record our feeling against that enemy who has come among us. Here is a man mentally sound, but a moral degenerate, proclaiming himself an Anarchist and only having done his duty. He opposes law and order and is therefore a libertine, a traitor and a rebel. He nor his kind should be allowed free speech. Banishment or life imprisonment should be their lot. Can a man be assailed day after day, caricatured in vile sheets without harm coming from it. These papers withdrew their cartoons when the awful deed was done, but repentance was then too late. The lesson should be first the utter extermination of anarchy from America, and then what is called free press and speech should be controlled.

"Though the President is gone the nation will be stronger and let us hope grow better every day. His works shall live. Let us today remember him who has been called upon to take the vacant chair, and may he be richly blessed and guided by Him who ruleth all things."

At the close Rev. Daniel Bapalje offered a short prayer. Then the favorite hymn of the President, "Lead Kindly Light," was sung by the congregation. The benediction was pronounced by Rev. Todd.

JUNIORS' MEMORIAL SERVICE

Americans Urged to Keep Undesirable Elements From Coming to This Country.

A memorial service was held in the First Church of Christ last evening under the auspices of Benevolent Council, No. 256, Jr. O. U. A. M. Considering the inclement weather the attendance was gratifying. An American flag was draped about the pulpit, in front of which was placed a picture of President McKinley in mourning.

Councilor J. P. D. Kirch was in charge of the meeting and was assisted by Rev. Mr. Morse, of Westfield, who read appropriate Scripture selections and offered prayer. Dr. J. Hervey Buchanan presided at the organ, while H. J. Martin, Sr., led the singing.

Mr. Kirch made a few preliminary remarks concerning the sudden and sad termination of the President's life. He then read the principles of the Jr. O. U. A. M., and urged the enactment by Congress of such laws as will keep out of this country such persons who do not want to become loyal citizens.

Mr. Kirch introduced Robert M. Clark, LL.B, who made a stirring address. He referred to the beautiful character of the President and of his love and devotion for his wife. He spoke of him as the typical American, always faithful to every duty and always at his post of duty. Mr. Clark said that the President died because this country was too good to a certain class of people too indolent to work. Referring to the undesirable class of people who come to this city and become naturalized, Mr. Clark said that within a week Judge Vail would sit at Elizabeth to naturalize a score or more of this class of people, and, while he did not wish to criticise Judge Vail, he thought it was time to call a halt.

At the close, Mr. Clark spoke of a set of resolutions that had been drafted and he hoped all present would sign them before going home. Mr. Kirch then read the resolutions and nearly everyone signed the paper. Before the meeting closed H. J. Martin, Sr., sang "Lead, Kindly Light," and Mr. Martin and his son, H. J. Martin, Jr., sang "Saved by Grace." The benediction was pronounced by Rev. Mr. Morse.

BLOT OUT ASSASSIN'S NAME.

Thus Would Rev. C. L. Goodrich Treat Memory of the President's Murderer.

At the morning service held in the Congregational church yesterday, much of the service was of a memorial nature. One of the hymns sung was Mr. McKinley's favorite, "Lead, Kindly Light." Alfred E. Holmes sang as an offertory solo Kipling's "Recessional."

The pastor, Rev. Charles Lyman Goodrich, read President Roosevelt's proclamation regarding the keeping of Thursday as a day of mourning and prayer, and referred at length in his sermon to the national tragedy. He urged his people not to think of the dastardly deed of the assassin, but to blot the name of Czolgosz out of their memories, and to think of the sad event only as being, in some unknown manner, what the President himself called it, "God's way."

He showed how the tragedy had already borne good fruit in drawing men closer together, and in calling attention to national evils hitherto neglected, and spoke also of the tremendous influence for good of the President's Godly life and heroic death. The service closed with the observance of the Communion.

RECOGNITION OF HIS DEATH.

Special Prayers At Episcopal And Roman Catholic Churches During Yesterday's Services.

At the morning services of all the churches in the Roman and Anglican communions of the Catholic church, in this city yesterday, the customary recognition of the death of a great civil authority was observed. In the majority of them Cardinal Newman's hymn, "Lead Kindly Light" was rendered by the choir.

In the Roman Catholic churches, St. Joseph's and St. Mary's, the regular prayers for the government and for the peace and prosperity of the people were said during the mass as was also a prayer for the new President.

The appointed prayer for the President and all others in civil authority as well as the special prayer for those under affliction was said at the regular morning services at Grace, Holy Cross, St. Stephen's and the Church of the Heavenly Rest. Rev. Mr. Downey, at Holy Cross, paid a tribute to the dead magistrate during the morning service. W. W. Moore, the lay reader of the Church of the Heavenly Rest, talked to the Sunday-school children of that parish on the subject in the afternoon.

Thursday morning during the time of the martyred President's funeral at the National Capitol, memorial services will be held at the Church of the Holy Cross and at Grace church, and probably also at St. Stephen's.

DR. CARROLL KNEW HIM WELL.

Was Chief Speaker at Memorial Service at Grace M. E. Church Yesterday.

A special memorial service was held in Grace M. E. church yesterday morning, and an eloquent address by Rev. Dr. R. K. Carroll, of Westervelt avenue, a personal friend of the martyred President, was the principal feature of the meeting. The little church edifice had been appropriately draped and the seating capacity was taxed to its utmost.

Dr. Carroll had enjoyed the intimate friendship of Mr. McKinley for over twenty years and during that time had been able to observe the many lovable characteristics of the great leader. They first met at the Republican National convention, at Chicago, in 1880, when the Plainfielder made a plea for the temperance plank, which was subsequently inserted in the platform, drawn up by the committee of which Major McKinley was chairman. Since then they met frequently. In 1896, Dr. Carroll was the guest for several days of the then Republican nom-

NO EVENTS AT PARK; PLAYED AT HILLSIDE.

Miss May Holly And D. H. Barrows Won Chief Honors At The Hillside Club.

COURSES WERE BOTH FAST.

WEEKLY COMPETITION AT PARK CLUB WAS CALLED OFF.

D. H. Barrows Is Now Second For Golf Committee Cup—Miss May Holly Scored a Win For The Fisk Cup—Also First For Mellick Cup.

The usual competitions attracted a number of golfers to the course of the Hillside Tennis and Golf Club Saturday afternoon. Miss May Holly and D. H. Barrows carried off the chief honors. At the Park Golf Club, the weekly competition for the President's cup was called off by the golf committee but a number of members enjoyed the afternoon on the links. The courses were fast and the threatened showers did not materialize.

PARK GOLF CLUB.

There was no play for the President's cup at the links of the Park Golf Club Saturday afternoon, the golf committee of which State Senator Charles A. Reed is chairman, calling off the play on account of the death of the President. A number of members spent the afternoon on the course.

HILLSIDE TENNIS AND GOLF CLUB.

There was the weekly play for the Mellick cup and the regular play for the Fisk cup on the Hillside Tennis and Golf Club course, Saturday morning, and with the exception of Miss Margaret Holly, who did not play for the Mellick cup, the contestants' scores counted for both events. Double honors were won by Miss May Holly, who not only won three points for the Mellick cup, but scored a win for the Fisk cup. She now has a total of five points for the Mellick cup.

Miss Marjorie Fleming won second honors and enters the competition for the first with two points, while Miss Margaret Tracy, winner of third honors, is now tie with Miss Maude VanBoekerck for third place with six points. By scoring a win for the Fisk cup, Miss Holly will be one of four to contest in match play for the trophy.

The scores for the trophies are as follows:

	G.	H.	N.
Miss May Holly	121	30	92
Miss Marjorie Fleming	121	25	96
Miss Margaret Tracy	123	23	99
Miss Margaret Goddard	119	18	101
Miss Margaret Holly	149	35	114
Miss Edith Tracy	142	18	124

The standing for the trophy is as follows:

	Points.
Miss vanHerwerden	27½
Miss Daisy Elsberg	14½
Miss Maud VanBoskerck	6
Miss Margaret Tracy	6
Miss Adelaide Ball	5½
Miss Margaret Goddard	5
Miss May Holly	5
Miss Marjorie Fleming	2
Miss May Evans	1
Miss Mary Whiton	1

In the afternoon the weekly play for the Golf Committee cup attracted a goodly number of contestants to the course. Dudley H. Barrows won first honors with a net score of 77, which is his best score for the season. This young ambitious player has been making steady improvement in his play this season and is deserving of all the honors that come through earnest and conscientious effort. Barrows won first honors a week ago and he now is a close second to C. Wesley Abbott with a total of nine and five-sixths points. Abbott leads with ten and one-half points.

Second and third honors were divided between D. H. Rowland and W. L. Glenney who made a tie score of 78. Each will receive a point and a half. This gives Rowland a total of six and one-half points, while Glenney takes a decided jump with a total of six points and is now among the leaders.

The scores made for the Golf Committee cup are as follows:

	Gross.	Hand.	Net.
Dudley H. Barrows.	92	15	77
W. L. Glenney	78	0	78

TEAM-SHOOT BY THE MILITIA.

COMPANIES K AND M WILL MEET AT SOMERVILLE RANGE.

Local Soldiers Will Go to Somerville For Target Practice Saturday, September 21.

Capt. W. Kempton Browning has completed arrangements for a team-shoot between Company K, of this city, and Company M, of Somerville. Each team will consist of ten men, and the match will be held on the rifle range at Somerville in the near future.

Through the courtesy of Company M the members of Company K will have the use of the rifle range Saturday, September 21, for practice. The scores made at Sea Girt and those that will be made at Somerville will serve as a basis in selecting the team to compete against the Somerville team.

In the match each man will be allowed ten shots. The distance will be five hundred yards. Captain Browning is anxious that all members who can take part in the practice will notify him as soon as possible. The match should be of considerable interest, and while the Plainfield boys are not sharpshooters, it is believed that a team can be selected that will make the Somerville team hustle.

MORE INSPECTORS.

The Trolley System is Increasing the Force of Men at the Terminals.

The new policy of sufficient employes and better service recently inaugurated by the Elizabeth, Plainfield and Central Jersey Street Railway Company, is manifest in the increased force of inspectors.

Where two formerly endeavored to keep the cars running on schedule time and at the same time scrutinize car registers, four have now been provided for the purpose. Two are located at each end of the line. Their duties will be to inspect all cars at the end of each trip, as a preventative of accidents, start cars from terminals and where a car is late, supplant the motorman until the lost time is made up. It is hoped in this way to prevent a tangled schedule which has been responsible in the past for numerous accidents.

The inspectors at the Plainfield end are Philip Maguire and Mark Hipp, and at the Elizabeth terminal, Charles Currier and William Biker.

WOODLAND AVENUE WIDENING.

Property Owners Are Trying to Carry Out Proposed Plan.

The property owners interested are about to make another and more determined effort to carry out the plan of widening Woodland avenue from Prospect avenue to the city line. The benefits to be derived from this widening are great and it is believed that it would be a strong attraction to the city and of great value to the adjacent property. It is quite likely that a meeting of the property owners will be held soon to discuss the matter.

Work Among the Boys.

The committee on boys' work at the Y. M. C. A. will hold a meeting in the association building Monday evening at 8 o'clock. The course to be followed in the coming year's work will be discussed.

Guests From Paterson.

Iona Council, Degree of Pocohontas, are arranging ty entertain Minnehaha Council, of Paterson, Wednesday evening. It is also expected that the Board of Great Chiefs will be present.

Gift For High School.

The library of the Plainfield High School has recently received an addition of five volumes through the kindness of Miss Everett, of Park avenue.

JERSEY ASKED TO HONOR HIS MEMORY.

Governor Voorhees Issues Proclamation Requesting Observance of Thursday.

MAYORS TO DO LIKEWISE

ASK ALL TO ABSTAIN FROM ALL WORLDLY LABORS THAT DAY.

And Gather at Their Houses of Worship and Honor the Memory of the Martyred President—Full Text of Proclamation.

When the obsequies of the late President, William McKinley, are being held in Washington Thursday, all the people of this land will unite in honoring his memory. The day will be observed as one of mourning and only the most necessary business will be transacted.

President Roosevelt issued a proclamation to that effect Saturday. This morning Governor Voorhees issued a similar one asking the people of New Jersey to observe the day. This evening, Mayors Jenkins and Smalley will issue local proclamations, requesting the observation of the day of mourning in Plainfield. Banks and exchanges will close. There will be no sessions of the public schools and all the stores are preparing to close their doors for day.

Governor Voorhees' proclamation, issued at Trenton this morning, is as follows:

{ State of New Jersey,
{ Executive Department.

The dreaded event has come and a great nation mourns. The mad deed of an enemy of mankind has ended the life of a soldier, a statesman and a Christian. Treason has done his worst. A people's chosen ruler sleeps the sleep that knows no breaking.

Henceforth the life of William McKinley, President of the United States, is a memory, but, as on the pages of an open book, to be read by all men, are written the deeds of one, in youth, braving the dangers of battle and offering his life as a ready sacrifice for his country and, in the years of manhood, serving the people long, earnestly and unselfishly. He lived to see the fulfillment of his hopes near-coming. He sought not of the hatred of any, yet, in the fullness of his honors, strong and well beloved, his last public words, those of hope and good will, he fell suddenly as if in the twinkling of an eye.

Horror stirs our souls and grief lays hold upon us, but the life of William McKinley and his gentleness, heroism and undaunted courage, when death drew near, endeared him to the hearts of his countrymen. His memory will abide for generations to come.

In the hope that his death may strengthen the life of the Nation and that He, in Whose hands are all events, may watch over us as a people and keep our rulers from all harm and that we may bear witness to our grief for our President's death, I, Foster M. Voorhees, Governor of the State of New Jersey, do hereby direct that the public buildings be draped in mourning and the flags draped at half staff for thirty days, and Thursday, September 19, the day on which the body of the dead President will be laid in its last resting place, that the people of this State do cease, as far as they can, from their usual business, and in their usual places of worship, gather together for prayer, or other religious memorial services, at the hour of 11 o'clock in the forenoon of that day.

Given under my hand and the privy seal, at Trenton, New Jersey, this 16th day of September, A. D., 1901.

Foster M. Voorhees, Governor.

Attest:—Hobart Tuttle,
Private Secretary.

A union memorial service will be held at the Crescent Avenue church Thursday morning at 10:30 o'clock. The arrangements are in charge of Rev. Dr. W. R. Richards and it is understood that Rev. Dr. D. J. Yerkes will deliver the address. It is probable that a number of the congregations will also hold separate services in the evening.

The Three Crimes.

A picture of considerable interest at present is to be seen in the window at J. W. VanSickle's butcher shop on North avenue. It represents the three assassinations, Lincoln, Garfield and McKinley, and is very vivid and lifelike. The picture has attracted the attention of hundreds of people since Saturday.

Charged With Robbing Editor.

On a charge of stealing $14 from Editor Daniel Clark, of Bound Brook, Michael McCarthy, of this city, was committed to Somerville by Justice Nash Saturday, to await the action of the Grand Jury.

CLINTON AVENUE WON IN THE LAST INNING

Great Game Played With The Hope Chapel Boys Saturday Afternoon.

THE SCORE WAS 11 TO 8.

ST. MARY'S PLAYED TIE GAME WITH CARWOOD A. C.

Plainfield Team Withdrew From Field In Twelfth Inning On Account Of Dispute Over Umpire's Decision—2 To 2.

Two exciting baseball games served to entertain the local baseball enthusiasts Saturday afternoon. A tight game was played between the Hope Chapel and Clinton Avenue teams in which the last inning found the Clinton Avenues ahead by a score of 11 to 8. The St. Mary's went to Garwood and played a tie game with the Garwood A. C., the Plainfield team leaving the field in the twelfth inning on account of dispute over the umpire's decision.

ST. MARY'S, 2; GARWOOD, 2.

Through a disputed decision on the part of the umpire, the St. Mary-Garwood A. C. game on the latter's grounds, Saturday afternoon, was abruptly terminated in the first half of twelfth inning with the remarkable score of 2 to 2. It was the closets and most exciting contest that has taken place in this vicinity this season.

The game from the beginning was snappy and energetic, both teams playing in league style. In the seventh inning, the score was tied and two extra innings still found it so. In the first half of the twelfth, Winn, of the St. Mary's, bunted to short. The ball was thrown wild and passing first base; struck a spectator making it a blocked ball. According to the rules agreed upon at the commencement of the game, a player was to get his base on a passed or blocked ball so Winn leisurely started for second. He was touched by the second baseman and was called out by the umpire. Manager Monahan and Captain Mack remonstrated but the umpire refused to reconsider his decision. Captain Mack then called the game.

Following is the summary:

CLINTON A. C., 11; HOPE CHAPEL, 8.

Close decisions and fast play were the characteristics which made the third and final contest for the season between the Hope Chapel nine and the Clinton Avenue team, an unusually exciting game of baseball Saturday afternoon. The match took place on the Plainfield avenue grounds and was witnessed by at least 600 enthusiasts, all demonstrative partisans of the rival nines, who went away satisfied that the score of 11 to 8 in favor of the Clinton Avenue team marked the relative ability of the opposing teams.

The fielding of both teams as a rule was exceptionally good and it was this feature that lent a large share of excitement. Generally the batters connected with the ball, which was speedily hauled in by a fielder and put to a baseman before one could say "Jack Robinson." Hope lost the game in the fourth inning, when Hewitt was touched up in lively fashion and four Clinton Avenuers crossed the home plate.

Clinton Avenue had got the lead at almost the outset and made a sure

TEA TABLE TALK.

Short and Gossipy Sketches That Are Not Always News, But Just as Interesting.

A well known Italian character about town, who has the reputation of being a harmless individual, and whose chief failing is drink, narrowly escaped a scund thrashing the other evening. While loitering in a barroom he made some offensive remark concerning the President, which prompted the proprietor to eject him from the place. One of the witnesses informed a burly colored "scrapper" of the affair, and the latter immediately set out on a still hunt for the villifier. Every public resort in the city was visited by the colored man who was anxious to have vengence for the language but fortunately for the offender, who is confined to the county jail on a conviction for drunkenness, the hunt proved fruitless.

One of the touching sights at the Fresh Air Camp, at Westfield this summer, has been the appearance of two sisters, the daughters of one of Plainfield's most esteemed and wealthy citizens. Day after day, they were accustomed to visit the camp, in their carriage, and for hours to sit by the side of a poor mother stricken with a fatal disease, reading to her from the Bible the story of of His love, talking about Heaven and the home over yonder that eye hath not seen, nor the ear heard, nor the mind comprehended the great things that God has laid up for those who are faithful. It would have put some of the ministers to shame, to say nothing of regular workers, the sisters simply going to Miss Curry, the manager of the camp, and asking her permission to see this poor invalid, and, when not reading, on the hot days fanning the patient sufferer, and keeping the flies from troubling her. The writer wishes he could have photographed the picture. It might have inspired some one to do something for somebody, who might be lying on a bed of languishing. Well may the father and mother feel proud of such beautiful daughters. It all reflects back to the home training. Plainfield can also be proud of the many beautiful characters the camp work has revealed this year.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Astamalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel.
NEW YORK, Jan. 8, 1901.

DRS. TAFT BROS. MEDICINE CO.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

Very truly yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., February 1, 1901.

DR. TAFT BROS. MEDICINE CO.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 15 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. February 5, 1901.
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street.

ROOSEVELT SWORN.

Assumes High Office Made Vacant by Death.

NO CHANGE IN NATIONAL POLICY.

The New President Also Announces Retention of the McKinley Cabinet and of Secretary Cortelyou—Proclamation Issued.

BUFFALO, Sept. 16.—"In this hour of our terrible national bereavement I wish to say that I shall carry out, absolutely unbroken, the policy of President McKinley for the peace, the prosperity and honor of our beloved country."

With these words warm upon his lips Theodore Roosevelt, at 35 minutes after 3 o'clock Saturday afternoon, took the oath of the president of the United States. He had actually been president since the moment that Mr. McKinley had expired, the cloak of responsibility shifting without ceremony from the shoulders of the dead president to those of the living.

The oath was administered at the house of Mr. Ansley Wilcox, 641 Delaware avenue, and President Roosevelt's declaration of policy was made in the presence of all the members of the cabinet and a distinguished gathering of friends of the dead chief magistrate as well as of the young, self reliant man who had stepped into his place.

Quite as important as the declaration that he would carry out the McKinley policy was President Roosevelt's request to all the members of the cabinet that they remain in office. This can be taken

PRESIDENT ROOSEVELT.

as indicating that the new president is entering upon his difficult task with a wise sagacity that impels him to a policy of conciliation.

He is not likely to call an extra session of congress. He is likely to perform the duties of his office in such a manner as will give the slightest shock or disturbance to commercial, industrial, financial or diplomatic conditions. He will go to Washington quietly and assume the reins of government as soon as Mr. McKinley is buried.

Cabinet changes of course are sure to come, but they will certainly be gradual, and no one has any authority to make a cabinet for President Roosevelt yet.

President Roosevelt passed a very quiet Sunday at the Wilcox house, only going out to attend the funeral of the late president. His secretary, Mr. Loeb, and his assistants were, however, kept busy opening telegrams and mail and classifying them. Piled up on the oak table in the sitting room of the house were at least 600 telegrams and letters, all of them expressing regret at the sad occurrence to the late president and assurances of confidence and support to the new president.

The only announcement the president had to make was that Mr. Cortelyou, the private secretary of President McKinley, would for the present act in that capacity for him because of his knowledge of the condition of affairs. Mr. Cortelyou confirmed this statement.

President Theodore Roosevelt reached Buffalo at half past 1 o'clock Saturday afternoon after a posthaste journey from the Adirondacks, whither he had gone to take his family home. He was driven to the Milburn house, which he entered with bared head. Today he accompanies the funeral party to Washington.

Soon after taking the oath of office President Roosevelt issued his first proclamation, setting apart Thursday, Sept. 19, as a day of mourning and prayer throughout the United States.

Mourning In Paris.

PARIS, Sept. 16.—The American churches of Paris were crowded yesterday with American residents and visitors in the expectation of allusions to the death of Mr. McKinley, and in every case the preachers made sympathetic references in their sermons and offered special prayers. Dr. Morgan, rector of the leading church on the Avenue Alma, devoted his sermon to a eulogy of Mr. McKinley's character as an American citizen and a Christian. The porches and interiors of the edifices were hung with crape and French and American flags.

Anarchism Worse Than Treason.

CHICAGO, Sept. 16.—"If the assassination of President McKinley has taught no other lesson, it has taught 70,000,000 people that anarchism is worse than treason and must be driven forever from the country." These ringing words from the lips of United States Senator William E. Mason caused the audience that crowded Hyde Park Methodist church at the memorial services to burst into a storm of applause.

Berlin Honors Our Dead.

BERLIN, Sept. 16.—The service of mourning for the death of President McKinley held yesterday morning in the American church in Berlin was very impressive. The edifice was heavily hung with crape and crowded with Germans, British and Americans. Among those who attended was Baron von Richthofen, German minister of foreign affairs.

A Tribute From Soldiers Abroad.

WASHINGTON, Sept. 16.—A cablegram was received at the war department from General Chaffee, at Manila, as follows: "The officers and the soldiers of the division of the Philippines beg the department to place an appropriate floral design on the bier of the president of the United States as a token of a great sorrow. They offer their deepest sympathy to Mrs. McKinley." In answer to this appeal the war department arranged with a local florist to supply a handsome white shield with the Eighth army corps badge in the center.

MOURNING IN THE PHILIPPINES.

Governor Informs Filipinos There Will Be No Change In Policy.

MANILA, Sept. 16.—The profoundest grief is manifested by every class in the community over the death of President McKinley. Governor Taft has issued a proclamation which explains to the Filipinos that, while the death of Mr. McKinley is an irreparable individual loss, it does not alter the stability of the government or change the course of the administration. This was considered necessary because the Filipinos thought Mr. Bryan would succeed him, having received the next highest number of votes in the electoral college.

Flags were ordered to be half masted for a month, while all employees of the civil government are to wear mourning bands on their arms. All the foreign consuls, wearing their uniforms, called at the residence of Governor Taft to tender their condolences.

General Chaffee has ordered that every officer and soldier in the archipelago, whether in the field, in camp, in garrison or in hospital, be notified.

Memorial services will be held on the Luneta by the civil and military authorities upon the day of the funeral.

A Russian Tribute.

ST. PETERSBURG, Sept. 16.—The all absorbing topic in St. Petersburg yesterday was the death of President McKinley. The tone of the press was uniformly sympathetic with the American people in their bereavement and uniformly just in estimating Mr. McKinley's character. The Novoe Vremya says, "He was a man of large talents and a beloved son of the country for whose welfare he unceasingly and successfully labored."

He Had to Apologize.

OSCEOLA, Wis., Sept. 16.—John Reidell of Vincent, Wis., is alleged to have remarked last Friday that "President McKinley was not worth a bullet." Several citizens heard the statement. They became indignant, but Reidell refused to retract and demanded protection from Marshal Brown. Reidell was made to apologize before several hundred citizens and kissed McKinley's picture draped in mourning.

King and Queen at Service.

COPENHAGEN, Sept. 16.—King Edward, Queen Alexandra and other royal personages attended a memorial service for President McKinley held yesterday in the English church. Rev. Mr. Kennedy, who officiated, referred to the assassination in terms of the deepest indignation and offered a prayer for Mrs. McKinley.

SHAFFER AGAIN MISSING.

Steel Strike Off, but Not So Ordered Officially.

PITTSBURG, Sept. 16.—Matters pertaining to the settlement of the steel strike are in a very unsatisfactory state. While the telegraphic notice was sent out by Secretary Williams to all vice presidents declaring the strike at an end, it cannot be learned definitely that the official order has been issued by President Shaffer. Some of the local strikers declare they have had no such notice, and many of them say they will not return to work, order or no order, unless they are recognized as union men.

President Shaffer arrived home at an early hour Sunday morning, but denied himself to all callers. Last night his wife, in answer to questions as to his whereabouts, said he had received a special letter calling him out of the city. To all intents and purposes the Amalgamated president might as well be in Siam as in the United States. He cannot be found, and the statement so anxiously looked for by all giving officially the basis of settlement must be delayed until the gentleman consents.

A member of the advisory board said last night that the official order calling the strike off has gone out and that the men generally would be at work within a day or two.

It is impossible to make an estimate of the number of men who returned to work this morning.

The tin plate workers who struck are in the worst plight of any of the strikers. Six tin plate plants have been started since the strike was ordered, and the men who were formerly employed in these works will have to go back non-union or remain idle.

The threat is openly and generally made that the tin plate workers will withdraw from the Amalgamated association and form a separate union of their own. The feeling of bitterness against the association is particularly strong among the strikers at the Star tin plant in this city. The company has succeeded in working this plant in full night and day with new men, thus throwing out entirely its old employees.

Schley Court Postponed.

WASHINGTON, Sept. 16.—Admiral Dewey has recalled the notice sent out by him for the meeting today of the Schley court of inquiry. It was intended that the members should assemble today and adjourn immediately after adopting resolutions of condolence, but after consideration Admiral Dewey decided that the proprieties would be best met by withdrawing the call. The court will be reassembled as soon as seems proper after the interment of the late president at Canton.

Anarchists Must Go.

JOPLIN, Mo., Sept. 16.—A society called Societas Americe has been formed, with headquarters of the national secretary at Joplin, the purpose of which is to demand the deportation of all anarchists from America and the cessation of all foreign immigration. The secretary of the society states that the names of the members will remain a secret.

The Ophir In Canadian Waters.

QUEBEC, Sept. 16.—The royal yacht Ophir, accompanied by the escort of battleships, arrived at a point twelve miles below the city yesterday afternoon. The boats anchored there for the night and will come up to the city on schedule time today.

Weather Probabilities.

Fair; fresh westerly winds.

A NATION'S DEAD.

Buffalo Pays Tribute to the Martyr President.

SIMPLE SERVICES HELD.

Thousands View Remains Lying In State at the City Hall.

MRS. M'KINLEY BEARS UP BRAVELY

A Cheerless Day—The City In Mourning—Touching Parting Scenes at the Milburn Residence—Hanna Takes Last Look—Immense Throngs About City Hall. Doors Closed at Midnight.

BUFFALO, Sept. 16.—Buffalo has become a city of mourners. The gay and flaming decorations of the Pan-American exposition have given way to the symbol of sorrow. Black drapery lines the city's streets. Bits of crape appear on every sleeve. The sorrow is indescribable. Sunday morning a single service took place at the residence on Delaware avenue where the martyred president died. A hymn was sung and prayer was offered over the dead body. That was all. Only the immediate family and the friends and political associates of the late president were present.

The scene there was pathetic in the extreme. Then the body was borne out to the waiting cortege on the brawny shoulders of eight sailors and soldiers of the republic. The cortege passed through solid walls of living humanity, bareheaded and grief stricken, to the city hall, where the body lay in state in the afternoon.

There a remarkable demonstration occurred which proved how close the president was to the hearts of the people. Arrangements had been made to allow the public to view the body from the time it arrived, at about 1:30 o'clock, until about 5 o'clock, but when the body arrived the people were wedged into the streets for blocks far as the eye could reach. Two lines were formed. They extended literally for miles.

When 5 o'clock came, 40,000 people had already passed, and the crowds waiting in the streets seemed undiminished. It was decided to extend the time until midnight. Then for hours longer the streets were dense with people, and a constant stream flowed up the steps of the broad entrance into the hall and passed the bier. When the doors were closed at midnight, it was estimated that 80,000 people had viewed the remains, but thousands of disappointed ones were still in the streets. The body lay in the city hall until morning, when it was taken to the station by a military escort, and at 8:30 the funeral train started for Washington over the Pennsylvania railroad.

The special Pullman train which carried the presidential funeral party was made up by the Pennsylvania railroad at Philadelphia and sent to this city. The train consisted of four Pullman cars, one of them an observation car, and a combination baggage and coach. Mrs. McKinley and her immediate relatives occupied one of the cars. The body of the president was placed in the observation car. The observation car was on the rear of the train. A raised dais had been built in the center of the car, upon which the coffin containing the remains of the dead president rested. The exterior of the car was draped in black and was the only one in the train giving an outward evidence of mourning.

Mrs. McKinley, the president, the cabinet and the relatives and friends of the dead president accompanied the remains. Mrs. McKinley bore up bravely during the service at the Milburn residence, and Dr. Rixey, her physician, thinks she will be able to support her trying part in the state funeral at Washington.

The day was gray and cheerless. Heavy clouds hung over the city, at times breaking to let through a rift of sunshine and then threatening to let loose a downpour upon the gathering multitude. The air was humid and heavy, and only a light wind from the south stirred the drooping flags and the emblems of mourning. The very elements seemed to lend fitting accompaniment to the scene of sorrow about to be enacted. Long before the time set for the funeral services the vicinity of the Milburn house was astir with preparations. At 9 o'clock long platoons of police officers, mounted and on foot, arrived at the grounds and were posted in details along the streets approaching the house. For a block in each direction the streets were roped off to keep back the gathering crowds. The vigilance of the officers in keeping back those not entitled to admission within the reserved area was redoubled, and those summoned to the service, the uniformed escort of marchers and those whose business imperatively brought them there passed within the four square precinct about the house where the body of the dead chief reposed.

Major General John R. Brooke, department commander of the east, who was personally in command of all the forces participating in the escort, arrived at 10 o'clock. He was in fatigue uniform, with service sword at his side. The two gold stars at the collar marked his high military rank. Around his left arm was wound a heavy band of crape. With him were his aids and half a score of other officers, all in fatigue uniform, with the badge of mourning on their sleeve.

The time was now approaching for the service. The tramp of the assembling military could be heard, and the walks leading up to the Milburn house began to be lined with those who were to be assembled about the bier. Even amid the stir of assembling a solemn and awesome silence prevailed, and the division of the escort came to their posts with silent bands.

The entire military and naval force, soldiers, sailors and marines, formed in company front on West Ferry street and there awaited the time for the services to begin. Meantime the members of the cabinet officials high in the government service and near friends of the martyred president began to fill the walks leading up to the entrance of the Milburn residence. They came separately and in groups, some walking, while those in carriages were admitted within the roped inclosure up to the curb.

It was just eight minutes before the opening of the service when a covered barouche drove up to the house, bringing President Roosevelt and Mr. and Mrs. Wilcox, at whose home he is a guest. The president looked very grave as he alighted and turned to assist Mrs. Wilcox from the carriage. His face did not relax into a smile to the salutations of those nearest the carriage, but he acknowledged the greetings silently and with an inclination of the head. Word passed up the well filled walk that the president had arrived, and those waiting to gain entrance fell back, making a narrow lane through which Mr. Roosevelt passed along to the house.

As the president passed within the house and the services were about to begin the long line of soldiers and sailors swung in column of fours into Delaware avenue and formed in battalion front along the beautiful thoroughfare opposite to the house and immediately facing it. On the extreme left were the regulars, on the right the sailors and marines, in the center the national guardsmen. They stood at parade rest, with colors lowered, each flag wound about its staff and bound with crape. The front of the house and the lawns had been cleared by this time, and the sweep of the avenue was now deserted save for the rigid, motionless ranks across from the house.

Within the house of death was woe unspeakable. In the drawing room to the right of the hall as President Roosevelt entered the dead chieftain was stretched upon his bier. His head was to the rising sun. On the noble face upturned to the Creator was written the story of the Christian forbearance with which he had met his martyrdom. "Thy will, not ours, be done," he had murmured when the dread messenger of death touched and summoned him. A calm and peaceful resignation not of earth was on the marble features. Death had emphasized the nobleness of his countenance. Only the thinness of his face bore mute testimony to the patient suffering he had endured. He was dressed as he always did in life. The black frock coat was buttoned across the breast, where the first bullet of the infamous assassin had struck. The black string tie below the standing collar showed the little triangle of white shirt front. The right hand lay at his side. The left was across his body. He looked as millions of his countrymen have seen him, save for one thing. The little badge of the Loyal Legion, the only decoration he ever wore, which was always in the left lapel of his coat, was missing. And those who remarked it spoke of it, and after the body was taken to the city hall the little badge which he prized through life was placed again where it had always been.

The body lay in a black casket on a black bearskin rug. Over the lower limbs was flung the starry banner he had loved so well. The flowers were few, as befitted the simple nature of the man. A spray of white crysanthemums, a flaming bunch of blood red American Beauty roses and a magnificent purple bunch of violets were on the casket. That was all. Behind the head against a pier mirror between two curtained windows rested two superb wreaths of white asters and roses. These were the only flowers in the room.

Two sentries, one from the sea and one from the land, guarded the remains. They stood in the window embrasures behind the head of the casket. He to the north was a sergeant of infantry. He might have been on the field of battle. He was fully accoutered, and his cap was on his head. In the other window was the sailor garbed in the loose blue blouse of the navy.

The family had taken leave of their loved one before the others arrived. Mrs. McKinley, the poor grief crushed widow, had been led into the chamber by her physician, Dr. Rixey, and had sat awhile alone with him who had supported and comforted her through all those sweet years of wedded life. But though her support was gone she had not broken down. Dry eyed she had gazed upon him and fondled his face. She did not seem to realize that he was dead. Then she had been led away by Dr. Rixey and had taken up her position at the head of the stairs where she could hear the service. Mrs. Hobart, the widow of the vice president during Mr. McKinley's first term; Mrs. Lafayette McWilliams of Chicago, who is her cousin; Miss Barber, her sister; Miss Mary Barber, her niece, and Dr. Rixey remained with her there. The other members of the family, Mr. and Mrs. Abner McKinley, Miss Helen McKinley, Mrs. Duncan, Miss Duncan, Mr. and Mrs. Barber, Miss Barber and Dr. and Mrs. Baer, had withdrawn into the library to the north of the drawing room in which the casket lay, and here also gathered other friends when the service was held.

The friends and public associates of the dead president all had opportunity to view the remains before the service began. The members of the cabinet had taken their leave before the others arrived. They remained seated beside their dead chief while the sad procession viewed the body. They were on the north side of it. A place directly at the head had been reserved for President Roosevelt. Secretary Root sat alongside this empty chair. Then came Attorney General Knox, Secretary Long, Secretary Hitchcock, Secretary Wilson and Postmaster General Smith in the order named.

About a hundred in all saw the remains. Some were so overcome with grief at the sight of the thin, placid countenance that their frames shook in convulsive sobs. Several clung to the side of the bier and with difficulty could be persuaded to leave. Almost every face was tear stained. The great love for this man choked all the house.

Senator Hanna, who had fairly worshiped his dead friend for years, entered the room at this time, but did not approach the casket. His face was set like an iron willed man who would not let down the barriers of his grief. The senator spoke to no one. His eyes were vacant. He passed through the throng and seated himself behind Governor Odell, sinking far down into his chair and resting his head upon his hand. During all the service that followed he did not stir.

Just before 11 o'clock President Roosevelt entered, coming into the room from the rear through the library. After passing into the hall he had made his way around through the sitting room behind into the library. There was an instantaneous movement in the room as the president appeared. The procession was still passing from the south side around the head of the casket and back between it and the members of the cabinet seated at its side. Every one arose, and all eyes were turned toward the president.

When President Roosevelt reached the head of the line of cabinet officers, he kept his face away from the casket. The infantryman guarding the dead was before him, rigid as a statue. Although the commander in chief approached until he could have touched him, the soldier did not salute. He did not even doff his cap. So does the soldier on duty guarding the dead. The president spoke to Secretary Root, or perhaps it would be more precise to say that the latter spoke to him.

The president appeared to be steeling himself for a look into the face of him whose death had made him the first ruler of the world. The tension in the room was great. None could keep their eyes from him. Every one seemed to be waiting. The minister of the gospel stood with the holy book in his hand, ready to begin. Perhaps it might have been sixty seconds. It seemed longer. Then the president turned and at the same time advanced a step. He bowed his head and looked down into the prison house of the man whose burden and responsibility he had taken up. Long he gazed, standing immovable save for a twitching of the muscles of the chin as he labored with heavy breath to repress his emotion. Perhaps he was looking into the face of him in whose footsteps he declared he would try to walk. At last he stepped back. Colonel Bingham, the aid to the president, standing ten feet below the foot of the casket at the side of the loyal Cortelyou, glanced in the direction of Rev. Charles Edward Locke of the Delaware Avenue Methodist Episcopal church, who was to conduct the service.

The pastor was at the door leading into the hall, a station whence his words could be heard at the head of the stairs. The signal was given, and there welled out from the hall the beautiful words of "Lead, Kindly Light," sung by a quartet. It was President McKinley's favorite hymn. Every one within sound of the music knew it, and as the voices swelled through the house grief numbed hearts began to break. Half of those in the room put their faces in their hands to hide their scalding tears. Comptroller Dawes leaned against a bookcase and wept as only a strong man bereft ever weeps. President Roosevelt seemed to be swaying to and fro as if his footing was insecure.

When the singing ended, the holy man lifted up his voice. He read from the word of God the fifteenth chapter of the First Corinthians. All had risen as he began and remained standing throughout the remainder of the service. "O death, where is thy sting? O grave, where is thy victory?" repeated the minister, and the cast of the Madonna on the wall above his head seemed to reach her supplicating hands uplifted above the Christ Child over toward the dead. Again the voices rose with the words of "Nearer, My God, to Thee," the very words President McKinley had repeated at intervals of consciousness during the day of agony before he died. As the music died away the pastor spoke again. "Let us pray," he said, and every head fell upon its breast. He began his invocation with a stanza from a well known hymn, as follows:

"O God, our help in ages past,
Our hope for years to come,
Our shelter from the stormy blast
And our eternal home."

All present joined in the Lord's Prayer as the minister repeated it at the close, President Roosevelt's voice being audible at the back of the room. The service concluded with a simple benediction. Those in the room stepped back. The funeral director was about to step forward to place the cover on the casket when suddenly there was a movement behind Governor Odell. Senator Hanna, who had risen, saw that the last opportunity to look into the countenance of his dead friend had come. He could restrain himself no longer. Pressing forward, in an instant he was at the side of the casket and bending over and looking down into it with all his eyes. A minute, almost two minutes, passed while he gazed steadily into the window of the coffin. There were no sobs. His grief was deeper than that. He simply looked and looked and drank in the features of the dead. It was pathetic in the extreme. Then he turned away. The coffin was closed.

Colonel Bingham signaled the body bearers. Four jack tars of the navy, two infantry sergeants and two artillery sergeants bore the casket aloft and out of the house. The president, cabinet and the others followed it. Mrs. McKinley and the members of the family remained. The widow had passed through the ordeal bravely and without breaking down. The trained nurses and the personal attendants of the president gathered on the side porch to see the body taken away. Through their tears from behind the screen of vines they saw it borne from the house, and as long as the hearse in which it was deposited remained in view they strained their blurred vision to see it. These noble women who minister to the sick and who are inured to sorrow were prostrated with grief.

It was within a minute of 11:30 o'clock when three long rolls of a muffled drum told those outside the house that the funeral cortege was about to appear. From the darkened rooms the sorrowing assemblage began to file out to the street. Soon the walks and lawns were again covered with the silent throng, with heads bared. Suddenly through the green vineclad entrance and above the sea of heads there was a burst of color as the stars and stripes and the masses of flowers lying on the casket came into view. Then the dark outlines of the casket itself, carried high on the shoulders of the bearers, came out from the arbor of vines. At the instant it appeared "Nearer, My God, to Thee," ascended in subdued strains from one of the military bands. It was a strangely majestic spectacle as the flag and flower draped coffin moved slowly along above the level of heads. For a moment there was a rift in the cluods, and a burst of sunshine fell across the flowers and flags. An involuntary exclamation went up from those about at the impressive beauty of the scene. Tenderly the bearers lowered the casket from their shoulders and committed it to the hearse.

The time for the cortege to move had now arrived. The solemn notes of Chopin's funeral dirge succeeded the sweet strains of the hymn. The soldiers and sailors swung into long columns and took up the march southward toward the city hall.

As the cortege moved south through Delaware avenue toward the city hall it passed through a vast concourse of people filling the walks and cross streets and crowding housetops, windows and every available space of the buildings along the line of march. It was plain to see from this popular outpouring that the hearts of the people had been deeply touched, and as the flower covered coffin passed along women cried and strong men gave expression to universal feelings of grief.

As the escort of soldiers swung slowly into Franklin street a few drops of rain fell. In two minutes it was raining hard. The long line of troops took their positions at attention facing the city hall. Carriages containing members of the cabinet hurried up to the entrance. The last of the carriages was the one bearing Theodore Roosevelt.

Removing his hat, the president stepped from the vehicle and walked into the vestibule. When the hearse appeared, the four horses were led slowly to the entrance and stopped. Here it was that the silent throng of onlookers were made to thrill at a spectacle of nature's doing. At the instant the hearse became stationary the band, some distance away, began "Nearer, My God, to Thee." At the same instant precisely, as if preordained by the Almighty, the floodgates of heaven seemed to let themselves loose. The rain came down in sheets and, driven along by a southwest gale off the waters of Lake Erie, tore across City Hall square as if the elements themselves were raging in anger at the monstrous crime which made necessary this mournful function. Tenderly the casket was lifted from the hearse to the shoulders of the sailors and marines and tenderly was the precious burden borne into Buffalo's official home. Outside there was not a man, so far as could be seen, who did not stand defying the elements with hat removed, respecting his dead president. Inside, with steps impressively slow and measured, the bearers made their way to the catafalque. A moment later and the body of President McKinley was lying in state.

At 1:25 exactly the police were notified that the body could be viewed by the people. A minute later and the first of the long line came through the doors. However anxious, however persistent, however unruly, the people of the enormous crowds might have been prior to their admission, all was changed as they entered the temple of the dead. Solemn visaged, in dignified silence they moved past the bier to view the face of the president. In twos they went in on either side. Many, stirred to their innermost souls, lingered or sought to linger, while the police gently urged them forward. Old men and weak women, strong men and children, leaders of men, and laborers, cripples and perfect specimens of manhood—all these classes were represented in the throngs that filed past, typical indeed of the democracy of the people over which William McKinley ruled as president.

During the first hour the people passed the catafalque at the rate of 115 to the minute. They seemed as the afternoon wore on to come more rapidly. Outside the lines were amazing in their dimensions. The longest line passed out Franklin street, two long blocks through Church street to Main street, where half a mile both down and up its arms lost themselves in continually growing crowds. When the doors were finally closed at midnight, thousands were still in line outside the hall.

England In Mourning.

LONDON, Sept. 16.—It would be almost impossible to record in detail the remarkable outburst of sympathy in Great Britain and her colonies over the death of President McKinley, proofs of which are continually arriving here. Not only has King Edward commanded the court to go into mourning for one week, but wherever a public meeting of any kind has been held or wherever a public man has had occasion to speak expressions of horror and sympathy have been heard. In every place of public worship yesterday from St. Paul's cathedral and Canterbury cathedral down the preachers made special references to the terrible event, invoking God's blessing upon the United States and the American people. Crathie church at Balmoral, whose bells had never before been used except on occasions of national interest, broke the custom and announced the event. The morning papers again appear with heavily leaded borders and are almost entirely devoted to Mr. McKinley's death. No such extended tributes of sympathy and respect ever marked the death of any person but a British sovereign. They certainly would not have been called out by the death of any continental ruler.

Funeral Arrangements.

WASHINGTON, Sept. 16.—The following official statement making important changes in the plans for the funeral services over the remains of President McKinley in this city has been given to the press: In compliance with the earnest wishes of Mrs. McKinley that the body of her husband shall rest in her home at Canton Wednesday night the following changes in the obsequies of the late president will be made: Funeral services in the rotunda of the capitol will be held Tuesday morning on the arrival of the escort which will accompany the remains from the White House. The body of the late president will lie in state in the rotunda for the remainder of Tuesday and will be escorted to the railroad station Tuesday evening. The funeral train will leave Washington at or about 8 o'clock Tuesday evening and thus will arrive at Canton during Wednesday.

Assassin Kept In Ignorance.

BUFFALO, Sept. 16.—The assassin Czolgosz does not yet know that President McKinley is dead and will probably not know it until he is arraigned for murder. He will be indicted by the grand jury probably today, and the case will be then immediately removed to the supreme court. The arraignment will take place in that court and will be very soon, the exact time depending on the time of the returning of the indictment.

Death Caused by Gangrene.

BUFFALO, Sept. 16.—The coroners of Erie county have issued the following certificate of death of the late president: "We hereby certify that William McKinley died on the 14th day of September, 1901, about 2:15 o'clock a. m., aged fifty-eight years, seven months, fifteen days, and that to the best of our knowledge and belief the cause of death was gangrene of both walls of stomach and pancreas following gunshot wound."

Anarchy Condemned.

CHATTANOOGA, Tenn., Sept. 16.—A mass meeting of 5,000 citizens was held in the Auditorium here to pay tribute to the memory of President McKinley. The addresses strongly condemned anarchy and demanded the enactment of stringent laws on the subject. A committee of five was appointed to attend the president's funeral.

Embassador White Coming Home.

BERLIN, Sept. 16.—United States Embassador White will leave today for England. He expects to sail for the United States from Southampton by the Auguste Victoria. It is in his plans to visit Mr. Carnegie.

A Change Is Needed.

The owners of every good horse in Plainfield view with much indignation the apparent neglect on the part of the New Jersey Central Railroad Company in allowing the driveways leading to the new east bound station to remain in their present condition. There is not the shallowest pretence at a good roadbed, only a surface of large jagged rocks which threaten to ruin the hoofs of the horses and the rubber tires of the vehicles.

There are hundreds of Plainfielders, who daily drive from their homes to the station and there take the train for New York, to return in the evening and again be conveyed over Plainfield's fine roads to their homes. As far as the streets themselves are concerned, they are kept in uniformly excellent condition. All the travel over them would not injure the best horse or the most valuable vehicle.

From the public thoroughfare to the station platform, the railroad company is supposed to build a driveway for the accommodation of its patrons. To the new station there are driveways leading from East Fourth street and Park avenue. But such driveways. The one leading from Park avenue, which would naturally be used more than the other, is in the worse condition of the two. When the station was being erected, it was said that macadam driveways would be built but it has never been done.

The present condition of those driveways is a disgrace to the city. Even such a benighted community as Hunterdon would actually feel ashamed to possess such a place. The roadway is composed of large stones which usually form the foundation of a telford pavement. The edges are sharp and threaten ruin to the rubber tire which crosses them. The stones are so large as to even make it dangerous to drive a valuable horse over them.

There are many residents who are now left at the curb on Park avenue because they do not care to drive their horses over this roadway. They were willing to put up with such a condition temporarily, but time has passed and the roadways remain the same. If the railroad company has its own interests and those of its patrons at heart, it will lose no time in seeing that these driveways are put in proper condition.

It did not require Mayor Jenkins' proclamation to cause the people of Plainfield to properly display the signs of mourning which are now to be seen on every hand. As soon as the people realized that the President was dead, flags were lowered to half mast and stores and private residences were draped in black and white. The Mayor's proclamation was, however, very appropriate and showed that he fully realized the great loss which this land has suffered.

There are few men who have served the city and the Republican party so long and faithfully as Councilman John B. Dumont. He has now expressed his desire to resign from membership in the Republican city executive committee. His fellow members are loath to see such an efficient worker retire from active participation in the work of the local campaign and have appointed a committee to wait on him and persuade him to change his decision.

The first official act of the new President, Theodore Roosevelt, was to issue a proclamation deploring the death of President McKinley and setting Thursday as a day for the nation to mourn the loss of the great statesman. Governor Voorhees today issued a proclamation asking the people of New Jersey to observe the day set by the President as much as possible.

It was The Daily Press which kept the people informed of the progress of the President's illness and gave the very latest bulletins of his condition. The great crowds which assembled in front of this office and read the frequent bulletins testified as to the appreciation of The Daily Press' enterprise.

There is one way to secure an equitable reduction of the water bills of the Plainfield Water Supply Company. The general introduction of water meters will accomplish that much desired end.

Plainfield's population is being depleted by the departure of a number of young men and women who are now on their way to the higher institutions of the land, many of which open this week.

With one accord the congregations of the local churches united in mourning for the great President whose untimely death was heralded across the land Saturday morning.

There should be no delay in meting out justice to the assassin Czolgosz Let him have a fair trial, but let the punishment follow as speedily as possible.

Senator Wellington is likely to discover that the people of this land will not stand lamely by and hear insulting remarks made about their President.

This union of State and charter elections makes it necessary to revise the local primary laws of the Republican party.

According to the precedent of past years, straw hats have been called in.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May Be Of Interest to Plainfield and Its Citizens.

The summer resort "season" is practically at an end, and it has barely escaped being a failure. The month of July was very poor. August found all the resorts crowded to their utmost, but four weeks of good business cannot make up for four weeks of very poor. The summer season at the resorts is short at best, and, to pay, must be good from the time it opens until it closes. From June 20 until August 1 the resorts were sadly neglected. Some say the Pan-American took away the guests. Be this as it may the summer hotels did not get them, and August was barely able to pull the season through with a little balance on the right side of the ledger.—Elizabeth Journal.

* * * * * *

Congressman Charles N. Fowler said yesterday that, although he had not been active in the pursuit of political information since his return from Europe a few days ago, such contact as he had had with Republicans of prominence led him to believe that the nomination of Franklin Murphy for governor was a foregone conclusion, and that the prospects of the election of the Republican Assembly tickets in the counties was most encouraging. Mr. Fowler said that he knew nothing whatever of the report that the Union county delegates to the Republican State Convention would be asked to recommend him for the chairmanship of the committee on resolutions. This suggestion has, however, been made, and has met with much favor in Union county, as well as in other parts of the State. It also has been said that Congressman John T. Gardner probably would be asked to second the nomination of Mr. Murphy. Nothing definite has been done toward the selection of a chairman of the convention.—New York Tribune.

BRANCH FOR WOMEN

Effort Being Made to Organize Union Veterans' Union Relief Corps.

An effort is being made to organize a branch of the Women's Union Veterans' Union Relief Corps in this city. There are a number of flourishing societies of this organization throughout the State and it is believed that one will soon be established here.

Mrs. Hancock, of Jersey City, one of the National organizers, is in this city enlisting support for the movement. She has visited the homes of the members of Antietam Command, No. 3, Union Veterans' Union, and declares that already sufficient women have signified their intention of joining to insure the success of the undertaking.

DUNELLEN.

(Special Correspondence.)

Dunellen, September 16.—For the second time an ordinance recognizing and regulating the fire department of the borough has been introduced before the Mayor and Borough Council. The first one, prepared by the late H. C. Gaskill, failed to meet with favor because it was encumbered with so many restrictions and rules. The proposed ordinance will be brought up for its second reading at the next regular meeting of the Council, October 7, at which time the public pros and cons may be heard.

The condition of the road at the trolley junction makes it very disagreeable for all passengers. The water from the hydrant floods the roadway and makes it almost unpassable to pedestrians who are compelled to transfer there.

It is expected that the State Board of Health will investigate the causes of the typhoid fever which has claimed two victims of the five who have been sick. These five all lived within a stone's throw of each other.

The Board of Registry and Election for Dunellen will consist of G. W. Day and S. C. Staples, Democrats; Eugene Runyon and Frank Humpson, Republicans.

Frank Nelson has returned to New York after spending Saturday and Sunday at the home of his parents, Mr. and Mrs. L. B. Nelson.

Mrs. Emily Apgar, has returned home after a few days' visit at the home of her daughter, Mrs. H. L. Terry, of Westfield.

Miss Lizzie Hunt will leave tomorrow for Niagara Falls and the Pan-American Exposition.

Miss May Apgar has returned from a visit with her sister, Mrs. Sherman Cooley, of Flemington.

Adam Dealaman has returned home after spending a few days with relatives at Knowlton.

Baptism was administered by the pastor at the Presbyterian church yesterday morning.

The regular meeting of the Building and Loan Association will be held this evening.

Lewis Tinsman is now occupying the house recently vacated by P. L. VanArsdale.

Mrs. O. Batson, of Plainfield, has been visiting at the home of Mrs. W. H. Cole.

John Grey, of Irvington, has returned home after a visit with local friends.

Valentine Kirby is improving from the effects of a sprained ankle.

Mrs. Frank Wynecop spent Saturday with out-of-town friends.

Work was resumed upon the G. W. Day house this morning.

Bert Stilger has left the employ of W. G. Runyon.

Edward White is the possessor of a new bay pacer.

NEW MARKET

(Special Correspondence.

New Market, Sept. 16.—Rev. A. E Main, of Plainfield, preached in the Baptist church yesterday. During his sermon he made some very touching remarks upon the life and death of the late President.

The Piscataway Board of Registry and Election will be composed of Frank A. Nelson and William Coulter, Democrats; George W. Corriell and Eugene Veghte, Republicans.

Frank O. Nelson and David J. Perrine will serve as petit jurors during the September term of the Middlesex County Court.

The teachers of the various schools in Piscataway township organized a Professional Reading Circle at their last meeting.

Fred Holden is improving from an attack of malaria.

The G. E. Club will meet this evening.

PLAINS AND FANWOOD.

(Special Correspondence.)

Scotch Plains, September 16.—Appropriate memorial services for the late President McKinley were held in the Baptist church yesterday. The pulpit was draped in black with the American flag hanging from the front. At both services several of the favorite hymns of the President were sung by the choir. The evening sermon by the pastor was given up to a memorial address. Thursday afternoon between the hours of 3 and 4, a special prayer service will be held in the parlors of the church.

The invitation dance, which was to have been given by Mrs. Knight Saturday evening in the Fanwood Fire House, was postponed on account of President McKinley's death.

A number of the lovers of the national game in town attended the game yesterday at Rahway between the Nationals and Poughkeepsies of the Hudson River League.

The Saturday evening dance at Anderson's pavilion was cancelled on account of the death of President McKinley. The dances will be resumed Wednesday night.

George L. Dunn led an interesting meeting of the Baptist Young People's Society in the church last night, subject, "True Honor."

Miss Florence Darby, of Alton, was the guest Saturday and Sunday of her friend, Miss Cora Miller.

John E. Flannery, of Plainfield, spent Sunday with his daughter, Mrs. George H. Johnston.

Mrs. Elizabeth Parse, of Plainfield, has been visiting her sister-in-law, Miss Susie Parse.

Joseph Alberts has accepted a position at the Æolian Organ Works, Garwood.

Miss Sadie Regar has returned from a visit with friends at Cranford.

SOUTH PLAINFIELD.

(Special Correspondence.)

South Plainfield, Sept. 16—A petition addressed to the State game warden, to prohibit the drawing off of the water from the local mill pond, between March 15 and November 15, is being circulated and finding ready signers among the residents of this town. Protest is made against the killing of numerous fish and the consequent putrification which breeds disease. The paper is in the hands of William E. Smith.

The "Get Together" club met Saturday evening at the home of Mrs. W. H. Manning. Music and singing was the chief pastime.

Miss Emma Manning has been entertaining Mrs. Herbert and daughter Bessie, of Bound Brook.

Mr. and Mrs. Edward TenEyck, of Newark, have returned home after a visit with local relatives.

The local grist mill is about to be started after standing idle for several months.

Isaac Randolph, of Elizabeth, has been visiting friends in town.

Wm. E. Smith has been entertaining friends from New York.

SOMERSET'S DELEGATES.

Will be Chosen at Primaries to be Held Friday And Saturday, September 20 And 21.

Next Saturday, September 21, the Republican voters of the several townships and borough of Somerset county will meet to elect delegates to attend the Republican State convention for nomination of candidate for Governor, which will be held at Trenton, Thursday, September 26, at 12 o'clock noon. In all cases, except Bound Brook and North Plainfield the primaries will be held at 3 o'clock in the afternoon of Saturday, September 21. The primaries at Bound Brook and North Plainfield will be held Friday evening, September 20, at 8 o'clock.

The county is entitled to eighteen delegates, North Plainfield being entitled to three. In the borough the meeting will be held at the High School. The call for the primaries is issued by Senator Charles A. Reed, as chairman of the county executive committee.

CLINTON AVENUE WON IN THE LAST INNING.

[CONTINUED FROM PAGE 1.]

thing of it. By good work the Hopes succeeded in catching up in the eighth, but in the final inning their opponents put plenty of ginger in their article of ball. Hewitt, who had been put in the box at the beginning of the third inning, was tapped with a vengence.

Parent had gotten his first by being hit. Dodd and Parent found it easy to visit the bases. Then came Bolmer to the bat and he drove a great single, bringing in the two men on bases. Hardingham followed with another single, letting Bohmer cross the home plate. Hope did nothing and in a few moments all was over.

Bosterli, at short, and Symons, at first, did good work for the winning team. Symons was also good at the bat, and were also Mumford and Bolmer. For the Hope team Jim Montross, although putting up a poor game while in the box, connected with the ball in great shape. He made a fine two-base hit in the first inning. Mague also gave a similar exhibition. Hewitt and Hartfelter were likewise notable with the stick.

Hope's weak point was in the field. Evens, on first, and Feiring, on third, fell far below what was expected of them. There was any number of tight decisions, and the contesting nines were fortunate in having two impartial and well-qualified umpires, Alexander Muir and George Dupee.

During the entire game there was but one double play. Hewitt sent a fly to Dorflinger, who put it to second, where Parent got at J. Montross.

Primping Willie Put to Flight.

He was one of those Willie boys who delight to stand in front of any available mirror and primp up. Even a plate-glass show window is not despised by the Willie boy, and when this particular one stopped and gazed at his reflected image in the window of a Chestnut street shop the other afternoon, his actions attracted but little comment. First he readjusted his tie, then he buttoned his coat and caressingly smoothed the wrinkles out, and was tilting his imitation Panama rakishly to one side of his head, when a young woman recognized him and stopped. "Well, Jack," she said, laughing, "are you thinking of buying a pair?" He turned and encountered her roguish eyes, and then realized for the first time that the window contained an array of corsets. "Oh, I don't know," he replied, blushing and confused. "That is—I mean—well, what of it?" And without so much as a tip of the hat he hurried off down the street.—Philadelphia Record.

Discriminating.

An Irish farmer went into an ironmonger's shop to buy a scythe. After serving him the shopman asked him if he would buy a bicycle.

"What is that?" queried the Irishman.

"It's a machine to ride about the town on."

"And, shure, what might the price of it be?"

"Fifteen pounds."

"I'd rather see £15 in a cow."

"But what a fool you would look riding round the town on the back of a cow!"

"Shure, now," replied the Irishman, "not half such a fool as I'd look trying to milk a bicycle!"—London Tit-Bits.

Where Music Was a Detriment.

Mme. Amy Sherwin, like most singers who have toured the world, has had some amusing experiences. Her last experience in Adelaide was a funny one. Her hotel was opposite the houses of parliament, and the night she arrived the gambling bill was to be passed, and a crowd of about 7,000 people outside, who were there to welcome the sweet singer, kept demanding a song. At last she gave "Home, Sweet Home" from the balcony. So many of the members came over to listen that, when it was time to vote, there were not sufficient present to pass the much-desired and hitherto strongly-supported measure.—Chicago Record-Herald.

Profit in Shark Fishing.

In all the equatorial islands of the North and South Pacific shark fishing is a very profitable industry to the natives, and every trading steamer and sailing vessel coming into the ports of Sydney or Auckland from the islands of the mid-Pacific brings some tons of fins, tails and skins of sharks. The principal markets for the former are Hong-Kong and Singapore, but the Chinese merchants of the Australasian colonies will always buy shark's fins and tails at from 6d to 11d per pound.—Cleveland Plain Dealer.

Novel Zurich Watch.

In Zurich a very novel watch has just been made. It forms the cup or heart of a jeweled flower, which is intended to be worn as an ornament. The flower itself can be opened or closed by touching a tiny spring, and when it is closed the little watch is not visible. When a lady wearing such an ornament desires to know the time all she has to do is to touch the spring, whereupon the flower opens and the watch is revealed.—N. Y. World.

Hurrying Up Her Answer.

"Ethel," he whispered, "will you marry me?"

"I don't know, Charley," she replied, coyly.

"Well, when you find out," he said, rising, "send me word, will you? I shall be at Mabel Hicks' until ten o'clock. If I don't hear from you by ten I am going to ask her."—Stray Stories.

NO YELLOW JOURNALS.

Chief Campbell on the Lookout—Drove One Vender Away Saturday Afternoon.

A decree has been issued proclaiming that for the present no "yellow journals" shall be sold within the gates of North Plainfield. There is no appointed vigilance committee, but Chief Marshal Campbell has had his optics examined for color blindness and is out after the "yellers."

Saturday afternoon Mayor Smalley detected an emigrant from New York shouting out his wares of a 31st extra edition of a New York paper, and he dispatched Chief Marshal Campbell to summarily eject the intruder with inflammable sheets. The officer told the man that he would be allowed eight minutes to get out. The peddler obeyed within the time limit.

DECLARED INSANE

Mrs. Bridget Pyquette, in Court Saturday, Sent to State Hospital.

Mrs. Bridget Pyquette, of West Second street, who was sentenced by City Judge Runyon Saturday to forty days in the county jail, was later found to be in the last stages of insanity. She was examined by Dr. Carman and Mayor Jenkins who pronounced her hopelessly insane.

She was removed to the State Hospital at Morris Plains by Patrolman McCarthy this morning. The woman's husband was killed a few years ago at the Prospect avenue crossing of the New Jersey Central at Dunellen.

MASONS IN AMERICA.

Almost as Numerous as the Sands by the Seashore.

Organization of the Various Branches of the Fraternity—How President McKinley Came to Join the Order.

[Special Louisville (Ky.) Letter.]

THE triennial conclave of Knights Templar at Louisville has stimulated interest in masonry to an almost incredible degree. Considering the immense membership of the order in all parts of the country, it is surprising that the information concerning it obtaining among the masses is so inaccurate. Masonry in the United States is divided into two distinct branches—the York rite and the Scottish rite. Aside from the fact that both branches acknowledge the blue lodge as the fundamental basis of their organization, there is no connection beween them.

HENRY BATES STODDARD.
(New Grand Master of Knights Templar of the United States.)

In the United States the York rite of masonry is numerically the stronger; in Europe the Scottish rite is perhaps a trifle more popular. The York rite includes the three blue lodge degrees—entered apprentice, fellowcraft and master mason; the chapter degrees—mark master, past master, most excellent master and royal arch mason; the council degrees—royal master, select master and super excellent master; the commandery degrees — red cross, knight templar and knight of Malta.

Blue lodge masons owe allegiance to the grand lodge under whose jurisdiction the lodge to which they belong is working. Each state grand lodge is independent, but in full affiliation with the grand lodges of other states and with the grand jurisdictions of British America, England, Ireland, Scotland, Cuba, Peru, South Australia, New South Wales, Victoria, Mexico, Germany and Austria. They do not affiliate with masons under the jurisdiction of the grand orient of France, because that body, some years ago, voted to omit the name of the Deity from its ritual, whereas in the other countries named no atheist can be made a mason.

Capitular, or chapter, masonry has 44 grand chapters in the United States, as well as a general grand chapter, composed of representatives from the state grand chapters. Cryptic, or council, masonry is organized similarly.

Templar masonry has state grand commanderies, and every three years representatives from these bodies select officers of the grand encampment of the United States. For the coming triennial period the grand master, just elected at Louisville, will be Henry Bates Stoddard, of Bryan, Tex., one of the leading cotton brokers of the Lone Star state. To be a knight templar a mason must be a member of both blue lodge and chapter in good standing.

PRESIDENT M'KINLEY.
(Wearing the Uniform of Canton Commandery, No. 38, K. T.)

Loss of membership in either of these two bodies carries with it suspension in the commandery.

The Scottish rite has 33 degrees, including the three blue lodge degrees. It is divided into two jurisdictions, the northern and the southern, both of which are in relations of amity with the supreme councils of foreign countries.

The total membership of the grand lodges of the United States and British Columbia (blue lodge masons) at the present time is 875,000. The grand chapter of Royal Arch Masons reports a total membership of about 200,000, and the grand encampment Knights Templar one of about 125,000.

Connected with the templar and Scottish rite masonry—but not a part of either—is an organization called the "Nobles of the Mystic Shrine," with a membership of nearly 60,000, composed strictly of masons who have reached the thirty-second degree of the Scottish rite or knights templar in good standing. The object of the shrine is purely social.

Masonry has for ages counted among its followers men famous in every walk of life. Edward VII. was grand master of British masons until he became king of Great Britain, and his successor is the duke of Connaught, brother of the king. On the continent of Europe many princes of blood royal belong to the craft, and in our own land scores of distinguished statesmen, scholars and warriors have patronized and encouraged the mysteries of the order. George Washington, our first president, was an exemplary mason, but not more so than the man who now occupies the white house.

President McKinley became a mason under perhaps the most unusual circumstances on record. His entrance into the great secret order was an incident of the war between the states and very unique. It came near the close of the memorable civil strife, while Mr. McKinley was yet in the federal army with the rank of major. The young officer from Ohio was stationed at Winchester, Va., where was located a hospital for confederate wounded. In making the rounds one afternoon with the regimental surgeon Maj. McKinley noticed that the surgeon was on very friendly terms with several of the southern prisoners and that he frequently gave them money. The interest of the future president was aroused and when the opportunity presented itself he asked the reason for this rather unusual cordiality. The surgeon told him that they were brother masons, and the major met this information with the wish to become a member of a fraternity on which neither prison bars nor rank of office had the slightest effect. The desire of young McKinley was made known to the officers of Hiram lodge, No. 21, of Winchester, and on the night of May 1, 1865, at 7:30 o'clock, he presented himself for initiation. J. B. T. Reed, a confederate chaplain, was worshipful master of the lodge and conferred the degree of entered apprentice in due and ancient form on the candidate. On the following evening the degree of fellow craft was given, while at the same lodge on the afternoon of May 3 at three o'clock he received the master mason degree, thus completing the steps in the blue lodge. But three

REAR ADMIRAL SCHLEY.
(Wearing the Uniform of Columbia Commandery, No. 2, K. T.)

masons are now living who witnessed the initiation—George E. and C. S. Jenkins, of Winchester, and W. R. Denny, of Nashville.

After the war Maj. McKinley affiliated with Canton lodge, No. 60, on August 21, 1867, became a charter member of Eagle lodge, No. 43, at Canton, and is now one of its members. On December 27, 1883, he received the degrees of mark, past and most excellent masters in Canton chapter, No. 84, Royal Arch Masons, and the next night was exalted to the most sublime degree of royal arch mason in the same chapter.

Maj. McKinley was invested with the order of Red Cross on December 16, 1884, and five nights later with the orders of the Temple and Malta in Canton commandery, No. 38, knights templar, while a member of congress.

He has scrupulously maintained his connection with all of the bodies of masonry to which he belongs.

Another distinguished mason is Admiral Winfield Scott Schley, whose masonic career dates from 1899, just prior to his assignment to the South Atlantic squadron with headquarters at Montevideo, Uruguay. He was at the time in Washington city, and by special dispensation of the grand bodies of the District of Columbia received the degrees and orders of masonry and templary in a rush. He was initiated into the mysteries of the blue lodge—B. B. French, No. 15—in the early part of November, 1899, taking all three degrees in one night. On the following evening he received the degrees of royal arch mason in Lafayette chapter, No. 5, and on the night of November 10 was created a knight templar by Columbia commandery, No. 2, the largest subordinate templar organization south of the Mason and Dixon lines. All three of the orders—Red Cross, Temple and Malta—were conferred in the presence of the largest gathering of uniformed sir knights ever held in the nation's capital. Not a word was omitted from the ritual, and it was 1:30 o'clock before Eminent Sir Walter H. Klopfer, the commander, dubbed the noted naval officer a knight. At the conclusion of the ceremonies Admiral Schley made a characteristic talk. President McKinley was represented at the big meeting by the late John Addison Porter, his private secretary at the time.

For years I have suffered with what I supposed to be dyspepsia and what has always been called so by physicians who have treated me. It is peculiar, inasmuch as it comes on periodically every year about October and lasts for two or three months in spite of all the medicines I take and then goes away, apparently having worn itself out. The symptoms are a sense of distress and heaviness in the chest amounting to agony at times, and while not exactly a pain, is more distressing even than pain, as all the time I suffer so my spirits become depressed and my appetite is poor or capricious, and even when I feel like eating the dread of the agony it will cause keeps me from it. During the spells I usually suffer also from constipation and flatulence. This year the attack came on earlier than usual (about the middle of July), and feeling that I could not stand the combination of heat and dyspepsia I looked around for something that might relieve me. A copy of a pamphlet about Ripans Tabules happening to be brought to my notice, I thought I would try them, and after taking two 5-cent boxes I find my symptoms much agreeable to take than any liquid and can heartily recommend them to any who suffer from any form of indigestion or dyspepsia. I am twenty-nine years of age and have been troubled with the symptoms above described for at least six years at intervals. I am a stenographer and typewriter by profession, and my trouble is doubtless aggravated by the sedentary life I am compelled to lead.

WANTED—A case of bad health that RIPANS will not benefit. They banish pain and prolong life. One gives relief. Note the word RIPANS on the package and accept no substitute. RIPANS, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

EVENING DRESSES.

Embroidered Lace and Chiffon Robes Lead the Fashion.

The latest evening gowns are marked by beauty of material and fineness of needlework. Black and ecru lace gowns are prominent among these, the most elegant style being, of course, the princess. This is often modified by fine boleros and collars of mousseline de sole and embroidery. At the bottom of the gown is a mass of chiffon ruffles,

DINNER WAIST.

held out by the stiffly ruffled white taffeta slip. When the outside is cut in two pieces, the trimming is so arranged as to give the long, continuous effect. The lace robe is sometimes finished independently of the slip, which is made princess and can be used with several gowns. Colored slips are sometimes used under black or ecru lace gowns, but the same coloring or white is considered more stylish in the lining.

Chiffon tucked and embroidered forms many of the more elaborate gowns. A recent French dress was of accordion plaited black chiffon, with a bolero and black panel trimmings on the skirt of black silk canvas, hand painted with sprays of iris flowers.

A very pretty dinner blouse is shown in the illustration. It is white bengaline silk, trimmed with bands of yellow lace. The lace insertion curves in downward lines on the front of the blouse, and it forms straps on the full elbow sleeves. There is a wide collar of yellow lace, with two large revers, which meet fichuwise in front. The sleeves have wide frills of the lace. The belt is a boned girdle of the silk.

JUDIC CHOLLET.

FASHIONS IN LIGHT GOWNS

White Taffetas and Veilings Are Trimmed With Black Lace.

White taffeta gowns are very fashionable. They are incrusted with lace and further ornamented with very wide collars of lawn and insertion. White silk and wool veilings are also considered smart, and a favorite trimming for these consists of wide bands of black chantilly. A very stunning gown recently seen at a hotel was of black embroidery and cream net, with an underskirt of accordion plaited chiffon.

Some of the most youthful and effective gowns are made of pale muslins figured in pompadour wreaths. The sleeves are made elbow length, and there is generally a fichu of some soft net or mull. With all such thin dressy gowns a black tulle or a lace hat is the proper thing.

Figured muslins inset with lace are in many cases made over silk, as the sheen of the silk is easily to be discerned through the insertion. Skirts of colored linen are very dainty when worn with hats of the same shade and white shirt waists.

OF PERSIAN MULL.

A smart frock is made of Persian silk mull over white taffeta. The neck is cut round and finished with a tucked collar of white mousseline de sole edged with vandyke points of deep yellow lace. The blouse opens over a soft front of white mousseline de sole. The sleeves are long and terminate in a narrow puff of the white mousseline. The belt is of pale green panne. The skirt is gathered full at the waist and is trimmed at the bottom with five small ruffles edged with narrow lace and headed by a wide diamond shaped applique.

The hat is of tucked mousseline de sole and yellow lace with a knot of black velvet ribbon and a bunch of tea roses directly in front.

The Lost Continent

It was with very undecided feelings, then, that I obeyed the summons of the earth shaking, and bade the slaves lead me through the windings of the pyramid to the great banqueting hall. The scene there was dazzling. The majestic chamber with its marvelous carvings was filled with a company decked out with all the gauds and colors that fancy could conceive. Little recked they of the solemn portent which had summoned them to the meal, of the death and misery that stalked openly through the city wards without, of the rebels which lay in leaguer beyond the walls, of the neglected gods and their clan of priests on the Sacred Mountain. They were all gluttonous for the passions of the moment; it was their fashion and conceit to look at nothing beyond.

Flaming jets of earth breath lit the great hall to the brightness of midday; and when I stepped out upon the pavement, trumpets blared, so that all might know of my coming. But there was no roar of welcome. "Deucalion," they lisped with mincing voices, bowing themselves ridiculously to the ground so that all their ornaments and silks might jangle and swish. Indeed, when Phorenice herself appeared, and all sent up their cries and made lawful obeisance, there was the same artificiality in the welcome. They meant well enough, it is true; but this was the new fashion. Heartiness had come to be accounted a barbarism by this new culture.

A pair of posturing, smirking chamberlains took me in charge, and ushered me with their flimsy golden wands to the dais at the farther end. It appeared that I was to sit on Phorenice's divan and eat my meat out of her dish.

"There is no stint to the honor the empress puts upon me," I said, as I knelt down and took my seat.

She gave me one of her queer, sidelong looks. "Deucalion may have more beside, if he asks for it prettily. He may have what all the other men in the known world have sighed for, and what none of them will ever get. But I have given enough of my own accord; he must ask me warmly for those further favors."

"I ask," I said, "first, that I may sweep the boundaries clear of this rabble which is clamoring against the city walls."

"Pah!" she said, and frowned. "Have you appetite only for the sterner pleasures of life? My good Deucalion, they must have been rustic folk in that colony of yours. Well, you shall give me news now of the toothsomeness of this feast."

Dishes and goblets were placed before us, and we began to eat, though I had little enough appetite for victual so broken and so highly spiced. But if this finicking cookery and these luscious wines did not appeal to me, the other diners in that gorgeous hall

THE TRUMPETS BLARED.

appreciated it all to the full. They sat about in groups on the pavement beneath the light-jets like a tangle of rainbows for color, and according to the new custom they went into raptures and ecstasies over their enjoyment. Women and men both, they lingered over each titillation of the palate as though it were a caress of the gods.

Phorenice, with her quick, bright eyes, looked on, and occasionally flung one or another a few words between her talk with me, and now and again called some favored creature up to receive a scrap of viand from the royal dish. This the honored one would eat with extravagant gesture, or (as happened twice) would put it away in the folds of his clothes as a treasure too dear to be profaned by human lips.

To me this flattery appeared gross and disgustful, but Phorenice, through use, perhaps, seemed to take it as merely her due. There was, one had to suppose, a weakness in her somewhere, though truly to the outward seeing none was apparent. Her face was strong enough, and it was subtle also, and, moreover, it was wondrous comely. All the courtiers in the banqueting hall raved about Phorenice's face and the other beauties of her body and limbs; and though not given to appreciation in these matters, I could not but see that here at least they had a groundwork for their admiration; for surely the gods have never favored mortal woman more highly. Yet lovely though she might be, for myself I preferred to look upon Ylga, the girl, who, because of her rank, was privileged to sit on the divan behind us as immediate attendant. There was an honesty in Ylga's face which Phorenice's lacked.

They did not eat to nutrify their bodies, these feasters in the banqueting hall of the royal pyramid, but they ate to cloy themselves, and they strutted forth new usages with every platter and bowl that the slaves brought. To me some of their manners were closely touching on disrespect. At the half-way of the meal a gorgeous popinjay—he was a governor of an out-province driven into the capital by a rebellion in his own lands—this gorgeous fop, I say, walked up between the groups of feasters with flushed face and unsteady gait, and did obeisance before the divan. "Most astounding empress," cried her, "fairest among the goddesses, queen regnant of my adoring heart, hail!"

And so the feast went on, the guests practicing their gluttonies and their absurdities, and the guards standing to their arms round the circuit of the walls as motionless and as stern as the statues carven in the white stone beyond them. But a term was put to the orgie with something of suddenness. There was a stir at the farther doorway of the banqueting hall, and a clash, as two of the guards joined their spears across the entrance. But the man they tried to stop—or perhaps it was to pin—passed them unharmed, and walked up over the pavement between the lights and the groups of feasters. All looked round at him; a few threw him ribald words; but none ventured to stop his progress. A few, women chiefly, I could see shuddered as he passed them by, as though a wintry chill had come over them; and in the end he walked up and stood in front of Phorenice's divan and gazed fixedly on her, but without making obeisance.

He was a frail old man, with white hair tumbling on his shoulders and ragged beard. The mud of wayfaring hung in clots on his feet and legs. His wizened body was bare save for a single cloth wound about his shoulders and his loins, and he carried in his hand a wand with the symbol of our Lord the Sun glowing at its tip. That wand went to show his estate, but in no other way could I recognize him.

I took him for one of those ascetics of the Priests' clan, who had forsworn the steady nurtured life of the Sacred Mountain, and who lived out in the dangerous lands among the burning hills, where there is daily peril from falling rocks, from fire streams, from evil vapors, from sudden fissuring of the ground and from other movements of those unstable territories, and from the greater lizards and other monstrous beasts which haunt them. These keep constant in the memory the might of the holy gods, and the insecurity of this frail earth on which we have our resting place, and so the sojourners there become chastened in the spirit and gain power over mysteries which even the most studious and learned of other men can never hope to attain.

A silence filled the room when the old man came to his halt, and Phorenice was the first to break it. "Those two guards," she said, in her clear, carrying voice, "who held the door are not equal to their work. I cannot have imperfect servants; remove them."

The soldiers next in the rank lifted their spears and drove them home, and the two fellows who had admitted the old man fell to the ground. One shrieked once, the other gave no sound; they were clever thrusts both.

The old man found his voice, thin and high and broken. "Another crime added to your tally, Phorenice. Not half your army could have hindered my entrance had I wished to come, and let me tell you that I am here to bring you your last warning. The gods have shown you much favor. They gave you merit by which you could rise above your fellows, till at last only the throne stood above you. It was seen good by those on the Sacred Mountain to let you have this last ambition, and sit on this throne that has so long and honorably been filled by the ancient kings of Atlantis."

The empress sat back on the divan smiling. "I seemed to get these things as I chose, and in spite of your friends' teeth. I may owe to you, old man, a small parcel of thanks, though that I offered to repay; but for my lords the priests, their permission was of small enough value when it came. I would have you remember that I was as firm on the throne of Atlantis as this pyramid stands upon its base when your worn-out priests came up to give their tottering benediction."

The old man waved aside her interruption. "Hear me out," he said. "I am here with no trivial message. There is nothing paltry about the threat I can throw at you, Phorenice. With your fire tubes, your handling of troops and your other fiendish cleverness, you may not be easy to overthrow by mere human means, though, forsooth, these poor rebels who gape against your city walls have contrived to hold their ground for long enough now. It may be that you are becoming enervated; I do not know. It may be that you are too wrapped up in your feastings, your dressings, your pomps and your debaucheries, to find leisure to turn to the art of war. It may be that the man's spirit has gone out from your arm and brain, and you are a woman once more—weak and pleasure-loving; again I do not know.

"But this must happen: You must undo the evil you have done; you must give bread to the people who are starving, even if you take it from these gluttons in this hall; you must restore Atlantis to the state in which it was intrusted to you; or else you must be removed. It cannot be permitted that the country should sink back into the lawlessness and barbarism from which its ancient kings have digged it. You hear, Phorenice. Now give me true answer."

"Speak him fair. Oh, for the sake of your fortune, speak him fair!" came Ylga's voice in a hurried whisper from behind us. But the empress took no notice of it. She leaned forward on the cushions of the divan with a knit brow.

"Do you dare to threaten me, old man, knowing what I am?"

"I know your origin," he said, gravely, "as well as you know it yourself. As for my daring, that is a small matter. He need be but a timid man who dares to say words that the high gods put on his lips."

"I shall rule this kingdom as I choose. I shall brook interference from no creature on this earth, or beneath it, or in the sky above. The gods have chosen me to be their regent in Atlantis, and they do not depose me through such creatures as you. Go away, old man, and play the fanatic in another court. It is well that I have an ancient kindliness for you, or you would not leave this place unharmed."

"Now, indeed, you are lost," I heard Ylga murmur from behind, and the old man in front of us did not move a step. Instead, he lifted up the symbol of Our Lord the Sun, and launched his curse. "Your blasphemy gives the reply I asked for. Hear me now make declaration of war on behalf of those against whom you have thrown insults. You shall be overthrown and sent to the nether gods. At whatever cost the land shall be purged of you and yours, and all the evil that has been done to it while you have sullied the throne of its ancient kings. You will not amend, neither will you yield tamely. You vaunt that you sit as firm on your throne as this pyramid reposes on its base. See how little you know of what the future carries. I say to you that, while you are yet empress, you shall see this royal pyramid which you have polluted with your debaucheries torn tier from tier, and stone from stone, and scattered as feathers spread before the wind."

"You may wreck the pyramid," said Phorenice, contemptuously. "I myself have some knowledge of the earth forces, as I have shown this night. But though you crumble every stone above us now and around into grit and dust, I shall still be empress. What force can you crazy priests bring against me that I cannot throw back and destroy?"

"We have a weapon that was forged in no mortal smithy," shrilled the old man, "whereof the key is now lodged in the Ark of the Mysteries. But that weapon can be used only as a last resource. The nature of it even is too awful to be told in words. Our other powers will be launched against you first, and for this poor country's sake I pray that they may cause you to wince. Yet rest assured, Phorenice, that we shall not step aside once we have put a hand to this matter. We shall carry it through, even though the cost be a universal burning and destruction. For know this, daughter of the swineherd, it is agreed among the most high gods that you are too full of sin to continue unchecked."

"Speak him fairly," Ylga urged from behind. "He has a power at which you cannot even guess."

OBEYED HIS CHURCH

Utah Banker Gave Up Wealth to Serve Mormonism.

Heber J. Grant, Salt Lake Millionaire, Sacrificed a Fortune to Engage in Missionary Work in Japan.

Mormonism, sending as missionary to Japan a Salt Lake millionaire banker stripped of his wealth and dependent upon that which shall fall from the hands of his converts, is one of the anomalies of missionary work in the world. Heber J. Grant, one of the 12 apostles of the Mormon church, a power in former territorial politics, a former banker, worth $4,000,000, paying tithes upon an income of $200,000 a year, and otherwise one of the pillars of Mormonism, has sailed for the Flowery Kingdom with only his voice and his hands as spiritual and temporal capital.

Yokohama is the destination of the apostle, whither he has gone on a two-years' assignment by the church powers. Elders A. O. Taylor, H. S. Ensign, and L. A. Kelsch accompanied the apostle, the four breaking away from their worldly interests in the state capital, as if indeed, they were no part of the estate of the Latter-Day saint.

This dispatching of the Mormon apostle-banker on this mission is illustration of the power of the church which years ago was driven from habitation in Illinois.

When the admission of Utah as a state was under consideration and advisement and when the Mormon church found it expedient to treat with the United States authority, Heber J. Grant was one of the elect of the church. He was high in church councils, prominent in the affairs of the territorial capital, a banker, capitalist, and making money in half a dozen ventures. He kept place and influence after the admission of the

HEBER J. GRANT.
(Salt Lake Millionaire Who Now Is a Mormon Missionary.)

territory to statehood, and he was making money still when he was chosen to spread the doctrines of Joseph Smith to Asia. He was asked how long it would require for him to drop worldly affairs for this mission of the elect. His reply was "eight months," and he has fulfilled the promise.

Grant's first act was to resign from his official position in the Deseret bank. No surprise was expressed at his willingness to lay down the office. It was a matter of course.

The Chicago Tribune says that as a capitalist, sharing in many legitimate ventures in the great west, he held thousands of dollars in promissory notes, drawn by western men. Grant went through these papers, classified them, stamped "Paid" across their faces, and mailed them to the makers, giving clear receipts for all moneys due him on contracts. Friends say these notes footed into the hundreds of thousands of dollars, but the man parted with them without a murmur. He gave up his splendid home in Salt Lake City, leaving his growing family to the care of the church body.

As indicating the wealth of the man, just before he left Salt Lake City he paid his tithes for six months, based upon his income, and the check was for $9,600.

From this state of affluence Grant has gone, with only bare traveling expenses, to a strange land, in which he will preach a new religion. He has never been a public speaker, and he has a natural diffidence, but in behalf of his religion he hopes to overcome difficulties.

Heber J. Grant is a native of Utah, 45 years old. He is of commanding figure and would pass better as a shrewd business man than as a missionary. His influence in the Mormon church could not be easily measured, yet heh as been called upon to serve it, not only without pay, but at the cost of a fortune. That he will be successful in the cause none of the faithful in Utah doubts for a moment.

Pudding Cooked Under Water.

A wager was made by a resident of London that he would cook a plum pudding ten feet beneath the surface of the Thames. He won the bet by placing the pudding in a tin case and putting the whole in a sack of lime. The heat of the lime, slacked when it came in contact with the water, was sufficient to cook the pudding in two hours.

LOCAL CHURCHES UNITED TO MOURN.

[CONTINUED FROM PAGE 1.]

lnee at Canton, O. The last time they saw each other was during the session of a missionary conference in New York city over a year ago.

Taking for his subject the words of David used, when he heard that Abyer had been slain by Joab, "Know ye not that a prince and a great man has fallen this day in Israel," the speaker dwelt upon the life of the late Chief Magistrate.

"When one country loses a great ruler, the whole world mourns. The great traits of the man were patience, kindness, consideration, perseverance and integrity. His saying, 'that if we are not our brother's keeper, we should at least be his helper,' portrays McKinley, the Christian man. He stood for reconciliation and reciprocity among nations and not for retaliation. Peace and good will marked all his actions.

"He loved his own kind. He loved the common people as Lincoln did and possessed remarkable trait of discerning what was the best thought of the people. McKinley had been criticised as a statesman because he did not carry out policies without regard to the people. Recognizing that the people are sovereign here he always listened for their voice. His last days proved that he could bear up with Christian fortitude. While under the surgeon's knife he whispered the Lord's prayer."

Rev. G. A. Gardner, the pastor, also dwelt on the virtues of the departed chieftain of the American people, and the congregation sang the President's favorite hymns, "Lead Kindly Light" and "Nearer, My God, To Thee."

PRAYED FOR THE NATION.

Reference Made to President's Death at Warren Chapel During Yesterday's Services.

Prayers were offered at both the morning and evening services at Warren chapel yesterday for the afflicted wife and sorrowing Nation because of the untimely end of the life of President McKinley.

At the Sunday-school exercises in the afternoon F. H. Andrews, the superintendent of the school, made a suitable address, in which he drew a lesson from the early career of the assassin, who is responsible for Mr. McKinley's death. The speaker also dwelt upon the beautiful Christian character of the dead statesman. Rev. J. O. McKelvey, the pastor, also made fitting reference to the calamity which has visited the country.

EVILS OF CONSPIRACIES.

Rev. Dr. W. R. Richards Preached Strong Sermon on the Anarchists and the Country.

Rev. Dr. W. R. Richards, of the Crescent Avenue church, gave a stirring discourse on the evils and effects of conspiracies, taking his text from Acts xxiii:13, "And they were more than forty which made this conspiracy."

He drew a lesson from the topic which tended to show the harm of men conspiring, the present National calamity being one of the terrible results. In many ways he referred to the beloved President cut down in the prime of life and the nation plunged in grief through the dastardly act of a tool in the hands of plotters.

The music rendered by the choir was especially appropriate. "Lead, Kindly Light" and "Crossing the Bar" were rendered by the congregation. Miss Perry, soprano soloist, sang "O, Rest in the Lord," from Elijah and the choir gave "Cast Thy Burden on the Lord" also from Elijah.

TRIBUTE TO THE PRESIDENT.

City Judge Runyon Spoke at the First Presbyterian Church Service Last Night.

The memorial service at the First Presbyterian church last evening was largely attended. The interior drapings were in harmony with the occasion. City Judge William N. Runyon was in charge of the service.

He paid a rich and deserving tribute to the life of President McKinley. He recited briefly the many things that combined to make the Chief Executive an ideal man.

During the service the favorite hymns of the President, "Nearer My God to Thee" and "Lead, Kindly Light," were sung by the choir and congregation. Just before the service closed Pastor Herring, who has been abroad several weeks, entered and pronounced the benediction.

—B. W. Pursell, Kintersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve effected a permanent cure. Counterfeits are worthless. L. W. Randolph.

SPOKE OF THE PRESIDENT.

Draped flags and mourning bunting about the pulpit and organ intensified the effect at the First M. E. church. Rev. Dr. W. C. Snodgrass spoke on the topic: "As the Mountains Are Round About Jerusalem, So the Lord is About His People." His words were in keeping with the present occasion and at the close he touched on the President's life and strength and beauty of character. Elmer E. Runyon and Charles L. Lewis sang sweetly "O, Morning Land," while Cardinal Newman's hymn was sung by the congregation.

KNEW THE PRESIDENT.

A review of President McKinley's personal character and the Christian spirit maintained by him until the end formed the theme of Dr. S. J. Barrows, of Staten Island, at All Soul's Unitarian church. Dr. Barrows was a Congressman from Massachusetts in 1898 and his duties brought him in contact with the President constantly. He was constantly made aware of McKinley's high moral standard and was always greatly impressed by it.

CREED OF ANARCHY.

At the regular service at the Seventh-day Baptist church, Saturday morning, prayers were offered and the favorite hymns of the Martyr-President rendered. Rev. A. E. Main, the pastor, preached on the "Creed of Anarchy." The grossly immoral and tyrannical political doctrines of the anarchists were dwelt upon and unrelentingly flayed. The speaker forcibly condemned the dangerous ideas of the outlaws of civilized society and urged their suppression.

PERILS OF THE NATION.

At the evening service in the Park Avenue Baptist church Rev. J. W. Richardson gave a ringing talk on the subject "American Perils," referring in particular to the low foreign element which enter this country, aiming at the destruction of law and order. The assassination of the President was but one of these occurrences and he pointed out the hidden danger which lurks in the Anarchist doctrine.

SPECIAL M'KINLEY SERVICE.

Hope chapel Sunday-school held a special McKinley service yesterday. Acting Superintendent Travell spoke on the life of the martyred President and fervent prayers were offered for the bereaved widow. Cardinal Newman's "Lead Kindly Light" was sung by the entire school. The proclamation issued by President Roosevelt was read by Mr. Travell.

PREACHED ON HIS LIFE.

Rev. G. Hauser, pastor of the German Reformed church, preached on the life of Mr. McKinley, at the morning service of that church, yesterday. He dwelt chiefly on the nobility and marked Christian character of the departed President. Appropriate hymns were sung.

"DEAD AND LIVING."

An excellent discourse on "McKinley; Dead and Living," was given by Rev. John McMurray, of the Monroe Avenue M. E. church. It was full of truths and paid fitting tribute to the martyred president. The pulpit was draped, as was also the platform.

SANG FAVORITE HYMNS.

Appropriate reference to the sad fate of President McKinley was made at each service of Bethel chapel, yesterday. The dead statesman's favorite hymns were sung at the church services and at the Sunday-school exercises, in the afternoon as well.

AT BOROUGH SCHOOL.

Appropriate exercises were held at the North Plainfield High School this morning. "Lead, Kindly Light" and "O, Paradise" were among the sacred selections sung by the pupils.

Funeral of Mr. Mulligan.

The funeral services of John W. Mulligan were held at his late residence, on Webster place, yesterday afternoon. Mr. Mulligan was a member of St. Stephen's church, and in the absence of the rector, Rev. W. Bryce Morrow officiated. Interment was made at Hillside cemetery.

SPORTING.

FOOTBALL.

Roy Hallock was elected captain of the City High School football team, at a meeting held this morning.

EN ROUTE TO WASHINGTON.

(Special to The Daily Press.)

Buffalo, September 16—The Presidential funeral cortege left this city at 8:46 o'clock this morning. The body of the martyred President rests in the last car of the funeral train, which has the right of way over the Pennsylvania Railroad lines and is moving slowly. Washington will be reached tonight. National troops guard the body. President Roosevelt, the Cabinet, Mrs. McKinley and members of the family and newspaper correspondents are aboard the train.

CITY JOTTINGS.

—John Leal's School for boys will reopen tomorrow for the fall and winter term.

—Miss Anna O. Marsh and Miss Minnie E. Marsh's school at 915 Madison avenue opened this morning with a good attendance.

—A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin affections. Accept only the genuine. L. W. Randolph.

—Two hundred and fifty baskets of choice canning peaches are now on sale at Neuman Brothers. They are selling fast at 50, 75 cents and $1 per basket. Prudent housewives will not fail to grasp this opportunity.

PERSONAL.

Miss Alta McConnell, of Park avenue, is confined to her home by illness.

Joseph M. VanArsdale, of Kearny, is spending a few days with relatives on Lee place.

Miss Nell McKee, of Brooklyn, is visiting her sister, Mrs. A. J. Leader, of 63 Duer street.

REMOVED TO HOSPITAL.

But Aid Did Not Come Until Man Had Been Left Helpless All Day.

An old man, whose features were much injured by a cancer, lay at the terminus of the Somerset street trolley line, near Johnson's drive, all day yesterday. He was discovered in a pitiable condition early in the morning, but not a hand was raised to aid him. It was nearly night when the proper authorities came to his relief and had the poor mortal removed to the hospital at Elizabeth. The man is known as "Side Wheel Sam" and is said to ride in Elizabeth.

FATHER AND SON.

Appeared in Court to Get Their Personal Differences Satisfactorily Settled.

Peter Robinson and Charles Robinson, father and son, stood in the city court this morning, accusing each other of commencing a fight between them on West Front street, Saturday evening. Neither produced any witnesses to prove his assertions and as family troubles seemed to be at the bottom of the trouble, City Judge Runyon advised them to go out into the free air and patch up their differences.

Prepared for All the Guests.

An Irish servant girl of recent importation was preparing the ice-cream, tea and cakes for a Brooklyn evening party, when her employer remarked to her daughter jocularly apropos of the heat:

"I'm afraid those mosquitoes will come in to-night over the back fence."

Going downstairs to the kitchen later she was surprised to find several gallons of tea more than she needed already made.

"You've made too much tea, Norah," she said. "I told you the kettle full would be quite enough."

"Sure, that's so, ma'am," replied the girl, "but that was before you said anything about the other gists."

"What other guests?" inquired the hostess in astonishment.

"Why, the Mossquitoes, ma'am, you said were comin' over the back fince."—N. Y. Commercial Advertiser.

Living Stones of the South Sea.

The visitor to the Falkland islands sees a number of what appear to be weather-beaten, moss-covered bowlders of various sizes scattered here and there. On attempting to turn one over he is surprised to find that it is anchored to the ground by roots of great strength. These are not bowlders; they are trees! No other place in the world can show such a peculiarity of "forest" growth. The Falkland islands are exposed to a strong polar wind, which renders it impossible for trees to grow in the proper form; nature has consequently adapted herself to the prevailing conditions and produced this strange form of plant life. These "living stones," as they are called, are quite devoid of "grain," and it is next to impossible to cut them up and utilize them for fuel.—Chicago Inter Ocean.

FENDER SAVED LAD'S LIFE.

DAVID MYROVITZ, AGED FOUR, HIT BY TROLLEY CAR.

He Was Crossing the Track With His Mother When Corner of Platform Struck Him—Will Recover.

David Myrovitz, a four-year-old boy, was struck by a trolley car at the corner of Plainfield avenue and West Fourth street yesterday afternoon and just escaped with his life. He sustained a slight scalp wound, internal injuries and innumerable bruises.

The boy, with his mother, was crossing the track and had just stepped off the outer rail when car No. 8, west bound, loomed up. It was in charge of Motorman Walters, one of the new recruits brought from Kingston, and Conductor Michael Nevins. A corner of the front platform caught his waist and threw him down. He struck the ground and was then picked up by the fender and carried to the other side of Plainfield avenue, a distance of forty feet. Walters made every effort to stop the car but without avail. He is a very heavy man, weighing over 300 pounds, and he injured himself in applying the brakes so violently.

The boy was taken to his home nearby and Drs. Fritts, Currie and Anderson were summoned. This morning the boy was resting easily, it is said, and will recover.

Mrs. Myrovitz says that she heard no gong and that car approached the corner at full speed.

THREE OF THEM.

Drunk and Disorderly Cases Received Justice From City Judge Runyon This Morning.

Three Saturday night drunk and disorderly cases were disposed of by City Judge Runyon this morning.

Michael Gronz gave some back talk to Patrolman Watson at the corner of Front and Somerset streets, Saturday evening. He paid $3 for the privelege.

The familiar face of Charlie Williams appeared, backed by Patrolman Gamo with the time worn charge of "D. and D" which resulted in the usual twenty days at Elizabeth for the prisoner.

An empty stomach caused Edmund Scott to imbibe more than the usual amount of liquor Saturday evening. Result: A gymnastic jag, a crowd, Patrolman Watson, $3 paid.

THE KINDERFEST.

Held by Local German Societies on Farm Near New Market Yesterday.

In a merry way that brought recollections of the Fatherland, the members of the Gesang and Turn Verein and over one hundred children enjoyed the Kinderfest held at Altman's farm, near New Market, yesterday. The day was spent playing German games, and prizes were won by the Misses Bergen, Bartlett, Weber, Fahn and Hauser, and Mrs. Bummel and Messrs. Bergen and Carty.

Short speeches were made by members of the organization and refreshments were served. The Liberty Singing Society, of Elizabeth, sent a large delegation and many solk songs were rendered by the delegates.

PROPRIETORSHIP OF GOD.

Francis E. Whiteside Spoke at Warren Chapel Last Evening.

An edifying discourse was delivered at the regular evening service at Warren chapel last evening by Francis E. Whiteside. Mr. Whiteside proposes to prepare himself at Drew Seminary for the ministery, and his many friends in this city were interested to hear him speak on this occasion. In a manner that impressed one with the sincerity and eloquence of the speaker, Mr. Whiteside dwelt upon the creation of man, the handiwork of God, and the proprietorship of the Divine Master by reason of such creation.

CONTRACT FOR CINDERS.

Awarded by Gleason & Kiely to Wm. VanFleet of Somerville.

Messrs. Gleason & Kiely, the firm in charge of the alterations at the city disposal beds, have awarded the contract for furnishing the cinders for filling material in the lower beds to William VanFleet, of Somerville. Mr. VanFleet will commence delivering the cinders Monday.

The alterations at the beds are being rapidly pushed to completion and unless some unforseen delay occurs, they will be in readiness before cold weather.

Doing Business Seven Days a Week.

The Boys Club will reopen this evening for the fall and winter season.

ASTHMA CAN BE CURED

A Noted Physician Will Prove This to Sufferers in Plainfield Thursday.

The astonishing statement that Asthma can be cured, coming from so well-known authority as Dr. Rudolph Schiffmann, will be of interest to asthma sufferers. The experience of most Asthmatics has been that little if any relief has been afforded them by the methods heretofore employed, and, in fact, the disease has up to now been regarded as incurable. This noted physician has, however, after a life-long study of Asthma and kindred diseases, discovered a remedy which not only instantly relieves the severest cases of Asthma, Hay Fever and Bronchitis, but has actually cured thousands whose cases had been pronounced incurable. So complete is Dr. Schiffmann's confidence in his remedy that he requests this paper to announce that all day Thursday, Sept. 19th, he offers a liberal sample box of "Schiffman's Asthma Cure" free of charge to all persons applying at L. W. Randolph's Drug Store, 143 West Front street.

Dr. Schiffmann believes that an actual test will be the most convincing, and in fact the only way to overcome the natural prejudice of thousands of Asthmatics who have heretofore sought relief in vain. Persons living out of town will receive a package free by writing direct to Dr. R. Schiffmann, 370 Jackson Street, St. Paul, Minn., before Sept. 21st, and enclosing a 2c stamp.

PUBLIC HEARING ON EXTENSION OF SEWERS.

Council Sets a Day, October 7, for Hearing on Extension of Sanitary Sewers.

MORE STORM SEWERS.

C. M. MEEKER AWARDED CONTRACT FOR SEWERS AND MACADAMIZING.

Many Complaints Received Regarding Property Sold Under Martin Act—Two New Electric Lights Ordered in East End—Sewer Extension.

The Common Council met last evening for the third time this month to consider several matters that could not be held up until the regular October meeting.

Just at present many complaints are being received concerning the enforcement of the Martin Act, some property owners having been sold out without their knowledge. One of the complainants is William Lunger, of the borough, who owns the property at 916 918 West Fifth street. He claimed that he supposed his taxes were all paid, but now learns that the city has him charged with taxes for 1888. The property was sold, but without the owner's knowledge. The matter was referred.

W. H. Stine entered a protest against an unjust tax on property owned by him and located on West Fifth street, west of Lee place. He claimed that the taxes have been paid. Patrick Nugent, in a communication, informed the Council that he is willing to pay all taxes due on his property at 224-226 Stebbins place. He has owned the property five years and when he asked former Collector Martin concerning the taxes, he says that Mr. Martin informed him that the taxes were paid. Both of these matters were referred to the proper committee for adjustment.

In accordance with a request from the residents of Evergreen and Hillside avenues, Mr. Mellick moved that two electric lights be placed on those avenues.

Mr. vanHerwerden offered a resolution which provides that the city clerk shall receive 6 cents per folio each 100 sheets and 10 cents for indexing names in connection with the clerical work under the provisions of the Martin Act. There is considerable work under the act for the clerk and the Council believes that Mr. MacMurray should receive compensation for it.

Mr. Tolles offered a resolution accepting C. M. Meeker's bid for macadamizing First, Second and Third places, Carlton avenue, West Sixth street and Orchard place. Mr. Meeker's bid was the lowest, being 59 cents for First, Second and Third places and Carlton avenue, 60 cents for West Sixth street and 62 cents for Orchard place. A similar resolution was offered by the same member accepting C. M. Meeker's bid for constructing storm sewers on West Third street, Clinton avenue, Albert street to Front street, Plainfield avenue from the railroad to West Third street, South avenue from Central street to Cedar brook. The checks filed by the unsuccessful bidders were ordered returned by the city treasurer.

Mr. Tolles offered a resolution providing for the extension of the sanitary sewers in North avenue from Richmond street to Leland avenue, in Leland avenue from North avenue to South avenue, in South avenue from Leland avenue 1,400 feet east; also in South avenue from Richmond street to Central street.

In connection with this resolution another resolution was offered by Mr. Tolles setting Monday evening, October 7, as the time when a public hearing will be given to discuss the advisability of installing the sewers. The residents in the section of the city where it is proposed to extend the sewers have had so much trouble with cesspools that the Council feels as though some adequate means of carrying off sewage should be provided. All the members, except Mr. vanHerwerden, voted in favor of the sewers. Mr. vanHerwerden, being an interested property owner, asked to be excused from voting.

There being no further business the Council adjourned.

Juniors Will Meet Again.

The Junior Endeavor Society of Trinity Reformed church will resume its work tomorrow afternoon, meeting in the primary department of the Sunday-school room.

—50, 75 and $1 per basket for the best of table and canning peaches will be Neuman Brothers specialty tomorrow. They will have 200 baskets.

HE WOULD SMOKE.

But it is Said 'Plains Marshal Selected the Wrong Place and Will be Called to Account for it.

Complaint has been made to the officials of the Elizabeth, Plainfield and Central Jersey Railway Company, by Thomas Hammil, one its conductors, against one of Scotch Plains' marshals, whom he charges with unbecoming conduct on board his car.

The marshal in question, it is said, boarded the trolley at Terrill road, and stood on the front part of the running board, smoking. This is against the rules of the company and Hammil informed him of the fact. The latter refused to move to the smoking seats and, it is said, insolently dared the conductor to put him off. Hammil remonstrated but to no purpose and the marshal remained forward until Scotch Plains was reached.

It is understood the officials of the company will bring the matter before the Township Committee at its next meeting.

BAD SQUEEZE.

The Accident Nearly Cost Victor Christofferson, a Former Plainfielder, His Life.

Victor Christofferson, a former Plainfielder who recently moved to Greenpoint, L. I., was the victim a few weeks ago of a painful accident at Windsor Hill, Conn., where he was spending his vacation.

He was standing on top of a loaded wagon, just a few feet beneath the top of a shed. The horses started suddenly and he was pinned between the wagon and the shed roof. His back was severely injured, and for a time the physicians thought internal hurts would result in death.

He has since partially recovered and is now at the home of his parents on Richmond street, this city. It will be several months before he can resume work.

HOP WAS OMITTED.

How President McKinley's Death Was Observed at the Hotel Netherwood.

In fitting recognition of the President's death the usual weekly hop at the Hotel Netherwood was dispensed with Saturday evening. Major Coleman had given orders to lower the flag to half-mast and to observe as far as possible the existing condition in national affairs.

In place of the dance the orchestra gave an appropriate concert. The national anthems and McKinley's favorite hymns were the principal numbers on the programme. Again Sunday evening another concert was rendered and it partook chiefly of a religious nature. The airs were such as are best suited to the present occasion.

TO MAKE CITIZENS.

Last Chance to Go in the Evening Before the November Election.

Arrangements have been made to have the office of the County Clerk open this evening for the purpose of issuing naturalization papers. This will be the last chance before election to go in the evening. H. G. Adams, John Keely, Robert Rushmore and W. A. Westphal, the naturalization committee of the Republican city committee, will be at the North Avenue station this evening to take the 7:05 o'clock train for Elizabeth, and those desiring to accompany the committee will be at the station at that time.

Improved His Shop.

Edwin Maynard, the popular tonsorial artist, has just had his shop on North avenue handsomely painted and papered, making it one of the most attractive in the city. Mr. Maynard is strictly up-to-date and provides every convenience for his patrons. The shop has been thoroughly renovated by the owners of the building, Woolston & Buckle.

Miss Luckey's Class.

Miss Mary Adelaide Luckey, teacher of elocution and physical culture, is now preparing her classes for the fall and winter months. Her rooms will be in the Babcock building and she will be there on Wednesdays after October 1. The classes for women and children are now being formed. Miss Luckey's home address is 420 Central avenue.

At Congress of Nurses.

Miss Young, superintendent of Muhlenberg Hospital, is attending a congress of nurses being held at Buffalo, this week. During her absence Miss Cramer, the assistant, is in charge at the hospital.

ALL PLAINFIELD WILL HONOR HIS MEMORY.

Business Will Be Suspended, the Schools Closed and People Will Gather in Churches.

THURSDAY TO BE SO MARKED.

MAYORS JENKINS AND SMALLEY HAVE ISSUED PROCLAMATIONS.

Ask All to Unite in Honoring Memory of the Martyred President—Golf Clubs Will Close—Union Service in Morning.

From all appearances the people of this city as well as of the borough will loyally respond to the call to observe Thursday as a special memorial day in remembrance of the slain President. It will be a day of rest, of patriotism and of prayer.

The President of the United States having issued a proclamation calling upon the citizens to set apart the day for the designated purpose, and the Governor having officially asked the people of this State to mark the day with fitting services and a general suspension of business, the Mayors of the city and borough have acted accordingly. Proclamations have been posted by the two executives and the contents of these documents are much similar to those published by the chief officers of the Federal and State governments.

Closed stores, residences and other buildings draped in mourning, tolling church bells, and religious services will distinguish the day. As far as can be learned, the merchants, with one accord, propose to cease business on the occasion. The only exception will be in the drug trade. The local druggists have agreed to close their doors between the hours of 10 o'clock in the morning and 4 o'clock in the afternoon.

The public school children will be permitted to participate in the observance of the day. Here in Plainfield there will be no sessions of the schools, it is understood, and in North Plainfield it is intended to hold a short memorial service at the schools in the morning and upon its conclusion the pupils will be dismissed for the day. The banks will also be closed.

The North Avenue station in the morning will look deserted when the commuters' trains draw out from the station for New York. The great majority of the hundreds of daily travelers to the metropolis will remain in this city during the day.

It is expected that the services at the various churches throughout the city and borough will be crowded by hosts of people anxious to offer prayers suitable to the occasion and listen to the discourses on the life and works of the martyred President. The chief service will be the union exercises at the Crescent Avenue church at 10:30 o'clock in the morning. Dr. D. J. Yerkes, pastor of the First Baptist church, will deliver an eulogistic address and many other clergymen will take part in the service. There will be a number of separate services at the various churches. Holy Cross and Grace Episcopal will have special memorial services in the morning and the Congregational church and Hope chapel intend to have services in the evening.

In the case of the Congregational church, the regular weekly prayer meeting tomorrow evening will be dispensed with and in its place this memorial service will be held the following evening. Union services will be held by the colored people in the Calvary Baptist church at 2:30 o'clock in the afternoon. Rev. E. E. Jackson will preach.

It is believed that the day will be duly respected in other ways. Sports and recreation to a large extent will be frowned upon. The Hillside Tennis and Golf Club trustees have given notice that the club house will be closed until 1 o'clock in the afternoon and all members are requested to refrain from playing until after that hour. The Park Golf Club will take similar action.

Over the brook the decorations in mourning are quite extensive. This is also the case here in Plainfield, but some of the merchants have neglected to properly drape their places of business. In order that attention be given this seeming neglect, Mayor O. L. Jenkins called upon these merchants individually and asked that they drape their stores appropriately.

The officials of the Pond Machine Tool Company have decided to close the works from tomorrow evening until Friday morning, out of respect

BOYS CLUB OPENED FOR WINTER ACTIVITY.

Great Work Which is Being Accomplished at That Excellent Local Institution.

BOYS ARE TAUGHT TRADES.

REMARKABLE RECORD MADE BY THOSE IT HAS TAUGHT.

Besides the Practical Instruction in Trades, the Boys Have the Use of the Gymnasium—Opening Was Last Night.

Without any undue display, yet none the less auspicious to those whom it benefits, the Boys' Club opened for the season last evening. Seventy-five boys, ranging in ages from six to sixteen years, were in attendance and their gleeful shouts as they busied themselves in the gymnasium gave evidence of the delightful time they were having. Superintendent Olaf Saugstad was present and was kept busy the entire evening enrolling names and assigning the owners to various trade departments which will shortly resume sessions.

The course to be followed this season, will be similar to that followed in past years. The members will have the full use of the splendid gymnasium and its furnishings allotted nights in the week while the remainder will be devoted to requiring a practical knowledge of some useful trade. Among those taught are carpentering, draughting, mechanical drawing, wood-working and turning and molding. The boys have their choice of any in the list.

During the comparatively few years of its existence this excellent institution, with such an able instructor at its head as Mr. Saugstad, has equipped many young men with an insight of trades which has enabled them to secure much betterr positions than they would have otherwise been able to get. As a matter for reference, Mr. Saugstad has prepared the following partial list of trades in which boys from the Boys' Club are working, with the number of boys in each: Machinists, 22; clerks, 7; electricians, 5; drivers, 4; plumbers, 3; block cutters, 3; carpenters, 2; painters, 2; draughtsman, 2; molding, surveying, mill hand and glove cutter, 1 each. Of course there are many more but they have not been definitely located.

The 1900-1901 report of the club was as follows: Nights open, 200; aggregate attendance, 4,869; names enrolled, 72; average attendance a boy, 67; average attendance a night, 24½.

SPILLED DRIVER AND LOAD.

Trolley Car Butted Into Ice Wagon on Somerset Street This Morning.

While driving his ice wagon down from Watchung yesterday morning John Morton, of West Front street, was thrown to the ground and a portion of his load of ice spilled by a collision with a trolley car on Somerset street near the trolley terminis.

Both Mr. Morton and the trolley motormen were heading in the direction of Front street, with the car in the rear. Feeling that the motorman would sound the gong should the car approach the wagon, Mr. Morton attempted to crossed over the track and the collision resulted. The action of Mr. Morton in changing his course had been so sudden that the motorman was taken by surprise and could not stop his car in time to avert the accident.

SAYS HE INTERFERED.

Warrant Out For Jackson For Getting Into a Family Quarrel of The Robinsons.

Justice Nash has issued a warrant for the arrest of Humstead Jackson, on the complaint of P. P. Robinson, who alleges assault and battery. Saturday night the plaintiff and his son, Charles Robinson, engaged in a family quarrel. Jackson interferred and, it is claimed, struck the plaintiff. Although the Robinsons were arrested, Jackson got away, and now a warrant has been issued for his arrest. All the parties are colored.

To Grade and Macadamize.

C. M. Meeker has been awarded a contract by a private realty company to macadamize and grade Martine avenue from Hillside to Woodland avenue and also Hillside avenue from Prospect to Cedar avenue. The work will be completed by November 1.

Returned From Cleveland.

The G. A. R. members in this city who have been attending the annual encampment at Cleveland, returned home Saturday, well pleased with the trip and the encampment.

SHOT DOWN IN ROAD BY UNKNOWN WHEELMAN.

John King, a Farm Hand, Shot Near New Market Late Last Evening.

TAKEN FOR A HIGHWAYMAN.

KING WAS RUN DOWN FROM BEHIND AND THEN FIRED UPON.

It Was a Lonely Spot and Wheelman Probably Thought He Had Met a Highwayman When He Ran Into King.

(Special to The Daily Press.)

New Market, Sept. 17.—Evidently having been mistaken for a highwayman John King, a German farmhand, employed by Lewis Randolph on the Stelton road, was shot in the back just before midnight last night by an unknown wheelman as he was wending his way homeward.

The bullet entered just below the right arm and it is thought pierced the lung. The shooting took place just outside of the village. King made his way back to the Hotel Nelson, where he had been earlier in the evening. The ambulance was summoned from Plainfield and he is now at Muhlenberg Hospital. It is thought he will recover.

King's recollection of the occurrence is somewhat vague. He remembers being half way between the New Market schoolhouse and Blue's Corner, in an open spot in the road, when he suddenly heard the sound of an approaching bicycle in the rear. Before he could turn the wheel seemed to strike him. Almost instantly a pistol report rang in his ear, followed by a stinging sensation in the back. It seemed as if the wheelman did not stop but immediately went flying in the direction of New Brunswick.

For a few minutes after the shooting, King was dazed. Unfortunately he is unable to furnish a description of his assailant. As soon as he could collect his scattered senses, he retraced his steps and sank exhausted on reaching the hotel. Dr. Nelson was called and did all that was possible, but the man continued to grow worse and he deemed it advisable to send him to Plainfield. He lost considerable blood and was in a very weak condition.

The general opinion prevails that the unknown wheelman did not see King until directly upon him. Not anticipating anyone on the road at that hour of the night, he evidently thought the pedestrian was about to hold him up and, becoming frightened, fired the shot. The fact that he immediately rode off without stopping to see its effect, bears out this theory.

SUING TROLLEY COMPANY.

George Egel Begins Suit for $10,000 for Damages Resulting From Collision With Trolley.

All negotiations for a satisfactory settlement having failed, Lawyer Isaac P. Bunyon has filed suit against the Elizabeth, Plainfield and Central Jersey trolley company, on behalf of George Egel of Somerset street, for $10,000.

Mr. Egel was severely injured on July 4 by a collison between a trolley car and his wagon, as he was driving out of his yard. The wagon was wrecked and he has since been under a physician's care. It is believed the defendants will not let the case come to trial.

WANTS A RIFLE RANGE.

Independent Shooting Club Changes Its Quarters and Plans Other Things.

The Independent Shooting Club, which for a number of years has had its headquarters at the Crescent Hotel, on Somerset street, has removed to the Arlington Hotel, on the same thoroughfare.

There is a movement on foot among the members to establish a rifle range at an early date. A suitable location has not as yet been found, and it is believed that some difficulty will be experienced in finding a convenient site.

Decision Reserved.

The case of George W. Wiennick against Wesley Robinson, in tort, was tried before Justice Hand yesterday. The plaintiff was represented by Lawyer Clement while Law Student Sweeney looked after Robinson's interests. The justice reserved his decision for one week.

Cake Sale.

The Junior Christian Endeavor Society of Marconnier chapel will hold a cake sale at the store of J. A. Smith & Bro., Saturday morning. The proceeds will be for the benefit of the piano fund.

PRIMARY RULES.

Will Have to Be Changed by Republicans to Conform With the New Conditions.

The city Republican executive committee has appointed a committee, consisting of R. F. Murray, Charles S. Foote and J. F. Buckle, to revise the primary rules in accordance with the new election law. H. G. Adams, John Keeley, R. F. Murray and James Stewart, have been appointed a committee on registration, while the naturalization committee consists of Robert Rushmore, W. A. Westphal, H. G. Adams and John Keeley. The ward clerks are J. F. Buckle, John Keeley, Roger F. Murray and William Newcorn.

President J. B. Dumont desires to be relieved of his position and has asked the committee to accept his resignation. The committee does not want Mr. Dumont to retire if he can be persuaded to continue in the position. The committee will call on Mr. Dumont in the hope that he may change his mind.

CASH IS RAISED.

So the City Will Start the Improvement of West Eighth Street Without Delay.

Street Commissioner Gavett expects to place men at work today commencing the macadamizing of West Eighth street, between Grant and Monroe avenues.

The property owners petitioned for the improvement early in the summer and the Common Council agreed to do it only when two-thirds of the cost was contributed by those desiring it. This money has just been raised and deposited with the city treasurer. The improvement will make a continuous stretch of macadam from Monroe avenue to Park avenue, practically the entire length of the street.

NEW PRESS WORKED.

Satisfactory Tests Made by Aluminum Company of New Two-Color Lithograph Press.

The new two-color lithograph press, with which the Aluminum Plate and Press Company has been experimenting for some time, has been completed and found satisfactory. The three-color press, a still greater improvement, will be completed early next week.

It is the intention of the officials to start up early next week with the full number of hands, about forty having been laid off for the past two weeks. The slackness of work was due to a cessation of orders for the one-color press, prospective buyers waiting for the outcome of the new machines.

BRIDGE NEEDS REPAIRS.

So the Freeholders Are Going to View It With That End in View.

A meeting of the bridge committees of the Somerset and Union counties Boards of Freeholders will be held in the borough Thursday afternoon at 5 o'clock. The object of the meeting is to view the Washington avenue bridge. This bridge is badly in need of repairs and it is probable that extensive alterations and improvements will be made. The members of the committees are Messrs. Robison, Westphal, Hubbard, Mobus and Lutkins. No action has as yet been taken in regard to the Giraud avenue bridge.

Put Hand Out of Business.

Ross H. Foster, Jr., of Maple avenue, was standing on the rear end of one of McDonough Bro.'s ice wagons Saturday afternoon when a boy about his own age pulled a huge block of ice over on his left hand, crushing it badly. Dr. J. Hervey Buchanan dressed the hand, and thinks it will be some time before he will have the use of it. As it was the left hand he will still be able to attend school.

Extra Quarters Necessary.

It has been determined that extra quarters for the accommodation of pupils in the grammar department of the North Plainfield schools is absolutely necessary. President S. St. J. McCutchen will call the board of trustees together at an early date to decide upon the proper place for the needed rooms.

Draped Elevator Car.

In order to show due respect for the assassinated President, James Carter, the elevatorman at the Babcock building, has draped his car with mourning clasped flags. A picture of the martyred President is caught up in center of several streamers.

Fraternal Visit.

Grand Master of Exchequer John Patrick, of Rutherford, paid a fraternal visit to Perseverance Lodge, No. No. 74, K. of P., Friday evening. The meeting was one of considerable interest to all present.

Can Supply the Demand.

Notwithstanding the scarcity of black material for decorating purposes, Woodhull & Martin are well prepared to supply the great demand.

INDIGNANT AT ACTION OF COUNTY COMMITTEE

Local Democracy Objects to Premature Endorsement of Any Gubernatorial Candidate.

PASSED SUCH RESOLUTIONS

MEETING OF DEMOCRATIC CITY COMMITTEE HELD LAST NIGHT.

Much Dissatisfaction Over Endorsement—Mayor Seymour at Meeting of County Committee—Declares Such Action Was High Handed.

The city Democratic executive committee met last evening, with a good representation. Michael Flynn, chairman, occupied the chair, and Andrew Nolan, secretary, was in his position. While the meeting was very harmonious, considerable time was devoted to the discussion of the high-handed methods adopted by the county committee, who so recently took it upon themselves to voice the sentiment of the Democrats of the county without first having received their opinion as to a candidate for governor.

It will be remembered that a few days ago the county committee announced Mayor Seymour, of Newark, as the logical candidate for the chief office of the State. This was entirely without the knowledge of the local Democracy, and naturally the announcement caused a strong feeling of dissatisfaction. The opinion among local Democrats, especially those in the executive committee, is that the Democrats of the county should be allowed to select a candidate. The sentiment, at present, is that the county committee desired to gain favor with Seymour by adopting resolutions favoring him. Thus if he should be chosen, the members would naturally expect some special attention at his hands.

At the meeting of the city committee last evening resolutions denouncing the action of the county committee were adopted. From present indications the county committee will hear considerably more from the local Democracy. The committee set Friday evening, Sept. 27, as the time for holding the primaries in this city.

IN HARD LUCK.

So City Judge Runyon Let the Young Man Go This Morning.

Joseph Wilkins, a well-dressed young man, was taken off a passenger train at the North Avenue station this morning, charged by the conductor with attempting to beat his way to New York.

He was arraigned before City Judge Runyon, to whom he told a hard luck story. He had been working for a farmer at Renevo, Clinton county, Pa., but not receiving any pay had taken his departure although without funds.

He was sincere in his statement and seemed to feel his position keenly. On suspension of sentence he promised to return to Pennsylvania at once.

Ran Away With Hay Wagon.

A team of horses belonging to Christopher Koehlein, of Mount Bethel, drawing a wagon loaded with over two tons of hay, ran away from beneath the Park avenue railroad bridge yesterday morning. The horses turned into West Fourth street, just grazing two of the Rockfellow grocery wagons, and were stopped east of Arlington avenue by Fred Shepherd and Watson Randolph. There was no damage.

Injured His Brain.

William Meyer, an employe of the Columbia Tool Works, struck his head, Saturday, a terrific blow with a hammer. The pain caused him to faint and he fell backward, striking his head on a wooden block. He was rendered unconscious. After being taken to his home on Liberty street, Dr. Cregar found him suffering from concussion of the brain. He will be confined to his home for some time.

Only One Illegal Customer.

Sentence was suspended on Julius Nastronato, in the City Court this morning, after being tried on a charge of keeping his barber shop open seven days a week. He testified that he had attended to one customer on Sunday who could not visit his shop on week-days. As this was his sole offense he was warned not to repeat it and keep entirely closed on the day he observes as the Sabbath.

Initiated One Candidate.

Washington Camp, No. 30, P. O. S. of A., met last evening and initiated one candidate. There was a good attendance of members and the meeting was an interesting one.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Astamalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel.
NEW YORK, Jan. 3, 1901.

DRS. TAFT BROS.' MEDICINE CO.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wondertul.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloreform or ether.

Very truly yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., February 1, 1901.

DR. TAFT BROS. MEDICINE CO.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. February 5, 1901.
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street.

SHAFFER'S HANDS FULL.

Amalgamated Headquarters Besieged by Anxious Strikers.

PITTSBURG, Sept. 17.—It was a turbulent day for President Shaffer and the general officials of the Amalgamated association yesterday. The headquarters of the organization were crowded from morning until evening with strikers and representatives of lodges where the mills were still idle and workers were waiting word from the leader regarding the settlement of the strike. President Shaffer arrived at his office early in the day and remained until 6 o'clock at night.

He had difficulty in seeing all who came and finally arranged to see individual delegations from each lodge under promise that what they learned from him was to remain secret except when the subject was brought before the lodge and in the lodgeroom. The callers at the general offices were all more or less excited, and many were deeply incensed. Some of the strikers declared they would not respect the order calling the strike off until they were given full particulars of the settlement. Others were calling boldly for the resignation of President Shaffer, and another class demanded the withdrawal of their lodges from the organization.

The most worrying feature to President Shaffer during the day was the presence of newspaper men in the headquarters. He finally ordered them from the building.

A McKinley Memorial Arch.

CHICAGO, Sept. 17.—At an informal meeting of 100 prominent citizens of Chicago a proposition to start a movement for the erection of a magnificent memorial arch for President McKinley at Washington was made by Alexander H. Revell. The suggestion was universally approved. Several gentlemen spoke upon the matter, including Congressman Boutelle, J. C. Shaffer, ex-Alderman Fitch and President Foster. The proposition was that the president of the United States be requested to appoint a commission of citizens who shall take charge of the collection of a public fund for the purpose of building such an arch at Washington. He further proposed that in the event of favorable action by President Roosevelt such men as President Roosevelt himself, ex-President Cleveland and William Jennings Bryan become honorary presidents and Lyman J. Gage, ex-Secretary Cornelius N. Bliss, John J. Mitchell and others become treasurers; also that the governors and mayors of the various states and cities act as local receivers of contributions from the public.

Monument to Jennie Wade.

GETTYSBURG, Pa., Sept. 17.—The dedication of the Jennie Wade monument took place in the National cemetery here. The monument is noteworthy from the fact that it was erected to the memory of the only woman killed during the battle of Gettysburg by the Woman's Relief corps of Iowa and was made by a woman, Mrs. Anna M. Miller of Gettysburg. The shaft is twelve feet in height and is surmounted by a fine statue of Jennie Wade. The inscription on the face of the monument is, "Jennie Wade, Killed July 3, 1863, While Making Bread For Union Soldiers." On the opposite side appears, "Erected by the Woman's Relief Corps of Iowa, A. D. 1901." The Wade family motto, "Whatsoever God Willeth Must Be, Though a Nation Mourns," is on the third side, and on the remaining face the simple epitaph, "She Hath Done What She Could."

CZOLGOSZ INDICTED.

Assassin of President McKinley In Court.

PRISONER STUBBORN AND MUTE.

Refused to Answer All Questions When Arraigned Before Judge Emery—Counsel Assigned to Defend the Guilty Wretch.

BUFFALO, Sept. 17.—Leon F. Czolgosz, alias Fred Nieman, was indicted yesterday afternoon by the county court grand jury for the crime of murder in the first degree in fatally shooting President William McKinley at the Temple of Music in the Pan-American exposition grounds at 4:15 o'clock on the afternoon of Sept. 6.

When arraigned before Judge Edward K. Emery in the county court at 5:26 o'clock, the prisoner stubbornly refused to answer questions repeatedly asked of him by District Attorney Penney as to whether he had counsel or wanted counsel. The district attorney then suggested that, inasmuch as the defendant refused to answer, counsel should be assigned.

Judge Emery assigned Hon. Loran L. Lewis and Hon. Robert C. Titus, former supreme court justices of this city, whose names had been suggested by the Erie County Bar association.

Czolgosz will probably be arraigned today to plead to the indictment.

District Attorney Penney presented the evidence in the murder case to the grand jury from 10 o'clock in the morning until a few minutes past 4 o'clock in the afternoon.

Aside from the surgeons and physicians in the case no witnesses were sworn other than those who were in the Temple of Music and witnessed the shooting.

At 4:15 o'clock, just exactly ten days after the shooting, the grand jury voted unanimously to indict Czolgosz for murder in the first degree. At 4:41 o'clock the secret indictment was presented to Judge Emery in the county court.

Then ensued a wait of an hour, but the rumor that the murderer was to be arraigned spread, and in a short time the courtroom was crowded. Great secrecy was maintained as to the place of confinement of the prisoner, but it is believed he was locked up in the temporary jail at the Erie county penitentiary, where prisoners have been kept while the jail has been undergoing repairs. After the indictment was reported the prisoner was driven from the penitentiary, a mile from the city hall, to the jail across the street from the hall. Czolgosz was then taken under strong guard from the jail through the tunnel under Delaware avenue to the basement of the city hall and up the stairs to the courtroom on the second floor.

The prisoner was shackled to Detective Solomon, and Detective Geary held his other arm, Assistant Superintendent Cusack marching in front and a number of patrolmen behind. When the prisoner was taken before the bench, the crowd in the courtroom surged about him on all sides. They were compelled to resume their seats.

Czolgosz is of medium height, of fairly good build and has light curly hair, but a ten days' growth of beard on his face gave him an unkempt appearance. Apparently he feigned insanity, not stupidity, and his glance roamed about, but his eyes were always downcast. Not once did he look the county prosecutor or the judge in the face.

"Czolgosz, have you got a lawyer? Do you wish a lawyer? You have been indicted for murder in the first degree. Do you want a lawyer to defend you? Czolgosz, look at me and answer!"

District Attorney Penney fired these at the prisoner, his voice rising with each suceeding question, but Czolgosz stubbornly refused to answer. The district attorney respectfully suggested that counsel be assigned to defend the prisoner and ascertain what he had better do as to his plea to the indictment before arraignment. Judge Emery then asked the prisoner before the bar if he had counsel, but there was no answer despite the fact that the police officers told him the judge was speaking and that he must answer.

The court then said: "Czolgosz, you having appeared for arraignment in the court without counsel the law makes it the duty of the court to assign counsel. The Bar association of our county has considered the matter and suggested the names of certain gentlemen of high character for such assignment. The court has seriously considered the question and after such consideration has concluded to follow the suggestions made by the association. The court therefore assigns the Hon. Loran L. Lewis and the Hon. Robert C. Titus as your counsel."

Judge Emery directed the officers to notify the attorneys and remove the risoner.

Czolgosz was handcuffed to the detectives, who started out of the courtroom with him. The crowds surged after them, but found the exit barred by four strong policemen. Outside the courtroom door the prisoner was surrounded by twelve policemen with clubs drawn and under command of Captain Michael Regan, Jailer George Mitchell and several deputy sheriffs. The prisoner was hurried down stairs and into the basement, whence he was taken through the tunnel to the jail across Delaware avenue. Whether he was left there for the night or taken elsewhere the police refused to say.

THE SAD JOURNEY

Remains of Martyr President Carried to Washington.

CROWDS LINE THE ROUTE

Work Generally Suspended In City, Mine and Field.

UNIVERSAL SORROW MANIFESTED

Funeral Train Left Buffalo In Early Morning—At Every Town Along the Route Sobs of Men and Women and Tolling Bells Were Heard—Mrs. McKinley Stood the Trying Ordeal Well.

WASHINGTON, Sept. 17.—Through a living lane of bareheaded people stretching from Buffalo up over the Alleghenys, down into the broad valley of the Susquehanna and on to the marble city on the banks of the shining Potomac the nation's martyred president made his last journey to the seat of the government over which he presided for four and a half years. The whole country seemed to have drained its population at the sides of the track over which the funeral train passed. The thin lines through the mountains and the sparsely settled districts thickened at the little hamlets, covered acres in towns suddenly grown to the proportions of respectable cities and were congested into vast multitudes in the larger cities. Work was suspended in field and mine and city. The schools were dismissed. And everywhere appeared the trappings and tokens of woe. A million flags at half mast dotted hillside and valley and formed a thicket of color over the cities. And from almost every banner streamed a bit of crape. The stations were heavy with the black symbols of mourning. At all the larger towns and cities after the train got into Pennsylvania militiamen drawn up at "present arms" kept back the enormous crowds.

The silence with which the countless thousands viewed the remains of their hero and martyr was oppressive and profound. Only the rumbling of the train wheels, the sobs from men and women with tear stained faces and the doleful tolling of the church and other bells broke on the ear. At several places, Williamsport, Harrisburg and Baltimore, the chimes played Cardinal Newman's grand hymn. Taken altogether the journey home was the most remarkable demonstration of universal personal sorrow since Lincoln was borne to his grave. Every one of those who came to pay their last tribute to the dead had an opportunity to catch a glimpse of the flag covered bier elevated to view in the observation car at the rear of the train.

Mrs. McKinley has stood the strain of the trying ordeal following the death of the president without breaking down, and her physician, Dr. Rixey, is encouraged to believe that she will go through the state ceremonial without collapse.

The half hour she spent beside the coffin on the train in the morning was followed by a period of depression, but Dr. Rixey induced her to sleep in the afternoon. Now that she has gone through with the trials and fatigues of two days those nearest to her feel there is little serious danger of immediate collapse. Their dread is for the future, when the nerve tension of the present ordeal is over and the widow is back alone in the old house at Canton.

The narrow, overhanging viaducts under which the train passed as it drew slowly out of Buffalo beat beneath the weight of crowded humanity, packed there by the pressure of the tide of people who filled all the adjoining streets. The windows and roofs of the houses and the roofs of the cars in the yards were black with people, all uncovered. When the train had cleared the city, the people were still there, standing at the crossroads and in the fields. It ran literally between two lines of people. Farmers from the surrounding country had driven through the long, dark hours of the night to be at the side of the track, where they could pay their last tribute of respect. At East Aurora, the first town through which the train passed, the inhabitants had been augmented by thousands from the surrounding country.

The country schools along the way had closed, and the children the president had loved so well in life were there to see his dead body pass. The train slowed down at every station to allow the people lined up on either side to get a better view of the flag covered casket. The population of the towns along the way like Holland, Arcade, Machias Junction, Franklinville and Hinsdale had tripled and quadrupled. They seemed suddenly grown into cities. As the train slowed up the mourners behind the curtained windows of the train could hear the tolling bells.

When Olean was reached, the train made a short stop to change engines. Here were gathered several thousand people to pay their respects to the dead president.

Two engines were used to pull the heavy train up the Allegheny foothills south of Olean. After leaving Keating Summit the train descended into the valley of the Susquehanna. At Emporium Junction one of the engines was taken off. The route continued down the beautiful valley of the Susquehanna as far as Harrisburg. At the little town of Driftwood the entire population of the town was massed behind a little band of Grand Army veterans, who had planted a furled crape trimmed flag in front of them. At Renovo the train crews and engines were changed.

After leaving Williamsport the train ran through stretches of farming country, dotted here and there with small manufacturing towns. At Milton all work was suspended, and the town turned out en masse at the station and lined the railroad track. At the busy little town of Sunbury the shops closed down for a time, and the brawny workmen lined up in their overalls with serious faces and hats in hand. All ages and conditions of the people joined in the tribute—the children with tiny flags topped with knots of black, cripples on crutches and babes held above the crowd for a sight they might never see again. It had been the intention to run through Sunbury without a stop, but such were the importunities of the townspeople that the train pulled up for a moment between solid lines of people.

In the fifty miles from Sunbury to Harrisburg the route skirted the placid Susquehanna, and the vistas of green clad slope and peak gave way to broad sweeps of rich farming country. The river men were aware of the coming of the train. A ponderous dredge halted in its operations, and the men lined the deck of the unwieldly craft. At a little town across the river the populace had emptied upon the wharfs and could be seen straining for a view of the speeding train. Farther on a homely farmhouse had its little porch looped with black and underneath were gathered the old and young of the household with sorrowing faces.

At one crossroad hundreds of vehicles were drawn up, with country people standing in them, and evidently some nearby town had thus sought a point of vantage near the track. Approaching Harrisburg, factory hands again lined the track. The rooftops of buildings were alive with people. Flags were half masted, and emblems of mourning were at every hand. Hundreds of men and women crowded the tops of freight cars.

Within the station the people were banked in thousands, and they surged through all the approaching streets as far as the eye could reach. From a huge viaduct spanning the track countless faces peered down into the car windows. The tolling of the church bells could be heard, and as the train entered the station the shrill notes of a bugle sounded "taps." Despite the vigilance of the guards women pushed through to the train and pleaded at the windows for any trifle the cars might yield as a memento of this eventful trip.

Just as the train stopped a great choir ranged tier on tier on the station steps began "Nearer, My God, to Thee," and then as the train pulled out the strains turned to "My Country, 'Tis of Thee." Printed slips were handed to the car windows giving the lines of the two beautiful hymns deeply bordered in black.

A remarkable spectacle was presented as the train moved across the long bridge spanning the Susquehanna from Harrisburg to Allegheny. On either side of the stream up and down for miles the banks teemed with legions of people. From the brink of the stream they were in solid masses to the trees far in the background. On the bridge itself urchins had clambered into the tangle of steel at the sides and roof. On the surface of the river in a flotilla of rowboats and yachts hundreds more looked up at the train of death.

On the Allegheny side another dense crowd lined the tracks and with bared heads peered into the catafalque car.

Again at York the train moved for half a mile between avenues of solid humanity and windows and housetops alive with people. By this time the sun was getting low, and in the throngs were hundreds of workmen with their dinner pails. Everywhere the same scenes of honor and sorrow that had gone before were re-enacted.

Night came on as the train sped from York to Baltimore without a stop, and in the darkness only the flickering lights along the way and the tolling of bells at the stations bespoke that the manifestations of sorrow were still going on. As the train drew into Baltimore black masses of people could be seen ranged upon the huge viaducts which span the line of the road, and at every street crossing a living tide surged up to the train. Nearing the station, the locomotive literally plowed its way among flowers, for great masses of blossoms had been strewn along the pathway of the train.

Inside the station the iron railing held back a surging multitude, while within the rail the entire force of the city postoffice was drawn up on one side of the track, with banners wound with crape, and the force of the custom house on the other side. In front of the crowd stood Mayor Hayes, with his sister, each bearing great clusters of roses and palms, a tribute from the city to be placed on the bier of the dead president. As the flowers were passed within the train the notes of "Nearer, My God, to Thee," again arose. A moment later the train was off for the final destination.

At Baltimore the entire makeup of the train was reversed, the catafalque car now being at the front, while that of Mrs. McKinley and the relatives, President Roosevelt and the cabinet and public officials followed in the order named.

It was shortly before 8:30 o'clock that the distant lights of the national capital came into view.

DEPARTURE FROM BUFFALO.

Funeral Train With President's Remains Starts For National Capital.

BUFFALO, Sept. 17.—The special train bearing the body of President McKinley and its escort left this city for Washington at 8:37 o'clock yesterday morning. Large and reverential crowds thronged the depot and the adjacent streets to see the funeral party.

President Roosevelt went to the train in an unostentatious manner. He did not arise until almost 7 o'clock, and at 7:20 o'clock he was ready for breakfast, which he ate with the family of his host, Mr. Wilcox. Just after 8 o'clock he got into a carriage with Secretary Root, Mr. Wilcox and his secretary, William Loeb, and drove to the station.

From the time the signal gun at Fort Porter greeted the sunrise until the mortal remains of the nation's chief were tenderly transferred to the depot the minute gun boomed its tribute of martial grief.

The watch of the night at the casket's side in the rotunda of the city hall was kept by a detachment of sailors from the battleship Indiana under Lieutenant Eberle.

Long before the appointed hour the thoroughfares leading to the city hall were thronged with citizens anxious to pay the last tribute of a fervent sigh.

Major General Brooke, in command of the cortege detail, with Colonel Bingham and Captain Louis Babcock, were on the scene early, soon followed by the detachments of regulars, bluejackets and marines, who stood at ease along the brick wall waiting for the order to move.

Secretary Root was too ill to come to the city hall, and the cabinet was represented by Secretaries Long, Wilson and Hitchcock, Postmaster General Smith and Attorney General Knox.

At 7:51 o'clock Major General Brooke gave the command to take up the casket. The bronze gates to the city hall were thrown open, and Major Mann gave the order to port arms. Along the streets there was a single movement, and every head was uncovered.

But twenty-six minutes were occupied by the procession in reaching the station. When it arrived, the escort was drawn up along Exchange street opposite the train shed. The band took its station at one side and again played "Nearer, My God, to Thee," as the casket was lifted from the hearse and borne slowly through the gates and placed in the Pullman car.

The scene was almost a repetition of that at the city hall. The crowd was just as dense, and not a head, even of the foot police, remained covered as the casket passed.

General Brooke and his staff fell in directly behind the coffin; then came President Roosevelt, Secretary Cortelyou and Senator Hawley and then Senator Hanna and his son and Mr. Milburn.

When the casket was placed in the funeral car, there was nothing upon it save the flag and Senator Hanna's wreath of red roses.

The body of President McKinley was placed on a high catafalque in the observation car Pacific. The casket could be plainly seen through the windows from the station platform.

In the Olympia were Mrs. McKinley and her maid, Mrs. Garret A. Hobart, Garret A. Hobart, Jr.,; Mrs. and Miss Barber, Miss Helen McKinley and Mr. and Mrs. Abner McKinley.

In the compartment car Hungary were President Roosevelt, Secretary Loeb, Secretary Cortelyou, Dr. Rixey and Secretaries Root, Long, Hitchcock and Wilson, Postmaster General Smith and Attorney General Knox.

In the sleeping car Naples were Mr. Bert Miller and Mrs. Harry Hamlin, Miss McKenzie and Miss Hunt, Mr. C. Sprague and Mr. John N. Scatcherd, Colonel W. C. Brown, Colonel Meek, Major C. R. Wilcox, Senator Hanna and Secretary Dover, Mrs. William Duncan, Mr. Frank Osborne, Senator Fairbanks, Senator Burrows, Mrs. McWilliams, Mrs. Stafford and Mr. and Mrs. and Miss Duncan, Colonel Bingham, Lieutenant James McKinley, Mr. and Mrs. Charles Dawes, Mayor Conrad Diehl of Buffalo, Dr. and Mrs. Herman Baer, John F. Milburn, Governor Odell and Secretary Graham.

Others on the train were General Brooke and staff and prominent officers of the G. A. R.

The Raleigh was occupied by the newspaper correspondents, and guests rode in the Belgravia. The Waldorf was a dining car. There were no mourning draperies on the cars. On the locomotive there was simply the white pilot flag which is carried on all special trains.

There was no other bit of color to catch the eye on this train of death. The locomotive was shrouded in black, and the curtains of the cars in which sat the lonely stricken widow, the relatives of the president, cabinet and others were drawn. The whole black train was like a shuttered house save only for that hindmost car where the body lay guarded by a soldier of the army and a sailor of the navy.

No Free Postal Delivery.

WASHINGTON, Sept. 17.—Orders have been given by the acting first assistant postmaster general for the closing of the postoffice at Canton, the home of President McKinley, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on Tuesday and Wednesday and all day on Thursday, the day of the interment. It also has been ordered that all rural free delivery carriers throughout the country shall refrain entirely from performing any official duties on Thursday.

Ex-President Cleveland to Attend.

PRINCETON, N. J., Sept. 17.—Ex-President Cleveland has gone to Washington to be present at the honors to the memory of President McKinley. Mr. Cleveland said in leaving: "Complete arrangements for the funeral, I understand, have not yet been made. I shall participate in any of the exercises that may be deemed proper that take place in Washington. It is not my present intention to accompany the funeral party to Canton.

General Wood Goes to Canton.

WASHINGTON, Sept. 17.—Acting Adjutant General Ward has received a cable message from General Wood, governor general of Cuba, saying that he would leave Havana for Canton by way of Tampa, Fla., in order to be present at the interment of the late president. It is understood that he will bring with him the electoral law of Cuba for the consideration of President Roosevelt.

Navy Yards to Be Closed.

WASHINGTON, Sept. 17.—Telegraphic orders have been issued for the closing of all the navy yards on Thursday. The order includes the naval stations at San Juan, Porto Rico, and Cavite, Philippine Islands.

Hunt Governor of Porto Rico.

SAN JUAN, Porto Rico, Sept. 17.—The late President McKinley having accepted Mr. Allen's resignation of the governorship of Porto Rico, to take effect Sept. 15, extensive preparations had been made by the people of the island for the inauguration of Governor Hunt yesterday. All were canceled immediately, however, on the announcement of the death of Mr. McKinley. Accordingly Mr. Hunt took the oath privately at his residence in the morning in the presence of the members of the executive council, Captain Stirling, the justices of the supreme court and a few others.

Russians Pleased With Battleship.

PHILADELPHIA, Sept. 17.—After a most satisfactory builders' trial trip off the Delaware capes the Russian battleship Retvizan has returned to Cramps' shipyard. The Cramps and the Russian officers were highly pleased with the result of the tests. On the arrival of the Retvizan at the shipyard Edwin S. Cramp said: "The trial of the Retvizan has been the most successful ever made by the company. She developed wonderful speed, sometimes reaching seventeen knots. All of her guns were given a fair test to the entire satisfaction of the Russian officers aboard."

Royalty In Canada.

QUEBEC, Sept. 17.—The Duke and Duchess of Cornwall made their formal entry into the Dominion of Canada yesterday and were given a royal welcome by the people whom they may some day rule as king and queen. Thousands of their loyal subjects assembled to greet them, and they were guests last night in a city brilliant with its decorations and lights. In all the festivity of the day, however, there was a strong undercurrent of regret at the assassination of President McKinley and deep rooted sympathy for the bereavement of the American people.

Schley Court to Convene Friday.

WASHINGTON, Sept. 17.—The Schley court of inquiry will resume its sessions on Friday morning. Definite plans for the daily work of the court have not been completed, but the expectation is that two sessions will be held daily.

AT THE WHITE HOUSE

A Night's Rest In the Great East Room.

CAPITAL RECEIVES DEAD PRESIDENT

Funeral Train Met by Military on Its Arrival In Washington. Dense Crowds View the March to White House.

WASHINGTON, Sept. 17.—The remains of President McKinley last night lay in the east room of the White House, where for more than four years he had made his home as chief executive of the great American republic. Up stairs his widow mourned for her dead in the family apartments that brought back but the saddest of memories. It was with simple ceremony and a silence that fitted perfectly the sadness of the occasion that the body of the late president was borne along Pennsylvania avenue to the White House and laid upon the bier in the great east room where he had stood so often in the pride of his manhood to receive the greetings of the common people he loved better than himself.

It was fitting that such ceremony as there was should be severely military in character in recognition of the fact that the president was the commander in chief of the United States army and navy. Nowhere was there a show of civilian participation. The streets about the station were filled with mounted troops, and the station itself was occupied by stalwart soldiers and sailors in uniform. The blue coated policemen and the railroad employees were nearly all that stood for civil life.

It was not so on the broad stretch of avenue that led to the White House. There the people strained and crowded in a vast multitude against the ropes which restrained them from the space marked out for the line of procession. The silence that marked the progress of the funeral party through the national capital was profound. The people as a whole did not talk even in whispers, and the only sign of agitation in the great crowd was the silent pressing and striving against the ropes to see the mournful cortege which swept slowly along.

The afternoon was cloudy, and with the close of the day began the dull, depressing boom of a great gun at intervals of five minutes. It was the signal which gave notice of the approach of the funeral train.

At the Pennsylvania railroad station men in bright uniforms gathered, a mixture of soldiers and sailors, and with lowered voices talked in groups while waiting to take up their parts in the ceremony. From the brigadier general and naval captain down to the humblest lieutenant and ensign every officer on duty in the capital was there save a few of high rank who composed the guard of honor and waited at the White House.

Then came the veteran Captain Charles Loeffler, who had been the personal messenger and usher to President McKinley and of every other president back to the administration of President Grant; Major Pruden, assistant secretary to the president; Mr. Barnes, Warren Young and others of the White House staff. These and the army and navy officers awaited inside the station for the speeding train.

The way was cleared, and down the pathway strode a body of sturdy soldiers and sailors chosen as the body bearers and guard. They were met at the entrance of the observation car where the remains lay by an officer and admitted at once. Through the clear plate glass windows the casket showed in wrappings of the national flag, covered with rare garlands and set pieces of flowers. The undertaker's assistants removed the floral pieces to the vans which were to carry them to the White House.

The train bearing the president's remains arrived in the Pennsylvania railroad station at 8:38 last evening. The streets around the station and Pennsylvania avenue from there to beyond the White House were dense with people waiting to view the sad march to the White House.

Mrs. McKinley and the first of the mourning party from Buffalo arrived at the White House at 8:52. The shades of Mrs. McKinley's carriage were closely drawn, and under the most stringent orders from Secretary Cortelyou absolutely no newspaper men or others than officials were admitted even to the White House grounds.

At 9:27 the hearse passed through the White House gate.

President Roosevelt In Washington.

WASHINGTON, Sept. 17.—President Roosevelt passed his first night in Washington as chief magistrate at the residence of Captain Cowles, the home of his brother-in-law. He reached here at 9:40 o'clock, accompanied by Captain Cowles, who had been officially detailed to escort the president. In a second carriage were Secretary Hay of the state department and Secretary Gage of the treasury, the senior cabinet officers, neither of whom went to Buffalo and who met Mr. Roosevelt as president for the first time last night. The president ran lightly up the steps of the Cowles residence after glancing at an American flag hanging at half mast over the door. He went immediately to the parlor and greeted Mrs. Roosevelt, who had arrived at 4 o'clock and who for the first time saw her husband as president of the United States. Both Secretaries Hay and Gage alighted, but neither entered the house, Secretary Gage walking to his own home on Massachusetts avenue and Secretary Hay driving to his residence. President Roosevelt declined to receive any callers.

Floral Parade In Cincinnati.

CINCINNATI, O., Sept. 17.—The floral parade in honor of President McKinley was the most elaborate and impressive pageant ever witnessed here. There were more than a hundred floats in line and innumerable other vehicles that had been in preparation for months for the opening of the Cincinnati fall festival. The elaborate floral decorations since last Friday have been properly draped in mourning. Mayor Fleischmann led the parade with his vehicle heavily draped. The same emblem of black was worn by thousands of school children, and an endless line of vehicles was draped with all sorts of designs. The floats and vehicles also carried McKinley's picture framed in black and festooned with flowers. Thousands of his pictures were to be seen along the line.

Weather Probabilities.

Cloudy; probably rain; fresh winds, shifting to westerly and northwesterly.

COMING EVENTS

September 17—Special meeting of Y. M. A. of Hope chapel.

September 17—Smoker of Robin Hood Camp, Woodmen of the World.

September 19—Cantata at Bethel chapel.

A Day of Mourning.

One of the greatest presidents and statesmen which this country has ever known, beloved not only for his wise direction of public affairs which has brought about an era of prosperity never before known, but for the beauty and simplicity of his character, lies dead at the National Capital. The whole world mourns and the land, over which he ruled so wisely, is grief-stricken. The man who has succeeded the martyred President to the position of Chief Executive of these United States has called upon the citizens of the country to lay aside their worldly duties and pleasures for a day and unite to mourn the loss of the great and good man.

Thursday is the day selected by President Roosevelt to be observed as one of general mourning throughout the land. On that day, the impressive funeral services over the remains of the late President will be concluded at Canton, Ohio, his former home, and all that is mortal of William McKinley will be reverently laid in its final resting place. Governor Foster M. Voorhees has promptly seconded the action of President Roosevelt and issued a proclamation to the people of New Jersey asking them to keep the day by gathering in their houses of worship and holding appropriate services.

Mayor O. L. Jenkins, of Plainfield, and Mayor N. B. Smalley, of North Plainfield, have now given out proclamations to the people of city and borough asking that all business activity be abandoned for Thursday and that appropriate services be arranged as the share of Plainfield and North Plainfield in the mourning of a nation at the untimely death of its great leader.

There is no doubt but that the day will be observed in city and borough and that the quietness of a midweek Sabbath will prevade the usually busy streets. It is meet that the citizens should show this mark of respect to one who long ago won the love and respect of the country. Services have already been arranged and it only remains with the merchants and business men to follow the example of the rest of the land and aid in thus honoring the memory of him whose name will ever be spoken of in loving terms by the American people.

Some day Greater Plainfield will be a reality, but until then it has been a source of more or less trouble for strangers to distinguish borough from city. The dividing line is well-known to the local residents. For the benefit of the strangers who happen this way, however, the borough authorities have put up signs on the principal thoroughfares which now clearly define the limits of North Plainfield.

The showing made by Company K on the rifle range was remarkably good for such a new company. Through the courtesy of Captain N. Y. Dungan, of Somerville's company, the local soldier boys are going to have further opportunity to test their ability along those lines.

Twenty years ago all business was suspended in Plainfield while the people of this city mourned the loss of President James A. Garfield, who fell before the murderous hand of an assassin. That example will be followed by the people of Plainfield on this sad occasion.

Dr. H. K. Carroll was a personal friend of the late President and that the latter thought very highly of him was shown by the fact that Dr. Carroll was appointed United States Commissioner to Porto Rico, a particularly important mission.

There are still a number of business houses and residences in this city which have neglected to comply with the Mayor's request and either hoist a flag at half-staff or drape in mourning. Such neglect is undoubtedly the result of thoughtlessness. It is hoped that every building in the city, whether residence or place of business, will be properly decorated before Thursday.

Why does not the New Jersey Central Railroad Company put the driveways leading to the new east bound station in proper condition. At present, owners of good horses are afraid to allow them to drive across such a bed of rocks.

The economy, which is so strict as to cripple effectiveness, has been tried and found wanting. The high officials of the Elizabeth, Plainfield and Central Jersey Street Railway Company appear to have come to that conclusion.

The Union county Republicans have selected as the day for their outing October 1. Is it mere coincidence that the Democratic State convention falls on the same day?

TEA TABLE TALK.

Short and Gossipy Sketches That Are Not Always News, But Just as Interesting.

The death of President McKinley is vividly impressed upon the mind of Miss Ernestine C. Smith, of Madison avenue. Miss Smith saw the President at the Pan-American Exposition on Thursday, the day before he was assassinated, and was within a short distance of him at one time. She says that she noticed especially how happy he seemed to be as he shook hands with so many and bestowed a continual smile. That same day a dinner was given to the President in the New York State building, and Miss Smith was fortunate in getting a beautiful rose, one of many that adorned the table at which the President was seated. At the time she thought little of the flower, but now she prizes it very highly.

DUNELLEN.

(Special Correspondence.)

Dunellen, Sept. 17—There will be union services, in commemoration of the life and death of William McKinley, held in the Presbyterian church Thursday. Those who will participate are the First Baptist, Seventh-Day Baptist, Presbyterian and Methodist churches with their respective pastors.

The Board of Education had intended to reopen the Lincoln school tomorrow, but as the next day is to be observed as a holiday it will probably remain closed until next week. Under the new school law if the school is not closed more than five days the township is entitled to the full appropriation.

Dunellen is in no respect behind other towns in the matter of decorating its buildings with flags and mourning. Among the prominent decorations are those of Dr. Brakely's drug store, the postoffice and fire engine house.

The game of baseball between the Dunellen A.C. and the Metuchen A.C., scheduled for Saturday, was not played because the Metuchen club failed to post the necessary guarantee to help cover the expenses of the game.

Garretson & Gray's stone-cracker was compelled to cease operations yesterday because of a broken roller. It will be two or three days before the plant can be put in working order again.

Charles English expects soon to be promoted from his present position, that of assistant train master, to trainmaster. He is employed by the New Jersey Central Railroad.

The Young Men's Club, of the Presbyterian church, met last evening in its rooms to make arrangements for the winter's occupation and amusement.

Miss May Apgar has returned home after spending a few days at the home of her sister, Mrs. Sherman Cooley, of Flemington.

Mrs. Frank Marienscheck was taken to the Plainfield hospital yesterday afternoon, where she will undergo an operation.

William G. Holten Council, No. 55, will meet tonight in Apgar's hall. The meeting will partake of a memorial nature.

Lewis Churchill and Thos. Thomas left for Princeton yesterday, where they will attend Princeton University.

The Dunellen Juniors defeated the Somerville Reds in a game of baseball Saturday by the score of 16 to 3.

A. C. Merrill and family, of Newark, have returned home after a visit at the home of Samuel Merrill.

Mr. and Mrs. Peters have returned home after a few days' visit with friends at Montclair.

The case of diphtheria in the Kratzel family is improving as well as can be expected.

Miss Katie Kratzel has returned home after a visit with friends at Montclair.

Miss Nellie Brown has returned home after a visit with out-of-town friends.

Mrs. Simion Dayton has been entertaining friends from out of town.

PLAINS AND FANWOOD

(Special Correspondence.)

Scotch Plains, September 17—Scotch Plains is paying its sad respects to the late President. There is scarcely a home but what has its flag at half-mast or draped in mourning.

Mr. and Mrs. Charles Grant, who have been visiting at the home of Mrs. Grant's parents, Mr. and Mrs. Thomas M. Paff, Sr., have returned to their home in Plainfield.

Rev. G. M. Shott, secretary of the Ministers' Weekly Conference meeting, attended a meeting of that body in New York Monday.

The regular monthly meeting of Excelsior Hook and Ladder Company was held in the company's rooms last night.

Mr. and Mrs. Edward Wambold, of Springfield, have been visiting at the home of Mrs. James Buckley.

Miss Minnie Hosinger has returned from a pleasant visit with relatives in New York.

SOUTH PLAINFIELD.

(Special Correspondence.)

South Plainfield, Sept. 17—Camp No. 41, P. O. S. of A., is making arrangements for a quiet celebration of its fifth anniversary, tomorrow evening. After the routine business there will be speech-making by invited guests and some of the members. The entertainment committee will serve light refreshments and cigars.

At the Baptist church Sunday Rev. J. A. Cubberley presented to the congregation some patriotic and religious lessons from the late President's sick chamber. There were no services in the evening.

Harry Clinger has returned to his position at the Lehigh Valley ticket office, after a few days' vacation spent with relatives in Pennsylvania.

Washington Hall is very tastily decorated with flags and draped in mourning, as are many private dwellings.

John Bandenheimer has resigned his position with Peter McDonough and accepted one with Boice, Runyon & Co.

John Tingley has resumed work at the baggage room of the L. V. R. R. station after an illness of a few days.

The regular weekly prayer meeting will be held this evening in the lecture room of the church.

BIRTHDAY CELEBRATED.

Seventy-seventh Anniversary For J. S. Powlison Was a Happy Event.

In honor of the seventy-seventh birthday anniversary of J. S. Powlison, of Grandview avenue, which was celebrated last Saturday, there was a family gathering at the home of his son, Joseph A. Powlison, of Somerset street. The affair was an informal, but delightful one. Mr. Powlison and his wife were invited to the home of the son, where a sumptuous dinner was given for them. Additional pleasure was afforded the celebrant from the fact that his son, Charles Powlison, of New York, was present.

Mr. and Mrs. Powlison have been residents of the borough many years. Mr. Powlison is a native of Ovid, N. Y., although he and his wife were residents of Pluckemin, where Mrs. Powlison was born. They both have excellent health and are enjoying the fruits of a life well spent.

ARRESTED FOR HIS TALK.

POLICE SAY ALBERT DANSCHLALL WAS BERATING LATE PRESIDENT.

Denied the Charge in Court—Held Until Today for Examination of Further Witnesses.

Albert Danschlall, a middle-aged German much the worse for liquor, was found on East Front street by Patrolman Lunger last night loudly proclaiming, it is said, his dislike for President McKinley and the present form of government. He applied all manner of epithets to the name of the martyred Chief Magistrate, the officers say, and conducted himself in a manner which would have called for his being roughly handled if the streets hadn't been practically deserted. As it was Patrolman Lunger was greatly incensed and hustled him to police headquarters, where he was placed in a cell.

When Danschlall was questioned by Chief Kiely this morning he denied uttering the words attributed to him, but replied to most of the queries in a reticent tone. He claimed to have resided in this country for twenty-two years and that he has always been a Republican in his views. His home, he said, was in Newark. He has but one leg, the other one having been amputated after a trolley accident.

The prisoner was remanded until tomorrow morning, when Patrolman Watson, who also heard the remarks, will appear and add his testimony to that of his brother officer.

Studying Local Methods.

Miss Carrie Blackwell, of Hopewell, was a visitor at the North Plainfield public schools yesterday. Miss Blackwell is a teacher in kindergarten work and her purpose in visiting the borough schools was to get an insight into the manner of teaching in that department of school work.

Too Much Drink.

Archibald Davis, of Jackson avenue, arrested by Chief Marshal Campbell for drunkenness, yesterday afternoon, was given a hearing before Borough Recorder Thomas Doud last evening. A fine of $5 not being paid, Davis was sentenced to five days' imprisonment in the lockup.

Free Trip to the Fan.

Local Journeyman Barber's Union, No. 315, held a public drawing last evening for a Pan-American Exposition trip ticket. The lucky drawer was Charles Johnson, of East Third street. The ticket provides for a fifteen day trip, with admission to the exposition grounds.

Fraternal Visit.

Some members of Phoenix Hose Company, of New Brunswick, paid a fraternal visit to Warren engine house, Sunday afternoon. The firemen from Middlesex county drove a new pair of truck horses, which won the admiration of the boroughites.

Pear Tree In Bloom.

The spectacle of a pear tree in full blossom is a strange sight to be seen in the yard of Michael Kolier's residence, on Lincoln place. The owner points to the tree as an example of the prosperity even in plant life.

At Freedom Castle.

Besides initiating several new members other business of importance will be considered at the meeting of Freedom Castle, Knights of the Golden Eagle, this evening.

NEW DRESS GOODS FOR FALL.

Our first showing of fall dress stuffs is now ready for inspection and the range of styles is most comprehensive and by far the largest ever collected by this house. Hardly a desirable fabric of any kind that is not represented here in a complete line of colorings. Every yard of goods shown represents the very best in quality and the most desirable in colorings and can be relied on for excellent service and durability. Don't fail to make a careful inspection of the stock before you make your purchases. Ask for samples to test the quality by careful comparison with any others shown. All classes of good with a lustrous service have been carefully shrunken and sponged and will retain the lustre and finish without spotting.

1.25 Silk Wash Gloria Cloth, a very light weight cloth of fine texture; the warp is of pure silk and the filling of fine wool, giving a very brilliant lustre that will not muss or wrinkle easily; 38 inches wide, 14 exquisite shades.

1.00 Colored "Victoria" broadcloth in 16 new fall shades, bright lustrous finish, fine heavy texture, 52 inches wide.

1.00 French whipcord serge, a very fine lustrous cloth, 48 inches wide, in 12 new fall shades especially adapted for hard service.

75c Mohair granite cloth in a complete line of new shadings, 46 inches wide.

CHARITY WINS LOVE.

Valuable Lesson to Be Drawn from the Lives of Two Men.

Dr. Sunderland, Poor Preacher, Mourned by a Multitude; Shylock, Rich as Croesus, Despised by His Fellow-Men.

[Special Washington Letter.]

A RICH man and a poor man, both well known in this city, recently died; and the death of the poor man was mourned by many thousands of our people.

The poor man was Rev. Byron Sunderland, for 40 years the active pastor of the First Presbyterian church, and for the past ten years pastor emeritus of that congregation. He was visiting his daughter, at Catskill, N. Y., when death came suddenly, although not unexpectedly. The eminent minister was in the eighty-second year of his age and had been looking for the summons for several years, because of the fact that he had long since passed the three score years and ten, and he realized that his sojourn here might not last much longer.

Presidents Pierce, Buchanan, Lincoln, Johnson, Hayes, Cleveland and Harrison were often in his congregation. It was he who officiated at the marriage of President Cleveland, the ceremony being performed in the white house. During his two terms in the presidency President Cleveland and his wife were regular members of his church. In those days the sidewalks and streets were thronged every Sunday morning by citizens and strangers who took that occasion to see the president and his popular wife as they stepped from their carriage across the sidewalk and entered the portals.

Midway between the capitol and treasury, in the very heart of the city, is Four-and-a-half street, a beautiful thoroughfare extending from the arsenal to the city hall; a street once the most popular in the national capital because it was the residence street of the richest and greatest men, the senators, representatives and members of the cabinet. There the First Presbyterian church was built more than half a century ago. But when President Cleveland became a member of the congregation the church was surrounded by the offices of lawyers and claim agents while the fashionable people had moved far to the northwestern part of the city. It was the personality and popularity of Dr. Sunderland which kept the old church in the forefront of religious denominations here.

Dr. Sunderland was a lifelong republican, an abolitionist and an ardent union man, lifting his voice in season and out of season in behalf of the then oppressed race. Despite the well-known fact, and the further fact that the preacher was still ardently a partisan outside of his pulpit, President Cleveland became a regular member of the church, and often said concerning his church going that it was not alone the influence of his wife but the eloquence of the preacher that kept him in the congregation so regularly. He said that he never listened to Dr. Sunderland without learning some important substantive facts, while at the same time every sermon was elevating and encouraging in its tone, and full of the inspiration of the orator's own pure and lovely life.

The positive character of Dr. Sunderland often caused dissatisfaction, and occasionally disaffection in his church, and yet so gentle and sympathetic was his nature, so impulsive and warm, that the large majority of his church always stood with him. On one occasion, during the civil war,

REV. DR. SUNDERLAND.

Dr. Sunderland permitted the use of his church for a lecture by Frederick Douglass, the celebrated colored leader and orator. Several families left the church on that account, for race feeling ran high, and Lincoln's emancipation proclamation was more popular everywhere else in the north than in the national capital. Many families worshiping there were or had been slave owners, and they did not approve of a negro in their pulpit, even though he were conceded to be a man of superior intellectual force and marvelous acquirements. It is not likely that any other preacher in Washington at that time could have retained his charge under such circumstances. But the people of the First church indorsed what Dr. Sunderland had done. Several of the families who felt greatly aggrieved afterwards came back to the church.

Dr. Sunderland was a natural controversialist. In 1872 he went to Salt Lake City with Bishop John P. Newman, and they had an extended joint debate with Brigham Young and Elder Pratt, concerning the Mormon religion. Bishop Newman was one of the most eloquent orators of the Methodist church. He and Dr. Sunderland upheld the claim that Christianity needed no improvement by latter-day revelation, and that Mormonism was without divine authority. The debate was universally published and commented upon not only by the newspapers of this country, but by the leading publications of Europe.

Ten years ago Dr. Sunderland announced to his congregation that he could not retain his position because of advancing years and consequent infirmities. After repeated requests that he might be relieved of the duties which he could not successfully perform, his congregation called Rev. T. De Witt Talmage, who assumed the pastorate with the understanding that Dr. Sunderland should occupy the pulpit as often as health

and strength would permit. And so, by his own request, Dr. Sunderland became pastor emeritus.

This eminent and well-beloved orator was a man of slight physique, but wonderful energy. He was socially inclined and greatly enjoyed the continuous round of calls at the homes of his parishioners; a portion of the ministerial duty which so many modern preachers find so irksome. He knew every man, woman and child connected with the church and Sunday school, and they all knew him and loved him. Without effort he had the faculty cultivated by politicians, easily and readily to greet by name even the little ones who spoke to him in different parts of the city. Until the day of his death he was mentally vigorous and alert.

Dr. Sunderland died a poor man. During the latter part of his active pastorate his salary had been $6,000 per annum, but he was liberal to a fault, charitable, generous. He laid not up treasures upon earth where moth and rust corrupt and decay. He was content to be rich in the love of his people. Therefore there was mourning when the final summons came and he entered upon that condition which lays the shepherd's crook beside the scepter and which levels all distinctions.

The rich man who died need not be named, because he is not mourned. He was born rich and worshiped money with miserly devotion. He lived to accumulate wealth for his own personal gratification. He never gave a dollar nor a penny to any public enterprise. No church knew him and no church mourned him. He owned houses and lands, bonds and stocks. He was a giant physically and his health was unimpaired until his seventy-seventh birthday. He never thought of death and was building more houses when disease developed and he was unable to go forth from his palace to make more money. Physicians and trained nurses were summoned, and the saving, scrimping, stingy man became prodigal in his offers of wealth for health. But he died. Widowed and childless he passed away. But for his inattention to his family, it is generally believed that he would not have been widowed and childless. And so it came about that in his last days, surrounded by riches almost untold, he was alone in the world, as solitary as an oyster in his shell.

In the executive departments here there are always clerks who are indigent, because improvident and prodigal. To these the rich man used to loan money at five per cent. a month. Later, when they were well in his clutches, he charged them ten per cent. a month for the money they were obliged to borrow. The interest was 60 per cent. per annum at first, and then 120 per cent. No wonder he grew rich, while others suffered. Finally the heads of departments refused to enforce collections on such loans, and then he dropped that business. But he built houses and sold them to clerks "on long time notes." That seemed generous. But whenever a clerk failed to make full payment, exactly on time, no mercy was shown. Mortgages were foreclosed, and he took back his houses, and kept all the money which had been paid on them.

These are only brief citations of his methods of making money. He was busy all the time devising schemes to turn his hundreds into thousands and his thousands into millions; and always without regard for the rights of others, save within bounds of law. And so it came to pass that when this rich man was called hence he went forth unregretted. Many, particularly those who had suffered from his extortions, were so uncharitable as to say they were glad that he had gone.

The rich man and the poor man died within a few days of each other; and they left their records as exemplar legacies for the plain people. Everybody says: "God bless Dr. Sunderland." Nobody says a benediction for the rich man. In the contrast there is a valuable lesson for thinking men and women everywhere. SMITH D. FRY.

I am an oil well operator, and, in consequence, am exposed to all kinds of weather and subject to irregular hours of work, which has told on my health in many ways. I have had all sorts of trouble, caused by dyspepsia, loss of appetite, kidney and liver trouble, and would take cold at the least exposure. In fact, my health was completely run down. I tried various remedies without avail, and having noticed the persistent advertising of Ripans Tabules in the papers and magazines I decided to give them a trial, and in less than a week noted good results, and now, at the end of six months' rather steady use, am fully restored to health, and never felt better in my life, all of which is due to R·I·P·A·N·S. I can not speak too highly of them, and am glad to recommend them to any one whose condition of health is similar to mine some months since. I might add that during my illness I was more or less troubled with rheumatism, and as that has left me entirely I certainly owe it to R·I·P·A·N·S, as my blood is now in a healthier condition. My age is thirty-eight years.

WANTED:—A case of bad health that R·I·P·A·N·S will not benefit. They banish pain and prolong life. One gives relief. Note the word R·I·P·A·N·S on the package and accept no substitute. R·I·P·A·N·S, 16 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded by the Ripans Chemical Co., No. 10 Spruce St., New York.

SKIRTS MATCH SLEEVES.

Both Are Gradually Increasing In Fullness.

The new Raleigh sleeve is made on the bishop order, with a small, pretty wrist puff, the latter being outlined with narrow bands overlaid with silk applique. It is shaped with an inside seam and made on a close lining.

There is very little difference in the cut of the latest skirts. They still fit as if they were molded around the hips, while the fullness around the bottom is increasing imperceptibly in order to go with the gather which are now seen in the sleeves. Some of the French models show draped effects, but these are always below the knees. The plain skirt, however, is a thing of the past, and if there are no ruffles at the bottom fashion demands that the skirt shall be laid in tucks at the top. Skirts tucked all over, either perpendicularly or vertically, have the most style for slight figures.

In many of the handsomer skirts the gored ruffle is put on so imperceptibly that it is only noticed by the surplus fullness around the bottom.

The stylish fall costume here represented is of ecru broadcloth. The blouse has a double collar fastening to

the left, with three narrow straps of braid. Where the collar crosses it is ornamented with a crushed bow of bronze panne. The loose sleeves reach to the elbow, and they show the underblouse of fawn colored tucked chiffon. The wide belt is of the material, trimmed with little buttons. The skirt is made with three bias flounces, heavily stitched.

The toque is of pale yellow velvet poppies and bronze velvet.

NEW TAILOR MADES.

Gray Is Still Popular—Brown Is the Favorite Shade In Paris.

Autumn boleros are stylish with the new double breasted front, having long tabs and revers turning back without leaving any opening. Revers are still very elaborate, and a new way of trimming them consists in appliqueing arabesques of dark silk or cloth on a light ground.

Gray costumes will prove as popular as ever.

Brown tailor mades are all the fad in Paris, but it is not likely that they will become such favorites on this side of

the water, as the brown and fawn shades are suited to but few American women. The new shades of brown, by the way, should show no suspicion of red, but rather tend toward the chocolate shades. It is rumored that a prominent Parisian hairdresser has invented a hair dye especially to go with this new brown tint.

The pretty tailor made in the illustration is dressy enough for most occasions. It is made of gray broadcloth and trimmed with silk braid of the same color. The Eton jacket is cut very short to allow the broad black panne girdle to be seen, and the high aigion collar discloses a collar and jabot of black tulle. The jacket is made single breasted, with a pointed braided effect, which also appears on the close fitting sleeves. The skirt is entirely laid in fine plaits, which are stitched half way down and then allowed to flare.

The hat is the popular French canotier shape, and it is very simply trimmed with a narrow black velvet ribbon tied in a bow with long ends.

The Lost Continent

By CUTCLIFFE HYNE.

Published by Harper & Bros. Copyright, 1900, by Cutcliffe Hyne.

[CONTINUED.]

The empress made to rise, but Ylga clung to her skirt. "For the sake of your fame," she urged, "for the sake of your life, do not defy him." But Phorenice struck her fiercely aside and faced the old man in a tumult of passion. "You dare call me a blasphemer, who blaspheme yourself? You dare cast slurs upon my birth, who am come direct from the most high Heaven? Old man, your craziness protects you in part, but not in all. You shall be whipped. Do you hear me? I say, whipped. The lean flesh shall be scourged from your scraggy bones, and you shall totter away from this place as a red and bleeding example for those who would dare traduce their empress. Here, some of you, I say, take that man and let him be whipped where he stands."

Her cry went out clearly enough. But not a soul among those glittering feasters stirred in his place. Not a soldier among the guards stepped from his rank. The place was hung in a terrible silence. It seemed as though no one within the hall dared so much as to draw a breath. All felt that the very air was big with fate.

Phorenice, with her head crouched forward, looked from one group to another. Her face was working. "Have I no true servants," she asked, "among all you pretty lip-servers?"

Still no one moved. They stood, or sat, or crouched like people fascinated. For myself, with the first words he had uttered, I had recognized the old man by his voice. It was Zaemon, the weak governor who had given the empress her first step towards power; that earnest searcher into the mysteries, who knew more of their powers, and more about the hidden forces, than any other dweller on the Sacred Mountain, even at that time when I left for my colony. And now, during his strange hermit life, how much more might he not have learned? I was torn by warring duties. I owed much to the Priests' clan by reason of my oath and membership; it seemed I owed no less to Phorenice. And, again, was Zaemon the truly accredited envoy of the high council of the priests of the Sacred Mountain? And was the empress of a truth deposed by the high gods above, or was she still empress, and still commander of my duty? I could not tell, and so I sat in my seat awaiting what the event would show.

Phorenice's fury was growing. "Do I stand alone here?" she cried. "Have I pampered you creatures out of all touch with gratitude? It seems that at least I want a new chief to my guards. Ho! who will be the chief of the guards of the empress?"

There was a shifting of eyes, a hesitation. Then a great burly form strode up from the farther end of the hall, and a perceptible shudder went up from all the others as they watched him.

"So, Tarca, you prefer to take the risks, and remain chief of the guard yourself?" she said, with an angry scoff. "Truly there did not seem to be many thrusting forward to strip you of the office. I shall have a fine sorting up of places in payment for this night's work. But for the present, Tarca, do your duty."

The man came up, obviously timorous. He was a solidly made fellow, but not altogether unmartial; and, though but little of his cheek showed above his decorated beard, I could see that he paled as he came near to the priest. "My lord," he said, quietly, "I must ask you to come with me."

"Stand aside!" said the old man, thrusting out the symbol in front of him. I could see his eyes gather on the soldier and his brows knit with a strain of will.

Tarca saw this, too, and I thought he would have fallen, but with an effort he kept his manhood and doggedly repeated his summons. "I must obey the command of my mistress, and I would have you remember, my lord, that I am but a servant. You must come with me to the whip."

"I warn you!" cried the old man. "Stand from out of my path, you!"

It must have been with the courage of desperation that the soldier dared to use force. But the hand he stretched out dropped limply back to his side the moment it touched the old man's bare shoulder, as though it had been struck by some shock. He seemed almost to have expected some such repulse; yet when he picked up that hand with the other and looked at it, and saw its whiteness, he let out of him a yell like a wounded beast. "Oh, gods!" he cried, "not that. Spare me!"

But Zaemon was glowering at him still. A twitching seized the man's face, and he put up his sound hand to it and plucked at his beard, which was curled and plaited after the new fashion of the day. A woman standing near screamed as the half of the beard came off in his fingers. Beneath was silver whiteness over half of his face. Zaemon had smitten him with a sudden leprosy that was past cure.

Yet the punishment was not ended even then. Other twitchings took him on other parts of the body, and he tore off his armor and his foppish clothes, and always where the bare flesh showed there had the horrid plague written its white mark; and in the end, being unable to endure no more, the man fell to the pavement and lay there writhing.

Zaemon said no further word. He lifted the symbol before him, set his eyes on the farther door of the banqueting hall and walked for it directly, all those in his path shrinking away from him with open shudders. And through the valves of the door he passed out of our sight, still wordless, still unchecked.

I glanced up at Phorenice. The loveliness of her face was drawn and haggard. It was her first great reverse, this, she had met with in all her life, and the shock of it, and the vision of what might follow after, dazed her. Alas, if she could only have guessed at a tenth of the terrors which the future had in its womb, Atlantis might have been saved even then.

CHAPTER VI.

THE BITERS OF THE CITY WALLS.

Here then was the manner of my reception back in the capital of Atlantis, and some first glimpse at her new policies. I freely confess to my own inaction and limpness; but it was all deliberate. The old ties of duty seemed lost, or at least merged in one another. Beforetime, to serve the king was to serve the clan of the priests, from which he had been chosen, and whose head he constituted. But Phorenice was self-made, and appeared to be a rule unto herself; if Zaemon was to be trusted, he was the mouthpiece of the priests, and their clan had set her at defiance; and how was a mere honest man to choose on the instant between the two?

But cold argument told me that governments were set up for the good of the country at large, and I said to myself that there would be my choice; I must find out which rule promised best for Atlantis, and do my poor best to prop it into full power. And here at once there opened up another path in the maze; I had heard some considerable talk of rebels; of another faction of Atlanteans who, whatever their faults might be, were at any rate strong enough to beleaguer the capital; and before coming to any final decision, it would be as well to take their claims in balance with the rest. So, on the night of that very same day on which I had just replanted my foot on the old country's shores, I set out to glean for myself tidings on the matter.

No one inside the royal pyramid gainsaid me. The banquet had ended abruptly with the terrible scene that I have set down above on these tablets, for with Tarca writhing on the floor, and thrusting out the gruesome sores of his leprosy, even the most gluttonous had little enough appetite for further gorging.

A score of sturdy fellows were detailed off for my escort, and, with them in a double file on either hand, I marched out from the close perfumed air of the pyramid into the cool moonlight of the city. It was my purpose to make a tour of the walls and to find out somewhat of the disposition of these rebels.

And so in time the windings of the street brought us to the walls, and, coursing beside these and giving testing answer to the sentries who beat their drums as we passed, we came in time to that great gate which was a charge to the captain of the guardmen.

Here it was plain there was some special commotion. A noise of laughter went up into the still night air, and with it now and again the sweet and roar of a great beast, and now and again the shriek of a hurt man.

My escort made outcry with the horn which hung from the wall hurting such a summons, and a warder came to an arrow-slit, and did inspection of our persons and business. His survey was according to the ancient form of words, which is long, and this was made still more tedious by the noise from within, which ever and again drowned all speech between us entirely.

But at last the formalities had been duly complied with, and he shot back the massive bars and bolts of stone, and threw ajar one monstrous stone valve of the door. Into the chamber within—a chamber made from the thickness of the wall between the two doors—I and my fellows crowded, and then the warder with his machines pulled to the valve which had been opened, and came to me again through the press of my escort, bowing low to the ground.

"I have no vail to give you," I said, abruptly. "Get on with your duty. Open me that other door."

"With respect, my lord, it would be better that I should first announce my lord's presence. There is a baiting going forward in the circus, and the tigers are as yet mere savages, and no respecters of persons."

"The what?"

"The tigers, if my lord will permit the name. They are baiting a batch of prisoners with the two great beasts which the empress (whose name be adored) has sent here to aid us keep the gate. But if my lord will, there are the ward-rooms leading off this passage, and the galleries which run out from them commanding the circus, and from there my lord can see the sport undisturbed."

Now, the mere lust for killing excites only disgust in me, but I suspected the orders of the empress in this manner, and had a curiosity to see her scheme. So I stepped into the warder's lodge, and on into the galleries which commanded the circus with their arrow-slits. The old builders of the place had intended these for a second line of defense; for, supposing the outer doors all forced, an enemy could be speedily shot down in the circus, without being able to give a blow in return, and so would only march into a death-trap. But as a gazing-place on a spectacle they were no less useful.

The circus was bright lit by the moonshine, and the air which came in to me from it was acid with the reek of blood. There was no sport in what was going forward; as I said, it were mere killing, and the sight disgusted me. I am no prude about this matter. Give a prisoner his weapons, put him in a pit with beasts of reasonable strength, and let him fight to a finish if you choose, and I can look on there and applaud the strokes. The war prisoner, being a prisoner, has earned death by natural law, and prefers to get his last stroke in hot blood than to be knocked down by the headsman's ax. And it is any brave man's luxury either to help or watch a lusty fight. But this baiting in the circus between the gates was no fair battle like that.

To begin with, the beasts were no fair antagonists for single men. In fact, 20 men armed might well have fled from them. When the warder said tigers, I supposed he meant the great cats of the woods. But here, in the circus, I saw a pair of the most terrific of all the fur-bearing land beasts, the great tigers of the caves—huge monsters, of such ponderous strength that in hunger they will oftentimes draw down a mammoth, if they can find him away from his herd.

How they had been brought captive I could not tell. Hunter of beasts though I had been for all my days, I take no shame in saying that I always approached the slaying of a cave-tiger with stratagem and infinite caution. To trap it alive and bring it to a city on a chain was beyond my most daring schemes, and I have been accredited with more new things than one. But here it was in fact, and I saw in these captive beasts a new certificate for Phorenice's genius.

MORE EVIDENCE.

It is Coming in Rapidly in Plainfield.

Evidence on the following subject will prove of interest to every Plainfield reader. So many people go through the same experience daily. This public statement should be proof positive to every wavering doubter. Read it carefully.

Mr. Geo. S. McGinnis, of 212 Somerset street, foreman of R. H. McCullough's Sash and Door Manufacturing Company, says: "I never was sick a day in my life until a pain struck me across my back and a lameness over the kidneys. I did not pay much attention to it at first, thinking it would soon pass away, but instead of this it grew worse. I saw Doan's Kidney Pills so highly recommended by those who had used them for such troubles that I went to L. W. Randolph's drug store and got a box. I used them according to instructions and felt somewhat relieved. Continuing the treatment, by the time I had finished the third box, the pain in my back and lameness disappeared."

NEW TROTTING KING

Cresceus Reduces the Mile Record to Exactly 2:02 1-4.

He Is an Ungainly Animal, Big and Rawboned, and Looks Sleepy Until Called Upon to Exert Himself.

A new trotting king was crowned at the Brighton Beach racetrack, August 15, in the presence of 25,000 lovers of that distinctively American product, the trotting horse. The fate of the former king had been foreshadowed three weeks before at Cleveland, when Cresceus lowered The Abbot's mark of 2:03¼ to 2:02¾, and a week later to 2:02¼; but The Abbot was not formally deposed until August 15, when he and Cresceus met at Brighton, to the discomfiture of the former. It is true that an unfortunate break by The Abbot early in the second heat prematurely deprived him of an opportunity to reverse the apparently decisive verdict of the first heat, but it was the opinion of horsemen generally that as The Abbot had not had a hard race before this year he could not win at all if he did not win at first, and to win at all he would have been forced to lower his own record, for Cresceus equaled it when he beat him.

It appears to be true that in Cresceus Mr. Ketcham owns the most remarkable as well as the fastest trotting horse ever bred. The list of this stallion's achievements are unparalleled. Not only does he hold the world record against time, 2:02¼, but at Brighton he made the best time for a mile ever trotted in competition, at the same time establishing a new record for the fastest two heats ever trotted in one race. He had already trotted the fastest mile ever trotted on a half-mile track, the time being 2:09¾.

Cresceus lacks the fine lines of the typical trotter. He is a big, raw-

CRESCEUS, 2:02¼.
(Ugliest Horse That Has Ever Held a Great World Record.)

boned, ungainly animal and a sleepy looking one until he is called upon to exert himself. Just then, however, he wakes up, and anything more suggestive of the power of an irresistible machine than Cresceus in action is difficult to imagine.

Old-timers who saw the record-breaking race were calculating as to what chance such a splendid mare as the late Robert Bonner's Maud S. would have had with Cresceus had she been of the latter's generation. Maud S. made a record of 2:08¾ to a high-wheeled sulky, that stood for six years before Sunol cut it down half a second. There is no doubt that the low-wheeled, pneumatic-tired sulky is several seconds faster than the old-style racing vehicle, and many horsemen believe that Mr. Bonner's famous mare was capable of even faster trotting than she actually did, although that was fast enough to keep her the undisputed queen of the track for six years. While she was in her prime Maud S. was supreme, and it is a thousand pities that her exceptional qualities could not be perpetuated.

No trotting horse ever held so many speed records as Cresceus, and he eminently deserves the royal title h won at Brighton.

The Real Dead Sea Fruit.

"Dead sea fruit" actually exists, and not in metaphor only. A recent traveler in the Sahara took a photograph in the desert within a few miles of the oasis of Biskra, and his picture shows a group of "dead sea fruit" or "apples of Sodom," as they are sometimes called. The fruit grows upon the ground on a straggling stalk and is about the size of an orange, golden colored, with bright green stripes, the skin being smooth like that of a melon. It is a strange irony of nature that the fruit which is so beautiful to look at should be a deadly poison. It is interesting to note that the camels which graze upon the aromatic shrubs discriminate between them and this fruit of most tempting appearance.

An Impartial Mother Cow.

William F. Watson, of Portland, Ore., has a kodak picture of a cow suckling a calf and a pig at the same time. The pig in question had become somewhat famous as a stealer of fresh milk, and so R. A. Campbell, an amateur protographer, watched for a chance to take a snap shot at the porker while in the act. Mr. Campbell drove the cow up to where the calf was tied to a fence, and the pig lost no time in getting into position, though somewhat afraid of the calf. As the pig is only a mere shoat, a pail was set on the ground for him to rest his forefeet on while getting his share of the milk. As soon as the group was in proper position the picture was taken.

Burglars Use Telephones.

Burglars find the telephone very useful in their business. They ring up the residences of people in New Rochelle, N. Y., and when they find the residents are absent they get their tools and at once make profitable calls.

SPORTING.

ON THE DIAMOND.

Hartfelder, the crack catcher on the Hope chapel nine, put up a great game Saturday in the contest with the Clinton Avenue team, despite the fact that he was handicapped by an injured hand.

Saturday is an open date with the Hope team, but Manager Foster hopes to have it closed early in the week. There are a number of nines from nearby towns desirous of crossing bats with it and one of them will be accommodated.

Squires, the pitcher for the Clinton Avenue team, has a great trick for killing time and resting his arm. He generally allows the time-limit of 20 seconds to pass before he delivers the ball. This has a rattling effect on the batter and is of material aid to the team in the field.

It is stated on good authority that all negotiations tending to arrange a fourth game between the Hope and St. Mary teams, have been declared off A question of guarantee and division of the gate receipts is said to be the paramount reason. The announcement will be read with much regret by local lovers of clean baseball playing, such as was witnessed at the last contest between the two teams.

The only game scheduled on local grounds Saturday, is that of the St. Mary-Clinton Avenue teams, on the latter's diamond. The two teams met early in the season and the Clinton Avenue team was defeated by a score of 9 to 8 after eleven innings of the most exciting baseball seen in this city in some time. Both nines have undergone a number of important changes since the first contest and it is hoped the second will be equally as good.

The Scotch Plains team will in all probability be challenged before many moons by a Plainfield team which will repudiate the statement that this city has no baseball aggregation capable of defeating the 'Plains contingent. The St. Mary team will take steps to secure September 28 for a game and in the event of its success, it will behoove the 'Plains people to get together if they wish to verify their alleged boast. The St. Mary's are the acknowledged champions of Plainfield and to their credit, it may be said that they have taken it upon themselves to attain supremacy over the suburban teams as well.

The exhibition of ball playing given by George Keene, the St. Mary's third baseman, at Garwood, Saturday, did not fall short of being marvelous. It was the style of playing ordinarily seen only with those who are paid for their trouble, and not where it is done from sheer love of the game and a desire to see his team win, as is the case with Keene. Twice he caught two sky-scraping flies, while running backward, which called forth the approval of the spectators in a mighty outburst of cheers. The St. Mary's team is doubly fortunate in numbering such as he among its players and probably accounts for the winning ball it has been playing of late. George Taylor, the crack left fielder of the St. Mary's, also played in excellent form Saturday, and was complimented by many at the close of the game.

GOLF.

A notice has been posted at the clubhouse of the Park Golf Club that the course will be closed on the morning of Thursday and all members are requested to refrain from playing during that time. The notice is posted by the order of the board of governors.

There were two interesting golf matches on the Hillside Tennis and Golf Club course last week among the caddy boys. On Thursday the boys chipped in and purchased a golf club of Edward Erickson, the expert, and this was offered as a prize. The match was played over the nine-hole course around the caddy house. Ten boys entered the contest, which was won by Budd Brady two up and one to go. Martin Loughlin was the runner-up. A similar match was played Friday over over the same course, the prizes being a brassey and a golf ball. It took twelve holes to decide the match, which was won by Martin Loughlin one up in twelve holes. Budd Brady was the runner-up in this match. Several matches have been arranged for this week among the caddies and some good scores are expected.

FOOTBALL.

A meeting of the Plainfield Athletic Association was held in the parlors of the Hotel Waldorf Friday evening, for the purpose of arranging details for the season's football team. Arrangements will be completed at a future meeting.

ROD AND GUN.

Elvaine VanName, of Madison avenue, has returned from a successful fishing trip on Staten Island.

Francis E. Whiteside, of Central avenue, is visiting relatives in Philadelphia.

William Littell, of Elizabeth, is the guest of Charles VanWinkle, of Fourth street and Madison avenue.

Charles Dunham, of Madison avenue, was among the Plainfielders who left this morning for the Pan-American Exposition.

ALL PLAINFIELD WILL HONOR HIS MEMORY.

[CONTINUED FROM PAGE 1.]

to the late President.

All the saloons in this city will be closed from 11 o'clock in the morning until 4 o'clock in the afternoon by request of the Mayor.

Out of respect for the memory of President McKinley, the local barbers will keep their shops closed all day Thursday. They will remain open until the usual time, 9 o'clock, Wednesday evening.

The proclamation issued by Mayor O. L Jenkins, this morning, is as follows:

MAYOR'S OFFICE,
Plainfield, N. J., Sept. 17, 1701.

To the People of Plainfield:

The President of the United States having appointed Thursday next, September 19th, the day on which the body of the dead President will be laid in its last resting place, as a day of mourning and prayer throughout the United States, and recommended all the people to assemble on that day in their respective places of divine worship; and the Governor of New Jersey having issued a similar proclamation, now, on the earnest solicitation of many citizens of this city, I do urgently request our citizens to observe Thursday next in the manner and spirit set forth in these State and National proclamations, and, to that end, it is specially requested that on that day ordinary business dealings be suspended and places of business be closed. OLIN L. JENKINS,
Mayor.

Mayor N. B. Smalley issued his proclamation last evening. It is as follows:

Borough of North Plainfield.
Office of the Mayor.

William McKinley, the devoted husband, the great warrior, the wise President, and model Christian has entered life eternal, where he will find the peace and joy which passeth all human understanding. Struck down by the cruel blow of a wretched assassin, the beloved supreme servant of a patriotic and free people has gone to the reward, which awaits those, who devote their short temporal existence to increasing the peace, happiness and prosperity of men. Sorrow overspread the land and the voice of an united Christian Nation is uplifted in earnest supplication that the Republic be spared from the dangers of anarchy and that the noble widow of the martyred President be endued with patience under her affliction.

It is meet and right that we, as part of the soverign people of this Republic, should fittingly recognize the sad event, and therefore, I, Newton B. Smalley, Mayor of the Borough of North Plainfield, do beseech the citizens of this municipality that they observe Thursday, September 19, as a day of prayer, and that they put aside temporal affairs, close their places of business, appropriately drape their residences in mourning and gather at their respective houses of worship, there to offer unto the Ruler of Men the prayers of an afflicted people, humbly asking Him to comfort the bereaved widow, to have mercy on this whole land, and bestow His favor on the successor, President Theodore Roosevelt.

Witness my hand in the Borough of North Plainfield, Monday, September 16, A. D. 1901.

Attest: Newton B. Smalley,
Frank Bowley, Mayor.
Clerk.

Located on The Vermont.

Frank Fulton, of this city, who reenlisted in the navy last week, was installed on the battleship Vermont, at Brooklyn, yesterday. He and his wife will board in Brooklyn until the ship sails, which time is not known at present. Afterward Mrs. Fulton will return to the home of her parents on East Fifth street.

Wouldn't Give Assurance.

Bert Frazee, of West Front street, who has been employed by the New Jersey Central as a brakeman on a passenger train, resigned his position this morning. The company wanted him to purchase a winter uniform without giving him assurances of continuing him in its employ.

Didn't Know His Cow Caused Trouble.

Michael Welsh, of West Third street, appeared in the city court this morning, on a charge of having allowed his cow to run at large in West End streets. He claimed to be ignorant of the circumstance in question and the case was laid over until tomorrow evening at 6 o'clock.

Will Present His Report.

William Newcorn will present a report of the Great Council of Red Men, held in New York last week, at the meeting of Miantonomo Tribe, No. 118, Improved Order of Red Men, Friday evening.

—B. W. Pursell, Kintersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve effected a permanent cure. Counterfeits are worthless. L. W. Randolph.

MINOR TOWN HAPPENINGS.

BRIEF ITEMS OF INTEREST TO EVERY DAILY PRESS READER.

Some Of the Doings In City and Borough Told In Concise and Pertinent Paragraphs.

—Queen City Lodge, No. 226, I. O. O. F., met last evening and received one proposition.

—Patrolman James Totten removed yesterday from Watchung avenue to his new residence on West Sixth street.

—There will be an important meeting of Wetumpkah Tribe, No 229, Improved Order of Red Men, Thursday evening.

—The case of Young against Peterson, demand for premises, is returnable in Justice Nash's court Monday, September 23.

—The Boys' Mission Band of the Crescent Avenue church will hold its first fall meeting tomorrow afternoon at 4 o'clock in the chapel of the church.

—Don't delay. Canning time is here and Neuman Brothers are providing extra fancy peaches for the purpose. 200 baskets, suitable for table use also will be placed on sale tomorrow at 50, 75 and $1 per basket.

—A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin affections. Accept only the genuine. L. W. Randolph.

Farm Entertainment Postponed.

On account of the death of President McKinley, Iona Council has decided to postpone its entertainment and dance which was to have been given Wednesday evening. It will instead entertain the Great Chiefs and visiting councils in an informal way at the regular council meeting.

Patriotic Address.

Arrangements are being made for an address at the W. C. T. U. rooms in the near future by Rev. L. E. Livermore, of New Market. It will be of a patriotic nature.

Will Attend Conference.

Rev. and Mrs. A. C. Nickerson and Mrs. Ryder, of the Unitarian church, will attend a conference of Unitarians to be held at Saratoga next week.

Reign of the Toothpick.

Just why the average excursion party should top off at a 50-cent machine-made dinner with a dessert of toothpicks is another of those mysteries which belong to the genius of the future to explain. But watch the crowd wind its way out of the dining-room, where it has gone all the way from soup to the foot note without skipping a single dish, and see how it grasps the toothpicks. It seems to be a sign that each one has eaten, a proof that the meal has been paid for, and that the toothpick is a final triumph of advanced civilization and high society.—What to Eat.

Hot Weather Sarcasm.

"Er—how do you stand the hot weather?" inquired the country youth of the fat man in the sideshow.

"Do you think it hot?" asked the fat man, with scathing sarcasm, which was lost on the country youth. "I've been somewhat chilly all day," went on the fat man, as he fanned himself vigorously, and turning to the legless and armless man on the next stand he said in a loud voice: "John, run and bring me my overcoat and a couple of hot bricks."—Ohio State Journal.

Beet Salad.

Cook a quart of small young beets till tender. Skin and cut into small dice. Pour vinegar over them and dust lightly with salt and pepper. Can and carry covered with the vinegar. When ready to serve drain the liquid off and shake as dry as possible. Pour over them a tumbler of mayonnaise, toss lightly with a fork and set free for 15 minutes on ice.—Good Housekeeping.

Napthaline for Mosquitoes.

A consular report from Paraguay affirms that naphthalene has been found there to be an excellent cure for mosquito bites. It neutralizes the poison, even when the spot bitten is greatly inflamed. If fresh bites are rubbed with naphthalene, no swelling follows. Naphthalene is considered almost a specific against mosquito poison.—Science.

Dialects of India.

India has hundreds of dialects, which may all be classed under three great heads, the Sanscrit, Pracrit and Magadhi. The Sanscrit is the fundamental language and that of the Vedas; the Pracrit, the vernacular language in many dialects, and the Magadhi or Misra is that of Ceylon and the islands.—N. Y. Sun.

Misapplied Science.

Dr. Sniffles—Henpeck's got it in for me since I doctored his wife for the grip.

Snuffles—What's the matter, did you kill her?

Dr. Sniffles—No, pulled her through.—Detroit Free Press.

Endurance of the Fly.

A fly is almost invincible. It will survive long immersion in water, will sustain the odors of sulphur and other disinfectants without apparent injury. Only turpentine, chloroform and ammonia can get the better of a fly.—Nature.

CAN CURE ASTHMA AND HAY FEVER.

A Leading Physician at Last Discovers the Remedy.

Dr. Rudolph Schiffmann, of St. Paul, Minn., who is the recognized authority on throat and lung diseases, and who in thirty years of practice has undoubtedly treated and cured more cases of Asthma than any living physician, makes the astounding statement that he has at last discovered a remedy which not only gives instant relief in the worst cases of Asthma, Hay Fever and Bronchitis, but effects cures where all other treatments have failed. Such is the confidence of this physician in his discovery that he has authorized the announcement that on next Thursday, Sept. 19, he will give free of charge a liberal sample package of his remedy to every sufferer who applies at L. W. Randolph's drug store, 143 West Front street.

Those living out of town will be sent a free sample up to September 21, if they will enclose a 2c stamp to Dr. R. Schiffmann, 370 Jackson street, St. Paul, Minn.

Remembered the Day of Her Birth.

Miss Hazel Martin, the daughter of Mr. and Mrs. Horace Martin, of Jackson avenue, gave a party to thirty friends in honor of her fifteenth birthday yesterday afternoon. The time was spent in playing games and feasting on a bounteous collation.

State Officers Expected.

PROPOSALS FOR SEWERS.

Pursuant to a resolution adopted by the Common Council of the City of Plainfield, New Jersey, at a meeting held Monday, September 16, 1901, notice is hereby given that the Common Council will meet on Monday, October 7, 1901, at 8 o'clock, p. m., at the Council Chamber, No. 100 Park Avenue, in the City of Plainfield, at which time and place said Common Council will receive sealed proposals for doing the work and furnishing the materials in the construction of such portion of the sewers contemplated in the ordinances entitled "An Ordinance to provide for the construction of an addition to the system of sewerage already constructed in the City of Plainfield," approved Nov. 6, 1899; and "An Ordinance to provide for the construction of a further addition to the system of sewerage already constructed in the City of Plainfield," approved September 3, 1901, as provided for in the plans and specifications adopted by the Common Council, September 16, 1901, and filed in the office of the City Clerk, No. 100 Park Avenue, Plainfield, N. J.

Upon receipt of the bids or proposals the Council will immediately proceed to unseal the same and publicly announce the contents in the presence of the parties bidding, or their agents, provided said parties or agents choose to be there and there present and also make proper record of the prices and terms upon the minutes of the Council.

Each proposal must be accompanied by a certified check for $300, payable to the Treasurer of the City of Plainfield.

The Engineer's approximate estimate of the quantities of material required and the work to be done is as follows:

4,040 feet 8 inch sewer.
2,385 " 10 " "
1,740 " 12 " "
9 junction manholes.
3 plain "
125 branches in 8 inch sewer.
130 " 10 " "
50 " 12 " "

Duplicate plans, forms of proposals, specifications, contract, bond, etc., may be examined at the office of the Engineer, No. 100 Park Avenue, Plainfield, N. J.

The right to reject any or all bids is expressly reserved by the Common Council.

All proposals must be endorsed, "Proposals for Sewers."

A PLAINFIELD BRIDE WEDDED AT HER HOME

Marriage of Miss Florence May Kline and Charles S. Langdon, of Yonkers, Last Evening.

SIMPLE, PRETTY CEREMONY.

GROOM WAS FORMERLY A RESIDENT OF THIS CITY.

Ceremony Performed by Rev. Dr. W. R. Richards—Bride Given Away by Her Brother — Her Attendants — Charming Decorations.

A quiet home wedding, possessing a sufficient touch of brilliancy to make it a pretty nuptial affair, was that of last evening when Miss Florence May Kline, eldest daughter of Mrs. Mary S. Kline, was married to Charles Seaman Langdon, formerly of this city, but now of Yonkers, N. Y. The happy event took place at 8:30 o'clock at the home of the bride's mother, 435 East Sixth street, in the presence of a host of relatives and friends from this city and many distant points.

The home was tastefully arranged for the wedding and the decorations throughout were simple, yet very attractive. They consisted of smilax, greens, palms, roses and hydrangeas. In the parlor, where the ceremony was performed, the bow-window was filled with palms and smilax, while suspended from the ceiling, beneath which the bridal party stood, was a floral bell. In the dining-room and on the stairway there was a pretty arrangement of smilax and roses, while the table in the dining-room was made attractive through the use choice flowers. The prevailing colors throughout were pink and green.

Miss Nettie Langdon, of Yonkers N. Y., sister of the groom, presided at the piano and rendered the wedding march as the bridal party wended its way to the parlor. First came the groom, accompanied by his best man, Fred G. Smith, of this city Then followed the bridesmaids, Miss Amelia Langdon, a sister of the groom, and Miss Daisy B. Kline, of this city, a sister of the bride. They were gowned in white batiste, trimmed with pink satin ribbons. They each carried bouquets of American Beauty roses. Then came the bride, accompanied by her brotner, Edward J. Kline, who gave her away in marriage. The bride was richly gowned in white nuns veiling, trimmed with chiffon and she carried a bouquet of bride roses.

The bridal party formed itself in a semi-circle directly in front of a bow window, where Rev. Dr. William R. Richards, pastor of the Crescent Avenue church, stood waiting to receive them and perform the ceremony. After the happy couple were made one, congratulations were offered by the assembled guests. Then a delightful repast was served, during which there was a continuation of sociability. During the evening Mr. and Mrs. Langdon left the city to enjoy a trip of three weeks' duration. Upon their return they will reside at Yonkers, N. Y.

The bride is one of Plainfield's most estimable young women and both she and her husband have a circle of friends and acquaintances who wish them much joy and success in their married life. The groom is engaged in the wholesale lumber business in New York, being the senior member of the firm of C. S. Langdon & Company. For many years he resided in this city and was always very popular.

The bride and groom were the recipients of many costly presents, both ornamental and useful, including solid silver-ware, cut glassware, china bric-a-brac and many other things.

The out-of-town guests include the following: Mr. and Mrs. Richard Gurney, Mrs. Fanny Lockwood, M. A. Taylor, Miss E. V. Crooker, Mrs. E F. Crooker, Mr. and Mrs. C. H. Voorhis, the Misses Minnie F. and Ida M. Taylor, Mr. and Mrs. Trombie, A. C. Lockwood, Mr. and Mrs. Charles L. Taylor, Mr. and Mrs. J. M. Turton, the Misses Belle and Daisy Lockwood, of Brooklyn; Mr. and Mrs. Z. S. Crooker, Mrs. Frank P. Nicholls, Miss Alice Bunting, Mrs. Frederick F. Crooker, the Misses S. O. and Marrilla M. Jones, of New York; Mr. and Mrs. Chas. E. Wheeler, Miss Ethel Wheeler, Chester E. Wheeler, Harold K. Wheeler, of East Orange; Mrs. James H. Startup, Mr. and Mrs. Archibald Taylor, of Middletown, N. Y.; Seth R. Crooker, of New Haven; O. H. Jones, of Toano, Va.; B. K. Farnham and Mrs. J. C. Farnham, of Providence, R. I; Mrs. Henrietta Langdon, Miss Grace T. Langdon and Miss Dorothy Langdon, of Yonkers, N. Y.

WOODMEN SMOKED.

And Also Listened to an Enjoyable Programme Given by Outside Talent.

Robin Hood Camp, Woodmen of the World, and a number of its friends were entertained last evening by an informal programme rendered by some of the best talent obtainable.

Among those contributing to the enjoyment of the occasion were Darius F. Dryden, a talented New York violinist, the Black Diamond quartette in vocal selections, Thomas Wilson, sentimental ballads, William Wilson, coon songs and buck and wing dances, John Taylor, bass solos, and Oscar Nelson, piano selections. The members afterward enjoyed a smoker.

Those in charge of the affair were Fred. J. Huff, Dr. A. H. Dundon and Andrew Stiglitz.

EDITOR'S WALLET IS GONE.

MICHAEL M'CARTHY, A PRINTER, NOW LODGED IN JAIL.

Was Working For The State-Centre When the Wallet and Contents Disappeared—Held For Grand Jury.

(Special to The Daily Press.)

Somerville, September 18—Michael McCarthy, a Plainfield printer, is lodged in jail here, charged with having stolen a pocketbook containing considerable cash, valuable memoranda, a Lehigh Valley Railroad pass and tickets, from D. D. Clark, Jr., editor of the Bound Brook Record.

Clark, who was getting out The State Centre Friday for the owner, says he hired McCarthy to help in the composing room. He bought his dinner for him and in the afternoon he noticed that McCarthy hung his coat near his. Miss Frances Clark, a sister of the editor, and Frank Applegate saw McCarthy fumbling about the coats early in the afternoon, and the other employes say he appeared to be flush with money after that.

When Clark accused him of having stolen his pocketbook he claimed he had borrowed money of his brother-in-law, whom he met on the street. Clark investigated the assertion, and followed McCarthy to Plainfield, where he was arrested by the police.

He was held by Justice Nash under $300 bail, to await the action of the Grand Jury here. Marshal Sebring, of Bound Brook, brought him to jail.

HAS A HISTORY.

Flag at Half-Staff at Residence of Col. Hines, of Bound Brook.

(Special to The Daily Press.)

Bound Brook, Sept. 18.—Col. H. A. C. Hines, of this place, has flying at half-staff in honor of our late President a flag which has a remarkable history.

It was flung to the breeze over Eutaw avenue in Baltimore by Mrs. Hines while the Colonel was in the Union service. It was a common occurrence for citizens with Southern sympathies to take to the street when passing the house to avoid passing under the flag. It was half-staffed in London after the death of President Garfield, and is now being used to honor the memory of the third on the list of martyred Presidents.

DEATH OF MRS. MASON.

Mother of Editor W. B. R. Mason Passed Away at Somerville.

(Special to The Daily Press.)

Somerville, Sept. 18.—Mrs. Susan H., aged eighty-one, widow of Pethuel Mason, died here Sunday night. She was the mother of W. B. R. Mason, editor of The Bound Brook Chronicle, Mrs. L. M. Codington and H. P. Mason, of this place, and Dr. Perley H. Mason, of Peekskill. The funeral was held today, Rev. F. A. Smith of the Baptist church officiating.

Memorial Service.

The members of Columbia Lodge, Ancient Order of United Workman, are arranging to hold a service Friday evening in their rooms in memory of the late President McKinley. There will be addresses by several well-known persons and appropriate music will be rendered by M. A. Korff's orchestra.

Change in Hour.

Hereafter the Sunday afternoon meetings at the Y. M. C. A. will commence at 4 o'clock, instead of 4:15. The meeting Sunday will be led by Staff-Captain Emily March, a favorite speaker in Plainfield. Mrs. John Manley will render several solos.

Retrial Friday.

The contract case of Gaston against Barnes, in which a jury disagreed in Justice Moffett's court last Thursday, will be retried Friday afternoon. Constable Weaver will have a new jury of twelve men, and it is thought a verdict will be returned.

—Delicious yellow and white peaches of the best quality will comprise a large consignment which Neuman Brothers will place on sale Friday morning. The prices are just right.

BUSINESS WILL CEASE ON DAY OF MOURNING

City and Borough Will Unite to Honor the Memory of the Dead President.

MANY MEMORIAL SERVICES

COMPANY K WILL FIRE SALUTES AT SUNRISE AND SUNSET.

Bells Will Be Tolled at Hour of the Funeral in Canton—Italian Society Plans Services—All Schools to Closed—Other Preparations.

The city and borough are in mourning. The proclamations of the two Mayors have been obeyed to the letter so far as the request to display the symbols of grief is concerned, and there is a general disposition among the citizens to attend memorial services tomorrow.

In response to the request to close the stores, offices and industries, almost without exception, the people have signified their intention to comply with the proclamation. It may be said that every grocery, butcher, dry goods and every other store of whatsoever description will shut its doors during the day. The druggists, however, will remain open until 10 o'clock in the morning and they will also open again at 4 o'clock in the afternoon. The purpose of this is to allow persons to have the opportunity of having physicians' prescriptions filled. Every saloon in the city and borough will be closed up from 11 o'clock in the forenoon until 4 o'clock in the afternoon. The saloon-keepers, when notified of the request of the two Mayors, were eager to comply with the request.

Memorial services will be the particular feature of the day. This has been deemed to be the most fitting means of observing the sad occasion. Many of the congregations will unite in holding a union service at the Crescent Avenue church at 10:30 o'clock in the morning. Rev. Dr. D. J. Yerkes, pastor of the First Baptist church, will deliver an address. The Episcopal churches will hold special memorial services in the morning commencing at 10:30 o'clock. The Congregational church, Hope chapel and Gethsemane Swedish Lutheran mission will hold services in the evening at 8 o'clock. The Swedish Lutherans will hold their service in the chapel of the Grace Episcopal church.

The funeral obsequies at Canton, Ohio, the home of the departed President, will commence at 2:30 o'clock sharp. Time in Canton is one hour later than in Plainfield and hence it will be 3:30 o'clock here when the time of service arrives. At 3:30 o'clock every church bell in the city as well as the borough will be tolled. Mayor Jenkins has made this request and Mayor Smalley was not slow in following it up with a similar notice. The sextons and janitors of the church edifices are asked to toll the bells for fifty-eight successive strokes. The late President was fifty-eight years of age when he became a martyr, and a corresponding number of strokes, slowly given, will be the signal that the mortal remains of the statesman are being interred in the earthly sepulchre.

All the public schools in the city and borough will be closed. A special memorial service, however, will be held at the Somerset street school building at 9 o'clock in the morning. All the pupils have been notified to attend. Addresses will be made by the President of the Borough School Board Samuel St. John McCutchen and Rev. Dr. H K Carroll, a personal friend of the dead Chieftain. All the school children will attend the memorial services held in the churches.

There will be a general suspension of festivities during the day and evening in recognition of the spirit of the occasion. The Park Golf Club, the Hillside Tennis and Golf Club, the Park Club, however, will be closed until 1 o'clock in the afternoon only. There will be absolutely no play on either golf club permitted in the morning.

The Societa Operaia Italianna Di M. S. Principessa Elena, of this city, will honor the memory of the late President of its adopted country tomorrow. In the morning the members will attend mass in a body at St. Joseph's church and in the afternoon, at 1 o'clock, a street parade will be held. The route of march will be through the principal streets of the city and borough. A New York Italian band has been engaged and the National airs and dirges will be played, as it heads the procession.

A memorial service will also be held at the synogogue Beth Tefila Jahia Yentel, at its temporary house of worship, Reform Hall, in the morning.

By order of General Superintendent Smith, every motorman on the Elizabeth, Plainfield and Central Jersey Railway, will bring his car to a full stop tomorrow afternoon for ten minutes, beginning at the time the late President's funeral commences at Canton. The cars will be stopped no matter at what point of the line they happen to be. The inspectors have been notified to see that the order is strictly observed. The motormen on the North Jersey Street Railway lines will observe a similar order.

The circulating department of the Public Library will be closed tomorrow. The reading room will be open from 2 until 6 p. m., art gallery, from 2 until 4.

The Board of Governors of the Park Club has posted a notice to the effect that the club house will be closed tomorrow, until 1 o'clock in the afternoon, out of respect to the memory of the late President.

In obedience to the proclamation of the President of the United States and other civil authorities, the congregation of the Mt. Zion A. M. E. church will assemble at its place of worship tomorrow morning at 11 o'clock for the purpose of holding a memorial service.

Street Commissioner Gavett has notified the employes of his department that all work will be suspended tomorrow. The early morning rounds of the business streets will be made for the purpose of placing them in good condition for the day.

Commander Berg has issued an order calling upon the members of Winfield Scott Post to attend the union services at Crescent Avenue church tomorrow morning. The veterans will assemble at the G. A. R. headquarters on East Front street at 9:30 o'clock and will march in a body to the church edifice, where seats will be reserved for them. The old soldiers will appear in full uniform, in respect to the memory of Major McKinley.

In pursuance of a direction of Bishop McFaul, of the Trenton diocese, services will be held in the Roman Catholic churches tomorrow. The service at St. Joseph's is set for 8:30 o'clock in the morning. Rev. Father Miller will officiate.

The commanding officer of the National Guard of New Jersey has issued orders to the effect that on tomorrow military recognition be taken of the day. Captain W. K. Browning, of Company K, will detail members of the company to fire the salute of the original States, thirteen guns, at the rising of the sun, and the salute of the Union, forty-five guns, at sunset. At intervals of every half hour during the day, a salute of one gun will be fired.

The salutes will be made from the front of the temporary armory, Washington Hall. For thirty days the commissioned officers of the company will wear the badge of mourning on the left arm and will drape the hilt of their swords in black cloth.

All trains on the New Jersey Central Railroad will stop, wherever they may be, when the body of the late President is being lowered into the grave.

IN LITERARY FIELD.

Literary Society of Y. M. C. A. Elected Officers and Prepared For Fall Activity.

Officers for the year were elected at a meeting of the Plainfield Literary Society, held last evening at the Y. M. C. A. It was the first meeting since spring and the attendance was unusually good.

During the short session some addresses were made by members of the club on the death of President McKinley. The next meeting will be held September 30 and a fine programme is promised. Those desiring to join the organization, which now has a membership of thirty, may signify their intention by attending this meeting.

The officers elected last evening are: President, J. Henry Crane; vice-president, C. M. Dolliver; secretary, C. E. Drange. The membership includes a number of young men with literary tastes and talent.

Secured More Room.

J. H. McVey, the hotel man on North avenue, has leased of Mrs. Julia Peck, of New York, that part of the building located on the north side of his hotel, which includes the cafe and rooms overhead, as well as the rooms over the driveway into the stables of the Plainfield Cab Company. Mr. McVey has been in need of this extra room on account of his increasing business and he will be better able to care for his patrons.

Prominent in the Society.

John J. Cornell, of New York State, a prominent member of the Society of Friends, will speak at the Friends' meeting-house on Watchung avenue at 11 o'clock Sunday morning.

WHY ST. MARY'S TEAM LEFT THE DIAMOND.

Manager Monahan Writes a Letter Giving Reasons For His Action at Garwood.

LEFT FIELD IN 12TH INNING.

SAYS DECISION OF UMPIRE WAS CONTRARY TO UNDERSTANDING.

Says It Was Expressly Agreed Before the Game That One Base Should Be Allowed For Blocked Ball —Umpire Decided No.

Manager Monahan, of the St. Mary baseball team, has the following to say in regard to the game at Garwood Saturday afternoon which was called by him in the twelfth inning by reason of a decision which he deemed unfair:

Sporting Editor, Daily Press—Dear Sir—Believing that the action of the St. Mary team in stopping the game at Garwood Saturday may call for unjust criticism on the part of those not acquainted with the true facts, I take the opportunity of making an explanation which will right matters and no doubt meet with the approval of the baseball loving public. While there are rules and regulations made to govern games, it remains for the contesting teams to adopt one particular set under which to play. This was done Saturday, one of the points being that on a passed or blocked ball a player was to be allowed his base.

Although the St. Mary's were contesting against a team representing the Garwood A. C., the Rahway Nationals, the Westfield B. B. C., and the Elizabeth Y. M. C. L. A., the boys fought valiantly and all went well until the twelfth inning, yet there were numerous times when we would have been justified in retiring on account of unfair decisions.

In the twelfth Winn grounded to short; the ball was thrown wild as he reached first and struck a spectator, making it a blocked ball. According to the agreement he was entitled to second base and without any thought of his being called out left first. Before reaching second the ball was fielded to the baseman who touched Winn and the umpire called him out.

Naturally Captain Mack and myself remonstrated and there were several of the players on the opposing team who declared we were in the right. As the umpire refused to reconsider his ruling, and much as I disliked to abruptly terminate the most exciting game we have played this year, I deemed it best to call my players from the field.

This is the true version of the disputed point, and if it had been decided correctly, there is no question in my mind but what the St. Mary's would have quit the game in the lead. It has never been our policy to disregard the umpire, but there are occasions when unfair rulings are too flagrant to be passed by unheeded and Saturday's decision was one of them

Respectfully yours,
James Monahan,
Mgr. St. Mary's team.

RIFLE MATCH.

Company K Men Will Have a Chance to Practice For it Next Saturday.

(Special to The Daily Press.)

Somerville, September 18—The rifle range of Company M will be open Saturday for the use of Company K, of Plainfield, which will practice here.

Arrangements are being made for three match shoots between Company M and Company K, Company M and Company H, of New Brunswick, and the honorary and active members of Company M.

At a meeting the matter of a drill room for the company during the coming drill season was considered. Three or four places are to be had, and the committee appointed will look into the matter and report at the next meeting.

ARREST SAVED HIS LIFE.

TRYING TO ESCAPE OFFICER TRAYNOR WAS NEARLY DROWNED.

Fell Into Sluiceway at French's Mill—Policemen Arrived Just in Time to Save Him.

In an effort to evade arrest at the hands of Patrolman Watson at 3 o'clock this morning John Traynor, a well-known young man, narrowly escaped death by drowning in the sluiceway of French's mill. Fortunately for him he was discovered by Patrolman Watson and Roundsman Mattox, who escorted him to the police station, while pools of water marked every step.

Traynor walked across Park avenue and Front street, singing noisily from the effects of a little too much liquid refreshment, when he was ordered to cease by the patrolman. He did not reply until he turned Somerset street and then he shouted derisively at the officer, and, daring him to arrest him, started on a run. Watson followed and Traynor disappeared behind the mill.

After searching in vain for some time the patrolman called Roundsman Mattox. When on the point of giving up the hunt, the latter discovered Traynor down the sluice-way, clinging to the top by his fingers while the water was up to his neck. He was in an exhausted condition and was on the point of loosing his hold when pulled out. On account of the rain yesterday the water was very deep, and in his condition he would undoubtedly have been drowned.

The young man was arraigned before City Judge Runyon this morning and pleaded guilty to disorderly conduct. The court deemed he had been he had been sufficiently punished and suspended sentence with a reprimand.

FELL DEAD.

Prominent New York Merchant Died at His Country Home at North Branch.

(Special to The Daily Press.)

Somerville, Sept. 18—R. B. Poucher, age fifty-five, a prominent merchant in the West Washington Market in New York, dropped dead at his summer home at North Branch Monday night.

He had been to the city as usual during the day and retired in apparent good health and spirits. After dinner he complained of a pain and walked to the village store, a half mile from his home, to buy a bottle of peppermint.

An hour later Dr. Davis was summoned but he was dead before the physician arrived. A widow and five sons survive him. Heart disease was the cause of death.

WILL HAVE AN ELEVEN.

Alls A. A. is Getting Ready For The Autumnal Activity.

There is every prospect that the Alls Athletic Association will put a football team on the gridiron this fall. A meeting of the association was held Monday evening when the subject came up for discussion. Roy T. Phillips was elected captain. A manager will be chosen later. The election of officers was held and resulted as follows: President, Roy T. Phillips; vice-president, Roy Badford; secretary, William H. Sebring, Jr.; treasurer, Godwin Beard

Touching Tributes.

At the meeting of the Primary and Junior Teachers' Association meeting Monday afternoon a touching tribute was paid to the late President McKinley. Another interesting part of the meeting was the reading of a letter from Miss Shina, a missionary, now in India.

Cabinet Meeting.

The District Cabinet of the Epworth League of the Elizabeth District will meet in a short time at the home of James A. Stafford, West Front street, to arrange for the convention of Epworthians to be held at Flemington in October.

HELD ON SUSPICION OF SHOOTING KING.

David Green, Colored, Arrested In Borough On Charge Of Disorder Pending Investigation.

LIVES NEAR NEW MARKET.

SAID TO HAVE BEEN TRYING TO SHOOT A DOG THAT NIGHT.

Witnesses Say He Left Nelson's Hotel Five Minutes After John King—They Declared He Had a Revolver—In Precarious Condition.

David Green, a colored man well known in this city, employed on a farm beyond New Market, was taken into custody last night on suspicion of being the wheelman who shot and almost killed John King on the Stelton road Monday night. He was arrested by Chief Marshal Campbell, of the borough police, and Constable Robert Pierce, of New Market.

Green was found at the corner of Somerset and Race streets quarreling with a number of companions, and on a technical charge of disorderly conduct he was placed in the borough jail. He will be held until the proper papers can be made out by Prosecutor Voorhees, of Middlesex county, when he will be taken to New Brunswick for a hearing.

Green's arrest resulted from the investigations of a number of New Market citizens, of whom Constable Pierce was one, immediately after the shooting occurred. They learned that Green was in the Hotel Nelson at 11:10, and that while there, it is said, he exhibited a revolver, which he claimed to have procured for the purpose of shooting a dog which annoyed him as he went home nights.

He mounted his wheel at 11:15 and started along the Stelton road for the farm where he is employed. King, who had also been in the hotel, preceded him on foot by five minutes. Two witnesses have been found who allege that less than five minutes after Green had departed, they heard the pistol shot coming from the direction which he had taken. One of them remembered Green showing the revolver and thought he had kept his word in regard to killing the troublesome dog. The moment he heard of King being shot, his mind reverted to the incident.

King did not see his assailant distinctly and could not furnish any description. He remembered being struck by a wheel and that the machine and rider had fallen to the right. It is said that Green's wheel was examined and the right handle bar and grip were scraped as if they had been dragged along the ground.

The injured man is still in Muhlenberg hospital in a precarious condition. He rested easily last night and it is thought his chances of recovery are about equal with those of a backward turn.

WOULD OMIT TESTIMONY.

Because Spencer Conway Failed to Appear For Cross Examination.

Lawyer William Newcorn, representing W. H. Smith in the latter's action against the Calvary Baptist church, has given notice that on September 24, at 10 o'clock in the morning he will make application before Vice-Chancellor Stevens in the Chancery Chambers at Newark, to suppress the disposition of Spencer Conway, a witness in the cause on the part of the defendant before W. K. McClure, a special master in chancery, which was taken July 22.

On that date Mr. Conway failed to appear for cross examination and Mr. Newcorn will, therefore, ask that his incomplete testimony be stricken out. Mr. Conway was the only witness for the defendant. Mr. Newcorn now proposes to procede with the case in the customary way, providing his order is granted.

ACTING SUPERINTENDENT.

Mr. Richey Takes Place of Mr. Wentz, Jr., New General Superintendent.

M. M. Richey, former superintendent of terminals of the New Jersey Central, was appointed superintendent of the Lehigh and Susquehanna and New Jersey Central divisions yesterday to succeed W. W. Wentz, Jr., who is acting general superintendent in the absence of Superintendent Olhausen. The latter is a great sufferer from an attack of rheumatism and has been granted an extended leave of absence. Mr. Richey has been with the New Jersey Central for many years and is thoroughly acquainted with his duties.

Street Commissioner Nat. Thompson, of Elizabeth, was in Plainfield today and called on a few of his friends.

LITERARY.

During the coming year The Century Magazine will print two series of papers on the general subject of the West,—"The Old and the New West;" the first series, written by Emerson Hough (author of "The Story of the Cowboy"), and illustrated by Frederic Remington, will describe the movement down the waters, or the flatboat days, the movement up the waters, or the early steamboat days, and the great transcontinental emigrations. The second series, which will be contributed by Ray Stannard Baker, will cover "The Great Southwest," "The Desert," "The Tragedy of the Range," "Irrigation," etc.

WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Astamalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel,

Drs. Taft Bros.' Medicine Co.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

Very truly yours,
REV. DR. MORRIS WECHSLER.

Avon Springs, N. Y., February 1, 1901.

Dr. Taft Bros. Medicine Co.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

Dr. Taft Bros. Medicine Co. February 5, 1901.
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street,

NATION'S TRIBUTE

State Rites Over Remains of the Late President.

SAD DAY IN WASHINGTON

Simple Services In the Rotunda of the Capitol.

MRS. M'KINLEY'S CHAIR VACANT.

At the Close of the Funeral Service the Body of the Dead Chief Lay In State and Was Viewed by Thousands Until Removed to the Train Which Was to Bear Remains to Canton.

WASHINGTON, Sept. 18.—All that is mortal of William McKinley has left the nation's capital for its last earthly resting place at his beloved home in Canton. Officially and with state ceremony the nation paid its tribute of respect and love to the memory of its stricken chief magistrate. This was almost the closing act in the awful tragedy which has drenched the civilized world in tears. Beneath the great white dome of the capitol funeral services of state were held yesterday over the remains of the dead president.

It was eminently fitting that the services should be conducted in that beautiful rotunda hallowed by the history of the last sad rites of two other martyrs to the cause of the republic. As befitted the occasion and the character of the man whose remains were lying cold and rigid in the narrow embrace of the metallic casket the services were simple. They were conducted in accordance with the rites of the Methodist Episcopal church, of which President McKinley was a lifelong member. Consisting only of two hymns, a song, a prayer, an address and a benediction, they were beautiful and solemnly impressive. Gathered around the bier were representatives of every phase of American national life, including the president and the only surviving ex-president of the United States, together with representatives at this capital of almost every nation of the earth. Great Britain, France, Germany, Italy, Spain and all the republics to the southward of the United States mingled their tears with those of the American people.

Despite the fact that no attempt had been made to decorate the interior of the rotunda beyond the arrangements made about the catafalque the assemblage presented a memorable sight. The somber black of the attire of the hundreds of civilians present was splashed brilliantly with the blue and gold of the representatives of the army and the navy and the court costumes of the diplomatic corps. As the sweet notes of Mr. McKinley's favorite hymn, "Lead, Kindly Light," floated through the great rotunda the assemblage rose to its feet. Bared heads were bowed and eyes streamed with tears.

At the conclusion of the hymn, as Rev. Dr. Naylor, presiding elder of the Washington district, rose to offer prayer, the hush that fell upon the people was profound. When in conclusion he repeated the immortal words of the Lord's prayer, the great audience joined solemnly with him.

The murmur of their voices resembled nothing less than the roll of far distant surf.

Scarcely had the word "Amen" been breathed when the liquid tone of that sweetly pleading song, "Some Time We'll Understand," went straight to the heart of every auditor. The solo was sung by Mrs. Thomas C. Noyes of this city, and the beautiful refrain was echoed and re-echoed by the double quartet choir.

The venerable Bishop Edward G. Andrews of Ohio, the oldest bishop of the Methodist Episcopal church, then took his position at the head of the bier.

A gentle breeze through the rotunda stirred the delicate blooms which lay upon the coffin, and the "peace that passeth all understanding" seemed to rest upon the venerable man's countenance as he began his eulogy of the life and works of William McKinley. His words were simple, but his whole heart was in every one of them. His tribute to the Christian fortitude of the dead president was impressive. Upon the conclusion of the sermon the audience, as if by prearrangement, joined the choir in singing "Nearer, My God, to Thee."

All present seemed to be imbued with a sentiment of hallowed resignation as the divine blessing was asked by the Rev. W. H. Chapman, acting pastor of the Metropolitan Methodist Episcopal church, upon both the living and the dead.

Mrs. McKinley, bereft of husband and prostrated by her overwhelming sorrow, did not attend the services at the capitol. It was deemed wise by those now nearest and dearest to her that she should not undergo the ordeal her attendance would entail upon her. She remained at the White House, comforted by every attention that loving thoughtfulness could suggest.

THE FLORAL TRIBUTES.

The floral offerings were many and beautiful in design. Conspicuous among the many pieces was the great white shield of immortelles six feet in height bearing the inscription in purple flowers, "Tribute From the Army In the Philippines," above the Eighth corps insignia in red and blue.

As many white roses as were the years of the dead president were the offering of Colonel Bingham and the White House employees. A beautifully simple wreath of laurel came from the Nineteenth ward Republican committee of St. Louis.

A splendid sheaf of palms with broad purple and white ribbons and surrounded by a laurel wreath came from the sister republic of Guatemala.

The Chinese residents of Philadelphia sent a tall white shaft of flowers with a purple ribbon bearing the words "Our Friend at Rest" and some quaint Chinese characters in gold.

A glorious wreath of purple orchids, filled in the center with spreading palms, from President Roca of the Argentine Republic bore on a silver plate this inscription:

"To the Memory of William McKinley, President of the United States, Whose Noble Character and Republican Virtues Will Leave Behind an Everlasting Trace In the History of the American World."

Lilies of the valley and oak leaves wrought into a wreath represented Haiti's gift, and crossed palms, with a card bearing the one word "Sympathy," came from Mrs. John Addison Porter.

The Richmond city council sent a magnificent tribute in the shape of a mammoth wreath of red roses and ivy leaves, tied with the national colors. Light Battery A, Philadelphia artillery, also sent a green wreath imbedded with orchids, and the Loyal Legion remembered "Companion McKinley" through a vast wreath of lilies and roses. Colombia's tribute came through Minister Silva in the shape of a great cluster of palms and purple immortelles, and nearly every inch of wall space carried like offerings. One of the most affecting of these was a wreath of palms and orchids from Mrs. Garret A. Hobart, herself not long since bereaved.

Arrangements for the movement of the funeral cortege from the White House to the capitol were completed Monday night after the remains of the president had been deposited in the historic east room of the mansion.

Yesterday morning dawned gray and dreary. The sky was overcast with low flying clouds. Nature itself seemed to be in mourning for the nation's dead. As the hours passed dashes of rain fell at intervals, but despite this discomfort tens of thousands of sorrowing people appeared early upon the streets. Both sides of Pennsylvania avenue from the White House to the capitol were massed with an impenetrable cordon of people, wishing in this way to pay final tribute of love and respect for the dead. As the funeral cortege, escorted by troops representing every department of the nation's martial service and by representatives of religious and civic organizations, passed down the broad thoroughfare to the solemn notes of the dead march from "Saul" wailed by the bands the sorrowing people bared their heads despite the rain, and the many tear stained faces bespoke their grief more eloquently than words.

It was a silent throng. Not a sound was heard. With aching hearts all remembered that only a few months ago the dead president, then in the fullness of life and triumph, had passed along that same thoroughfare to be inaugurated a second time president. The flags that had fluttered greeting to him in March were furled and crape bedecked in September. The cheers of spring became the sobs of autumn. Grief had usurped the place of joy.

As with solemn and cadenced tread the procession moved down the avenue the people recognized as one of the mourners their former president Grover Cleveland, who had come to pay his tribute to his successor. They recognized, too, their new president, upon whom the responsibilities of chief executive had been thrust so unexpectedly. With silent salute they greeted him, and with them he mingled his tears in sorrow for the dead.

Among the hundreds of other distinguished persons who were in attendance upon the funeral services were Governor Gregory of Rhode Island, Governor Yates of Illinois, Governor Hill of Maine, Governor Crane of Massachusetts, Governor Russell of North Carolina, Governor White of West Virginia, Governor Stickney of Vermont and Governor Voorhees of New Jersey. Colonel Stone represented the governor of California, and Colonel A. C. Kaufman of Charleston represented Governor McSweeney of South Carolina and conveyed the governor's regrets that he was unable personally to attend.

The diplomatic corps was well represented.

Among others present were Chief Justice Fuller and Associate Justices of the Supreme Court Brewer, White, Gray and Brown, senators and representatives from many states headed by Senators Hanna and Foraker of Ohio, the entire cabinet and a score of department officials, Admiral Dewey, Rear Admirals Schley, Melville, Ramsay, Robley Evans and Crowninshield, General John R. Brooke, commander of the department of the east; Fitz-Hugh Lee and many other distinguished officers of the army and navy.

THE CATAFALQUE HISTORIC.

The catafalque upon which the coffin was placed was the historic one upon which had rested the bodies of Lincoln and Garfield. It was raised but a few inches from the floor and was in a position directly in the center of the rotunda.

At the conclusion of the funeral services in the rotunda the casket lid was removed in order that the immediate friends of the dead president might be afforded the comfort of a last glance at his features and that the people whom he loved and who loved him might pass the bier for the same purpose. At half past 12 the crowds began to file through the rotunda, and during the six hours in which the body was lying in state it is estimated that 55,000 people viewed the remains.

Just at 1 o'clock a frightful calamity was narrowly averted at the east front of the capitol. For hours the vast throng of people had been massed in front of the capitol awaiting an opportunity to enter the rotunda. When the doors were opened, tens of thousands of people rushed almost frantically to the main staircase. The police and military guards were swept aside, and almost in a twinkling there was a tremendous crush at the foot of the great staircase. The immense throng swept backward and forward like the surging of a mighty sea. Women and children, a few of the latter babes in arms, were caught in the crowd, and many were badly hurt. Strong men held children and even women high above the heads of the surging crowd to protect them from bodily injury.

Despite the force of the military and the cooler heads in the throng approximately a hundred people were injured. Some of the more seriously hurt were carried into the rotunda and into various adjoining apartments of the capitol, where first aid treatment was given them. A number were hurried to hospitals in ambulances, but the majority either were taken to or subsequently went unassisted to their homes. After the crush had been abated upon the staircase and the plaza immediately in front of it there were found tattered pieces of men's and women's wearing apparel of all kinds, crushed hats, gloves and even shoes. Watches, pocketbooks, keys and knives were picked up.

A Newfoundland Mining Boom.

ST. JOHN'S, N. F., Sept. 18.—A boom in mining is expected on Belle isle in about a fortnight. The workmen employed at the mine will be considerably increased by that time, and the Sydney Smelting works will be in a position to handle more ore. It is believed that the supply of mineral beneath the surface is almost limitless.

Weather Probabilities.

Partly cloudy; fresh northerly winds.

FINAL HOMECOMING.

Canton Receives Remains of Her Favorite Son.

THE CITY SHROUDED IN BLACK.

Funeral Train From Washington Bearing Its Precious Dust Reaches Destination—Remains Placed In State at the Courthouse.

CANTON, O., Sept. 18.—Canton has witnessed the last homecoming of William McKinley. In other days she has welcomed him with cheers, with waving banners and triumphal marches. Today she received him in silence, with streets hung with solemn black and with the wailing notes of dirges. For two days hundreds of men and women had labored in their task to arrange the decorations on the public buildings, on the fronts of commercial houses and over the windows and porticos of private residences. At sunset last night Canton was shrouded in black, and so she will remain until the remains of her best loved have been committed to the vault in West Lawn cemetery.

The funeral train arrived this morning at 11 o'clock and was met by members of the local reception and executive committees, by hundreds of personal friends of President McKinley and by the following gentlemen who had been selected from Washington to act as honorary pallbearers during the services in Canton: John C. Dueber, George B. Frease, R. A. Cassidy, William R. Day, Henry W. Harter, Joseph Biechele, William A. Lynch and Thomas T. McCarty. All were intimate friends of the president during his lifetime.

All night long at every town through which the funeral train passed the entire population seemed to be in waiting to see it. The dolorous telling of bells could be distinctly heard by those on board. It rained steadily much of the way, but neither rain nor darkness kept the mourning people from being at the track to pay their final tribute of honor and respect to their departed president.

Troop A of Cleveland acted as escort in the march from the Pennsylvania depot to the courthouse, where the body now lies in state. There was no attempt at forming a column. The cavalry led the way, the hearse drawn by four black horses followed, and then came the carriages bearing the members of the family and the distinguished visitors.

The line of march from the depot this morning was on Tenth street to Cherry street, to Tuscarorawas street and thence to the courthouse. The funeral car was halted at the southeast corner of the building and the body borne to the south entrance, through which it was conveyed and placed in the rotunda. Troop A of Cleveland, after having escorted the body of the president to the courthouse, escorted Mrs. McKinley to her home and President Roosevelt, the members of the cabinet, Lieutenant General Miles and Admiral Dewey to the residence of Mrs. Elizabeth Harter, which stands on North Market street not far from the McKinley homestead.

A detachment of the national guard has been posted around the Harter residence and also around Mrs. McKinley's home.

The details of Thursday's programme have not been finally arranged.

The casket was placed in the rotunda of the courthouse, and at noon the doors were opened to allow the citizens of Canton the opportunity of paying their last tribute of respect to the dead president.

Until 9 o'clock tonight the body will remain in the courthouse, and immediately after that hour it will be taken to the family residence on Market street. Canton post, G. A. R., composed almost entirely of members of President McKinley's old regiment, the Twenty-third Ohio, will escort the body to the house.

The funeral will take place at the First Methodist church at 1:30 o'clock tomorrow afternoon. The time allowed for the entire exercises in the church is forty-five minutes.

FUNERAL TRAIN DEPARTS.

Journey From Washington to Canton Begun.

WASHINGTON, Sept. 18.—The last chapter of the sad ceremonial, the removal of the remains of the late president to the grave at his old home in Canton, O., began at 8:20 o'clock last night, when the funeral train left here over the Pennsylvania railroad.

The great bronze doors of the capitol in which the body had lain in state had closed while there were still thousands of people waiting to get a last glance at the casket. The guards at the capitol who had patiently throughout the long day held the crowd in leash were permitted a hurried look at the face of the deceased, the cover of the casket was screwed down by the undertakers, it was lifted once more upon the shoulders of the body bearers and by them borne to the hearse at the foot of the east steps of the capitol.

Thirty minutes' time was required for the removal of the body from the capitol to the train. The escort on this journey consisted of committees from the army and navy and two squadrons of the Eleventh cavalry. The route was down Pennsylvania avenue, which was lined on either side by troops of the District of Columbia. It was a quiet, noiseless journey without music. Not a drum was heard nor a funeral note, nor was there a sound from the crowd which lined the broad street. Notwithstanding the hour was late, the air chill and a light mist was falling, hats were uniformly removed as the cortege passed.

At the Pennsylvania railroad station there was a dense throng, and the remains were received by large delegations of army and naval officers. There the soldiers and seamen carried the casket from the hearse to the observation car, placed in the second section of the funeral train.

The casket was placed on standards draped with the national colors. It was covered with floral emblems. No less than twenty cars were required for the transportation of the funeral party to Canton.

Today still another train will carry to Canton a large party of senators and representatives prominent in national life. The three sections into which the train was divided left at ten minute intervals. First was a train of eight cars bearing many prominent persons, including forty newspaper men. The second section was the presidential train proper, made up of practically the same seven cars which made the trip from Buffalo. The car Olympia was assigned to Mrs. McKinley, while the car Edgemore, which came next, was occupied by the president and his cabinet. Behind in order named came the sleepers Naples and Belgravia, the dining car Waldorf and a combination car.

The third section of the train was devoted entirely to the accommodation of the army and navy officers. There were Generals Brooke, Otis and Gillespie, Admiral Dewey and Rear Admirals Crowninshield, O'Neil, Bradford, Melville, Bowles and Farquhar, General Heywood, commandant of marines, and a number of junior officers of the army and navy. Lieutenant General Miles was to take passage on this train at some intermediate point between here and Canton, and Governor Nash and two of his staff were to join it at Pittsburg.

It was just before 8 o'clock when Mrs. McKinley was driven to the station. Fearing the tiring effort of the long walk from the carriage entrance to the car set apart for her next to the head of the train, a rolling chair had been provided for her. She declined this, however, and walked with surprising firmness to her place, assisted by Abner McKinley and Dr. Rixey. It was 8:10 o'clock when this section steamed away in the darkness, the first section having preceded it ten minutes. The observation car bearing the remains was flooded with light. Through its crystal sides could be seen the beautifully draped casket, with its mass of rare blossoms so arranged that even as the train swept through the night the people in the country it passed through might gaze upon the sight of the casket, with a soldier standing grimly at the head and a sailor carrying his cutlass upon his shoulder at the foot. A guard of soldiers and sailors occupied the platforms, and between them at the rear was a mammoth wreath six feet in diameter of rare orchids and laurels.

King Edward's Tribute.

FREDENSBORG, Denmark, Sept. 18.—King Edward, King Christian, Queen Alexandra and the empress dowager of Russia, surrounded by the princes and princesses of their families, personally expressed in special audiences granted to the United States minister, Mr. Swenson, their deep sympathy and indignation at the death of Mr. McKinley. King Edward's closing words to Mr. Swenson were the following: "Convey my heartfelt sympathy for the loss of so grand a man to so great a nation, a man who was so good a friend to Great Britain.'"

A Prayer For President Roosevelt.

CUMBERLAND, Md., Sept. 18.—One feature of the prayer of Rev. Father Don Luigi Sartori, pastor of St. Joseph's Catholic church, Midland, Allegany county, recited in church for the new president of the United States was as follows: "That he may prove a courageous president in every respect for the welfare of the people, quitting at once hunting wild animals of the forest for the energetic hunting down of the two legged savage beasts left roaming free about this vast civilized country."

Memorial Services Abroad.

LONDON, Sept. 18.—Arrangements have been made to hold memorial services in most of the British cathedrals and churches tomorrow as well as in a majority of the continental and colonial capitals. Expressions of sympathy on the part of foreign legislative assemblies and all kinds of public bodies continue to be recorded. Mr. Choate and the staff of the United States embassy will attend the memorial services at Westminster abbey and St. Paul's cathedral, the former at 1 p. m. and the latter at 3.

SHAFFER HEARD FROM.

No Public Statement of Terms of Settlement With Steel Trust.

PITTSBURG, Sept. 18.—After taking time to think it over President T. J. Shaffer of the Amalgamated association has announced that there will be no public statement of the terms of the settlement of the strike of his organization with the United States Steel corporation. He has also decided to issue a circular giving the terms of the agreement on which the men were ordered to return to work, and after all the lodges have received it the circular will be made public. The offices of the Amalgamated association are more quiet and orderly than they have been for some weeks, the large majority of strikers having returned to work. The men who have thus far refused to do so were meeting their fellow workers and kept away from the headquarters.

The general conditions of the mills of the United States Steel corporation have improved during the past twenty-four hours in a wonderful manner. It is officially announced that nine of the twelve butt weld furnaces and three of the six lap weld furnaces of the National Tube company in McKeesport were started yesterday. The officials of the various plants have received applications for work from many more of the strikers and are preparing to make a general start.

Peking Evacuated.

PEKING, Sept. 18.—Chinese troops reentered Peking yesterday. Americans and Japanese simultaneously handed over the Forbidden City to the Chinese authorities. The evacuation was picturesque. The Japanese and American troops were drawn up at the inner gate. Several hundred Chinese civil and military officials in brilliant costumes, diplomats, officers and ladies were massed on the plaza outside. Prince Ching and General Chiang, the governor of Peking, met the Japanese and Americans and thanked them for the protection they had afforded the palace. General Yamani and Major Robertson replied, the Japanese and Chinese bands played, and the foreigners marched out through the gates they had battered in last summer. Then the Chinese unfurled their flags and distributed their forces at the various gates.

Choked on Raw Meat.

ITHACA, N. Y., Sept. 18.—Edgar Updike of Trumansburg took a bite of raw steak which he had just purchased and in trying to swallow it choked to death. Medical assistance was summoned, but came too late. It was his habit to eat meat occasionally in its raw state.

Needless Delay.

The shooting of John King by an unknown wheelman near New Market Monday night was a peculiar thing. King was walking along the road in a lonely spot, there was a rush of wheels and a cyclist crashed into him. A shot followed and a bullet passed through King's back, injuring him seriously. Then the wheelman disappeared into the darkness.

The first theory advanced was that the wheelman had mistaken King for a highwayman in the darkness and had fired the shot without stopping to investigate. That theory seems very plausible. Then it has been suggested that the wheelman was carrying the revolver in his hand, as cyclists often do late at night on lonely roads and that, crashing into the pedestrian in the darkness, the revolver was fired by accident.

It is hard to believe that a man would shoot down another in cold blood without the slightest reason for the act. It may have occurred in either of the suggested ways. However it happened, the authorities of Middlesex county should have lost no time in investigating the shooting and trying to discover the identity of the shooter.

And what has happened. The Middlesex county authorities have practically not lifted their hands even to aid in running down the man who fired the shot. A few of the citizens of New Market have taken an interest in the case and caused the arrest last evening in North Plainfield of a colored man who is suspected of being the one desired. Of course, the county officials will be willing to issue the necessary warrant. Perhaps the day will come when the people of Middlesex county will wake up to a realization of just how effective its county officials are.

Another excellent improvement is soon to start on West Eighth street. That thoroughfare is one of the finest in the residental section and is finely paved as far west as Grant avenue. Building operations beyond that point have heretofore been retarded by the poor condition of the roadway. Now the property owners, between Grant and Monroe avenues, have raised two thirds of the funds necessary and the city will contribute the remainder so that the street can be macadamized for its entire length.

The Daily Press called attention some time ago to the need of immediate repairs to the Washington avenue bridge. Temporary repairs were immediately made but the Freeholders of the two counties realize the need of making permanent repairs. The bridge committee of the two county boards will meet there tomorrow afternoon to discuss the ways and means. It is to be hoped that the committees will decide to act and put up a substantial bridge.

The statement that a man who has a good business idea needs a fortune with which to advertise it is not true, declares the Philadelphia Record. Some of the most successful of business men are those who began in a small way, gradually increasing their advertising as they could. One man who now employes 1,000 hands first transported his materials in a wheelbarrow, and advertised his business only a few lines in a single newspaper.

Many of the officials of the New Jersey Central Railroad are residents of this city. Surely they can bring the needful pressure to bear which will result in the proper completion of the driveways leading to the new eastbound station. At present these driveways are in a condition which would shame even the backward Hunterdon county resident.

Let every man, who possesses the slightest spark of patriotism or respect for the great man whose death has been such a shock to the civilized world, unite tomorrow in honoring that memory. Worldly cares and pleasures should be put aside as far as possible and all should bear evidence to that respect by attending the memorial services.

Mayor Seymour, of Newark, has answered at length the charges made by Elvin W. Crane that he was not a good Democrat. The general opinion seems to be that the attack on Newark's Mayor is not going to injure his chances for the gubernatorial nomination.

Every home and every place of business in city and borough should be appropriately draped in black before tomorrow. It is but a little thing and every citizen ought to be willing to do that much in memory of one of the best Presidents that ever ruled over this land.

The managers of the Hope Chapel and St. Mary's teams should remember the duty they owe to the public and so modify their opinions regarding pecuniary arrangements that the public may be permitted to see another meeting of the two baseball nines.

Extra quarters are absolutely necessary in the borough grammar school. Under the existing circumstances, there cannot be the slightest reason for fair objection if the Borough Board of Education undertakes to provide for more room.

The task of meting out justice to the dastardly assassin of the late President is progressing with unusual rapidity. If ever the wheels of justice should move without delay, this is the time.

Out of respect for the memory of the late William McKinley, President of the United States, The Daily Press will not be issued tomorrow.

When election time approaches, the local Republicans manage to find quite a number who desire to become citizens.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May Be Of Interest to Plainfield and Its Citizens.

Senator Charles A. Reed, the chairman of the Somerset county Republican committee, said yesterday that he did not believe there would be as much as a whisper from that county against the nomination of Franklin Murphy for governor by the next Republican State Convention. Mr. Reed was almost as sanguine of the election of Mr. Murphy as he was of his nomination.—New York Tribune.

* * * * * * *

Union county politics is beginning to show signs of bubbling and boiling at some of the warmer spots in the Republican kettle. Just at the present time Plainfield and Rahway and Cranford are simmering somewhat. In Plainfield, for example, Judge Newcorn is rising to the surface as a candidate for the Assembly, and the present incumbent, Mr. Foote, may find a very active though not unfriendly rival. In the same Republican stronghold Andrew McCardle is warming up toward the nomination for sheriff with a good, strong backing. In Rahway Charles E. Reed is moving with a decided trend toward the nomination for member of Assembly, and Freeholder Fred. Miller, of Elizabeth, is close by him. The two may give Hon. Ellis B Meeker a good race for the honor. In Cranford Mr. Hall is already circling with accelerating rapidity toward the Assembly nomination, and will, if he continues to make things warm, give Assemblyman Smith a strong race. There are other centres of warmth and motion; one in Summit, for example, and other places are just beginning to show signs. But thus far the above are about the most significant movements observable.—Elizabeth Journal.

(Special Correspondence.)

Dunellen, Sept. 18.—Notices were issued for the Republican primaries to be held Monday evening in the Borough Hall. A delegate will be elected to attend the State convention and vote for the nomination of a governor.

Ledyard Bunker, who has been confined to the house by an injured back for several months, is soon to be operated upon for the removal of an abscess, which has appeared upon his leg.

At a special meeting of the Borough Board of Education held Saturday evening, George T. Schenck was appointed to fill the unexpired term as a member, of the late Henry C. Gaskill.

A special meeting of the Borough Council was held last night for the purpose of electing a new president of the Council, to fill the vacancy caused by the death of Henry C. Gaskill.

NEW MARKET.

(Special Correspondence.

New Market, Sept. 18—John King, who was shot by an unknown wheelman. Monday night, is doing very poorly at Muhlenberg Hospital, where he was taken for treatment. Although King could give no clue as to his assailant the local authorities are expected to soon make an arrest. The theory advanced in last night's Press that the wheelman was on the lookout for trouble receives general acceptance. It is thought that he was of a timid disposition and was possibly riding along with the revolver in his hand. At any rate he had no light on his wheel, and gave no warning of his approach.

The New Market Whist Club met Monday evening at the home of Frank VanNuis, After a few interesting games the members were served with refreshments.

New poles are being erected by the electric light company and the town will soon be supplied with electric lights.

Miss May Jenner has returned home after a few days' visit with friends in Rutherford.

Miss Annie Jenner has returned home after a two weeks' stay at Asbury Park.

The G. E. Club met at the home of Miss Cora Dayton last night.

'PLAINS AND FANWOOD

(Special Correspondence.)

Scotch Plains, September 18—An interesting weekly meeting of the Epworth League Society of the Methodist church was held Monday night. Miss Helen Whitenack led the meeting.

Special Officer Henry Guenier wishes to deny the article appearing in The Press of Tuesday evening, stating that he was smoking on the platform of a trolley car several evenings ago and refused to desist when ordered to by the conductor. Mr. Guenier says he boarded a car with a lighted cigar but made no attempt to smoke and that the remarks of the conductor were entirely uncalled for.

Scotch Plains will appropriately observe tomorrow as a memorial day in respect to the late President. The school will probably be closed and the New York business men will have the day. Between the hours of 3 and 4 in the afternoon, memorial services will be held in the parlors of the Baptist church. Several addresses will be made and it is hoped that the services will be well attended.

The members of the Epworth Literary Society will meet for reading and study in the class rooms of the Methodist church this evening. The society have taken up the study of Sir Walter Scott's works and are finding them very interesting.

Miss Ada Buckley, who has been spending several weeks with her grandmother, Mrs. James Buckley, has returned to her home in Plainfield.

Mrs. Nellie C. Crane, who has been spending several months with friends in Brooklyn, is visiting her parents, Dr. and Mrs. James H. Parks.

Mrs. Charles E. Smith, of Westfield, has been visiting at the home of her aunt, Mrs. J. C. Lyons, of Westfield avenue.

The Misses May Shott, Addie Johnston and Mary Westcott leave today for Peddie Institute at Hightstown.

Mrs. Thomas M. Paff, Jr., and son, have returned from a week's pleasant visit with relatives in Brooklyn.

George Baldwin and Clinton Clark have returned from a pleasant visit with friends at Bernardsville.

There will be dancing at Anderson's Pavilion tonight. Music will be by Prof. Ballard's orchestra.

Mrs. Thomas M. Paff, Jr., and son have returned from a week's stay with relatives in Brooklyn.

Charles Layton has recovered from a severe attack of inflamatory rheumatism.

SOUTH PLAINFIELD

(Special Correspondence.)

South Plainfield, September 18—Camp No. 41, P. O. S. of A., had made plans for the celebration of the fifth anniversary of its birthday, to be held tomorrow evening, but in consequence of the unexpected death of President McKinley, the celebration will be turned into a service of commemoration. A number of the members will speak upon the life of President McKinley, after which refreshments will be served. All members of the order are especially invited to be present.

At the prayer meeting of the Baptist church last night the subject of intemperance was discussed. In the remarks of the pastor it was shown that the saloon furnishes a nucleus about which anarchistic societies flourish. Several examples were cited.

In accordance with the Governor's proclamation, tomorrow will be observed here as a day of mourning for late President. There will be no special church services, but the school will be closed and business in general suspended.

Miss M. Nevius, who has been spending several weeks at the home of Mrs. W. H. Manning, left today for New Brunswick, where she will visit her sister, Mrs. Wyckoff.

Dr. M. J. Whitford, a member of the Piscataway Township Board of Education, visited the local school yesterday.

Mrs. John Tingley has returned home after a two weeks' visit with her parents, Mr. and Mrs. J. Tingley, of Dunellen.

Miss May Higgins and Miss Voorhees, of Bound Brook, have been visiting friends in town.

Mrs. William Clawson is spending two weeks with Plainfield friends.

—Owing to the store being closed all day tomorrow, Neuman Brothers will remain open this evening, when all fruit on hand will be sold regardless of cost. There will be a large variety to select from.

TRENTON FAIR ATTRACTIONS.

UNUSUAL PREPARATIONS FOR IT ARE GOING FORWARD.

New Buildings Have Been Completed—Programme for the First Day.

The 20th Century Trenton Fair, which takes place at Trenton, September 30 and October 1, 2, 3 and 4, will be bigger and greater than ever before in its history. The management, in spite of the expense that it has been put to recently in replacing the grandstand, exhibition building and stables that were destroyed by fire, has secured the best attractions ever offered at the fair.

Race purses aggregating $17,000 are offered, which insures some of the speediest trotting and pacing ever seen in this part of the country. The premiums offered for exhibitors amount to $60,000, a larger showing than is made by any fair in the east.

Secretary Mahlon R Margerum feels an especial pride in the amusement features that he will have this year. They include Diavolo, the intrepid loop-the-loop cyclist; Miss Lillian Shaffer and her stable of wonderfully trained horses; Prof. Charles Little in the act that he has startled the world, firing himself 2 000 feet into the air from a cannon; the Four Fearris, the most fearless acrobats of the age; Henshaw and Hedstrom, of world-wide fame, in a ten-mile motor tandem race to beat the 13-minute record; Charles Marvelous Marsh, the diving bicyclist; Sparrow, the crazy juggler; Kramer and McFarland, in a ten-mile motor-paced race; Lottie Brandon, who rides a bicycle down a steep flight of steps, and a host of other attractions.

Monday, the day of everything, will present, in addition to the acts already named, which will be seen each day of the Fair, an exhibition of drilling, skirmishing and charging by New Jersey's crack Second Regiment, a real fox hunt, a five mile amateur bicycle lap race, and a horse parade in which is entered some of the best equine blood in this section.

The seating accommodations at the Fair have been greatly improved. In addition to the handsome new grandstand and club house, there has just been erected a fine, large covered pavilion, from which a splendid view of all the events may be had.

AT THE THEATRES.

Something About the Attractions Which Plainfield Theatre-Goers May Care to Witness.

As was predicted, the great Conque valli has packed Keith's to the doors this week. New York has taken kindly to this notable European artist. There is satisfaction in knowing that Cinquevalli's performance is so truely marvelous that every crowned head of Europe has at different times commanded him to appear and entertain them. Today he is the talk of New York—and he deserves his popularity. Cinquevalli is a class all by himself; he has many imitators, but no competitors. An iron nerve, a keen eye, and constant practice has combined to make him the greatest juggler the world has ever known. He will continue to appear at Keith's throughout next week, being the only holdover. A strong company of artists surround him, to complete the programme. Among those are Will H. Cressy and Blanch Dayne, who will present their laughable sketch, "The Key of C;" Prof Winton, the Australian ventriloquist; Sidney Grant, the mimic and monologist; Eiseeta, the wonderful toe dancer, who dances on her toes without the aid of slippers or footgear of any description; the Automobile Girl, a singing novelty; Grant & Ray in a comedy sketch, and many others. Continuous performance. Prices 25c. and 50c.

Familiar Faces.

The September number of "Osteopathic Success," published at Wilkesbarre, Pa., contains excellent pictures of Drs. George D. Herring and Geo. R. Boston, and Leonard Spangenberg, secretary of the Plainfield School of Osteopathy. There is also an article written by Dr. Herring on "Neurasthenia."

THE CABINET MEETS

President Roosevelt Sets All Rumors at Rest.

ASKS EVERY MEMBER TO REMAIN.

It Is the Wish of the New Chief Magistrate That No Changes Shall Occur During the Present Term.

WASHINGTON, Sept. 18.—President Roosevelt at 3 o'clock yesterday convened his first cabinet meeting held in Washington. At this meeting the president asked the members of Mr. McKinley's cabinet to retain their respective portfolios throughout his term and announced that his administration would follow the policy outlined by President McKinley in his Buffalo speech.

After the obsequies over the late president the cabinet, at President Roosevelt's request, assembled at the residence of Commander Cowles, where the president is staying until after the funeral, principally for the purpose of informing their new chief of the state of affairs in their respective departments. The president desired to learn if there were any matters of moment requiring his attention before his departure for Canton. He was assured that there was nothing of pressing importance. The president then addressed his advisers collectively, as he had previously done individually, requesting them all to retain their respective positions in his cabinet.

Mr. Roosevelt expressed the hope and expectation that every member would serve throughout his term, for, he said, he tendered the appointments as if he had just been elected to the presidency and was forming an original cabinet. The president said, however, there was one difference between the present tender and that of an original offer—namely, under the present circumstances they were not at liberty to decline.

Upon being asked if resignations should be formally presented in the usual manner the president answered that his action at this meeting had precluded the necessity of presenting resignations. The discussion turned upon the policy of the administration, and Mr. Roosevelt announced that he regarded the speech of the late president at the Buffalo Pan-American exposition the day previous to the tragic shooting as outlining the policies to be followed by the administration. It cannot be learned at this time whether or not all the members will be willing to serve the full term.

The cabinet members with the exception of Secretaries Hay and Long will accompany the remains of the dead president to Canton to participate in the funeral ceremonies tomorrow.

Secretaries Hay and Long remain in Washington at the president's request, Mr. Roosevelt thinking that some members of the cabinet should continue in Washington.

Besides holding the cabinet meeting President Roosevelt saw a few callers during the afternoon. At 7:30 o'clock he and Captain Cowles left the latter's residence for the Pennsylvania railroad station to take the train to Canton. Mrs. Roosevelt left here at 10 o'clock this morning for Oyster Bay, N. Y.

GENERAL FUNSTON ILL.

Is Suffering From Appendicitis—An Operation Probable.

MANILA, Sept. 18.—General Hughes has expelled the agents of Smith & Bell and Warner & Barnes from the island of Samar for rendering aid to the insurgents in Manila by buying hemp and other produce knowing that the money was going to the insurgents. The British consul requested General Chaffee to suspend the order, but he refused to do so, and the consul has gone to Samar for the purpose of personally investigating the matter.

General Funston is in the hospital, suffering from appendicitis. He will probably be operated upon.

Aguinaldo has written to Civil Governor Taft and Military Governor Chaffee, saying that he regrets, with the rest of the American nation, the great loss suffered by the people of the United States in the death of President McKinley.

General Chaffee will recommend that Lieutenant Hazzard of the Third cavalry be awarded a medal of honor for capturing Arthur Howard, the American deserter, under exceedingly brave circumstances.

Assassin to Be Tried Next Week.

BUFFALO, Sept. 18.—Leon F. Czolgosz, the assassin of President McKinley, was arraigned before Judge Edward K. Emery in the county court at 3 o'clock yesterday afternoon on the indictment for murder in the first degree in fatally shooting President McKinley in the Temple of Music at the Pan-American exposition on Sept. 6. Again the stubborn prisoner refused to plead or even to utter a word or sound, and Loran L. Lewis, ex-supreme court justice, entered a plea of not guilty. The accused will be tried in the supreme court next Monday morning. Crowds flocked to the city hall to see the prisoner, but the uncertainty surrounding the question as to whether or not counsel could be secured for him saved congestion of the courtroom and corridors of the hall. The most notable incident of the day was the hissing of the prisoner by the crowds who surged around him as he was being escorted down the stairs still draped in mourning garb.

The Marietta Safe Home.

NEW YORK, Sept. 18.—The United States gunboat Marietta, Commander J. V. B. Bleecker, arrived in port last night, 105 days out from Manila, to which place she went shortly after making the famous cruise around Cape Horn from San Francisco with the Oregon. The Marietta has been in commission four years and was ordered home for repairs and a general overhauling. On her way from Manila the Marietta called at the ports of Singapore, Colombo, Bombay, Naples, Madeira and St. George's, Bermuda.

Another Airship.

RIO DE JANEIRO, Sept. 18.—Senhor Augusto Severo, who is a member of the Brazilian chamber of deputies, has started for Paris, where he will follow up the tests of the dirigibility of airships with a globe shaped balloon of his invention called "La Paz." He believes that he has found a solution of the problem.

German Vintage Injured.

BERLIN, Sept. 18.—The continuance of heavy rains along the Rhine and the Moselle has greatly injured the grapes, which are bursting without ripening. The vintage is expected to be unusually poor in both districts.

MORE EVIDENCE.

It is Coming in Rapidly in Plainfield.

Evidence on the following subject will prove of interest to every Plainfield reader. So many people go through the same experience daily. This public statement should be proof positive to every wavering doubter. Read it carefully.

Mr. Geo. S. McGinnis, of 212 Somerset street, foreman of R. H. McCullough's Sash and Door Manufacturing Company, says: "I never was sick a day in my life until a pain struck me across my back and a lameness over the kidneys. I did not pay much attention to it at first, thinking it would soon pass away, but instead of this it grew worse. I saw Doan's Kidney Pills so highly recommended by those who had used them for such troubles that I went to L. W. Randolph's drug store and got a box. I used them according to instructions and felt somewhat relieved. Continuing the treatment, by the time I had finished the third box, the pain in my back and lameness disappeared."

For sale by all dealers. Price, 50c. a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Some time ago I had my attention called to Ripans Tabules for heart trouble caused by indigestion, by one of my friends who had been using them for some time. I never found any relief till I began using the Ripans, but I have found great relief from them, and can say that I am cured. At times I feel slight symptoms of it when I eat a little too much, but that is my own fault. I always keep the Tabules on hand and take one whenever I feel indisposed the least bit. I never will hesitate to recommend them to any one in this kind state of health.

WANTED—A case of bad health that RIPANS will not benefit. They banish pain and prolong life. One gives relief. Note the word RIPANS on the package and accept no substitute. RIPANS, 10 for 5 cents, may be had at any drug store. The five-cent package is enough for ordinary occasions. Twelve thousand testimonials will be mailed to any address for 5 cents, for the name of a nearby druggist. Address, The Ripans Chemical Co., No. 10 Spruce St., New York.

POPULARITY OF VELVET.

It Is Used In an Infinite Variety of Ways.

Velvet ribbon is being used in great quantities. It is made up into knots, bows, huge rosettes; it is appliqued flat so as to form stripes, plaid effects and lozenges. When different widths or ribbons are worked together, the effect is as complicated as Scotch plaid.

Velvet ribbon is also used almost entirely on hats. A popular hat is in a shepherdess shape trimmed simply with a wide ribbon passed around the crown and knotted into a square bow

WHITE BROADCLOTH AND LACE.

in the back with long ends. Many of the light straw and tulle hats are trimmed with bows of narrow velvet appliqued flat.

A stunning French model shows a round shape trimmed with a wreath of salmon pink roses veiled with a scarf of fine black chantilly and having, a little at one side of the front, a big bow of crumpled black velvet edged with pink faille ribbon.

A dressy costume of white cloth is shown in today's illustration. The waist is made with full bishop sleeves, having a close fitting cuff of lace. The entire gown is laid in clusters of five tucks alternating with narrow black velvet ribbons run through beadings. The front opens over a fitted vest of the lace, and it is laced together by a black velvet ribbon run through gold eyelets. There is a large square collar of the goods striped by the insertions. The skirt is trimmed with bands of the lace.

The hat is made of tucked taffeta veiled with tulle and trimmed with pink roses and bows of black velvet ribbon.

TOUCHES OF BLACK.

They Are Seen on Nearly All the Smart Dresses.

Black chantilly lace is much used as a trimming for early autumn gowns. It is most effective when used in bands of insertion on black and white foulards and red veilings. The latter are made over white silk linings, which show through the transparent insertion.

Handsome little boleros of black jetted chantilly and handmade cream renaissance are worn with the most elaborate costumes. They are sometimes finished with a sailor collar, and the front is held together with loops of black velvet ribbon. Many new black laces have a touch of delicate color in the figure. Some ingenious women introduce this effect into white laces by embroidering in outline the principal figure.

A touch of black is a necessity on every French gown, and to follow out this idea a similar knot of black is observed in the hat. A bow of this description set on the side of a hat of palest blue or pink, with the ends hanging over the brim, is remarkably effective.

BLACK AND WHITE BLOUSE.

The cut shows a very stylish black and white blouse. It is made with a tucked yoke and full sleeves of white chiffon. The blouse, the short sleeves and the scalloped bertha are of wide black velvet ribbon and cream lace insertion. The bertha is outlined by a scalloped applique of the lace, and it is finished in front with a square black velvet bow. The belt is of wide crushed velvet ribbon, finished in the back with a jet buckle.

[CONTINUED.]

The purpose of these two cave-tigers was plain; while they were in the circus, and loose, no living being could cross from one gate to the other. They were a new and sturdy addition to the defenses of the capital. A collar of bronze was round the throat of each,

THE GREAT CAVE TIGER.

and on the collar was a massive chain which led to the wall, where it could be played out or hauled in by means of a windlass in one of the hidden galleries. So that at ordinary moments the two huge beasts could be tethered, one close to either end of the circus, as the litter of bones and other messes showed, leaving free passageway between the two sets of doors.

The windlass clanked, and the tethering chains drew the great beasts clear of the doorway; and a valve of the farther door swung ajar, and a prisoner was thrust struggling into the circus. A sickness seized me when I saw that this was a woman, but still, in view of the object I had in hand, I made no interruption.

It was not that I had never seen women sent to death before. A general, who has done his fighting, must in his day have killed women equally with men; yes, and seen them earn their death-blow by lusty battling. Yet there seemed something so wanton in this cruel, helpless sacrifice of a woman prisoner, that I had a struggle with myself to avoid interference. Still it is ever the case that the individual must be sacrificed to a policy, and so, as I say, I watched on, outwardly cold and impassive.

I watched too (I confess it freely) with a quickening heart. Here was no sullen, submissive victim. She may have been cowardly (as some women are), she may have been brave (as many women have shown themselves); but, at any rate, it was clear that she was going to make a struggle for her life, and to do vicious damage, it might be, before she yielded it up. The watchers behind the arrow-slits recognized this. Their wagers, and the hum of their appreciation, swept loudly round the ring of the circus.

They stripped their prisoners, before they thrust them out to this death, of all the clothes they might carry, for clothes have a value; and so the woman stood there bare-limbed in the moonlight.

She clapped her back to the great stone door by which she had entered, and faced fate with glowing eye. Gods! there have been times in early years when I could have plucked out sword and jumped down, and fought for her there for the sheer delight of such a battle. But now policy restrained me. The individual might want a helping hand, but it was becoming more and more clear that Atlantis wanted a minister also; and before these great needs, the lesser ones perforce must perish. Still, be it noted that, if I did not jump down, no other man there that night had sufficient manhood remaining to venture the opportunity.

My heart glowed as I watched her. She picked a bone from the litter on the pavement and beat off its head by blows against the wall. Then with her teeth she fashioned the point to still further sharpness. I could see her teeth glisten white in the moon rays as she bit with them.

The huge cave-tigers, which stood as high as her head as they walked, came nearer to her in their prowlings, yet obviously neglected her. This was part of their accustomed scheme of torment, and the woman knew it well. There was something intolerable in their noiseless, ceaseless paddings over the pavement. I could see the prisoner's breasts heave as she watched them. A terror such as that would have made many a victim sick and helpless.

But this one was bolder than I had thought. She did not wait for a spring; she made the first attack herself. When the she-tiger made its stroll towards her, and was in the act of turning, she flung herself into a sudden leap, striking viciously at its eye with her sharpened bone. A roar from the onlookers acknowledged the stroke. The cave-tiger's eye remained undarkened, but the puny weapon had dealt it a smart flesh wound, and with a great bellow of surprise and pain it scampered away to gain space for a rush and a spring.

But the woman did not await its charge. With a shrill scream she sped forward, running at the full of her speed across the moonlight directly towards that shadowed part of the encircling wall within whose thickness I had my gazing-place; and then, throwing every tendon of her body into the spring, made the greatest leap that surely any human being ever accomplished, even when spurred on by the utmost of terror and desperation. In an after day I measured it, and though of a certainty she must have added much to the tally by the sheer force of her run, which drove her clinging up the rough surface of the wall, it is a sure thing that in that splendid leap her feet must have dangled a man-height and a half above the pavement.

I say it was prodigious, but then the spur was more than the ordinary, and the woman herself was far out of the common both in thews and intelligence; and the end of the leap left her with five fingers lodged in the sill of the arrow-slit from which I watched. Even then she must have slipped back if she had been left to herself, for the sill sloped, and the stone was finely smooth; but I shot out my hand and gripped hers by the wrist, and instantly she clambered up with both knees on the sill and her fingers twined round to grip my wrist in her turn.

And now you will suppose she gushed out prayers and promises, thinking only of safety and enlargement. There was nothing of this. With savage panting wordlessness she took fresh grip on the sharpened bone with her spare hand, and lunged with it desperately through the arrow-slit. With the hand that clutched mine she drew me towards her, so as to give the blows the surer chance, and so unprepared was I for such an attack, and with such fierce suddenness did she deliver it, that the first blow was near giving me my quietus. But I grappled with the poor frantic creature as gently as might be—the stone of the wall separating us always—and stripped her of her weapon, and held her firmly captive till she might calm herself.

"That was an ungrateful blow," I said. "But for my hand you'd have slipped and be the sport of a tiger's paw this minute."

"Oh, I must kill some one," she panted, "before I am killed myself."

"There will be time enough to think upon that some other day; but for now you are far enough off meeting further harm."

"You are lying to me. You will throw me to the beasts as soon as I loose my grip. I know your kind; you will not be robbed of your sport."

"I will go so far as to prove myself to you," said I, and called out for the warder who had tended the doors below. "Bid those tigers be tethered on a shorter chain," I ordered, "and then go yourself outside into the circus and help this lady delicately to the ground."

The word was passed and these things were done, and I too came out into the circus and joined the woman, who stood waiting under the moonlight. But the others who had seen these doings were by no means suited at the change of plan. One of the great stone valves of the farther door opened hurriedly and a man strode out, armed and flushed. "By all the gods!" he shouted. "Who comes between me and my pastime?"

I stepped quietly to the advance. "I fear, sir," I said, "that you must launch your anger against me. By accident I gave that woman sanctuary, and I had not heart to toss her back to your beasts."

His fingers began to snap against his hilt.

"You have come to the wrong market here with your qualms. I am captain here, and my word carries, subject only to Phorenice's nod. Do you hear that? Do you know too that I can have you tossed to those striped gate-keepers of mine for meddling in here without an invitation?" He looked at me sharp enough, but saw plainly that I was a stranger. "But perhaps you carry a name, my man, which warrants your impertinence?"

"Deucalion is my poor name," I said, "but I cannot expect you will know it. I am but newly landed here, sir, and when I left Atlantis some score of years back, a very different man to you held guard over these gates." He had his forehead on my feet by this time. "I had it from the empress this night that she will tomorrow make a new sorting of this kingdom's dignities. Perhaps there is some recommendation you would wish me to lay before her in return for your courtesies?"

"My lord," said the man, "if you wish it, I can have a turn with those cave-tigers myself now, and you can look on from behind the walls and see them tear me."

THE ROYAL VISIT.

Duke and Duchess of Cornwall and York at Quebec.

QUEBEC, Sept. 18.—The ceremonies of the last day's stay of the Duke and Duchess of Cornwall in the ancient capital of Canada included a review of the troops mobilized for their reception, a dinner on the royal yacht Ophir and an illumination of the harbor and city. Rain fell almost incessantly during the day, and the crowds that gathered early in the morning were speedily dispersed and driven indoors. The luncheon and general reception at Spencer Wood, official residence of the lieutenant governor, was canceled as a mark of respect to the dead American president, and further plans for an expression of regret were made, but unavoidably abandoned.

The Duke of Cornwall and Lord Minto, governor general of Canada, decided to be personally represented at Washington. The former designated Commander Godfrey Faussett, naval aid-de-camp, as his representative, but it was discovered that it would be impossible for him to reach there before the departure of the funeral train for Canton, and the idea of sending any one was regretfully given up. A chilly wind swept across the plains of Abraham and cracked the whip with the lines of rain that steadily fell, but the military review was bravely finished. The Duke of Cornwall refused all offers of shelter and rode through the rainy review in his brilliant uniform of honorary colonel of the Seventh fusileers.

Despite the rain the military exhibition was a pretty one. Five thousand fighting men, including a naval contingent of about 300, were massed on the green carpeted plains in sight of Wolfe monument. There were long lines of scarlet tunics and platoon after platoon of gay colored kilts, with rows of blue and green, all touched with white and yellow for contrast. A dozen bands played the airs to which the British army marches, and when the duke arrived and the picture became a moving one it was at its best. The Duchess of Cornwall was the first of the royal party to appear. She came from the citadel in a barouche drawn by four horses, with mounted postilions, and escorted by the Queen's Own Canadian hussars in smart dark uniforms corded with yellow.

As she drove up the line the spectators cheered her enthusiastically, and she smiled her kindly acknowledgment. She was escorted to a roofed stand in the center of the field, and a few minutes later the Duke of Cornwall entered the parade ground, escorted by his staff, and proceeded to inspect the troops. The review followed, and when it was over the duke presented medals to 113 Canadians who saw service in South Africa. Some were in the uniforms of their regiments and others in civilian attire.

The royal party returned to the citadel at 1 o'clock and after resting until 5 o'clock went aboard the Ophir. They were escorted to the wharf by a detachment of the Queen's Own hussars, and at night they gave a dinner.

The royal party, accompanied by Lord Minto, Premier Laurier and a large number of Dominion officials, left at 9:45 o'clock this morning for Montreal. They went by the special train which is to carry them throughout their entire tour in Canada and which for comfort and elegance exceeds anything of the kind ever used here. Special cars were built for the train, and every possible luxury has been provided for them. The party stops two days at Montreal and then goes to Ottawa.

INSURGENTS ROUTED.

Colombian Government Troops Had an Easy Victory.

COLON, Colombia, Sept. 18.—The Colombian cruiser General Pinzon (formerly the Namouna) has returned to Colon, bringing news of an easy victory for the government troops at Bocas del Toro last Saturday, the Liberals, or insurgents, being utterly routed and their guns and ammunition captured.

Colonel Gruzo, commanding the Colombian troops at Bocas del Toro, a force of about 300 men, approached Provision island, the insurgent position opposite the town, from different points by means of boats and launches. He effected a landing unseen and attacked the Liberals in the front and rear. A sharp and decisive skirmish ensued, in which the rebels lost thirty killed and wounded and had forty taken prisoners. The others made their escape. The government force lost five killed and four wounded.

General Alban arrived at Bocas del Toro a day too late to take part in the engagement. One of the rebel leaders is said to be an ignorant policeman who is not able to sign his name. Among the rebels are several Nicaraguans and Jamaicans.

The Czar In France.

DUNKIRK, Sept. 18.—The preliminary festivities in connection with the czar's visit have passed off without any untoward incident. Every item in the programme has been carried through with perfect success. The weather, however, has been atrocious. From the time M. Loubet left Paris until he reached Dunkirk the rain fell pitilessly. Fortunately the downpour ceased shortly after his arrival here, and the rest of the evening was fine. Dunkirk made an exceptional effort in the way of decoration. The whole route traversed by President Loubet was profusely hung with French and Russian flags. Triumphal arches were erected, and myriads of Chinese lanterns were festooned across the streets. All the public buildings and many private residences were illuminated with electric lamps.

DENOUNCED ASSASSIN.

Resolutions Passed at Meeting of Freedom Castle.

The following resolutions were passed at the meeting of Freedom Castle, Knights of the Golden Eagle, last evening:

Freedom Castle, No. 42,
K. G. E. of N. J.
Plainfield, N. J., Sept. 17, 1901.

Whereas, A proclamation by John C. Risley, Grand Chief of the New Jersey Jurisdiction of the Knights of the Golden Eagle, has been received by this castle, ordering the charter of each castle to be draped in mourning for the death of our Chief Executive for the period of thirty days, and that resolutions suitable to the occasion be adopted and placed upon the castle records. And

Whereas, Appreciating the fitness of action in view of the awfulness of the crime which has brought such deep and sincere sorrow upon our loved and cherished country; and in view of the fact that the cause of such sorrow is an human being, who by common report is an alleged member of our great and benevolent order. Therefore be it

Resolved, That we, the Sir Knights of Freedom Castle, No. 42, K. G. E. of N. J., assembled in stated session, deeply deplore the sorrowful event that has taken a President, a valiant soldier, and above all a noble Christian man from a country that had in confidence learned to love and respect him; and that we extend to his stricken family the full assurances of our heartfelt sorrow and sympathy in this hour of a country's grief, bending with them in submission to the mandate of Him who ruleth all things. And be it further

Resolved, That we view with indignation the stain cast upon the spotless record of our Order by an alleged member. That we re affirm the principles binding us together in our brotherhood—Fidelity to God and to one's fellowman; valor in the cause of Right and Justice; and Honor in every action and motive of our lives, and in view of these principles, to which every Eagle Knight must subscribe, we denounce the author of this infamous crime as a perjured wretch whose name shall no longer be known in the Order, and whose memory shall be a thing of shame. And finally be it

Resolved, That a copy of these resolutions be sent to Secretary G. B. Cortelyou on behalf of the late President's family; a copy be sent to the Grand Master of Records of the State of New Jersey for filing in the archives of the Order, and they be also placed upon the records of this Castle and the charter be draped for a period of thirty days with black and purple.

Done at the Castle Freedom, Sept. 17, 1901. A. C. Hoagland, N. C.
Attest: A. R. Vail, M. of K.

Ten New Citizens.

Horace G. Adams, a member of the naturalization committee of the city Republican executive committee, escorted ten men to Elizabeth last evening, where they secured their papers from Judge Vail.

MONEY GONE; WANT HIS LIFE.

ITALIAN ROBBED IN STORE ON LIBERTY STREET LAST NIGHT.

Had Cashed Checks For Pay For His Friends — He Now Fears to Return to Them.

Castagnola Salvatore, an Italian who has been in this country but three months, complained to the police last evening, that a wallet containing $132.88, which he had left on a counter at the store of Leonardo Vitrimole on Liberty street, had been stolen during his temporary absence. Vitrimole was questioned in regard to money but pleaded ignorance, saying he had not seen it. The police declare that they believe that he could reveal the whereabouts of the money if he wished to.

Salvatore is an employe of the Lehigh Valley Railroad and came here from South Plainfield, yesterday, to cash his pay check and those of three of his countrymen. As he could not be identified at the bank, Vitromole, who is known as John Wilson, did it for him. The money represented the combined earnings of the four for the past month.

The other Italians threatened Salvatore's life unless he refunded the money. He has been afraid to return to South Plainfield and has since remained at the police station.

Divorce of Canadians in This Country

It has been almost a custom, owing to the difficulty of obtaining a divorce in Canada, for citizens unhappily married to go to the United States and obtain a divorce after a few months' residence. Returning to Canada, some of these have remarried in the belief that the divorce was valid. Now the decision of the house of lords in Earl Russell's case is that only British courts can amend a marriage contracted under British law. As police officers, crown attorneys, and aggrieved persons can lay information in bigamy cases, the lot of those who have remarried under United States divorces will not be a happy one should decisions in Canada follow that in the house of lords. Some families, it is thought, will take time by the forelock and migrate to the United States.—Toronto Mail.

Too Much Copper.

Portugal is suffering from a plethora of money just now. Not gold, of course, nor silver; but copper. So vast is the supply of this inferior metal that ordinary people are exceedingly chary of changing such few gold coins as they may come into possession of. The copper coinage is big and cumbersome, and it is also depreciated, so that, in order to avoid being burdened with it, it has become the custom, in the larger cities at all events, to use street car tickets as currency. In the provinces postage stamps are made to serve a similar purpose. Meanwhile the government at Lisbon goes on serenely minting the obnoxious coins—which nobody will use—at the rate of some 80 tons a month.—Philadelphia Telegram.

His Degree.

Some English ministers still value degrees conferred by so-called American universities for a monetary consideration. Recently one of these favored men announced to the principal of a theological seminary in England that he had received the degree of D. D.

"Was it honorary, or given for special work you have done?" said the principal.

"Neither," answered the doctor. "It was post-graduate."

"What do you mean by that?"

The answer, given with simple sincerity, was: "It was sent to me by post."—Congregationalist.

Sherry and Loyalty.

A good story is going about in connection with the royal wine sale. There is, of course, a good deal of "tasting," but the quantity allowed is not large to the proposed buyer. Four enterprising gentlemen, however, got hold of a whole bottle for "tasting" purposes, and, retiring to a little room, poured it into glasses. The ringleader had just proposed the king's health when a voice was heard: "I am sure, gentlemen, the king will be much obliged to you for your loyalty." It was the voice of a high court official in charge of the sale.—Notts Guardian.

The Day of the Young Man.

This wording of an advertisement of a summer hotel: "Special rates for young gentlemen over Sunday and for vacation," reminds us that these are the days when the young man, and, above all, the "unattached" young man, is the great desideratum. Not in the world of business, where we are told the young man is needed; not in the political kingdom, but in the serious circles of the hotel piazza and the country house, where lonely maidens go about seeking the "young man."—N. Y. Press.

What Impressed Him.

There is a story to the effect that Theodore Thomas' orchestra once gave a concert in Omaha. An old fellow who attended was asked what he thought of it. "Well, sir," he replied, "I was very much impressed. They hauled that bass drum all the way from Chicago, 500 miles, and only hit it once."—Atchison Globe.

A Dampener.

"Tell me," he sighed, "tell me, beauteous maiden, what is in your heart."

Miss Henrietta Bean, of Boston, gave him a look of icy disdain and then vouchsafed the monosyllabic reply:

"Blood."—Baltimore American.

TALKED AGAINST M'KINLEY.

SO THE JUDGE MADE IT $60 AND SIXTY DAYS.

Alfred Danche Said He Was Drunk and Police Were Sure of What He Said.

Swift and retributive punishment was meted out this morning to Alfred Danschlall, the man arrested on East Front street Monday evening for giving vent to remarks derogatory to the late President and others not popular at the present time. The sentence imposed upon him by City Judge Runyon was sixty days in jail and an additional fine of $60.

The testimony of Patrolman Lunger given yesterday was added to by Roundsman Mattox, who declared that Danschlall, after he had been put in a cell, uttered the vilest oaths he had ever heard, interspersed with shouts of "To —— with McKinley." "Hurrah for the Anarchists" and others equally disliked by all Americans.

The prisoner declared the charges against him were false and attempted to make a trumped up charge of assault against the police. He admitted being partly under the influence of drink, but denied being drunk.

For this reason the Court thought the prisoner knew what he was doing when he made the Anarchistic remarks and uttered the oaths and thus adjudged him guilty.

PERSONAL.

Charles W. Burton and his daughter, Mrs. Hariot Burton Ford, of Watchung avenue, have returned from an outing at St. John, N. B.

Mrs. P. D. Meyers, of Williamsburg, is spending a week with her son, Policeman Nicholas Meyers, of Netherwood.

David S. Pond, of Watchung avenue, has entered Princeton University, where he will pursue a course of study.

Mr. and Mrs. Aaron Mattox, of West Third street, are rejoicing over the arrival of a young daughter, who came to their home Monday.

Mrs. Charles Creviling, of Phillipsburg, is spending two weeks with her parents, Mr. and Mrs. William Lunger, of Fairview avenue.

Former Mayor G. W. Rockfellow, of Park avenue, who is in the south for his health, does not gain rapidly. He frequently is troubled with rheumatism. He will probably not return home for some time.

Jack Comerford, who has been visiting relatives in this city, left yesterday for New York, where he took passage on a steamer bound for San Domingo. Mr. Comerford is employed on a plantation in that country.

CURE FOR ASTHMA.

Discovery of a Leading Physician—Public Test Will be Made Tomorrow at Randolph's Drug Store

All day tomorrow free sample packages of the celebrated "Schiffmann's Asthma Cure" will be given away at L. W. Randolph's Drug Store, 143 West Front street.

The doctor wants every sufferer from Asthma, Hay Fever or Bronchitis in this city to call and get one. When asked regarding his reasons for giving his remedy away in this manner, he said: "People are naturally skeptical about an asthma remedy, and when you consider the number of so-called 'cures' on the market you can hardly blame them. Now I claim that my Cure cures. It will instantly relieve the most violent attack. It has permanently cured thousands who had been considered incurable. If I did not believe it, why should I be giving it away? The sufferer who gets a sample package can tell in two minutes whether it is as I represent it, and it does not cost him a cent. That is fair, isn't it?"

It certainly does not look as if anything could be fairer. Those living out of town can get a free sample by writing and enclosing a 2c stamp to Dr. R. Schiffmann 370 Jackson Street, St. Paul, Minn., up to Sept. 23rd; not later.

Many Bargains.

Putnam & DeGraw, the enterprising and popular West Front street dry goods firm, is offering many bargains at this time. They have a most desirable line of bleach and unbleach table linen, hosiery, handkerchiefs, outing flannels, etc., all of which is offered at low prices. See the advertisement in The Daily Press.

Change of Notice.

On account of the special day of prayer, the mid-week service at the Congregational church will be held tomorrow evening instead of this evening and will be a memorial service. The meeting of the Woman's Association announced for tomorrow afternoon will be omitted.

BUSINESS ACTIVITY STILLED WHILE ALL HONORED MEMORY OF THE LATE PRESIDENT.

Great Crowds Were Present at the Memorial Services Held in the Morning and Evening

ALL LOCAL STORES AND FACTORIES WERE CLOSED.

SOME WERE CLOSED ALL DAY AND OTHERS BETWEEN THE HOURS OF 11 AND 4 O'CLOCK.

Trains and Trolley Cars Stopped at Hour of Funeral at Canton—Company K Fired Salutes All Day—Italian Society Observed Day in Its Own Way—All the Day in Mourning.

With the rest of the country, all business activity was stilled in city and borough, yesterday, and the day was given up entirely to united expression of the grief and sorrow felt by the whole community at the untimely and tragic death of William McKinley, President of the United States. Most of the places of business were closed all day, but the drug-stores, saloons and a few other establishments were opened for a few hours morning and evening. Hundreds of flags waved at half-staff while the Mayors' proclamations regarding mourning decorations were almost unanimously followed.

Two thousand people were accommodated at the union memorial services in the Crescent Avenue church and chapel yesterday morning, and fully a thousand more went home disappointed, unable to gain admittance to either. The services held were very impressive. Others held in the evening were largely attended.

Railroad trains and trolley cars stopped and bells tolled at the hour of the funeral at Canton, while the local militia fired regular salutes throughout the day. In many other ways was the memory of the martyred President honored in Plainfield and North Plainfield.

UNION MEMORIAL SERVICE.

A Great Congregation Gathered in Crescent Avenue Church Yesterday Morning.

The feeling of personal sorrow that has come to the hearts of the people of Plainfield in the tragic death of the late President McKinley, was unanimously expressed in a memorial service held yesterday morning at 10:30 o'clock in the Crescent Avenue church. Every seat in that edifice was taken and many people were obliged to stand throughout the entire service. There was a profound spirit of mourning evidenced and the Nation's loss came home to all in an impressive manner.

The church was appropriately draped for the solemn occasion. Suspended over the pulpit was a large American flag, over which was a suitable draping of black. The pulpit was entirely covered with draping of black, while in front there was a large wreath of galax leaves tied with a small American flag, and two stacks of arms, upon which was placed a draped American flag. There was also suitable draping in the choir loft and along the sides of gallery, while over the main entrance to the church outside there was draped an American flag with the emblem of mourning holding it in position.

During the silent moments just previous to the service, the measured step of the members of Winfield Scott Post, No. 73, preceded by the Independent Fife and Drum Corps playing an appropriate selection, could be heard in the distance. As the veterans entered the church the roll of the drum ceased and the organ, 'cello and violin took up the impressive strains of Chopin's Funeral March, while the veterans marched to the seats reserved for them.

Ward Stephens was at the organ, while Dr. Waldo played the 'cello and his son, Fullerton L. Waldo, played the violin. At the same time several pastors took their seats on the platform. They were Rev. Dr. D. J. Yerkes, Rev. C. E. Herring, Rev. J. W. Richardson, Rev. John MacMurray, Rev. J. O. McKelvey, Rev. A. C. Nickerson, Rev. Cornelius Schenck, Ph.D., and Rev. Dr. W. C. Snodgrass.

The service opened with a short invocation by Rev. J. W. Richardson, after which the church quartette sang effectively, "Crossing the Bar." Rev. A. C. Nickerson read a Scripture selection, then came the singing of "Lead, Kindly Light," by the congregation. Another Scripture selection was read by Rev. Cornelius Schenck, after which "Nearer My God to Thee," was sung by the quartette, the congregation joining in the last verse. Rev. Dr. Snodgrass offered a fervent and heart felt prayer in which he referred to the nation's sorrow in impressive words. The quartette sang "Blessed are the Departed Who in the Lord are Sleeping," from Spohr's oratorio of "The Last Judgment."

Rev. Dr. D. J. Yerkes, pastor of the First Baptist church, was asked to make the funeral oration. His words of eulogy found a response in the heart of every one present, and not a few were more than deeply impressed with his words concerning the late President.

Dr. Yerkes used no notes and spoke somewhat as follows:

"We have been called to this house of God in accordance with a proclamation issued by President Roosevelt. It is here that we can fittingly give expression to our feeling of sorrow. The first official act of our President was the issuance of a proclamation in memory of his predecessor who was taken away so suddenly. Today he stands beside the coffin of our beloved President, and in his official capacity as chief mourner he calls upon us to sorrow with him.

"Our hearts are sad and most willingly do we respond to the call. This Christian man has undoubtedly caught the spirit of the Psalmist, for here in this house we find consolation. His proclamation is not a mere formal thing. The President deplores deeply the way he has been elevated and he looks to the Lord God for refuge and strength.

"Our President is dead. Today all that is mortal of him is laid aside, and nearly eighty millions of people mourn. When a private citizen dies in the quiet seclusion of his own home he is mourned by a few. There have been men of note because of attainments to whom renown has come, to whom gorgeous monuments have been raised. There lie in England in the great Abbey, statesmen, poets and philosophers, but when the illustrious Queen died a thrill of sorrow went through this broad land. She seemed to be linked with all nations. Our leader and guide is dead and he, too, was linked to all and the blow to him hurt all. We sorrow with some because of sympathy, but every heart knows its own sorrow.

"Today this great nation stands with uncovered head and mute lips at this great tragedy. This sorrow has filled other lands, for Westminster Abbey and St. Paul's Cathedral speak forth their sympathy in unison.

"Our President filled a great place worthily. He came to the chair of State under peculiar circumstances. We could trust his wisdom. His plan of action was marked out by Congress and he followed it. War with Spain was declared and event after event followed, each time the nation moving forward for God and the country. There were new problems to be solved. Great as these problems were, they were settled and we were brought into peaceful waters.

"Mr. McKinley was a man of high character and was enabled to adjust the present to the future. His administration will ever be memorable in the history of America. Never before have we been so prosperous, never before has our flag been honored as today. He has impressed himself on the history of this country and will be written as one of the best of all Presidents.

"Had he died at the White House under normal conditions he would have been mourned, but his taking off by the hand of a brutal assassin, the same brutal hate that took the life of Cæsar, has brought a double sorrow. He was not struck down in defense of the Government, but for the purpose of overthrowing it. This awful condition of affairs will exist as long as these vipers are protected beneath the folds of our flag. Justice demands laws that will secure safety to every law-abiding citizen.

"The mystery of this tragedy is wonderful. I look to Christ to solve all mystery. We prayed for our beloved President for his recovery, but he was taken away. I can hear Christ say 'If it be possible, let this cup pass from my lips.' That prayer was not answered then, but it has been answered through all the ages. Our President said 'It is God's will; His will be done,' and as we stand by the silent grave all we can say is 'Thy will be done.'

"This Christian suffered, but has now gone to be with Christ. A few months ago he guarded tenderly his loved one. She now lives and may our prayers ascend to God in her behalf. Let us not forget him who now occupies the position of our departed friend. He needs God's strength and wisdom to guide him."

Rev. Dr. W. R. Richards, pastor of the church, then gave out a hymn which was sung by the congregation, after which the benediction was pronounced by Rev. John MacMurray, pastor of the Monroe Avenue church.

HOPE CHAPEL HONORED HIM

Many Were Present at Memorial Service Held at the Chapel Last Evening.

The same sorrowful spirit, which has characterized the feeling of the nation for the last few days, was manifested last evening in the large attendance at the memorial service held in Hope chapel.

The service was in charge of I. W. Travell, acting superintendent of the Sunday-school, who also delivered the address. The manifestation of sorrow in all parts of the world today, he said, is deeper than has ever been shown before. The nation mourned for Lincoln, it grieved for Garfield, but it has been overwhelmed by the assassination of McKinley. It is not so much for William McKinley, the President, but William McKinley the man. The spirit of Jesus Christ is reflected in the lives of great men and in his whole career, the Savior's presence has always been apparent. If in his death, the cause of Christianity is advanced or the word of God is extended, he will not have died in vain.

In conclusion, Mr. Travell invoked the Divine blessing on the new President and she who has been left behind a widow by the sad bereavement.

TRIBUTE BY A FRIEND.

Dr. Carroll Was Speaker at Congregational Church Memorial Services Last Evening.

An impressive service was held last evening in memory of the late President McKinley, at the Congregational church. The pulpit was appropriately draped in black and an American flag, in the centre of which was an excellent picture of the martyred President. Rev. C. L. Goodrich, who was in charge of the service, referred to an old American flag that formed a part of decorations. It was the camp flag of the Third New York Calvary during the Civil War and waved at the time of the assassination of President Lincoln.

The service began with the singing of "Lead Kindly Light," and after the reading of appropriate Scripture selections, Mr. Goodrich made a few remarks deploring the Nation's calamity.

"The Star Spangled Banner" was rendered in a minor key on the piano by Walter Raynolds. Following it, the words of an appropriate poem written by a member of the congregation to that music, were read by Miss Addie Parker Jackson.

After the congregation sang "Nearer, My God, to Thee," Mr. Goodrich introduced Rev. Dr. H. K. Carroll, of Westervelt avenue, who gave an informal talk of a personal nature concerning the late President. Dr. Carroll knew Mr. McKinley for many years, having met him at his home and at the White House a number of times. He said that the President was a modest man, a real man, no actor or hypocrite. He said that Mr. McKinley's beautiful character was not the growth of a night. From his youth he honored and loved his parents. The world has admired him for the untiring care of his wife.

He had the virtue of honesty, Dr. Carroll declared. He was unselfish in the strict sense. That he adjusted his relations with God was shown not only early in life, but throughout his whole life. Especially was this true at Buffalo, where his beautiful character was shown in his last hours. Dr. Carroll thought that in his dying moments he reminded all of Christ when on the cross.

The service closed with the singing of a hymn and the benediction by Rev. Mr. Goodrich. The music during the service was led by the Sunday-school quartette and Walter Raynolds was the pianist.

ROMAN CATHOLICS MOURNED

Low Mass Said at St. Mary's And St. Joseph's R. C. Churches Yesterday.

Low mass was said in both of the Roman Catholic churches, St. Joseph's and St. Mary's, yesterday. The members of these two parishes gave expression to the loss they had sustained by gathering in large numbers at the two consecrated edifices, both of which had been appropriately decorated.

The service at St. Mary's was conducted by the rector, Rev. Father Smyth, who, at the conclusion of the mass, delivered an eloquent panegeric on the departed leader of the American people. He dwelt upon the high character of the late President, and the homage which should be rendered to rulers, especially when they are of the type that McKinley was. He forcibly commanded his parishers to obey all civil authorities and pointed out the necessity of obedience to rulers in general. The children sang the President's favorite hymns.

Rev. Father Miller, the rector of St. Joseph's conducted the service in his church. Gan's low mass, in F, was sung, and the priest made an address on the life and death of Mr. McKinley. Special prayers were said by the congregation.

ITALIAN SOCIETY PARADED.

Thus Did They Honor the Memory of the Late President, William McKinley.

In a manner typical of the Italian race, the Societa Operaia Italianna Di M. S. Principessa Elena, of this city, observed the burial of the late President yesterday. The organization had engaged the services of the Garibaldi Band, of New York, and in the morning the society, led by these Italian musicians, held a street parade through the principal thoroughfares of the city and borough.

All along the line of march a large number of people turned out to witness the sight. At the head of the marchers, who moved at a slow pace, were Salvini Velard, the president, and Gaetin Dunn, the vice president of the fraternal order. The American flag, which was carried, was furled and tied with crepe. The National airs, dirges and sacred compositions were played, and the music was of an excellent quality. In the afternoon a memorial concert was given on Watchung avenue, just off East Front street.

AT BOROUCH HIGH SCHOOL.

Memorial Service Held There Yesterday Morning at Which Addresses Were Made.

A special memorial service was held by the pupils of the North Plainfield public schools, in the Somerset street school building, yesterday morning.

The members of the School Board, including the president, Samuel St. John McCutchen, R. M. Fountain, Henry A. McGee, James B. Joy, E. A. Overton, Dr. J. H. Cooley and George D. Hallock, were seated on the platform together with Mayor Newton B. Smalley, Rev. Dr. H. K. Carroll, Superintendent of Schools Homer J. Wightman and the principal of the High School, Miss Susie Glass.

Mr. McCutchen delivered a brief address on the nobility of the President's character. He besought the children to pay tribute to William McKinley, the man and the President, and to lay aside all thought political.

Rev. Dr. Carroll spoke on the William McKinley he had known. His

MAKERS OF JERSEY'S GOOD STREETS MET.

Monthly Session of Road, Street and Highway Association of New Jersey.

ENTERTAINED AT DINNER.

STREET COMMISSIONERS FROM ALL OVER STATE GATHERED.

Other City Officials Interested in Road Work Were Present—Visitors Afterwards Inspected the Roads Through the City.

A goodly proportion of the road builders, who have made Jersey highways a bye word all over the country, talked, feasted and saw sights in this city Wednesday afternoon.

The meeting was the regular monthly session of the Road, Street and Highway Association of New Jersey, an organization now in its infancy which promises to have long life. It was founded scarce six months ago at Paterson, N. J., and since then interesting meetings have been held Elizabeth, Trenton, Newark and elsewhere. Street Commissioner N. K. Thompson, of Elizabeth, is the president of the association and he presided at the meeting Wednesday afternoon.

When the session was opened, the members in attendance were City Engineer W. H. V. Reimer, of East Orange; City Street Commissioner Bernard Bayer, of Hoboken; Chief of Street Cleaning Department Frank D. Knoth, of Newark; Chief of Streets and Sewers J. C. Mundy, of Newark; Assistant Street Commissioner John Bainey, of Paterson; Street Commissioner A. J. Gavett and North Plainfield Borough Engineer Harry VanEmburgh, of this city, and John Rechstetter, of Newark and Charles H. Vass, of New York, agents for street cleaning supplies.

Letters of regret were received from Street Commissioner John Ginder and Assistant Street Commissioner Richard Newton, of Trenton; Street Commissioner Brett, of Paterson; Chief of Street Cleaning Department John R. E. McCrea, of Newark; Street Commissioner Thos. Magner, of Bayonne, and Street Commissioner Matthew Weisup, of Perth Amboy. After the minutes had been read it was ascertained that those who had been assigned topics for discussion were absent, and before the members could get down to regular business Street Commissioner Gavett moved that they adjourn to the dining hall of the Hotel Kensington, where the session was being conducted.

Gathered about the board, when the members sat down at the table, in addition to the members of the association, were Ralph I. Tolles, chairman of the City Common Council street committee, and Councilman James F. Buckle, representing Mayor Olin L. Jenkins. While they feasted the road makers discussed everything in the line of street construction and connected subjects. The best man-hole, the most practicable street cleaning machine, the effect of heat on cement, sewer beds, stone, storm sewers, rollers, and countless other matters of interest were touched upon and the views exchanged were of such a nature that they could not help being instructive to the members.

After the cigars were passed around and the usual selection of jokes told, the members of the association were driven over the principal thoroughfares of the city and given an opportunity of seeing what good results have been obtained by Plainfield's able street commissioner, A. J. Gavett. The next meeting will be held at East Orange sometime in October.

All the visitors expressed surprise at the excellent quality of the roadbeds and the general condition of the streets and were astonished at the results attained by the small appropriation made for the purpose.

Talk of New Quarters.

A number of city councilmen inspected Smalley Brothers, new building on North avenue, yesterday. There is some talk of the Common Council changing its quarters from the Coward building on Park avenue, and Smalley Brothers are endeavoring to lease the upper part of their new building. Many of the Councilmen favor the change.

Arm Fractured in a Fall.

Mrs. Keely, of LaGrande avenue, mother of John E. Keely, is suffering from a fractured arm, the result of a fall Wednesday. She slipped on the stairs at her home and fell nearly to the first floor. Dr. Hedges is in attendance.

GROUND TO PIECES BY FREIGHT TRAIN.

Lawrence F. Doyle, Foreman of Section Gang, Ground to Death Last Night.

FELL ACROSS THE TRACKS.

SUPPOSED HE WAS GOING HOME BY WAY OF THE RAILROAD.

Gruesome Sight First Discovered by Brakeman—Remains Taken to Cole's—Was Twenty-seven Years Old and Very Popular.

Lawrence F. Doyle, of East Fifth street, a young man who has spent nearly all his life on the rail or cars, met his death on the tracks of the New Jersey Central at 11:30 last night in the section over which he has been foreman for the past year. His mangled body, mutilated almost beyond recognition, was found lying a short distance east of the Watchung avenue bridge by the rear flagman of an eastbound freight who had started back to warn an approaching train. Every car on the freight, including engine and caboose, had passed over his body.

The horrified brakeman hastened to the North Avenue station and, securing the assistance of Patrolman Lunger, gathered together as much of the remains as was possible. It was a most gruesome task has hardly a part of the body had escaped the wheels. The limbs were severed, the trunk cut in half and the head crushed to a pulp. The parts were removed to Cole's undertaking establishment where they were viewed by the county physician this morning.

How Doyle came to be upon the railroad at the time he met his death, is a mystery to those who knew him. The general supposition is that he was about to take an old route home, as until a short time ago he resided on East Fourth street and always traversed the tracks to and fro. There was no need of his taking them last night, as he parted with a friend at the corner of East Fourth street and Watchung avenue, shortly after 11 o'clock, saying that he was going to his home on East Fifth street, near Washington street. He evidently altered his determination and returned to town, afterward proceeding home by the railroad.

Patrolman Lunger examined the freight engine and found evidence which leads to the belief that Doyle must have fallen in front of it. The engineer claimed to be going slowly at the time as he was about to shift some cars to the East Fourth street siding, and if the man had been upright he would have been thrown to one side.

Doyle was twenty-seven years old and has been employed by the New Jersey Central for a long time, as has also his father and two brothers. Up to a year ago he was switchman at the Church street crossing and a more popular man was not to be found on the road. On the transfer of Section Foreman Higgins from this vicinity he was promoted to that position, retaining it until the time of his death. He was a member of Paughsaughnaughsinque Tribe of Red Men and was made sachem at the last election. In addition to his parents, Mr. and Mrs. David Doyle, he is survived by four brothers, William, David, John and Thomas Doyle, and one sister, Miss Annie Doyle. The family resides on East Fifth street.

Arrangements for the funeral services have not yet been completed.

McKinley The Man.

A special memorial service for the late president will be held at Warren chapel Sunday evening, commencing at 8 o'clock. Rev. Dr. H. K. Carroll, the commissioner to Porto Rico, under the late President, will speak on "McKinley the Man." Members of the G. A. R. are invited to attend.

Bug Lodged in Ear.

A large bug, which had become imprisoned in the ear of Elizabeth Heubner, the four-year-old daughter of Mr. and Mrs. Adam Heubner, was removed Tuesday afternoon by Drs. Davis and Hallock. The bug had caused the child much pain during the two weeks it was lodged in the ear.

Injured His Arm.

While at work in the Pond Machine Tool Company's plant Tuesday afternoon, Edward E. Varney, of Somerset street, severely lacerated his arm. He is unable to work.

—The end of the peach season is approaching, but Neuman Brothers still continue to receive choice consignments. Two hundred and fifty baskets of the best yellow and white fruit, suitable for table and canning purposes will be on sale tomorrow.

MUCH FALL ACTIVITY IN BUILDING CIRCLES.

Demand So Great That Contractors Find Difficulty in Getting Enough Men.

MORE WORK IS IN SIGHT.

A NUMBER OF LARGE CONTRACTS NOW UNDER WAY.

A Number of New Buildings Are Seen to Start—Most of Them Are Residences—Workmen Are Now in Demand.

There has been remarkable activity in the trades connected with building operations during the summer months, and while there has not really been a boom, nevertheless, the contractors have been kept busy constantly. Judging from the applications filed with Building Inspector T. O. Doane there appears to be no let-up in the amount of business.

Considerable difficulty has been experienced at times by the contractors and sub-contractors in obtaining the services of sufficient mechanics to perform the needed work. Every qualified painter, carpenter and mason has had steady demand for his services. Some of the operations have been on a large scale. The glove factory, on Washington avenue, the Lincoln residence, on West Eighth street, the Smalley Brothers' building, on North avenue, and the extensions at the Pond Machine Tool Company Works have been among the notable instances where large forces of workmen have been employed. Numerous jobs of an unimportant sort have also served to keep the mechanics busy. Many additions have been made to residences in this city as well as in the borough. Building Inspector Doane says that the outlook is quite promising, and that the mechanics will have plenty of work to engage their attention for some time to come.

Within the last few days a number of permits have been granted. Mrs. Mary Skillman, of Belmont avenue, has received permission to erect a frame dwelling house on the east side of Netherwood avenue near Midway avenue. The structure will consist of two stories and an attic and the estimated cost is $2,000. C. E. Doane is the architect and carpenter for the building and J. W. Munday, the mason. Mrs. Anna Lloyd, of East Sixth street, has also been granted a building permit to erect a frame dwelling on the north side of Thornton avenue near Park avenue. It will be two stories in height and will also have an attic. The estimated cost of construction is $1,600. William Lloyd has been selected to do the carpenter work. J. H. Snyder has been employed as mason.

A large brick building has been planned by Charles H. Hall, of East Fifth street, which he will erect on Watchung avenue near East Fifth street. It will be a brick structure three stories in height and will cost $10,000. The first floor will consist of two commodious stores, one to be occupied by Mr. Hall, himself, as a drug store, and the other to be leased as a barber shop. The second and third stories will be flats. Edward V. French is the architect. John Abbott, the carpenter, and Seaman Williams, the mason. The building will be in every respect a substantial and modern structure.

Announcement of Engagement.

Mr. and Mrs. Arthur St. Clair Butler, of Richmond, Va., have announced the engagement of their daughter, Miss Maude Butler, to Charles Burton Ford. The engagement is of interest to Plainfielders in that Mr. Ford is a grandson of Charles W. Burton, of Watchung avenue. Miss Butler is a young woman of exceptional beauty and both she and Mr. Ford are very popular. The marriage will take place Wednesday, October 16, at Richmond.

New Offices For Architect.

E. V. French, architect, has removed his office from the Babcock building to No. 143 North avenue, where he has a large and well-lighted room to carry on his business.

Ice Cream Festival.

An ice cream festival will be held at the chapel of Grace Episcopal church, tomorrow evening, under the auspices of the Gethsemane Swedish Lutheran church.

Ground Broken.

Ground has been broken for C. H. Hall's new drug store on Watchung avenue, near East Fifth street. Edward V. French is the architect.

Dr. J. E. Donielson, of St. John's place, Brooklyn, and W. H. Brown, also of Brooklyn, spent yesterday at the home of A. L. Force, Duer street.

TEA TABLE TALK.

Short and Gossipy Sketches That Are Not Always News, But Just as Interesting.

It was thirty-seven years ago yesterday that the then Major McKinley was on the firing line of Sheridan's famous charge at Winchester. Engaged in the conflict on that memorable day were four future Presidents of the United States—Hayes, Garfield, Harrison and McKinley—now all dead. Thirty-seven years afterward William McKinley was buried a martyr, after serving his countrymen as a soldier, citizen, statesman and President.

* * * * *

There is a little story connected with the tolling of the fire alarm bell announcing the death of the President. Chief Marshal Campbell on hearing the news rushed to the Warren Engine house to sound the alarm of the sad tidings. For some reason he could not toll the alarm from there. At last, not finding any means to ring the bell, he woke Andrew Carney up and obtained a large hammer from the latter's shop. With this he mounted the high ladder leading to the bell. When well up to dizzy heights he raised himself up on his tip toes and struck the bell fifty-eight times in slow succession.

GUESTS STILL COMING.

Popularity of the Hotel Netherwood Still Continues to Attract a Number of Guests.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

After having in vain tried almost every known remedy, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Astamalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler, Rabbi of the Cong. Bnai Israel. NEW YORK, Jan. 3, 1901.

DRS. TAFT BROS.' MEDICINE CO.,

Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. Very truly yours,

REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., February 1, 1901.

DR. TAFT BROS. MEDICINE CO.:

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO.: February 5, 1901.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street.

LAST SAD RITES.

A Hundred Thousand People Pay Tribute In Canton.

NATION'S CHIEF AT REST

Mrs. McKinley Was Unable to Attend the Services.

IMPOSING FUNERAL PROCESSION.

Home City of President McKinley Taxed to Its Utmost by the Throng of Mourners—Simple Services at Methodist Episcopal Church. Attended by Distinguished Men of the Nation—Remains Laid at Rest In West Lawn Cemetery.

CANTON, O., Sept. 20.—With majestic solemnity, surrounded by his countrymen and his townspeople, in the presence of the president of the United States, the cabinet, justices of the United States supreme court, senators and representatives in congress, the heads of the military and naval establishments, the governors of states and a great concourse of people who had known and loved him, all that is mortal of the third president to fall by an assassin's bullet was committed to the grave.

It was a spectacle of mournful grandeur. Canton ceased to be a town and swelled to the proportions of a great city. From every city and hamlet in Ohio, from the remote corners of the south and from the east and west the human tide flowed into the town until 100,000 people were within its gates, here to pay their last tribute to the fallen chief.

The final scenes at the First Methodist church, where the funeral service was held, and at the beautiful West Lawn cemetery, where the body was consigned to a vault, were simple and impressive.

The service at the church consisted of a brief oration, prayers by the ministers of three denominations and singing by a quartet. The body was then taken to West Lawn cemetery and placed in a receiving vault, pending the time when it will be finally laid to rest beside the dead children who were buried years ago.

The funeral procession was very imposing and included not only representatives of the army and navy of the United States, but the entire military strength of the state of Ohio and hundreds of civic, fraternal and other organizations. It was two miles long.

One of the most pathetic features of the day was the absence of Mrs. McKinley from the funeral services at the church and from the cemetery when the body of her husband was laid to rest. Since the first shock of the shooting, then of death and through the ordeal of state ceremonies she had borne up bravely. But there was a limit to human endurance, and she was too weak to pass through the trials of the final ceremonies. Through the open door of her room she heard the prayer of the minister as the body was borne out of the house. After that Dr. Rixey remained close by her side, and although the full force of the calamity had come upon her it was believed by those about her that there was a providential mercy in her tears, as they gave some relief to the anguish of the heart within.

At 7 o'clock last night President Roosevelt and the members of the cabinet started back to Washington.

The scene within the church when the casket was carried in on the brawny shoulders of the soldiers and sailors was profoundly impressive. A black border twenty feet high, relieved at intervals by narrow white bands falling to the floor, swept completely around the interior. Only the gilt organ pipes back of the pulpit rose above it. The vestibules on either side of the chancel leading into the church were black tunnels, stained glass windows on either side were framed in black, and the balcony of the Sunday school to the rear, thrown open into the church by large sliding doors, was shrouded in the same somber color. Graceful black streamers festooned along the groined arches of the nave formed a black canopy above the chancel. From this, directly above the low flag covered catafalque on which the casket was to rest, hung a beautiful silk banner, its blood red and snow white folds tied midway with a band of crape.

But it was the floral display at the front of the church which filled the whole edifice with glory. The center of it all was a great wreath of American Beauties framing a black bordered portrait of President McKinley. From it, extending outward and upward, was a perfect wealth of gorgeous blossoms. The effect was as if a great rushing wave of color had broken into flowers at the foot of the bier. They extended up even to the organ pipes, against which lay four wreaths, there broken as if to represent the quarters of the moon. It was exquisite. Words melt away powerless before the tender beauty. Purple and green were the dominant notes—orchids, violets, palms and evergreens against the somber background.

There were many handsome pieces. Against the walls on either side were floral flags, and upon the pulpit rested an urn in white carnations, broken at the base to represent the water flowing from it. At either side of this urn were the cross of the Knights Templars and the crown of the Knights of Pythias, while to the east were the square and compass of Masonry. Almost directly above the support for the coffin a sunburst of lights glittered like brilliant stars in a black sky. The light without came dimly through the stained glass windows. Under the quivering folds of the starry banner, with the light shedding their effulgence from above, the fragrance of the flowers hovering all about and the music of Beethoven's grand funeral march pulsing from the organ, the body bearers gently lowered the flag draped and flower adorned coffin to its support.

The members of the Loyal Legion, Governor Nash of Ohio, Governor McMillan of Tennessee and Governor Longino of Mississippi, each with his full uniformed staff, had already entered the church from the west entrance and had filled up

the most westerly of the sections of pews. The members of the senate and the house of representatives had preceded the coffin through the door at the side of the chancel through which it entered. They were ushered in, as at all state ceremonies, by the sergeant at arms of each body.

The congressional party filled up the entire east section of pews and the rear half of the two central sections. The local clergymen occupied the seats below the organ usually occupied by the choir. All had risen as the coffin was borne in. The generals and admirals of the army and navy, who comprised the guard of honor in their resplendent uniforms, followed the body and occupied the first pew on either side of the center aisle. President Roosevelt and the cabinet came slowly after. All were in black and wore black gloves. The president alone had on an overcoat. He took his place immediately behind Lieutenant General Miles next the center aisle in the second pew to the eastward. So close was he to the coffin he could almost have leaned over and touched it. Secretary Cortelyou, Justice McKenna of the supreme court, John M. Milburn and John N. Seatchard of Buffalo and several others took seats immediately in the rear of the cabinet. Then followed the mourning relatives, who occupied the tier of pews in left of the center aisle.

After these had been seated the door leading into the Sabbath school was opened, and the seats arranged below as well as those in the balcony were soon filled with the representatives of various organizations and the fellow townsmen of the martyred president. Conspicuous among these were the survivors of the Twenty-third Ohio, President McKinley's old regiment, who brought into the church the tattered battleflags the regiment had carried throughout the civil war.

It was after 2 o'clock when the quartet arose and lifted up their voices with the touching words of "Beautiful Isle of Somewhere." When the sound of the last line had died away, Rev. O. B. Milligan, pastor of the First Presbyterian church, in which President and Mrs. McKinley were married thirty years ago, offered a fervent prayer. Every head within the church bent in solemn reverence as the invocation went up.

Dr. John A. Hall, pastor of the Trinity Lutheran church, then read from the Bible the beautiful nineteenth psalm and Rev. E. P. Herbruck verses forty-one to fifty-eight of the twenty-fifth chapter of I Corinthians. With great feeling he read the inspiring words telling of the mystery that all would not sleep, but all would be changed.

The quartet then sang Cardinal Newman's grand hymn, "Lead, Kindly Light," the beautiful melody flowing through all the church.

Dr. C. E. Manchester then delivered an address, which lasted twenty-four minutes, on the life of the late president and the lessons taught by his noble character and death.

Bishop I. W. Joyce of Minneapolis followed with a brief prayer, and the services were concluded with the singing of the hymn which President McKinley repeated on his deathbed, "Nearer, My God, to Thee, Nearer to Thee." The entire congregation arose and joined in the last stanza. Father Valtman of Chicago, chaplain of the Twenty-ninth infantry, pronounced the benediction. Then the notes of the organ again arose. The coffin was taken up and borne from the church. The relatives and those in official life went out in the order they had entered.

The line of the funeral march from the church to the cemetery was about one and a half miles in length. The route was north on Tuscarawas street from the church to Lincoln street, west on Lincoln street and Third street and north one square to the gates of the cemetery.

For hours before the time set for the commencement of the funeral exercises at the McKinley home the streets along the entire length of the line of march was crowded with spectators. From the gates of the cemetery to the doors of the church there was on each side of the street an almost unbroken line of soldiers, and on all the intersecting streets detachments of militia were posted about 100 feet from the thoroughfare upon which the cortege was to go, and nobody was permitted to pass in either direction.

There was not a window that commanded a view of the line of march that was not filled with faces, the numerous stands were crowded to their utmost capacity, and on the roofs were hundreds of people. From 9 o'clock in the morning until 5 in the afternoon, by which time the last of the parade had passed the church on its way to the cemetery, this condition prevailed.

All day long the streets were kept clear by the military, and not a vehicle of any kind save those belonging to the funeral cortege was permitted to enter upon them.

Notwithstanding the dense crowds, there were no accidents of any kind reported.

No greater reverence has ever been shown to any man, living or dead, than was exhibited toward the dead president yesterday. As the funeral car passed through the streets men and women sobbed convulsively, and at the cemetery gates, where the crowd was densely packed and where the people had remained for hours pressing against the iron fence, two women fainted during the exercises at the vault.

It was a wonderful tribute of surpassing love that was rendered in his native place to the memory of William McKinley, and it will be long before greater or more reverent honor is paid to any man.

It was exactly 4:04 o'clock when the funeral car bore the remains of the dead president through the gateway of his last resting place. Twenty minutes after that time the brief services at the vault were over, and the members of the family and the distinguished men of the nation who had come so far to do him honor had passed through the gates on their homeward way. One hour and forty minutes after the hearse had entered the cemetery the place was clear, and the dead president was resting alone under the watchful care of men of the regular army.

For nearly an hour before the head of the funeral procession arrived at the gate of the cemetery the strains of the dirges played by the bands came over the hilltop to the watchers by the vault telling them that the procession was on its way. Finally, at 3:30 o'clock, the detachment of mounted police heading the parade came slowly around the corner of Lincoln street and passed up West Third street to the cemetery gates. Behind them came the Grand Army band of Canton, and the solemn notes of "Nearer, My God, to Thee," swelled out as it came up the driveway. A moment after entering the cemetery the music was changed to Chopin's "Funeral Interlude," and it was to the sound of this that the band passed out and on to Kentucky avenue at the south side of the inclosure.

Behind the band came the Grand Army posts, fully 500 of the veterans marching by. As they passed along the flower strewn path many of them were weeping bitterly, and they stooped by dozens to gather the blossoms which lay at their feet and carried them away as mementos. The sweet pea blossoms that were scattered along the road were the offering of the school children of Nashville, Tenn., and no tribute of love that was sent during the funeral exercises more amply fulfilled its mission or more completely carried its message of affection.

After the veterans came in well set ranks, with rifles at "arms port," the men of the Sixth infantry of the national guard, the engineer corps of the national guard from Cleveland and the comrades of the late president in the ranks of the Twenty-third Ohio volunteers during the civil war.

Then came a long line of carriages bearing the members of the family and the distinguished visitors. From the first carriage that stopped at the foot of the walk leading up to the vault President Roosevelt and Commander Cowles of the navy alighted. Without waiting for those in the second carriage, which contained Secretaries Root and Gage and Attorney General Knox, the president walked slowly toward the vault and took a position on the south side of the walk close to the door. As Secretary Root came up the walk he assumed a similar position on the north side of the walk, and the other members of the cabinet ranged themselves by the side of the president and secretary of war. With bared heads the president and members of the cabinet, who were followed by the officers of the army and navy, stood on each side of the walk, the lines reaching just to the edge of the roadway.

Within a minute after the formation of the lines the funeral car came up to the walk. The coffin was lifted from the hearse and borne to the door of the vault, where it was rested upon the catafalque. It was carried by the same men of the army and navy who have carried it ever since it left Buffalo. Before them as it came up the walk walked Colonel Bingham, who had been aid to President McKinley. At its head on the right walked Lieutenant Hamlin of the army, and in a corresponding position on the left Lieutenant Eberle of the navy.

Just as the bearers lowered the coffin to the catafalque Abner McKinley and Mrs. Barber alighted from their carriage and stood at the foot of the line of officers. They remained there for a few seconds and then passed up to the foot of the casket, where they remained during the brief services.

There was a moment's pause as Colonel Bingham looked to see that all was in readiness. He then looked toward Bishop Joyce of Minneapolis, who read the burial service of the Methodist church slowly, but in a voice that could be heard distinctly by all who were grouped around the vault. As his words ended there was a brief pause, for it had been understood that a quartet of the Knights Templars was to be present to render a hymn. Through a misunderstanding, however, it had not arrived, and after satisfying himself of this fact Colonel Bingham waved his hand to eight buglers of the Canton band who had taken station upon the side of the mound above and to the south of the vault. Instantly from the eight bugles rang out the notes of the soldier's last call, "Taps." It was beautifully done, and the last notes of the buglers died away so softly that all who heard it remained listening for a few seconds to hear if it was really ended.

As the head of the division containing the Knights Templars wheeled into the cemetery the quartet that had been delayed in reaching the place for the previous ceremonies took up a position to the south of the vault and sang "Farewell, My Brother." This hymn was followed by others, including "Rock of Ages," "The Christian's Good Night" and "The Wayside Cross." The selections were beautifully rendered, and no part of the funeral ceremonies in Canton was more impressive. The darkness was gathering fast as the Knights sang on, and many in the multitude around the casket were moved to tears, and the sound of sobs was distinctly audible in the crowd that lined the fence beyond the line of national guardsmen.

The guard that will have the honor of guarding the bier of the late president is Company C of the Fourteenth infantry regiment.

Nature has been kind in selecting the last resting place for President McKinley. West Lawn cemetery is on a high knoll overlooking the peaceful valley, with the busy little city of Canton laid out below. If it were not for an intervening church spire, one might get from this elevation a glimpse of the McKinley home. Here, looking out on his native city and his native state, the body of Mr. McKinley is laid to rest. The beauty of the grounds had attracted the attention of the country's best landscape gardeners, who have journeyed here to study its attractions. Yesterday it was doubly beautiful, with the rustling trees giving off their first yellow leaves of fall and adding a golden touch to the green clad slopes.

Just inside the stately entrance stands the gray stone vault where for a time the casket will repose. Its dreary exterior was relieved yesterday by great masses of flowers banked all about and above until the gray walls were shut out from view. But in due time it will be taken from the vault and committed to the little plot of ground lying farther on. This is the McKinley lot, and here lie his father, whose name he bore; the mother he guarded so tenderly in life, his brother James, his sister Anna and his two children. And when that time comes a stately shaft of granite will arise above the grave, telling of the civic virtues, the pure life and the martyred death of William McKinley.

Never before on this continent has such a floral display been seen at any public occasion as that in West Lawn cemetery. The vault was lined with the rarest and costliest flowers, a multitude of floral pieces was spread on the ground before the door of the vault, and for 100 feet to the right and left of the doorway and for half as many feet to the rear of a line passing through the front wall it was impossible to tread, so thickly did the tributes lie. Nearly every country on both hemispheres was represented by an offering. The number of those from the United States is almost past counting. They came from every state in the Union, and there is scarcely a man in public life whose tribute of respect for the virtues of William McKinley did not lie beside his coffined remains.

The inside of the vault was literally a mass of roses and orchids when the casket was carried into it, and the outside walls were well nigh hidden beneath the profusion of flowers hung upon them. Above the doorway hung an enormous wreath of dark green galax leaves. Over the right corner of the vault was a similar wreath, the leaves being a deep red. In a corresponding position on the other side was hung a wreath of ivy.

The great wreath in the center was the offering of the Italian government and the king of Italy and was one of the handsomest pieces seen. Upon a great streamer of black satin which swung from the mass of deep green leaves was the following inscription: "Requiem Eternam Dona el Domine." Beside the black streamer floated one of red, white and blue, the colors of the United States, and another of red, white and green, the colors of Italy.

Standing a short distance from the vault to the south was a small cradle covered entirely with white and purple asters. On its sides were worked in purple immortelles the word "Niles." This was said to be the cradle in which President McKinley had been rocked during his infancy in Niles, O.

Hope For Mrs. McKinley.

CANTON, O., Sept. 20.—The friends of Mrs. McKinley do not regard her as being upon the verge of a collapse. On the contrary, they express themselves as quite confident that she will be spared to them for a long time in at least as good a state of health as she has enjoyed for the last five years. Dr. Rixey said late last evening: "Mrs. McKinley is bearing up as well as could be expected under the circumstances. She has been and is still suffering intensely from her bereavement and has frequently given way to sobs and tears, but for all that she has been doing as well as any woman could do under similar circumstances."

Chicago Hushed While Mourning.

CHICAGO, Sept. 20.—The noises of a great city were hushed and its commerce suspended for a few moments while mourning thousands paid their last tribute to the memory of William McKinley. The silence was broken alone by muffled bells tolling off the fifty-eight years of the dead president's life. During the forenoon services were held in nearly all the churches. A big memorial meeting was held at the Auditorium in the evening.

Great Meeting at Kansas City.

KANSAS CITY, Mo., Sept. 20.—Fully 25,000 people in the great auditorium at Convention hall lifted their voices in loving tribute to the memory of President McKinley. The building was taxed to its utmost capacity, and 20,000 people were turned away unable to gain admission to the hall. It was the greatest public demonstration ever witnessed in this city. G. A. R., Confederate and Spanish war veterans, schoolchildren by the hundreds and people from all walks of life participated.

THREE SCORE DROWNED.

British Torpedo Boat Founders In the North Sea.

LONDON, Sept. 20.—The torpedo boat destroyer Cobra has foundered in the North Sea, the result of an explosion. The ship was en route from the yard of her builders, the Armstrongs of Newcastle, to Portsmouth.

Corrected figures as to the Cobra show that she had seventy-nine souls on board. For sixty-seven no hope is held out, but torpedo boats and cruisers have gone at full speed to the scene of the disaster, which is the most serious the British navy has suffered since the sinking of the Victoria.

Lieutenant Bosworth Smith, the Cobra's commander, stood upon the bridge with his arms folded, as impassive as if on parade, and went down with the vessel.

Goldman at Memorial Services.

CHICAGO, Sept. 20.—Emma Goldman attended memorial services held in honor of the memory of President McKinley. It was not of her own volition that she was present at the demonstration of sorrow, and the few hours at the services she appeared to show lack of sympathy. The ceremonies at which Miss Goldman was present were held in the woman's ward of the county jail. Rev. E. A. Larrabee of the Church of the Ascension conducted the services, and 200 prisoners participated in them. Many of the prisoners manifested great grief as the services proceeded. Miss Goldman alone remained unmoved.

Ocean Records Broken.

NEW YORK, Sept. 20.—The new French line steamship La Savoie, which left this port, clearing the Sandy Hook lightship at about 11:58 a. m., on Sept. 12, was reported by cable to have arrived at Havre at 6 a. m. yesterday. Her record for the passage, therefore, is about 6 days, 13 hours and 2 minutes. This is the quickest time between New York and Havre ever made by any steamer. On her maiden voyage to this port La Savoie's time was 6 days and 11 hours. La Savoie therefore holds the record for both the westbound and eastbound passages between the ports of New York and Havre.

The Czar In France.

COMPIEGNE, France, Sept. 20.—Emperor Nicholas of Russia passed a day full of interest. The morning was spent in witnessing the final operations of the grand western maneuvers, at which the czar for the first time came into contact with the French army operating under war conditions and not merely in parade uniform.

Collapse of a Ferris Wheel.

FLINT, Mich., Sept. 20.—Seven people were hurt, one probably fatally, by reason of the collapse of a Ferris wheel at the Genesee county fair grounds here. The wheel was loaded with sixteen people when it crashed to the ground. The owner of the wheel fled after the accident and cannot be located.

Propeller Hudson Reported Lost.

BUFFALO, Sept. 20.—So far as can be learned here the propeller Hudson of the Western Transit line, reported lost in Lake Superior, was manned by a crew of twenty-four men. No official record of the names of the crew is kept in the Buffalo office of the company.

Weather Probabilities.

Fair, with rising temperature; light northeast to east winds.

CONDENSED DISPATCHES.

Serious forest fires in Boulder county, Colo., threatened heavy loss.

Boers captured 200 British troops and three guns at Scheeper's nek.

The Transalaskan Railway company was incorporated to build a line connecting by ferry with the Transsiberian railway.

MEMORIAL SERVICES HELD ABROAD.

In Every City and Town In the United States Church Ceremonies Were Held and Secular Employments Given Up During the Funeral.

WASHINGTON, Sept. 20.—Twenty years after the death of Garfield the nation's capital was again in mourning, the wheels of government were locked and the voices of the people were uplifted in prayer for the soul of William McKinley, while his mortal remains were being committed to the tomb in his Ohio home. There was no need of a proclamation to insure a proper observation of the sad event here. Everywhere were to be seen badges of mourning, and on every flagstaff the national ensign was at half mast. Private and public business was absolutely suspended, and every face showed signs of sadness. The city gave evidence in most impressive manner that its heart was with Canton in the solemn hour of President McKinley's funeral.

At exactly half past 2 o'clock (half past 1 in Canton) the city ceased from labor, practically from locomotion, for five minutes. There was no official proclamation requiring such observance of the funeral hour nor had there been any general agreement for such observance. But when the hour came as if by common instinct men, women and children, white and black, came to a sudden halt in whatever they were engaged and sat or stood as still as statues wheresoever they chanced to be.

It was a beautiful contribution to the nation's breath of prayer, and it is safe to say that Washington never before in its history beheld so unique and striking nor so spontaneous and unconventional a token of respect and love for any man.

In every city and town in each state of the Union memorial services were held for President McKinley. All the principal cities had special ceremonies at which men noted in church and state delivered eulogies telling of the virtues and achievements of the dead president.

New York's Millions Mourn.

NEW YORK, Sept. 20.—Four millions and more of people of Greater New York paid their last sorrowful homage to the memory of the dead ruler of the nation, William McKinley. From one end of the city to the other the fluttering of mourning emblems and half masted stars and stripes gave eloquent evidence of the people's grief. Every business house, the Stock Exchange, the schools, the public offices and places of amusement were closed in respect of the memory of our martyred president. The churches only were open, where prayers for the dead were offered up by the saddened multitude and where eulogistic tributes to the grand and noble soul were poured out. The streets were blocked with great crowds of serious looking people, who soon filled the churches to overflowing, and when the organs pealed out the favorite tunes of the dead, "Lead, Kindly Light," and "Nearer, My God, to Thee," there were no dry eyes in those vast concourses, and only sobs broke the melody of those beautiful songs. At 3:30 o'clock and for a period of five minutes there was a complete cessation of every kind of business and industry. At that hour not a wheel turned in shop, factory or power house. Every street car, every engine, every train, came to a standstill. The numerous craft in the rivers and bay stopped their engines and floated idly with the tides, another silent tribute to the memory of the dead.

At Virginia's Capital.

RICHMOND, Va., Sept. 20.—All Richmond was in mourning for President McKinley. The capitol and city hall were draped and four memorial services were held. The constitutional convention heard eloquent eulogies by Governor Tyler and many members of the convention and others. At Centenary Methodist church all denominations united in a religious service. At the Richmond Locomotive works the employees had their own memorial services, and at the Masonic temple the Knights Templars held their commemorative service. No holiday is more universally observed than was this day of mourning. Reports from all over the state tell of exercises in keeping with the executive proclamations.

At Philadelphia.

PHILADELPHIA, Sept. 20.—Philadelphia's tribute to the martyred president was paid last night at a great memorial meeting in the Academy of Music. The big auditorium was packed from pit to dome. So great was the crush both within and outside the building that the spacious Horticultural hall, adjoining the academy, was thrown open for an overflow meeting. Distinguished men of the city from every walk of life were either in the audience or on the stage. Tributes to the dead, beautiful in their every sentence, were pronounced by men in high station. Mayor Ashbridge presided and delivered a short opening address.

Memorial Services In Great Britain.

LONDON, Sept. 20.—By command of King Edward a memorial service in honor of the late President McKinley was held in Westminster abbey. It was attended by many Americans and Englishmen of distinction. From all parts of Great Britain, the British colonies and the continent came telegrams giving evidence of the universality of the sympathy for the people of the United States in their great affliction. The great cathedrals of Canterbury, Edinburgh, Dublin, Glasgow and other cities and the churches of all denominations throughout the land were filled with congregations, generally headed by the mayors and corporations.

Services In Brazil.

RIO DE JANEIRO, Sept. 20.—The memorial service in honor of the late President McKinley held in the Methodist church on Baependy street, this city, was very imposing. The church was simply decorated with bands of crape and flowers. In front of the organ was a fine portrait of Mr. McKinley between American flags and folds of crape. In San Paulo, capital of the state of San Paulo, a similar service was held, at which the president of the state and all the members of the state government were represented.

Services at St. Petersburg.

ST. PETERSBURG, Sept. 20.—Under the auspices of the United States ambassador, Charlemagne Tower, impressive memorial services in honor of President McKinley were held at 3 o'clock yesterday afternoon in the British-American church. The pastor, the Rev. Alexander Francis, officiated, assisted by Drs. Kean, Kilburn and Key. Among those present were the Grand Duke Vladimir Alexandrovitch, the Grand Duchess Maria Pavlovna and the Grand Duke Boris Vladimirovitch.

In Nebraska.

LINCOLN, Neb., Sept. 20.—Memorial services for the dead president were held at the Lindell auditorium, into which more than 5,000 people crowded, while as many more clamored for admission. Overflow meetings were held at two churches. There was almost an entire cessation of business throughout the day. The auditorium services consisted of music, prayer and eulogies. Governor Savage presided, speaking briefly, and was followed by William J. Bryan and others.

Mourning In the Philippines.

MANILA, Sept. 20.—There were impressive civil, military and naval observances here in honor of the late President McKinley. The mourning was universal. Most of the business houses were closed. After a service at the palace the military escorted the officials to the Luneta, where all the available troops, sailors and marines were assembled, and paid honors to the late president in the presence of thousands of spectators. The fleet at Cavite saluted.

Canadians In Mourning.

TORONTO, Ont., Sept. 20.—Yesterday was observed as a day of mourning for the late President McKinley. In accordance with instructions from Ottawa the schools and courts in Toronto and other cities were closed. Memorial services attended by crowds were held by the leading churches, where eloquent tributes were paid to the many great qualities of the martyred president, and his favorite hymns were sung.

Memorial Services In Germany.

BERLIN, Sept. 20.—Memorial services were held in this city and in various German cities. Those in Dresden attracted a large attendance of the highest official society and the Anglo-American colony. The king of Saxony and the royal princes were represented by their respective court marshals, and among those present were the members of the Saxon cabinet.

Services In Havana.

HAVANA, Sept. 20.—The memorial service for the late President McKinley held in the Tacon theater, which was crowded, was attended by many Americans. The stage was beautifully decorated with black draperies all around and cocoanut branches behind. In the center was a catafalque surmounted by a broken column.

Newfoundland In Sympathy.

ST. JOHN'S, N. F., Sept. 20.—The funeral of the late President McKinley was recognized here by the half masting of all flags on government, civic and other buildings as well as by a general display of similar emblems of respect by shipping, business concerns and private citizens. Expressions of sympathy were universal.

Romans Join In Prayer.

ROME, Sept. 20.—The memorial services in honor of President McKinley held at the American church were attended by Signor Prinetti, the minister of foreign affairs, and other cabinet ministers, the local authorities and the American colony. The municipal guards mounted a guard of honor outside the building.

Memorial Services In Paris.

PARIS, Sept. 20.—A memorial service was held in honor of the late President McKinley in the American church on the Avenue de l'Alma. The attendance included the United States embassador, Horace Porter, and the staff of the United States embassy and many prominent Frenchmen.

In Every Town In Porto Rico.

SAN JUAN, Porto Rico, Sept. 20.—Appropriate memorial services were held in every town of Porto Rico. The gathering at the theater in San Juan was very large. A dozen of the most prominent speakers, representing all parties, delivered addresses of eulogy and sympathy, which was received in mournful silence.

Services In Mexico.

CITY OF MEXICO, Sept. 20.—A solemn memorial service in honor of the late President McKinley was held in Orrins hall. This immense edifice was filled with prominent Mexicans and foreign residents. The great interior was draped in black and fittingly decorated. The exercises were very impressive.

In Mississippi.

JACKSON, Miss., Sept. 20.—All federal, state and city offices and most of the business houses closed out of respect to the memory of the late president. The churches at which memorial services were held were well filled. Beautiful tributes were spoken by Lieutenant Governor Harrison and others.

In Tennessee.

NASHVILLE, Tenn., Sept. 20.—There was a practical suspension of business here in honor of the late president. All of the state, county and federal offices were closed. Memorial services were held in the churches and public schools. The observance was general throughout the entire state.

In Alabama.

MONTGOMERY, Ala., Sept. 20.—Memorial services were held here and generally throughout the state as a tribute to the memory of President McKinley. The state capitol was closed, and all business houses closed their doors in the afternoon. A salute of twenty-one guns was fired.

Mourning In Far India.

BOMBAY, Sept. 20.—Yesterday was observed as a day of general mourning for President McKinley throughout India. All the public offices, banks and stores were closed. Services were held at all the central cities.

In South Carolina.

COLUMBIA, S. C., Sept. 20.—Business was suspended generally in South Carolina towns and cities. At noon bells tolled and congregations gathered to honor the memory of the dead president.

Department Store Wrecked.

CHICAGO, Sept. 20.—The six story department store of Rothschild & Co., located on the corner of State and Van Buren streets, was partially wrecked last night by the falling of the inside partition walls. The damage to the building and stock will aggregate $225,000.

Making Progress.

It is probable that the subject which will claim most of the attention of the Councilmen at the meeting of the Borough Council this evening will be that of a municipal water works. At last, Mayor Smalley has something definite to report. The well which was drilled near Greenbrook road has proved to be a success. The water obtained from it is pure and, what is of particular importance, there is apparently an abundant supply of it.

Mayor Smalley has long been a staunch advocate of municipal ownership of water works. Until now, however, he could only argue the subject from a theoretical point of view. He is now of the opinion that he can demonstrate to the Councilmen the entire practibility of his plan. As far as securing the water supply is concerned, it certainly looks as if the Mayor had really accomplished his aim.

There are still many perplexing features to the question of municipal ownership which the Mayor and the Borough Council will have to face if they decide to go on with the work. A pumping station will have to be erected and pipes laid to connect the station with the houses throughout the borough. These things can be done, however, if the water supply is there and Mayor Smalley believes that there is no question but that it is.

Until this time, the municipal ownership of water works in either city or borough has seemed of a very etherial nature, to be discussed with much earnestness but to lack actual realization for many years to come. It may be, however, that Mayor Smalley's efforts will bring about that which has long been talked of. If such comes to be a fact, then His Honor will have achieved that to which many have worked but in vain.

Tonight's meeting of the Borough Council will be watched with much interest by people all over the State. It may not be that any immediate action will be taken but the sentiment in the Council seems in favor of the Mayor's plan and something definite may be looked for at no very distant day.

The Philadelphia Record sagely remarks that there is no better evidence of the value of newspaper advertising than the fact that no business man who has ever tried it judiciously and extensively has abandoned it. This is shown by an examination of the files of one of the oldest of the substantial newspapers of Boston. All who were advertisers ten years ago are larger advertisers today, except those who have died or who have otherwise retired from business.

The fact that the assassin of the martyred President wore a badge of the Knights of the Golden Eagle has given that organization some undeserved notoriety. Many of the castles of that organization throughout the land are denouncing the dastardly act and asking that the perpetrator of it be expelled.

The ordinary mortal would suppose that the officials of the New Jersey Central Railroad would have too much pride in the appearance of their new station in this city to allow the driveways leading to it to remain in their present condition.

Now that the public is so anxious to see another meeting of the Hope chapel and St. Mary's nines, it is the duty of the managers of those two teams to lay aside their personal prejudices and make some satisfactory settlement.

The Elizabeth Journal thinks that Andrew McCardell is anxious to secure the shrievalty nomination of the Republicans. If Mr. McCardell should make a try for the place and get it, it would settled an oft disputed question.

The organization of the street commissioners of New Jersey will undoubtedly result to the advantage of many of them. By meeting occasionally, they can exchange ideas from which some are sure to be benefitted.

City Judge Runyon was perfectly justified in imposing a heavy sentence on the man who insulted the name of the late President on the city streets.

The Alls Athletic Association promises to be represented on the gridiron by a football team this fall. The Alls boys have made a fine showing in past years.

Although President McKinley is gone, the memory of him and his deeds will long remain with the American people.

DRUGGIST LEGGETT FAILS

Two Mortgages Foreclosed Wednesday Which Closed Out Well Known Merchant.

The friends of J. H. Leggett, the druggist, will regret to learn of his failure which occured Wednesday afternoon. For many years Mr. Leggett has conducted a pharmacy, and with success, until recently.

T. S. Davis, of this city, held two chattel mortgages on Mr. Leggett's goods and chattels, and, owing to the certain conditions existing at this time, he had Constable Weaver make a levy and take possession of the store. The proper legal notices have been places on the doors, and in The Daily Press, advertising a sale of contents of the store on Friday, September 27.

At present it is not known just what Mr. Leggett expects to do, but his friends sincerely wish him success in whatever he undertakes and they hope that his troubles will soon be settled satisfactorily to all concerned.

TO BUILD ELECTRIC WAGONS.

Negotiations Being Made With A. C. Thompson To Build His Machines.

Offers have been made to Andrew C. Thompson, of this city, relative to the formation of a company for the manufacture of the electric automobile after the pattern of Mr. Thompson's machine.

One of the propositions is being given some consideration by Mr. Thompson and it is possible that in the near future a factory will be located here. This style of automobile, called the runabout, is said to weigh but one half as much as the average machine of the kind. This decreased weight also brings with it the feature of the necessity of using but a small amount of power, which is an important item where the owner is some distance from a charging station.

Fire In a Chimney.

A sooty chimney at the residence of Dr. T. H. Tomlinson, of LaGrande avenue, caught fire, yesterday afternoon, and caused considerable alarm to the inmates and the neighborhood. The fire department was notified by telephone and the chemical engine, and No. 1 hose wagon, with Chief Doane in charge, responded. The flames were soon put out with extinguishers after which the chimney was thoroughly cleaned.

Central Lodge Invited.

Central Lodge, No. 48, Ancient Order United Workmen, has been invited to attend the memorial services to be held this evening under the auspices of Columbia Lodge, No. 58, A. O. U. W. Among the speakers will be Rev. Dr. W. C. Snodgrass, Rev. G. W. Gardner and Dr. J. Hervey Buchanan. Martin Korff's orchestra will furnish the music.

New Shoe Store.

The Waldorf Shoe Company, of Brockton, Mass., has leased of J. H. McVey, of North avenue, his store on North avenue occupied at present by the Photograph Supply Company. The firm has taken a five year lease and will take possession the middle of October. The company will do a retail business in shoes.

Surprised Their Pastor.

Members of the congregation of the Gethsemane Swedish Lutheran church surprised their pastor, Rev. O. G. Gronberg, on the occasion of his birthday Monday. In the evening a large number of members called at his home on East Front street, and were entertained.

DUNELLEN.

(Special Correspondence.)

Dunellen, September 20—A union memorial service was held in the Presbyterian church yesterday morning. The churches which participated were the First Baptist and Seventh-Day Baptist, of New Market, and the Presbyterian and Methodist, of the borough. A sketch of the late President's life was presented by Rev. N. J. Sprowl, of the Presbyterian church, and Rev. Samuel K. Doolittle preached upon the lessons to be learned from that life. Rev. L. E. Livermore, of the Seventh-Day Baptist church, discoursed upon the public duties of McKinley. Rev. A. F. Todd, formerly pastor of the First Baptist church of New Market, offered prayer. Mrs. Giddis sang "Nearer My God to Thee" and "Lead Kindly Light," the two hymns of which the late President was so fond.

At the special meeting of the Borough Council Tuesday evening, Joel Giddis was elected to fill the vacancy in the Council caused by the death of Henry C. Gaskill. Mr. Giddis is now chairman of the committee on streets, and a member of the borough building and auditing and finance committees.

Summons was issued Wednesday in Justice Warden's court on contract, case of Frank A. Ballentine against William L. Rhoades, of South River. The hearing has been set for September 30.

In Justice Warden's court action was begun on the contract case of Mundy Brothers against David Jones. The matter was settled out of court by the payment of the claim Wednesday.

Memorial services were held at the Whittier School Wednesday afternoon. Principal Messeroll made an address and the students sang appropriate songs.

Cornelius Ryno has been able to go out of doors this week for the first since his serious illness with typhoid fever, which lasted several weeks.

PLAINS AND FANWOOD.

(Special Correspondence.)

Scotch Plains, Sept. 20—The residents of Scotch Plains paid their sad respects to the memory of William McKinley yesterday in one of the most sincere memorial services in the history of the town. From every flagstaff the Stars and Stripes hung at half-mast, while from nearly every house some sad token of respect was displayed. Every line of business was closed, the stores for the entire day, the hotels and other lines of business from 11 until 5. At 3 o'clock the residents gathered in the parlors of the Baptist church. The services, which were in charge of Rev. Mr. Shott, were very impressive. The hour was given up to prayer, singing the favorite hymns of the deceased and a chance given for the citizens to speak a few works.

Mrs. Ann Dobbins, of Front street, entertained the Ladies' Aid Society, of the Harrison Avenue Baptist church, Kearney, Wednesday afternoon. Mrs. Dobbins was a former member of the society. The pleasant trip was made by trolley.

Miss Ruth Dunn, of Westfield avenue, is spending a week with friends in Newark.

SOUTH PLAINFIELD.

(Special Correspondence.)

South Plainfield, September 20—A good attendance was present at the meeting of Camp No. 41, P. O. S. of A., last night. After attending to routine business the session was turned into a memorial service. The first speaker was Rev. J. A. Cubberley, who spoke upon the life of the late President, his character as a man and the great lawlessness of anarchism. N. H. Saxton told of some of the lessons to be derived from the life and death of the President. Reune B. Manning, a G. A. R. man, recited the salient points of Major McKinley's service in the war. The speaker then went on to show the secret of McKinley's success and magnetism, and repudiated the saying that "A politician cannot be a Christian." At the close of the meeting refreshments were served.

The Italian, who lost $140 while in Plainfield Tuesday, is again at work on the railroad, but has not found any trace of the money. Constable Weaver is trying to unravel the mystery.

Burglars have recently tried to ply their trade here. They were frightened away from W. H. Manning's house and from the home of Mrs. McDonough.

Mr. and Mrs. Bandenheimer are about to take up their residence in Plainfield.

William E. Smith has been entertaining friends from Brooklyn.

Arranged For Arriversary.

G. O. P. PRIMARIES MONDAY.

WILL ENROLL QUALIFIED VOTERS FOR THE PARTY PRIMARIES.

Nine Delegates to State Convention to Be Chosen—Must First Be Nominated With Ward Clerk.

The Republican primaries to select delegates who shall nominate a candidate for governor will be held in this city Monday evening at 8 o'clock. The city is entitled to nine delegates, two from the First, Second and Third wards and three from the Fourth ward.

Republicans wishing to place names in nomination for delegates must mail such names to the clerk of the ward wherein he resides before Saturday, Sept. 21. The same night of the primaries the enrollment committee will meet at each ward to revise the list of voters at primaries. The name and address of the ward clerks are First ward, J. A. Buckle, 145 North avenue; Second ward, John E. Keely, 599 LaGrande avenue; Third ward, Roger F. Murray, 901 Madison avenue; Fourth ward, William Newcorn, 205 West Front street.

The places for holding the primaries are as follows: First ward, 120 East Front street; Second ward, Bryant School, East Sixth street; Third ward, Casino, West Seventh street; Fourth ward, Reform Hall, West Second street.

DANCE GIVEN UP.

But Great Chiefs Came and Were Entertained by Members of Iona Council.

The members of Iona Council, Degree of Pocohontas, entertained Wednesday evening several members of the Board of Great Chiefs, including Great Prophet Sarah Ballstaub, of Trenton; Great Wenonah Mary Morgan, of Newark; Great Minnehaha Mrs. Charles Holdstein; Great Pocohontas Estella Reagan, of Paterson.

On account of the death of the President the proposed dance was given up and instead resolutions on the death of Mr. McKinley were offered and adopted and eloquent speeches on the same were made by the officers.

Past Great Sachem William Newcorn, on behalf of Iona Council, presented Mrs. Ballstaub with a half dozen solid silver spoons and a berry spoon, while Past Sachem F. J. Blatz presented Past Prophetess Mrs. Claassen with a past chief's regalia.

DEATH OF MRS. CONNETT.

Passed Away Suddenly at Her Home on East Fifth Street Wednesday.

The sudden death of Mrs. Armelia M. Connett, widow of Isaac A. Connett, of East Fifth street, which occurred shortly after noon Wednesday, caused much sorrow among a large circle of her friends.

Mrs. Connett was a member of the First Baptist church and was well known in the community. She had been slightly indisposed for some time, but had not been seriously ill.

Shortly before noon Wednesday, a stroke of apoplexy rendered her unconscious, and death followed two hours later. Mrs. Connett leaves two children, Harry Connett and Miss Charlotte Connett, a sister and two brothers.

The funeral services will be held at her late residence tomorrow afternoon at 3 o'clock. Rev. Dr. Yerkes will officiate. Interment will be made in Hillside cemetery.

Primaries in Middlesex.
(Special to The Daily Press.)

New Brunswick, Sept. 20—The Republican committee of Middlesex county met Saturday and arranged to hold the primaries, which have been set for Monday. The county convention to name candidates for the Assembly will be held Thursday, Oct. 10.

Endeavor Memorial Service.

The Christian Endeavor meeting at the Park Avenue Baptist church, this evening, will be devoted to the life and memory of our late President William McKinley. Miss Anna Wyckoff, president of the society, will lead. A cordial invitation is extended to all to be present.

Will Hear Both Sides.

Wm. Robinson was arraigned in the city court this morning, charged by Wm. Griffin with disorderly conduct. City Judge Runyon laid the case over until tomorrow in order to allow both to procure witnesses.

Cake Sale.

A cake sale will be held at Smith Brothers' grocery store tomorrow morning by the Junior Endeavor Society of Marconnier chapel, proceeds for piano fund.

Prayer For New President.

"Prayer for Our New President" will be the subject of the prayed meeting this evening at Warren chapel. The text is taken from 1 Timothy II:2.

EPWORTH LEAGUE.

Topic For the Week Beginning Sept. 22—"The Saloon Power Doomed." Text, Ps. xxvii, 1-10.

"Fret not thyself because of evildoers." Fretting does more harm to the fretter than to any one else. It is like dirt in the machine where oil is needed, injures the machine and hinders work. No cursing the liquor traffic, however vigorously done, no denunciation, however severe, ever saved a drunkard or closed a saloon. The fire was in the wrong place; it was in the wood pile instead of under the boiler; combustion enough, but no work accomplished. Stop fretting; cool down; God is in His world; His plans, not ours, are to succeed; His plans will succeed. What are they? Wait and see. Our fretting will not hurry Him, and will hinder us.

"Neither be thou envious at the workers of iniquity."

No place for envy nor jealousy here. Perhaps that is what has hindered us so much. The saloons so palatial in fittings and the church so plain and cheerless in its prayer rooms! The saloon crowded with young men full of life and energy, the church services so thinly attended and dull and destitute of young men! The saloon with money in streams and the church finances parched as a result! The saloon keeper and all the liquor dealing crowd so prosperous, with houses, horses, stocks and all that wealth can give, and the minister so needy, with children to educate! It is hard work to keep from wishing we had some of that cash for church, schools, hospitals, etc. Is that envy? Look out, it is perilously near the line. Better look the other way. The glitter has dazzled your eyes.

"Trust in the Lord and do good; so shalt thou dwell in the land, and verily [in stableness] thou shalt be fed."

We have no need of anything which belongs to them. God will provide for His own all they need without taking the devil's secondhand furnishings. Get rid of all envy and jealousy.

"Evildoers shall be cut off."

That is prophecy and promise, and is as certain of fulfillment as the continuance of the earth and the existence of God. When? He alone knows. If He can wait, surely we can. His investment is greater than ours. What can we do to hasten the work? Perhaps it cannot be hastened. It is possible that this is like many other evils which must abide until the gradual maturing of the race and elevation in righteousness cast it off as impossible to longer abide.

"Commit thy way unto the Lord; trust also in Him, and He shall bring to pass."

Without doubt great good has been done by the total abstinence pledge movements. The social organizations of various kinds which have for their basis the pledge are of value in the uplift of society. The antisaloon leagues, law and order leagues and kindred organizations for enforcement of good laws have had a beneficial influence.

Political agitation and legislation for suppression of the evil, public school instruction and a hundred other agencies, not forgetting the W. C. T. U. and the temperance press, are assisting toward a better day. But all these combined have made little effect on the fearful evil which holds this land and a large part of the world as in the icy bonds of arctic winter. All our efforts have seemed like ice saws and chisels to release an imprisoned vessel—futile.

Is the case hopeless, then?

Far from it. God has promised and man needs, we believe. Up over ice wastes comes a breath of warmth, a glow of color. God's sun rises slowly, but surely, steadily, untiringly, ever up and up, and as it comes the mountains of ice melt and run, and the summer of God's grace works the miracle all earth power and human effort could not master.

A Living Voice.

The Bible is not an iron safe to be opened by those who are keen enough to discover the combination; it is rather a rare and delicate flower that must have certain atmosphere before it can be induced to unfold its petals and disclose its honey cup and share with you its sweet perfume. The atmosphere of the book is the atmosphere of prayer. When you have entered your closet and opened the window toward Jerusalem and felt the heavenly breeze fan your cheeks, then the dull pages are transformed into a living voice and the book becomes indeed the word of God.—Lutheran.

Into Stepping Stones.

The stoutest difficulties, when overcome by divine grace, may be transformed into stepping stones leading upward to the attainment of the perfect life.—Alabama Baptist.

Where Christ Is Shining.

You cannot create spiritual sunshine any more than you can create the morning star, but you can put your soul where Christ is shining.—T. L. Cuyler, D. D.

At Parting.

Never part for a day without loving words to think of during absence; besides, it may be that you will not meet again in life.—Baptist.

Life.

Ah, what is life? So brief at best,
A waking between rest and rest;
An insect's trail along the sand,
A gem's bright flash upon the hand;
A wave line traced on ocean's shore,
Just rippled there, then seen no more;
A breath upon a frosted pane;
A moment warmed, then chilled again;
The shadow of a cloud that stays
Until obscured by passing haze.
Canst think of aught more brief, more fleet,
To image forth Time's flying feet?
Yet in the "shadow," in the "breath,"
Our love awakes, which knows no death,
And life, which seems so brief to be,
Is crowned by immortality!

—Margaret May.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Sept. 22—Comment by Rev. S. H. Doyle.

TOPIC.—The saloon power doomed.—Ps. xxxvii, 1-10. (A temperance meeting.)

As we behold the greatness and extent of the saloon power in the world today there is little, from a human standpoint, that betokens its doom. Its power was never greater or its sway more extensive. It makes itself felt in legislative bodies, in political conventions, in popular elections and is a powerful factor in municipal governments. The saloon seems to have reached the zenith of its power. There is not a cloud in its sky so much as the size of a man's hand, and yet it may be that this is only the forerunner of its doom. Stranger things have happened in the providence of God. The power of sin has often been exalted the highest just before its doom. Slavery was never more powerful and brazen than when God wrote the word "doomed" upon it. May it be so with the saloon!

The character of God is assurance that the saloon is doomed. Though the doom of this gigantic evil seems so unlikely, yet God's people are not to despair. "God moves in a mysterious way," but He moves, and when He moves against the saloon it will tumble and fall as readily as a house of cards. The character of God is such that He cannot endure evil. He cannot be pleased with the wicked. His patience is immeasurable, His ways are past finding out, but there is an end to His forbearance, and when it comes doom comes upon the object of His wrath. We fret and worry because God does not act in our time or way, but we should trust God and leave it to Him to vindicate His character.

The teaching of the Scriptures is an assurance that the saloon power is doomed. The Bible clearly teaches that the powers of evil shall be overcome. Evil seems to us to have unbounded sway. We worry because of its growth, its power and seeming permanence. But the Bible says, "Fret not thyself because of evildoers, neither be thou envious against the workers of iniquity, for they shall soon be cut down like the grass and wither as the green herb." This is the teaching of God's word throughout. The powers of evil may mock and cry out, "Where is the sign of His coming?" but they forget that with the Lord a day is as a thousand years and a thousand years as a day. The day of the Lord will surely come, and all evil shall be destroyed.

The history of the world is also an assurance that the saloon power is doomed. Other gigantic, seemingly all powerful, evils have existed and yet have been destroyed. Persecution of the Christian church endured for centuries, but has passed away. Slavery seemed to be impregnably intrenched in the life of our nation, but it has been crushed out, never to rise again. Murder by dueling was once extensively practiced and sanctioned, but has almost disappeared from the face of the earth. So why should we despair? In the hour when we think not God's vials of wrath will be poured out upon this greatest evil of the age, and it will be doomed. Meanwhile let us be faithful in doing our best to lessen its evil effects and to hasten the day when its doom shall be sealed.

THE PRAYER MEETING.

Have a temperance address upon the subject, "The Saloon."

BIBLE READINGS.

Ex. xx, 13; Lev. x, 8, 9; Num. vi, 1-14; Prov. xx, 1; xxiii, 29-32; Hab. ii, 1-15; Math. xviii, 7; I Cor. iii, 16, 17; vi, 10; Gal. v, 19-26.

Commonplace Workers.

Commonplace things are the world's greatest treasures in the sphere of mind and matter. Air and light and heat and cold are commonplace helps to human life, but none of us can get along without them. They are worth more than occasional meteors and auroras and eclipses and cyclones, even though these attract more attention for the time being. Common sense and ordinary sympathy and average ability do more for mankind than great talent and surpassing genius. A hundred persons can be reached and understood and influenced by an average man where one can feel in his heart the power of a mighty mind. If we are nothing more than common, let us thank God that we can be God's messengers of love and help to the greater mass of our fellows.—Sunday School Times.

Practical Christianity.

The intent of religion is to help mankind to the attainment of a peaceful and righteous life. It is indeed to glorify God, but by the elevation of human life. It is intensely practical. Whenever it becomes merely speculative, dogmatic or ceremonial it is perverted from its highest meaning and falls of its best results. The energy of true religion is directed toward present needs and opportunities. It is personal and immediate. It is not simply believing something that is past and hoping for something in the future, but it is also doing something now. The best religion is that which makes the best men and women.—Rev. Abram Conklin in Universalist Leader.

Patience.

Patience is a virtue for which there is no substitute. There is often no other way out of a difficulty than the way of patience, but really this is a most gracious way when the sufferer finds it. Nor is it a way which any one need be ashamed to take, for our Lord recommends it—"In your patience ye shall win your souls." He knows that there is often nothing left to us but this one thing—patience. We must use it; we must win our souls, our very lives, by it.—Reformed Church Messenger.

CREPE DE CHINE.

It Is One of the Most Fashionable Materials This Season.

Crepe de chine is a material which is being used very largely to make gowns for dressy occasions. It is soft and gives the clinging effect so desirable in long trained skirts. It is laid into numerous tiny tucks horizontal and vertical, with the spaces between the tucks filled in with cream lace insertion, which is transparent owing to the material being cut out from underneath. This transparent effect is for the purpose of showing the slip, which is usually made of some delicate contrasting color.

Gray, white and heliotrope are the most fashionable colors in this material just at present. Gray dresses are often trimmed with white hemstitching between the tucks and a full Spanish flounce of accordion plaited chiffon edged with a ruching of narrow black and white satin ribbon.

A dainty dress for a child is here pictured. The material is pale blue crepe de chine. The little skirt is made

BLUE CRAPE FROCK.

quite full, and it is trimmed with a row of yellow lace vandyke points, under which is passed a narrow black velvet ribbon. The blouse waist has a broad collar of the vandyke points, and there is also a black velvet ribbon which passes under the arms and ties in front. The elbow sleeves are composed of two puffs, the upper being held down for some distance in tucks. There is a narrow sash of the black velvet.

UP TO DATE UNDERWEAR.

Entirely Different Styles For the Plump and the Thin Woman.

The underwear of the fashionable woman follows the mode of her gowns. The modern chemise is quite a different affair from the article worn by our mothers. It is wonderfully gored and fitted in to the figure so that not a wrinkle or the least particle of bunchiness remains to increase the size of madam's waist. One of the newest chemises buttons down the back, and at the waist line the fullness is laid in a wide band of tucks, while above and below it flares out to give size to the

SCHOOL DRESS

bust and hips. This is an excellent style for a thin woman. For her overplump sister the combination chemise will prove a blessing.

A new French idea will be useful for those who do not wish to send their fine laces to the laundry. The lace ruffles are made detachable and are headed by beadings, as is also the edge where they are expected to join. The ribbon is then run through the two beadings at once, and the lace is in this way fastened on without being sewed.

A very neat child's school frock is the one in the picture. It is made of navy blue cheviot. The waist is cut with a fancy bolero and bell sleeves reaching to the elbow. Under this there is a full blouse of white silk spotted in black. The skirt is a perfectly plain five gored model with strapped seams.

The little sailor hat is of white felt trimmed with two shades of navy blue ribbon.

The Lost Continent

"Why tell me what is no news?"

"I wish to remind my lord of his power; I wish to beg of his clemency."

"You showed your power to these poor prisoners; but, from what remains here to be seen, few of them have tasted much of your clemency."

SHE CLAMBERED UP WITH BOTH KNEES ON THE SILL.

"The orders were," said the captain of the gate, as though he thought a word might be said here for his defense—"the orders were, my lord, that the tigers should be kept fierce and accustomed to killing."

"Then, if you have obeyed orders, let me be the last to chide you. But it is my pleasure that this woman be respited, and I wish now to question her."

The man got to his feet again with obvious relief, though still bowing low.

"Then if my lord will honor me by sitting in my room that overlooks the outer gate, the favor will never be forgotten."

"Show the way," I said, and took the woman by the fingers, leading her gently. At the two ends of the circus the tigers prowled about on short chains, growling and muttering.

We passed through the door into the thickness of the outer wall, and the captain of the gate led us into his private chamber, a snug enough box overlooking the plain beyond the city. He lit a torch from his lamp and thrust it into a bracket on the wall and, bowing deeply, and walking backwards, left us alone, closing the door in place behind him. He was an industrious fellow, this captain, to judge from the spoil with which his chamber was packed. There could have come very few traders in through that gate below without his levying a private tribute; and so, judging that most of his goods had been unlawfully come by, I had little qualm at making a selection. It was not decent that the woman, being an Atlantean, should go bereft of the dignity of clothes, as though she was a mere savage from Europe; and so I sought about among the captain's spoil for garments that would be befitting.

But, as I busied myself in this search for raiment, rummaging among heaps and bales, with a hand and eye little skilled in such business, I heard a sound behind which caused me to turn my head, and there was the woman with a dagger she had picked from the floor, in the act of drawing it from the sheath.

She caught my eye and drew the weapon clear, but seeing that I made no advance towards her, or move to protect myself, waited where she was, and presently was took with a shuddering.

"Your designs seem somewhat of a riddle," I said. "At first you wished to kill me from motives which you explained, and which I quite understood. It lay in my power next to confer some small benefit upon you, in consequence of which you are here, and not—shall we say?—yonder in the circus. Why you should desire now to kill the only man here who can set you completely free, and beyond these walls, is a thing it would gratify me much to learn. I say nothing of the trifle of ingratitude. Gratitude and ingratitude are of little weight here. There is something far greater in your mind."

She pressed a hand hard against her breasts. "You are Deucalion," she gasped; "I heard you say it."

"I am Deucalion. So far, I have known no reason to feel shame for my name."

"And I come of those," she cried, with a rising voice, "who bite against this city, because they have found their fate too intolerable with the land as it is ordered now. We heard of your coming from Yucatan. It was we who sent the fleet to take you at the entrance to the gulf."

"Your fleet gave us a pretty fight."

"Oh, I know, I know. We had our watchers on the high land who brought us the tidings. We had an omen even before that. Where we lay with our army before the walls here, we saw great birds carrying off the slain to the mountains. But where the fleet failed, I saw a chance where I, a woman, might—"

"Where you might succeed? I sat me down on a pile of the captain's stuffs. It seemed as if that here at last I should find a solution for many things.

"You carry a name?" I asked.

"They call me Nais."

"Ah!" I said, and signed to her to take the clothes that I had sought out. She was curiously like, so both my eyes and hearing said, to Ylga, the fan-girl of Phorenice, but as she had told me of no parentage I asked for none then. Still her talk alone let me know that she was bred of none of the common people, and I made up my mind towards definite understanding. "Nais," I said, "you wish to kill me. At the same time I make no doubt you wish to live on yourself, if only to get credit from your people for what you have done. So here I will make a contract with you. Prove to me that my death is for Atlantis' good, and I swear by our Lord the Sun to go out with you beyond the walls, where you can stab me and then get you gone. Or else—"

"I will not be your slave."

"I do not ask you for service. Or else, I wished to say, I shall live so long as the high gods wish, and do my poor best for this country. And for you—I shall set you free to do your best also. So now, I pray you, speak."

CHAPTER VII.

THE BITERS OF THE WALLS (FURTHER ACCOUNT).

"You will set me free," she said, regarding me from under her brows, "without any further exactions or treaty?"

"I will set you free exactly on those terms," I answered, "unless indeed we here decide that it is better for Atlantis that I should die, in which case the freedom will be of your own taking."

"My lord plays a bold game."

"Tut, tut," I said.

"But I shall not hesitate to take the full of my bond, unless my theories are most clearly disproved to me."

"Tut," I said. "You women, how you play out the time needlessly. Show me sufficient cause, and you shall kill me where and how you please. Come, begin the accusation."

"You are a tyrant."

"At least I have not paraded my tyrannies in Atlantis these 20 years. Why, Nais, I did but land yesterday."

"You will not deny you came back from Yucatan for a purpose?"

"I came back because I was sent for. The empress gives no reasons for her recalls. She states her will; and we who serve her obey without question."

"Pah! I know that old dogma."

"If you discredit my poor honesty at the outset like this, I fear we shall not get far with our unraveling."

"My lord must be indeed simple," said this strange woman, scornfully, "if he is ignorant of what all Atlantis knows."

"Then simple you must write me down. Over yonder in Yucatan we were too well wrapped up in our own parochial needs and policies to have leisure to ponder much over the slim news which drifted out to us from Atlantis—and, in truth, little enough came. By example, Phorenice (whose office be adored) is a great personage here at home; but over there in the colony we barely knew so much as her name. Here, since I have been ashore, I have seen many new wonders; I have been carried by a riding mammoth; I have sat at a banquet; but in what new policies there are afoot, I have yet to be schooled."

"Then, if truly you do not know it, let me repeat to you the common tale. Phorenice has tired of her unmated life—"

"Stay there. I will hear no word against the empress."

"Pah! my lord, your scruples are most decorous. But I did no more than repeat what the empress had made public by proclamation. She is minded to take to herself a husband, and nothing short of the best is good enough for Phorenice. One after another has been put up in turn as favorite—and been found wanting. Oh, I tell you, we here in Atlantis have watched her courtship with jumping hearts. First it was this one here, then it was that one there; now it was this general just returned from a victory, and a day later he had been packed back to his camp, to give place to some dashing governor who had squeezed increased revenues from his province. But every ship that came from the west said that there was a stronger man than any of these in Yucatan, and at last the empress changed the wording of her vow. 'I'll have Deucalion for my husband,' said she, 'and then we will see who can stand against my wishes.'"

SPORTING.

ON THE DIAMOND.

The Hope team will cross bats tomorrow with the Garwood A. C. on the Garwood grounds. The local team will leave this city at 2 o'clock.

The only game on a local diamond tomorrow afternoon will be the one between the St. Mary's and Clinton Avenue teams, which takes place on the latter's grounds commencing at 3:30. The Clinton Avenue nine will be composed of the same players in last Saturday's game with the Hope team. But one game this season has been played between the St. Mary's and the Clinton Avenues, and the later were defeated after eleven innings.

LAWN TENNIS.

At a meeting of the Cedarbrook Tennis Club, held last evening, the use of the club's courts was extended to the City High School Athletic Association for the purpose of holding a tournament. This tournament, which is for the championship of the High School, will probably commence Monday.

GOLF.

The events scheduled for the Hillside Tennis and Golf Club course tomorrow include weekly play for the Mellick and Golf Committee cups and a team match between the home team and a team from the Harbor Hill Golf Club.

AMONG THE STEPPERS.

Trotting and pacing events are scheduled for Saturday, September 28, at the Fair Acres Driving Park, at Westfield. Some Plainfield speedy animals will no doubt be among the entries.

STRIPPED BY HIGHMAYMEN.

CHARLES AUTEN HELD UP ON EAST FRONT STREET LAST NIGHT.

Robbers Removed His Clothing—Found in Nude Condition by Police Early This Morning.

One of the most daring and high-handed robberies ever committed in this city took place at 12 o'clock last night, when Charles Auten, aged eighteen years, of 139 East Front street, was held up at the corner of Berckman and East Front streets and stripped of everything he had. He was obliged to walk home entirely naked.

When near police headquarters a patrolman found young Auten and took care of him. He was in a nervous state boarding on collapse. It was about 1:30 o'clock this morning when he was taken to his home by the police.

Auten says that he had been to Westfield with a friend and had left Westfield on the 11:30 o'clock trolley, reaching Berckman and East Second streets at nearly 12 o'clock. At that point he and his friend alighted from the car, when Auten saw his friend home.

A few minutes later he was attacked by two men, one very tall and the other shorter. They demanded money, but before Auten could reply he was knocked down and at the point of a revolver made to keep quiet.

The tallest of the two men then proceeded to take all that Auten had. Every stitch of clothing he had as well as his shoes, socks, hat, necktie, collar and underclothing were removed. He had ninety cents in money and a few keys. These were also taken, after which the men made their escape.

Auten, who had been unconscious, recovered his senses soon afterward and was obliged to walk home in his naked condition. The police know the full details of the hold-up and are making efforts to find the men.

COUNTY CONVENTION.

Somerset County Prohibitionists Named Their County Candidates.

(Special to The Daily Press.)

Bound Brook, September 20—The Somerset county convention of the Prohibitionists was held here last Tuesday, at which the following candidated were nominated: For sheriff, John Herrman, of North Plainfield; for member of the Assembly, H. R. Trumpore, of Somerville.

The sum of $150 was secured by cash and pledges to carry on the work of the organization.

HONORED MEMORY OF THE LATE PRESIDENT

[CONTINUED FROM PAGE 1.]

address was of an reminiscent nature throughout, recounting vividly the conversations they had had together and the great impression the President's political and Christian bearing made upon the Plainfielder.

At the conclusion of Rev. Dr. Carroll's remarks, Mayor Newton B. Smalley made an address. His Honor referred to the sympathetic action taken on this sad occasion, and said that he had been deeply moved by the request made by some naturalized Americans. The representatives of the Sociata Operaia Italianna had requested permission to hold a parade in memory of their late President. When the people from other lands are touched by the sad blow, America can feel proud of the homage. A number of appropriate hymns were sung by the school children.

OVERFLOW MEETING CROWDED

Rev. Dr. Richards Spoke to Many in Chapel of Crescent Avenue Church.

Many of the vast number of people unable to gain admittance to the Crescent Avenue church yesterday morning, repaired to the chapel directly in the rear for an overflow service, but even this was unable to provide the large number who wished to enter. Every seat in the main floor and gallery was taken, and when Rev. G. W. Gardner, of the Grace M. E. church, arose to invoke the Divine blessing on the assemblage, many were standing.

Following the reading of Scripture by Rev. Mr. Gardner and prayer by Rev. C. L. Goodrich, of the Congregational church, Rev. Dr. W. R. Richards delivered an inspiring address. Not expecting the overflow meeting, he said, no one had been prepared to speak, but for that matter all the words to which a gifted man could give utterance could not intensify the feeling for the martyred President as that shown by the uniform outpouring of people all over the city.

Every one realized, he said, that the nation had suffered a terrible blow, that it was humiliated in the eyes of the rest of the world, in that it fostered one who could nerve himself to commit such a terrible crime. Not only has the nation lost its President, but the people had lost a man who taught them how to live. It is the duty of every citizen to honor his memory, the speaker declared, and remember that he died as he lived—always fearing his God. In his last moments he bowed in humble submission to the inevitable and whispered the words which revealed to the world his Christian character, "God's will be done, not ours."

At the conclusion of Dr. Richards' remarks the congregation joined with one accord in singing, "Lead, Kindly Light."

STOPPED ALL TROLLEY CARS.

Brought to a Full Stop For Ten Minutes at the Hour of the Funeral at Canton.

One of the most impressive events in all of yesterday's happenings in respect to the memory of the matyred President, was the complete suspension of traffic on every line of the Elizabeth, Plainfield and Central Jersey Street Railway, for ten minutes after the funeral procession started at Canton.

Every trolley car in the service was brought to a full stop where ever it happened to be, while passengers and crews remained with uncovered heads. It was a showing of sorrow such has never been witnessed in the past and may not be repeated for years to come.

SERVICES AT P. E. CHURCHES

Large Congregations Were in Attendance at Memorial Services Yesterday Morning.

The Episcopalians attended special memorial services in their own houses of worship yesterday morning. Services were held at Grace church and at the Church of the Holy Cross, and both were exceptionally well attended. In each instance there was a deep reverent spirit, which expressed the undisguised sorrow of those who had joined together to pay a tribute to the hallowed memory of the slain President.

Rev. Mr. Judd, the curate, officiated at Grace church. The interior of the edifice had been appropriately draped. The appointed service for the burial of the dead was said with the necessary omission of the committal. There was no processional or recessional, but the choir filed in and out of the chancel while a funeral march was played on the organ. The service was devoid of vocal music, excepting that the favorite hymns of the dead President were sung.

At the Church of the Holy Cross, Rev. Wm. Montgomery Downey, the rector, said a morning service as arranged by Rt. Rev. Henry C. Potter, bishop of New York, and which was generally used in the Episcopal churches all over the country. There was a large congregation assembled here also, and the worshippers entered fervently into the intended idea of the memorial service.

A THOUSAND TURNED AWAY

Remarkable Outpouring of People for Yesterday's Union Memorial Service.

It can truthfully be stated that the outpouring of people at the Crescent Avenue church yesterday morning was the largest in the history of the city. Fully a thousand people could not get in the church. There were many who came from the surrounding country, starting early and driving seven and eight miles to get to Plainfield. After being turned away and going to the other churches, they returned in the hope that they might get in the Crescent Avenue church. The chapel was also completely filled.

In the absence of Mrs. Kimball, the chairman of the decoration committee of the church, the following persons with Mrs. John Gray Foster, as chairman, composed the committee that had charge of the floral and other decorations in the church: Mrs. Foster, the Misses Foster, Mr. and Mrs. E. T. Barrows, Mr. and Mrs. F. H. Andrews, Townsend Bushmore, Mrs. Robert Bushmore, Mrs. Minnie Mead, Miss Mead, Mr and Mrs. D. N. Van-Vliet, Mrs. Groendyke and Mrs. E. B. Ackerman.

Ernest B. Ackerman, who was a Presidential elector in 1897, and who assisted in nominating Mr. McKinley, escorted the members of the G. A. R. in the church and to their seats.

Early yesterday morning Mayor O. L. Jenkins communicated with the Independent Fife and Drum Corps and sent them to G. A. R. headquarters with instructions that if the Veterans would accept of their services they could have them in marching to and returning from the Crescent Avenue church. The generous offer was accepted with thanks.

MILITARY HONORS GIVEN.

Squad From Company K Fired Salutes at Regular Intervals All Day.

Acting under orders from Governor Voorhees, Company K, of this city, yesterday honored McKinley's memory in a manner which has never before been seen in Plainfield.

A detail of men, in command of Sergeants Littell and Titsworth, planted a cannon on one of the grass plots at the North Avenue station, over which was erected an American flag. At sunrise a salute of thirteen guns was fired and from then on during the day, at half-hour intervals, salutes of one gun were continued.

At 3:35 a squad of men, under Captain Browning, fired three volleys. The military honors were witnessed by several hundred people. At sunset a salute of forty-five guns closed the day's observance.

COLORED CHURCHES UNITED.

Held Union Memorial Service at Calvary Baptist Church Yesterday Afternoon.

The colored people of this city, united at the Calvary Baptist church yesterday, for a union service in memory of President McKinley. Rev. J. W. Mitchell was in charge.

A masterly discourse, eulogizing the late Chief Magistrate, was delivered by Rev. E. E. Jackson, of Mount Olive Baptist church. Rev. Mr. Smith, of Zion A. M. E. church, spoke of his personal acquaintance with President McKinley, having been brought into contact with him at Washington. His remarks were very impressive.

The President's favorite hymns, "Nearer, My God, to Thee" and "Lead, Kindly Light," were sung with fervor by the entire congregation.

REFORM CLUB'S TRIBUTE.

W. C. Smith and Rev. B. W. Hand Make Very Appropriate Addresses.

A very interesting memorial service was held at Reform Hall last evening under the auspices of the Reform Club. Appropriate addresses were made by W. C. Smith and Rev. B. W. Hand.

"Lead, Kindly Light," and "Nearer, My God, to Thee" were rendered by a quartette composed of Mrs. A. J. Stigliz, Miss Jennie Smith, Arthur Smith and Oscar Moore. A number of pleasing solos were given by Oscar Moore, including "O, Shining Light," and "The Holy City." Mr. Spear acted as violin accompanist.

BELLS WERE TOLLED.

In unison with the action in other cities and towns throughout the world, the church and fire bells in this city and the borough were tolled yesterday. In the morning the bells in the Catholic churches were tolled and at 3 o'clock in the afternoon all the bells were sounded fifty-eight times. At the same time the borough fire bell was tolled the same number of strokes.

HEBREW MEMORIAL SERVICE.

The services at the synagogue Beth Tefila Ishia Yentel, held in Reform Hall, in the morning, were well attended. Special prayers were offered for the late President, the widow and the new President as well as the nation.

GREEN ADMITS HIS GUILT.

MAN ARRESTED BY MARSHAL CAMPBELL CONFESSES THE DEED.

Green Now Held In New Brunswick Pending Result Of King's Injuries—Victim Still In Precarious Condition.

David Green, the colored man arrested by Chief Marshal Campbell at Race and Somerset streets Tuesday night, on suspicion of being the wheelman who shot John King, acknowledged his guilt Wednesday afternoon.

He candidly informed Chief Marshall Campbell that he was the guilty person, but did not go into details concerning the motive. It is generally believed, however, that he was riding without a light and coming upon King suddenly, mistook him for a highwayman. He had the pistol in his hand for the purpose of shooting a troublesome dog, and used it to shoot at the unknown man. Then springing on his wheel he rode away without waiting to learn the result.

The proper papers having been made out, Green was taken to New Brunswick Wednesday night. He will be held to await the result of King's injuries. If the man succumbs, he can be held on a charge of manslaughter or even murder, according to his intention. If the shot does not prove fatal, he can be indicted for atrocious assault.

King is still at Muhlenberg Hospital and for the past forty-eight hours has been resting easily. The bullet has not yet been removed.

PERSONAL.

Miss Alys M. Chandor, of East Ninth street, has been visiting relatives at Montclair.

William M. Sandford, wife and daughter, Miss May Sandford, of East Front street, who have been making a tour of California for the past three months, will arrive home Sunday evening.

CITY JOTTINGS.

—Lovers of fresh vegetable should not overlook the daily assortment at Neuman Brothers. Everything to be desired in this line is received daily, while the prices are always the lowest.

Threatened Governor Voorhees.

A few days ago Gov. Voorhees received a threatening letter dated at Hoboken in which some persons, believed to be anarchists, threated to take his life if he persists in making trouble for the anarchists. There was no signature attached to the epistle and the Governor is inclined to treat the matter lightly. He is determined, however, to drive the anarchists out as quickly as possible.

Thought It Would Blow Up.

A steam automobile belonging to Fred Shepherd, of West Fourth street, left standing in front of Armstrong's pharmacy last evening, developed a high pressure. The steam escaped with a loud noise through the safety valve. The unusual sight attracted a large crowd and many thought the machine was about to blow up. The trouble was remedied upon the arrival of the owner.

Wedded at Rectory.

Alfred B. Cunningham and Miss Sarah E. Swan, two popular young colored people, were united in marriage last evening at the rectory of Mt. Olive Baptist church. Rev. E. E. Jackson performed the ceremony, which was very quiet. Mr. and Mrs. Cunningham will commence housekeeping at once.

Want Companion as Well.

Edward Marcellus, Jr., a sixteen-year-old colored boy, was arrested and locked up last night, on a charge of throwing coal from cars of the New Jersey Central at houses along the road. As another boy was with him at the time, City Judge Runyon allowed him to go this morning until his companion was captured.

—A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin affections. Accept only the genuine. L. W. Randolph.

SUNDAY SCHOOL AFFAIR.

An Entertainment Given at Mt. Zion A. M. E. Church.

An entertainment was given last evening at the Mt. Zion A. M. E church under the auspices of the Sunday-school. Edwin Maynard, the superintendent, was in charge. The programme consisted of recitations, songs and dialogues all of which was given by the children. After the entertainment ice cream and cake was served.

BURL GIBSON DEAD.

Well Known Colored Man Died in New York Wednesday.

Burl Gibson, a former well known colored resident of this city, died at his home in New York, Wednesday, after a lingering illness. He was thirty-seven years old and leaves a wife. The funeral services will be held in this city, Sunday afternoon, at 3 o'clock from Mount Olive church, of which he was a former member.

Received Word of Mother's Death.

Mrs. John P. Probasco, of East Front street, has just received word of the death of her mother, Mrs. Sara S. Edman, at Paris, France.

MORE TEACHERS NEEDED; NOT SUFFICIENT ROOM.

Problems Which the Borough Board of Education Will Have to Solve.

A MEETING MONDAY NIGHT.

FROBABLE THAT THREE NEW TEACHERS WILL BE ENGAGED.

Question of Finding More Accommodations Is a Harder One to Settle — Other Business to Come up at the Meeting Monday.

For the purpose of making provision for urgent requirements, the Borough Board of Education will meet Monday evening in special session. It had been intended to hold this meeting before, but the absence of the president, S. St. John McCutchen, led to the postponement.

The most urgent matter to come before the directors is the crowded condition of the schools. Many are being deprived of the benefit of a free education by reason of the fact that there are too few teachers and too little accommodations. This condition of affairs has only existed since the opening of the schools this season. The applications for admission have been unprecedented and immediate steps must be taken to render the difficulty.

The overflow is in the kindergarten and grammar departments. At least two additional teachers are needed in the former department, while one will answer the purposes in the grammar grade. Steps will be taken at the meeting to increase the teaching corps. At the present time there are thirty-two teachers for approximately 1,050 pupils, and this number will be raised to thirty-five.

Concerning the matter of providing extra school accommodations, the solution of the problem is rather difficult. At present no suitable rooms can be obtained. Some years ago use was made of the auditorium of Saengerbund Hall, but this cannot be procured because of the fact that the building is being improved with the intention of using it for entertainments and other affairs.

Another suggestion has been made that the basement of the German Reformed church be leased. It also was a temporary school room at one time, but it is considered undesirable because of the insufficient light. The room is also damp and gloomy. Naturally there are a number of places that could be procured for the purpose, but they have the disadvantage of not being centrally located.

There are in addition several other matters of more or less importance which will come before the directors at this meeting, and in all respects the session promises to be a busy one.

A PLAINFIELDER THERE.

Took Part in Remarkable Rendition of the National Hymn.

One of the many impressive observances of the memory of President McKinley taking place in New York Thursday was the rendition of "Nearer, My God, to Thee," by one hundred musicians with nothing but cornets and trombones, standing beneath Lincoln's statute in Union Square. The players were members of the Musicians' Union, who gave their services free. They were in charge of W. Paris Chambers.

Among the trombonists was Chris Sorenson, Jr., of this city, who is a member of the Criterion Theatre orchestra in Brooklyn. Mr. Sorenson studied for some years under Mr. Chambers and is considered by him to be one of the ablest trombonists in New York city.

Howell Division's Officers.

Prominent Friend.

John J. Cornell, a prominent minister of the Society of Friends from New York State, will be in attendance at the meeting of Friends held at their place of worship corner Watchung avenue and Third street tomorrow morning at 11 o'clock. A cordial invitation is extended to all.

GREAT COUNCIL'S SESSION.

GREAT PROPHET NEWCORN MADE A REPORT CONCERNING IT.

Miantonomo Tribe Did Considerable of Importance at Its Meeting Last Evening.

Miantonomo Tribe, No. 118, Improved Order of Red Men, met last evening, when the anniversary committee made a report. The event will be celebrated Friday evening, October 11, and invitations have been issued to the other tribes in this city and the Board of Great Chiefs.

A letter was received from Great Sachem Norrie, in which he asked the tribe to drape its charter for thirty days and adopt suitable resolutions on the death of the late President. Wm. Newcorn, Chas. Holstein and A. J Stiglitz, were appointed a committee to arrange for this.

William Newcorn, who attended the sessions of the Great Council of Red Men, held in New York during the week of September 9, represented a report of the important business transacted at that time. According to the report New Jersey stands second in the list, having given one-twentieth of the entire amount, and is also second for numerical increase. The total net worth of the order is $2,431,588.40. During the past year $900,000 was expended in sick benefits and burial expenses.

W. C. T. U. CONVENTION.

WILL BE HELD IN THIS CITY THURSDAY, OCTOBER 10.

Programme of the Morning, After noon and Evening Sessions of the Convention.

The seventeenth annual convention of the Union County Woman's Christian Temperance Union will be held in Trinity Reformed church, Thursday, October 10. There will be morning, afternoon and evening sessions, all of great interest to those engaged in temperance work.

In the morning the address of welcome will be given by Mrs. Stephen A. Cahoone, of this city, and Miss Emma L. Starr, of Westfield, will respond. The annual address of the president, Mrs. T. H. Tomlinson, together with other reports and the election of officers will occupy the morning session.

The afternoon session will be devoted to the reception of reports from the various departments of work. Those from this city to report include Miss Clementine B. Yates, Mrs. M. Winter and Mrs. M.C.Dobbins. There will also be a memorial service in the afternoon, and Mrs. J. T. Ellis, National superintendent of legislation, will give a short talk on legislation.

In the evening Rev. Cornelius Schenck, Ph.D., pastor of the church, will be in charge and Mrs. Ellis will give an address on "God in Government. Mrs. Ellis has had a wide experience in temperance work, especially concerning the canteen question, and she can speak intelligently. It is expected that the convention will be one of the most important and interesting ever held.

ANOTHER STATEMENT.

Green Says That King Acted Suspiciously and Gave Him the Idea That He Was a Highwayman.

(Special to The Daily Press.)

New Brunswick, Sept. 21.—David Green, the colored man who is in jail here awaiting the result of the injuries inflicted upon John King by shooting him at New Market Monday night, has made a statement, differing, it is said, somewhat from that given by him to Chief Marshal Campbell, of North Plainfield.

He declares that he did not strike King with his wheel, but that the man refused to move to one side of the road when he called to him and that he acted very suspiciously. It was then that he believed King intended to hold him up and shot at him without stopping.

NO YELLOW JOURNALS.

Mayor N. B. Smalley Says They Must be Kept Out of the Borough.

"You can say for me," said Mayor Newton B. Smalley, Thursday, "that any one caught selling the New York Journal, in the borough, will be locked up. I've told Chief Marshal Campbell to arrest any offenders on the charge of peddling without a license and also for disturbing the peace. You might also add that the arrests will be made for carrying deadly weapons and for carrying inflammable material."

His Honor has an abhorrence of the style of newspaper conducted by Hearst and is determined to use all legal means to prevent its circulation in the staid old borough.

BOROUGH WATER WORKS WERE AGAIN DISCUSSED

Renewed Interest Taken in the Subject at Last Night's Borough Council Meeting.

MAYOR MAKES AN OFFER.

WILL SUPPLY THE LAND AND STONE FOR A PUMPING STATION.

But Nothing Can Be Done Until the Subject Is Brought Before The People at the Spring Election —Last Night's Speeches.

Municipal ownership was disinterred at an adjourned meeting of the Borough Council last evening. Some months ago enthusiastic speeches in reference to the practicability of public ownership of the borough water supply were made at a regular meeting of the councilmanic body. A committee was appointed to investigate the subject and report upon the advisability of adopting the scheme.

Time passed and the problem was almost forgotten. Many believed that the glowing addresses were nothing more than funeral orations and the powers of the committee were limited to giving the corpse a decent burial. Hence, the action of Mayor Newton B. Smalley, in referring to the subject last evening at the Borough Council meeting, was looked upon as a resurrection of all that remained of the agitation after the committee had reported "progress" in its labors from time to time.

This subject—municipal ownership of the water supply—constituted the theme for the evening's discussion at the meeting. The exchange of views seemed to awaken interest in the matter, although nothing of any real importance was accomplished. A second invitation was extended by Councilman Northrop to the committee to visit a town where the idea is being given a test. The committee was again requested to draw on the appropriation made for its expenses. An analysis was once more suggested. His Honor renewed his offer to donate the land for the plant and to furnish the requisite stone for the construction of the works. This was the substance of the evening's deliberations.

In bringing the subject to the attention of the Councilmen, Mayor Smalley said among other things: "I have been investigating the question of water supply and have obtained good results. Under my direction a well has been dug in the northwestern part of town, to the depth of 103 feet and of a diameter of six inches. From what I can learn, I believe there is any quantity of water there. No water was struck until a depth of thirty-five feet was reached, and then it began to flow freely, reaching a point within four feet of the surface.

"It is my impression that the people want to own the water works, and I believe that it can be done more economicably than anywhere else in the State. Once more I offer to furnish the stone as well as to donate the site for the works for I firmly believe that there is a great opportunity now for the desired end, when the water supply is so abundant.

Councilman Lee announced that the delay of the committee had been due to the fact that the question would have to be submitted to the voters at the spring election and therefore there would be ample time for the committee to fully consider the subject. The offer of the Mayor, he said, would warrant the committee in procuring the services of competent engineers to ascertain the probable cost of the construction of the works.

Among other pertinent remarks were those made by Councilman Northrop, who said that in his opinion municipal ownership was the proper theory. He declared that he had carefully investigated the subject and was a firm believer in the idea of public ownership. An invitation was extended, by him, to the committee to visit a particular public plant, but just where this plant is located the councilman is holding in the background.

The location offered by the Mayor for the plant is a site near Smalley Brothers' stone crusher on the mountain side. The proposition is to pump the water from the contemplated wells on Harrison street near Greenbrook road up to the reservoir. Councilman Nichols urged the committee to have the water analysed at an early date.

The members of Council not in attendance were Messrs. Clark, Coddington and Swackhamer. A petition to macadamize Westervelt avenue was acted upon favorably as was also a request of the borough fire department for an appropriation of $100 for the parade to be held October 17. The Mayor notified the Borough Clerk to request the Plainfield Gas and Electric Light Company to remove the lights on Johnson's drive October 1. An appropriation of $75 was made for the purpose of procuring a safe in which the borough documents in the custody of the clerk may be preserved.

"KLONDYKE" CLOSED TODAY.

ALUMNIUM PRESS COMPANY ASKED FOR APPOINTMENT OF RECEIVER.

Long Credits Temporarily Closed Shop—Will Be Re-organized At Once—P. W. Hall Is The Receiver.

The Aluminum Press Company, locally known as the "Klondyke," with works located on Berckman street, yesterday filed an application in the Supreme court, of New York for a voluntary dissolution of the corporation, the directors claimed that it is unable at present to pay its obligations in full.

Judge McAdam at once appointed Phillip W. Hall, of Garwood, temporary receiver of the company, upon his filing a bond for $20,000. The office of the company is located on Hudson street, New York.

Mr. Hall is treasurer of the company and John Mullaly, president. The total liabilities are placed at $222,011, and the nominal assets, $111,610.

When spoken to in regard to the trouble, Superintendent Leary said this morning that it was purely temporary and that the company would be reorganized at once. The cause is due to a lack of working capital and the granting of long credits on sales. Although the entire force of workmen, numbering 125, has been laid off, he declared that all may be recalled at the first of next week or possibly later and that operations would be resumed in full.

DELEGATES CHOSEN.

Borough Republicans Selected Their Representatives to the State Convention Next Week.

The Republican primaries were held in the borough last evening and delegates were chosen to the State convention of the party. An unusually small attendance was accounted for by the fact that the weather forbid the outpouring of citizens expected, including the majority of the members of the Borough Council there were not two score present.

Senator Charles A. Reed was elected chairman without opposition and the business proceeded with an entire absence of friction. W. E. Day was selected as secretary. The nominations for delegates as made were: first district, Newton B. Smalley, and second district, Justus H. Cooley. These candidates were unanimously elected, and in a few seconds the meeting adjourned.

J. Worth Coddington was selected as delegate from the township. By common consent it has become the custom of the party to select two men to represent the borough and a third as a delegate from the township, thus filling the quota allowed.

ANNUAL CRUISE.

J. W. Johnson is Entertaining Party on His Yacht Aloha in Canadian and American Waters.

As the guests of J. Wesley Johnson, president of the First National Bank, a party of Plainfielders are enjoying a cruise in the St. Lawrence river and Canadian waters. In the party are A. M. Griffen, Harold A. Wills, C. W. Buckalew, and his son, Herbert Johnson, of this city, and J. C. Stanley, of North Carolina, all of whom have been Mr. Johnson's guests at his cottage at the Thousand Islands.

The excursionists left Wednesday morning on the yacht Aloha and proceeded down the St. Lawrence river, passing through the Galop du Plat and South Sault rapids. They will cast anchor at Montreal, where they will attend the festivities incidental to the visit of His Royal Highness, the Duke of Cornwall. After a short stay they will hoist anchor and proceed further down the river as far as the Richelieu river. Afterwards the yachting party will cruise about the Lake Champlain, in quest of game. An Indian pilot is on board and will stir up the game for them.

Fine Display of Fruit.

The display of fruit at Neuman Brothers, this morning, was one of the most attractive seen in this city in some time. Every variety in season was to be seen, with peaches predominating, while the effect produced by their grouping on prominent stands, brought many complimentary remarks. Included in the array were grapes of every variety, melons and delicious Bartlett pears which invited purchase. Neuman Brothers pride themselves on the handsome array, in which they are justifiable.

SCHOOL BOYS ARRANGE A TENNIS TOURNAMENT

Will Contest For Championship of the City High School in Singles and Doubles.

THE PLAY BEGINS MONDAY.

TOURNAMENT WILL BE HELD ON CEDAR BROOK TENNIS COURTS.

Decided at First Meeting of P. H. S. A. A. Directors—Board Organized With Fred T. VanAuken as President — The Other Officers.

A tennis tournament for the championship of the Plainfield High School, both in singles and doubles, will open on the courts of the Cedar Brook Tennis Club Monday afternoon. There has been unusual interest in the game among the younger generation in Plainfield this summer and many of the High School boys are active enthusiasts. As a natural outgrowth, there was talk of a tournament among the boys and, at a meeting of the board of directors of the P. H. S. A. A., held yesterday afternoon, it was decided to hold the tournament under its auspices.

It was the first meeting of the board of directors since school began this fall. A meeting of the whole association was held Wednesday morning when the five under-graduate directors were elected and the announcement made of the appointment of the faculty and graduate directors. The new directors met and organized.

Fred T. VanAuken was elected president, G. LeRoy Hallock was chosen vice-president and Hervey K. Doane, secretary treasurer. A small appropriation was made for the use of the manager of the football eleven.

The only other business of importance was the arrrangement of the tournament. The formal offer of the Cedar Brook Tennis Club of the use of its courts on La Grande avenue, near Richmond street, was accepted with thanks. A committee, composed of Kenneth Bulkley and Vincent B. Miner, was appointed to conduct it and an appropriation made for the expenses. The tournament will begin Monday afternoon. Arrangements will be made to accommodate the spectators. There are already thirteen entries for the singles and six pairs for the doubles. The tournament will probably last three days.

OFFERS REWARD.

Wm. Palmer Smith Wants to Find Out Who is Poisoning His Valuable Dogs.

William Palmer Smith, of Belvidere avenue, in today's Daily Press offers $100 reward for the detection and conviction of the guilty party or parties who poisoned his Boston terrier, "Adonis," Monday morning. The sum of $25 will be paid for competent information leading to the detection of the guilty ones and an additional $75 upon conviction.

Mr. Smith has, during the past few months, lost three valuable dogs, two as a result of poisoning and the other from an injury inflicted. His loss aggregates about $250 and he thinks it is about time that the dasterdly work is stopped.

He has not been the only one to suffer such loss, for other residents in the Netherwood district have lost valuable dogs. Mr. Smith believes that these cruel-hearted persons can be detected and all lovers of thoroughbred dogs sincerely hope with him that they may.

WOULDN'T TRY CASE.

Justice Hand Refused to Hear It on Day of President's Funeral.

To the disappointment of the interested parties and a number of witnesses, Justice Hand remained true Thursday to his determination to respect President McKinley's memory and refused to try a case which had been previously set for that date.

The case in question was that of Clement against Vermeule, in tort, the date of trial having been set before the President's proclamation was issued, asking that Thursday be observed as a day of mourning. Although plaintiff and defendant appeared in court and requested to be heard, the justice laid the case over for one week.

Ran Into a Tree.

(Special to The Daily Press.)

Dunellen, Sept. 21.—A team of horses belonging to E. B. Randolph, of Bound Brook, ran away while on North avenue, last night. The whiffle-tree bolt broke. The horses ran into a tree, throwing out Henry Dougherty, the driver. He escaped with a few bruises and the horses were re-captured.

ORDERED NEW PLANK FLOOR.

BRIDGE COMMITTEES OF FREEHOLDERS VOTE ON IMPROVEMENTS.

Visited Washington Avenue Bridge and Took Immediate Action—Giraud Avenue Bridge Hangs Fire.

The bridge committees of the Board of Freeholders of Union and Somerset counties met Thursday afternoon in the borough and visited the Washington avenue bridge. After examining the structure thoroughly the committeemen decided that entire new planking is necessary and this was accordingly ordered to be done.

Many of the planks on the structure at present are in a bad condition and even dangerous. Work on the flooring of the bridge will commence Monday and will be completed as soon as possible.

No action has as yet been taken in regard to the Giraud avenue bridge. Here a worse condition of affairs is presented, and from the dilatory methods of the Somerset county Board of Freeholders it appears that nothing can be expected. Freeholders Lutkins and Mobus have the support of three of their collegues in advocating a substantial concrete structure, but are receiving the objections of the members from the upper end of the county, who are in favor of a cheap and ordinary plank structure. There the matter hangs.

VERDICT FOR DR. GASTON.

JURY AGREED AFTER BEING OUT FOR AN HOUR AND A HALF.

Retrial of Case Before Justice Moffett Yesterday—Verdict was for $50—$131.50 was Asked.

Nearly six hours were required yesterday to retry the contract case of Gaston and Barnes, in which a jury failed to reach a verdict in Justice Moffett's court last week. Twelve new men were in the jury box, to whom the case was given at 7:30 last evening.

The lawyers for both sides produced the same witnesses as appeared in the previous trial and the testimony, in the main, was but a repetition. When the jury returned after an hour and a half's deliberation, a large crowd was awaiting the verdict. As announced by the foreman, it was for $50 in favor of the plaintiff. The amount sued for was $131.50. For some time the jury stood 9 to 3 in favor of no cause for action, but the amount was the result of a compromise. It is thought the verdict will be accepted by the defendant's counsel without an appeal being taken.

Those comprising the jury were Isaac Randolph, H. D. Thompson, B. W. Hand, Robert Snowden, Edward Randolph, Thomas Osmun, John Abbot, J. Henry Crane, Frank Frazee, Peter Munday, Edward Lynch and W. S. Pound.

REV. MR. MAIN ACCEPTS.

He Will Go As Dean Of The Reorganized Alfred Theological Seminary.

The Theological department of Alfred University, Alfred, N. Y., has been re-organized under the name of "The Alfred Theological Seminary," with increased endowment, a larger faculty and broader plans. It is now one of a few seminaries to offer, in addition to regular and thorough theological courses, to men and women of all Christian denominations, in equal terms, a Bible normal course, also for the training of teachers of the English Scriptures and of other Christian workers.

Rev. Arthur E. Main, pastor of the Seventh-Baptist church, has accepted an appointment to become dean of the seminary, Plainfield professor of doctrinal theology and professor of practical theology. Mr. Main has been at Alfred University for several days for the purpose of assisting in the organization of the work to be done in his department, and he expects to move there about the middle of October.

MISS TIER'S PARTY.

Was Given in Honor of a Friend Last Evening.

Miss Gertrude Tier, of Bank place, gave a delightful affair in honor of her friend, Miss Rose Schroeder, of New York, last evening. Dancing and "progressive peanuts," a new game, were the events of the evening.

In all there were twenty-five young people from this city and the borough present. Refreshments were served and the guests left for their homes after midnight.

Frost Tonight.

Light frost is predicted for tonight. The temperature will fall rapidly in the evening. Give your attention to the plants.

LOCAL WORKMEN HELD A MEMORIAL SERVICE.

Columbia Lodge Arranged the Meeting and Central Lodge Sent a Delegation

ADDRESS BY MR. SNODGRASS

OTHER SPEECHES AND MUSICAL SELECTIONS MADE UP PROGRAMME.

Grand Foreman V. W. Nash Presided—Dr. Snodgrass Denounced the Yellow Journals and Blamed Them For the Existing Conditions.

Under the auspices of Columbia Lodge, No. 58, Ancient Order of United Workmen, an impressive service was held last evening in memory of the late President McKinley. The meeting was held in the lodge rooms on Park avenue and was well attended by members and friends, as well as by members of Central Lodge, No. 48. Grand Foreman Vincent W. Nash, of Columbia Lodge, presided, and with a few words announced the object of the meeting.

The programme was opened with the rendition of Chopin's Funeral March, after which Rev. G. W. Gardner, pastor of Grace M. E church, offered an earnest prayer. The Scripture selection was read by Deputy Grand Master Workman Fowle, of Irvington. An appropriate vocal selection was given by Joseph D. Moon, accompanied on the organ by Vincent F. Sokol.

Mr. Nash then introduced Rev. Dr. W. C. Snodgrass, a member of the lodge, who delivered an interesting and inspiring discourse. He spoke of the American people in discriminating between liberty and license. It is a critical question to draw the line in the right place, but the line would have to be drawn. The assassin is the product of certain things allowed to exist and the unlimited speech that has sought to destroy the best society. Dr. Snodgrass said that the people are now reaping what has been sown, for they have been indifferent to what has been going on.

The speaker arraigned the yellow journal that has been allowed to vilify certain officials and to arraign class against class. Now the people are suffering from that indiscretion.

The latter part of the speaker's remarks referred to President McKinley personally and eulogized him for his many excellent qualities, of his entire devotion to duty. He spoke of him as a typical American and a man of great ability and equal to every emergency.

After the address Korff's orchestra rendered an appropriate selection and Horace J. Martin, Sr., sang "Sometime We'll Understand," accompanied on the organ by Dr. J. Hervey Buchanan.

Dr. Buchanan was then introduced and made a short address in which he paid rich and glowing tribute to the memory of the martyred President and deplored the fact that the laws are so lax.

At the close of the service those present joined in singing "Nearer My God to Thee," after which the benediction was pronounced by Dr. Snodgrass.

Among those present at the service were Mayor O. L. Jenkins and James F. Buckle, representing the city. The room was appropriately draped for the occasion, including a draped American flag and excellent photographs of the late President.

AT THE THEATRES.

Something About the Attractions Which Plainfield Theatre-Goers May Care to Witness.

Four revivals of more than ordinary importance are given at the Proctor theatres in New York for the coming week. Of that number two are hilarious comedies, one a stirring military play and the fourth a favorite drama of absorbing interest. "The Jilt" comes to Manager Proctor's downtown home of comedy after having amused great throngs at his theatres further up town. At the Fifth Avenue Theatre that greatest of all Madison Square successes, "Hazel Kirke," is revived with an excellent presenting company. Wednesday afternoon a special performance of "Camille" will be given by the company presenting "Hazel Kirke" during the rest of the week. The bill at the Fifty-eighth Street Theatre will engage the Proctor Stock Company in their fine revival of "A Night Off." Harlemites will enjoy the splendid revival of Hawson's spectacular military drama that has scored such a hit at Mr. Proctor's downtown theatres. Manager Proctor evidenced his respect for the dead President by closing all of the theatres on the Proctor circuit Thursday afternoon, the day of the funeral services. With houses in New York, Montreal and Albany, (six in all) his tribute to the martyred President was more universal than that of any one manager in America.

LITERARY.

The Smart Set for October opens with an amusing novelette entitled "The Career of Mrs. Osborne," by S. Carleton and Helen Milecete, the latter the author of "Miss Vandeleur, Pirate," one of the successes of last year. The present story narrates the adventures of two charming young women who escape from tiresome country relatives and take an apartment in London under the fictitious chaperonage of "Mrs. Osborne." Their escapades, their many devices to avoid detection and their final disposition of "Mrs. Osborne" are highly diverting. Richard Le Gallienne contributes a masterly short story to the number. "The Household Gods," that details a woman's struggle with temptation. "The Splendor of Dead Days" is a fascinating article by Marvin Dana that compares the magnificence of former ages with the luxury of the present. Besides these features there are thirty or more other signed contributions of varied interest, notably the poems "Sonnets to a Lover," by Myrtle Reed, and "Invocation," by Charles G. D. Roberts. All in all, the number is the most notable and entertaining yet issued by this cleverest of the popular magazines.

PERSONAL.

Miss Lizzie Hulick, of Dunellen, is visiting friends in this city.

Carman Sutphen, of this city, who is at Liberty, Sullivan county, N. Y., is reported as being very poorly.

Miss May Duckworth, of Watchung avenue, has returned from a two weeks' vacation in Connecticut.

Mrs. Charles D. Whitall, of East Fifth street, is visiting her son, Charles P. Whitall, at Stonington, Conn.

Mr. and Mrs. Arthur T. Gallup, of West Front street, left yesterday, over the Lehigh Valley, for the Pan-American Exposition.

Isaac Smalley, of East Front street, is rapidly recovering from the injuries he received some time ago, when he fractured his leg.

Mr. and Mrs. Caspar Kirkner, of Brooklyn, have been spending a few days with Mr. Kirkner's parents on West Eighth street.

Mr. and Mrs. U. G Force, of Richmond street, are the proud parents of a young son who arrived at their home yesterday morning.

George W. Clickner and family, of Point Pleasant, are visiting at the home of Mr. and Mrs. Henry VanMiddlesworth, on Plainfield avenue.

Miss Addie Weaver, who has been in New Haven for several months on business, is visiting her father, Constable Peter V. Weaver, of West Front street.

Captain R. M. English, U. S. A., who has been serving in the Philippines as a surgeon for some time, has been the guest of Dr. Arthur H. Dundon, of Somerset street, for the last few days.

—Henry Braydon, Harris, N. C., says: "I took medicine 20 years for asthma but one bottle of One Minute Cough Cure did me more good than anything else during that time. Best Cough Cure." L. W. Randolph.

—James Slorah, of McDowell street has taken a position in a machine shop at New Brunswick.

—Many physicians are now prescribing Kodol Dyspepsia Cure regularly, having found that it is the best prescription they can write because it is the one preparation which contains the elements necessary to digest not only some kinds of food but all kind and it therefore cures indigeston and dyspepsia no matter what its cause. ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Astamalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler, late Rabbi of the Cong. Bnai Israel. NEW YORK, Jan. 3, 1901.

DRS. TAFT BROS', MEDICINE CO.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. After having [illegible] we can state that Asthmalene contains no opium, morphine, chloroform or ether.
Very truly yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., February 7, 1901.

DR. TAFT BROS. MEDICINE CO.,
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully, O. D. PHELPS, M. D.

February 5, 1901.

DR. TAFT BROS. MEDICINE CO.,
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street.

MEETS HIS CABINET.

President Roosevelt Begins Work at the Capital.

THE FIRST OFFICIAL BUSINESS.

Colonel Bell Made a Brigadier, and Ridgeley Is Named to Succeed Dawes, as Previously Planned by President McKinley.

WASHINGTON, Sept. 21.—President Roosevelt and his cabinet met in the cabinet room of the White House for the first time yesterday morning. Friday is one of the days on which the cabinet regularly meets when the president is in Washington, and the hour of meeting was the usual one, 11 o'clock.

Mr. Roosevelt occupied the same seat that had been occupied by all his predecessors since the foundation of the White House—that is, at the end of the table near the single window at the south end of the little council chamber, and his advisers took their places around the table according to the official order of precedence. All the seats were occupied except that of Attorney General Knox, who stopped in Pittsburg on the way from Canton. He will arrive in Washington on Monday.

President Roosevelt opened the cabinet meeting by repeating what he said to the members soon after the death of President McKinley. He said that he was grateful that the faithful counselors of his predecessor had consented to retain their portfolios. He believed this was done at some personal sacrifice by several of them, and he warmly expressed his pleasure that they had patriotically agreed to continue at the head of their several departments.

The meeting lasted about an hour and a quarter. No important business was transacted.

President Roosevelt, the members of the cabinet and the other government officers who made up the McKinley funeral party from Washington returned to the capital from Canton early in the morning. The president went direct to the White House.

As soon as the new president arrived at the White House he took up, with Secretary Cortelyou, several matters that had been considered by President McKinley and on which particular action had been determined upon but not actually consummated.

Before the meeting President Roosevelt performed his first official act in the White House. This was the appointment of Lieutenant Colonel James M. Bell as a brigadier general in the army. This appointment was one of those decided upon by President McKinley, but the commission was not signed before his death. Colonel Bell was promoted twice during the civil war for meritorous conduct, once in the Indian campaign of Montana and has recently distinguished himself in the Philippines.

President Roosevelt told Senator Cullom that, in accordance with the plan of his late predecessor in office, he should appoint William B. Ridgeley comptroller of the currency, to succeed Mr. Dawes, who has resigned.

About 1:30 o'clock, shortly after the conclusion of the cabinet meeting, President Roosevelt left the White House and went to the residence of his sister, the wife of Commander Cowles of the navy, for luncheon. Disdaining a carriage, he walked swiftly and alone. No one had known when he would leave his office, and as he passed briskly out of the grounds of the executive mansion he attracted little attention, scarcely anybody recognizing him. He crossed Pennsylvania avenue into Lafayette square and thence up Sixteenth street to his destination. In the course of an hour and a half he returned to the White House, still alone and still walking.

Mrs. McKinley Visits Tomb.

CANTON, O., Sept. 21.—Mrs. McKinley went to the cemetery about noon yesterday and spent some little time at the vault in which the casket of the late president lies. She bore the trip bravely. Those about her take a very hopeful view. The house has been emptied of all its guests, the funeral party, excepting Dr. Rixey, Mrs. M. C. Barber, sister of Mrs. McKinley, and several close Canton relatives, having departed during the night or early morning. A guard of half a dozen soldiers still surrounds the house, merely to keep out the idly curious and to preserve quiet. A few callers left cards at the house during the forenoon, including Senator and Mrs. Fairbanks.

Cuban Tariff to Be Reduced.

WASHINGTON, Sept. 21.—It is expected that one result of the visit of General Wood to Washington will be the issuance of orders soon making reductions in certain cases in the Cuban tariff, of which the most important will be on sugar machinery and materials for railroad building. Anticipating changes in the Cuban tariff, importers have withheld shipments. It having been definitely determined that no general revision of the tariff will be made until the Cuban government is formed, the special reductions will be made by the war department.

A Possible Anarchist.

WASHINGTON, Sept. 21.—The police are looking for a man who approached several pedestrians early yesterday and asked the address of President Roosevelt's sister, the wife of Commander Cowles of the navy. Several officers were detailed to guard the Cowles residence. The man is described as about forty years old, speaks with a foreign accent, has a light mustache, wears dark clothes and carried a box about eight inches long and three and a half wide.

German Compositors Out of a Job.

BERLIN, Sept. 21.—There are now 532 typesetting machines in use in Germany, 323 linotypes and 209 typographs. The number of typesetters employed in connection with them is 816. In consequence of the introduction of the machines 641 compositors have been discharged.

Famous Restaurant Keeper Dead.

COLORADO SPRINGS, Colo., Sept. 21.—Charles C. Delmonico, proprietor of the famous Delmonico restaurant in New York, is dead here of consumption. Mr. Delmonico came here in June for the benefit of his health. He leaves a widow. He was forty years of age.

The Cobra's Death List.

LONDON, Sept. 21.—It is announced officially that sixty-seven persons perished by the destruction of the torpedo boat destroyer Cobra. Of this number forty-five were naval men.

THE DUKE IN OTTAWA

The Royal Party In Canada's Capital.

A GREAT POPULAR DEMONSTRATION.

A Formal Greeting In Parliament Square—The Royal Pair Heartily Cheered—School Children Sing "God Save the King."

OTTAWA, Sept. 21.—When the Duke and Duchess of Cornwall reached the Canadian capital, there was another great outpouring of people to give them a greeting of loyalty and warmth. They left Montreal in their special train at 9 o'clock yesterday morning, and their departure was marked by another demonstration of popular regard. They left from Windsor street station, and half an hour before they arrived at the depot the lines of troops and police alone kept the streets in that section open to traffic.

A troop of hussars surrounded their briskly driven carriage, and their departure to the home of Lord Strathcona started a cheer that, with ever growing volume, extended to the depot. The railroad track was lined with people far beyond the suburbs of Montreal.

The train pulled up at the town of Alexandria long enough for the officials to express a few words of welcome. The duke and duchess appeared on the platform for a moment, and the former acknowledged the kindly expression. The royal special reached Ottawa at 12:05 o'clock, and the duke, attired in his favorite uniform of admiral of the British navy, alighted at once, accompanied by the duchess and the members of his staff. They were formally received by Lord Minto, governor general, and escorted to a state barouche. A guard of honor from the Forty-third regiment was drawn up across the approach to the depot, and an escort from the Royal

DUKE AND DUCHESS OF CORNWALL.

Canadian dragoons was in waiting. The dragoons reined their horses alongside the barouche, and the duke and duchess were driven to Parliament hall. The streets through which they moved were splendidly decorated, and thousands of people were banked behind the police and sentry lines.

It was in Parliament square, formed by the classic group of government buildings, that the formal ceremony of greeting the heir apparent took place, and here was gathered the largest crowd of all.

The royal pair were cheered heartily as they entered the square and were shown to a flag covered stand. Here were gathered Premier Laurier and his cabinet, Mayor Morris and the city aldermen, the supreme court justices, the bishops of the Roman Catholic and Anglican churches and representatives of a score of municipalities and organizations.

The duke was attended by Viscount Crichton, Lord Roxburgh and Lord Wenlock, Prince Alexander of Teck and his military and naval aids in brilliant uniforms, and the scene in Parliament square as they advanced up the carpeted walk to the reception stand was most picturesque. The several addresses were presented at once, and the duke made an extended reply, expressing his appreciation of the honor shown.

At the close of the address of the duke 3,000 school children raised their young voices in the strains of "God Save the King."

The party then left the stand, the duchess being shown to her carriage by Premier Laurier and the duke escorting Lady Laurier. The royal couple drove at once to Rideau hall, the official residence of the governor general, where they are to live during the four days they remain in Ottawa. As they rode through the flag hung streets crowds surrounded their carriage and offered new tributes of cheers.

At night at Rideau hall there was a state dinner, and all of the notables gathered here were bidden to attend. The parliament buildings were outlined in light, and every large structure in the city was brightly illuminated. Thousands of lanterns hung in the parks, gardens and streets. The city was filled with visitors from the surrounding cities and towns.

Today the Duke of Cornwall will unveil the Victoria monument, present medals to the Canadians who served in South Africa and attend luncheon at the Rideau club. Later in the afternoon there will be a garden party at Rideau hall.

Chairman Pattison Resigns.

PHILADELPHIA, Sept. 21.—A sensation was sprung in local political circles last night when ex-Governor Robert E. Pattison announced his resignation as chairman of the Democratic city committee as a result of the action of the county convention in nominating a straightout Democratic ticket. Coupled with this announcement was a suggestion from Mr. Pattison that a new Democratic organization be formed in the city, which brought out a statement from National Committeeman James A. Guffy heartily indorsing the suggestion. The party organization in this city is controlled by ex-City Chairman Charles P. Donnelly and City Commissioner Thomas J. Ryan, and there has of late been much opposition to their leadership.

Philippine Cable Completed.

WASHINGTON, Sept. 21.—The signal office of the war department has received a message from Manila saying that the last link of cable had been laid which allowed telegraph communication with the southernmost island of the Philippine group. Heretofore messages had to be carried across a point about the middle of the group by boat.

Philippine Tariff Approved.

WASHINGTON, Sept. 21.—Secretary Root has approved the final draft of the Philippine tariff, and Governor Taft was so informed.

CZAR TAKES A REST.

Frenchmen Find Much Fault With President Loubet's Treatment.

COMPIEGNE, Sept. 21.—There was no definite programme for the czar and czarina yesterday, and their majesties rested at the chateau. They were tired after the long military maneuvers of Thursday. The royal pair took luncheon in their private apartments at the chateau.

The czarina has many photographs which she took of Thursday's scenes.

Count Lamsdorff and M. Delcasse, the foreign ministers respectively of Russia and France, interchanged visits. M. Waldeck-Rousseau, the French prime minister, also visited the czar in the morning, and M. Delcasse was received by the Russian emperor yesterday afternoon.

The afternoon papers were filled with complaints from senators, deputies and members of the press at the scurvy manner in which they were treated as the invited guests of President Loubet at Dunkirk. One senator, writing to the Figaro, says, "The government shall pay dearly for this insult."

It is rumored that, notwithstanding the government's warning, the czar will visit Paris tomorrow.

Parisians are disgusted with the government for advising the czar not to come to Paris.

The crowning feature of the day's events was the gala performance in the Clateau theater, which followed a grand banquet in the famous Hall of Columns, at which the members of the French cabinet, the officers of the senate and chamber of deputies and leading members of the suit of the czar and M. Loubet were present. The theater, which is a small oblong edifice and is decorated in red and gold, presented a dazzling spectacle with the brilliant uniforms of the officers lavishly embroidered with gold lace and the superb toilets of the ladies.

Lord Derby Defeated Boralma.

READVILLE, Mass., Sept. 21.—Over 8,000 people saw Lord Derby defeat Boralma without apparent effort yesterday afternoon in straight heats. The Lawson horse seemed to be outclassed and utterly unable to hold Lord Derby on the home stretch, and in the last two heats Geers eased the Hamlin horse up perceptibly. The time, 2:07¼, 2:07¾ and 2:08, considering the heavy wind that blew up the back stretch and met the horses for a full half mile, was remarkably fast.

A Statue to McKinley.

ADAMS, Mass., Sept. 21.—Money is already being donated by popular subscription for the erection of a bronze statue of the late President McKinley in this town. Hon. William B. Plunkett, whom Mr. McKinley had visited so many times during his visits to the Berkshire hills, is chairman of the committee of arrangements. The statue will stand directly in front of the library building, the cornerstone of which was laid by President McKinley four years ago.

MISSING MAN FOUND.

I. A. Chanler Disappeared From an Asylum and Was Thought Dead.

CHARLOTTESVILLE, Va., Sept. 21.—John Armstrong Chanler, the divorced husband of Amelie Rives, now Princess Troubetskoi, and who has been lost for nearly a year, many of his friends thinking he was dead, arrived in this city yesterday morning on the 10:06 southern train from Lynchburg, where he had been stopping at the Arlington hotel for six weeks. He was met at the train and driven to the residence of his friend and counsel, Captain Micajah Woods. Mr. Chanler's friends have given out the following statement:

"On the 13th of March, 1897, Mr. Chanler, then a citizen of Albemarle county, Va., visiting in New York, was committed to Bloomingdale asylum at White Plains, N. Y., on an order of a judge of the supreme court of that state.

"On Thanksgiving eve, 1900, after numerous fruitless efforts to secure legal counsel, having managed to borrow from a friend a few dollars, he escaped from the asylum and went to Philadelphia. There, under the guise of an attorney representing a client, he submitted his case to a distinguished neurologist, Dr. F. Madison Taylor, and upon Mr. Taylor's expressions of willingness to assume charge of his alleged client he disclosed his identity.

"In order to afford Dr. Taylor ample time and opportunity for observation Mr. Chanler, of his own motion and without compulsion, repaired to a private sanitarium in Philadelphia under the charge of Dr. Taylor and remained there for six months.

"During this time a number of eminent alienists, neurologists and psychologists were called in consultation by Dr. Taylor, and the records of the proceedings in Louisa county disclose the unanimous opinion of all these experts as to Mr. Chanler's sanity.

"Later, having placed himself in touch with his counsel by correspondence, he came to Virginia and lived at Lynchburg up to Sept. 20, when he returned to his home county of Albemarle, where he now is and where proceedings will be instituted under the Virginia statutes to demonstrate before a court of competent jurisdiction and in an affirmative manner his entire sanity."

SOUTH AMERICAN AFFAIRS.

Disturbance In Colombia Thought to Be on the Decline.

WASHINGTON, Sept. 21.—Dr. Martinez Silva, the Colombian minister, called at the state department and had a short talk with Secretary Hay in regard to affairs in South America.

It is understood to be the earnest hope of the Colombian as well as the United States government to have the troubles between Colombia and her neighbors satisfactorily adjusted without the intervention of the United States to carry out her treaty guarantees in regard to Colombia. From the latest advices received at the Colombian legation the officials there are confident that the disturbance in their country is fast dwindling away and will come to an abrupt end soon. No further alarm need be felt, they say, in regard to conditions on the isthmus.

As to the border troubles, it is claimed that the attempt to establish a Venezuelan base at Rio Hacha having failed there is no other point where a Venezuelan attack could prosper. Colombian officials say that the failure of the Rio Hacha expedition is the final blow to the hopes of the Venezuelan president, who, it is stated, hoped to gain a foothold on Colombian territory in Goajira and then give what was really a Venezuelan force the appearance of a Colombian revolutionary body. Altogether they are very sanguine as to the prospect of a speedy termination of the Colombian-Venezuelan rupture.

A New Labor Organization.

PITTSBURG, Sept. 21.—A committee which embraces delegates from Ironsides, Canal Dover, Cambridge, Demmler and the Star and Monongahela plants, this city, has formulated plans for a new organization and will recommend their adoption at a general meeting today. This meeting at first was scheduled for Newcastle, but later it was decided to hold it in this city. District Manager Phillips of the American Tin Plate company was in New York and could not be communicated with. The committee, believing he will not recede from his position, completed its plans for a secession from the Amalgamated association, which it is expected will be ratified today.

Bishop Whipple's Funeral.

FARIBAULT, Minn., Sept. 21.—Faribault was again in mourning yesterday when the earthly remains of Bishop Whipple were consigned to their last resting place. The services were solemn and impressive and were witnessed by thousands of people, only a portion of whom could gain admittance to the cathedral, where the final exercises took place. The bishop's body lay in state in the cathedral from 11:30 to 1:30 and was viewed by thousands. The funeral service began at 2 o'clock and was conducted according to the ritual of the Episcopal church. Business of all kinds was suspended during the hours of the funeral.

Venezuelan Prisoners to Be Shot.

CURACAO, Sept. 21.—Refugees from Sommelsdyk say that Colombia threatens to shoot Venezuelan prisoners under a decree lately issued to the effect that all foreigners aiding the Colombian Liberal movement or invading Colombian soil shall be shot if caught. The Venezuelan general Davila is reported to be in bad favor with his government because of his recent defeat. It is alleged here on good authority that Venezuelan official circles are much perturbed and annoyed over the reported action of the French cruiser Suchet when the steamer Alexandre Bixio landed Colombian troops at La Hacha Sept. 9.

Conference Over Cuba.

WASHINGTON, Sept. 21.—Governor General Leonard Wood went to the White House after the meeting of the cabinet yesterday, and a conference of an hour or more was held between the president, Secretary Root and General Wood in regard to the new election law of Cuba. In general the election law is regarded favorably, but the provision for elections to be held on several different dates will probably be modified so as to provide not more than two election days.

DANTZIC, Sept. 21.—Emperor William has conferred the grand cross of the Order of the Red Eagle upon Prince Chun, head of the Chinese mission of expiation for the murder of Baron von Ketteler.

SCHLEY COURT MEETS

Admiral Ramsay Accepted In Howison's Place.

EXAMINATION OF WITNESSES BEGUN.

The Inquiry Into the Conduct of Admiral Schley at Santiago Excites but Little Interest, and the Attendance Is Small.

WASHINGTON, Sept. 21.—Promptly at 11 o'clock yesterday morning the court of inquiry appointed to investigate the conduct of Rear Admiral W. S. Schley, U. S. N., in the war with Spain and the events growing out of his participation in that war reassembled in the gunners' workshop at the Washington navy yard. There was a comparatively small attendance of spectators, not half the seats being occupied. Only a few persons were in the reserved seats.

All the members of the court were present, Admiral Dewey and Rear Admirals Benham and Ramsay. Admiral Ramsay occupied the seat of Rear Admiral Howison, to whose place he had been assigned after the latter was excluded from membership on Admiral Schley's challenge. The members of the court and the judge advocate, Captain Lemly, wore the service uniform of blue. The blouse was without buttons and shoulder straps, the insignia rank being worn on the collar and sleeves.

Admiral Schley, also in the service uniform, was seated at the table assigned to himself and his counsel. Other officers of the navy called as witnesses or having duties connected with the navy yard were present in uniform. Among them were Rear Admiral Higginson, who commanded the Massachusetts, and Captain Cook, who commanded Admiral Schley's flagship, the Brooklyn, in the West Indian naval campaign. Admiral Higginson and Captain Cook were the undress uniform, blue frock coat with shoulder straps and a double row of brass buttons and trousers of the same material as the coat.

With Admiral Schley were his counsel, Messrs. Wilson, Rayner and Parker. W. H. Stayton, who has been retained to represent the interests of Admiral Sampson if necessary, sat among the spectators.

The court got to work without any delay. Captain Lemly opened the proceedings by asking Admiral Schley if he had any objection to any member of the court, and Admiral Schley answered that he had no objection. Then Captain Lemly swore in the members of the court, and this done Admiral Dewey swore in Captain Lemly as judge advocate.

After the reading of a letter from Admiral Dewey asking the navy department for all papers relating to the case and the department's answer transmitting them Captain Lemly suggested that it was necessary for the court of inquiry to adjourn at this stage of the proceedings to discuss methods of procedure. An informal recess was then taken while the court retired.

The court was out ten minutes. It returned at 11:25 o'clock, and the judge advocate reopened the proceedings by asking Admiral Schley, to whom he referred as "the applicant," whether he had any suggestions as to how the sessions should be conducted.

"Go right ahead," said Admiral Schley promptly.

Then Captain Lemly presented for reference and not as evidence the report of the chief of the bureau of navigation for 1898, merely, he said, to show the movements of naval vessels in the war with Spain. The appendix to that report, containing most of the official communications of the navy department in the war with Spain, was then presented, and Judge Wilson of Admiral Schley's counsel said there would be no objection if the appendix was not intended as evidence.

Admiral Schley and his counsel examined the chart carefully, but on the judge advocate's reassurance that it was intended only for reference and not for evidence they said they had no objection to having it introduced.

The judge advocate read the orders appointing Admiral Sampson commander in chief of the north Atlantic naval force in 1898 and the order appointing Admiral (then Commodore) Schley to the command of the flying squadron.

Rear Admiral Francis J. Higginson, who commanded as a captain the battleship Massachusetts in the war with Spain, was then called as a witness and examined at length. He is now commander in chief of the north Atlantic squadron.

Commander Giles B. Harber, who was executive officer of the Texas, one of the vessels attached to the flying squadron, described the movements of the Texas and the squadron from Hampton Roads to the south coast of Cuba. He said that when the Texas left Hampton Roads on May 13 she was full of coal and had three tons on deck.

The other witnesses were Captain C. M. Chester, who commanded the cruiser Cincinnati, and Major Thomas N. Wood of the marine corps, who commanded the marines on the Massachusetts.

The court adjourned at 4 o'clock.

Twenty-five Supposed to Be Lost.

CALUMET, Mich., Sept. 21.—Advices received from Eagle River state that persons patrolling the lake shore in that vicinity have found wreckage, presumably from the Western Transit line steamer Hudson. The wreckage consists of a couple of spars, hatch covers and a quantity of flour. The cargo of the Hudson consisted largely of flour. No bodies have yet been found. It is thought the crew of twenty-five went down.

Sampson's Return to Boston.

BOSTON, Sept. 21.—Rear Admiral and Mrs. Sampson, with their sons Ralph and Harold, have returned to the Charlestown navy yard from Lake Sunapee, N. H. The admiral has derived a great deal of benefit from his sojourn in New Hampshire.

Municipal Ownership.

Now that Mayor N. B. Smalley has secured practical evidence of the fact that there is a possible supply of water within the confines of the borough, the subject of munical ownership of water works took a decided boom at the meeting of the Borough Council last evening. Most of the councilmen had something to say on the subject and the Mayor grew decidedly enthusiastic.

Nothing of a definite nature was done at last evening's session. In fact, it was out of the province of the Council to really advance the work without the permission of the people. There seems no reasonable doubt, however, but that the question will be put to vote in that municipality at the next spring election. Meanwhile all the Council can do is to find out just what is possible and what it will cost to provide the borough with its own water works

There seemed no doubt as to Mayor Smalley's evident sincerity to advance the work as soon as possible. He offered the borough the necessary land on which to build a reservoir or stand-pipe and furthermore agreed to furnish the stone for its erection, and the building of a pumping station.

There has been no end of talk regarding municipal ownership on both sides of the brook. Here it has really amounted to nothing. In the borough the Borough Council has taken up the subject and there now grows a possibility, very faint it was at first, that definite action may be taken on it in the future.

Each nationality has its own way of observing an event of national importance. There were some who very unjustly criticised the local Italian society, the Societa Operaia Italianna, for parading on the day of President McKinley's funeral. The society had intended to give a picnic this fall, but when the death of the President was known through the land, the members of that organization desired to show their loyalty and their great respect for that ruler. The funds intended for the picnic were therefore devoted to a parade, the customary way of the Italians of marking any such happening. Instead of criticism there should be only unstinted praise for the worthy act of the members of that organization. While they may not have used the same means that many of us would to honor the memory of the martyred President, yet they evidenced very clearly that their heart was in the right place.

The manager of a large establishment has told a representative of Advertising Experience that far better results are obtained from newspaper advertising than from magazine advertising, which costs much more for each one thousand of circulation. He finds that other advertisers also have quit the magazines for the newspapers of large circulation. In other words, while it costs less to reach one thousand newspaper than it does to reach the same number of magazine readers, the returns from the former are better.

The time is drawing nigh when things political will begin to happen with considerable rapidity. The Republican and Democratic primaries both come next week. Then there is the Republican State convention as well. During the week following the Democratic State convention is scheduled and the Union county Republicans will have their outing.

It was certainly a great mistake that more than one union memorial service was not arranged in this city Thursday morning. There was an ample supply of talent and churches were not lacking. On an occasion like that an opportunity should certainly have been given to all to take part in exercises in memory of the departed ruler.

The horrible death of Lawrence Doyle on the railroad Thursday night was a shock to the community. Although a young man, he possessed a very large circle of friends and seemed on the fair road to rapid promotion when death ended his career in so untimely fashion.

Another evidence of the steady return of lawn tennis into general popularity is the fact that for the first time in the life of the Plainfield High School Athletic Association, a tennis tournament for the championship of the High School will be played under its auspices.

It is welcome news that the activity in the building trades in Plainfield is so great that the local contractors have difficulty in securing the necessary artisans. There is no better sign of prosperity than activity of this nature.

There may be something new about the possible location here of the Ingersoll-sergeant Drill Company's factory brought out at the meeting of the Board of Trade Monday evening.

Why does not the New Jersey Central Railroad put the roadways leading to its new east bound station in proper condition? There are many who ask that question.

The North Plainfield Board of Education will struggle Monday evening with its present problem to supply the demand for education in the borough.

There are bright prospects for football, both the Rugby and the association game, in Plainfield this fall.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May Be Of Interest to Plainfield and Its Citizens.

It has remained for a Union county man to solve the divorce problem. "If," says he, "there were fewer marriages the divorce evil would be remedied." Mr. Dooley should look to his copyright.—Newark News.

* * * * * * *

Ex Congressman John T. Dunn, of Union county, has passed judgment on the condition of things among the Essex county Democrats. He declares it reminds him of an old-fashioned "pig shearing, with more cry than wool." And to show his unswerving party loyalty, lest his attitude might affect the fortunes of the State Democracy, Mr. Dunn says that no matter who the convention may nominate he, Mr. Dunn, will support heart, etc.—Newark News.

TEA TABLE TALK.

Short and Gossipy Sketches That Are Not Always News, But Just as Interesting.

Unknown to the vast concourse of people who were struggling to gain admission to the Crescent Avenue church, Thursday, on the occasion of the memorial services, Building Inspector T. O Doane was attending to his duties. When the church was filled with the number which the Inspector believed should be the limit, the doors were closed.

Patriotism of the right kind is instilled in the heart of the borough recorder, Thomas Doud. Thursday he declared that he would lay aside his worldly occupation and consider the time. During the morning he entered his yard, where repairs are being made. There he noticed some men at work felling a tree. Approaching them he demanded what they were doing. "We were told that you had no objection to our cutting down this tree," they replied. In his usual forcible manner, the recorder declared that he cared not provided they chose a suitable time, and then drawing himself up at full height and expanding his chest, he shouted: "Get the dickens out of here you blamed anarchists." No work was done there that day.

A SENSIBLE NEWSPAPER.

So Promises the Sunday North American, the First Number of Which Will Be Out Soon.

The North American announces that September 29 it will begin the publication of a Sunday edition. Prevailing conditions demand of each metropolitan paper an issue every day in the year, and The North American is obeying that demand. Rumors of this innovation have already been heard and interest and speculation as to what it will be like is keen. The North American, when it does anything, does it better than any one else, and in the matter of a Sunday paper the same rule is expected to apply.

For one thing, The North American promises that its Sunday edition will be "different." The standard of text and illustration will be as high as that of any monthly magazine. It will not be "cheap" in any sense. It will not magnify the trivial, neither will it make heroics out of the silly and the commonplace. The North American's motto is, "A sensible Sunday newspaper," and if it is such it certainly will be different and welcome.

It will strive, of course, to be interesting and entertaining. That goes without saying. The special writers and artists are of the first rank and the magnificent mechanical equipment of The North American insures perfect printing.

As to the details of the paper itself, this much is known. There will be four colored supplements in addition to the news sections and sheet music. There will be a supplement of eight pages in colors, devoted exclusively to women's interests, a comic section of four pages in colors, a magazine section of twelve pages in colors and a sixteen page supplement in colors explaining the involved and varied processes of making a newspaper. The sheet music will be like that on sale in music stores in every particular. The first Sunday North American will probably consist of seventy-six pages, of which thirty two will be used for news.

GHOST ORDERS A HAT

Returns to Earth and Leaves Order at Millinery Shop.

Strange Customer Shows Rare Taste in Selection of a Bonnet Which Has, Thus Far, Not Been Called For.

That spirits do return from the grave and appear to mortals is a proposition that for ages has had its believers and disbelievers, but in the little town of Dublin, Ind., there is now only one opinion, and that is that spirits do walk the earth at times in mortal form. The reason for this pronounced belief at Dublin is an occurrence which has recently taken place there and which is so well vouched for that there is not a skeptic in the town.

Dublin, says the Chicago Inter Ocean, is occupied by a well-to-do and intelligent class of people, shrewd, hard-headed specimens of the Hoosier type, a class that is not led away by its emotions, and is intensely practical. Among the residents is a Mrs. Sallie Smith, who has lived there many years and who conducts a millinery store.

One day last May a nice-looking old lady came into Mrs. Smith's store. She appeared to be about 70 years old, and was tastefully dressed in black. She introduced herself to Mrs. Smith as Mrs. M——, and said that she had only recently come to Dublin and wanted to order a bonnet. The selection of this and the determination of its trimmings proved to be a long operation, for old ladies are quite as fastidious as the young ones when it comes to the selection of a bonnet.

During the work of choosing the bonnet Mrs. Smith and her customer got quite well acquainted. In the course of their conversation Mrs. Smith learned that her customer was the sister of Mrs. Rhoda Scotton, of Brownsville, Ind., who is well known

INTRODUCED HERSELF AS MRS. M.

to her, and that Mrs. M—— was well acquainted with many of Mrs. Smith's people. When the customer left she said she felt as if she had always known Mrs. Smith because she knew her family so well and had heard her sister, Mrs. Scotton, speak of Mrs. Smith so often. The last seen of Mrs. M—— she was standing underneath a shade tree in front of Mrs. Smith's house.

A few weeks later another lady called at Mrs. Smith's store to order a bonnet. She, too, gave her name as Mrs. M——, and said that she had only recently moved to Dublin. There was a decided resemblance between the former customer of that name and the last, and yet the last had something about her that puzzled Mrs. Smith and made her doubtful of the identity. Finally Mrs. Smith became satisfied that it was the same woman, and remarked that the bonnet ordered some weeks preceeding was ready for her.

The customer was greatly surprised.

"You must be mistaken," she remarked to Mrs. Smith. "I am a stranger in the town and have not only not ordered any bonnet of you, but have never been in your place before."

Mrs. Smith looked at the woman and was puzzled. She looked like her former customer, and yet there was a something about her that did not appear the same. Mrs. Smith finally became convinced that she had made a mistake, and this led her to tell her customer all about her previous visitor. Mrs. M—— appeared greatly interested in the narrative and asked Mrs. Smith to describe her former customer. When the latter had done so Mrs. M—— said:

"You have described my dead sister. She was older than I, and we married twin brothers."

Mrs. M—— then told Mrs. Smith that her sister had died at Indianapolis in September, 1900, and was buried in the cemetery in the west part of Dublin. Mrs. M—— is 68 years old, while her sister, had she lived, would have been 70. She is not a spiritualist, but is satisfied that it was her sister that called on Mrs. Smith and ordered a hat. The bonnet that was ordered, a small black Tuscan straw, prettily trimmed with black chiffon, is still in Mrs. Smith's possession, and she does not expect it to be called for.

"And I'm not going to sell it, either," she says. "It's the first bonnet I ever had ordered by a spirit, or that I ever heard of one ordering, and I'm going to keep it just as a specimen of the taste of spirits in millinery."

AMENDMENTS TO THE CONSTITUTION OF NEW JERSEY, PROPOSED BY THE LEGISLATURE OF 1901.

BE IT RESOLVED by the Senate (the House of Assembly concurring), That the following amendments to the constitution of this state be and the same are hereby proposed, and when the same shall be agreed to by a majority of the members elected to the Senate and House of Assembly, the said amendments shall be entered on their journals, with the yeas and nays taken thereon, and referred to the legislature next to be chosen, and shall be published for three months previous to the first Tuesday after the first Monday of November next (being the fifth day of said month) in at least one newspaper of each county, if any be published therein, the said newspapers to be designated by the president of the Senate, the speaker of the House of Assembly and the secretary of state:

ARTICLE V

EXECUTIVE.

Insert in lieu of Paragraph 10, a new paragraph as follows:

10. The Governor or person administering the government, the Chancellor and the Attorney-General, or two of them of whom the Governor or person administering the government shall be one, may remit fines and forfeitures and grant pardons, after conviction, in all cases except impeachment.

ARTICLE VI.

JUDICIARY.

Insert in lieu of Section II., a new section as follows:

1. The Court of Errors and Appeals shall consist of a Chief Judge and four Associate Judges or any four of them.

2. In case any Judge of said Court shall be disqualified to sit in any cause, or shall be unable for the time being to discharge the duties of his office, whereby the whole number of Judges capable of sitting shall be reduced below four, the Governor shall designate a Justice of the Supreme Court, the Chancellor or a Vice-Chancellor, to discharge such duties until the disqualification or inability shall cease.

3. The Secretary of State shall be the Clerk of this Court.

4. When a writ of error shall be brought, any judicial opinion in the cause, in favor of or against any error complained of, shall be assigned to the Court in writing. When an appeal shall be taken from an order or decree of the Court of Chancery, the Chancellor or Vice-Chancellor making such decree or order shall inform the Court in writing of his reasons therefor.

5. The jurisdiction heretofore exercised by the Supreme Court by writ of error shall be exclusively vested in the Court of Errors and Appeals; but any writ of error pending in the Supreme Court at the time of the adoption of this amendment shall be proceeded upon as if no change had taken place.

Section IV.

Insert in lieu of Paragraph 1, a new paragraph as follows:

1. The Court of Chancery shall consist of a Chancellor and such number of Vice-Chancellors as shall be provided by law, each of whom may exercise the jurisdiction of the Court. The Court shall make rules governing the hearing of causes and the practice of the Court, where the same is not regulated by statute.

Section V.

At the end of Paragraph 1, add the following:

The Court may sit in divisions at the same or different times and places.

Strike out Paragraph 3.

Section VI.

Insert in lieu of Paragraphs 1 and 2, the following:

The Court of Common Pleas shall be constituted and held in each county in such manner as may be provided by law.

ARTICLE VII.

CIVIL OFFICERS.

Section II.

Insert in lieu of Paragraph 1, a new paragraph as follows:

1. Judges of the Court of Errors and Appeals, Justices of the Supreme Court, the Chancellor, the Vice-Chancellors and the Judges of the Circuit Court and of the Court of Common Pleas shall be nominated by the Governor and appointed by him with the advice and consent of the Senate. All persons now holding any office in this paragraph named except the Judges of the Court of Errors and Appeals as heretofore existing, shall continue in the exercise of the duties of their respective offices according to their respective commissions or appointments. The Judges of the Court of Errors and Appeals, except those first appointed; the Justices of the Supreme Court, the Chancellor and the Vice-Chancellors shall hold their offices for the term of seven years, and shall at stated times receive for their services a compensation which shall not be diminished during the term of their appointment; and they shall hold no other office under the government of this State or the United States.

The Judges of the Court of Errors and Appeals first appointed shall be appointed one for three years, two for five years and two for seven years. Judges of the Court of Common Pleas shall hold their offices for the term of five years.

Strike out Paragraph 2.

1. Resolved (the House of Assembly concurring), That the following amendments to the constitution of this state be and the same are hereby proposed, and when the same shall be agreed to by a majority of the members elected to the senate and house of assembly, the said amendments shall be entered on their journals, with the yeas and nays taken thereon, and referred to the legislature next to be chosen, and published for three months previous to the first Tuesday after the first Monday of November next, being the fifth days of said month, in at least one newspaper of each county, if any be published therein, the said newspaper to be designated by the president of the senate, the speaker of the house of assembly and the secretary of state.

1. Amend Paragraph 3, of Section 1, of Article IV, so as to read as follows:

3. Members of the senate and general assembly shall be elected on the first Tuesday after the first Monday in November; in the year nineteen hundred and three members of the general assembly shall be elected for the term of one year, and in the year nineteen hundred and four, and every second year thereafter, they shall be elected for the term of two years, each house of the legislature shall meet separately on the second Tuesday in January next after each election for members of the general assembly; the time for holding such elections may be altered by the legislature.

2. Amend Paragraphs 1 and 2, of Section 2, of Article IV, so as to read as follows:

1. The senate shall be composed of one senator from each county in the state, elected by the legal voters of the counties respectively for four years, except as provided in the following paragraph:

2. The terms of the senators elected in the year nineteen hundred and two shall be extended to four years from the commencement of their terms; as soon as the senate shall meet after the election to be held in the year nineteen hundred and three the senators elected in that year shall be divided by lot under the direction of the senate into two classes, as nearly equal as may be; the seats of the senators of one class shall be vacated at the expiration of three years, and of the other class at the expiration of five years; the seats of the senators elected in the year nineteen hundred and four, and of all senators elected thereafter, shall be vacated at the expiration of four years from the commencement of their terms, so that one-half the number of senators, as nearly as may be, shall be elected every second year, at the same time that members of the general assembly are elected; and all vacancies caused by resignation or otherwise shall be filled for the unexpired terms only.

3. Amend Section III, of article IV, by striking out the word "annually."

4. Amend Paragraph 7, of Section IV of Article IV, so as to read as follows:

7. Members of the senate and general assembly shall each receive the sum of five hundred dollars for each year of their term, and no other allowance or emolument, directly or indirectly, for any purpose whatever; the president of the senate and the speaker of the house of assembly shall, in virtue of their offices, receive an additional compensation equal to one-third of their allowance as members.

5. Amend Paragraph 3, of Article V, so as to read as follows:

3. The term of the Governor elected in the year nineteen hundred and four shall be extended to four years from the commencement of his term, and he shall hold his office until the third Tuesday of January, nineteen hundred and nine; thereafter the Governor shall hold his office for four years, to commence on the third Tuesday of January next ensuing his election, and to end on the Monday preceding the third Tuesday of January four years thereafter, and he shall be incapable of holding that office for four years next after his term of service shall have expired, and no appointment or nomination to office shall be made by the Governor during the last week of his said term.

WHY HE WENT OUT.

The benefit afforded by a R-I-P-A-N-S Tabule is so marked in all cases of indigestion that my wife has more than once made me leave the theater between the acts to go across the street, to a druggist or a cigar stand, for a 5-cent carton of R-I-P-A-N-S. She has no trouble at all about swallowing the Tabule and the relief is immediate.

So that is what you go out for between the acts, is it?

Well, not always, but if I go too many times I find it a good thing for my own stomach to take a R-I-P-A-N-S before I go to bed.

WANTED—A case of bad health that R-I-P-A-N-S will not benefit. They banish pain and prolong life. One gives relief. Note the word R-I-P-A-N-S on the package and accept no substitute. R-I-P-A-N-S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

American women in Vienna will be glad to hear that the imperial government has refused the petition of Austrian shoemakers to prohibit shoes from the United States being imported into the empire. An American woman finds it difficult outside of her own country to get a shoe that will fit her. In London in the past two or three years several firms have been doing a great business by advertising "American shoes." These sell for a considerably higher price than the homemade article does and are eagerly bought by all women who can afford them, because they are so much neater and lighter than the British footgear is.

The English woman's foot is comparatively short and broad and the American woman's comparatively narrow and slightly long, but very graceful. The Irish woman's foot is like the American woman's, slender and springy. The Spanish woman's has a high arched instep and is very small, smaller than that of any other civilized feminine creature. The French foot is like the Spanish, but larger and more useful. The German woman's foot resembles the English woman's, but is larger.

If American manufacturers of foot covering will consult pedal racial characteristics the world over and make for each country the shape adapted to it, they can shortly monopolize the shoe trade of the earth, so far as women's requirements go, for our shoes are the best, neatest and prettiest that are made anywhere. If in addition dealers from this country would put some neat footed American girl clerks into their foreign shoe shops, they would shortly "swipe" the earth.

Where is the American woman animal painter? Here is one of the greatest fields for art as yet untrodden in the United States. A young painter could find a life study on our western ranches, where the cowboys lasso cattle, where the coyote howls, the unbroken broncho still rears and bucks and the road runner runs. Has any American girl ever tried to paint a buffalo?

I hope that the Ohio "Old Maids' association" which lately held its sixteenth reunion will keep it up. The ages of the members ranged from twenty-eight to sixty-five. They are willing to tell their ages, it seems. A careful record ought to be kept of all the members, those who drop out annually into matrimony or death, likewise those who are in business or a profession and who make a success of their work.

In my journey around the world I judged the women of China to be the most hopelessly benighted of any of their sex. If I had given an opinion as to which nation would be the last to join the procession of freedom for women, I should have named the Chinese. Yet now within two little years of the time when I was in the orient here are Chinese women themselves holding a woman's conference in Shanghai and nobly attacking the terrible evil of selling little girls into slavery in their country. Surely, surely, the world does move, even in China.

[CONTINUED.]

"The empress (whose name be adored) can do as she pleases in such matters," I said, guardedly; "but that is beside the argument. I am here to know how it would be better for Atlantis that I should die?"

"You know you are the strongest man in the kingdom."

"It pleases you to say so."

"And Phorenice is the strongest woman?"

"That is beyond doubt."

"Why, then, if the empress takes you in marriage, we shall be under a double tyranny. And her rule alone is more cruelly heavy than we can bear already."

"I pass no criticism on Phorenice's rule. I have not seen it. But I crave your mercy, Nais, on the newcomer into this kingdom. I am strong, say you, and therefore I am a tyrant, say you. Now to me this sequence is faulty."

"Who should a strong man use strength for, if not for himself? And if for himself, why that spells tyranny. You will get all your heart's desires, my lord, and you will forget that many a thousand of the common people will have to pay for them."

"And this is all your accusation?"

"It seems to be black enough. I am one that has a compassion for my fellow men, my lord, and because of that compassion you see me what I am to-day. There was a time, not long passed, when I slept as soft and ate as dainty as any in Atlantis."

I smiled. "Your speech told me that much from the first."

"Then I would I had cast the speech off, too, if that is also a livery of the tyrant's class. But I tell you I saw all the oppression myself from the oppressor's side. I was high in Phorenice's favor then."

"That, too, is easy of credence. Ylga is the fangirl to the empress now, and second lady in the kingdom, and those who have seen Ylga could make an easy guess at the parentage of Nais."

"We were the daughters of one birth."

The torch had filled the captain's room with a resinous smoke, but the flame was growing pale. Dawn was coming in grayly through a slender arrow slit, and with it ever and again the glow from some mountain out of sight, which was shooting forth spasmodic bursts of fire. With it also were mutterings of distant falling rocks and sullen tremblings, which had endured all the night through, and I judged that earth was in one of her quaking moods, and would probably during the forthcoming day offer us some chastening discomforts.

On this account, perhaps, my senses were stilled to certain evidences which would otherwise have given me a suspicion; and, also, there is no denying that my general wakefulness was sapped by another matter. This woman, Nais, interested me vastly out of the common; the mere presence of her seemed to warm the organs of my interior; and, while she was there, all my thoughts and senses were present in the room of the captain of the gate in which we sat.

But of a sudden the floor of the chamber rocked and fell away beneath me, and in a tumult of dust and litter and bales of the captain's plunder I fell down (still seated on the flagstone) into a pit which had been digged beneath it. With the violence of the descent and the flutter of all these articles about my head I was in no condition for immediate action; and while I was still half stunned by the shock, and long before I could get my eyes into service again, I had been seized and bound and half strangled with a noose of hide. Voices were raised that I should be dispatched at once out of the way; but one in authority cried out that killing me at leisure, and as a prisoner, promised more genteel sport; and so I was thrust down on the floor, while a whole army of men trod in over me to the attack.

What had happened was clear to me now, though I was powerless to do anything in hinderance. The rebels, with more craft than anyone had credited to them, had driven a galley from their camp under the ground, intending so to make an entrance into the heart of the city. In their clumsy ignorance, and having no one of sufficient talent in mensuration, they had bungled sadly both in direction and length, and so had ended their burrow under this chamber of the captain of the gate. The great flagstone in its fall had, it appeared, crushed four of them to death, but these were little noticed or lamented. Life was to them a bauble of the slendertst price, and a horde of others pressed through the opening, lusting for the fight, and recking nothing of their risks and perils.

Half choked by the foul air of the galley, and trodden on by this great procession of feet, it was little enough I could do to help my immediate self, much less the more distant city. But when the chief mass of the attackers had passed through, and there came only here and there one eager to take his share at storming the gate, a couple of fellows plucked me up out of the mud on the floor and began dragging me down through the stinking darkness of the galley towards the pit that gave it entrance.

Twenty times we were jostled by others hastening to the attack, either form hunger for fight or from appetite for what they could steal. But we came to the open at last; and, half suffocated though I was, I contrived to do obeisance and say aloud the prescribed prayer to the most high gods in gratitude for the fresh air which they had provided.

Our Lord the Sun was on the verge of rising for his day, and all things were plainly shown. Before me were the monstrous walls of the capital, with the heads of its pyramids and higher buildings showing above them. And on the walls the sentries walked calmly their appointed paces, or took shelter against arrows in the casemates provided for them.

The din of fighting within the gate rose high into the air, and the heavy roaring of the cave tigers told that they, too, were taking their share of the melee. But the massive stonework of the walls hid all the actual engagement from our view, and which party was getting the upper hand we could not even guess. But the sounds told how tight a fight was being hammered out of those narrow boundaries, and my veins tingled to be once more back at the old trade and to be doing my share.

But there was no chivalry about the fellows who held me by my bonds. They thrust me into a small temple near by, which once had been a fane in much favor with travelers who wished to show gratitude for the safe journey to the capital, but which now was robbed and ruined; and they swung to the stone entrance gate and barred it, leaving me to commune with myself. Presently, they told me, I should be put to death by torments. Well, this seemed to be the new custom of Atlantis, and I should have to endure it as best I could. The high gods, it appeared, had no further use for my services in Atlantis, and I was not in the mood then to bite very much at their decision. What I had seen of the country since my return had not enamored me very much with its new conditions.

The little temple in which I was gaoled had been robbed and despoiled of all its furnishments. But the light slits, where at certain hours of the day the rays of our Lord the Sun had fallen upon the image of the god, before this had been taken away, gave me vantage places from which I could see over the camp of these rebel besiegers, and a dreary prospect it was. The people seemed to have shucked off the culture of centuries in as many months, and to have gone back for the most part to sheer brutishness. The majority harbored on the bare ground. Few owned shelter, and these were merely bowers of mud and branches.

They fought and quarreled among themselves for food, eating their meat raw and their grain (when they had it) unground. Many who passed my vision I saw were even gnawing the soft inside of tree bark.

The dead lay where they fell. The sick and the wounded found no hand to tend them. Great man-eating birds hovered above the camp or skulked about, heavy with gorging, among the hovels, and no one had public spirit enough to give them battle. The stink of the place rose up to heaven as a foul incense inviting pestilence. There was no order, no trace of strong command anywhere. With 300 well-disciplined troops it seemed to me that I could have sent those poor desperate hordes flying in panic to the forest.

However, there was no very lengthy space of time granted me for thinking out the policy of this matter to any great depth. The attack on the gate had been delivered with suddenness; the repulse was not slow. Of what desperate fighting took place in the galleries and in the circus between the two sets of gates the detail will never be told in full.

At the first alarm the great cave tigers were set loose, and these raged impartially against keeper and foe. Of those that went in through the tunnel, not one in ten returned, and there were few of these but what carried a bloody wound. Some, with the ruling passion still strong in them, bore back plunder; one trailed along with him the head of the captain of the gate; and among them they dragged out two of the warders who were wounded, and whom revenge had urged them to take as prisoners.

But for my part I saw nothing of this disgusting scene. I heard the bolt grate stealthily against the door of the little temple in which I was imprisoned, and was minded to give these brutish rebels somewhat of a surprise. I had rid myself of my bonds handily enough; I had rubbed my limbs to that perfect suppleness which is always desirable before a fight; and I had planned to rush out as soon as the door was swung, and kill those that came first with fist blows on the brow and chin.

IF A NICE ROAST
is one of your heart's desire you can get it here. Rich, juicy, nourishing — the very essence of goodness. Couldn't get any other kind, because we don't deal in poor
MEATS.
The quality of the Beef, Veal, Mutton, Lamb, etc., is above criticism. It demands your approbation, and our prices are not high. We don't try to give as little as possible for the money, but just as much as possible.
Give us an opportunity to prove this.

TRADE CONDITIONS.

Sorrow Checked Business—Wheat Strong—Failures Light.

NEW YORK, Sept. 21.—R. G. Dun & Co.'s weekly review of trade says:

Universal sorrow placed a calming hand on the rush and turmoil of the market place. Everything that could be conveniently postponed was put aside out of respect for the man whose life was devoted to developing the wonderful activity in all branches of trade and industry. Exchanges suspended operations for two days, and the distribution of merchandise was in many cases limited to immediate requirements. Mercantile payments continue prompt.

After two months of controversy at the steel mills a settlement has been reached, although the terms are not entirely satisfactory to the Amalgamated association, and there is much complaint among the men regarding the conduct of the strike. Managers are confident that the outcome means no further interruption to work for a long period, and there is hope for making up for much of the delay by operating overtime. In preparation for an exceptionally active year in 1902 some of the largest mills are to double their capacity.

In dry goods the feature of the week was the phenomenal movement of mourning goods, which advanced in price as the available supply was reduced. Mills having stocks of crape and bunting were able to dispose of everything on hand, and large shipments went west.

Corn has met with another setback. After passing through the vicissitudes of heat and drought, which curtailed the crop severely notwithstanding an unusually large acreage, it was subjected to the other extreme of temperature. How much injury was done by frost cannot yet be determined, but reports were sufficient to force prices to an exceptionally high point.

Wheat is stronger, with less speculative support and more actual cash demand. Shipments abroad continue heavy despite much interruption during the past week, amounting to 4,033,455 bushels against 3,219,211 last year and 3,242,764 two years ago.

Foreign commerce returns for August made a most favorable exhibit.

Liabilities of commercial failures thus far reported for September continue remarkably light, aggregating only $2,901,793, of which $1,198,967 were in manufacturing and $1,489,988 in trading. Failures for the week numbered 157 in the United States against 211 last year and 26 in Canada against 33 last year.

SOUTH AFRICAN SITUATION.

A Succession of "Regrettable Incidents" Says Kitchener.

LONDON, Sept. 21.—The succession of "regrettable incidents" which Lord Kitchener has reported has evoked editorial counsels to the government to cease to endeavor to wage war by proclamations and to recognize the need of crushing the Boers by force of arms.

No news has yet been received that the Boers have liberated the prisoners recently captured, and, according to Boer circles in Brussels, Commandant General Botha intends to hold the 150 British prisoners as hostages against the carrying out of the terms of Lord Kitchener's proclamation.

The Daily Chronicle finds great satisfaction in an alleged authoritative statement from its Washington correspondent, to which it gives great importance and prominence, that President Roosevelt is not pro-Boer in his sentiments and will maintain President McKinley's policy of strict neutrality with regard to South Africa.

"Therefore," says The Daily Chronicle, "any trusting to a chapter of accidents so far as the United States is concerned on the part of the Boers will be doomed to disappointment."

American Board of Foreign Missions.

BOSTON, Sept. 21.—The annual statement is made public of the fiscal year of the American board of foreign missions. The total receipts of the year applicable for current expenses were $697,370; total expenditures, $717,081; the excess of expenditures over receipts, $19,711, which, added to the debt of a year ago, makes the present debt $102,341. The receipts for the past year as compared with the previous year show a gain in donations from churches and individuals of $9,639, a shrinkage in receipts from the woman's boards of $16,118 and a shrinkage in legacies of $30,256.

Want to See Czolgosz Electrocuted.

AUBURN, N. Y., Sept. 21.—In the belief that Czolgosz will be executed in Auburn prison more than 100 persons have already made application to Warden Mead to witness the electrocution of the assassin of President McKinley. The applications are by telegraph, telephone and mail. The first application was received one hour after the president's death. Every mail adds to the number.

British Bark Destroyed.

LONDON, Sept. 21.—Advices received here state that the British bark Norfolk Island was destroyed by fire in south latitude 25 degrees, west longitude 23 degrees, while on a voyage to Table bay from Leith, Scotland, which port she left July 6. The vessel was commanded by Captain R. Thomas. Part of her crew has landed at Bahia, Brazil. The remainder is missing.

More Bonds Purchased.

WASHINGTON, Sept. 21.—The secretary of the treasury purchased $1,666,100 long term 4 per cent bonds at 140.

SPORTING.

ON THE DIAMOND.

The St. Mary baseball team will play a game tomorrow with the Elizabeth Y. M. C. L. A. nine, on the latter's grounds. With the probable exception of the pitcher, the make-up of the local team will be similar to that in today's game with the Clinton Avenues.

Manager Monahan, of the St. Mary team, has offered to make two dates to the Scotch Plains nine for as many games. It is his desire to play Saturday, September 28, and the following Saturday in October, alternating between the 'Plains and this city. It s now up to the 'Plains management to accept.

If the third and last game between the Plainfield and Elizabeth police baseball teams is to be played, the managements will have to agree upon a date within the near future. The time is now approaching when a two-hour wait on an open field is not the pleasantest thing in the world. It was hoped to have the final game played next week, but so far nothing has been heard from the Elizabeth end.

From the exhibition given in the past two games, it has become evident to the management of the Hope team that Pitcher Montrose' arm will not be in its old time form until next season. Montross will cover second base during the few games yet scheduled and "Tune" Hewitt will do the twirling. Hewitt has become very popular with the Hope followers and is credited with saving the team from defeat several times.

ON THE GRIDIRON.

The Park Field Club expects to place a football team in the field early in the season. A meeting will be held shortly at which candidates will be examined.

The Watchung football team has commenced practice. The players average 130 pounds, and games are desired with elevens of a correspond ing weight.

The North Plainfield High School athletic association has decided not to organize a football team this season. The directors of the association are anxious to develop a first-class ball team and will expend all their time and money in an endeavor to attain that end.

The North Plainfield Grammar School football team has been reorganized for the coming season. The aggregation is stronger than that of last year. The manager desires to arrange games with elevens averaging 112 pounds. Communications may be addressed to Swan Smalley, Jackson avenue.

FOOTBALL.

The Plainfield Association Football team, which was one of the foremost organizations playing in this city last season, is taking steps to place a stronger eleven than ever in the field this year. Most of last season's players have signified their intention of again becoming members while new material will be added, both for regular work and for substitution. A meeting of the former members and management was recently held in the parlors of the Hotel Waldorf and the preliminary steps for organization were taken. The relative positions of the candidates will be made known and the election of officers will take place at the next meeting.

GOLF.

The second play between the teams of the Westfield and Cranford Golf Club for the club trophy will be the event today on the Westfield course. The weekly play for the club cup has been postponed for one week.

—B. W. Pursell, Kintersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve effected a permanent cure. Counterfeits are worthless. L. W. Randolph.

PUPIL OF DR. DEWEY.

Miss Runyon, From Chicago School, Visited the Borough Schools.

A pupil of Dr. John Dewey, the practical professor at the head of the Model School connected with Chicago University, visited the North Plainfield schools yesterday. She is Miss Runyon, who is an ardent student of school methods. Miss Runyon attended the sessions of the borough schools to ascertain the methods in vogue there.

Dr. Dewey, who is the author of a noted work on physiology, advocates teaching manual work to the pupil at an early age and is an enthusiastic believer in the idea of attracting the attention of the young people to nature. "Back to Nature," is his watch word, and this he instills in the minds of his corps of teachers at the Model School. Although his methods in school work have been severely criticised by many schoolmasters, the doctor is accomplishing great results through his manner of teaching.

Endeavor Cake Sale.

The cake sale held by the Junior Endeavor Society, of Marconnier chapel, at the store of J. A. Smith & Brother this morning, was entirely successful. Twenty-five cakes were donated and sold. The amount realized will be added to the piano fund.

MISS BARTLING WEDDED.

Former Plainfield Young Woman Married at Newton Centre, Mass., Thursday Afternoon.

A brilliant wedding, in which Plainfielders are interested, took place Thursday afternoon at 4 o'clock in Holy Trinity church, Newton Centre, Mass., when Miss Ada Bartling, daughter of Harry Bartling, formerly of Washington Park, was married to John Milner, of Providence, R. I.

The wedding was one of the most fashionable and was attended by many friends and relatives. The best man was H. Milner, brother of the groom, while Miss Edith Erens, of this city, was the maid of honor.

After the wedding a reception was given at the home of the bride's father. Mr. and Mrs. Milner are now enjoying a honeymoon of three weeks' duration. They will reside at Plainfield, Mass.

U. V. U. MET.

Mustered in an Honorary Member and Listened to Reports.

As an honorary member, Mayor Henry L. Hall, of Fanwood, was mustered into the ranks of the Union Veterans' Union, at the regular meeting of the organization held Wednesday evening.

Interesting reports were read by those having in charge the arrangements for the annual encampment of the New York and New Jersey division of the order, which will be held in this city, November 12 and 13. The names of Thomas B. Titsworth and Preston B. Goodfellow were added to the committee.

A Church Wedding.

Announcement is made of another large church wedding to take place next month, when Miss Ada Marie Runyon, daughter of the late Mr. and Mrs. Nelson B. Runyon, of Stelton, and niece of the late Rev. Dr. James F. Brown, of Philadelphia, will be married to Thomas A. Cuming, of Putnam avenue. The event will be celebrated in the Park Avenue Baptist church early in October.

MINOR TOWN HAPPENINGS.

BRIEF ITEMS OF INTEREST TO EVERY DAILY PRESS READER.

TROUBLE AT 'PLAINS.

One Offender Was Given Ninety Days and Officers Are After Three More.

(Special to The Daily Press.)

Scotch Plains, Sept. 21.—Frederick Conway, who was arrested Thursday by Special Officer Haberly on a charge of being drunk and disorderly, was taken to Elizabeth yesterday afternoon to serve ninety days in default of $25 fine.

He with three companions disturbed the peace and quiet of this place, but Officer Haberly succeeded in arresting only one. It is expected the other three will soon be arrested. It is said that they also assaulted the officer.

BRILLIANT EVENT.

Invitations Out for Marriage of Mrs Louise G. Fisk and L. E. Waring.

Mr. and Mrs. Charles Joel Fisk, of West Seventh street, have issued invitations for the marriage of their daughter, Miss Louise Green Fisk, to Lewis Edmond Waring, of Park avenue, which will take place Tuesday evening, October 8, at 8:30 o'clock in the Crescent Avenue church. The event will probably be one of the largest and most brilliant of the season in Plainfield society, as it will unite two of the most prominent and influential families in the city.

STEPPED ON NAIL.

James Moore Now Compelled to Go to Hospital With the Injury.

James Moore, the young son of Geo. Moore, of West Fourth street, was taken to the hospital yesterday suffering from the effects of a rusty nail which had penetrated his foot.

The nail broke in half, allowing part of it to remain in the flesh, while the foot became greatly swollen. The physicians removed the cause of the trouble and it is thought blood poisoning can be prevented.

Funeral of Lawrence Doyle.

Funeral services over the remains of Lawrence F. Doyle, the young man who was killed on the tracks of the New Jersey Central, Thursday night, will be held from his last residence on East Fifth street, Monday morning at 8 o'clock and from St. Mary's church at 8:30, where a requiem mass will be said for the repose of his soul. A delegation from Panghoaughnaughsinque Tribe of Red Men, of which he was a member, will attend. Interment will be made in the family plot at Junction.

Address By Dr. Carroll.

"McKinley, the Man," is the subject of an address to be delivered tomorrow evening at Warren chapel, by Hon. H. K. Carroll, former special commissioner to Porto Rico. Dr. Carroll knew the dead President for two score years and will tell of the noble life led by him during that period. The services commences at 8 o'clock. The G. A. R. men will attend in a body.

Stories Didn't Tally.

George Jones and Harry Wilson, two vagrants, were picked up at the depot last evening by Patrolman McCarthy. They told a number of conflicting stories to City Judge Runyon this morning in regard to where they lived and a number of begging letters were found upon them. Each was given thirty days at Elizabeth.

Will Appeal Verdict.

Justice Hand yesterday rendered his decision in the case of Wrennick against Robinson, which was tried early in the week. Judgment for $54 52 was given in favor of the plaintiff. Law Student Sweeney who appeared for the defendant has given notice of an appeal.

Liquid Electricity.

Liquid Electricity is the great remedy, which instantly checks all pains, internal as external. It allays inflammations and cures congestions. George Belcher, the local agent, will explain its powers. Call at 110 East Fifth street.

Some Great Hymns.

Rev. George W. Gardner will speak of some of the great hymns at the special song service to be held at the hall of the Young Men's Christian Association Sunday afternoon at 4 o'clock. Mrs. John Manley will be the soloist.

Changes in Meeting Hour.

Particular attention is called to the fact that on and after tomorrow, the Sunday afternoon meetings at the Y. M. C. A., will commence at 4 o'clock instead of 4:15.

IN THE REALM OF SOCIETY.

B. J. Shreve, of Grove street, has returned from Mt. Holly, N. J., where he has been spending his vacation.

Miss Florence Virgoe, of London, England, is the guest of Mr. and Mrs L. B. Ross, of LaGrande avenue. Miss Virgoe is making an extended tour of the United States.

NO HOLD-UP.

Charles Auten Finally Admitted That It Existed Only in His Imagination.

The local police last evening dispelled the wierd story of a hold-up and robbery told them by Charles Auten, who was found on Front street, early yesterday morning, entirely nude. From his actions when picked up by Patrolman Watson, it was seen that he was suffering from an overworked imagination.

Auten held to his original story until confronted in Chief Kiely's office by a friend who was with him in Westfield Thursday night. He then admitted that he had toyed too long with the cup that cheers.

He alighted from a trolley car at Berckman street and gaining the impression that he was home, commenced disrobing. The operation continued for several blocks until when Park avenue and Front street was reached, he was dressed a la Eden. The police have recovered his clothing with the exception of the trousers.

HARBOR HILL GOLFERS WERE BADLY DEFEATED

Hillside's Team Had No Trouble In Beating The Visiting Team Many Down.

PLAY OTHER COMPETITIONS

S. ST. J. M'CUTCHEN PROMINENT AT PARK GOLF CLUB.

By Winning Second Honors Saturday He Has Risen To Third Place In Race For President's Cup —The Scores.

There were the usual attractions at the local golf clubs Saturday. At Hillside, the remarkable defeat of the team from the Harbor Hill Golf Club was the chief event. Little interest was shown in the other competitions. At the Park Golf Club, the play for the President's cup brought out a big field.

PARK GOLF CLUB.

By carrying off second honors in Saturday's competition for the President's cup at the Park Golf Club, S. St. John McCutchen became a prominent factor in the race for that cup. Senator Charles A. Reed still leads, with H. D. Hibbard second, and now Mr. McCutchen has stepped up from thirteenth to third place. First honors for the day fell to Townsend Rushmore, a new-comer in the race, while J. O. McKelvey was third.

The course was in fine condition and the weather ideal for golf. As a result, there was a large attendance at the links and a score registered for the competition. No particularly low scores were made, 104 by H. D. Hibbard being the smallest figure. The best men were absent, however, and most of the others played up to their best game.

The scores below 100 were as follows:

	Gross.	Hand.	Net
T. Rushmore	105	25	80
S. St. J. McCutchen	105	19	84
J. O. McKelvey	107	20	87
J. W. Sandford	114	25	89
Arthur H. Serrell	105	14	91
H. D. Phillips	120	28	92
Joseph H. Howell	114	22	92
Charles A. Reed	113	20	93
H. D. Hibbard	104	10	94
Samuel Townsend	120	24	96

The standing for the cup is now as follows:

	Points.
Charles A. Reed	9
H. D. Hibbard	8
S. St. John McCutchen	6½
Joseph H. Howell	6
H. G. Phillips	6

HILLSIDE TENNIS AND GOLF CLUB.

Despite the fact that Saturday was an ideal day for golf the attendance at the Hillside Tennis and Golf Club course was small and, aside from the team match in the afternoon between Hillside and Harbor Hill, there was little interest.

Not even the weekly play for the Golf Committee cup was sufficient to attract a large crowd, and Miss Lida vanHerwerden was the only member to play for the Mellick cup. By winning three points she now has a total of 30½ points which assures for her the trophy, without a doubt. She made a net score of 106. Her score was as follows:

	Gross.	Hand.	Net.
Miss vanHerwerden	110	4	106

The standing for the trophy is as follows:

	Points.
Miss vanHerwerden	30½
Miss Daisy Elsberg	14½
Miss Maud VanBoskerck	6
Miss Margaret Tracy	6
Miss Adelaide Ball	5½
Miss Margaret Goddard	5
Miss May Holly	5
Miss Marjorie Fleming	2
Miss May Evans	1
Miss Mary Whiton	1

The weekly play for the Golf Committee cup in the afternoon did not change the position of the leader, but it advanced W. L. Genney from sixth to third position, although he only secured half a point. Howard DeP. Wright won first honors, and the three points added to the two previously won, advanced him to seventh position. Robert Abbott finished second adding two points to a half point he had to his credit. This advanced him a few points. C. Westley Abbott still leads with ten and a half points, and his nearest competitor is D. H. Barrows with nine points.

The scores for the Golf Committee cup are as follows:

	Gross.	Hand.	Net.
Howard Wright	79	0	79
Robert Abbott	88	8	80
W. L. Glenney	83	0	83
E. T. Newkirk	110	27	83
F. W. Yates	115	21	84
Walter Peterson	102	13	89
F. A. Clark	103	14	89

The standing for the Golf Committee cup is as follows:

	Points.
C. Westley Abbott	10½
D. H. Barrows	9 5-6
W. L. Glenney	6½
Mrs. N. P. Rogers	6

The event of especial interest in the afternoon was the team match between Hillside and Harbor Hill. The visitors came to Plainfield for the purpose of carrying off the honors, and, in fact, the home team would not have been surprised if they had. On the contrary, they were taken into camp and given a whitewashing that they will not forget very soon. They were not allowed to score even one point, while the home team made a score of forty-six. This large score does not reflect discredit on the visiting team, for its members are numbered among some of the best. They simply put up a very weak game, while the Hillside team played an exceptionally strong game. The worst defeat was administered by George Richards to his partner, J. E. C. Leavitt. Richards scored eleven, while his partner failed to make a point.

The scores of the match are as follows:

The Champion Pugilist Attracted Attention When He Arrived In An Authomobile.

"Terrible" Terry McGovern, the champion pugilist, delighted the sporting fraternity of the city yesterday by spending a short time in town. He arrived at noon in an automobile of the latest pattern and stopped at the Kensington for dinner.

His name was discovered on the front of the machine by an observer and when it was whispered about that "Terry" was in town, a crowd soon collected. When the fighter emerged from the hotel he was the cynosure of a hundred pairs of eyes but none of them received more than a passing glance as he rode away.

WERE THE NATION'S PRAYERS UNANSWERED?

Rev Cornelius Schenck Preached on That Subject at Trinity Reformed Church Yesterday.

HE BELIEVES THEY WERE.

SAYS THAT THEY WERE ANSWERED IN A WAY NOT EXPECTED.

All the Country Prayed That He Might be Saved—His Death Will Have Its Lesson—Explained What True Prayer is.

A large congregation gathered at Trinity Reformed church yesterday morning where Rev. Cornelius Schenck, Ph. D., pastor of the church, preached from the subject: "Were the Nation's Prayers Unanswered?"

Dr. Schenck said that the subject of prayer had been given much prominence in the death of Mr. McKinley. It required no proclamation to bring this subject to the hearts of the millions of people in this country. It was a proof of the religious character of the people, showing their dependence upon the Almighty and His ability.

"Prayer," said Dr. Schenck, "is the foundation of all. The Lord taught his disciples to pray. It is a want implanted in the human mind. There are many prayers not answered, and it is not always best that they should be.

"Millions of people asked that McKinley might be preserved, but the prayer was not answered in the sense in which it was offered. Naturally, the question is asked why not. God has promised to answer prayer, and He has told us to ask Him freely and fully.

"When people repeat the Lord's Prayer, do they always sincerely want what they are asking for? Many prayers are contradicted by lives and lips. The soul should be in harmony prostrate before God and believe that what is being asked for will be granted.

"The prayer for the recovery of Mr. McKinley was earnest and persistent that he might be spared if it was in accordance with the Divine will and the best for all. In this case we must believe that God has done what is for the best of all. Christ said: 'If it be possible let this cup pass from me.' The cup did not pass, but the world has never seen such a sacrifice, making redemption of the souls of men possible. So by the death of our beloved President the world will receive a rich benediction and blessing. The people will become a more prayerful people and will live nearer to God.

"It was the desire of our lamented President that the people might be more one than ever and it was his aim that the Union should stand solidly. His aim and purpose will no doubt become a reality as the years come and go until we stand as one person with the highest and most lofty motives and with an implicit faith in God."

FRATERNAL HONORS.

At the Funeral of Burl Gibson at Mt. Olive Baptist Church, Held, Yesterday Afternoon.

The remains of Burl Gibson, the former Plainfielder who died in New York Wednesday, were brought to this city yesterday afternoon and taken to the Mount Olive church where funeral services were held.

The members of Cypress Commandery, K. of P., and Stone Square Lodge, F. and A. M., to which he belonged, attended in a body.

Rev. E. E. Jackson, pastor of the church, preached an eloquent discourse, which contained many comforting words. A number of selections were rendered by the choir. At the conclusion of the service the remains were taken to Hillside cemetery, where the lodges took charge and performed their rituals, after which interment was made.

Those who acted as pallbearers were James Connett, Joseph Dunham and Henry Freeman from Stone Square Lodge; Thomas Bowser, James Webbley and Henry Miller from Cypress Commandery.

M'KINLEY THE MAN, AS HE WAS KNOWN.

Personal Reminiscences Related by Hon. H. K. Carroll at Warren Chapel.

SERVICE HELD LAST NIGHT.

MEMBERS OF WINFIELD SCOTT POST ATTENDED IN A BODY.

Dwelt at Length Upon Personal Character of President McKinley as He Had Seen It—Chapel Was Crowded.

In a forcible and interesting manner, Hon. H. K. Carroll addressed the congregation of Warren chapel, last evening, on the subject "McKinley, the Man." The small church edifice was unable to afford seating capacity for the large number of people, which crowded its doors eager to hear his discourse. Winfield Scott Post, No. 73, attended the service in a body.

Those who participated in the services were Rev. L. E. Livermore, of New Market, and the pastor, Rev. J. O. McKelvey. The entire congregation sang the late President's favorite hymn, "Nearer, My God, To Thee," and the choir rendered "Come Unto Me Ye Weary." There was an evident feeling of sorrow which characterized the whole service.

Rev. Dr. Carroll, in commencing his remarks, referred to the great calamity which had moved the civilized world. He likened the terrible tragedy to the assassination of Abner by Joab. "David," said he, "on hearing of the awful murder, exclaimed: 'Know ye not that a prince and a great man has fallen this day in Israel.'"

"Truly," declared Dr. Carroll, "the nation turns its face to a quiet graveyard in Canton where there lays a great man and a noble leader of the people of this country."

At some length the speaker dwelt upon the personal character possessed by Mr. McKinley which made him beloved by all who knew him. His kindness, generosity, humility, forbearance and love for his own kind endeared him to everyone.

Dr. Carroll reviewed the life of the late President from the time he first met him at the Republican National convention in 1880 until they last saw each other one year ago. The doctor has many opportunities during that period to study the character of the fallen leader and he related many incidents which served to bring out the nobility of that character.

STRONG SERMON.

John J. Cornell Addressed Local Friends Yesterday Morning.

An extremely large congregation at the Orthodox Friends meeting house, yesterday morning, was addressed by John J. Cornell, one of the principal ministers of the Baltimore yearly meeting.

Mr. Cornell is a favorite speaker among the Friends and his remarks were very impressive. Taking as his text the words found in Jeremiah, "I imprint my love on their hearts," he drew a powerful sermon, the trend of which referred to the growing tendency in the religious world for a personal communion with the Divine Being.

Mr. Cornell, during his stay in this city, has been a guest at the home of Mrs. E. T. Haviland, of Sandford avenue.

DEATH OF MRS. UNANGST.

Passed Away at Her Home on Richmond Street Saturday.

The death of Mrs. Elizabeth Unangst, wife of Josiah Unangst, occurred at her home on Richmond street, Saturday, after a long illness. Death was due to a complication of diseases. Mrs. Unangst was sixty years of age and had been a resident of this city for some time.

The funeral services will be held at her late residence tomorrow evening at 8 o'clock. Interment will be made at Hampton Junction.

Needs Repairs.

Residents of West Front street are considerably annoyed over the condition of the sidewalk in front of the property owned by Brady Brothers, which is near Grant avenue. Many rains have washed dirt over the walk until it is now in a terrible condition.

LOCAL BALL TOSSERS MADE POOR SHOWING.

Hope Chapel Team Shut Out Badly By Garwood A. C. Saturday Afternoon.

SCRAP IN GAME AT PLAINS.

ST. MARY'S AND CLINTON AVENUE TIED IN POORLY PLAYED GAME.

St. Mary's Went To Elizabeth Yesterday Where They were Badly Beaten By Y. M. C. L. A.—Further Details of The Game.

There was something in the air which did not appear to agree with the local baseball players. Saturday afternoon, the Hope chapel boys went to Garwood and were ignominiously shot out by a score of 12 to 0. The playing was remarkably poor. St. Mary's and Clinton Avenue played in poor form for six innings and then tied their game 10 to 10. Scotch Plains was also up against it and ended its game in a quarrel. Yesterday, St. Mary's met the Elizabeth Y. M. C. L. A. and the score ran up so high for Elizabeth that the scorer could not get all the runs down.

ST. MARY'S, 10; CLINTON AVENUE, 10.

For the second time this season the St. Mary's and Clinton Avenue baseball teams crossed bats Saturday afternoon, and for the second time the allotted nine innings were not sufficient to decide the winner of the contest. To the disappointment of 600 spectators Saturday's game was called on account of darkness in the eleventh inning, leaving the teams with divided honors, the score standing 10 to 10.

It was one of the nerve racking finishes that are seldom seen on local diamonds. Both sides had been playing ragged ball until the sixth, nearly all of the eleven errors made being cheeked up in that time.

At the beginning of the seventh the score stood 10 to 7, against the St. Mary's, and pulling themselves together they played with a snap and vim that kept their opponents constantly on the jump. The latter had also commenced playing good ball and no more runs were made until the ninth. By that time the majority of the St. Mary's rooters had lost all hope and many were ready to leave the field.

The drooping spirits of the remainder were revived when Madden reached first on a single and stole second. They were lifted to the shouting, hat-throwing point when Taylor smashed out a two-bagger and brought him home. Taylor was enabled to cross the plate through a safe hit by Angleman, who was himself brought home by Scott, tieing the score. By that time the excitement was intense and the police experienced difficulty in keeping the throng from rushing on the diamond.

The Clinton Avenues played fast and faultlessly in the extra two innings, but all to no purpose. Three times a man was advanced to third, but it was impossible to get him home.

At the end of the eleventh the game was being played in semi-darkness, and with the consent of the management on either side Umpire Dupee called the men from the field. The tie will, in all probability, be played off before the season closes.

GARWOOD A. C., 12; HOPE CHAPEL, 0.

After scoring many brilliant victories during the present season the Hope chapel nine went down in crushing defeat before the Garwood Athletic Club's team on the latter's diamond Saturday afternoon. The score of 12 to 0, in favor of the Garwood twirlers, tells the story in a nutshell for it illustrates the fact that the Plainfielders were never in the game.

It was a decided contrast from what has taken place during the eventful season. To be defeated was bad enough, but to be shut out, and that for the first time this year, was something that stung the plucky young ball tossers to the quick. Then again it came after the boys from the West End had played the same team to a stand still by exactly the same score. This was the deciding game of the season between the two crack nines, the first one having resulted in the score of 22 to 1, in favor of Garwood.

To use the vernacular "there was no kick coming" for the decisions of the umpire were uniformly fair. There was, indeed, only one way to account for it and that is that the fielding of the Hope boys was far below the standard, while that of their opponents was considerably superior, the players being more active and surer. Then again the batting of the Hope lads was much inferior. They did not seem able to connect with the ball and hence few men saw first safely. James Montross and "Tune" Hewitt each made a base hit that would be considered creditable, but beyond this Hope's work was not commendable.

Inning after inning, the Plainfielders went to the bat only to have a "goose egg" recorded against them, while the Garwood players were steadily increasing their score. It was at the last part of the ninth inning that the Plainfielders got a chance to cheer for the first time.

Hewitt had made the hit referred to and James Montross, who was on third, started "on a bee line" for home. The connection with the home base was too slow and Umpire Alexander Muir declared the runner out and the game over.

There was only one double play made during the contest, and this occurred in the sixth inning when Hewitt, Martin and Fiering distinguished themselves. Costly errors were made by "Ben" Evans, "Tune" Hewitt and Hartfelder. James Montross was in the box for the local team during the forepart of the game, but was replaced by Hewitt after being hit hard by the Garwood boys.

ELIZABETH Y. M. C. L. A., 30; ST. MARY, 4.

It wasn't a gentle zephyr which struck the St. Mary baseball team at Elizabeth yesterday. It must have been either a Kansas cyclone or else an East Indian typhoon. When the members recovered from their state of complete demoralization, they discovered that the Y. M. C. L. A. had piled up a score of thirty something, the overworked scorer wasn't sure, as his paper had given out, while four Plainfield men had crossed the plate.

The St. Mary followers claim it was all a mistake, but it is said figures never fabricate, and that is the score marked down for yesterday's game. One spectator said the Plainfielders gave an excellent demonstration of how not to play ball, but he had money on the game and must have been prejudiced.

The St. Mary's placed four pitchers in the box, each of whom managed to throw the sphere somewhere in the direction of the catcher for at least two

IN MEMORY OF TWO GREAT AND GOOD MEN.

Memorial Service Held at Grace P. E. Church Yesterday Morning.

SERMON BY RECTOR RODMAN

TOLD ABOUT WORKS OF PRESIDENT M'KINLEY AND BISHOP WHIPPLE.

The Great Success of Bishop Whipple Among the Indians of the Northwest—Both Died During the Same Week.

A McKinley memorial service was held at Grace Episcopal church yesterday morning. After the morning prayer the rector, Rev. Erskine M. Rodman, delivered an eloquent address in memory of Bishop Whipple, of Minnesota, the "Apostle to the Indians" in the northwest, and President McKinley. Bishop Whipple was the missionary who won the good will of the Indian tribes by treating them with kindness and was of invaluable service to the United States government, which frequently sought his aid in dealing with the red men.

In the course of his remarks Rev. Mr. Rodman said: "Last week two great and good men were born to their last resting place; that great and good man, Henry C. Whipple, and that great and good man, William McKinley. At any other time the death of Bishop Whipple would have greatly moved many people in this land and in England. Under the circumstances it was inevitable that this 'wonderful and horrible thing which has been committed in the land' should have overshadowed every other event.

"Bishop Whipple was a notable man. At the beginning of his episcopate he determined to work among the Indians. He had the image of an Indian engraved on the seal of his diocese to show the prominence that was given to the red man in the work of the church. It was a brave stand to take. Any man can espouse a winning cause, but it takes courage to advocate a feeble and failing cause. That was thought to be the Indian's cause. It was contended that his race was doomed, and that he must give way to the onward march of the Anglo-Saxon. Bishop Whipple lived and labored to defend this maltreated race from wrong and robbery. To it he devoted his life and never ceased his labor until death came.

"And that other great and good man, whose murder has stirred this and all other lands, what a wonderful and horrible thing was committed against him. A Frenchman has said that it is the unexpected that is all the time happening. And surely it was not to be expected that so virtuous a man as William McKinley would be the victim of such a base and horrible assault. Many virtues Mr. McKinley exemplified in civil and military life, and I am disposed to think that his domestic virtues—his devotion to his aged mother and sick wife—will ever demand the admiration of the world and furnish an example well worthy to be followed by the human race."

COTILLION AT HOTEL.

Given by Plainfield Society Folk and Guests at The Netherwood Saturday Evening.

A cotillion was given at the Hotel Netherwood, Saturday evening, and was largely attended by people from the metropolis and this city. Stanton's Orchestra furnished the music. There were twenty-eight couples in the grand march, which was led by Laurens H. VanBuren, of this city, and Edward Struller, of New York.

A feature of the affair was the elaborate favors, many of which were souvenirs of the resort. Refreshments were served in the parlors of the hotel all during the evening. Mrs. Ricardo Struller, of New York, was in charge of the affair, and her assistants were Miss Adams, Mrs. Charles Starr, Mrs. Van Syckle, Mrs. S. B. Carson and Mrs. Emil Guilloder.

DEATH OF J. F. HARRIS.

Aged Resident Passed Away After a Short Illness.

James F. Harris, aged eighty-four years, died Saturday at his home at the corner of West Seventh street and Clinton avenue, after a short illness. Mr. Harris had been in feeble health and his death was not unexpected. He was for many years a farmer, having lived in Plainfield nearly all his life. Three sons survive him.

The funeral services will be held from the house tomorrow afternoon at 2 o'clock. Interment will be at Bound Brook.

INTER-STATE FAIR AT TRENTON.

Septen ber 30, October 1, 2, 3, and 4.

The great Inter-State Fair will be held on September 30, October 1, 2, 3 and 4, on the Fair Grounds, three miles east of Trenton, N. J., on the New York Division of the Pennsylvania Railroad. As in previous years every department will be replete with superior and instructive displays. The blooded stock exhibit will be particularly fine, and the daily programme of races contains the speediest classes obtainable. Automobile races will be novel and exciting.

The Pennsylvania Railroad Company will sell excursion tickets to the Fair Grounds, including coupon of admission, at greatly reduced rates from stations within a wide radius, and special trains over the New York, Belvidere and Amboy Divisions will be run through to the grounds, thus avoiding street car transfer. The management of the Fair has put forth extraordinary efforts to make this year's exhibition even greater than last year's record-breaking display.

BURGLARS HOLD REVEL.

Four Men Seize New York Lawyer's House, Bathe in Florida Water and Drink Wine.

Burglars have been holding high revel in the house of Myron Sulzberger, a lawyer, at 207 East Seventy-second street, New York, during the absence of the family at Arverne, N. Y. Their work was discovered because they left the area door ajar. The open door was noticed by a policeman the other morning. He reported the circumstance to Capt. Brown at the East Sixty-seventh street station. Detectives Tunney, Allen and Maxon investigated.

The dining-room table was found littered with empty liquor and wine

bottles. Fragments of rich food, with which the house had been stocked, lay about, and there were indications which showed that the thieves had cooked their meals on the gas range.

In the bathroom were towels, still moist, which gave off strong odors of bay rum and Florida water. Every other toilet preparation in the place had been also lavishly used by the robbers, who, after their bath and banquet, had dressed themselves from top to toe in the best in the house, leaving behind their own four well worn outfits, even to four pairs of old shoes.

Everything they could find to eat or drink had been consumed when they left. The detectives took the clothes and watched, saying nothing. They observed that Frank Safreck, 20 years old, of 409 East Seventy-second street, had suddenly come out in a light brown suit of fine quality, and it was recalled that the clothes he had worn during the summer were counterparts of one of the suits in their possession. Then they arrested him, and Mr. Sulzberger said the clothes Safreck wore were his. They questioned Safreck, and he incriminated Frank Pollock and John Pollock, brothers, of about his age. In their rooms the detectives found a silver matchbox and four pairs of opera glasses, which Mr. Sulzberger said belonged to members of his family.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.
WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Astamalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel,
NEW YORK, Jan. 3, 1901.

DRS. TAFT BROS'. MEDICINE CO.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

Although it certainly should not, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

Very truly yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., February 1, 1901.

DR. TAFT BROS. MEDICINE CO.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

February 4, 1901.

DR. TAFT BROS. MEDICINE CO.
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street.

AT CANTON.

Throngs Visit West Lawn Cemetery. Mrs. McKinley Holds Her Own.

CANTON, O., Sept. 23.—Dr. Rixey states that there has been no material change in the condition of Mrs. McKinley and that she is doing as well as can be expected. He said:

"She went out for two hours driving yesterday and still seems to be holding her own."

The drives were taken in the family carriage, an open surrey which the president had sent on from Washington for use during the summer vacation. Dr. Rixey and Mrs. C. Barber accompanied Mrs. McKinley. The first trip was to the cemetery in the morning, and it was at the request of Mrs. McKinley. A much longer drive was taken during the afternoon at the suggestion of the doctor, who feels that his patient is benefited by all the outdoor life she can stand and can be induced to take. These outings have always had a tendency to produce sleep and to increase her appetite, and now they have that effect to a degree at least.

There has been placed on the McKinley casket by Judge William R. Day a large floral wreath from the emperor of Russia. It is composed on one side of American Beauty roses and on the other side of orchids. The base is of sago palms, the entire wreath being interspersed with small cocoa ferns tied with orchid satin ribbon.

The resting place of the late president was visited by thousands of people Sunday, probably over 20,000 people entering the gates of West Lawn cemetery between the early hours of the morning and the late hours of the evening. The attractions were the floral tributes sent for the funeral, which have been arranged at either side of the vault. They are still in a very good state of preservation and probably will be for several days longer. The guard of regular soldiers patrolled a very wide circle around the vault and the flowers so that a long line could view the flowers at one time, and thus they prevented serious congestion.

A number of beautiful flowers were also placed on the graves of the McKinley children, which also are protected by a patrol of soldiers. Many of the crowd wandered from the vault to the private lot. Many also climbed the high knoll in the new part of the cemetery, the prospective site of the permanent McKinley tomb and monument. Those thousands of visitors at the cemetery were not from Canton alone, but hundreds came from neighboring towns. The courthouse was kept open all day for the accommodation of hundreds of people who had not yet seen the catafalque, and many people passed through the corridors of that building during the day.

MONUMENT SITE CHOSEN.

McKinley Memorial to Be Erected In Canton Cemetery.

CANTON, O., Sept. 23.—The executive committee appointed under the authority conferred by the cabinet for the purpose of conducting the final obsequies of the late president at Canton has issued the following statement relating to the erection of a national monument at the cemetery in this city to the memory of President McKinley:

"The place in view is beautifully located in the cemetery where the deceased members of the late president's family are already buried. The location was visited by members of the cabinet, the speaker of the house, members of congress and other distinguished men in attendance at the president's funeral on Thursday.

"There was but one sentiment expressed as to the beauty and eligibility of the location. Many visitors have expressed their approbation of this selection, and all agree that a more fitting place for the final repose of the president's remains could not be selected.

"After the corporation shall have effected its organization steps will be taken to procure subscriptions with a view to the speedy erection of the monument."

THOUSANDS FOR CHARITY.

Many Institutions Remembered In Mrs. Wilcox's Will.

WESTERLY, R. I., Sept. 23.—The will of the late Harriet Wilcox, widow of Stephen Wilcox of Brooklyn, who died Aug. 21, 1901, has just been made public. Provision is made for a large number of relatives and friends from an estate that is variously estimated at from $1,500,000 to $3,000,000.

The will leaves $150,000 to the Westerly Memorial and Library association in trust, the income to be used in maintaining the building, library and adjoining park.

Her private collection of statuary, paintings and works of art in her Brooklyn home are given to the Library association. In addition she gives $10,000 to the Broad Street Christian church of Westerly, $5,000 each to the First Baptist, Calvary Baptist and Methodist Episcopal churches of Westerly; $5,000 to the church in Charlestown, R. I.; Industrial Home For the Blind, Brooklyn, $10,000; Hampton school, Hampton, Va., $20,000; Children's Aid society of New York city, $20,000; Bible society of New York city, $5,000; New York City Mission and Tract society, $10,000; Association of Improvement of the Condition of the Poor of New York city, $10,000; New York Skin and Cancer hospital, New York city, $20,000; American Missionary society, New York city, $10,000; Home For Consumptives, Brooklyn, $10,000; Home For Aged Men, Providence, R. I., $20,000; Wesleyan university, Middletown, Conn., $20,000.

The trustees are directed to hold in trust the balance of the estate, paying such sums as they think wise to the parties named, and are given ten years in which to settle up affairs.

An Antianarchy Organization.

MILWAUKEE, Wis., Sept. 23.—A national organization having for its purpose the clearing of the country of anarchists has been organized in a small way in this city. The organization is to be called the "American Patriotic Educational league." A constitution was adopted, in which it is set forth the belief that the enactment of laws to prevent the spread of anarchistic doctrines is practically ineffectual, but that these doctrines can be extirpated by appealing through educational means to public sentiment and by making these doctrines so unpopular and contemptuous that no one would have the hardihood to promulgate them.

Miss Stone Not Yet Rescued.

CONSTANTINOPLE, Sept. 23.—An agent of the brigands who kidnaped Miss Helen H. Stone, the American missionary, in the district of Djumabala, vilayet of Salonika, has been arrested at Baritza. Miss Stone has not yet been rescued.

EXPOSITION RALLIES

Assassination of the President a Great Setback.

SIX WEEKS YET FOR SIGHTSEERS.

President Milburn Calls Upon Americans to Bend Every Energy to Make the Pan-American a Success In Spite of the Tragedy.

BUFFALO, Sept. 23.—This city is pulling itself together after a fortnight of anxiety and sorrow such as it has never known. What was intended to be the gala period of its history was turned into unspeakable grief, which has gone into every home with a force hard for any one not here to realize. Buffalo was full of personal loyalty and enthusiasm for President McKinley. It has been a center of McKinley sentiment all through his public career, and there was no city in the country where friendship and devotion for him was more marked. Naturally his tragic end while its guest depressed the city beyond expression.

There never was a community more engrossed in a great undertaking than Buffalo was with the Pan-American exposition three weeks ago. Every man, woman and child in the city had a direct interest and pride in the undertaking. It seemed that every one with whom a stranger spoke had in mind the large ideal of the great good which the demonstration of the wonderful resources and abilities of the western hemisphere was to do for the country. Buffalo people seemed rather proud that the whole expense of the demonstration had fallen upon them and their fellow citizens. They would call attention to the fact that all of the funds had been raised in Buffalo without assistance from the nation, the state or even the city corporation.

When in his memorable address the president emphasized the Pan-American idea and made it part of history, the people of Buffalo realized that their efforts were appreciated. They seemed contented and proud that as individuals of

PRESIDENT MILBURN.

one city they had done the work which might well have been the nation's undertaking.

The revulsion was terrible, and now that it is passed the question of what is to come is interesting. The public feeling is strong and all one way. Every one seems to realize that the stockholders of the exposition have met a great loss, probably of not less than $1,000,000. That practically means the citizens, for about every Buffalonian has stock in the exposition according to his means. The dollars and cents seem pretty thoroughly to be eliminated from the calculation now, but the work to be done and the end to be achieved seem foremost in every man's mind. They feel now that the exposition must be carried to a glorious finish as a labor of patriotism and of love. President Milburn and Director General Buchanan were seen together. President Milburn put this thought very strongly. He said:

"There must be no faltering in our efforts now, considering how much the success of the Pan-American exposition means in the development of closer political and commercial relations between the peoples of the western hemisphere. That was a policy earnestly favored by President McKinley and which interested him so deeply in the exposition from its first inception. It is a strange stroke of fate that the success of the exposition should be threatened through this fearful tragedy. We should be lacking in loyalty to his memory if we did not bend all our energies to crowning the work which he had so close to his heart.

"The position in which the tragedy found me gave me the opportunity to know what was in that great soul during the hours just before that execrable shot. The president had taken the deepest interest in the exposition from the start. Its ideal and conception are in harmony with his wise and beneficent public policy. The years that have been spent in the evolution and development of the idea of the essential interdependence of the nations of this hemisphere which we call the pan-American idea have their first full expression in this exposition.

"There are six weeks more of the life of the exposition, and it is in the full bloom of its beauty and interest. Every feature of it has been developed to its highest point, and it is being operated on a more elaborate scale than ever. It is a complete mass of varied activities and entertainments, more than adequately carrying out its aims and purposes. It is a national enterprise and should be supported as such for the credit of our country as the leading nation of this hemisphere. That support, I feel certain, it will have in fullest and overflowing measure."

A Voice From the South.

MACON, Ga., Sept. 23.—The Telegraph today says editorially: "At the moment when President McKinley was assassinated in Buffalo the Pan-American exposition was on the rising wave of entire success. It was the first exposition of an international character to be produced on this continent without the aid of congress. It will not do that the infamous deed shall blight the magnificent undertaking which President McKinley in his address the day before he was struck down so eloquently commended. Let the railroads give the people a chance, and they will attend. Let there be 'home seekers' rates' put in force on all roads all the way from Hell Gate to Golden Gate, from the Rainy river of the north to the Rio Grande of the south."

NO POISON WAS FOUND

Bullets and Weapon of McKinley's Assailant Examined.

CZOLGOSZ SEEN BY ALIENISTS.

Great Secrecy Maintained, but It Is Believed That No Trace of Insanity Was Found—Trial Begins Today.

BUFFALO, Sept. 23.—Leon F. Czolgosz, whose trial for the assassination of the late President McKinley begins today, has been examined as to his sanity by Dr. Carlos F. McDonald of New York, the eminent alienist, who was for years the chairman of the state board of lunacy commissioners. The prisoner's counsel, former Justices Loran L. Lewis and Robert C. Titus, were present at different times during the examination. At its close Dr. McDonald declined to discuss the case, and the attorneys would not express their opinion as to the assassin's mental condition, although the inference drawn from their answers was that they believed Czolgosz to be sane.

The most important development in the Czolgosz case is the announcement that no poison has been found on the bullets or the revolver with which the anarchist assassinated President McKinley. Chemical and bacteriological examinations were made, and both revealed the fact that no poison was used by the murderer.

District Attorney Penney and his entire staff spent all of Sunday at the city hall preparing for the trial of Czolgosz, which will begin before Justice White in part III of the supreme court today. Mr. Penney had conferences with the alienists and with City Chemist Herbert M. Hill, who submitted his report upon an examination of the bullets and revolver.

Immediately after the death of the president one of the staff physicians in attendance on the president expressed the opinion that the bullets might have been poisoned. District Attorney Penney, who had possession of the assassin's revolver, ordered a careful and thorough examination made. Dr. Hill was directed to make a chemical examination of the bullets and the chambers and barrel of the revolver, and Dr. Herman G. Matzinger, one of the surgeons who performed the autopsy upon the president's body, was ordered to make a bacteriological examination.

Dr. Hill reported to the district attorney that his work showed that no poison had been used. He also presented a written report, but it will not be used on the trial, as that question is now eliminated from the case. Dr. Matzinger has finished his bacteriological examination, and his work also revealed the absence of any poison. The district attorney has been informed to that effect, although the formal report has not been submitted. Authorities on this question state that the two examinations form a complete test and that the slightest trace of poison would have been revealed.

Dr. McDonald and Dr. Hurd, alienists for the defense, called upon District Attorney Penney shortly before 3 o'clock Sunday afternoon and remained with him until 3:15, when they were escorted to the jail by Detective Solomon. The insanity experts went into Czolgosz's cell in "murderers' row" and were locked up in the cell with him until 4:15 o'clock, when they returned to the city hall and held another conference with the district attorney. Fifteen minutes later Dr. James W. Putnam, a local alienist, appeared and joined the conference.

Although great secrecy was maintained at the district attorney's office, it was learned that Dr. Allan McLane Hamilton, one of the most noted alienists in the United States and who was an expert witness at the trial of Guiteau, is in Buffalo. Not a doubt as to Czolgosz's sanity exists in the mind of District Attorney Penney, so that it is presumed that Dr. Hamilton is here merely to meet the question of insanity should the defense determine to make a fight on that ground. Although the defense declines to make any definite statement on the subject pending the final opinion of Dr. McDonald, it is the consensus of opinion among those interested in the case that no insanity plea will be interposed by Judges Lewis and Titus.

The district attorney is already fortified with the opinion of Dr. Joseph Fowler, Dr. James W. Putnam and Dr. Floyd S. Crego, Buffalo alienists of some note, that Czolgosz is perfectly sane.

News and Gold Dust From Dawson.

VANCOUVER, B. C., Sept. 23.—The steamer Hai Ting arrived from Skaguay bringing a report of the alleged absconding of Edward Daniel, cashier for Barsh & Co., merchants of Dawson, with a sum of money variously estimated at from $35,000 to $50,000. Daniel is said to have been taken in charge since on the American side near Eagle City, Alaska, and he probably will return to Dawson to stand trial. The mystery regarding the death of Peter Wyborg, who recently disappeared from Dawson, has been cleared by the finding of the body in the river below Dawson. The man had fallen off the wharf and drowned. The Hai Ting brought over 100 passengers and several hundred thousand dollars' worth of gold dust. The trip was a rough one coming down, and the weather was very foggy.

The Czar's Homeward Journey.

BERLIN, Sept. 23.—Emperor Nicholas and the Russian empress arrived at Kiel at 6 o'clock last evening. They were met at the railway station by Prince and Princess Henry of Prussia and the Russian imperial children, with whom they drove to the castle. At 9 o'clock the Russian sovereigns, accompanied by their children, resumed the journey homeward.

Elevator and Contents Destroyed.

ST. LOUIS, Sept. 23.—Fire in the Purina mills has almost entirely destroyed the elevator attached to the mills and damaged other buildings considerably. Forty thousand bushels of wheat and corn were destroyed. The total damage to the buildings and contents is placed at $60,000.

Porto Rican Boys to Be Educated.

NEW YORK, Sept. 23.—The steamer Ponce, which has just arrived from Porto Rico, has on board twenty-six schoolboys sent by the board of education of Porto Rico to be educated in the United States. Among the other passengers are the governor's wife, Mrs. William H. Hunt, and son.

A Minnesota Town Fire Swept.

MADISON, Minn., Sept. 23.—Fire which broke out in the Merchants' hotel destroyed the town hall and fifteen business buildings, entailing a loss estimated at $50,000.

IN M'KINLEY'S MEMORY.

An Impressive National Service at Washington.

WASHINGTON, Sept. 23.—A very impressive national memorial service was held at Chase's Grand Opera House in this city yesterday afternoon. An hour before the exercises began every seat in the theater, which holds over 4,000 people, was taken, and an overflow meeting on Fifteenth street was arranged. Fully 5,000 people stood in the street throughout the afternoon listening to addresses in eulogy of the late president.

President Roosevelt was invited to attend the services at the opera house; but, having already refused many similar invitations, he felt compelled to decline. Postmaster General Smith, however, occupied a box, and many prominent officials were in the audience. Lieutenant General Miles and Admiral Schley were in adjoining boxes. A good representation from the diplomatic corps also was present. The Chinese minister, Mr. Wu, and his suit and the Japanese minister were together in an upper box.

The opera house was handsomely draped for the occasion. The stage was banked with palms, and on either side were beautiful wreaths, one of galax leaves eight feet high and the other of white and purple asters. A large crayon portrait of the late president shrouded in black hung in the rear of the stage. The full Marine band was in attendance. The Hon. Henry B. F. MacFarland, president of the board of commissioners of the District of Columbia, presided.

The exercises consisted of five minute addresses by ministers of the different denominations and music suitable to the occasion, the musical feature being the singing by the entire audience, with the Marine band accompaniment, of the hymn "Nearer, My God, to Thee," and the national anthem "America." A quartet from St. Patrick's church sang "Lead, Kindly Light," and the Harmony lodge quartet of the Masonic choir rendered "Jesus, Lover of My Soul." Mrs. Thomas C. Noyes sang a solo, "Some Time We'll Understand."

COLOMBIAN ADVICES.

Insurgent Defeat Confirmed—General Echeverria Shot.

WILLEMSTAD, Curacao, Sept. 23.—The Venezuelan gunboat Miranda has arrived at Caracas from Guajira badly in need of repairs. She cannot go to sea again until she has been overhauled.

Her commander brings news confirming the reports of the defeat of Colombian Liberals and their Venezuelan allies near La Hacha Sept. 13 and 14. It appears that the Colombians, the regulars, withdrew and scattered as the Liberals and Venezuelans advanced and then gathered again in larger numbers, surrounding General Davila's command just prior to the engagement of the 14th. There is still no reliable information as to the number killed.

An Indian chief named Jose Dolores, whose followers are fighting with the Colombian government, is reported to have cut off General Davila's retreat to Venezuelan territory.

It is now persistently reported that the Colombians have captured and shot General Echeverria. Inquiries seem to show that he was born in Barranquilla, Colombia, and was a Colombian. If shot, it was because he was a native who had aided foreigners to invade Colombia. There is no doubt that he was the commander of the Venezuelan gunboats lately cruising before La Hacha and Guajira. The decree under which he is reported to have been executed was published about a month ago. It characterizes as treasonable and punishable with death the act of a Colombian invading Colombia with foreigners, but whether executed or not there is no reasonable doubt that General Echeverria has been captured by the Colombians.

It is reported that about 200 wounded have reached Maracaibo.

The Venezuelan government has just acquired 350 tons of coal in Caracas, which was shipped yesterday to Fort San Carlos and Maracaibo. It was not paid for before departure, and the owner vainly attempted to stop the shipment.

A Valuable Costa Rican Concession.

SAN FRANCISCO, Sept. 23.—Evon Johannsen, the Costa Rican consul general, has received deeds from his government which convey to an American-German company a concession to 50,000 acres of valuable coal and agricultural land lying on both the Pacific and Atlantic coasts of that country. The term of concession is fifty years, and the company is permitted to use for port purposes 400 meters of land in every nautical mile of coast line. The company is exempt from all import duties and taxation and is granted railroad and telegraph privileges free. The only stipulation in the agreement is that the company must dispose of one-fifth of its capital stock of 5,000,000 shares in Costa Rica. The matter of the concession was ratified in an extraordinary session of the Costa Rican congress.

Strike Ties Up Railroads.

LOUISVILLE, Ky., Sept. 23.—A strike for higher wages of forty switchmen employed at the Kentucky and Indiana bridge across the Ohio river here has caused a tieup of freight trains which affects eight railroads more or less seriously. About 1,300 freight cars are sidetracked at New Albany, Youngstown and at this place, and not a wheel has turned since Friday afternoon. Engines with steam up and their engineers and firemen ready to move are to be seen by the dozen at Youngstown and at the terminals of the bridge.

Sousa Going Abroad.

NEW YORK, Sept. 23.—John Philip Sousa and his band gave a farewell concert in the Metropolitan Opera House last night. Mr. Sousa, with his band, will sail on Wednesday by the American line for a three months' tour of Great Britain and Ireland.

A BRITISH REVERSE.

Kritzinger's Force Repulsed With Loss at Orange River.

LONDON, Sept. 23.—The war office has received the following dispatch from Lord Kitchener, dated Pretoria, Sept. 22:

"Kritzinger, while endeavoring to force a passage of the Orange river near Herschell at 1 o'clock Friday morning, rushed the camp of a party of Lovatt's scouts. He failed to cross the river, but the scouts lost heavily. Lieutenant Colonel the Hon. Andrew Murray and Captain Murray, his adjutant, were killed. Deeply regret the loss of Colonel Murray, who throughout the war had led Lovatt's scouts with great gallantry.

"Under cover of darkness the Boers managed to carry off a gun. They were promptly followed up, and the gun was recovered in a smart engagement, in which Kritzinger lost two killed and twenty taken prisoners."

Lord Kitchener also reports that the British captured by the Boers in the ambush near Scheeper's nek Sept. 17 have been released and that the British casualties in the recent Vlakfontein engagement, when the Boers captured a company of mounted infantry and two guns, were one officer and five men killed, twenty-three men wounded and six officers and 109 men taken prisoners. He announces that these prisoners have since been released.

He further reports the capture of two commandoes, one consisting of fifty-five men under Commandant Kochs, who were taken, together with their entire transport, west of Adenburg, and the other consisting of fifty-four men, including P. J. Botha, who were taken with forty-eight wagons and their belongings forty-five miles southeast of Carolina.

A most alarmist letter from Cape Town is published today by The Daily Express. The writer says:

"The Boers are overrunning Cape Colony. They are on both the coast lines and within forty miles of Cape Town. Even the intelligence department does not know how many colonial rebels have taken up arms in the last fortnight.

"The town guard of Cape Town has been ordered to hand in the magazine rifles and ammunition, ostensibly because these are wanted at the front. Martini-Henrys have been served out instead."

In conclusion the writer declares that "the Dutch element in the colony is in revolt, and it is useless to disguise the fact."

THE DUCAL VISIT.

A Quiet Day In Ottawa—The Last Day In Canada.

OTTAWA, Ont., Sept. 23.—The Duke and Duchess of York spent yesterday at Rideau Hall resting after a week of travel and receptions. They attended service at Chrissi cathedral at 11 o'clock, and that was their only public appearance during the day. They were accompanied by Hon. Derek Keppel, and a troop of Royal Canadian dragoons formed their escort. There was a platoon of police at the door of the church, and police in civilian dress mingled in the crowds on the streets and about the cathedral.

The crowds on the bunting dressed streets cheered the royal couple as they drove past, but there was no demonstration at the church before the services. Seats for the royal party and the governor general and the Countess of Minto had been reserved, and they were immediately shown to them. The sermon was preached by Rev. Henry Kittson, rector of the cathedral. As the duke and duchess left the cathedral the outpouring congregation broke into a cheer, the duke raising his hat in acknowledgment as his carriage moved off.

Today the royal party will be taken through the timber slides on the Ottawa river and then down the river to Rockliffe in Indian canoes and lumbermen's boats. They are to visit the lumber camps to see the life and partake of the fare of the lumbermen.

In the evening there will be a public reception in the senate chamber at the parliament buildings. The duke and duchess will stand on the speaker's throne, and those who are presented will merely bow before them and withdraw.

At Melbourne the duke shook hands with 3,000 persons in one afternoon and lost the use of his arm for over a week. That experience led to the abandonment of hand shaking at general receptions.

The royal party resume their journey westward to the Pacific coast tomorrow morning, and their first stop of any length will be at Winnipeg, which they reach on Thursday afternoon. It has been definitely decided that the duchess will make the entire journey through to Victoria and will not stop at Banff, as was planned. Lord Minto, governor general, will not go to the Pacific coast with the party, but Premier Laurier will accompany them.

Confidential Clerk Gone Wrong.

ROME, N. Y., Sept. 23.—The same old story—speculation in stocks and then taking the money of the employer to make good the margins—such is the case of John C. Higham of this city, who for sixteen years has been confidential clerk and salesman for the cheese buying firm of Robert McAdam & Sons, doing business at 6 Harrison street, New York. The only surviving member of the firm is the postmaster, ex-Member of Assembly George G. McAdam of this city. Higham has made a confession, stating that he is short in the company's accounts to the amount of $19,000. He commenced his peculations in the present year.

Memorial Service In Chicago.

CHICAGO, Sept. 23.—Chicago yesterday paid its second tribute to the memory of President McKinley. Memorial services were held in all parts of the city during the day and night. At the Coliseum, where the principal exercises were held, so many people applied for admission that an overflow meeting was arranged at Tattersall's. In the afternoon the services were for school children, and all the speakers endeavored to impress upon the young people the significance of the assassination of the president and the conditions that actuated the assassin. Senator Dolliver of Iowa was the principal speaker at the evening meeting.

Colorado Forest Fires.

DENVER, Sept. 23.—A special from Eldora, Colo., says the town is again threatened by the forest fire which has been burning in that vicinity for the last eight days. The fire is now within half a mile of the town, and should the wind change a little it would send the fire upon the village. More than fifty square miles of heavy timber has been consumed, making this the largest forest fire that ever occurred in this state.

Weather Probabilities.

Fair; fresh to brisk southerly winds.

AN IMPORTANT PRIZE

Aguinaldo's Bodyguard Surrenders When Hard Pressed.

FORMER REBEL CHIEF LIVES IN FEAR

Operation on General Funston For Appendicitis Successful—Memorial Service For McKinley Held In Cebu.

MANILA, Sept. 23.—Aguinaldo's bodyguard, Major Alhambra, two captains, two lieutenants and twenty-nine men, with twenty-eight rifles, surrendered about forty miles north of Baler, island of Luzon, to Captain George A. Detchemendy of the Twenty-second United States infantry, took the oath of allegiance and were released.

After Alhambra kidnaped the presidente of Casiguran Sept. 12 Captain Detchemendy requisitioned a steamer and pursued him closely. He would have been captured within an hour if he had not surrendered.

Captain Detchemendy reports that he has recovered a portion of the body of Denzell George Arthur Venville, the ill fated apprentice of the United States gunboat Yorktown, who was one of Lieutenant Gillmore's party when that officer was captured by the Filipinos in April, 1899. The remains will be forwarded to Manila for shipment home.

Since Aguinaldo left General MacArthur's house for his present place of confinement he has never left the premises, although he is at liberty to do so if accompanied by an officer. The reason assigned is that he fears assassination at the hands of the partisans of the late General Luna.

General Chaffee has refused the request for the release of the prisoners on the island of Guam. He considers that their release would not be safe until the surrender or capture of Malvar and Lukban, and he also believes that the friends of the prisoners, desiring their release, will use their influence to bring about the surrender of the insurgent leaders named.

The United States transport Buford, carrying the Seventeenth infantry to relieve the Twenty-third and then under orders to proceed for New York, has gone aground on a sand bar off the island of Mindanao. Her position is not dangerous unless a typhoon should set in. Boats have been sent to her assistance.

General Frederick Funston, who has been in the hospital suffering from appendicitis for about a week, has undergone a successful operation.

The bishop of Cebu conducted memorial services in the cathedral for the late President McKinley, and the Spanish speaking Protestants held a service in the Rizal theater.

English Praise For Funston.

LONDON, Sept. 23.—The Times, referring editorially to General Funston's recently published account of the capture of Aguinaldo, says: "It is no exaggeration to say that the capture practically terminated the Philippine war. General Funston deserves as much commendation for the ingenuity of his device as for the pluck and determination that carried it into effect."

The President's Sunday.

WASHINGTON, Sept. 23.—President Roosevelt's first Sunday in Washington as chief executive was comparatively uneventful. He went out twice during the day, in the morning attending religious service with his brother-in-law, Mr. Douglas Robinson of New York, and in the afternoon taking a long stroll through Rock Creek park with General Leonard Wood, military governor of Cuba. In the evening he dined with the family at the residence of Captain Cowles of the navy, at whose residence he is staying preparatory to moving into the White House. Accompanied by Mr. Robinson, Mr. Roosevelt left the Cowles residence shortly before 11 o'clock for the Reformed church, located on Fifteenth and O streets, which as vice president he chose as his church home just after the inauguration. The president was attired in black frock coat and trousers and gloves to match. He wore a silk hat. Reaching the church just before the hour of worship, President Roosevelt was met at the door by Rev. J. M. Schick, the pastor, who extended a cordial greeting, to which Mr. Roosevelt responded, at the same time introducing Mr. Robinson. The two were then escorted to the president's pew, the second from the front in the center section.

The Czar Out of France.

PARIS, Sept. 23.—The czar of Russia left French soil at Pagny-sur-Moselle after bidding farewell to President Loubet at the station at Betheny. All those responsible for his safety breathed a sigh of relief, for it has been a most anxious time. The extraordinary vigilance exercised resulted, however, in his stay in France from first to last passing without the slightest untoward incident. The salient feature of the visit was its military character. The czar came to see the French army, and he has been seen himself by but few persons except soldiers. His general demeanor created the most favorable impression among all who came in contact with him. Before going on board the train the czar requested Waldeck-Rousseau, the premier, to contribute on his behalf 100,000 francs to Paris charities. He also ordered the distribution of 5,000 francs to the charities in each of the towns of Dunkirk, Compiegne and Rheims.

Cubans May Rule May 1.

WASHINGTON, Sept. 23.—General Leonard Wood, military governor of Cuba, has left here by way of Tampa for Havana. Mr. Alex Gonzales accompanied him. The expectation of General Wood is that he will be able to complete arrangements by which the conduct of affairs in the island can be handed over to the Cubans by the first of next May. The electoral law which the governor brought with him for the inspection of the authorities here is satisfactory to the administration provided some modifications are made. As a result of his talk with the officials here General Wood expressed the opinion that there will be no change in the attitude of the administration toward the Cubans, but that the policy inaugurated by Mr. McKinley will be continued by his successor.

Congratulations From Spain.

SAN SEBASTIAN, Spain, Sept. 23.—The Nationalists of the Basque provinces have sent a message to President Roosevelt congratulating him upon his accession and expressing their best wishes for the welfare of the United States as the "defender of oppressed peoples."

COMING EVENTS

September 23—Meeting of the Board of Trade.
September 23—Republican city primaries and enrollment 8 p. m.
September 26—Democratic city primaries.

Republican Primaries.

The Republicans of Union county will hold their primaries this evening, at which delegates to the State convention will be elected. In this city, however, the primaries assume more importance than in the other parts of the county, as the Republican city committee has provided that the enrollment list be revised and amended on this occasion.

This question of enrollment was first utilized here for the primaries held previous to the last city election. All Republicans are required by the party primary laws to be enrolled at the proper time or else they will not be allowed to vote at the primaries when nominations for municipal officers are made. It cannot be said that this plan found any remarkable amount of favor with the Plainfield citizens last year. A number of good Republicans were omitted from the enrollment lists last year and were consequently barred out of the primary. Much criticism was the inevitable result.

This enrollment was intended to prevent the packing of primaries. On previous occasions, several of the Republican primaries became practically a farce in that many well-known Democrats voted openly at them. In one ward the number of ballots cast at a Republican primary considerably outnumbered the highest Republican vote ever cast there. The city committee searched for some means to prevent a repetition of such occurrences and this was the result.

There are delegates to be elected to the State convention of the Republicans, which will be held at Trenton, Thursday. As it is a foregone conclusion now that Franklin Murphy will be nominated for governor, there is no contest for the delegates. Consequently the primaries tonight promise to be very tame. The fact, however, that all Republicans have to be enrolled at the meeting this evening if they want to vote at the primaries to come, is likely to bring out a fair attendance.

Now For Action.

After an expression of grief and sorrow, unexampled in the history of the Nation, the new order of things has begun. Much of the mourning decoration still remains prominently before the public eye but the citizens have resumed their business duties after the cessation which came with the funeral at the National Capital and at Canton. But the memory of the man, William McKinley, shot down by one of the embassies of the organized opposition to government and society, will never pass away.

But that terrible blow to this land has had its effect. It was a lesson learned at a great cost. In their anxiety to prevent any abridgement of freedom, the people have allowed a movement to gain ground here which threatens the whole existence of the Republic. But liberty is not license and the whole country cries aloud that this murderous band be driven from these shores and that a check be put on this constant importation of the scum of the European countries. Congress and the various State Legislatures are looked to act in the matter without delay.

"One solution of the anarchistic question is that our public schools compel (if necessary) the attendance of all children to the public schools, and it will be impossible for such children to become anarchists."—North Plainfield Review.

One solution for preventing such blunders as the above would be to compel editors to peruse the statutes. Children are compelled to attend school in New Jersey, Pennsylvania and many other States.

The local members of the Somerset County Board of Freeholders view the improvement to the Giraud avenue bridge in the proper light, but some of their colleagues up in the county are afraid to spend the money necessary to build the bridge as it should be built. If the borough was only part of Greater Plainfield and in Union or a separate county, then a few narrow minded country politicians could not hold up a much needed improvement.

The application of the Aluminum Press Company for a receiver was a general surprise for the Plainfield public. As a matter of fact, however, the company is not in such a bad way as would naturally be supposed. Lack of sufficient working capital and too long credits cramped the resources of the company, but a reorganization will be effected and the work will be continued with but little delay.

It is a despicable act to poison another man's dog, even if that dog has no monetary value. When the canine happens to be a valuable one and a great pet besides, it can only be the act of some one who is wanting in certain moral tendencies. It is to be hoped that the residents of Nether wood will succeed in finding out the one who is apparently bent on exterminating their dogs.

While Mayor N. B. Smalley, of North Plainfield, has very little to say on the subject at present, it can be counted as a certainty that his name will come up before the Republican county convention over in Somerset county when the nomination for sheriff comes along.

There is no doubt but that the Borough Board of Education will be perfectly justified in providing extra accommodations at the borough schools so that the children of that community shall receive proper education.

It looks as if the Kean faction of the Republicans of Union county would make no attempt to turn down Congressman C. N. Fowler for the Republican State committee.

Mayor Smalley says that no "yellow journals" shall be sold in the borough. The Mayor is likely to have some exciting times if he attempts to enforce that rule.

The mosquitoes are mourning for fear that the Republican cohorts will picnic at Recreation Park too late for them to get in their good work.

Mr. Drake's New Position.

Browning, King & Co., of New York, have opened their new retail clothing store on Cooper Square, West. It is considered to be one of the finest and most complete stores of its kind to be found anywhere. Among the salesmen connected with the house is P. Newton Drake, of 165 Somerset street. He is an experienced man and his friends will wish him much success in his new position.

Permit For Frame Dwellings.

Building Inspector T. O. Doane has granted a permit to Joshua D. Loizeaux for the construction of a frame dwelling on McKinley place, near Johnson avenue. The building will be two and a half stories in height. E. C. Schenck will do the carpentry work, and William Pangborn will construct the masonry.

Will Open an Office Here.

The Union County Investment Company, composed of Mrs. Charles Hyde, daughter and sons, will soon lease offices in this city, where business in connection with the developing of property owned by the company will be conducted.

Musical Treat.

A musical entertainment will be given in Y. M. C. A. Hall Friday evening, October 11, by the Rock Concert Company. The affair will be given under the auspices of the Christian Endeavor Society of Trinity Reformed church.

Endeavorers in Charge.

The regular consecration service was held Friday evening at the First Baptist church under the auspices of the Endeavor Society. It was a helpful service and well attended.

Photographed Bank.

Thursday afternoon Horace Vail, of the First National Bank, took an excellent photograph of the bank building with its mourning decorations.

District Meeting

A district meeting of Knights of Pythias will be held in the rooms of Unity Lodge, No. 102, K. of P., Wednesday evening, October 16.

Noticeable Decorations.

Especially noticeable were the drapings at the home of Andrew McCardell, West End Park, in honor of the late President McKinley.

GIVEN BY SWEDISH CHURCH.

SUCCESSFUL ENTERTAINMENT HELD IN CHAPEL OF GRACE CHURCH.

Programme Included Selections In English And Swedish As Well As Music.

A delightful entertainment was given in the chapel of Grace P. E. church, Saturday evening, under the auspices of the Swedish Lutheran Gethsemane church.

Under the direction of Mrs. H. A. Anderson, the programme was prepared. It consisted of an address of welcome by Rev. Dr. Whitney; remarks by the pastor, Rev. C. G. Gronberg; a duet by the Misses Hulda Bostrom and Maria Heden, who gave the Swedish national hymn, and were attired in native costume; a recitation by Miss Viga Thulin; two vocal solos, "The Heavenly Song" and "Three Young Maids," by Mrs. John Manley; a violin solo by Henry Bjorkman, of Perth Amboy; recitations by Miss Virginia Anderson and Miss Gertie Geier; a duet by Mr. Bjorkman and Miss Youngman; a recitation in Swedish by Miss Viga Thulin; a piano selection by Miss Ebel, organist of the German Reformed church; and a vocal solo, "Home, Sweet Home," in Swedish, by Miss Virginia Anderson.

During one of the intermissions refreshments were served by the women of the church.

The entertainment was arranged and conducted by Mrs. H. A. Anderson, assisted by Mrs. John Gjetelson, Mrs. Jacob Geier, Mrs. Herman Keller, Miss Viga Thulin and Miss Singnia Carlson. The proceeds will be devoted to church purposes.

ONCE LIVED HERE.

Miss Volkman, Formerly of the Borough, Married in New York.

A very pretty home wedding, which took place at the residence of Mr. and Mrs. C. A. Volkman, of 1,375 Boston road, Bronx borough, New York, last week, will be of interest to many Plainfielders. The bride was Miss Martha L. N. Volkman and the groom, Lammel Loube, of New York. The former was once a resident of the borough, where she is very well known.

The ceremony was performed by the pastor of the Bethany Lutheran Reformation church, in the presence of a large number of guests, of whom many were from this city and the borough. Following the nuptials a reception was held, after which Mr. and Mr. Loube left for a trip to Buffalo and Niagara Falls. They will make their home in New York.

ARRESTED FOR THEFT.

Fred Shepherd Released As No One Would Press Complaint.

Fred Shepherd, a young boroughite, was arraigned in the City Court this morning charged by Chief Kiely with having purloined a number of articles from a Watchung avenue residence. He had been doing some electrical work in the house and on leaving took with him, it is said, a chamois vest, a fancy tobacco pouch and several trinkets. As no one would press the charge, as the articles have been recovered, Shepherd was discharged.

Will Mend His Ways.

On promising to mend his ways and take a position secured for him by his father, Wm. Ashton was allowed to go under a suspended sentence in the city court this morning. With Edward Marcellus he was arrested for throwing coal at the backs of houses along the railroad and breaking open a box of chewing gum in front of Callahan's grocery store. The Marcellus boy has left town and proceedings against him have been dropped.

Serenaded The Mayor.

The Garibaldi Band, of New York, who participated in the parade of the Societa Operaia Italianna, Thursday, serenaded Mayor Newton B. Smalley during the afternoon of that day. The Italians were so delighted upon being given permission to parade through the streets of North Plainfield that they took this means of showing their appreciation.

Denies Her Engagement.

The Daily Press is in receipt of a letter from Miss Lillian B. Thorn, of New York city, denying the announcement of her engagement which appeared in The Press recently. The announcement of Miss Thorn's engagement came to this office bearing her name attached.

Father and Daughter Ill.

LUMINOUS FLOWERS.

They Have Been Frequently Observed in Golden Gate Park, San Francisco, Cal.

To a woman belongs the honor of having first discovered flowers that emit light. This woman was the daughter of Linnaeus, the celebrated Swedish naturalist. One evening, when the aged man and his daughter were walking in their gardens, she called his attention to some nasturtiums glowing with a faint phosphorescent light. They removed these to a perfectly dark room and there viewed the ghostly illuminated flowers for hours, trying to solve the mystery.

Since that time a number of different flowers have been found to give

FLOWERS THAT EMIT LIGHT.
(Observed in Golden Gate Park, San Francisco, Ca.)

forth a light, among them being the corolla of the common sunflower; also a species of tagetes, called by the French botanists the "rose d'Inde," and the large and beautiful compound flower called in this country the dahlia.

"Luminous nasturtiums," writes Prof. A. Frederick Collins, "have been frequently observed in Golden Gate park, San Francisco. I observed one evening a number of persons bending over an iron pot full of nasturtiums. Curious to know what the attraction was I fell into line until it became my turn to inspect the flowers at closer range.

"I was surprised to see a flash of light dart repeatedly from the yellow petals. The next day I photographed it.

"A strange fact regarding the phosphorescent light emitted by certain flowers, it has been observed, is that those in which the yellow and orange predominate exhibit the greatest amount of light. Prof. Haggern, the naturalist, pronounces the light of electrical origin, declaring that when the pollen bursts electricity is produced, and light follows."

A MOTOR FOR BOATS.

Unique Electrical Contrivance That Is Situated Entirely Outside in the Water.

Practically all boats which are propelled by electric power have the motor, as well as the battery, inside, and a long, horizontal shaft, which carries the screw, passes through the stem. An innovation has been made by a western inventor. He incloses the motor in a water-tight, globular shell, which is combined with the rudder, rudder post and screws in such a manner that they all are outside. There is no shaft at all. The

NEW MOTOR FOR BOATS.
(It is Portable and Situated Outside in the Water.)

storage battery is inside, of course, and wires lead the current from it to the motor. The especial virtue of this arrangement is that the motor is portable, and can be attached to almost any boat having a square stern. It is not necessary to build expressly for the use of electricity. The apparatus can be attached to the boat in a few minutes, and removed in an equally quick fashion. The batteries are placed under the seats of the boat.

The motor not only propels the boat, but steers it as well, the boat answering to it more readily than to an ordinary rudder.

The motor drives the boat forward or backward, and can be regulated to run at any speed up to four miles an hour, using two boxes of four cells, and will run from 20 to 30 miles on one charge. More cells may be used, and a speed of six miles an hour attained, if desired. Each battery box containing two cells weighs about 50 pounds, and is provided with a comfortable handle for carrying.

Tailor Bird Is Ingenious.

The tailor-bird of India is a shrewd and ingenious little fellow. To escape falling a prey to snakes and monkeys, the tailor-bird picks up a dead leaf and flies into a high tree, and with a fiber for a thread and its bill for a needle sews the leaf to a green one hanging from the tree, the sides being sewn up, and an opening left at the top. That a nest is swinging in the tree no snake or monkey or even a man would suspect.

FALL FASHION GOSSIP

One of the most striking costumes that I have seen for some time is one just received from abroad, and it is worth the serious consideration of all young ladies who wish to have something really chic. The suit is of the lovely new woolly stuff which looks like the soft elderdown, but is much firmer than that and is designed for fall suits. This is striped in gray, parma and brown. The parma has a faint pink in it and is altogether lovely. The stripes are made the medium of the stylish effect obtained by having them run up and down. The jacket is of blue black velutina and is cut in Russian blouse fashion in the back

EARLY FALL SUIT OF WOOL AND VELUTINA.

and has the fronts so arranged that they may hang open or close in double breasted style. The collar, revers and cuffs are of woolen, and so is the half belt in the back. With this suit it is expected that white gloves and a hat where the colors will match or at least not quarrel with the others will be worn.

It will be noticed that the skirt is cut so that the stripes make chevron points, as at the sides they point upward, while in front they point downward. This is not altogether novel, but it is always striking. This suit is intended for early fall. The waist to be in keeping should be white, with a high standing collar and a black velvet tie.

A new fancy in a suit for early fall is of biscuit cloth, trimmed with the daintiest of the new braids. This is red and looks like a series of buttons on the braid. The braid is white or black, as the case may require. The skirt to this dress has a line of this down each side of the front breadth and three around the bottom to simulate a shaped flounce. The belt is made of the dress material and has the braid around it. The blouse waist has a wide sailor collar very pointed at the corner, and there is one row of the braid at the edge and three rows of stitching in the same color. Down the center are two rows of the braid without the stitching. The high stock of the same is ornamented in the same way, and at the front there is a tie made like a handkerchief and tied in a tiny bow at the throat, while the rest is like a jabot down to the belt. On either side of this is another jabot of white china silk stitched with red. The sleeves are bell-bishop shape, if one can thus coin a word. They would be wide bell sleeves if they had not been gathered into a band at the wrist. The red tie is dotted with white. A white felt hat with a wide brim is trimmed with a twist of dotted red surah, and on the left side is a brown and cream quill. A red parasol adds its brightness to this pretty suit.

Among the things for girls of from ten to sixteen I see quite a lot of plaid wools, and they are nearly all very thick and fuzzy, which makes them look much more expensive than they really are. And another good thing is that they do not require any trimming or at most a little dark velvet as finish. The skirts are cut so that the plaid comes bias, and that in itself is ornamental. Nothing has ever been better for the young than plaid. Capes for every day are also made of plaid for school and run about.

While on the subject of soft wools I will mention the beautiful elderdowns for winter wear as wrappers and sacks. This season they are more delicate in color and design than ever before, and they are produced in double as well as single widths. The back is woven a little more firmly, which is a good thing, as sometimes it pulls out of shape by its own weight. I know of nothing so comfortable as an elderdown robe for slipping on when one is tired and cold. It is so soft and cozy! I advise every woman to get a real red one in addition to as many of other colors and tints as she can afford and keep that red one for rainy mornings. On such occasions she can make of herself a point of brightness on a dark

day. "Her children will rise up and call her blessed; her husband also, and he praiseth her," the Bible tells us. I have seen children actually kiss an old red wrapper whenever the mother wore it on a rainy day.

A young lady of my acquaintance said to me apropos of hats: "They look like pancakes this fall. I don't believe that one of them is more than three inches high. How do they expect a little woman to look like anything in one? I just won't wear one. I will get a big Gainsborough and top that with all the feathers it will hold. I can't wear those flat things." I thought that was very sensible, and if all women kept to the shape she looks best in it would be well for them. The new pompadour silks for handsome dinner and reception gowns are certainly very beautiful, and any one might desire a dress of that kind, but a shall woman looks like a Dresden shepherdess in one. There are things suitable and unsuitable for every style of beauty, and the woman who knows her own limitations is to be envied.

Two things surge up with great resistance in the way of trimming and ornamentation, and they are lace and braid galloons. There is literally no limit to the different designs nor to the manner in which they are applied. Velvet ribbons are put around many skirts, three or four widths being used, the wide ones at the bottom and the narrower ones at the top. I also notice that many of the newest jackets for tailor suits are made so that there are no darts, one seam reaching to the shoulder, forming an adjustment. Postillions in the back are seen on at least half the short basque coats.

I had intended to speak about the wonderful rage for boas of every imaginable kind, but they will speak for themselves so clearly that it is scarcely necessary. But this much may be said: Boas are made of everything human ingenuity can discover that is light and graceful and pretty. Certainly there are to be fur ones and feathers, but the most of them are of lace, liberty, chiffon, tulle, silk, muslin and chenille. Maybe there are still other things, but these are all I have seen up to the present. HENRIETTE ROUSSEAU.

THE POLITIC WOMAN.

She Uses Her Friends For All They Are Worth.

Who has not met the politic woman? She is the woman who gets there. She is the one who never wastes a moment of her precious life, but uses every little opportunity for her advancement. She not only works for herself, but makes her friends work for her. They work for her consciously and unconsciously, willingly or unwillingly. If they work willingly, she takes advantage of their good nature; if they work unwillingly, she buys her way into their favor by courteous acts and words so that they are ashamed to refuse. When they can't do anything more for her, she drops them and cultivates others. The politic woman never has friends who are no good to her. That's why she always succeeds. Another reason is that she never allows herself to waste time having feelings.

If the politic woman sends you roses while you are ill, you may be sure that she will have some favor to ask of you when you recover. Perhaps it will only be a request to subscribe to one of her pet charities. If so, she will gain fresh glory as one of the patronesses. You will pay your money, and your name will appear far down in the list. The politic woman never makes the mistake of admiring Mrs. Hardup's pretty child instead of Mrs. Croesus' ugly one. She never calls without a motive, and she never grants a favor without having a string tied to it. Even

SHE NEVER CALLS WITHOUT A MOTIVE.

her smiles are dealt out with the utmost care lest one of them should become misplaced and fall where there was no chance of profit.

When the politic woman has, after much scrambling over other people, reached the pinnacle of her ambition, she usually pauses to take breath, and then she makes the unreasonable discovery that she is lonely and wants friends—not victims of the sort that she has enjoyed all her life, but real friends like those of other people. As the years wear on this longing becomes stronger and stronger. It is her punishment. Even her great diplomacy cannot gain for her the love which comes without effort to the simple but good hearted woman.

After all, we can't have everything in this world. The politic woman has her cleverness. MAUD ROBINSON.

They had not suspected my name, it was clear, for my stature and garb were nothing out of the ordinary; but if my bodily strength and fighting power had been sufficient to raise me to a viceroyalty like that of Yucatan, and let me endure alive in that

THE DOOR CREAKED WIDER AND SHE CAME INSIDE.

government throughout 20 hard-battling years, why, it was likely that this rabble of savages would see something that was new and admirable in the practice of arms before the crude weight of their numbers could drag me down. Nay, I did not even despair of winning free altogether. I must find me a weapon from those that came up to battle, with which I could write worthy signatures, and I must attempt no standing fight. Gods! but what a glow the prospect did send through me as I stood there waiting.

But the door did not open wide to give me space for my first rush. It creaked gratingly outward on its pivots, and a slim hand and a white arm slipped inside, beckoning me to quietude. Here was some woman. The door creaked wider, and she came inside.

"Nais," I said.

"Silence, or they will hear you, and remember. At present those who brought you here are killed, and unless by chance some one blunders into this robbed shrine you will not be found."

"Then if that is so, let me go out and walk among these people as one of themselves."

She shook her head.

"But, Nais, I am not known here. I am merely a man in very plain and mud-stained robe. I should be in no ways remarkable."

A smile twitched her face. "My lord," she said, "wears no beard, and his is the only clean chin in the camp."

I joined in her laugh. "A pest on my want of foppishness then. But I am forgetting somewhat. It comes to my mind that we still have unfinished that small discussion of ours concerning the length of my poor life. Have you decided to cut it off from risk of further mischief, or do you propose to give me further span?"

She turned to me with a look of sharp distress. "My lord," she said, "I would have you forget that silly talk of mine. This last two hours I thought you were dead in real truth."

"And you were not relieved?"

"I felt that the only man was gone out of the world—I mean, my lord, the only man who can save Atlantis."

"Your words give me a confidence. Then you would have me go back and become husband to Phorenice?"

"If there is no other way."

"I warn you I shall do that, if she still so desires it, and if it seems to me that the course will be best. This is no hour for private likings or dislikings."

"I know it," she said, "I feel it. I have no heart now save only for Atlantis. I have schooled myself once more to that."

"And at present I am in this lone little box of a temple. A minute ago, before you came, I had promised myself a pretty enough fight to signalize my changing of abode."

"There must be nothing of that. I will not have these poor people slaughtered unnecessarily. Nor do I wish to see my lord exposed to a hopeless risk. This poor place, such as it is, has been given to me as an abode, and if my lord can remain decorously till nightfall in a maiden's chamber, he may at least be sure of quietude. I am a person," she added, simply, "that in this camp has some respect. When darkness comes, I will take my lord down to the sea and a boat, and so he may come with ease to the harbor and the water gate."

CHAPTER VIII.

THE PREACHER FROM THE MOUNTAINS.

It was long enough since I had found leisure for a parcel of sleep, and so during the larger part of that day I am free to confess that I slumbered soundly, Nais watching me. Night fell, and still we remained within the privacy of the temple. It was our plan that I should stay there till the camp slept, and so I should have more chance of reaching the seabeach without disturbance.

The night came down wet, with a drizzle of rain, and through the slits in the temple walls we could see the many fires in the camp well cared for, and men and women in skins and rags toasting before them, with steam rising as the heat fought with their wetness. Folk seated in discomfort like this are proverbially alert and cruel in the temper, and Nais frowned as she looked on the inclemency of the weather.

But as the hours drew on the night began to grow less quiet. From the listance someone began to blow on a horn or a shell, sending forth a harsh raucous note incessantly. The sound came nearer, as we could tell from its growing loudness, and the voices of those by the fires made themselves heard, railing at the blower for his disturbance. And presently it became stationary, and standing up we could see through the slits in the walls the people of the camp rousing up from their uneasy rest, and clustering together round one who stood and talked to them from the pedestal of a war engine.

What he was declaiming upon we could not hear, and our curiosity on the matter was not keen. Given that all who did not sleep went to weary themselves with this fellow, as Nais whispered, it would be simple for me to make an exit in the opposite direction.

But here we were reckoning without the inevitable busybody. A dozen pairs of feet splashing through the wet came up to the side of the little temple, and cried loudly that Nais should join the audience. She had eloquence of tongue, it appeared, and they feared lest this speaker who had taken his stand on the war engine should make schisms among their ranks unless some skilled person stood up also to refute his arguments.

Here, then, it seemed to me that I must be elbowed into my skirmish by the most unexpected of chances, but Nais was firmly minded that there should be no fight, if courage on her part could turn it. "Come out with me," she whispered, "and keep distant from the light of the fires."

"But how explain my being here?"

"There is no reason to explain anything," she said, bitterly. "They will take you for my lover. There is nothing remarkable in that; it is the mode here. But, oh! why did not the gods make you wear a beard, and curl it, even as other men? Then you could have been gone and safe these two hours."

"A smooth chin pleases me better."

"So it does me," I heard her murmur as she leaned her weight on the stone which hung in the doorway, and pushed it ajar; "your chin."

The ragged men outside—there were women with them also—did not wait to watch me very closely. A coarse jest or two flew (which I could have found good heart to have repaid with a sword thrust) and they stepped off into the darkness, just turning from time to time to make sure we followed. On all sides others were pressing in the same direction—black shadows against the night; the rain spat noisily on the camp fires as we passed them; and from behind us came up others. There were no sleepers in the camp now; all were pressing on to hear this preacher who stood on the pedestal of the war engine; and if we had tried to swerve from the straight course, we should have been marked at once.

So we held on through the darkness, and presently came within earshot.

Still it was little enough of the preacher's words we could make out at first. "Who are your chiefs?" came the question at the end of a fervid harangue, and immediately all further rational talk was drowned in uproar. "We have no chiefs," the people shouted; "we are done with chiefs; we are all equal here. Take away your silly magic. You may kill us with magic if you choose, but rule us you shall not. Nor shall other priests rule. Nor Phorenice. Nor anybody. We are done with rulers."

The press had brought us closer and closer to the man who stood on the war engine. We saw him to be old, with white hair that tumbled on his shoulders, and a long white beard, untrimmed and uncurled. Save for a wisp of rag about the loins, his body was unclothed, and glistened in the wet.

But in his hand he held that which marked his caste. With it he pointed his sentences, and at times he whirled it about, bathing his wet, naked body in a halo of light. It was a wand whose tip burned with an unconsuming fire, which glowed and twinkled and blazed like some star lent down by the gods from their own place in the high heaven. It was the symbol of our Lord the Sun, a credential no one could forge, and one on which no civilized man would cast a doubt.

Indeed, the ragged frantic crew did not question for one moment that he was a member of the Clan of Priests, the clan which from time out of numbering has given rulers for the land, and even in their loudest clamors they freely acknowledged his powers. "You may kill us with your magic, if you choose," they screamed at him. But stubbornly they refused to come back to their old allegiance. "We have suffered too many things these later years," they cried. "We are done with rulers now for always."

But for myself I saw the old man with a different emotion. Here was Zaemon that was father to Nais, Zaemon that had seen me yesterday seated on the divan at Phorenice's elbow, and who to-day could denounce me as Deucalion if so he chose. These rebels had expended a navy in their wish to kill me four days earlier, and if they knew of my nearness, even though Nais were my advocate, her cold reasoning would have little chance of an audience now. The high gods who keep the tether of our lives hide their secrets well, but I did not think it impious to be sure that mine was very near the cutting then.

The beautiful woman saw this too. She even went so far as to twine her fingers in mine and press them as a farewell, and I pressed hers in return, for I was sorry enough not to see her more. Still, I could not help letting my thoughts travel with a grim gloating over the fine mound of dead I should build before these ragged, unskilled rebels pulled me down. And it was inevitable this should be so. For of all the emotions that can ferment in the human heart, the joy of strife is keenest, and none but an old fighter, face to face with what must necessarily be his final battle, can tell how deep this lust is embroidered into the very foundations of his being.

But for the time Zaemon did not see me, being too much wrapped in his outcry, and so I was free to listen to the burning words which he spread around him, and to determine their effect on the hearers.

COASTING WITHOUT SNOW.

Fourth of July Celebrated in Los Angeles in an Unusual Manner.

With the thermometer registering 100 degrees in the shade and a midsummer sun beating down upon the semi-tropical land, the boys and girls and many of the grown people of Los Angeles celebrated the Fourth coasting on sleds down long hill slopes where not a flake of snow ever has fallen, says the Chicago Tribune. It probably was the first time on record that children with bare feet and sunbonnets ever enjoyed "sleighing," and there can be no doubt that it is the most unique sledding ever attempted.

It all came about through a discovery by a boy with a penchant for investigating and experimenting, who found that snow isn't the only thing that makes the hills slippery, and the result is that the people can and do now enjoy a winter sport where winter never comes, and without the necessity of wrapping up their heads to keep biting frost from nipping off their precious ears and noses.

After the spring rains the southern California mountains and hills become thickly covered with weeds and grasses, which lie and dry in the summer heat, leaving a brown coating so thick that it remains until the following season. While playing on a hill an inquisitive lad found the dead wild mustard so slick that he could scarcely walk over it. Instinct suggested that he get a board and take a slide, and he did. Other boys saw him and took a hand, and everything was lovely! Evolution brought sleds and by common consent the Fourth was chosen as the time for a sort of "grand opening." A smooth slope a quarter of a mile long was selected, and everybody who had anything to coast on, as well as many who hadn't, was there to enter into the exhilarating sport. It was a winter carnival in summer and a remarkable affair. And hereafter coasting will be a common pleasure in southern California.

The spectacle of half a hundred yelling boys and shrieking girls shooting down the hill at lightning express speed, landing in heaps at the end of the run, and trudging and pulling their sleds up the long slope was as strange as it was interesting, and a crowd stood in the sweltering heat and watched the unusual performance. There were exciting races, thrilling tumbles when obstructions chanced in the way, and hairbreadth escapes, just like those where snow and ice afford a smooth but chilly glideway. At the steeper places the sleds go so fast that it did not take the youngsters long to discover it would require a brake to keep them from flying into kingdom come, and one was improvised. Now they are in use on all the sleds. A young lady who took the trip pulled the lever too far at the wrong moment and went through a performance that would shame an acrobat. Before she was through standing on her head a dozen other sleds and their occupants were piled on top of her.

Eating for a Husband.

When the parents of a young man in Russia decide that a certain young lady would make a suitable mate for him they say nothing about the matter to anyone, but on some evening they will drop around unexpectedly to the prospective bride's home and will stay for supper. During the meal they will keep a close watch on the young lady. If she eats fast she will perform her work speedily, if she goes neatly and cleanly about her plate she will perform her work neatly and cleanly; if she does not talk much she will work and not talk and prove a faithful and obedient wife to her husband; if she prefers rye bread to white she will be satisfied with her lot; if she does not gaze and stare at the visitors she will be a wife that will not continually pry into her husband's business, and if she immediately proceeds to clean up the dishes after the meal she will bring prosperity to her husband and will be economical with his money. A most peculiar thing about the marriage ceremony is the fact that when the couple enter the church both groom and bride make a dash for the platform on which is the pulpit. It is believed that the one whose foot touches the platform first will live the longer and the children will take after that one in size, health and beauty.—N. O. Picayune.

Nice Turkish Customs.

It is said by a correspondent of the London Telegraph that the habits of the Turkish ladies in Constantinople are wonderfully fastidious. When they wash their hands at a tap from which water runs into a marble basin, they let the water run till a servant shuts it off, as to do this themselves would make them unclean. They cannot open or shut a door, as the handle would be unclean.

One of these fastidious ladies was talking to a small niece the other day, who had just received a present of a doll from Paris. By and by the child laid the doll on the lady's lap. She was horrified, and ordered the child to take it away.

As the little girl would not move it, and no servant was near, and the lady would be defiled by touching a doll that had been brought from abroad, the only thing she could think of was to jump up and let the doll fall. It broke in pieces.

The same lady will not open a letter coming by post, but a servant opens it and holds it near for her to read. If her handkerchief falls to the ground it is immediately destroyed or given away, so that she may not again use it. Among the men this curious state of things does not exist.

LOCAL BALL TOSSERS MADE POOR SHOWING.

(CONTINUED FROM PAGE 1.)

innings. It didn't make any difference whether it curved or not as the Elizabethans had the happy faculty of smashing it, and the man who could not get at least a two bagger was put on the bench in disgrace. It is now up to the St. Mary's to explain just what was the trouble.

SCOTCH PLAINS 10; CUBAN GIANTS 6.

(Special to The Daily Press.)

Scotch Plains, Sept. 23.—The local baseball team played played a game Saturday afternoon with the Cuban Giants, of Plainfield, and it was the poorest exhibition witnessed this year. The game came to an end during the second half of the seventh innings over a dispute as to whether Lee, of the home team, should be allowed a base which he had stolen. The umpire on bases called him safe, but the visitors objected and threatened to take their team off the field. As the home team refused to give in the game was called, with the score of 10 to 6 in favor of Scotch Plains.

AFTER LONG ILLNESS.

Chas. W. Cole Died at Home of His Son-in-Law Yesterday.

Charles Ward Cole, of Flushing, L. I., died at the residence of his son-in-law, A. C. Pickhardt, of Rockview avenue, Sunday afternoon. He had been ill for a long time and death was not unexpected.

At the time of his death Mr. Cole was in his fifty-third year. He is survived by a widow and two daughters, Mrs. Adrian Pickhardt and Miss Lena Cole. For some years Mr. Cole held a responsible position with the United States Express Company.

Arrangements for the funeral, which will be private, have not yet been made.

DR. MAIN RESIGNED.

His Resignation Presented To Seventh-Day Baptist Church Saturday.

Rev. Dr. A. E. Main, pastor of the Seventh-Day Baptist church, offered his resignation at the morning service Saturday morning. No action was taken regarding it at that time, but a special business meeting will be held for that purpose. As yet his successor has not yet been chosen, and the chances are the pulpit will be filled with supplies for a time.

Dr. Main will preach his farewell sermon three weeks from last Saturday, after which he will enter upon his duties at Alfred University.

Delegates Nominated.

The nominations for delegates to attend the Republican State convention were made and filed Saturday evening, and only in one ward, the Second, were there more than the requisite number named. The chances are that there will be no contest in the selection of delegates at the primaries to be held this evening.

Thrilling Wind up.

Edward O'Neill, of Paterson, was found on the platform of the North Avenue station, by Patrolman Flynn, Saturday night, dancing off the effects of a Lebanon "jag." City Judge Runyon let him go this morning with a suspended sentence.

Called Out For Bon Fire.

A false alarm of fire gave the fire department of North Plainfield a little exercise Saturday afternoon. Some brush in the Grove street dump had been ignited and the flames led a borroughite to believe that a house was on fire.

To Justify Taxes.

Constable W. R. Mattox sold some goods at the store of the Plainfield Photo Supply Company, Saturday afternoon, to satisfy the taxes due. The sum of $30 was realized and this will about settle the taxes.

Broken Ankle.

Michael Seader, of Pearl street, is confined to the house with a broken ankle. While at work on the Central Railroad bridge at Newark Saturday. He fell some distance and the injury resulted.

Engagement Announced.

Mr. and Mrs. Joseph W. Reinhart, of Belvidere avenue, announce the engagement of their daughter, Katharine, to John Atkinson Thayer, of Charleston, W. Va.

—B. W. Purcell, Kintersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve effected a permanent cure. Counterfeits are worthless. L. W. Randolph.

IN THE REALM OF SOCIETY.

PERSONAL JOTTINGS COLLECTED IN CITY AND BOROUGH.

Daily Doings of Plainfielders and Their Guests Carefully Collected and Tersely Told.

L. B Bodine, of Grandview avenue, is sojourning at Quakertown, N. J.

Wm Finnigan, of Newark, has been visiting Daniel Hibbits, of West Fifth street.

George Morton, of Yonkers, N. Y., was the guests of friends in town yesterday.

Chales L. S rong, proprietor of The Plainfield, has returned from a week's stay at Portland, Me.

Roland Chandor, of East Ninth street, is spending a few days with Philadelphia relatives.

Lawrence Miner, of Hoboken, spent yesterday with his mother, Mrs. F. Miner, of Park avenue.

Mr. and Mrs. James Deady, of West Third street, are rejoicing over the arrival of a young son who came to their home yesterday.

Chris Sorenson, Jr., of New York, has returned home after a few days visit with his brother, Jeppe Sorenson, of Webster place.

Mr. and Mrs. Elward Bowman and daughter, Stella, of Hoboken, have returned home after visiting at the home of Fred Moore, of Park avenue.

Miss May Duckworth, of Watchung avenue, has resumed her duties at the local telephone office after a two weeks' vacation spent with relatives in Norwich, Conn.

HAD NOT DECLARED.

J. E. Martine Says That He Is Not a Supporter Of Mayor Seymour.

J. E. Martine was shown the article in today's New York Tribune, wherein it is stated that he was, and is declaring for Seymour as governor.

Mr. Martine said that no one had authority to so state. He had declared for no candidate. He said that he knew Mr. Seymour personally, and that he had many elements of strength, and if the opposition in his own home and party could be allayed, he would say Seymour.

"But," said the Farmer Orator, "my observation leads me to think the contest against Seymour is most formidable, if not dangerous."

"Who will you support?"

"Oh, that does not matter—suffice to say I will support with the earnestness of my nature the candidate of the Democratic convention."

MISS BLOODGOOD FOUND.

Is the Granddaughter of T. R. Van-Boskerck, of West Seventh Street, This City.

Miss Helen A. Bloodgood, of New York, granddaughter of T. B. Van-Boskerck, of this city, who was reported in this morning's New York papers as missing, was found today, and at this time her mother is with her.

Aside from the fact that Miss Bloodgood is all right, nothing can be learned. As yet it cannot be ascertained where she was found or who found her. Miss Bloodgood is the daughter of William Bloodgood, one of the founders of the Union County Country Club and a wealthy resident of the metropolis.

To Consider Class Pins.

A meeting of the class of 1902, Plainfield High School, was held at recess this morning at the call of President Moore. Fifteen attended. A committee, consisting of the following persons, was appointed to consider the subject of class pins, and to send for samples: Miss Mabel Jenkins, Clarence LaRue, Miss Elsie Goddard and Kenneth Bulkley.

At a Premium.

Councilman Nichols announced at the Borough Council meeting Friday evening that the nine bonds recently purchased by Edwin S. Hooley at 104 per cent., now had a market value of 108 per cent. A North Carolinian offered Mr. Hooley that percentage for the entire lot, but the proposition was promptly declined by the banker.

Will Assign Places.

All members of the Y. M. A., of Hope chapel, are requested to attend the rehearsal which will be held this evening. President W. N. Runyon will be in attendance and will assign positions for the coming entertainment.

Regular Drill.

A regular drill of Warren Engine Company will be held this evening. Watchung avenue has been selected as the drill ground.

WILD RIDE ON BULL.

Thrilling Adventure of Mrs. MacElroy at Asbury Park.

Clung to the Frenzied Animal in Furious Mile Dash Across the Fields and Finally Escaped Uninjured.

Sherman, Pa., has a woman visitor who has ridden a mad bull bareback. She is still alive.

The heroine of this wild adventure is Mrs. Dora MacElroy, of Ashbury Park, N. J., says the New York World.

Mrs. MacElroy is an experienced horsewoman and has all her life been accustomed to being with horses and cattle.

Her relatives at Sherman have a fine herd of Jersey cattle—sleek and well groomed—and Mrs. MacElroy, who is visiting there, has been in the habit of going down to the feeding trough every night to watch the animals at their meal.

It chanced that the cattle feed from a huge trough beside a stout fence.

To get the very best view of her bovine friends, Mrs. MacElroy would climb upon this fence to watch them and pat their noses.

The old bull was looking particularly gentle the other night, according to Mrs. MacElroy, and even munched some grain from her hand. As he stood there it occurred to her that his broad back would make an excellent seat.

The thought no sooner entered her head than she shouted to her companions to watch her, climbed to the topmost rail of the fence and vaulted lightly onto the bull's back.

The effect upon the bull was startling, to say the least. With a terrifying bellow he reared on his hind legs, shaking himself and snorting violently. The terrified woman had presence of mind enough to reach forward and clutch at the bull's horns.

An instant later the bull shot forward like a bullet. Involuntarily his

FELL INTO A CLUMP OF BUSHES.

rider clung to the slippery horns with every muscle on the strain.

The top bars separating the barnyard from the road were down and the bull, as might be expected, chose the direction of the road, toward which he made a wild dash. The lower bars were up, however, and as he saw them he came to a sudden stop, nearly throwing Mrs. MacElroy over his head.

The frightened farmhands and others who had seen the bull start ran after him. The bull, catching sight of them, once more lifting up his head, cleared the lower bars at a leap and started down the road at terrifying speed, leaving those following far behind.

A quarter of a mile was covered in this way, when once more the bull stopped suddenly and began to paw the ground.

Mrs. MacElroy was about to leap from his back, when some distance ahead a man suddenly turned into the road driving a gig and wearing a bright red shirt.

The color caught the eye of the bull. He instantly ceased his pawing and once more started along the road at terrific speed. The man saw his danger and whipped his horse. The bull's rider clung to her steed like a jockey.

The awful race which followed lasted for fully a mile. Mrs. MacElroy says that toward the end she felt her strength fast going from her and closed her eyes, expecting to be hurled to the ground and perhaps to her death at every plunge.

Fortunately the road at this point ran up a steep hill, and in climbing it the bull somewhat slackened his pace. This probably saved Mrs. MacElroy's life. The bull reached the top only to see the red shirt disappearing in the distance. In the face of this disappointment the animal turned quickly and started for home. In turning he wrenched his rider suddenly loose from her seat, throwing her, by a fortunate accident, into a clump of bushes.

When her friends reached her she was in a dead faint. Physicians were hastily summoned and she was carried home. Beyond a severe nervous shock she had, strangely enough, suffered no injuries.

Living Example of Thrift.

Industry and thrift have lifted Joseph Haaga from poverty to wealth In 1856 he arrived in Butler county, Kan., with five cents in his pocket. He went to work for a farmer, with whom he remained five years, saving a little money each year. At the end of that time he started farming on his own account. To-day he owns 500 acres of land, and has it stocked with a fine herd of cattle.

FUNERAL OF LAWRENCE DOYLE.

IMPRESSIVE SERVICES AT ST. MARY'S CHURCH THIS MORNING.

In Charge of Rev. Father Smyth—Interment at Hampton Junction—The Pallbearers.

St. Mary's church was filled to the doors this morning with sorrowing relatives and friends of Lawrence Doyle, who met death on the tracks of the New Jersey Central Thursday evening. The funeral services over the remains were held in the edifice and it was one of the most impressive services seen in some time. Over fifty members of the Knights of Columbus, to which the young man belonged, were in attendance, as was also a number of the members of Paughcaughnaughsinque Tribe of Red Men, in which he held the office of past sachem.

Rev. Father Smyth said a requiem mass for the repose of his soul. A number of hymns were rendered by the choir.

There were a large number of beautiful floral tributes, among them being set pieces from both organizations and near friends. At the conclusion of the obsequies the remains were taken to Hampton Junction on the 9:54 train, where they will be interred in the family plot.

Those who acted as pall-bearers were John O'Keeffe, John Owens, William Shaffer, Michael Connolly, John Connolly and John McNally.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., TUESDAY, SEPTEMBER 24 1901. TWO CENTS A COPY—$5 A YEAR.

MAYOR SMALLEY IS OUT FOR SHERIFF.

He Doesn't Say So Yet But He Will Be There Just The Same.

IS A STRONG REED MAN.

FORMER ASSEMBLYMAN COOPER IS ALSO AFTER THE NOMINATION.

Mayor's Strength Will Come From North Plainfield—He Says The Office Should Seek The Man—He'll Be Nominated At The Convention.

Simultaneously with the appearance of colder weather, politics has come to the front as a topic for discussion. In Somerset county, the knowing ones are laying low and saying nothing. It is declared by the politicians that it is too early to pick out likely nominees of either party, but this does not disturb those in the lower end, for thus far few have appeared from that locality having any ax to grind.

There is considerable discussion among Republicans, especially in North Plainfield, as to the probability of the candidacy of Mayor Newton B. Smalley for the shrievalty nomination. Mayor Smalley has not announced himself in the political sense, but there is not the slightest doubt but that his name will be presented at the Somerset county convention. He is a strong Reed man and the politicians count upon his making a good run. Some of his supporters point to the fact that when renominated for the mayoralty of North Plainfield he made a far better run than previously.

The borough is the banner Republican district of Somerset county, and as one follower of the Mayor says: "Newt can sweep the borough." Again they say that he has made a good record in discharging the duties of his present office, and that the fact will be worth something when he is in the position of a candidate for higher honors.

All this is the optimistic opinion of his friends, and varies considerably from the possible view which would be taken by a Thompsonite, or in other words one opposed to the leadership of Senator Charles A. Reed. It is believed that the anti-Reed people will have candidates of their own to trot out when nominations are in order.

For instance there is E. E. Cooper, of Warren township, who has been in the field for some time as a candidate for the shrievality nomination. He is known as a Thompson man and hence would draw more or less from the strength of Mayor Smalley, it is supposed. Others will come out for this honor before many moons, and there will no doubt be an effort made to kill the boom of Cooper as well as the practicably understood candidacy of Mayor Smalley. "Cooper can't have it, because his district does not count for anything," is the way one of Reed's men expresses it.

While all this talk is going on Mayor Smalley says nothing definite, but, nevertheless, there is no mistaking the fact that he has his weather eye on that nomination. The Mayor has the quality of evasiveness which goes to make up the component parts of a shrewd politician. All summer long he wanted to talk Somerset street improvement. Now when that topic is threadbare, he will tackle one on municipal ownership whenever approached in regard to his candidacy. But although talking in this manner, he is letting no stone go unturned in finding out the feeling of the people.

Quietly he is systematically conducting a hunt for the nomination. He is in constant communication with those from different parts of Somerset county whose support is worth having. The trite saying of former President Cleveland, "I believe that the office should seek the man, and not the man the office," the Mayor is working with a vengence. He emphatically declares that he is not "hankering" after the nomination, but that if the people want him as sheriff he will not object. Mayor Smalley will be a candidate for the Republican nomination for sheriff of Somerset county. That much is certain.

All Ready For Anniversary.

All the details are now completed for the celebration of the first anniversary of Wetumpkah Lodge, No. 229, Improved Order of Red Men, which will be held Thursday evening.

Missionary Meeting.

The Endeavor Society of the First Baptist church will hold a missionary meeting Friday evening, and the Junior Society will meet with the Seniors.

STEPPED ON BICYCLE.

Narrow Escape For Edw. V. H. Voorhees From Collision With Horse.

Edward V. H. Voorhees, of the firm of VanZandt & Voorhees, dealers in flour and feed on Park avenue, had a narrow escape yesterday from serious injury.

He jumped on his wheel to go down Park avenue toward Fourth street. At the time Wm. Hand's big truck stood near the firm's place of business, and Mr. Voorhees, in attempting to pass the truck, collided with a hack belonging to John Lynch and driven by one of his men. He made a sudden turn to the right on his wheel and thus saved himself, but the horse put his feet in the rear wheel of the bicycle and put it out of business.

WADSWORTH WON THE CUP.

FINAL PLAY TOOK PLACE AT HILLSIDE COURSE FRIDAY AND SATURDAY.

Defeated W. L. Glenney Three Up and Two to Go—A Challenge Cup Will Probably Be Offered.

The semi final and final play for the Chapman cup took place Friday and Saturday on the Hillside Tennis and Golf Club course, the result being that Willard Wadsworth is now the permanent owner of the cup.

It was up to Howard deP. Wright to contest with H. R. Stockton to see who would play the finals, but Wright defaulted and Charles W. Fisk dropped out of the contest. Wadsworth then played Stockton in the semi-finals and defeated him 6 up and 5 to go. Saturday morning Wadsworth played against W. L. Glenney, who drew the bye on Friday. The former won 3 up and 2 to go.

This play brings to an end one of the most interesting competitions ever witnessed on the course. The cup was given to George A. Chapman and the competition was open to men, active members only. It is understood that in place of the Chapman cup, a new cup will be offered to be known as the challenge cup. This would surely excite considerable interest and attract a number of the best players in the club.

THE SCHLEY LOOP.

Will be Illustrated in Lecture by One Who Was Near There at the Time.

The Young Men's Brotherhood of the First M. E. church will hold its first meeting of the fall season, Friday evening, when Dr. M. S. Simpson, who was assistant surgeon in the Navy during the Spanish War, will give an illustrated lecture on the battle of Santiago and the events leading up to it. He will show some pictures of the Badger boys and will illustrate the famous Schley loop, about which the country is now talking so much. Some of his pictures have never been shown before.

As Dr. Simpson was near Santiago at the time of the famous battle he is in a position to tell much of interest. Admission to the lecture will be free but a silver offering will be received afterward.

CHIEF DOANE INVITED.

Rahway Fire Company Has Asked Him to be Their Guest.

As delegates from Franklin Hose Company, No. 2, of Rahway, former Chief P. H. Gehring and Frederick Miller, of Rahway, called at the headquarters of the city fire department, yesterday, and extended at invitation to Chief T. O. Doane, to be the company's guest, October 30.

Franklin Hose Company will be one of the twenty-five fire organizations to participate in the parade to be held at Perth Amboy on that date. Invitations were also extended to First Assistant Chief J. W. Murray, Jr., and Second Assistant Chief Andrew Jennings.

Stricken With Paralysis.

Bridget McMahon, who for some time past has resided at the Industrial Home, was stricken with a stroke of paralysis last Wednesday and is now in a precarious condition. The afflicted woman has been removed to the home of her sister, Mrs. Mary McGlone, corner Watchung avenue and Pearl street. She is the widow of Samuel McMahon.

WASN'T A CONTEST AT THE PRIMARIES.

Republicans Elected Delegates Last Evening to the State Convention at Trenton.

WERE SLIMLY ATTENDED.

ENROLLMENT BOARDS MET AND REVISED LIST OF PARTY VOTERS.

Everything Was Peaceful and the Corporal's Guard Present Cast Its Ballot for the Only Nominees—The List of Delegates.

The Republicans primaries, to elect delegates to the State convention, to be held at Trenton Thursday, were held in this city and other parts of Union county last evening. As far as the city was concerned, everything was exceedingly peaceful. There was the usual throng over in the Fourth ward but the other primaries were very slimly attended. At the same time, the enrollment boards met and the list of qualified Republican voters was revised to date.

FIRST WARD.

The Republican primary, held in the First ward last evening, was void of any special features or sensation. In all twenty-one votes were cast, and among them not one was in opposition to the regular ticket.

Amos Andrews and Joseph B. Coward were the delegates selected to go to Trenton to the State convention. While they are supporters of Franklin Murphy, it is thought best not to pledge them. Councilman J. F. Buckle was chairman of the primary, while David S. Dunavan was the secretary.

SECOND WARD.

A baker's dozen of Republicans turned out for the Second ward primary last evening and elected delegates to represent them at the State convention. The meeting was called to order by City Judge William N. Runyon, of the county committee. Assemblyman Charles S. Foote was made chairman and Charles B. Morse secretary. Assemblyman Charles S. Foote and City Judge William N. Runyon were elected delegates. They were empowered to fill any vacancies.

THIRD WARD.

There were but sixteen Republicans in attendance at the Third ward Republican primary held at the Casino last evening. Needless to say there were no contests inasmuch as only two candidates had been nominated and the ward is entitled to two delegates.

Roger F. Murray was selected as chairman and John W. Murray, Jr., as secretary. The following were the officers of the election: Judge, John H. Cose; inspector, Theodore J. Larew; clerk, A. I. Littell. Ernest R. Ackerman and Charles J. Fisk were the two names presented and each received exactly sixteen votes.

FOURTH WARD.

At the Fourth ward primary the attendence was very large. Joseph Noonan presided as chairman and City Collector Frank Smith was made secretary. The following delegates were elected: Joseph Noonan, Floyd Woodhull, C. L. Murphy.

Resolutions of sympathy, deploring the death of President McKinley, were passed and a copy ordered sent to Mrs. McKinley.

AT CROSBY & HILL'S.

Entire New Stock is Carefully Displayed in Millinery Department.

An entirely new stock, carefully selected in New York by Mrs. Jones, head milliner, delighted the patrons at Crosby & Hill's millinery opening yesterday.

Everything to be desired in feminine headgear is to be found in the display of elegant styles. Included in the list is a number of attractive fall novelties in panne velvets and imported hats, all of the very latest design. Mrs. Jones prides herself on the display and invites inspection.

Joseph Miller in Elizabeth.

Joseph Miller, the well known theatrical and hotel manager, who for many years conducted Laing's Hotel in this city, is now managing the Temple Cafe, at Morris and Westfield avenues, Elizabeth. Mr. Miller has a large circle of acquaintances in this vicinity who will wish him success in his new venture.

Long Drawn Out.

The case on contract between Hand & Son and Samuel Doty, which was begun in Justice Mattison's court last spring, has been adjourned until September 30 by request of W. S. Angleman, attorney for the plaintiff's firm.

SECURED NEW TEACHERS; GETTING MORE ROOM

Borough Board of Education Acted Promptly at Last Night's Meeting.

LOOKED OVER BUILDINGS.

DECIDED THAT ADDITIONAL ACCOMMODATIONS ARE NECESSARY.

Two Stores Are Now Being Considered As Available Sites—One New Teacher and Two Helpers Secured by the Board.

A special meeting of the North Plainfield Board of Education was held last evening for the purpose of securing additional instructors and arranging for extra accommodations for pupils. The object of the meeting was attained.

For several days past members of the board had inspected the Somerset street school building in an effort to find available space to make room for the overflow pupils, but met with no success. It was unanimously agreed last evening that it would be imperative to secure quarters elsewhere. The matter was assigned to the buildings and grounds committee, which is composed of Dr. J. H. Cooley, R. M. Fountain and Edward A. Overton.

It was also decided that additional assistance is needed in the teaching force. Prompt action was taken by the election of Miss Ruth Hill, of Cortlandt, N. Y., as teacher of the second and fifth classes. Miss Florence McDonald, of the borough, was chosen as helper in the Somerset street school, and Miss Horton, of the Watchung School, was empowered to engage the services of Miss Edna French as a helper.

This morning the committee on buildings and grounds inspected the D. D. Smalley building, at the northeast corner of Somerset street and Manning avenue, and also the store room, formerly occupied as a butcher shop, at No. 108 Somerset street. Which ever building is selected many improvements will be made upon it, and the new quarters will be opened for the reception of pupils Monday morning, when Miss Hill, the new teacher arrives.

DEATH OF MRS. TITSWORTH.

Passed Away This Morning at Her Home on West Sixth Street.

Mrs. Emma Titsworth, aged fifty-five years, died this morning at 6 o'clock at her home in West Sixth street. Her death was due to heart trouble with which she had been a sufferer for some little time.

Mrs. Titsworth was the widow of the late Charles Titsworth, who was a brother of John D. Titsworth, of Madison avenue, and the late W. L. Titsworth, also of this city. She had been a resident of Plainfield about ten years, having moved here from Rochester, N. Y. Nearly all of her immediate relatives are residents of New York State and Michigan.

The deceased was an Episcopalian and was an attendent at Grace church. She was a sincere and devout Christian and was a woman possessing many sterling qualities. During the most part of her residence in this city she was a modiste. She is survived by one daughter, Miss Ella Titsworth, who is employed in the wholesale drug house of Parke, Davis & Company, New York.

YOM KIPPUR.

Jewish Day of Atonement was Celebrated in Plainfield.

The Jewish Day of Atonement was celebrated by the Hebrews in this city from sunset Sunday until sunset yesterday. Appropriate services were held in the synagogue Beth Ishia Tefila Yentel, which is temporarily located in Reform Hall.

The religious exercises were conducted by two rabbis from New York city. All the members of the congregation abstained from food and drink, in accordance with their tenents, until the blowing of the ram's horn, which was the culminating act of the services at 6 o'clock last evening.

Complimented Warren Boys.

Captain William C. Smith acted as drillmaster for the Warren Engine Company drill, last evening. At the conclusion of the drill he highly complimented the boys on the improvement they have made since the Bayonne parade in the spring.

To Meet Grand Lodge.

Grand Foreman V. W. Nash, of the Ancient Order of United Workmen, will attend a session of the Grand Lodge officers to be held at Camden tomorrow afternoon.

HIGH SCHOOL BOYS ON TENNIS COURTS.

Tournament For Championship of City High School Began Yesterday Afternoon.

SIX MATCHES WERE PLAYED.

TWO OF THE INSTRUCTORS TOOK PART IN THE TOURNAMENT.

Hottest Match Between Kyte and Dyer—Best Showing Made by Bulkley and Briggs—Two More Matches to be Played in First Round.

The tennis tournament for the championship of the Plainfield High School opened, yesterday afternoon, on the courts of the Cedar Brook Tennis Club on LaGrande avenue. The contest in singles was started and six matches in the first round played. A large crowd of spectators witnessed some good tennis.

Chief among the surprises of the afternoon was the appearance in the event of Ira W. Travell, principal of the High School, and Lindley Best, science instructor there. Mr. Travell met defeat, but Mr. Best won out in two sets. He showed himself to be a player of much ability but decidedly out of practice.

It is too soon to attempt to pick the winner but, from the playing of yesterday, Kenneth Bulkley, last season's champion of the Hillside Tennis and Golf Club, and Chester H. Briggs are likely to play a very important part. Clarence Rocap, from whom considerable is expected, did not get a chance to play.

The hottest match of the afternoon was that between J. H. Kyte, of Fanwood, and H. L. Dyer, of this city. Dyer took the first set, 6-4. Kyte captured the second by the same score. The third was fought stubbornly into the dusk and finally ended in Kyte's favor, 15-13. The players were very evenly matched and many long rallies marked their play.

Some good tennis was seen when C. H. Briggs and Albert D. Beers met, but Briggs was too strong for his opponent. He meets Kyte this afternoon. Lindley Best was particularly strong in his serve, and Daniel's plucky fight was in vain. V. B. Miner played a strong game and disposed of Principal Travell in two interesting sets. Archibald Brakeley, of Dunellen, was easily put out by Bulkley. Fred T. VanAuken was somewhat nervous, but defeated Harry Thompson in some swift tennis.

There are two more matches in the first round to be played. It is expected that all but the finals will be finished this afternoon. Then the doubles will follow with six or seven entries. Silver loving cups are the prizes in both singles and doubles.

The results of yesterday's play were as follows:

First round: Kenneth Bulkley defeated Arch. Brakeley, 6 1, 6 2; Vincent B. Miner defeated Ira W. Travell, 6-1, 6 4; J. H. Kyte defeated H. L. Dyer, 4-6, 6 4, 15 13; Chester H. Briggs defeated Albert D. Beers, 6-1, 6-4; Lindley defeated Edmund Daniel, 6 1, 7-5; Fred T. VanAuken defeated Harry Thompson, 6 1, 6-3.

WARREN INVITED.

To Take Part in Final Parade of Elizabeth's Volunteer Department.

An invitation has been received by Warren Engine Company to participate in the parade to be held in Elizabeth October 3, under the auspices of the fire department of that city.

This parade will be the last public appearance of the present fire department of Elizabeth. The firemen will disband and be replaced by a paid fire department, patterned much after the department of this city.

Mr. Hyde to Build.

Mr. and Mrs. Frank Hyde expect to take up their residence in Plainfield permanently next spring. Mr. Hyde anticipates erecting a handsome dwelling for his occupancy in the vicinity of the Park Golf Club course. The exact location and details of his plans have not yet been fully decided upon.

Extra Lights.

As soon as the Somerset street improvements are completed an extra number of electric lights will be strung along that thoroughfare. It is expected that many boroughites residing on that street will plant new trees within the building line.

Doctors to Meet.

The members of the Plainfield Medical Society are arranging for their quarterly meeting and banquet to be held soon.

AT BOEHM'S.

Miss Daly Has Prepared Fine Fall Opening of Millinery There.

The fall opening of millinery at Boehm's dry goods store is now on and will continue until Thursday. Miss Kittie Daly, who is an acknowledged authority regarding the style and kind of hat that is best, is in charge.

All goods are new and the best. This year birds, breasts, ponpons, in black and white, are all the style, while all velvet hats are equally popular. Many large turbans will be worn with feathers and fall flowers as the popular trimmings. Miss Daly has a complete assortment of them, as well as ready-to-wear hats. The window display is one of the most attractive yet seen.

COULD NOT GET A QUORUM.

SO BOARD OF TRADE DISCUSSED THINGS IN INFORMAL WAY.

Nothing Very New Has Turned up in Ingersoll-Sergeant Co.'s Location Question.

It was the same old occurence in the Board of Trade rooms last evening. A meeting had been called to discuss an important matter but not enough members to make a quorum considered it of enough importance to attend. The energetic few, always ready to assist in anything which might aid in the city's welfare, were on hand early but they waited in vain for the remaining few needed to transact business.

Those in attendance, however, took up the discussion of the evening, that of the Ingersoll-Sergeant location, and heard reports in an informal way. Nothing really new, in addition to what was given at the last meeting, was revealed. The only thing lacking in meeting all requirements for the plant is the proper amount of ground, only one available site having been mentioned. Another was spoken of last evening, in close proximity to the first, but extending well on toward New Market. It has a number of advantages not possessed by the first mentioned, Tingley farm, which were made clear with the aid of a map exhibited by Engineer Frank J. Hubbard.

It was decided to mention the site to the company's representative, Mr. Swan, and also, if possible, have W. L. Saunders look it over. No permanent action could be taken, as the meeting was not in session, but the committee having the matter in hand promised to keep in touch with it until the next meeting.

NEW FIRE COMPANY.

Borough Young Men Will Meet Tonight to Talk it Over.

A number of young men in the borough are shortly to organize an independent fire company, which will be an adjunct to the regular department. The members of Warren Engine Company have given their sanction to the plan and have allowed the young men the use of a room in the upper part of the fire house for meeting purposes. They have also promised them a supply of hose and other necessaries until the new company is able to procure material of its own. A meeting of those interested is scheduled to take place this evening.

Last Band Concert.

Provided the necessary funds to defray the expenses are raised, the final band concert for the season will be given at the City Park Friday evening. Mr. LaVere is anxious to climax the summer's concerts by a grand production of famous compositions.

Measured For Uniforms.

The pupils of the city High School were measured for their new uniforms yesterday and will don them for the first time October 10. The cadets drilled for the first time Friday and it was seen that there is lots of work ahead for the batallion officers.

To Send a Christmas Box.

Friday a Christmas box will be packed at Warren chapel to be sent to Miss Rachel Mair, who is conducting a mission in Africa. All persons desiring to donate goods may leave them at the chapel Friday.

Sunday-school Entertainment.

A Sunday-school entertainment will be held in the Salvation Army Hall this evening at 8 o'clock. A fine programme will be rendered and refreshments will be served. A good time is assured to all who attend.

Programme and Smoker.

Freedom Castle, Knights of the Golden Eagle, at its meeting this evening, will have an informal entertainment, furnished by local talent. At the conclusion those in attendance will enjoy a smoker.

Germans' Outing.

The Gesang and Turn Verein held an outing at Altman's farm, near New Market, Sunday.

RECOVERED THE LAST OF STOLEN ARTICLES.

Police Have Now Found All the Clothing Stolen From Mr. Burnett Last Spring.

THERE WILL BE NO TRIAL.

JAMES SIMPSON AND SARAH SPEERS HAVE PLEADED GUILTY.

Will Be Sentenced By Judge Vail at Elizabeth Tomorrow—Decided Not to Make a Fight—Simpson's Former Record.

Clever detective work on the part of Chief Kiely brought to this city yesterday, $300 worth of fur and clothing, completing the recovery of the $1,700 worth stolen from W. A. W. Burnett, of Sandford avenue, last spring. The last consignment was located by the police, through information furnished by Chief Kiely, in a city 1,100 miles from Plainfield. For obvious reasons the local police deem it advisable not to mention the place at present.

James Simpson and Sarah Spiers, who were charged with having committed the robbery and captured in New York, have recently admitted their guilt. They have been confined in the Union county jail for the past two months awaiting appearance before the Grand Jury. The Speirs woman was taken ill soon after her incarceration and had to be removed to an Elizabeth hospital. Her life was despaired of for some time, but she eventually recovered. The pair conferred with counsel and decided to plead guilty without standing trial. They will be sentenced by Judge Vail tomorrow.

Chief Kiely yesterday received a letter from Silas Carpenter, chief of detectives at Montreal, Can., in which were a number of important facts in regard to Simpson's life in Canada. He has been arrested a number of times for the part he took in shady transactions, the last being in May, 1900, when he was caught receiving stolen goods. Through the influence of Mr. Carpenter himself, to whom he furnished valuable information, Simpson was allowed to go under a small bond. He left Montreal, presumably for Chicago and the next thing heard of him was when he was arrested for the robbery in this city.

WEDDED FIVE YEARS.

Mr. and Mrs. Harry VanFleet Celebrated the Event Last Evening.

Mr. and Mrs. Harry VanFleet, of Warren street, celebrated the fifth anniversary of their wedding last evening by entertaining sixty of their friends. Dancing was the feature of the evening, music for which was furnished by the Hewitt brothers. There were also other amusements and the festivities continued until an early hour this morning.

A collation was served at midnight. Mr. and Mrs. VanFleet were generously remembered by their guests with a number of appropriate presents which will serve to remind them of the pleasant occasion.

Keep Away Hereafter.

Mrs. Jeannerot, a young French matron unable to speak English, appeared before City Judge Runyon this morning, charged by Eugene Maurel, with annoying him. An interpreter, who was called into the case, mixed matters somewhat in translating. The court settled the matter by advising both parties to remain away from each other in the future, to which both agreed.

For Her Birthday.

Miss Lilian Mirex, of Steiner place, was given a pleasant surprise party last evening by forty of her friends, it being the anniversary of her birthday. Games, music and dancing were the pleasures of the evening. Refreshments were served at midnight. Those among the guests present were several parties from Newark, Cranford and other places.

Must Leave Town.

Robert Nolan, George Russell and Thomas Perry, the first two from New York city and the latter from Cold Springs, N. Y., were arrested by Boundsman Flynn and Patrolman Overbaugh last night, charged with begging. City Judge Runyon allowed them to depart on condition that they would leave Plainfield.

Parted Company.

The front wheels of a milk wagon, belonging to and driven by Daniel Cole, of Netherwood, parted company with the rest of the vehicle on Spooner avenue early this morning. The horse attached was frightened by the sudden collapse, but was prevented from running away. There was no damage.

Just a Few Scores of Plainfield People Have.

Waiting doesn't pay.
If you neglect the aching back,
Kidney troubles, diabetes, surely follow.
Doan's Kidney Pills relieve backache,
Cure every kidney ill.
Plainfield citizens endorse them.

Mrs. Henry Bender, of 118 West Front street, says: "I suffered almost constantly from a dull aching pain across my back and hips. Any hard work always increased it. I was also subject to severe headaches and dizziness when stooping and though I tried different plasters and home remedies I could not get relief. I saw Doan's Kidney Pills advertised for such troubles as mine, got a box at L. W. Randolph's drug store, used them according to directions and obtained a great deal of relief from them. In my estimation and from my experience Doan's Kidney Pills are a good reliable kidney medicine."

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully, O. D. PHELPS, M. D.

PALMA'S VIEWS SUIT.

Cuban Leaders Like Prospective President's Sentiments.

HAVANA, Sept. 24.—Senor Tomas Estrada Palma in his reply to the request of the political leaders who Aug. 23 decided to ask him to define the course he would follow regarding certain political issues, particularly the application of the Platt amendment, if elected to the presidency of Cuba has set forth his opinions very clearly as to the dominant questions involved, and the adoption of his reply as a platform at Saturday night's meeting of leading representatives of the various parties is taken to mean that he will be their candidate for the presidency. A manifesto will be drawn up signed by all who were present at the meeting recommending him to the electors for that office.

At the meeting last month when it was proposed to invite Senor Palma to be a presidential condidate there was considerable disagreement as to the programme, the principal division being over the question of the Platt amendment and as to whether this should be revised or not. Complete minutes of the proceedings were forwarded to Senor Palma along with the request for a statement of his position.

Bank Officials In Court.

NEW YORK, Sept. 24.—William H. Kimball, former president of the Seventh National bank; Gamaliel E. Rose, its former receiving teller, and Frank B. Poor of the defunct firm of Marquand & Co. were arraigned in the United States circuit court on indictments found against them on Sept. 11 by the federal grand jury. Bail was fixed and provided in heavy amounts.

Mrs. McKinley Doing Well.

CANTON, O., Sept. 24.—Mrs. McKinley again visited the tomb of the late president yesterday, driving out to the cemetery shortly before noon with Dr. Rixey and Mrs. Barber. The doctor states that she is still bearing up well and is in as favorable a condition as can be expected. There is practically no change in her condition. This is really a favorable report.

New Cabinet Member Favored.

NEW YORK, Sept. 24.—The directors of the Merchants' association have passed a resolution declaring for the immediate establishment as part of the federal government of a department of commerce, the secretary of which shall be appointed by the president and shall be a member of his cabinet. A certified copy of the resolution will be transmitted to President Roosevelt.

British Manufacturers to Retaliate.

BIRMINGHAM, England, Feb. 24.—It is announced that British manufacturers have resolved to "form a combination to defend their interests and the interests of British commerce in view of the entrance into the country of the American Tobacco company." For this end a retaliatory measure will shortly be announced.

BERLIN, Sept. 24.—Prince Chun, head of the Chinese expiatory mission, will leave Germany next Thursday. He is having a Berlin artist make a bust of him.

Peddlers Reinstated.

YOUNGSTOWN, O., Sept. 24.—The peddlers who were discharged at the Girard mill of the American Steel Hoop company because they did not work Thursday night, observing the McKinley funeral day as a day of mourning, have been reinstated. The threatened strike is therefore averted.

CZOLGOSZ IN COURT.

State Opens Case Against the President's Assassin.

THE JURY IS QUICKLY OBTAINED.

Plea of Guilty Not Allowed—Physicians on the Stand Testify That Gunshot Wound Caused McKinley's Death.

BUFFALO, Sept. 24.—Leon F. Czolgosz was placed on trial yesterday morning, charged with the murder of President William McKinley. He entered a plea of guilty, which was subsequently changed to not guilty by direction of the court.

All the events of the day tended to indicate that the trial will be short. There was not a suspicion of a quibble over any question whatever, and counsel for both sides seemed to be in perfect harmony. Court convened at 10 o'clock, and the work of procuring jurors went on rapidly. Before two hours had elapsed eight had been secured, and this in itself was an unprecedented record in any murder trial in the state. Technicalities were not raised, but it was noticeable that every man who acknowledged that he had not formed an opinion on the case was excused by the district attorney. Men who had formed an opinion or stated that they were prejudiced, but were willing to acknowledge that their opinion could be changed by evidence, were accepted by each side.

Justice Truman C. White, one of the oldest and most experienced of the supreme court judges, was on the bench. Immediately after the opening of the court and after the prisoner had pleaded Justice Loran L. Lewis, senior counsel for the defendant, arose and announced that, together with his colleagues, former Justice Robert C. Titus, and Mr. Carlton E. Ladd, they were ready to act in behalf of the prisoner.

"I thought it best," he said, "for my colleagues and myself that I should say something regarding our presence here as attorneys for the defendant. At the time my name was suggested I was out of the city and knew nothing of what was transpiring here with reference to the selection of counsel for the defendant. I was out of the city at the time, and when the circumstances of my selection were told to me I was extremely reluctant to accept.

"But the duty had been imposed, and I considered it my duty in all the circumstances to defend this man.

"I ask that no evidence be presented here—that the court will not permit the acceptance of any evidence—unless it would be accepted at the trial of the most meager criminal in the land."

"I am familiar with these circumstances," said Justice White in reply, "and I wish to say that I will give you every assurance that the prisoner will have a fair and impartial trial and that during the progress of the trial he will receive such treatment as the law demands in any criminal case."

The work of securing the jurors was then undertaken with a celerity that was amazing. Before the day was over the entire panel had been sworn and were seated in the box and had listened to a description of the Temple of Music, where the crime occurred, had seen photographs of the interior of that structure and had been told by three surgeons what caused the death of the president and the result of the assassin's shot upon the various organs of the body. They had also learned why the fatal bullet has not been located.

The presentation of the government's case began shortly before 3 o'clock when Assistant District Attorney Haller began, with much deliberation, to address the jury. His talk was very brief and consumed scarcely five minutes.

The first witness, Samuel J. Fields, chief engineer of the Pan-American exposition, described the ground floor plan of the Temple of Music and was followed by Perry A. Bliss, a photographer, who presented views of the interior of the building. The remainder of the afternoon was taken up with the testimony of three physicians, two of whom had attended the president during his last days, while the other performed the autopsy. The latter, Dr. Harvey R. Gaylord, was the first of the trio to be called. He described the location of the wounds in the stomach and the direction of the bullet. The cause of death was attributed to the gunshot wound, but fundamentally, he said, it was due to the changes back of the stomach in the pancreas, caused by the "breaking down" of the material of the pancreas as a result of the passage of the bullet.

Dr. Herman Mynter followed, and his testimony was of great importance, inasmuch as it brought out the fact that the reason why the fatal bullet had not been located at the autopsy was because of the unwillingness of the president's relatives to have the body further mutilated by their instruments.

Dr. Mynter and Dr. Mann, who followed him, both testified that the primal cause of death was the gunshot wound in the stomach. One effect of this wound was, they said, to cause the gangrene to form in the pancreas, and the spot of poisoned tissue was as large as a silver dollar.

The prisoner Czolgosz during the morning evinced no interest whatever in the proceedings, but as the testimony was introduced he paid more attention to what was said and looked at the various witnesses closely.

The probable duration of the trial, it is believed, can be placed at two full days.

Germans Capture Coal Contracts.

BERLIN, Sept. 24.—The coal syndicate has secured one-fourth of the coal contracts for the Danish railways as against the tenders of the British mine owners.

STRIKE THAT FAILED

President Shaffer's Statement Finally Made Public.

THE PRESS BITTERLY DENOUNCED.

Amalgamated President Says Other Labor Organizations Did Not Give the Support Promised at the Outset.

PITTSBURG, Sept. 24.—From an advance copy of the statement by President Shaffer of the Amalgamated association we learn the following concerning the history of the late strike of steel and tin workers from its inception and the terms of the settlement:

"When we had almost completed arrangements with the representatives of the American Tin Plate company for scale rates and conditions at the conference held in Cleveland, the question of signing for Monessen was broached, and after discussion it was agreed by both sides that the matter was to be settled by the sheet steel conference. If the Sheet Steel company filed for all, the American Tin Plate company would do likewise. Thus, you perceive, the scale question was not settled completely with the last named company and could not be until the other company had settled. The tin plate people knew that we had decided to enforce article 19, section 35, consequently the charge that we broke our agreement must rest upon the action of the sheet steel conference.

"We were in fairly good condition to win without help, but looked for aid from other labor bodies, some of which were pledged, and to the general public, but especially relied upon the American Federation of Labor, with which body we have been affiliated ever since its inception and toward whose support we have never failed to contribute.

"Our strike advanced, and we were confident of winning until the newspapers deliberately and maliciously published statements which were replete with lies. Our people began to doubt and upbraid, some who had been officials deserted us and afterward, like J. D. Hickey of Milwaukee, accepted the terms of the trust and scabbed. Hundreds who dared not sleep at home went to other places, and in nearly every mill the trust tried to run were many Amalgamated association men from striking mills. We knew our cause would be lost, but proceeded, feeling sure we could win if support could be secured for the faithful strikers. The American Federation gave us not one cent. The report that financial help came from the national lodge of the Mine Workers is absolutely false. We received nothing.

"Perceiving that lack of money, loss of public approval, desertion by hundreds of our own people and neglect by other organizations would render it impossible to gain a decisive victory, we endeavored to save what we could. I arranged for Mr. Gompers of the American Federation of Labor to meet Mr. Morgan to effect a settlement. Mr. Morgan gave up his vacation, went to New York and waited for Mr. Gompers, who failed to appear, nor has he since explained why he neglected our interests. We were called upon at the national office by John Mitchell of the United Mine Workers, Mr. Easley of the Civic Federation, Mr. Henry White of the Garment Workers and Professor Jenks of Cornell university. These gentlemen inquired carefully into our strike, and Mr. Mitchell stated that if we would present a proposition which he outlined he would demand acceptance by the trust or call out the miners, and he said he felt sure Mr. Sargent would call on the trainmen to strike also. We sent the proposition to the members of the executive board, which voted in favor of the proposition.

"I notified Mr. Mitchell and Mr. Easley of the acceptance of the proposition and on Sept. 4 obtained the following telegram from Messrs. Mitchell, Gompers, Sargent and Easley:

"'We have had an extended conference with Messrs. Schwab, Cory, Preston, Graham and McMurtrie of the United States Steel corporation and presented our proposition for the settlement of the present strike. It was rejected. We can, however, secure settlement on the following basis: The signing of the agreement for all mills which were union last year except Old Meadow, Saltsburg, Hyde Park, Crescent, Irondale, Chester, Cambridge, Star and Monessen. There will be no discrimination against the re-employment of any one by the company by reason of his connection with the strike, and no questions will be asked as to the membership of any man in any union. We are convinced that these are the best conditions which can be secured as a result of this strike.'

"We waited for the coal miners and railroad men to be called out. They were willing to come, as thousands assured us, but they have not been called, and the trust was more sure that with other organized labor bodies against us we must be defeated. Our people became disheartened. They sent letters and telegrams asking the board to settle. That body gave full power to the national officers, and the latter requested your president to seek a conference. He was successful after many difficulties. The conference was held in New York Sept. 14 and a settlement made."

Two Government Boats Launched.

NEW YORK, Sept. 24.—The torpedo boat destroyer Nicholson for the United States navy and the Holland submarine boat Porpoise were launched at the Nixon shipyards at Elizabethport, N. J. Mrs. Oliver H. P. Belmont broke the bottle of wine on the bow of the Nicholson, and Miss Bessie Campbell Moore of Brooklyn performed a similar service for the Porpoise.

A NEW CABLE COMPANY.

A Submarine Line to Manila via Honolulu to Be Laid.

ALBANY, N. Y., Sept. 24.—The Commercial Pacific Cable company, with a capital stock of $100,000, has been incorporated here by the following gentlemen: John W. Mackay, Clarence H. Mackay, Edward C. Platt, Albert Beck, George C. Ward, Albert B. Chandler and William W. Cook.

Respecting the purposes and prospects of the new company Mr. Mackay said that the Commercial Pacific Cable company had been organized for the purpose of laying a submarine cable from California to the Philippine Islands by way of Honolulu, in the Hawaiian Islands. The length of the cable will be about 8,500 miles, the part to be first laid being from California to the Hawaiian Islands. This portion, Mr. Mackay expects, will be in operation within nine months.

The time required for the laying of the remainder of the cable from the Hawaiian Islands to the Philippine Islands will depend upon how quickly the cable can be manufactured, but Mr. Mackay believes the whole cable will be completed within two years from this date.

The new cable when it reaches the Philippines will connect at that point with the present submarine cable running from the Philippines to Japan and also the cable running from the Philippines to China. A direct cable route from China and Japan to the United States will thereby be established. At present cablegrams from China to the United States have to be sent by way of Europe. Mr. Mackay said that the present cable rates from the United States to the Philippines and to China and Japan would be reduced when the new cable is laid from 30 to 60 per cent.

Admiral Sampson's Plans.

BOSTON, Sept. 24.—Rear Admiral William T. Sampson, who returned to the navy yard with Mrs. Sampson on Saturday after a sojourn at Lake Sunapee, N. H., has left the city for Fort Hamilton, N. Y., to pay a visit to Second Lieutenant H. H. Scott, U. S. A., and Mrs. Scott, his daughter, formerly Miss Olive Sampson. Rear Admiral Mortimer L. Johnson, commandant of the Port Royal naval station, will assume command of the Boston yard on Oct. 1. Admiral Sampson will retire by age limit Feb. 9, 1902. He could retire before that if he wished under the forty years' service clause on his own request, or he could apply for retirement to take effect immediately on account of poor health. However, as naval officers generally take pride in serving out their full term, it is probable that an extended leave of absence will keep Admiral Sampson on the active list until the 9th of February.

Editor Forced to Retract.

BINGHAMTON, N. Y., Sept. 24.—A clergyman, who escaped from the crowd before his name could be learned, was knocked down and beaten in this city because he said he sanctioned an article that appeared in The Standard, a Prohibition paper published here, which calumniated President McKinley. The mob was after C. D. Pendell, the owner of the printing office where the paper is published, but he escaped in the excitement. Pendell's brother, G. G. Pendell, formerly chairman of the Prohibition county committee and editor of the paper, was waited on by a committee and ordered to retract under threat of being thrown into the street with his entire printing plant. He at once made a retraction, which is published in this morning's Republican.

For a Monument at Canton.

CLEVELAND, O., Sept. 24.—Initial steps have been taken here toward the erection at Canton through popular subscription of what is hoped will be a fitting and magnificent monument to the memory of the late President McKinley. At a conference attended by Senator Hanna, Judge William R. Day of Canton and Colonel Myron T. Herrick it was decided to at once organize a commission that will be national in its scope to take charge of the work. It is proposed to have as members of this body representative citizens from all of the various states of the Union. The organization will be chartered under the laws of Ohio and will probably be known as the McKinley Memorial association.

Secretary Gage Going to Colorado.

WASHINGTON, Sept. 24.—Secretary Gage will leave Washington on Thursday for Colorado, where he will pass his vacation. He expects to be gone until Oct. 17. Secretary Gage was on his way to Colorado when President McKinley was shot. He returned at once to Buffalo.

Missing Heiress Brought Home.

NEW YORK, Sept. 24.—Miss Helen Bloodgood, who mysteriously disappeared from her home last Thursday and who was found at a hotel at Basking Ridge, N. J., returned last evening with her mother and a detective to her home at 83 Irving place.

A DAY IN THE WOODS.

Duke and Duchess Entertained by Canadian Lumbermen.

OTTAWA, Sept. 24.—The Duke and Duchess of Cornwall spent yesterday on the Ottawa river and the forest lining its banks and were given a complete exposition of a lumberman's life, with all its native picturesqueness. They shot the timber slides on rafts, lunched in a lumberman's shanty and enjoyed a day's outing that was novel to them. The royal party were brought in from Rideau Hall on a specially built electric car and boarded the rafts at Oregon street. There were six of the rafts, each manned by half a dozen rivermen in red shirts and blue jeans, and from the one assigned to the duke and duchess floated the royal standard.

Besides the members of the royal party the governor general and the Countess of Minto, Premier Laurier, representatives of the lumbermen and the newspaper correspondent traveling with the ducal party were the only ones to make the trip. A landing was made at the clubhouse of the Ottawa Canoe club, from the veranda of which the duke and duchess witnessed the aquatic sports.

The duke and duchess were then escorted to Rockliffe park, where in the midst of a heavy growth of hemlock and spruce a model lumberman's shanty had been thrown up. Fifty red shirted woodsmen lined up to receive them, and they were shown at once to the shanty.

A great open fire burned in the middle of the log walled house, and the smiling cook announced in patois that dinner was ready. He offered steaming pork and beans and other staples of bush life, and the duchess sampled each. A large tent that stood next to the shanty was stocked with the fare of civilization, and the entire party lunched. After lunch the lumbermen gave an exhibition of their woodcraft. When they finished, they were gathered together and the duke thanked them.

The reception given by the Duke and Duchess of Cornwall in the senate chamber at night was the most brilliant social affair of the Canadian tour. All the local troops were massed in Parliament square, and the entire group of buildings were brilliantly lighted, as were all of the streets of the center of the capital. The square and streets were crowded with people anxious for a glimpse at the guests. The chamber was splendidly decorated.

American Runner Beaten.

LONDON, Sept. 24.—Thousands gathered at the Stamford Hill grounds to witness the twenty-five mile running match for a prize of £50 between Hallan of New York and Hurst of Edmonton, England. Hallan gave up after covering eleven and one-half miles, and the race was awarded to Hurst, who covered twelve miles in 1h. 11m. 58⅕s.

Ten Millions Homeless.

LONDON, Sept. 24.—"There is terrible destitution in the Yangtse districts," says a dispatch to The Times from Shanghai, "owing to the recent floods, which have not yet subsided. More than 10,000,000 persons are homeless. It is feared the distress will promote civil disorder during the coming winter."

McKinley Memorial Stamps.

WASHINGTON, Sept. 24.—A special issue of stamps commendatory of the life of the late President McKinley is under contemplation at the postoffice department. Consideration of the subject, however, has not progressed sufficiently to indicate definitely what action may be taken.

Elevator and Dock Destroyed.

PORT HURON, Mich., Sept. 24.—Fire destroyed the Grand Trunk elevator and the dock, located across the St. Clair river at Point Edward, Ont. A strong wind fanned the blaze, and for a time the firemen had a hard fight. The loss is estimated at $75,000.

Minister Dudley Coming Home.

LIMA, Peru, Sept. 24.—Irving B. Dudley, the United States minister in Lima, will leave Callao for the United States by tomorrow's steamer. Mr. Neill, secretary of the legation, will be in charge during Mr. Dudley's absence.

Fire Threatens Minnesota Town.

ST. PAUL, Minn., Sept. 24.—A special from Pipestone, Minn., says that the village of Edgerton, eighteen miles southeast of there, is reported to be on fire, and the entire village is threatened.

A Danish Town Burned.

COPENHAGEN, Denmark, Sept. 24.—A large portion of the town of Kallundborg has been destroyed by fire. The damage will probably amount to £500,000.

SEA FIGHT RETOLD.

Schley Court Hears Story of Texas In the Battle.

BROOKLYN'S FAMOUS LOOP DESCRIBED

Testimony of Commander Heilner Conflicts With Official Navy Department Chart Which He Helped to Prepare.

WASHINGTON, Sept. 24.—The part played by the battleship Texas in the naval battle off Santiago July 3, 1898, in which the Spanish fleet under Admiral Cervera was sunk, was the basis of the greater part of yesterday's proceedings in the Schley naval court of inquiry. Of the four witnesses examined during the day three had been officers on board the Texas during the battle and two of them were new witnesses. These were Commander George C. Heilner, who was navigator on the Texas, and Commander Alexander B. Bates, who was the chief engineer on that battleship. Commander Harber, executive officer and the chief surviving officer of the ship since the death of Captain Philip, was recalled. The fourth witness was Commander Seaton Schroeder, executive officer on the Massachusetts and now governor of the island of Guam.

The testimony several times during the day was somewhat exciting, and it was especially so when Commander Heilner described the battle and the part the Texas had taken in it. He said that when the Brooklyn made its loop at the beginning of the battle it had passed across the Texas' bow at a distance not to exceed 100 or 150 yards and that at the command of Captain Philip the Texas had been brought to a dead stop.

Engineer Bates testified that the starboard engines had been stopped and said he thought this also happened to the port engines. Commander Heilner expressed the opinion that three miles had been lost by this maneuver and the fact that part of the machinery was deranged. He said he considered that the Texas was in greater danger when the Brooklyn crossed her bow than at any other time during the battle.

On cross examination Commander Heilner admitted having taken part in the preparation of the official navy department chart showing the positions at different times of the ships which participated in the battle. He said that, according to this chart, the two ships never were nearer than 600 yards of each other. But, he contended, the chart was inaccurate, and he said he had only consented to it as a compromise. Commander Bates admitted that the official steam log of the Texas contained no record of the signal to reverse the engines. Commander Schroeder testified concerning the coal supply of the Massachusetts, which he said would have been sufficient for a blockade of from sixteen to twenty days.

The day closed with another animated controversy between counsel as to the policy of bringing Admiral Sampson's name into the trial.

The President Rides Alone.

WASHINGTON, Sept. 24.—President Roosevelt yesterday again went for a long horseback ride into the suburbs of the city. After the stream of callers at the White House had stopped for the day and pending business had been disposed of he spent some time out in the bright, crispy air and returned to the White House shortly before 7 o'clock. He was unaccompanied on his ride and was gone about two hours. The evening was spent very quietly at the White House. The president had invited a few friends to be his guests at his first dinner in the executive mansion, including his two sisters, Mrs. Cowles and Mrs. Douglas Robinson of New York, and their husbands and another gentleman. After the dinner they remained until about 10 o'clock, when they departed for their homes.

Big Dock May Go to Philippines.

WASHINGTON, Sept. 24.—From present indications the big floating steel drydock at Havana, recently purchased by this government from Spain, will be sent to the new Olongapo naval station in the Philippines. Secretary Long has authorized the repairs recommended by Naval Constructor Gilmour, who estimated the cost at $66,000 in the belief that an extra dock force would have to be engaged for the work. It is thought now that much of the repair work can be done by the regular force and the total cost considerably reduced.

Irishmen Coming.

LONDON, Sept. 24.—The plans of the Irish delegation which is to sail for the United States have been completed. John Redmond, the Irish parliamentary leader, will be accompanied by Messrs. McHugh and Thomas O'Donnell, members of parliament. They will sail on the White Star line steamer Majestic from Queenstown Oct. 24. Michael Davitt will join them at New York. Mr. McHugh is at present undergoing six months' imprisonment in Kilmainham jail. He will be released Oct. 21. Mr. O'Donnell will make addresses in Celtic.

Reciprocity With Cuba.

WASHINGTON, Sept. 24.—General Wood, who has returned to Cuba, expects to visit Washington in November and to bring with him a deputation from the Cuban constitutional convention authorized to negotiate a reciprocity agreement. Secretary Root some time ago directed that preliminary arrangements be made for formulating such an agreement, and this has been done.

Democratic Candidates.

There is every evidence that the fight for the Democratic gubernatorial nomination is going to be a hot and bitter one. The attempt by the Democratic executive committee of Union county to coerce the delegate from this county into supporting Mayor Seymour, of Newark, for the nomination is one instance. So is the attempt to use the name of James E. Martine as a supporter of Mayor Seymour when, in reality, Mr. Martine has entirely different views.

The Daily Press has already told of the decided opposition on the part of the local representatives of Democracy to being dictated to by the county committee. It is not likely that they will support Mayor Seymour on the first ballot, at least, unless the situation changes materially. They have been very anxious to see the name of James E. Martine go before the convention if for only a complimentary vote and they are likely to advocate that course with much vigor. It is possible, however, that they may be smothered in caucus and that the vote of the Union county delegation may be cast as a unit.

Until a few days ago the opposition to Mayor Seymour appeared to be without a candidate. It was simply anything to beat Seymour. Now quite a number of the opponents of Newark's Mayor have come out for Former Congressman Thomas M. Ferrell, who was one of Mr. Martine's colleagues in the "big four" which represented New Jersey at large at the last Democratic national convention. Mr. Ferrell hails from southern Jersey and has quite a following among the Democrats of that part of the State.

Either Mr. Farrell has a very efficient press agent or else he has become quite a figure in the race for the gubernatorial nomination. Of course his friends in south Jersey are booming him for all he is worth, and now it is said that Former Senator Smith has looked with approval on his candidacy.

On Friday will come the Democratic primaries in this county when delegates will be chosen for the State convention at Trenton, October 1. There is likely to be much happening before the time comes for the choice to be made. At present the names of Seymour and Farrell are the only ones really prominent for the place, but there is ample time for a "dark horse" to appear.

The action of some of the members of the Somerset County Board of Freeholders in withholding their consent to the construction of a substantial and serviceable bridge over Green brook, at Giraud avenue, is reprehensible. These Freeholders should remember that they owe a duty to the entire county and are not answerable alone to the people in the section from which they are elected. The bridge is a necessity and the sooner it is erected the better.

The Philadelphia Record relates that in every large city there are many hundreds of persons who are engaged in various enterprises, but who are known only to a small proportion of the people. There is no doubt that any of them could largely increase their business by an enconomical, intelligent and persistent system of advertising in a single newspaper of large circulation.

Doesn't it seem strange that a city of the size and enterprise of Plainfield cannot properly support a Board of Trade? Yet that organization waited a full hour, and in vain, to secure a quorum last evening. Surely there is something wrong somewhere and the sooner the people find out what it is and remedy it, the better off the city will be.

The large majority of the Italians in this city and borough are law abiding citizens, but as is generally the case, there is a few among them who spoil the general reputation of the whole number. Some of these are to be found on Watchung avenue, near Green brook, where it is said that disorder is becoming a common occurance.

The local Republicans enjoyed another little love feast last evening when they selected their delegates for the State convention, to be held at Trenton, Thursday. If there were any factional differences here, the primaries did not serve to bring them to the surface.

Every local baseball team gave a very poor exhibition of the national game Saturday. It may be that the season has been continued long enough. If it is to be extended, the local ball tossers ought to take a decided brace.

Don't forget that the new water bills come after the first of October. You may expect another united howl when the bills arrive. Then it may be that the patrons of the company will see the need of water meters.

If the officials of the New Jersey Central Railroad desire to please the Plainfield public, they cannot do better than to put the driveways leading to the new east-bound station in proper condition.

The name of Franklin Murphy will be the only one presented at the Republican State convention at Trenton Thursday. That fact is now assured.

PERSONAL.

Exposure to a sudden climatic change produces cold in the head and catarrh is apt to follow. Provided with Ely's Cream Balm you are armed against Nasal Catarrh. Price 50 cents at Druggists, or Ely Brothers, 56 Warren street, New York, will mail it. The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation, cleanses and cures. Cream Balm quickly cures the cold.

Tribute To McKinley.

Owing to the fact that Rev. S. P. Simpson, rector of St. Stephens' church, Netherwood, was away from the city a week ago, the service in memory of the late President McKinley was not held until Sunday morning. At that time Mr. Simpson delivered an interesting sermon in which he paid rich tribute to the late President.

DUNELLEN.

(Special Correspondence.)

Dunellen, September 24—Mrs. Hillyer, of Fairview avenue, was the victim of quite a serious and painful accident Sunday morning. While using a sharp knife in the preparation of dinner, her hand slipped and the knife severed one of the arteries of the wrist. Mrs. Hillyer was alone at the time and, not knowing what to do, she ran to the house of her next door neighbor, who bound the wound up as best she could while word was sent to Dr. Nelson, who tied the ends of the artery together. Mrs. Hillyer is seventy years of age and was made ill by the loss of blood.

The congregation of the Presbyterian church is invited to attend the funeral services of James T. Harris, this afternoon, at 2 o'clock, from his late residence on West Seventh street at the corner of Clinton avenue, Plainfield.

PLAINS AND FANWOOD.

(Special Correspondence.)

Scotch Plains, Sept. 24—The Republican voters met in Excelsior Hall last night to elect a delegate to the State convention, which meets at Trenton, Thursday. John Robison, chairman of the last primary, called the meeting to order and was elected chairman. W. B. Noble was made secretary. But one delegate was to be elected and the honor fell to Geo. Ball, unanimously, with power to appoint his own alternate. No further business coming before the primary, a motion was carried to adjourn.

Frederick Hoffman, of Fanwood, was arraigned before Judge Clark yesterday charged with disorderly conduct. Hoffman pleaded not guilty to the charge, but the evidence presented to the court convinced the Judge that the prisoner was guilty, so a fine of $5 and costs of court was imposed. The fine was paid.

SOUTH PLAINFIELD.

(Special Correspondence.)

The spectacle of a twelve-year-old schoolboy, so intoxicated that he could not walk or stand unsupported, was seen in this town yesterday. The boy is the child of respectable parents whose home is in South Plainfield. He was made drunk by drinking the contents of three bottles of beer which were given to him by some of the Italians who are employed by the Lehigh Valley Railroad Company.

At the Piscataway township Republican primary, held at New Market yesterday afternoon, Dr. M. J. Whitford was elected as delegate to the Trenton convention, which is to held Thursday for the purpose of nominating a governor for New Jersey. In case Dr. Whitford is unable to attend the convention he has the power to send any alternate whom he may name.

Public opinion in the encampment of Italians and Hungarians near the coal storage grounds seems to exonerate the unfortunate Italian who lost $140 last week. They have decided to make up the amount to him by subscription, and as there is over 150 men there, the assessment will not be very heavy.

Notice to vacate premises was served upon John Phillips by Mrs. Hogan yesterday. The papers were served by Constable Weaver. Mrs. Hogan wants more rent for her house, while Mr. Phillips refused to pay more and does not vacate the property.

FANCIES OF FASHION.

A Hasty Glance at Early Styles and Fabrics.

Useful Suggestions for Mothers Who Delight in Seeing the Girls of the Household Becomingly Attired.

[Special Chicago Letter.]

TIME passes so quickly that no sooner have one season's styles been approved by the followers of Dame Fashion than suddenly and almost without warning we find ourselves face to face with an entirely new set of styles.

It seems but yesterday that I was calling attention to the wonderful beauties of the new summer fabrics—the sheer organdies, the delicately-tinted muslins and the lovely French lawns—when, in the twinkling of an eye, as it were, these pretty things have been whisked from out of sight and their places filled with rich materials, that remind us that summer is on the wane.

In the matter of skirt decoration there still continues the same wonderful amount of fluffiness in the way of ruffles and lace, tucks and plaits. On the other hand, some entirely new, not to say unique, ideas in trimming are to be observed. For instance, a handsome Paris model, fashioned of plain etamine cloth in a deep rich shade of blue, had both the skirt and bodice ornamented with bias bands of taffeta silk, set on with a fancy openwork stitch, the material being cut from beneath, thus giving to the bands all the appearance of handsome silk insertions. As all this fancy stitching is done by hand, you can well imagine that a gown trimmed in this fetching style sells at a price that places it quite beyond the reach of the multitude. Cloth bands on

TWO DAINTY AUTUMN GOWNS FOR DAINTY MISSES.

foulard gowns are seen to very particular advantage on two delightful models sent out by a well-known Chicago house, the bands in both cases matching the predominating color in the silk. This same house is responsible for another charming gown made of nun's veiling in a new and most delightful shade of tan and trimmed sparingly with cretonne roses in shaded pink and pale yellow tints. The cretonne appliques, by

FOR THE GIRL IN THE SWIM.

the way, came in last spring and, although novel and beautiful in the extreme, for some reason not understood did not "take." Now, however, fashion makers declare the popularity of cretonne trimming assured, and many of the handsomest gowns to be seen later in the season will boast this lovely applique among its trimmings.

As yet there is no decided change worthy of note in the cut and general style of the dress skirt. It still continues to be worn very close about the hips, very full below the knee, and very long on the ground. There is a well defined rumor to the effect that the habit back skirt is soon to be restored to its old-time popularity, but of this later on.

In the matter of dress materials all indications point to a reign of fabrics characterized by a coarse, open weave, similar to those worn during the early summer. With textiles of this description foundations of silk become an absolute necessity, therefore it will not be long ere the gentle swish and soft frou-frou of the luxurious silken lining will again be a familiar sound to the ear.

However, it is not altogether concerning the fashions of the grown-ups that I wish to tell you, but rather of those pertaining to the children. Seldom have the fashions for girls been so pretty and appropriate. At a well-known shop, where very special attention is given to the production of smart novelties in the way of costumes for girls, any number of charming little gowns may be seen, cleverly selected, so that they are suitable for all occasions.

The most striking feature in all these models is the general tone of simplicity running through the entire lot. Seemingly there is no attempt to patronize the extremes of fashion, and even in the dressiest little gowns sweet simplicity seems never to have been lost in sight.

Starting with the needs of the schoolgirl, Dame Fashion decrees that the school frock shall be one of serge, well cut and nicely made. For early fall wear nothing is neater or more appropriate than this. The bodice should follow somewhat the lines of the summer blouse and be fashioned with a sailor collar made in fine white lawn, hemstitched or inserted with Valenciennes lace, and wristband cuffs to match. For best wear the gown for the girl of 14 or thereabouts is made of nun's veiling, etamine or the ever-popular French cashmere and foulard silk. Among so many attractive models it is somewhat difficult to select one as more worth description than another, but the one in the picture seemed as graceful and pretty in design as any and one which would be very easy to copy. It is carried out here in a lovely shade of dark brown cashmere. The skirt is plain as to shape, and has the fullness arranged in box plaits in the back, while the trimming consists of narrow bias bands of the material. The rather severe plainness of the little Eton coat is relieved by a handsome collar of dark red silk, while the inside vest is of cream-tinted muslin, tucked from waist to neck and finished with a transparent lace collar.

Another sketch represents a best dress for a somewhat younger girl. It is fashioned of blue silk spotted with white and is made in the new smock pattern, with the fullness hanging in straight folds both back and front. The sleeves are prettily tucked with soft frills of lace.

With all the dainty material now at hand one has a large choice in the planning of pretty juvenile clothing, at moderate expense. Fine cambric and lace are, of course, lovely, but dreadfully extravagant where there are two or three little ones to attire, and so I would sing the praises of washing and tussore silk. For fashioning this material there is no prettier style than the guimpe, that is, a skirt and a half bodice, with embroidered straps over the shoulders, to be worn with a yoke and sleeves of finely tucked lawn or all-over embroidery.

Suitable headgear for young girls is always a hard thing to decide upon. It must not be too plain, neither must it err on the side of too much elaboration, and to strike the happy medi- everyday wear I love nothing better um is sometimes quite difficult. For than the large flopping, platelike felts, in tan, cream or deep red, trimmed simply with bows or twists of spotted velvet or silk. For best wear, hats of glace silk, piped with velvet and trimmed with huge ribbon rosettes, are the proper thing. Little girls of six and eight years wear the new "granny" made of glace silk, either pure white or cream tinted, whose only note of trimming is a huge bow of satin ribbon placed right in front.

A RATHER BAD CASE.

I am thirty years of age and work in the wood-working shop of the Burlington Venetian Blind Co.'s works, where I have been six years. My work is at a bench, and it is very tiresome for the whole body to stand in nearly one position all day and receive the jar of machinery constantly. It is very close work for the eyes, and for the past six months I would have a headache one or two days every week and was so very nervous I could hardly work at all. At noon I would feel so weak I could hardly go to dinner. After eating I would feel as if I were full of gas, and if I walked fast I would have very severe pains in one side of the stomach. Sundays, when I was not at work, I would feel so bloated after eating I could hardly move at all and Monday I would feel as if I had been on a great spree, all broke up and nervous with headache, although I never drink at all. Ripans Tabules first came to my notice in this way: The engineer of our shop sent for me one day and asked if I had ever used Ripans Tabules. I told him I had not, and asked him why. He said he had dyspepsia and had been taking medicine right along, which did him no good. He asked me to buy him some Ripans Tabules at the drug store, which I did—one dozen of them. A couple of days after I asked him how they worked. He said they stopped the sour rising in his mouth, and were the best thing he ever used. He asked me to send for one dozen cartons, which I did, and I kept one-half of them. I began to use the Tabules, and found them so good that I wanted others to try them, so I gave away half of what I had, and had to order more. I find them a great help to me. I have had headache but once since I began to take them, two weeks since. Everything I eat acts well now, and even a crust of bread tastes good to me.

WANTED—A case of bad health that RIPANS will not benefit. They banish pain and prolong life. One gives relief. Note the word RIPANS on the package and accept no substitute. RIPANS, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

TO FURNISH THE LIBRARY.

Choose Everything in the Room With an Eye to Its Comfort.

The general color scheme of a library should be quiet and rich. Mahogany, green and Flemish oak are the handsomest woods, and reds and greens of all shades just now seem to be the popular colors for this part of the house. The pictures on the wall should lend themselves to this style of furnishing. Oil colors, strong bits of black and white and good etchings should take the place of the more frivolous water colors and sketches to be found in the drawing room. The furniture of the library ought to be rather ample and massive in lines, and it must be chosen with an eye to comfort. A writing table with all the materials placed conveniently within reach is one necessary bit of furniture, and a reading table of a convenient height is another. Above all, the lighting of the room should be faultless.

The library in the illustration is fitted in green oak, with a heavily rafter-

ed ceiling and a massive fireplace. The walls are stained a rich terra cotta, and the floor is covered with plain terra cotta carpeting, over which are laid Persian rugs of somber colorings. Two long, narrow windows of stained glass throw a rich light upon the end of the room farthest away from the street windows. The mantelpiece is divided into five arched sections, fitted with plate glass. Brick forms the inner hearth, and the outer arch is of buff tiles. The bookcases are of the green oak and are built into the wall. The circular desk, the center table and the chairs are also of the same wood. The tablecloth is of green raw silk material embroidered in terra cotta and gold. In order to follow out the general color scheme of the room the electric light fixtures have pale green globes.

FEEDING SCHOOL CHILDREN

The Importance of a Varied and Strengthening Diet.

Doctors are now advancing the theory that a child's disposition can in a large measure be controlled by the food that it eats. Give the child a monotonous diet, they say, and it will have a character deficient in versatility of mind and liveliness of disposition. Feed a nervous child on meat, and you not only endanger its health, but you ruin its character as well by making it irritable and savage. On the contrary, put this same child on a cereal and vegetable diet, and you will notice a marked improvement in gentleness and self control. However this may be, there is no doubt of the physical effect of certain foods. A child of five years was recently discovered by a doctor in one of the workingmen's quarters in Paris. Although fat and apparently well nourished, it was unable to support itself sufficiently to walk. After examining it and finding it perfectly healthy the doctor questioned the parents and learned that the child had been fed from infancy on vegetable soups principally made of potatoes and that, owing to its being so expensive, the little one had only tasted meat once in all that time. The result was that the child had received no nourishment calculated to help form its bones and muscles, and so, while in appearance plump beyond the average, it really had no strength whatever.

A prominent physician who is an indisputable authority in the matter of food as used in medical treatment says that growing children who go to school require two meat meals a day and that one of these should be breakfast. Both eggs and fish, however, are counted as meat. Simplicity should rule the child's table, but simplicity need not mean the eternal milk and porridge. In fact, some of these same porridges are very heavy and hard to digest for little ones who go immediately to sit at their desks for hours. Rice boiled and eaten with milk or cream is better and lighter of digestion than oatmeal. Meats twice cooked or accompanied by rich sauces or gravies are most unsuitable for children, and they should not have much beef. Mutton, lamb and veal are most suited to them. These meats should always be plainly cooked and accompanied by vegetables.

A BIT OF MEAT FOR BREAKFAST.

In any case a mixed diet is the safe one. By that is meant a bill of fare in which vegetables, bread, fruit and farinaceous food all play a part equally important with that of meat and in which the individual need of each child is considered.

The Lost Continent

[CONTINUED.]

When he had finished came the turning point of my life. At first, like, I take it, everyone else in that crowd, I imagined that the old man, having finished his mission, was making a way to return to the place from which he had come. But he held steadily to one direction, and as that was towards myself, it naturally came to my mind that, having dealt with greater things, he would now settle with the less; or, in plainer words, that having put his policy before the swarming people, he would now smite down the man he had seen but yesterday seated as Phorenice's minister. Well, I should lose that final fight I had promised myself, and that mound of slain for my funeral bed. It was clear that Zaemon was the mouthpiece of the Priests' clan, duly appointed; and I also was a priest. If the word had been given on the Sacred Mountain to those who sat before the Ark of the Mysteries that Atlantis would prosper more with Deucalion sent to the gods, I was ready to bow to the sentence with submissiveness. That I had regret for this mode of cutting off, I will not deny. No man who had practiced the game of arms could abandon the promise of such a gorgeous final battle without a qualm of longing.

But I had been trained enough to show none of these emotions on my face, and when the old man came up to me, I stood my ground and gave him the salutation prescribed between our ranks, which he returned to me with circumstance and accuracy. The crowd fell back, being driven away by the ineffable force of the symbol, leaving us alone in the middle of a ring. Even Nais, though she was a priest's daughter, was ignorant of the mysteries, and I could not withstand its force. And so we two men stood there alone together, with the glow of the symbol bathing us and lighting up the sea of ravenous faces that watched.

The people were quick to put their natural explanation on the scene. "A spy!" they began to roar out. "A spy! Zaemon salutes him as a priest!"

Zaemon faced round on them with a queer look on his grim old face.

"Aye," he said, "this is a priest. If I give you his name, you might have further interest. This is the Lord Deucalion."

The word was picked up and yelled among them with a thousand emotions. But at least they were loyal to their policy; they had decided that Deucalion was their enemy; they had already expended a navy for his destruction; and now that he was ringed in by their masses, they lusted to tear him into rags with their fingers. But rave and rave though they might against me, the glare from the symbol drove them shuddering back as though it had been a lava stream; and Zaemon was not the man to hand me over to their fury until he had delivered formal sentence as the emissary of our clan on the sacred mount. So the end was not to be yet.

The old man faced me and spoke in the sacred tongue, which the common people do not know. "My brother," he said, "which have you come to serve—Deucalion or Atlantis?"

"Words are a poor thing to answer a question like that. You well know all of my record. According to the law of the priests, each ship from Yucatan will have carried home its sworn report to lay at the feet of their council, and before I went to that viceroyalty, what I did was written plain here on the face of Atlantis."

"We know your doings in the past, brother, and they have found approval. You have governed well, and you have lived austerely. You set up Atlantis for a mistress, and served her well; but then, you have had no Phorenice to tempt you into change and fickleness."

"You can send me where I shall see her no more, if you think me frail."

"Yes, and lose your usefulness. No, brother, you are the last hope which this poor land has remaining. All other human means that have been

I BOWED BEFORE ZAEMON.

tried against Phorenice have failed. You have returned from over seas for the final duel. You are the strongest man we have, and you are our final champion. If you fail, then only those terrible powers which are locked within the Ark of Mysteries remain to us, and though it is not lawful to speak even in this hidden tongue of their scope, you at least have full assurance of their potency."

I shrugged my shoulders. "It seems that you would save time and pains if you threw me to these wolves of rebels, and let them end me here and now."

The old man frowned on me angrily. "I am bidding you do your duty. What reason have you for wishing to evade it?"

"I have in my memory the words you spoke in the pyramid, when you came in among the banqueters. 'Phorenice,' was your cry, 'while you are yet empress, you shall see this royal pyramid, which you have polluted with your debaucheries, torn tier from tier, and stone from stone, and scattered as feathers before a wind.' It seems that you foresee my defeat."

The old man shuddered. "I cannot tell what she may force us to do. I spoke then only what it was revealed to me must happen. Perhaps when matters have reached that pass she will repent and submit. But in the meanwhile before we use the most desperate weapon of the gods, it is fitting that we should expend all human power remaining to us. And so you must go, my brother, and play your part to the utmost."

"It is an order. So I obey."

"You shall be at Phorenice's side again by the next dawn. She has sent for you from Yucatan as a husband, and as one who (so she thinks, poor human conqueror) has the weight of arm necessary to prolong her tyrannies. You are a priest, brother, and you are a man of convincing tongue. It will be your part to make her stubborn mind see the invincible power that can be loosed against her, to point out to her the utter hopelessness of prevailing against it."

"If it is ordered, I will do these things. But there is little enough chance of success. I have seen Phorenice, and can gauge her will. There will be no turning her once she has made a decision. Others have tried; you have tried yourself; all have failed."

"Words that were wasted on a maiden may go home to a wife. You have been brought here to be her husband. Well, take your place."

The order came to me with a pang. I had given little enough heed to women through all of a busy life, though when I landed, the taking of Phorenice to wife would not have been repugnant to me if policy had demanded it. But the matters of the last two days had put things in a different shape. I had seen two other women who had strangely attracted me, and one of these had stirred within me a tumult such as I had never before felt among my economies.

To lead Phorenice in marriage would mean a severance from this other woman eternally, and I ached as I thought of it. But though these thoughts floated through my system and gave me harsh wrenches of pain, I did not thrust my puny likings before the command of the council of priests. I bowed before Zaemon and put his hand to my forehead. "It is an order," I said. "If our Lord the Sun gives me life, I will obey."

"Then let us begone from this place," said Zaemon, and took me by the arm and waved a way for us with the symbol. No further word did I have with Nais, fearing to embroil her with these rebels that clustered round, but I caught one glance from her eyes, and that had to suffice for farewell. The dense ranks of the crowd opened, and we walked away between them scathless. Fiercely though they lusted for my life, brimming with hate though they made their cries, no man dared to rush in and raise a hand against me. Neither did they follow. When we reached the outskirts of the crowd, and the ranks thinned, they had a mind, many of them, to surge along in our wake; but Zaemon whirled the symbol back before their faces with a blaze of lurid light, and they fell to their knees groveling, and pressed on us no more.

The rain still fell, and in the light of the camp fires as we passed them the wet gleamed on the old man's wasted body. And far before us through the darkness loomed the vast bulk of the Sacred Mountain, with the ring of eternal fires encincturing its crest. I sighed as I thought of the old peaceful days I had spent in its temples and groves.

But there was to be no more of that studious leisure now. There was work to be done, work for Atlantis which did not brook delay. And so when we had progressed far out into the waste, and there was none near to view (save only the most high gods), we found the place where the passage was; whose entrance is known only to the seven among the priests; and there we parted, Zaemon to his hermitage in hte dangerous lands, and I by this secret way back into the capital.

CHAPTER IX.

PHORENICE, GODDESS.

A motley crowd filled the street which ran past the front of the obscure temple, through which I gained entrance to the city, and all were hurrying one way. With what I had been told, it did not take much art to guess that the great stone circle of our Lord the Sun was their mark, and it grieved me to think of how many venerable centuries that great fane had upreared before the weather and the earth tremors, without such profanation as it would witness to-day. And also the thought occurred to me: "Was our Great Lord above drawing this woman on to her destruction? Would He take some vast and final act of vengeance when she consummated her final sacrifice?"

But the crowd pressed on, thrilled and excited, and thinking little (as is a crowd's wont) on the deeper matters which lay beneath the bare spectacle. From one quarter of the city walls the din of an attack from the besiegers made itself clearly heard from over the houses, and the temples and the palaces intervening, but no one heeded it. They had grown callous, these townsfolk, to the battering of rams, and the night of missiles, and the other emotions of a bombardment. Their nerves, their hunger, their desperation were stung to such a pitch that little short of an actual storm could stir them into new excitement over the siege.

All were weaponed. The naked carried arms in the hope of meeting some one whom they could overcome and rob; those that had a possession walked ready to do a battle for its ownership. There was no security, no trust; the lesson of civilization had dropped away from these common people as mud is washed from the feet by rain, and in their new habits and their thoughts they had gone back to the grade from which savages like those of Europe have never yet emerged. It was a grim commentary on the success of Phorenice's rule.

The crowd merged me into their ranks without question, and with them I pressed forward down the winding streets, once so clean and trim, now so foul and mud-strewn. Men and women had died of hunger in these streets these latter years, and rotted where they lay, and we trod their bones under foot as we walked. Yet rising out of this squalor and this misery were great pyramids and palaces, the like of which for splendor and magnificence had never been seen before. It was a jarring admixture.

CUPID IN KENTUCKY.

Assumed the Form of a Rooster and Won a Handsome Bride for Charles Gray.

Nellie Thornbury, of Hodgensville, Ky., had two suitors—Thomas Long and Charles Gray. She couldn't make up her mind which one she wanted.

Both the young men were visiting her the other day, and each asked for her final answer.

A pair of bantam roosters began preparations for a battle at this critical moment, and Miss Thornbury, according to the Chicago American, suggested that each of the young men choose a fowl, and declared that she

would marry the backer of the winning chicken.

The young men consented and the battle began. Finally the spur of Gray's rooster pierced the head of the other bantam.

"She is yours," remarked Long, sadly.

Miss Thornbury felt sorry for the defeated lover and invited him to accompany her and Gray to the county clerk's office near by, where a license to marry was asked for.

The happy couple came to Hodgensville, accompanied by Long. They applied to the county clerk for a marriage certificate. "How old are you?" asked the clerk.

"Just 18, and as sweet a lass as ever run a spindle wheel or settled a matrimonial muddle," said Long, the defeated lover.

The clerk refused to grant the license, because she was too young.

Not to be outwitted, the youthful pair went to the railroad station and took a train for Indiana. "Come along with us, Thomas, and the first bridal kiss shall be yours," said Nellie to the disconsolate lover, who joined the couple on their journey to Jeffersonville, Ind.

HELD UP AND KISSED.

Six Hoosier Girls Rob a Wonderfully Bashful Man of a Boasted Distinction.

According to an Evansville (Ind.) correspondent, Robert F. Foss, living at Taswell, a small town in Crawford county, has caused the arrest of six young society women of that place on a peculiar charge. Foss declares that he was publicly kissed. He is a young music teacher and only recently made his home at Taswell.

It is alleged he claimed that no girl had ever touched his lips. The girls of the town grew tired of the man's talk and concocted a plot to silence

OVERWHELMED WITH KISSES.

him. Late Sunday afternoon half a dozen of the fair ones met Foss on the public square, pounced upon him and overwhelmed him with kisses. The music teacher protested and threatened to have them arrested, but his threats were laughed at and the girls did not stop their amusement until they had kissed Foss plentifully. He says he will get his revenge through the law, but the general sentiment is that he will get little in the way of redress and much in the way of ridicule if he courts further publicity.

Blind Man's Long Journey.

An astounding railway journey from Constantinople to Berlin has just been performed by a blind man. This adventurous person secreted himself in the bogey of a carriage between the axle and spring, and rode the whole journey of 53 hours in that position. He arrived in Berlin half-dead with hunger and thirst and trembling like a leaf, and as black as a negro with dirt and coal dust. He describes the journey as one long agony.

G. A. Geffney, of Kingston, N. Y., is visiting A. E. Matthews, of West Fourth street.

Mr. and Mrs. Bernard Brady, of Central avenue, have returned from their summer outing and are stopping at the Park Avenue Hotel.

Dr. and Mrs. Frank W. French, who were married at Oil City, Pa., a fortnight ago, have returned from their honeymoon and are residing at the home of Dr. French, on Craig place.

Harvey G. Wrentrick, of East Second street, has gone for an extended trip through New England and a visit with relatives in Albany and Poughkeepsie, N. Y. He will also stop for a time at Worcester, Mass., where he formerly resided but has not been in many years. He expects to be gone for some time.

Will Enter Her Plea.

Mrs. M. E. Fiero, of Fairview avenue, was taken to New York this morning by Detective Sergeant Somers for the purpose of having her plead before the Court of General Sessions and furnish bail. She was indicted recently for larceny and the bail she furnished has been deemed insufficient.

Attended The Picnic.

A delegation of members from Mizpah Lodge, No. 1, U. O. of I. O. L., went to Newark today to attend a picnic to be given at Roseville Park by the Odd Ladies of Newark. This evening they will attend a large meeting of the lodge to be held in the above city.

Big Loans Made.

At a meeting of the Home Building and Loan Association held last evening, $4,300 in loans was passed upon. The amount was divided between three borrowers who intend erecting homes.

Resolutions of Condolence.

At the Fourth ward Republican primary last evening the following resolutions were passed:

WHEREAS, A terrible calamity has overtaken the American nation, through the loss of its chief executive, Mr. McKinley, who, in the zenith of his career, was laid low by the cowardly attack of an assassin, who under the guise of friendship, with a smile on his face and with murder in his heart, came to exercise one of the highest privileges accorded to mankind, that of shaking hands with his ruler; and

WHEREAS, In the loss of our martyred President the nation, in fact the whole world, has sustained the loss of one who stood for the embodiment of all that was good and distinctly American; attaching those who came to see him, whether friend or foe, by his consideration and thoughtfulness for the welfare of others; exhibiting throughout his entire career a sincere and zealous disposition for the advancement of his country and its people; proving himself not only a devoted husband, in the midst of the arduous duties and responsibilities thrust upon him by the confidence and suffrages of the nation, but setting an example worthy of imitation, which should serve as a beacon light to guide us in the path of disinterested duty and self-sacrifice; and

WHEREAS, This bereavement is the result of the latitude exercised by individuals and a certain portion of the public press, who are permitted to taste the benign influences of liberty accorded to every American citizen, have arrogated to themselves the privilege of preaching the principles of anarchy and destruction, having construed the freedom accorded by our liberal laws into an unrestricted license to inflict their pernicious teachings and doctrines upon a nation that has carelessly permitted it; then let it be

Resolved, That we, the Republican voters of the Fourth ward, in convention assembled hereby condemn the wanton attack on our martyred President, the late Mr. McKinley, as a blow not only on a pure and noble individual, but one struck at the very root of government for the people and by the people; let it be further

Resolved, That we use all our efforts for the enactment of such laws by the legislative power of the United States, and the individual States, that will prohibit the formation of societies that are banded together to destroy instead of building up; whose teachings generate hate instead of love; who do not believe in society, religion, or government; in fact summarized believe in nothing except the free volition of their brutal natures. For such legislative enactments as will curtail the power of the press to cast ridicule and reflection upon the character of those occupying positions of public trust; that will prohibit the publication of articles continuously arraigning class against masses and mass against classes; generating a spirit of dissatisfaction and discontent, which ultimately leads to the perpetration of deeds of violence; let it be further

Resolved, That we extend to the widow of our late President and his family our sincere sympathy in this their hour of bereavement upon the loss of one who had continuously exemplified his domestic devotion and love; their loss is our loss; as they mourn, so do we mourn; and in their hour of trial and tribulation we can but repeat his own words, "God's will, not ours," and brag surcease to our aching hearts, in the belief that having fulfilled his mission on earth, he has been called to his Maker to receive his reward in heaven; let it be further

Resolved, That a copy of these resolutions be sent to Mrs. McKinley and published in the daily papers of this city.

Arranging For Parade.

The committee representing Warren Engine Company in the arrangements for the fire department parade will meet this evening and discuss some matters of importance.

Master Mechanics to Meet.

A meeting of the Master Mechanics will be held this evening in the Board of Trade rooms. Business of importance will occupy the attention of the members.

LOCOMOTIVES MET HEAD-ON.

MANY WERE INJURED, BUT NO ONE WAS KILLED IN ACCIDENT.

Reading Express and Central Local Met in Cut Near Raritan—Running at Full Speed.

(Special to The Daily Press.)

Somerville, September 24—A head-on collision, between a Philadelphia and Reading express train and the Easton local, occurred at 10:20 this morning on the New Jersey Central, in Vanderveer's cut, west of Raritan. No one was killed but a large number were injured.

Three of those most seriously hurt have been taken to the Somerset hospital. Among them is the fireman of the Central train who is in a precarious condition.

The Philadelphia and Reading express was running at full speed through the cut, which is single-tracked at present, owing to repairs being made. It was using the Central tracks between Bethlehem and Bound Brook, owing to a wreck on the Philadelphia and Reading road. Both trains were allowed to enter the cut at the same time through some mistake on the part of the operators.

Both engines were completely demolished and two cars on the express were telescoped. The fact that they were combination cars accounts for no immediate fatalities.

The Central train is known as No. 7, and left Plainfield at 9:54.

SETTLED SUIT.

Geo. Egel, Sr., and Trolley Company Company Come to Terms Regarding Damages.

An amicable settlement has been effected in the matter of the suit brought by George Egel, Sr., of Somerset street, against the Elizabeth, Plainfield and Central Jersey Street Railway Company. The cause of action was based on injuries received through the alleged negligence of the defendant company July 4.

At that time Mr. Egel was thrown from his wagon by a collision with a trolley car near his home on Somerset street. He was seriously injured and for a time it was thought that the accident might terminate fatally. The terms of the settlement have not been made public. Mr. Egel's counsel, Isaac P. Runyon, alleged in the suit that his client had sustained damages to the amount of $10,000.

SCHLEY'S COUNSEL DEAD.

(Special to The Daily Press.)

Washington, D. C., September 24.—Former Judge Wilson, chief counsel for Rear Admiral Schley, died this morning, and the Court of Inquiry adjourned on hearing the announcement.

Health Good.

According to the statement of Borough Health Inspector William Pangborn, the condition of the public health in North Plainfield is excellent. At the present time there is but one case of a contagious nature. The fourteen-year-old son of Samuel H. Springer, of Grove street, is suffering with a slight attack of scarlet fever. In justice to the borough it should be said that the case in question was contracted elsewhere.

Union Troubles.

At a meeting of the Painter's Union which is to be held this evening, a matter which has been in dispute between the Trades' Council and the boss painters will be brought up for consideration. The trouble concerns the question of union and non-union men employed on jobbing work. It has been said that the Trades Council has acted arbitrarily in the matter without the sanction of the painters.

Another Shepherd.

Fred Shepherd, of West Fourth street, an employe of the Rockfellow Grocery Company, wishes it made plain that he is not the young man who appeared in the city police court yesterday morning, on a charge of theft. The Shepherd in question is a resident of the borough and is in no way connected with the Plainfield man.

First Rehearsal.

The members of the Y. M. A. of Hope chapel, who are preparing for a minstrel performance, held their first rehearsal last evening. President William N. Runyon was in charge and was greatly pleased with the showing. At the next rehearsal which will be held some time this week, positions will be assigned.

Miss Cramer's New Position.

Miss Cramer, who has been assistant superintendent at the hospital, resigned her position yesterday to accept the position of office nurse for Dr. G. W. Endicott, of Park avenue. Miss Cramer's position at the hospital has been filled by the appointment of Miss Wildey, of New York, who enters upon her duties tomorrow.

McCarthy Off Duty.

All the members of the local police force have now had their vacations with the exception of Patrolman McCarthy. The latter commenced his Sunday and will spend the next ten days with relatives in Raritan and other places.

CONTEST NARROWS DOWN TO FOUR SCHOOL BOYS

City High School Tennis Tournament Continued Yesterday Afternoon.

SOME GOOD TENNIS PLAYED.

SEMI-FINALS AND FINALS WILL BE PLAYED THIS AFTERNOON.

Kenneth Bulkley, Chester H. Briggs, Fred T. VanAuken And Clarence C. Beap Are Still In The Race—Yesterday's Exciting Matches

Kenneth Bulkley, Fred T. Van Auken, Clarence C. Beap and Chester H. Briggs have survived the first and second rounds of the tennis tournament for the championship of the Plainfield High School and meet this afternoon in the semi-finals. It is expected that the tournament in singles will be completed today.

The tournament was continued on the courts of the Cedar Brook Tennis Club, on LaGrande avenue, yesterday afternoon. The two remaining matches in the first round and all four of the matches of the second round were played. During the progress of the afternoon, some fine tennis was played.

The two hottest matches of the week appeared in the second round. Lindley Best, of the faculty, met Fred T. VanAuken, president of the athletic association and one of the strongest players of the Cedar Brook Tennis Club. Mr. Best was decidedly out of practice and the lack of accuracy lost him the match VanAuken took the first set, 6-4, after a hard fight. His opponent's deadly serve won him the next set, 7-5. VanAuken played a brilliant game and won out the deciding set, 6-2. With more practice, Mr. Best would undoubtedly prove one of the strongest players in the association.

A great surprise was in store when Kenneth Bulkley, last year's champion of the Hillside Tennis and Golf Club, began his match with Vincent B. Miner, one of the smallest lads in the tournament. It was in the second round. Miner played exceptionally well, placing the ball with skill and surprising all by his strong game. He finally won the set 10-8. Bulkley made a brace in the second set and finally won out by a score of 6-4. The strain began to tell on the younger player but he fought gamely to the end and was not beaten until the last stroke was played. The third set went to Bulkley 6 4.

The two remaining matches in the first round furnished but little excitement. Monroe B. Long, Jr., a very small lad, quite as onished the crowd by defeating Jose Tweedy two love sets. Clarence Beap had no difficulty in disposing of Arthur Conant in similar fashion.

In the second round Chester H. Briggs played all around J. H. Kyte, of Fanwood, defeating him 6 0, 6-1. Clarence C. Beap met young Long, beating him 6-0, 6 2. Long made a plucky fight, but he was outclassed by the older player.

This afternoon will see the semi-finals and finals. In the former, Bulkley and Briggs are paired together as are Beap and VanAuken. While there is no telling what the afternoon may bring forth, it is expected that Briggs and Beap will meet in the finals. The question of supremacy will then be fought with much vigor as the two are understood to be very evenly matched. It may be, however, that either Bulkley or VanAuken will surprise the crowd and turn up in the finals.

The summaries of yesterday's play was as follows:

First round, concluded: Monroe B. Long, Jr., defeated Jose Tweedy 6 0, 6 0; Clarence C. Beap defeated Arthur Conant 6-0, 6 0.

Second round: Kenneth Bulkley defeated Vincent B. Miner 8-10, 6 4, 6-4; Chester H. Briggs defeated J. H. Kyte 6-0, 6-1; Fred T. VanAuken defeated Lindley Best 6 4, 5-7, 6 2; Clarence C. Beap defeated Monroe B. Long, Jr., 6-0, 6-2.

Will Go For Advertising.

At the last meeting of the Borough Council, the sum of $100 was appropriated to the fire department for purposes in connection with the parade to be held under its auspices, October 17. It is intended to use a considerable part of this amount in properly advertising the affair.

In Justice Huff's Court.

The landlord and tenant case of Sachar against Ross and the contract case of George H. Cook against James Carter will be tried in Justice Huff's Court Monday, September 30.

DEMOCRATIC PRIMARIES SOON

WILL BE HELD IN UNION COUNTY FRIDAY EVENING.

Delegates Then Elected Will Meet in Caucus Saturday Night—Convention October 1.

The Union County Democratic Committee has designated Friday evening as the time for the county primaries to be held for the purpose of selecting delegates to the Democratic State convention, which meets in Trenton, October 1. The hours appointed for keeping the polls open are from 7 until 9 o'clock.

According to the committee's apportionment, Union county is entitled to 57 delegates, and of this number Plainfield is assured nine. The First, Second and Third wards are each entitled to two delegates, while the Fourth ward is given three. By a resolution adopted by the Union county Democratic committee, delegates elected, in accordance with this call, have been instructed to meet at the Democratic Club's headquarters, in Elizabeth, Saturday evening. The purpose of the meeting is to hold a caucus, and hence be able to go to the State convention with a definite understanding.

Taylor's opera house, in Trenton, has been selected as the place to hold the convention, which promises to be one of unusual interest. Seymour appears to be the favorite in the northern counties, despite the opposition being aroused by the friends of Former Senator Smith. It is claimed, however, that the organization in opposition to the Seymour boom has organized in south Jersey and that there will be some exciting times at the convention.

GETTING WORK ELSEWHERE.

Men Formerly Employed at Aluminum Press Works are Leaving Town.

A large number of the machinists who were thrown out of work by the shut-down at the Aluminum Press Works, have decided not to wait for the re-opening of the shop, but have taken positions elsewhere. Several have secured good places in Waldron's machine shop at New Brunswick, a few are at the American Engine Works at Bound Brook, while nearly a dozen were given employment at the Singer factory at Elizabeth. The remainder are going to other nearby towns as soon as places can be made for them.

WANT TO GIVE PRIZES.

Borough Firemen Will Try to Raise Funds to Purchase Prizes.

An effort is being made by some of the North Plainfield firemen to interest boroughites in a movement to raise funds to purchase prizes for the fire department parade to be held next month. It is the desire of the firemen to offer suitable prizes to be contested for by the visiting companies. Those considered are prizes to the company having the most men in line, best drilled, finest appearing, and the like.

No Site For Reviewing Stand.

No site has been selected for the reviewing stand for the North Plainfield fire department parade next month. The Mayor and Council of the borough have accepted an invitation to be the guests of the firemen on that day and it is desired to select a suitable spot from which they can inspect the paraders as they pass in review.

Installing a Culvert.

By order of the street committee of the Common Council, a culvert is being placed across East Third street, on the east side of Richmond street. Stone covers are being placed in position to serve until a number of iron tops, which have been ordered, arrive. The stones will then be removed and used elsewhere.

Regarding Immigration.

At the meeting of Benevolent Council, Jr. O U. A. M., Friday evening some important business regarding immigration and the prosposed action to be taken by the order throughout the United States will be discussed. A full attendance of members is desired.

Mission Work in Africa.

Rev. J. W. Anderson, a Baptist missionary, from South America, occupied the pulpit of the Mt. Olive Baptist church Sunday morning and evening. He spoke on the work being accomplished in that field and dwelt on the importance of missions.

Working on Somerset Street.

Somerset street, from Jackson avenue to Johnson's drive, is being overhauled by Borough Street Commissioner William B. Emmons. When finished the thoroughfare will be decidedly improved.

To Inspect Water Plant.

Councilman James P. Northrop has invited the municipal ownership committee of the Borough Council to visit a suburban Jersey town and inspect a water plant which is under municipal control.

STOREHOUSE.

Is to Be Built Near Sacker's House on Watchung Avenue.

Near the present dwelling 403 Watchung avenue, occupied by W. B. Sacker, a storeroom will shortly be constructed. A building permit for the purpose has been granted by the building inspector. The addition will be thirty-two feet in length and twenty-four feet in depth and will be one story high. A stable will also be erected in the rear of the premises. J. Snyder will do the mason work, while John Dahl has the contract for the carpentry work.

LAST SIGNATURE TOMORROW.

THE SOUTH PLAINFIELD TROLLEY EXTENSION THEN ASSURED.

Will Make Application For Franchise at October Meeting of the Common Council.

According to a statement made by Lawyer H. C Runyon, a fully-equipped trolley line will be in operation between this city and South Plainfield before the coming winter is over. The necessary consent of property owners along Plainfield avenue will be secured in a few days, and application for a franchise will be made to the Common Council at the October meeting. As soon as it is granted, and the necessary formalities gone through with, building operations will be commenced.

The difficulty in getting the line through has been the impossibility of securing the consent of the trustees of the Methodist and Baptist cemeteries for the right of way past the burial grounds, which face on Plainfield avenue.

The Methodist trustees gave their signatures last week, and the Baptist board has instructed Secretary O. B. Leonard to sign the necessary documents at once. Mr. Leonard resides at Perth Amboy, but will be in this city Thursday, when he will attend to the matter. The last signature will give the railway company five hundreds feet more than the amount of frontage necessary before an application can be made.

It will require sixty days for the preliminary advertising of the ordinance, which will prevent actual building operations being commenced before the first of December. The latter end of the work can be completed in a month and it is declared that cars will be running by the first of the year.

TO ORGANIZE.

Women's Relief Corps of The Union Veterans' Union to be Formed Thursday.

The organization meeting of the Plainfield Women's Relief Corps of the Union Veterans' Union will be held at the home of Mrs. Charles B. Stevens, of Duer street, Thursday evening. The proper application for a charter has been made to the State association, and it is expected that it will be granted during the present week.

Mrs. Hancock, of Jersey City, the State organizer, will attend the meeting Thursday evening and represent the general organization in organization matters. No place has yet been selected as a regular place of meeting, but it is expected that the local organization will use the G. A. R. headquarters for its sessions.

NO COMBINATION.

Proposed Consolidation of Local School Elevens Does Not Find Favor at City High School.

The first practice of the City High School football candidates will be held tomorrow afternoon on Martine's Common. A schedule of games is now being arranged, and the first match will be played with the Flemington High School eleven, October 5.

There has been some talk of combining with the Leal's School in an effort to turn out a good aggregation, but the feeling of the majority of the High School pupils is against the proposition and it will fall through. No place has as yet been selected as a regular gridiron for the eleven.

Change in Delegates.

It is understood that there will be one change made in the delegates from North Plainfield borough to the Republican State convention. Dr J. H. Cooley and Mayor N. B. Smalley are the men selected, but it is probable that a certain other boroughite will be substituted for the Mayor.

Installation Services

Rev. E. E. Jackson, pastor of the Mt. Olive Baptist church, will preach the sermon at the installation service to be held in the Mt Gilead church, New York city, Wednesday evening, October 3.

To Resume Fall Meetings.

The Loyal Temperance Legion will resume its fall meetings the first of October.

CARMON P. SUTPHEN DEAD.

DIED IN SULLIVAN COUNTY, WHERE HE HAD GONE FOR HIS HEALTH.

Was a Native of This City and Attended Public Schools Here—Died at Divans Corner, N. Y.

Word was received in this city yesterday of the death of Carmon Parse Sutphen, youngest son of the late Dr. J. C. Sutphen, which occurred Monday at Divans Corner, near Liberty, Sullivan county, N. Y. He had been ill for the past year with lung trouble, and he had visited various places in hopes of gaining relief. Death was due to pleuro-pneumonia.

Mr. Sutphen was a Plainfield boy, having been born at the Sutphen home on West Second street in 1879. He attended the local public schools until a few years ago when the entered the office of the Title Guarantee and Trust Company, of New York. At the time illness compelled him to retire he had attained a position of importance and trust and was well liked by his employers.

In Plainfield his acquaintances numbered nearly all the young people of the city, with whom he was always popular. He leaves a widow, who was formerly Miss Stella Pearson, of the borough. He is also survived by a mother, six brothers and three sisters, all of whom reside in this city.

The funeral services will be held from the residence of his mother, Mrs. F. A. Sutphen, of LaGrande avenue, tomorrow afternoon at 2:30.

MISS BLOODGOOD IS IN TOWN.

TREATS STORY OF HER DISAPPEARANCE AS A HUGE JOKE.

Will Be the Guest of Her Grandparents For a Few Days—She Reached Here Last Night.

Miss Helen A. Bloodgood, daughter of Wm. Bloodgood, the New York millionaire, who disappeared Thursday and was subsequently found at Basking Ridge, arrived in this city last evening. She is now stopping at the home of her grandparents, Mr. and Mrs. George W. VanBoskerck, of West Seventh street, where she will be a guest for the next ten days.

A reporter for the Daily Press who called at the VanBoskerck home, last evening, was informed that Miss Bloodgood was in excellent spirits and treated the hue and cry raised by the general alarm sent out by the Metropolitan police as a huge joke. She emphatically denied the rumor which declared she was engaged.

Miss Bloodgood has accounted for her doings from the time she left home until she was found Monday, with the exception of Thursday night. Much curiosity has been aroused as to where she spent the hours between the time she disappeared from a carriage near Chatham and her appearance at the Washington hotel, Basking Ridge, Friday morning. The young woman vouchsafed no definite information, and her relatives have let the matter drop.

COUNTY COURT OPENED.

Former Mayor Saunders is Foreman of the Grand Jury.

(Special to The Daily Press.)

Somerville, September 25—The fall term of county court began here yesterday with a large attendance of lawyers. There are but three Supreme and Circuit cases ready for trial.

Former Mayor Wm. L. Saunders, of North Plainfield, is foreman of the Grand Jury. There are no special cases for its consideration.

Somerville's Health Good.

(Special to The Daily Press.)

Somerville, September 25. — The Board of Health held its annual meeting last night and reorganized as follows: President, Dr. A. L. Stillwell; secretary, W. R. Sutphen; inspector, George D Totten. The sanitary condition of the town was reported excellent.

Songs and Recitations.

Freedom Castle, K. G. E., at its regular weekly meeting, last evening, received five propositions for membership in the order. After the short business session, a smoker was held and a number of the members took part in an informal programme of songs and recitations.

New Fire Company.

For the purpose of organizing a fire company, a number of young men in the borough will meet at the Warren Engine house this evening. A temporary organization will be effected at this meeting.

Progressive Euchre.

A progressive euchre will be held at the Hotel Netherwood this evening. As it will be one of the of the final events of the season a large number are expected to participate in the affair.

—Press want ads pay.

SELECTED QUARTERS.

The Store 108 Somerset Street Will Be Used as Temporary School.

Dr. J. H. Cooley, R. M. Fountain and Edward Overton, the committee on grounds and buildings of the North Plainfield Board of Education, have selected the building, 108 Somerset street, as additional school quarters. Until recently the structure was used as a butcher shop, and hence many changes will be made. Work will commence at once and the building will be brought into service Monday, when Miss Ruth Hill, the new teacher, arrives.

STARTED TO SEE THE WORLD.

WALTER ULMER TOOK ALONG SOME BILLS AND A CHECK.

Given to Him to Deposit at Bank But He Forgot—Returned Home to Be Arrested

With a fine roll of greenbacks and a check for $10, Walter Ulmer, a fourteen-year-old boy living on East Third street, started out yesterday to see the world. A freight train on the New Jersey Central afforded him an opportunity to leave Plainfield, and he started for Phillipsburg.

A few hours riding compelled him to change his mind and he returned to this city only to fall into the hands of Sergeant Frederickson. The latter had been instructed to watch out for Ulmer by W. L. Smalley, the North Plainfield butcher, who had sent the boy to the bank with $30 in bills and the check. Ulmer forgot to deposit the money before he started on his trip and the merchant felt worried.

Chief Kiely telegraphed to the Phillipsburg police to watch out for the boy and sent the Sergeant to the Ulmer home. He was talking with the father when Walter put in an appearance. He was at once taken to police headquarters and on being searched, the money with the exception of $3, was found intact.

The boy will be turned over to the North Plainfield authorities today. He has already figured in several similar escapades but always escaped punishment.

BY THE CHILDREN.

Entertainment Given at Salvation Army Headquarters Last Evening—Those Who Took Part.

Under the auspices of the Salvation Army, a children's entertainment was held at the headquarters on East Front street, last evening. Ensign McLeod had the affair in charge and Miss Jessie Billett had trained the young ones for their parts.

The numbers on the programme included recitations and vocal selections. The numbers on the programme included recitations and vocal selections. Those who participated were the Misses Ella Walsh, Jessie Reynolds, Annie James, Blanche Sharkey, Elva Lippencott, Pearl, Ruby and Myrtle McLeod, Josie Sharkey, Grace Philmore, Myra Lippencott, Emily Walsh, Bessie VanNest and Viola Higgins and Aaron Higgins.

When the entertainment was concluded, refreshments were served and the remainder of the evening devoted to a social time. There was a large attendance and the hall had been especially decorated for the affair.

FELL FROM BRIDGE.

But Limb of a Tree Turned Him Right Side Up and Saved His Life.

Accidently coming in contact with a tree during a fall was the means of probably saving the life of Michael Seader, of Pearl street. While engaged at work on the New Jersey Central's bridge at Newark, Saturday, Mr. Seader made a misstep and fell headlong. His fall was broken by the limb of a tree, which hurled him about and caused him to land on his feet. His left ankle was broken in the same place where it was injured in a similar manner some time ago.

Wax Works to Be Given.

The Opportunity Circle of the King's Daughters of Mt. Olive Baptist church will present "Madame Jarley's Wax Works," a comic play, Thursday evening. The entertainment will be given in the church edifice.

Judgment For Plaintiff.

The contract case of McDonough Brothers against Powers was tried yesterday afternoon before Justice Huff. Judgment was given the plaintiff and execution issued.

Class Vice President.

At a meeting of the class of 1903 of the city High School yesterday, Miss Dorothy Waldo was elected vice-president to fill a vacancy.

Millinery Opening.

Bonn's millinery opening will be held Tuesday, October 1, when a fine assortment of seasonable hats will be displayed.

PLOUGHSHARE POET WEDDED.

W. H. ROGERS MARRIED BROOKLYN YOUNG WOMAN LAST NIGHT.

Bride is Miss Sadie M. Hueston—They Will Reside at Highland Farm, Washingtonville.

(Special to The Daily Press.)

Brooklyn, September 25.—Wedding bells pealed long and joyfully at the home of Mr. and Mrs. William F. Hueston, 118 Macon street, last evening. In gladsome accents they announced the marriage of Miss Sadie Montgomery Hueston to W. Henry Rogers, one of the best known residents of Washingtonville, N. J. It was an unostentatious event and was witnessed only by the immediate relatives of both families.

The parlor, where the nuptials were performed, looked resplendent with generous decorations of potted plants and flowers. It was just 8 o'clock when the bridal party formed before Rev. Dr. Bitting, of the Mount Morris Baptist church, of New York, who pronounced the words which made the happy couple man and wife. Miss Hueston was attended by Miss Julia Moran, of Westerly, R. I. The groom's attendant was his cousin, Richard A. Rogers, of New York.

Following the ceremony the assembled guests partook of a collation during which congratulations were in order. At the close, Mr. and Mrs. Rogers took their departure for a wedding trip of a week's duration, Washington, D.C., being the objective point. At its close they will reside at Washingtonville.

Mrs. Rogers is very well known in the section of the city where she resided with her parents. She is a niece of John Johnson, of Plainfield, and Mrs. John M. Marsh, of Scotch Plains.

The groom needs no introduction, being widely known throughout New Jersey as the proprietor of Highland farm, at Washingtonville, one of the largest individual tracts in Warren township. He has always lived in that vicinity and has a host of acquaintances who will learn of his becoming a benedict with much pleasure. He is well known as the "Ploughshare Poet."

Among the guests present were Thos. P Rogers, Robert G. Rogers and Richard J. Rogers, of Plainfield; Mr. and Mrs. John Johnson and Miss Sadie Johnson, of Netherwood, and the Misses Josephine Marsh, E. M. Marsh and M. E Marsh, of Scotch Plains.

NEW LIBRARY.

Sunday-School of Trinity Reformed Church Appropriated The Necessary Funds.

At a special meeting of the teachers of Trinity Reformed church Sunday-school, held last evening, there was a very good attendance. A number of important matters were considered, Acting Superintendent Fred E. Smith was in the chair.

A report of the treasurer showed the finances to be in an exceptionally prosperous condition, the amount being $156. It was voted to appropriate $75 of this for a library for the main school and $25 for a similar purpose in the primary department. T R. VanZant was appointed a committee of one to represent the Sunday-school to meet with committees from the Endeavor Society and the church to discuss the question of purchasing Bibles and hymn books.

The sympathy of the teachers was extended to Superintendent E. E. Anthony, who has been ill for some time, in a greeting which it was decided to forward him.

WHAT CAUSED COLLISION AT VAN DEVEER'S CUT

Couldn't Stop Heavy Pullman Train In Time To Mind The Signal.

FOUR WERE BADLY INJURED.

FURTHER DETAILS OF WRECK NEAR RARITAN YESTERDAY MORNING.

P. & R. Train Was Too Heavy To Stop Before Switch Was Reached—Central Train Came Along Before It Could Be Backed Out Of Way.

(Special to The Daily Press.)

Somerville, September 25—No one is really to blame for the head-on collision of passenger trains at VanDerveer's cut, west of Raritan, yesterday morning. For over three months at this point all trains have been run over one track, while the grade of the road was being lowered, and telegraph operators are at each end.

Central train, No 7, was ten minutes late when it left this place and was given the right-of-way by Operator Hall of the cut. Philadelphia and Reading train, No. 1012, had the signal thrown against it at the west end of the cut, but the engineer was unable to stop his heavy train of Pullman cars until the signal was passed and the switch reached. The train had been brought to a standstill and was beginning to back up when No. 7 dashed around the curve at a rate of forty miles an hour, and the two engines crashed together.

It is, indeed, remarkable that no lives were lost and so few people injured. The Central engine was a complete wreck and the tender had telescoped its own baggage car. The baggage-master would probably be dead today had he not been standing in the door at the rear end of his car.

The engineer, George Neuber, formerly of this place, was badly cut and bruised by the flying glass and splinters, but his fireman, Frank Minion, of Jersey City, suffered more. He was thrown into the air and was buried under the coal. When found he was unconscious. His nose was broken, his face scalded and there was a large wound in his side. He was brought to the office of Dr. Swinton here, where his wounds were dressed, and last night he was able to go to his home.

The Philadelphia and Reading engine was much heavier than the Central one and was not derailed. The front of it, however, was smashed in, but the fireman and the engineer escaped with their lives.

Two Philadelphia and Reading passengers were seriously injured. H. H. Jollette, of Philadelphia, was thrown over the back of a seat. When picked up he was unconscious. He was taken to Somerset Hospital and did not rally until last night.

Rev. S. W. Dickinson, of the American Tract Society, who was going to Raritan to speak at the meeting of the County Bible Society, was thrown over the seats. He was brought to the Commercial Hotel, where he is reported to be improving.

Leo Schwed, son of Charles Schwed, of this place, who was on the Central train bound for Reading, Pa., sprained his ankle among the seats.

RUBBER TIRES FOR ENGINE.

Fire Committee of Common Council Will Consider The Question at a Meeting Tonight.

There will be a regular meeting of the fire committee from the Common Council, this evening, when routine matters will be discussed.

The committee is still considering the advisability of spending $300 to place rubber tires on the chemical engine. It is believed to be the best thing to do as it would save much in wear and tear on the engine. Wherever the rubber tires have been placed on fire apparatus they have worked satisfactorily and the change has been considered a wise one. If the committee feels justified in recommending these tires for the chemical, the change will be made.

INTER-STATE FAIR AT TRENTON.

Septen ber 30, October 1, 2, 3, and 4.

The great Inter-State Fair will be held on September 30, October 1, 2, 3 and 4, on the Fair Grounds, three miles east of Trenton, N. J., on the New York Division of the Pennsylvania Railroad. As in previous years, every department will be replete with superior and instructive displays. The blooded stock exhibit will be particularly fine, and the daily programme of races contains the speediest classes obtainable. Automobile races will be novel and exciting.

The Pennsylvania Railroad Company will sell excursion tickets to the Fair Grounds, including coupon of admission, at greatly reduced rates from stations within a wide radius, and special trains over the New York, Belvidere and Amboy Divisions will be run through to the grounds, thus avoiding street car transfer. The management of the Fair has put forth extraordinary efforts to make this year's exhibition even greater than last year's record-breaking display.

Where The Great Battle Was Fought.

The younger generation has but a slight conception of the magnitude of the Great Battle of Gettysburg. The territory traversed on those three memorable days covers more than 35 square miles and the number of dead was well into the tens of thousands. The battlefield is now under the control of the national government and at great expense it has been laid out as a national park, though the old conditions as far as possible have been retained. Several hundred valuable and elaborate monuments mark the positions of the several regiments during the engagement. The roads have been macadamized and improved and the journey over the battlefield under the direction of that famous Gettysburg Guide, Capt. Minnigh, is realistic to the extreme and one gets a clear and concise idea of that battle which is known in history as the world's greatest strife.

The Central R. R. of New Jersey is to run an excursion to Gettysburg on September 28, from New York and the rate is $23, including all expenses for the 6 days. The return trip is via Washington and as a lay-over of 3 days is allowed at the Capitol, there is ample opportunity for visiting the thousand and one places of note in and about Washington. A stop-over is allowed also in Philadelphia, and taking all in all this is the most inexpensive Fall tour ever arranged.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Astamalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

DRS. TAFT BROS.' MEDICINE CO.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

Very truly yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., February 1, 1901.

DR. TAFT BROS. MEDICINE CO.,
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. February 5, 1901.
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street.

CZOLGOSZ GUILTY.

First Degree Murder Is the Verdict.

BUFFALO JUSTICE SWIFT

Eight Hours and Twenty-six Minutes Taken For Trial.

TO BE SENTENCED TOMORROW.

Alienists Who Had Examined the President's Assassin Pronounced Him Perfectly Sane—This Left No Ground For the Defense. An Impartial Charge by Judge White—Prisoner Seemed Unconcerned.

BUFFALO, Sept. 25.—Leon F. Czolgosz, alias Fred Nieman, was yesterday found guilty of murder in the first degree by a jury in part 3 of the supreme court in having on the 6th day of September shot President William McKinley, the wounds inflicted by such gunshot wounds afterward resulting in the death of the president.

The wheels of justice moved swiftly. The trial of the assassin consumed eight hours and twenty-six minutes and covered a period of only two days. Practically all of this time was occupied by the prosecution in presenting a case so clear, so conclusive, that even had the prisoner entered the plea of insanity it is doubtful if the jury would have returned a verdict different from the one rendered.

The announcement made by the attorneys for Czolgosz that the eminent alienists summoned by the Erie County Bar association and by the district attorney to examine Czolgosz and to determine his exact mental condition had declared him to be perfectly sane destroyed the only stage of a defense that Judges Lewis and Titus could have put together.

Before adjournment Justice White announced that he would pronounce sentence upon the defendant on Thursday afternoon at 2 o'clock. The prisoner was at once taken through the tunnel under Delaware avenue back to the jail. To all appearances he was in no way affected by the result of the trial.

The crowd gathered at city hall was the largest which had seen him since his arraignment. People were lined up on both sides of the big retunda on the second floor when court convened and fringed the stairs leading from the floor above. There was no demonstration except that of curiosity. A large number of women witnessed yesterday's proceedings.

At 2:44 District Attorney Penney abruptly announced that the case of the prosecution was ended. Judge Lewis arose slowly and, addressing the court, said that the sudden close of the case against Czolgosz was a surprise to him and his colleague. They had no witness to call for the defense. He asked the court that he be allowed to address the jury at once. The court consented, and the venerable jurist began an address that will long be remembered by those who heard it.

Judge Lewis was crying when he finished, and the eyes of many of those in the courtroom were filled with tears.

Judge Titus then arose and said that Judge Lewis had so completely covered the ground that it seemed entirely unnecessary for him to reiterate it, and he would therefore rest.

At 3:10 District Attorney Penney began summing up. He spoke in a clear, well modulated voice, and every word could be heard in any part of the room. He said:

"It is hardly possible for any man to stand up and talk about this case without the deepest emotion. It was the most awful tragedy that ever came upon the world.

"We have shown you how this defendant stood in the Temple of Music that afternoon and shot down our beloved president. We have shown you how he deliberated on and planned this awful crime. We have shown you how he attended anarchistic and socialistic meetings at which were sown in his heart the seeds of his terrible act.

"The counsel for the defense says if the defendant was sane he was responsible and that if he was insane he must be presumed to be innocent. He tells you that is a presumption of law.

"It is also a presumption of law that every man is sane until proved insane. Evidence tending to show that the prisoner was insane has not been forthcoming. It has been proved that he was the agent of the crime, and there should be no question in your minds as to the responsibility of the defendant.

"This is no time for oratorical display. Counsel for the prisoner and myself have endeavored to eliminate all sensationalism from this case. It is not my intention to indulge in extended remarks. You understand the responsibility resting upon you. The counsel has said there should be no lynch law in this state. He has told you that the people of Buffalo are to be commended for the spirit displayed by them since the murder of the president, but the law must be vindicated. This terrible thing has happened because there are people in this country who do not respect our laws, and unless they feel the irresistible force of prompt and proper action in this case

something awful will happen to our beloved country.

"When I think, gentlemen, of that grand man who stood but a few days ago in the Temple of Music and how he came from the lowly walks of life, how he was first a schoolteacher, then a lawyer, then a judge, a governor, a congressman and then a president of the United States and, above all, a loving husband and that on the last day when he said, 'It is God's way; goodby, all; goodby,' a man so great that he could raise his hand and save his own assassin, a man who could shake the hand of even the very worst man, it is a great lesson that so great a man can stoop so low, that he was so great, that he could forgive his own assassin. He was the noblest man, I believe, God ever created.

"That national heart was broken, and it will take God's way and time to heal it. It was broken by a class of people who are coming to our country in increasing numbers and, while harbored by our laws, are propagating their malicious views; a class of people that must be taught that we have no place for them on our shores, a class of people that must be taught that they can't take the life of any one irrespective of consequences.

"Think again, gentlemen. Here is a man who does not want a lawyer, who does not believe in God or in law, a man who does not believe in the married relation. Yet our laws are such that he is defended by two of the ablest jurists in our city as if he was the most respected defendant and even though he comes into court and says he was guilty.

"Yet, gentlemen, you are required under the constitution to listen to the formal presentation of the evidence, notwithstanding the fact that this man says he does not want it.

"Gentlemen, I have said all I have to say. I have said more perhaps than I ought to say. You have sworn to give him a fair trial on the evidence. Now, what is the evidence? I say as it has been presented to you it fully substantiates the crime charged."

Justice White began his charge to the jury at 3:29 o'clock. He arose from his seat and stepped to the side of the bench nearest the jury box. He said:

"Gentlemen of the jury, in this case the defendant has acknowledged his guilt. Such an acknowledgment in such circumstances cannot go to the jury or the court. The law requires that the defendant charged with such a crime must be tried. The law says that all the facts must be observed and reviewed by you. The law guarantees that the defendant shall have a fair trial by twelve men impartial and fair, capable of taking the testimony of the trial and giving it thorough consideration. If when all the circumstances of the case are considered by you there still exists in your minds a reasonable doubt that the defendant is guilty, you cannot find this man guilty. The people have submitted evidence tending to show that this defendant committed this crime. They have given evidence tending to show that it was premeditated. If you are satisfied that there were design and premeditation and if in accordance with that premeditation and design these shots were fired, then the defendant is guilty of the crime of murder in the first degree.

"You must consider all this evidence that the people have submitted to you. You must consider it fairly and without prejudice. You are the sole judges of facts in this case. The jurors must find him guilty beyond a reasonable doubt.

"If there is no doubt in your minds, then you are bound to bring in a verdict of conviction. I am very glad that up to the present stage of this lamentable affair, so far as the jurors and the people of this city are concerned, there has been shown that respect for the law that is bound to teach a valuable object lesson. The defendant has been given every advantage of experienced counsel. If the defendant on Sept. 6 did wrongfully assault, shoot or wound William McKinley by means alleged in the indictment, and if the act was committed with premeditated design, and if the act was the sole and approximate cause of death, and if the defendant knew he was doing wrong at the time, the defendant was guilty of murder in the first degree.

"If the act was not premeditated, he was guilty of murder in the second degree. If the shot was fired accidentally and without premeditation, he is guilty of manslaughter in the first degree. It is not necessary for me to discuss the question of manslaughter in the second degree in this case."

Justice White then commended the jurors for their patience during the trial and ordered them to retire and bring in a verdict.

After the jury had retired to consider the evidence the scene in the courtroom became dramatic in the extreme. Decorum was somewhat forgotten, and the spectators stood up, and many walked about the room and engaged in conversation. The guards about the assassin, who still sat in his seat before the bench, were doubled, Chief of Detectives Cusack and two of his men taking positions just back of Czolgosz's chair. Others took seats to the left and right, and many "plain clothes" men were seen mingling among the crowd surging about the room, closely watching every one whose face was not a familiar one to them.

There was no disposition to crowd about the prisoner, although the object of every one seemed to be to get in a position where they could get a full view of his face. He had been seated in his chair all the afternoon, his hands clasped on the arms of the chair and his head bent forward and a little to the left. The room was not warm, but Czolgosz frequently took his handkerchief from his pocket and mopped the perspiration from his forehead and cheeks. At no time during the absence of the jury did he raise his eyes or lift his head or seem to know that he was the object of interest of several hundred men and women. Every time the door was opened all eyes were turned in that direction, the evident thought in every mind being that the jury would take only a few minutes to agree on a verdict.

It was 4:25 when the crier rapped for order and the jury filed into the room. The clerk read their names, each juror responding "present" as his name was called. No time was wasted. The jurors did not sit down. Addressing them, Justice White said:

"Gentlemen, have you agreed upon a verdict?"

"We have," responded Foreman Wendt.

"What is your verdict?"

"That the defendant is guilty of murder in the first degree."

There was a moment of silence, and then a murmur arose from the lips of the crowd. It ended there. There was no handclapping, no cheers. Justice White's voice could be clearly heard in every part of the room when he thanked the jurors for their work and allowed them to go. Court was at once adjourned.

Czolgosz Family In Buffalo.

BUFFALO, Sept. 25.—Paul Czolgosz, father; Waldeck Czolgosz, brother, and Victoria Czolgosz, sister of the president's assassin, have arrived here from Cleveland. They came over the Lake Shore railroad, and in the Union station the father and sister became separated from the brother. The father and sister did not appear at District Attorney Penney's office in the city hall until shortly after 4:30 o'clock. Superintendent Bull and Assistant Superintendent Cusack took charge of them and sent them to police headquarters with Detectives Solomon and Geary.

Anarchist Editor Must Go.

SPRING VALLEY, Ill., Sept. 25.—John Cincebella, editor and proprietor of L'Aurora, the weekly anarchistic paper published here, has been notified by the secretary of a citizens' mass meeting to leave town and remove his printing plant immediately. The notification apparently has not weight with Cincebella, however, and he is preparing to issue his paper as usual. He sends large bundles of L'Aurora through the mails to Paterson, N. J., and to Ishpeming, Mich., besides having a circulation in Spring Valley and adjoining towns.

An Accomplice of Czolgosz.

ST. LOUIS, Sept. 25.—Ed Sastig, who was arrested at one of the dry goods stores here on the charge of petty larceny, is believed to be an accomplice of Czolgosz. When taken before Chief of Detectives Desmond, he made a confession, in which he is said to have given all the details of the plot to assassinate President McKinley. He implicates Emma Goldman.

Emma Goldman Released.

CHICAGO, Sept. 25.—Emma Goldman has been released by Justice Prindiville.

Roosevelts Leave Oyster Bay.

NEW YORK, Sept. 25.—This morning marked the departure of the Roosevelt family from Oyster Bay, not to return until next summer probably, although the president may elect to spend Christmas at his own home for the sake of the children. The house on Sagamore hill will be closed, but a couple of servants will remain in it constantly so that it will be ready for use at any time the president may elect to occupy it. Mrs. Roosevelt left Oyster Bay shortly after 8 o'clock. The Long Island railroad had a special car attached to the regular train. The party consisted of Mrs. Roosevelt, William Loeb, the president's private secretary; Miss Young, the governess; Miss Ethel and Edith. Kermit and Quinten went in charge of a maid on a later train.

The Duke Leaves Canada.

NORTH BAY, Ont., Sept. 25.—The Duke and Duchess of Cornwall have resumed their tour west through Canada, and their next halt of any length will be made at Winnipeg tomorrow, after a continuous run of forty-eight hours from the capital. Their departure from Ottawa was made the occasion of another display of popular enthusiasm. The people filled the avenues between Rideau Hall and Elgin street station, and as the duke and duchess rode past they gave them a parting cheer.

Shot Housekeeper and Self.

NORWICH, N. Y., Sept. 25.—Henry Wood of Norwich shot his former housekeeper, Mrs. Elizabeth Greenleaf, and then committed suicide. The tragedy occurred at Plymouth. Mrs. Greenleaf had been keeping house for Wood about ten years. Three weeks ago she left him and went to live with Louis Carncrose, her brother-in-law, at Plymouth. Wood has brooded much since her departure. The woman is not expected to live.

Internal Revenue Receipts.

WASHINGTON, Sept. 25. — The monthly statement of the collections of internal revenue shows that for the month of August, 1901, the total receipts from all sources were $22,167,191, a decrease as compared with August, 1900, of $3,428,525.

World's Cycling Record Broken.

LONDON, Sept. 25.—At the Crystal Palace yesterday Arthur A. Chase cut the world's cycling record, covering fifty miles in 77m. 44s. At the end of the sixth mile he was 16 2-5 seconds inside the record, and from that point he put all records in the shade.

Corporation Notice.

PROPOSALS FOR SEWERS.

Pursuant to a resolution adopted by the Common Council of the City of Plainfield, New Jersey, at a meeting held Monday, september 16, 1901, notice is hereby given that the Common Council will meet on Monday, October 7, 1901, at 8 o'clock, p. m., at the Council Chamber, No. 109 Park Avenue, in the City of Plainfield, at which time and place said Common Council will receive sealed proposals for doing the work and furnishing the materials in the construction of such portion of the sewers contemplated in the ordinances entitled "An Ordinance to provide for the construction of an addition to the system of sewerage already constructed in the City of Plainfield," approved Nov. 6, 1897; and "An Ordinance to provide for the construction of a further addition to the system of sewerage already constructed in the City of Plainfield," approved September 3, 1901, as provided for in the plans and specifications adopted by the Common Council, September 16, 1901, and filed in the office of the City Clerk, No. 109 Park Avenue, Plainfield, N. J.

Upon receipt of the bids or proposals the Council will immediately proceed to unseal the same and publicly announce the contents in the presence of the parties bidding, or their agents, provided said parties or agents choose to be then and there present and also make proper record of the prices and terms upon the minutes of the Council.

Each proposal must be accompanied by a certified check for $200, payable to the Treasurer of the City of Plainfield.

The Engineer's approximate estimate of the quantities of material required and the work to be done is as follows:

4,040 feet 8 inch sewer,
2,267 " 10 " "
1,740 " 12 " "
9 junction manholes,
3 plain "
125 branches on 8 inch sewer,
120 " " 10 " "
50 " " 12 " "
6 lampholes,
2 flush valve manholes,
850 feet 4 inch house connections,
48 " 12 " cast iron pipe,
48 " 8 " " "

Duplicate plans, forms of proposals, specifications, contract, bond, etc., may be examined at the office of the Engineer, No. 109 Park Avenue, Plainfield, N. J.

The right to reject any or all bids is expressly reserved by the Common Council.

All proposals must be endorsed, "Proposals for Sewers."

COMING EVENTS

September 26—Republican State convention at Trenton.

September 27—Democratic city primaries.

September 27—Lecture by Dr. M. S. Simpson at St. Vincent chapel under auspices of Y. M. B.

September 28—Golf. Play for Mellick and Golf Committee cups at Hillside; play for President's cup at the Park Club.

September 29—Y. M. C. A. rally 4 o'clock. Wm. D. Murray will speak. Choir mixed voices. Special instrumental music.

Republicans Gather.

There will be a gathering of the Republican clans at Trenton tomorrow. Because there is no prospect of any fight the usual gathering of the politicians at the Trenton House the night before the State convention will not be of any particular importance. Ordinarily, however, the ante-convention gatherings are eventful times for the political parties.

Tomorrow, however, it is expected that peace and harmony and Franklin Murphy will reign supreme among the Republican cohorts. It is all over but the shouting now and it will devolve upon the party workers to shout as much as possible to impress their friend, the enemy, how sure they are of victory in the campaign which has just begun.

There are still a few formalities to be gone through with and these will make up the proceedings of tomorrow's convention. Of course, Essex county will have the honor of nominating the man who will head the Republican ticket. State Senator Thos. N. McCarter will make the nominating speech and he may be expected to say something very nice.

There is a little honor in store for Chancery Clerk Edward C. Stokes. He is slated for the place of presiding officer of the convention. When the talk of the Republican choice for the gubernatorial nomination first began, the name of Mr. Stokes was mentioned. New Jersey possesses few men the equal of Mr. Stokes, who has served the State long and faithfully, and is greatly respected by both Republicans and Democrats alike.

The only part which Union county is likely to take in the convention will be to cast the ballot of its delegation for Franklin Murphy, and to see its Congressman, Charles N. Fowler, returned to a place on the State committee.

When these pleasant days have passed by and the cool driving storms of the autumnal season are here, the need of a decent surface to the driveway, leading to the new east bound station of the New Jersey Central Railroad, will be particularly evident. It is dangerous to both horse and vehicle to drive over the collection of rocks which now form that excuse for a driveway. It is certainly time that the railroad company regarded the interests of its patrons.

As an example of honest public servants, the municipal ownership committee of the North Plainfield Council may be cited. This committee was voted an appropriation of $100 to pursue its investigations and although the sum was voted some months ago, not one cent of the amount has been spent. At the last meeting of the Councilmanic body the committee was urged to make use of the sum.

The borough authorities should give some attention to the appearance presented at the lot on the southwest corner of Somerset street and Park place. Now that Somerset street is being considerably improved, it would not be a bad idea to give some attention to the vacant lots along the thoroughfare. This particular tract of land is in a neglected condition and is not much better than a public dump.

The borough school authorities have acted promptly in supplying accommodations for the children who are now without the opportunities which the borough is supposed to give along the lines of education.

Never has the autumnal season found the roads of Plainfield in such fine condition as they are now. It is the result of following a system without interference.

Some day people will learn that it is a dangerous thing to try to run two trains on the same track in opposite directions.

TEA TABLE TALK.

Short and Gossipy Sketches That Are Not Always News, But Just as Interesting.

The thirty-first anniversary of the triumphal entrance of General Cardarna into the City of Rome, through the Brescia di Porta Pia, was celebrated in many places on Friday, although the commemorative exercises were unostentatious because of the great calamity which has just visited the people in this country. Here in Plainfield, the Italians had appropriately shown their sorrow over the death of the President, and hence no attention was given to the anniversary of the day when Rome once again became the capitol of Italy.

PERSONAL.

Mrs. George Richter, of Pearl street, is detained at home by illness.

Lambert Bodine, of the borough, has been spending a few days at Quakertown.

Mr. Kanofsky and family, of Sterling, have returned from a visit to K. Rottberg, of West Third street.

Julius Williams, of Plainfield avenue, left this week on an extended business trip through the west.

Miss Estelle Brooks, of Duer street, has returned from a visit to Sunset cottage on the second mountain.

Max Hymes, of New York, has returned from a visit to Mr. and Mrs. M. Leichtentritt, of Central avenue.

John Worth, of Grove street, has returned from a pleasant carriage drive through the northern part of New Jersey.

Mrs. Weiss and children, of Ossining, N. Y., have returned from a visit to Mr. and Mrs. M. Weinberg, of Central avenue.

Mrs. William Chamberlain and family, of Westfield, are visiting at the home of Mr. and Mrs. J. F. McIntyre, of North avenue.

Miss Ella Conover, of Elmwood place, accompanied by Miss Trimmer, of High Bridge, left this morning by the Lehigh Valley Railroad for Buffalo, where they will visit the Pan-American Exposition.

Mrs. O. E. Chamberlin, of Madison avenue, who has been quite ill since the death of her son, W. J. Chamberlin, does not improve. She does not now receive any callers. Her daughter, Miss Georgia Chamberlin, of Chicago, is with her constantly.

THANKS HIS FRIENDS.

Wm. Tobin Very Grateful For the Benefit Given For Him.

To the Editor of The Daily Press:—Through the columns of The Daily Press I wish to publicly thank those who by their untiring efforts contributed to the success of the recent dance in T. A. B. Hall given for my benefit. With the funds raised in this manner I have been enabled to purchase an artificial limb. My sincere gratitude is extended to the committee, consisting of Eugene O'Reilly, Wm. Young, James F. McKeon, Wm. Connolly, John F. Casey and Wm. Whitehead and the employes of the Pond Tool Works for their trouble spent in my behalf. Wm. Tobin.

OFENING OF Y. M. C. A.

Formal Opening Will Be Held There Saturday Evening.

The formal opening of the Y.M.C.A. will be held Saturday evening. S. T. Ford, of New York, will render some humorous selections and will also give some clever personations.

An address outlining the winter's plan of action will be delivered by Secretary Manning. It is intended to devote the evening to social entertainment. The affair will be known as "an evening of pleasure and profit."

FUNERAL OF MRS. CONNETT.

Was Held From Her Late Residence Saturday Afternoon.

The funeral of Mrs. Armelia Connett, of East Fifth street, was held from her late residence Saturday afternoon, Rev. Dr. D. J. Yerkes officiating. Many floral tributes were the remembrances of sorrowing friends. The pallbearers were Frank Putnam, Howard Putnam, Elston Moffett, William Engell, Lewis Hummer and J. E. Flannery. Interment was made at Hillside cemetery.

—Young men and women are given a thorough technical education in the I. C. S., while at work at home.

TRENTON FAIR NEXT WEEK.

HOST OF ATTRACTIONS PLANNED FOR THAT GREAT EVENT.

It Begins Monday—Promises to Eclipse All Previous Attempts in That Line

Big pumpkins, fat swine and high-bred cattle will not be the only attractions at the Twentieth Century Inter-State Fair, which will be held at Trenton September 30, October 1, 2, 3 and 4. Secretary Mahlon R. Margerum has arranged for a fair which will eclipse anything that the management of the big eastern carnival has ever attempted.

With a trotting and pacing programme that will easily discount the biggest of the grand circuit meets, and with an exhibitors' premium list aggregating $60,000, the Trenton Fair admits no superior.

Included in the speed features are such big attractions as a match race between the two stars of the turf, Anaconda, 2.01¼, and Prince Alert, 2.02, a free-for-all trot, and a great double team race.

No expense has been spared in securing the very best vaudeville and amusement features that could be engaged to furnish entertainment for the thousands of patrons of the big fair.

Among the attractions none is more hair-raising in its daring than Prof. Little's ascent to the clouds in a bomb from a heavily charged cannon. The bomb explodes in midair, and the bold aeronaut descends to earth by means of a parachute. This is only one of the twenty big features that will be given each day of the fair in full view of the grandstand.

Monday, the opening day, will be "The Day of Everything," when, in addition to the daily vaudeville programme, a special list of amusement features lasting five hours will be put on.

A new attraction, recently secured, is the exhibition that will be given on the track each day by John B. Howard, the owner of the swiftest automobile in this country. Mr. Howard has issued a challenge to all comers to meet him any day of the fair at any distance and for any purse.

Henshaw and Hedstrom, famous the world over for their time-killing motor cycle races, have engaged to beat the world's 10-mile record of 13 minutes and 46 seconds.

These are only a few of the big events of the Greatest Eastern Farmers' Carnival.

ASTHMA INSTANTLY RELIEVED.

Dr R. Schiffmann Astounds the Public with the Success of His Treatment.

Residents of this place were astonished by notifications in these columns that the celebrated physician, Dr. Rudolph Schiffmann, would make public test of his remedy in this city on Sept. 19th. He invited every man, woman and child suffering with Asthma to call at L. W. Randolph's Drug Store and obtain, absolutely free, a trial box of his medicine. Dr. Schiffmann adopted this novel way of introducing his treatment, believing that a free personal test would be the best and only way to overcome the prejudice and scepticism of thousands of asthmatics who had given up in despair after going through the whole range of so-called cures. He has in this manner proved the efficacy of his remedy, and without asking the public to spend a penny Dr. Schiffmann hopes that every sufferer in this town obtained one of his free samples. He fears, however, that there were some few who did not, before they were all given out. In order to give a fair opportunity to those who have not yet used the remedy, and also as a guarantee of good faith, he has now requested this paper to announce that he has arranged with the above Druggists to refund the money to any person who purchases of them either a 50c or $1 00 package of Schiffmann's Asthma Cure between now and Oct. 25th, and finds that it does not do exactly as is claimed for it; the only condition being that they return not less than three-fourths of the package to them. Dr Schiffmann claims that in every case of true asthma his remedy will give immediate relief—usually within fifteen seconds; always within as many minutes. It has positively permanently cured thousands of cases which were considered incurable.

Musical Entertainment

The Boys' Orchestra of Mt. Olive Baptist church will give a musical entertainment in the church edifice Friday evening. The proceeds will be devoted to church expenses.

HOW TO SHOP IN MANILA

I cannot help wondering what the wise and clever American schoolmistresses the government is sending to the Philippines will think when they start out to buy things in Manila. Assuredly they will not only buy things, but at the same time think things and say things.

First they want, let us say, a pair of white canvas shoes, low cut ties. They will probably, not knowing any better, take a street car to the shopping district. What that experience will be like you see from the picture. The car is loaded largely with Tagalo men and women, smoking. It stalls regularly twice to the mile, and if there are American soldiers aboard they get out and shove it along.

Can the pretty schoolmistress step into a Manila department store and buy her white canvas ties? Well, no. She must have them made to order—that is, the Spanish style, and there is no other in Manila except Tagalo, and that is not to wear shoes at all, unless it be palm fiber toe slippers. But the Yankee girl will find that in all the Philippines there is not a last which will fit the American foot. There is only the last devised for the Spanish woman's foot, which is never used for walking. I knew one American lady who was obliged to have three pairs of ties made one after the other before she could pound into the shoemaker's head that it was necessary for her to have something she could get her foot into, and even then he complied with her demand only under bitter protest, evidently feeling himself beneath a grinding foreign military despotism. If you are a woman and ever go to the Philippines, take a good supply of American white canvas Oxford ties with you.

Next perhaps our schoolmistress will decide she wants a cool and pretty

pongee skirt. She has seen dressed up Chinamen strut forth in the glory of their tan or pale lilac and lavender pongee silk trousers, and the color and the fabric have captivated her fancy. To the Escolta she goes, from one shop to another. In one, kept by slender, dark, romantic looking Parsees from India, she finds what she wishes. They cannot speak English, she cannot speak Spanish, Hindoo, Arabic, Sanskrit or any upside down, wrong end foremost oriental tongue. The deal must be largely made by faith and signs. She has been warned as a tenderfoot that orientals always ask three prices for their commodities. Two to five visits to the shop are made before the coveted lavender pongee is secured. Linings, thread? Oh, no. She must go to the Chinese shops for these, and they are a mile away. Pretty pink cotton dimity for a shirt waist? Oh, no. The Indian merchant with the fascinating smile keeps only silks and embroideries. Here are some of the most magnificent gold thread embroideries. Would the senorita— But she flees. If she is strong of foot and mind, she walks to the Chinese dry goods store. If not, she hires a cab—if she can find one. At the Chinese shop a cued yellow man waits on her with a gentle, faraway air, and she spends three-quarters of an hour trying to bargain for the dimity. It is beautiful when she gets it. Unlike those ravishing American aniline dyed fabrics that fade while you look at them, this honest oriental dimity will keep its color even under the pounding of Tagalo washings.

She has looked with yearning eye at the exquisite pina cloth of which are made the handkerchiefs and skimpy waists the Tagalo women wear. She will have a shirt waist of that too. She asks for it, striving desperately to make the Chinaman understand. He stares at her in almond eyed surprise when at length he does comprehend. Oh, no. Chinaman have not pina cloth. Filipino store; he keep pina cloth.

The Lost Continent

By CUTCLIFFE HYNE.

Pub. by Harper & Bros. Copyright, 1901, by Cutcliffe Hyne.

[CONTINUED.]

In time we came to the open space in the center of the city, which even Phorenice had not dared to encroach upon with her ambitious building schemes, and stood on the secular ground which surrounds the most ancient, the most grand, and the barest of all this world's temples.

Since the beginning of time, when man first emerged among the beasts, our Lord the Sun has always been his chiefest god, and legend says that he raised this circle of stones himself to be a place where votaries should offer him worship. It is the fashion among us moderns not to take these old tales in a too literal sense; but for myself, this one satisfies me. By our wits we can lift blocks weighing 600 men, and set them as the capstones of our great pyramids. But to uprear the stones of that great circle would be beyond all our art, and much more would it be impossible to-day to transport them from their distant quarries across the rugged mountains.

There were nine-and-forty of the stones, alternating with spaces, and set in an accurate circle, and across the tops of them other stones were set, equally huge. The stones were undressed and rugged; but the huge massiveness of them impressed the eye more than all the temples and daintily tooled pyramids of our wondrous city. And in the center of the circle was that still greater stone which formed the altar, and round which was carved, in the rude chiseling of the ancients, the snake and the outstretched hand.

The crowd which bore me on came to a standstill before the circle of stones. To trespass beyond this is death for the common people; and for myself, although I had the right of entrance, I chose to stay where I was for the present, unnoticed among the mob, and wait upon events.

Nearer and nearer drew the drums and the braying of the other music, and presently the head of a glittering procession began to arrive and dispose itself in the space which had been set apart. Many a thousand poor, starving wretches sighed when they saw the wanton splendor of it. But these lords and these courtiers of this new Atlantis had no concern beyond their own bellies and their own backs, except for their one alien regard—their simpering affection for Phorenice.

I think, though, their loyalty for the empress was real enough; and it was not to be wondered at, since everything they had came from her lavish hands. Indeed, the woman had a charm that cannot be denied; for when she appeared riding in the golden castle (where I also had ridden) on the back of her monstrous shaggy mammoth, the starved, sullen faces of the crowd brightened as though a meal and sudden prosperity had been bestowed upon them; and without a word of command, without a trace of compulsion, they burst into spontaneous shouts of welcome.

She acknowledged it with a smile of thanks. Her cheeks were a little flushed, her movements quick, her manner high-strung, as all well might be, seeing the horrible sacrilege she had in mind. But she was undeniably lovely; yes, more adorably beautiful than ever with her present thrill of excitement; and when the stair was brought, and she walked down from the mammoth's back to the ground, those near fell to their knees and gave her worship, out of sheer fascination for her beauty and charm.

Ylga, the fan-girl, alone of all that vast multitude round the sun temple, contained herself within her formal paces and duties. She looked pained and troubled. It was plain to see, even from the distance where I stood, that she carried a heavy heart under the jewels of her robe. It was fitting, too, that this should be so. Though she had been long enough divorced from his care and fostered by the empress, Ylga was a daughter of Zaemon, and he was the chiefest of our Lord the Sun's ministers here on earth. She could not forget her upbringing now at this supreme moment when the highest of the old gods was to be formally defied. And perhaps also (having a kindness for Phorenice) she was not a little dreadful of the consequences.

But the empress had no eye for one sad look among all the sea of glowing faces. Boldly and proudly she strode out into the circle, as though she had been the duly appointed priest for the sacrifice. And after her came a knot of men, dressed as priests, and bearing the victim. Some of these were creatures of her own, and it was easy to forgive mere ignorant laymen, won over by the glamour of Phorenice's presence. But some, to their shame, were men born in the Priests' clan, and brought up in the groves and colleges of the Sacred Mountain, and for their apostasy there could be no palliation.

The wood had already been stacked on the altar-stone in the due form required by the ancient symbolism, and the empress stood aside while those who followed did what was needful. As they opened out, I saw that the victim was one of the small, cloven-hoofed horses that roam the plains—a most acceptable sacrifice. They bound its feet with metal gyves, and put it on the pyre, where, for awhile, it lay neighing. Then they stepped aside, and left it living. Here was an innovation.

The false priests went back to the farther side of the circle, and Phorenice stood alone before the altar. She lifted up her voice, sweet, tuneful and carrying, and, though the din of the siege still came from over the city, no ear there lost a word of what was spoken.

She raised her glance aloft, and all other eyes followed it. The heaven was clear as the deep sea, a gorgeous blue. But as the words came from her, so a small mist was born in the sky, wheeling and circling like a ball, although the day was windless, and rapidly growing darker and more compact. So dense had it become that presently it threw a shadow on part of the sacred circle that soothed it into twilight, though all without, where the people stood, was still garish day. And in the ball of mist were little quick stabs and splashes of noiseless flame.

She spoke not in the priests' sacred tongue—though such was her wicked cleverness that she may very well have learned it—but in the common speech of the people, so that all who heard might understand, and she told of her wondrous birth (as she chose to name it), and of the direct aid of the most high gods, which had enabled her to work so many marvels. And in the end she lifted both of her fair white arms towards the blackness above, and with her lovely face set with the strain of will, uttered her final cry:

"O my high father, the sun, I pray you now to acknowledge me as your very daughter. Give this people a sign that I am indeed a child of the gods, and no frail mortal. Here is sacrifice unlit, where mortal priests with their puny fires had weekly, since the foundation of this land, sent savory smoke towards the sky. I pray you send down the heavenly fire to burn this beast here offered, in token that though you still rule on high, you have given me Atlantis to be my kingdom, and the people of the earth to be my worshipers."

She broke off and strained towards the sky. Her face was contorted. Her limbs shook. "O mighty father," she cried, "who hast made me a god and an equal, hear me! hear me!"

Out of the black cloud overhead there came a blinding flash of light, which spat downward on to the altar. The cloven-hoofed horse gave one shrill neigh, and one convulsion, and fell back dead. Fames crackled out from the woodpile, and the air became rich with the smell of burning flesh. And lo! in another moment the cloud above had melted into nothingness, and the fames burned pale, and the smoke went up in a thin blue spiral towards the deeper blueness of the sky.

Phorenice the empress stood there before the great stone, and before the snake and the outstretched hand of life which were inscribed upon it, flushed, exultant, and once more radiantly lovely; and the knot of priests within the circle, and the great mob of people without, fell to the ground adoring.

"Phorenice, goddess!" they cried. "Phorenice, goddess of all Atlantis!"

But for myself, I did not kneel. I would have no part in this apostasy, so I stood there awaiting fate.

CHAPTER X.

A WOOING.

When the silence had grown again, and Phorenice turned and saw me standing alone among all the prostrate worshipers, I stepped out from the crowd and passed between two of the great stones, and went across to where she stood beside the altar. I did not prostrate myself. At the prescribed distance I made the salutation which she herself had ordered when she made me her chief minister, and then hailed her with formal decorum as empress.

"Deucalion, man of ice," she retorted.

"I still adhere to the old gods!"

"I was not referring to that," said she, and looked at me with a sidelong smile.

But here Ylga came up to us with a face that was white and a hand that shook and made supplication for my life. "If he will not leave the old gods yet," she pleaded, "surely you will pardon him? He is a strong man, and does not become a convert easily. You may change him later. But think, Phorenice, he is a Deucalion; and if you slay him here for this one thing, there is no other man within all the marches of Atlantis who could so worthily serve—"

The empress took the words from her. "You slut," she cried out. "I have you near me to appoint my wardrobe and carry my fan, and you dare to put a meddling finger in my policies? Back with you, outside this circle, or I'll have you whipped. Aye, and I'll do more. I'll serve you as Zaemon served my captain, Tarca. Shall I point a finger at you, and smite your pretty skin with a sudden leprosy?"

The girl bowed her shoulders and went away cowed, and Phorenice turned to me. "My lord," she said, "I am like a young bird in the nest that has suddenly found its wings. Wings have so many uses that I am curious to try them all."

"May each new flight they take be for the good of Atlantis."

SETH LOW FOR MAYOR

Tammany's Foes In Greater New York United.

THREE CONVENTIONS NOMINATE.

Republicans, Citizens' Union and Independent Democrats at Enthusiastic Gatherings Name a Complete Union City Ticket.

NEW YORK, Sept. 25.—Simultaneously last night conventions of Tammany's foes, the Republicans, Citizens' Union and Greater New York Democracy, were called to order to nominate Seth Low, Republican, for mayor; Edward M. Grout, Democrat, of Brooklyn for comptroller, and Charles V. Fornes, independent Democrat of Manhattan, for president of the board of aldermen.

The Republicans met in the Grand Central Palace, the Citizens' Union at Cooper Union and the Greater New York Democracy at Broadway and Twenty-eighth street.

Amid scenes of great enthusiasm Seth Low was placed in nomination by General Anson G. McCook for the Republicans.

Grand Central Palace was jammed to the doors when Lieutenant Governor Timothy V. Woodruff assumed the chairmanship of the Republican convention.

When the hosts of the Citizens' Union had assembled in Cooper Union, it was a foregone conclusion that the fusion ticket, with Seth Low at its head, would be placed in nomination.

Before the convention opened A. J. Boulton and M. J. Flaherty had received from Mr. Coler a request that his name be not presented in opposition to Mr. Low's.

Mr. Flaherty, it had already been determined, was to have offered a minority report proposing Mr. Coler's name, but this scheme was now abandoned.

Mr. Boulton assured the convention that Mr. Coler's Brooklyn friends in the Citizens' Union would all rally to the support of Seth Low.

The convention was an adjourned meeting from that of April, so that there was little peliminary business to do.

Mr. Putnam introduced Mr. R. Fulton Cutting, who, after speaking of the objects of the fusionists, said:

"Mr. Low is too well known to require an introduction to the Citizens' Union convention. For the chief executive we have secured a Citizens' Union standard bearer of 1897, and he will go into the campaign as unpledged as he was four years ago. A man of broad and positive views on the question of franchises and in hearty sympathy with labor, with practical experience and exceptional capacity for work, he will make a record in the mayor's chair that will enable us to review in 1903 the success we confidently expect next November."

Mr. Cutting then introduced Mr. Everett P. Wheeler, who lauded Mr. Low and the other candidates.

Republican League Convention.

SCRANTON, Pa., Sept. 25.—Delegates and visitors to the number of 1,000, representing a hundred or more organizations allied with the State League of Republican Clubs, are here to attend the league's fourteenth annual convention. At the armory last night an assemblage of 7,000 listened to addresses by Senator Thurston, Senator Penrose, State President Moore and others. Senator Thurston pronounced a masterful eulogy on the martyred president.

Admiral Sampson's Health Better.

NEW YORK, Sept. 25.—Rear Admiral Sampson, questioned at Fort Hamilton, where he is the guest of Lieutenant Scott, his son-in-law, and Mrs. Scott, his daughter, said that he did not know whether he would be a witness at the Schley investigation, but would go if summoned. As to his own health the admiral said it was much improved. Lieutenant Scott, when asked as to the duration of the admiral's stay at the fort, said that it was for an indefinite period.

Mrs. McKinley's Friends Hopeful.

CANTON, O., Sept. 25.—Relatives and friends of Mrs. McKinley have a more substantial foundation for their hopes than they have had at any time since apprehension of a collapse under the burden of her deep sorrow was aroused. Dr. Rixey states that she is doing as well as can be expected and that if there is any change it is in the way of improvement. Yesterday morning a visit to the cemetery was followed by rather an extended drive into the country.

Continued Bond Purchases.

WASHINGTON, Sept. 25.—The secretary of the treasury yesterday purchased $191,500 long term 4 per cent bonds, $112,500 fours of 1907 and $1,900 fives of 1908. Since April 1 last the total purchases have been $33,655,960 at a cost of $40,393,897. During this fiscal year the expenditures on account of bond purchases have exceeded the surplus revenue of the year by $9,644,197.

No Cause For Newark Accident.

NEWARK, N. Y., Sept. 25.—Coroner Edward P. Thatcher has rendered his decision in the matter of the recent Northern Central wreck, and it gave no cause for the accident, except that a possible cause may be found in a certain track bolt which lay near the scene of the wreck.

Michigan Bank Robbed.

KALAMAZOO, Mich., Sept. 25.—The bank at Bloomingdale, a village twenty-three miles from here, has been broken into by thieves, who dynamited the safe and secured, it is said, $2,000 and some valuable papers.

SPORTING.

ON THE DIAMOND.

Charles L. Smith, who has been playing centre field for the Hope team, has been forced to resign on account of other engagements. His position will be filled for the remainder of the season by Claude Roseberry, who held it early in the summer.

Last Saturday's game with the Clinton Avenue team was the last the St. Mary's had scheduled for this season, but it is possible they will play two and perhaps three more. The Clinton Avenue tie will be played off and one game each may be had with the Hope and Scotch Plains teams.

The action of the North Plainfield High School Athletic Association in deciding not to put a football team in the field, but to devote its entire attention to getting out a good baseball nine in the spring, is significient. The borough boys want to thrash the city High School nine, and they are preparing at this early day to accomplish this aim.

No date has been arranged for the third game between the policemen's nines of Elizabeth and this city. The officers from the county seat have won the two games already played and the local team is anxious for a third. The Plainfielders have not been able to set a date, and as the season is far advanced the probabilities are that no game will be played.

ON THE GRIDIRON.

In all probability the P. H. S. A. A. football team will select the old Crescent Oval as a gridiron for its games this fall. Several sites are under consideration, but none are considered equal to the Oval.

Captain VanAuken will call his squad of candidates for the Plainfield High School football team to gather for practice Thursday. The preliminary practices will be held on a section of Martine's Common.

The Jockey Club, the West End organization which gained fame in juvenile baseball circles during the past season, has decided to place football team in the field. The players have not yet been assigned but William Firstbrook has been elected manager and Cormack Muldowny captain.

A football team with players averaging 150 pounds has been organized in the borough with Charles Woolston manager, and George Gaddis captain. The players and positions are as follows: Peterson, right half; Mosher, left half; Farlee, quarter back; Robinson, center; O'Brien, right guard; Jones, left guard; Hardingham, right tackle; Hinkle, left tackle; Emmons, right end; Sheppard, left end; Gaddis, full back. Games have already been scheduled with the Battin High School, Company M, of Somerville, and Rutgers Prep.

VARIOUS SPORTS.

John Leal, the principal of Leal's School, has made arrangements with the Y. M. C. A. to reserve the association gymnasium for a stated period, two days a week, when the pupils of his school will be given lessons in physical instruction. Instructor C. E. A. Heywood will be in charge on these occasions.

LAWN TENNIS.

The annual tennis championship of the Hillside Tennis and Golf Club, will be held Saturday morning, October 5. It will be open to all classes of members. The cup, which was won last year by Kenneth Bulkley, will become the property of the member winning it twice.

GOLF.

The next team match to be played by the team from the Hillside Tennis and Golf Club will be Saturday, when the team will go to Baltusrol and contest with the team from that club.

Much Work for Grand Jury.

The members of the Union County Grand Jury will commence their October sitting Tuesday. It will undoubtedly be a long sitting as a large number of cases are to be heard. Nearly all the Plainfield lawyers will be in attandance, some of them having as many as six cases to come up.

Temporary Addition.

A building permit has been granted to Mrs. C. J. Fisk, of 211 West Seventh street, by Building Inspector T. O. Doane. Mrs. Fisk intends to construct a temporary addition to the front of her residence. John Abbott is the contractor.

APPROVES MAYOR'S ACTION.

MISS E. L. ADAMS, PUBLIC LIBRARIAN, WRITES ABOUT THE JOURNAL.

Says Journal and World Are Barred Out of Libraries—Her Opinion of These Newspapers.

To the Editor of The Daily Press:—As one engaged in the dissemination of good literature, permit me to express through the columns of your paper my appreciation of the action of the Mayor of North Plainfield in prohibiting the sale of the New York Journal in the borough.

The Public Library in a community stands for the education of the people in right thinking and right living, and for the formation of loyal responsible citizenship. Convinced that the New York Journal and World had no part in this work, the public libraries of this country in 1896-7 very generally joined in excluding these papers from their files. The crusade against them was thus begun by the libraries. But their exclusion from the public library cannot prevent their being read, and every librarian sees with sorrow how the aims of the library are thwarted by the publishers of such a paper as the Journal, whose agents are permitted to cry in the streets their so-called "news," news which panders to the most depraved instincts of human nature, and which, as has been shown to the Nations's sorrow, is capable of inciting to a most foul and treasonable act.

Bought as the Journal is chiefly by those who are unlikely to correct by wider reading the un-American opinions which its influence tends directly to form, and carried with all its moral and political corruption into the home, upon whose integrity the State rests, it is thus capable of an incalculable amount of harm.

One can but hope that public opinion aroused at last will sustain all, who like Mayor Smalley, shall prohibit its sale in the streets.

E. L. Adams, Public Librarian.

MANY VISITING KNIGHTS.

Watchung Council, Knights of Columbus, Had a Big Time Last Night.

Watchung Council, Knights of Columbus, entertained two hundred members of the order last evening. The visiting knights came from New York, Brooklyn, Jersey City, Newark, Elizabeth and New Brunswick.

The guests were entertained by at least two hundred members of the local organization. A short business session was first held and seventeen knights of Watchung Council received the third degree. Refreshments were served and an enjoyable time had.

F. F. Dawes' Class to Resume.

Frederick F. Dawes, assistant with T. George Dodworth, the well-known dancing teacher at 12 East Forty-ninth street, New York City, will resume instruction in dancing and polite training at the Seminary on Tuesday, October 15. It is essential that those desiring to enter the class should give early notification of that fact. Mr. Dawes has met with great success in his work and a continuation of success is predicted for the coming season.

Macadamizing Eighth Street.

The preliminary work for the macadamizing of West Eighth street, between Grant and Monroe avenues, is being rapidly completed and the laying of stone will commence tomorrow. David Bowden is superintending the work. Street Commissioner Gavett also has a number of men turnpiking Prospect avenue and another gang rolling North and Johnson avenues.

Addition to Residence.

William F. Hobbe, of 1303 Watchung avenue, has received the necessary permit to erect a brick addition to the southwest side of present residence. The improvement will be one story in height, and will be constructed of brick to correspond to the present building. Wm. H. Pangborn has the contract for the mason work and Charles M. Wilson for the carpentry.

Improvements to Seminary.

Many repairs are being made to the Seminary on West Seventh street at present. Some of the improvements are being made to the exterior of the building, while the interior is not being neglected.

"Netherwood" on Duty Again.

The club car "Netherwood" on the New Jersey Central has been put in service again after being thoroughly overhauled. In its fresh coat of paint it presents a neat appearance.

BRIEF ITEMS OF INTEREST TO EVERY DAILY PRESS READER.

Some Of the Doings In City and Borough Told In Concise and Pertinent Paragraphs.

—"I. C. E."—International Correspondence Schools, of Scranton, Pa.

—There will be business of importance at the meeting of Franklin Council, No. 41, Jr. O. U. A. M., tomorrow evening.

—Delicious ribbon, melon and angel cakes and fine confectionery always fresh at Warnock's West Front street bakery.

—The peach season is nearly over but Neuman Brothers still continue to receive consignments of fine fruit. 150 baskets, suitable for table and canning purposes on sale tomorrow.

—Miss Emma Messler, of West Fourth street, corner of Madison avenue, who has been away from the city for some time engaged in her profession of a trained nurse, has returned home.

—The present cool weather has resulted in a heavy demand for oysters. Jerry Foss, the Park avenue seafood dealer, has enjoyed large sales of the bivalves since Saturday, and the rush still continues.

—Perhaps your headache comes from eye strain, as a large percentage of such trouble is thus caused. Consult Stiles & Co., eye specialists, at 107 East Front street, tomorrow, Thursday. Hours, 11:15 to 4:30.

—A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin affections. Accept only the genuine. L. W. Randolph.

WOULDN'T RECANT.

But Mayor Smalley Finally Issued a Statement Regarding The Journal.

For two evenings past a representative of the New York Journal has vainly endeavored to get Mayor Newton B. Smalley, of North Plainfield, to recant his utterances in regard to that paper as contained in Monday's New York Sun. The Mayor persists in holding to his original statement and declares that no newspaper slandering the President will be allowed to be hawked about the borough. It matters not, according to the declaration of the Mayor, whether it be the Journal or any other publication.

It was not until this afternoon that the Journal man could wrest any statement from the Mayor. When he did receive one this is what he found:

"The New York Journal has discontinued its attacks on the President. The present sale is not in violation of our ordinance. We have passed the danger point and the future promises well. The legitimate sale of any reputable newspaper has never been interfered with in our borough.

"N. B. Smalley, Mayor."

PERSONAL.

Mr. and Mrs. Frederick Childs, of Elizabeth, are visiting friends in this city.

Miss Jennie M. Pierce, of Belvidere, Ill., is visiting her aunt, Mrs. G. Thorn, of East Second street.

Reorganizing the Force.

William Dougherty, the recently-elected chief of police of the New Jersey Central Railroad, is engaged in reorganizing the company's force. In all there are sixty-five men doing police duty on the various lines under Mr. Dougherty's supervision and it will require some time before the work can be properly systematized.

Has Been Clerk.

W. B. Wilson, who has been acting in the capacity of clerk at the Hotel Netherwood, during the present season, leaves Saturday for his home in Brooklyn. Mr. Wilson is an undergraduate of the New York Law School, and will resume his studies at that institution when it opens for the fall term.

Funeral of Mrs. Unangst.

Funeral services over the remains of Mrs. Josiah Unangst were held at her late residence on Richmond street last evening. They were conducted by Rev. Cornelius Schenck, Ph.D., pastor of Trinity Reformed church. The body was taken to Hampton this morning, where interment was made.

Choosing Class Motto.

A meeting of the class of 1902, Plainfield High School, was held at recess this morning to attend to the matter of choosing a class motto. A motion was carried that the class motto should be Greek. Miss Dyer and Hollis Cubberley were appointed to look the matter up.

Two Special Trains.

There will be a large number of guests from out of town at the Fisk-Waring wedding and to accommodate those who will come from New York and Trenton, two special trains will be run from those places to this city, arriving about 8 o'clock.

At Reform Hall.

An interesting programme has been prepared for the weekly meeting at Reform Hall tomorrow evening.

WERE WEDDED AT HIGH NOON.

IMPORTANT SOCIAL EVENT AT SOMERVILLE TODAY.

Miss Mary Bartine Married to Thomas H. Dyer, Both of Somerville—A Pretty Ceremony.

(Special to The Daily Press.)

Somerville, Sept. 25.—The social event of the season in this place was the wedding at high noon of Miss Mary Oakley Bartine, daughter of Former Judge and Mrs. John D. Bartine, and Thomas Hindley Dyer, son of Rev. John G. Dyer, of South Somerville. The ceremony was performed by the groom's father, assisted by Rev. Wm Stockton Cranmer, pastor of the First Reformed church.

Promptly to the strains of the wedding march from "Lohengrin" the bridal party entered the parlors, which were tastily decorated with golden rod and oak leaves. The groom and his best man, Charles F. Hindley, of New York, came first, followed by the maid of honor and the bride on the arm of her father.

The bride wore an elegant gown of white crepe de chene, trimmed with chiffon and duchess lace, and carried a shower bouquet of bridal roses. She wore a white veil and orange blossoms. The maid-of-honor, Miss Anne Davidson, of Norfolk, Va., a cousin, was dressed handsomely in pink silk organdie, carrying pink asters.

After an extended wedding tour the happy couple will reside at South Somerville.

WILL TELL ALL.

Statement by Sarah Spiers Regarding Burnett Burglary to be Presented in Court.

(Special to The Daily Press.)

Elizabeth, September 25.—It was expected that Sarah Spiers and James Simpson, who were arrested for a burglary committed in Plainfield some time ago, would be arraigned today for sentence. It has been arranged, however, that Simpson shall be arraigned next week Wednesday.

At that time a statement, written by Sarah Spiers, will be read. This statement, it is said, explains everything in connection with the burglary.

SUCCESSFUL MISSION.

Now Being Conducted at St. Mary's Church This Week.

A mission is being conducted at St. Mary's Roman Catholic church by Fathers Gleason and Gannon, of the Society of Jesus. This course in religious instruction commenced Sunday and will be continued for a fortnight. The services are held at 5, 6 and 9 o'clock in the morning and at 7:45 o'clock in the evening, and have been remarkably well attended. The services this week are for women. Next week a mission for men and boys will be conducted by the fathers.

Junior Class Election.

The Junior Class, of the Plainfield High School, held another meeting at recess, this morning, to elect a secretary and treasurer of the class. Albert D. Beers was elected to the office.

SIXTY-ONE ENTRIES ARE IN.

TROTTING, RUNNING AND OTHER CONTESTS AMONG HORSES.

Plainfield Is Well Represented Among the Entries—A Band Will Be There—Stages Will Meet Trolley Cars—Other Details of the Meet.

The management in charge of the all day race meet at the Fair Acres Driving Club track, Saturday, has completed all preliminary arrangements. Nothing has been left undone which will add to its success and the comfort of the patrons. The fact that H. P. Condit has been made chairman of the committee of arrangements attests to the fact that all details will be properly carried out.

There will be trotting, pacing and running events, beginning at 9 o'clock. The projected baseball game will not take place as it would interfere with races. The Aeolian Band, of sixteen pieces, will render selections during the day and refreshments will be provided.

Stages will be run from the corner of Broad and Elm streets, Westfield, which will connect with trolley direct to the grounds.

Sixty-one entries for the races have been received as follows:

WM. VANNESS MARRIED.

A Former Plainfielder Wedded Newark Girl in That City Yesterday.

Much surprise was occasioned yesterday when announcement was made of the marriage of Wm. VanNess, formerly of this city, but now of Newark, to Miss Lizzie Lang, also of Newark The event took place last Monday evening in Newark, Father Hepper performing the ceremony. Joel Miller and Harry Smith, of Newark, were witnesses.

The bridegroom formerly resided on Monroe avenue. He is now night manager at the Arlington Hotel in Newark. Following the wedding a reception was held at the home of the bride's parents on Broome street, where the couple will reside. At present the bride and groom are spending their honeymoon in this city.

TO RESUME SESSIONS.

Park Avenue Baptist Sunday-School to Reopen Sunday.

After a very successful summer, with morning sessions well attended and much interest manifested therein, the Park Avenue Baptist Sunday-school will resume its afternoon sessions Sunday at 2:45 o'clock.

Superintendent George E. Hall has given this the name of "Inspection Day," for which an especially interesting programme, in which a number of the teachers and pupils will participate, has been arranged. The parts include solo, quartette and chorus selections, a roll-call of the entire school, presentation of rewards for prompt attendance during the summer, and other interesting features. Rev. J. W. Richardson will give a talk to the school. An invitation is extended to all to be present.

DEATH OF MRS. M'MAHON.

Aged Resident of the Borough Died Tuesday Evening.

Mrs. Bridget McMahon, an aged resident of the borough, died at 9 o'clock Tuesday evening at the home of her sister, Miss Mary McGlone, of Pearl street. The cause of death was paralysis.

For some time past Mrs. McMahon has lived at the Industrial Home. Last week she was stricken and was immediately removed to her sister's house. Mrs. McMahon was born in Ireland seventy-five years ago.

The funeral will be held from the house tomorrow morning at 8:30 and mass will be said in St. Joseph's church at 9 o'clock. Interment will be made in St. Mary's cemetery.

Yellow Newspapers Scored.

(Special to The Daily Press.)

Somerville, N. J., Sept. 26.—The survivors of the Ninth New Jersey Civil War Volunteers, under command of Gen. James Stewart, Jr., of Philadelphia, held their sixteenth annual reunion here yesterday. FRANKLIN MURPHY REPUBLICAN NOMINEE.

Republicans Gather at Trenton and Name Newark Man For Governor.

HON. J W. GRIGGS CHAIRMAN.

RINGING SPEECHES MADE AND RESOLUTIONS ADOPTED.

Union County Delegates Caucus Held This Morning—McKinley Eulogized—Senator McCarter Places Candidate's Name Before Convention.

(By a Staff Correspondent.)

Trenton, Sept. 26.—Republican leaders as well as the smaller fry from every section of the State began to gather in this city yesterday afternoon to be on hand early so as not to miss the proceedings preliminary to the gubernatorial convention today. From every county they seemed to come. The Trenton House as usual was the central point of attention, for there all the big guns in the party would register.

Franklin Murphy arrived late in the afternoon and immediately repaired to the Trenton house, where he and his secretary, C. L. Stillman, received enthusiastic supporters, who came to offer congratulations on the impending honor to be bestowed on the Newark manufacturer. Throughout the evening an air of tranquility prevailed among the clans and nothing of real importance transpired except the meeting of the State executive committee which mapped out detail for the morrow.

Conjectures as to the make up of the State committee seemed to agree that there would be but one change. The place of Supreme Court Clerk William Biker, Jr., of Newark, would be filled by State Senator Thomas N. McCarter, of the same city. Franklin Murphy, the candidate for gubernatorial honors, according to accepted rumor, had been agreed upon to continue his position as chairman of the committee, following the precedent set by Governor Benjamin Odell, of New York. State Senator Stokes, who is the vice chairman of the committee, according to the wishes of the members of that body, would call the meeting to order promptly at the noon hour.

Plans were laid for former Attorney General John W. Griggs to deliver a speech at the opening of the proceedings. For temporary secretaries the following were chosen:

Postmaster Alexander C. Yard, of this city; J. Herbert Potts, of Jersey City; James Parker, of Paterson; Franklin W. Fort, of Newark, and Charles R. Bacon, of Camden.

These officers including Attorney General Griggs will be made permanent, according to the unamious opinion of the knowing ones.

The Union county delegation did not arrive until this morning, although some of the leaders came down late last evening. With it and the Somerset county representation as well as those from every section of the State the one thought so far as the nomination for the governorship is concerned is Murphy.

At 11 o'clock this morning the Union county delegates met in room 9 of the Trenton House and held their caucus. State Senator Joseph Cross, of Elizabeth, was selected as chairman of the delegation, and Charles C. McBride, editor of the Elizabeth Journal, was chosen secretary. The election of Senator Cross was a compromise made with the Hamilton Kane forces. The other officers for the convention chosen at the caucus included the following: Vice-president, J. Martin Roll, of Springfield; member of committee on resolutions, Congressman Charles N. Fowler, of Elizabeth; member of committee on credentials, Chas. E. Reed, of Rahway; member of committee on permanent organization, Floyd D. Woodhull, of Plainfield; member of committee on rules, Chas. Hall, of Cranford.

All the Plainfield delegates attended the caucus. The members were the same as those elected in that city Tuesday evening, the only exception being Andrew McCardell and William Newcorn, who were substitutes from the Fourth ward. The delegates did not agree to support any particular candidate, but it is practically understood that all are favorable to support Mr. Murphy.

About the same time a caucus was held by the Somerset county delegation. They were instructed to vote for Franklin Murphy. J. S. Frelinghuysen, of Somerville, was elected chairman and C. H. Bateman, of the

YOUTHFUL FIRE FIGHTERS.

RELIEF HOSE COMPANY, NO. 3, ORGANIZED IN BOROUGH.

North Plainfield Boys Met at Warren Engine House Last Evening and Formed Auxiliary Company.

Following a meeting of a number of enterprising borough young men, held last evening in the parlors of Warren Engine Company's house, another fire fighting company was added to North Plainfield's complement. While the organization is yet in its infancy, the members have settled down to business and have already gained the commendation of the remainder of the department.

The new company is to be known as Relief Hose, No. 3, and the new officers as elected last evening are as follows: Foreman, Lewis McGann; first assistant, Harry Hann; second assistant, William Higgins; secretary, Albert Cowling; treasurer, Joseph Finney. The remainder of the members are Lawrence Fann, Fred Allen, David Allen, Clinton Conover, William Frey, Harry Schuck and David Fairchild.

After the meeting the new organization was complimented and spoken to by Chief J. J. Stahl, Former Chief David Bodine and Former Chief Geo. Fairchild, of the borough department, William Day and other members of Warren Engine Company. The company will have the Warren Engine house as its headquarters.

As soon as possible the new company will be equipped with a suitable apparatus with which to remain ready at Warren's call. The members will enjoy all the privileges of regular firemen both on and off duty.

JAMES WOOD SENTENCED.

Youthful Plainfielder Is Sent to State Reformatory for Stealing a Pocketbook.

(Special to The Daily Press.)

Elizabath, Sept. 26—In the Court of Special Sessions, Tuesday, Judge Vail sentenced James Wood, a Plainfield young man, to the State reformatory. Wood pleaded guilty to purloining a pocketbook containing $21.16 from a Plainfield home where he was delivering meat. His past record showed that it was not his first offense, he having some time ago served three months for stealing a bicycle.

ATTENDING TO DUTY.

Borough Board of Health Takes Prompt Action to Prevent Nuisance.

In the course of improvements at Saengerbund Hall, a cesspool has been dug from the basement of the building. It is five feet deep, but from the surface of the ground the distance is some sixteen feet. This led to prompt action by the Borough Board of Health, inasmuch as the various wells throughout the borough are sunk to approximately the same depth.

The members of the Board visited Saengerbund Hall yesterday afternoon and inspected the cesspool. Afterwards Health Inspector Pangborn was delegated to meet a committee of the Gesang and Turn Verein. They met last evening and the result was that the organization promises to make the cesspool perfectly water tight.

WORKING ON CONTRACT.

C. M. Meeker Is Now Macadamizing First Place.

Contractor C. M. Meeker, who secured the contracts for macadamizing a number of the city streets, has placed a gang of men at work on First place. The preliminary excavations have about been completed and the stone foundation will be commenced tomorrow when the steam roller will be placed at work. It is expected that Second place will be attended to by the first of the week.

An Old Timer.

A two-wheel jumper used some twenty-five years ago by the old Warren Company, No. 3, will be exhibited in the borough fire department parade next month. It is an example of the kind of hose wagons which were used a quarter of a century ago, before horses were generally used to draw the trucks.

State Organizer Expected

A meeting of the Union Veterans' Union, Women's Relief Corps will be held at the home of Mrs. Charles P. Stephens, of Duer street, this evening. The State organizer of the order will attend.

W. D. Murray to Speak.

William D. Murray will address the Bible study rally to be held at the Y. M. C. A. Sunday afternoon at 4 o'clock. On the following Sunday he will speak at the Trenton Y. M. C. A.

TROUBLE BREWING IN THE TRADES COUNCIL

Circular Issued Demanding That Master Mechanics Agree to Laws of Council.

OLD AGREEMENTS ARE OFF.

MASTER MECHANICS SAY THAT THEY WILL NOT GRANT DEMAND.

Prospect Is That the Struggle Between Employer and Employe Will Be Reviewed—May Threaten Life of Trades Council.

From the tone of a circular which the Building Trades Council, the local allied association of all trades unions, has caused to be distributed among the master mechanics, Plainfield may again witness a struggle for supremacy between employer and employe. Grievances which have cropped to the surface at times have caused no end of disruption among mechanics, many of them leaving good positions, it is alleged, through the arbitrary methods pursued by the Trades Council. Several of the unions have discussed the trouble recently and one of them, that of the masons, has withdrawn from the allied organization. There are several more which contemplate taking similar action, in order to carry on their arbitrations independently.

The circular which has caused indignation among the master mechanics reads as follows:

To the Master Mechanics Association:

Gentlemen—It was regularly moved and seconded at our last regular meeting that all agreements made or recommended by the arbitrating committee of the Building Trades Council and the Master Mechanics Association be declared null and void, and that the Building Trades Council not recognize the Master Mechanics Association until such times as its members are willing to sign an agreement individually that they will live strictly to the laws of the Building Trades Council for a period of one year, and any member or members violating any of its rules or sending any man or men to work with non-union men, or where any non-union contractors have done work within thirty days, that such contractor or contractors shall be considered as foul by both organizations, and that their men shall be called off without notice, and the Master Mechanics Association not recognize such contractors as one of their members. Also a copy to be sent to the Master Mechanics Association telling them that this council did recognize them once, but the Master Mechanics did not treat us fairly. Hence this motion.

Respectfully yours,
The Building Trades Council.

Nearly all of the master mechanics of the city when spoken to in regard to the trouble this morning, declared emphatically that they would not sign any such agreement with the Building Trades Council. There have been numerous times, some of them stated, when the employers would be justified in terminating all relations with the Trades Council for the exactions which it demanded. Many of them believe that the present grievance will result in the breaking up of the organization, as there is a growing tendency among all the unions to remain independent of any other craft in settling with their own employers.

Will Not Prosecute.

Walter Ulmer, the young boy who failed to deposit at the bank, the $40 given him by W. L. Smalley, the Somerset street butcher, was released from custody by the borough police today. The money he had spent was made good by the boy's father, and Mr. Smalley did not wish to prosecute him.

Wedding Invitations Issued.

Invitations have been issued for the marriage of Miss Ada Marie Runyon to Thomas Adams Cuming, which will take place Thursday evening, October 10, at 7:30 o'clock in the Park Avenue Baptist church. "At home" cards have been issued for Tuesdays, after November 1, at 1100 Putnam avenue.

Don't Wear Hats.

The women members of the First Baptist church choir still continue to sing at the services with uncovered heads. Besides adding comfort, there is a uniformity that is pleasing and no doubt the practice will be continued throughout the year.

A Decision This Year.

William L. Saunders, vice-president of the Ingersoll-Sergeant Drill Company, says that the company will decide this year where its new factory is to be located.

CIRCUS MAN KILLED.

Fatal Accident at Somerville to Attache of Main's Circus—Run Down by Train.

(Special to The Daily Press.)

Somerville, Sept. 26—J. C. Hendricks, aged 40 years, employed as a blacksmith in the Walter Main circus, which appeared in this town yesterday, was struck and instantly killed last evening about 7 o'clock on the New Jersey Central Railroad. He was walking along the tracks from the circus cars to the tent, when a train on the railroad struck him It is not known what train it was, but it is believed that Hendricks stepped out of the way of one train into the path of another train going in the opposite direction. His body was horribly mangled and cut.

Hendricks bore a reputation as a sober and industrious man. His home is at Elmira, N Y., and a telegram was sent to his family at that place. He is survived by a wife and three children. Dr. S. O. B. Taylor, county physician, was called and gave a burial permit. As yet no word has been received from Elmira. The body will be held until some word is received regarding its disposition.

SKULL FACTURED.

Daniel Gulick, of Dunellen, Seriously Injured in Runaway at Martinsville.

(Special to The Daily Press.)

Dunellen, September 26 — Daniel Gulick met with a serious accident at Martinsville yesterday afternoon. At the time he was with Arthur Giles, who was driving a spirited horse, which became frightened and ran away.

Gulick was thrown out and struck the road on his head and was rendered unconscious. Upon examination by Dr. Fisher, of Bound Brook, it was found that his skull was crushed and that he had sustained severe internal injuries. He was put in a wagon and taken to his home on Front street, Dunellen, where Dr. W. J. Nelson was summoned. The doctor immediately saw that Gulick's condition was serious and sent him to Muhlenberg hospital.

Arthur Giles was also thrown out and considerably bruised and scratched. The horse and wagon were recovered. To these there was no damage.

RENTALS BOOMING.

Number of Dwellings Leased by One Real Estate Agency.

The Mulford real estate agency, of North avenue, reports an active fall in its line of business. Among those who have lately located in this city or made changes are the following: A. Zorega, of Brooklyn, to 926 Park avenue; W. S. Shotwell, of Brooklyn, to East Ninth street and Arlington avenue; W. A. Murray, of New York, to 1406 Watchung avenue; C. C. Schooley, of the Jackson building, to corner LaGrande and Kensington avenues; G. H. Taylor, of New York, to 520 West Seventh street; C. A. Pomeroy, of New York, to 110 Park place, North Plainfield; E. T. Baker, of Philadelphia, to John Darling's house on Prospect avenue; Miss Hattie Loree, of Watchung avenue, to East Fifth and Sycamore streets; H. D. Haven, of Park avenue, to 307 Franklin place; W. A. Ferree, of Westfield, to 816 Carlton avenue; C. T. Fisher, of Somerville, to 422 East Second street

One Year Married.

Mr. and Mrs. H. C. VanEmburgh, of East Second street, will celebrate the first anniversary of their marriage, Thursday evening, Oct. 3. Invitations have been issued for the event which will take place at the home of Mrs. VanEmburgh's parents, Mr. and Mrs. Kline, of 534 Maple avenue, Elizabeth.

Temperance Meeting.

An exceptionally fine programme has been arranged for this evening's temperance meeting at Reform Hall. Several well-known speakers will make addresses, and phonograph selections will be rendered by a concert machine. A cordial invitation is extended the public to attend.

No New Fire House.

There is absolutely no truth in the report that another fire-house is to be located in the east end of the city at present. Neither the fire committee nor the Common Council feel justified in spending the large amount of money that such an improvement would require.

Will Open Monday.

The Daily Press has been informed on good authority that the Aluminum Press Company Works will be opened Monday with the full force of men. The company has lately received a great many orders for the two-color press, a recent invention.

New Uniforms for Drum Corps.

The Independent Fife and Drum Corps has ordered some new uniforms which will be donned for the first time at the North Plainfield fire department parade, October 17.

VANAUKEN TO MEET BULKLEY IN FINALS.

Surprises in Results of Semi-Finals of City High School Tennis Tournament.

FINE TENNIS WAS PLAYED.

TOOK THREE HARD SETS TO SETTLE EACH OF THE MATCHES.

Kenneth Bulkley Defeated Chester H. Briggs and Fred T. VanAuken Defeated Clarence C. Rocap in Three Deuce Sets.

The unexpected happened in the semi-finals of the tennis tournament for the championship of the Plainfield High School at the courts of the Cedar Brook Tennis Club yesterday afternoon. Kenneth Bulkley defeated Chester H. Briggs and Fred T. VanAuken defeated Clarence C. Rocap in two of the hardest and most stubbornly fought matches of the tournament. There was some great tennis played and the school boys proved themselves clever players. The matches took so long that the finals had to be postponed until this afternoon.

The first match in the semi-finals was between Bulkley and Briggs. Although Bulkley won the Hillside Club's championship last year, it was generally thought, from the showing made by the two players in previous matches this year, that Briggs would dispose of him. It looked that way at first, for Briggs was confident and played a clever game, winning the first set, 6-4. Then the tide began to turn. Bulkley began to use his racket with deadly precision. Briggs developed a weakness in his backhand strokes, of which Bulkley took immediate advantage. After twelve games of the prettiest tennis of the week, Bulkley won out 7-5. The next set was fought as fiercely. Bulkley was careful and accurate, while Briggs made some splendid rallies in an attempt to win back the lead. It was even work, but the Hillside player kept a trifle in front and finally won out in another deuce set, 7-5.

Most of the spectators picked Rocap for a winner in the second match. Van Auken was decidedly nervous when the set began and Rocap had no trouble in running the score up to 5-1. Then Van Auken, who is one of the best of the Cedar Brook Club, began to improve. Slowly but surely he crept up until the score stood 5 all. Rocap rallied and won out capturing the next two games.

The second set showed Van Auken in much better form. Rocap did clever work at the net but VanAuken's fast drives at the back line were too much for him. At first they won on their own serves but after the score 5 all, Van Auken captured two straight.

In the third set, VanAuken showed good judgment and kept his opponent at the back of the court as much as possible. There was also considerable improvement in the Cedar Brook player's accuracy. Rocap made a plucky fight and pulled up after Bulkley led, 5-3. The exhibition of tennis was of a high order, both players being at their best. By keeping his opponent in the back of the court, VanAuken won the set, 7-5.

The two matches lasted so long that it was impossible to play the finals yesterday afternoon. They will be played this afternoon after the opening round of the tournament in doubles. There are six entries for the doubles, but one team will default. It is expected that all but the finals will be completed this afternoon.

COOD SPEAKERS.

Will Take Part In Temperance Meeting at Vincent Chapel Monday Night.

Under the auspices of Howell Division, No. 97, S. of T., a special temperance meeting will be held in Vincent chapel, Monday evening. Rev. Mr. Bryant, of Somerville, former pastor of the First M. Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Astamalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel.
NEW YORK, Jan. 3, 1901.

DRS. TAFT BROS. MEDICINE CO.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

Very truly yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., February 5, 1901.

DR. TAFT BROS. MEDICINE CO.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. February 5, 1901.
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street. S. RAPHAEL.

A [illegible] TES

[illegible] Not [illegible] ley.

[illegible] DAYS.

[illegible] Even [illegible] Go-

WASHINGTON, [illegible]—The question of the [illegible] Rear Admiral Schley [illegible] Long's order to see that Cervera did not leave Santiago without being engaged was all prominent at the court of inquiry yesterday.

Schley contends that he did not receive it until May 31. Rear Admiral Cotton, who commanded the scout Harvard, thinks he delivered it May 27 and says he knows he delivered Sampson's announcement that Cervera was in the harbor on that day.

Captain Wise of the Yale says he notified the Texas of the presence of the Spanish fleet just after the flying squadron started for Key West May 27.

When the Schley court of inquiry reconvened at 11 o'clock after the adjournment caused by the sudden death of Judge Wilson, Commander L. C. Heilner was recalled in order that he might make any corrections he desired in his former testimony. The witness went very carefully over the printed testimony, made a number of changes, all of which were merely changes of phraseology, not material to the general bearing of his evidence, and corrections of printers' errors. Commander Heilner was then excused, and Alfred B. Claxton took the stand.

Claxton was a machinist on the Texas during the war. He testified that he was on watch in the port engine room on the morning of the battle. Claxton gave direct evidence that the port engine of the Texas was reversed some time after the battle began.

"The signal came by bell," he said, "full speed astern." The engine was so reversed and remained so for a couple of minutes.

Commander Heilner had testified that he heard Captain Philip give the order to reverse the engines to avoid collision with the Brooklyn, and Chief Engineer Bates had testified from his own personal knowledge that the starboard engine was reversed, so that point seemed now to be settled absolutely.

Rear Admiral Charles S. Cotton was then called. Admiral Cotton was in command of the auxiliary cruiser Harvard during the Spanish war.

"When and under what circumstances did you first fall in with the flying squadron?" asked the judge advocate general.

"On the morning of May 27," was the reply. "I had received orders to lie off Santiago and watch that port. That morning I personally delivered to Admiral Schley four or five dispatches from the navy department and from the commander in chief of the north Atlantic squadron."

In answer to questions the witness said that he went to the Brooklyn from his ship in a small gig, which he steered himself, and that the weather was moderate.

Admiral Cotton then told in detail of his visit to Schley and the conversation they had regarding the possibility of coaling.

Rear Admiral Cotton said he told Schley that he might coal his big ships one at a time under favorable conditions at St. Nicholas mole, but that he made no qualification regarding Gonaives bay.

In Schley's dispatch of May 28 to the navy department Schley said, "Harvard reports only small vessels could coal at Gonaives or mole."

Admiral Cotton said: "My conversation with Commodore Schley began about 10:30 a. m. and covered a very wide range. I delivered the original cipher dispatches, together with the translation made on the Harvard, in their order of date. The commodore received them, read them and commented in a general way on their purport.

"He spoke of the difficulty of getting coal on board the ships. He said that up to that time it had been almost impossible to get coal on board on account of the weather.

"He questioned me about the practicability of coaling ships at St. Nicholas mole or Gonaives channel. I said that as to St. Nicholas mole there was no question that the small ships could coal there and that as to Gonaives channel I knew of no reason why they should not coal there.

"The commodore made some remarks, the language of which I do not recall. He asked me how about the large ships at St. Nicholas mole, and I said, "You cannot coal your big ships there.' I had special reference to the battleships and the protected cruisers of the Brooklyn and New York class."

Interesting testimony was developed regarding Schley's inaction at Santiago. Admiral Cotton testified that he had laid before Schley the proposal of an officer to go ashore and ascertain if the Spanish ships were inside, that he had told Schley that the officer was fully competent to do it and that Schley had taken no action.

Captain William C. Wise, who commanded the auxiliary cruiser Yale, was called to the witness stand.

He told of the reconnoitering about Santiago harbor on May 22 previous to the arrival of the flying squadron

Captain Wise said that when on May 27 he approached the flying squadron, twenty-one miles off Santiago, the fleet had started upon its retrograde movement. He came up with the Texas and exchanged signals with Captain Philip, telling him that he believed the Spanish squadron to be inside the harbor there.

At 3:55 p. m. the court adjourned. There will be only one session today.

THE AMERICANS WON

Yale and Harvard Too Much For Oxford and Cambridge.

SIX OUT OF NINE EVENTS CAPTURED.

Greatest Event Was the One Hundred and Twenty Yard Hurdle Race, Won by Converse of Harvard by Barely Six Inches.

NEW YORK, Sept. 26.—The athletes of Yale and Harvard met the athletic representatives of Oxford and Cambridge universities yesterday at Berkeley Oval in track and field events, and, as was expected, the brawn and muscle of the American collegians proved to be too much for the visitors, the Americans winning six out of the nine events on the programme. Points were counted for wins only, so that the Harvard and Yale men defeated their English opponents by a score of six points to three. Some of the most sanguine admirers of the American athletes anticipated this score, but many of the more conservative Yale and Harvard adherents, including Evert Jansen Wendell, Harvard, '82, who was chairman of the committee of arrangements, said that they would be satisfied if the American boys won five out of the nine events.

A better condition of affairs weather-wise could not have been desired, as during the greater part of the afternoon the athletes were favored by warm sunshine and a cooling breeze which blew down the home stretch, but was not strong enough to aid the flight of the runners.

Between the American universities honors were equally divided, Harvard winning three events and the Yale men getting first honors in a similar number of events. The Oxford representatives failed to gain a point for the visiting team, the light blue of Cambridge being in front in all three contests which were won by Englishmen.

The greatest race and closest contest of the day was the 120 yard hurdle race. Garnier of Oxford and Converse of Harvard had the issue between themselves from the crack of the pistol. Up to the eighth hurdle they were abreast, several yards in front of Allcock of Cambridge and Clapp of Yale. Going over the last hurdle Converse gained a couple of inches, and as he threw his hands up at the tape the Harvard man was barely six inches in front of Garnier, the time being 15 3-5s.

Hargrave of Yale made a superhuman effort toward the finish of the 100 yard dash, which he won in 10 2-5s. Haigh of Harvard, who was on the inside, led for nearly fifty yards, when he was passed by Hind of Cambridge, who was next to him. Hargrave was equal to the occasion and with a wonderful spurt assumed the lead and won out by about a yard.

In the half mile Franchot of Yale won the toss for pole position, but as Workman of Cambridge wished to try for a record the Yale man conceded the position. Workman is certainly a great runner, but he was unable to break the record of 1m. 53 2-5s. established by C. H. Kilpatrick six years ago in the international games at Manhattan. Workman won very handily, with Cleave of Oxford second, in 1m. 55 3-5s., just 2 1-5 seconds behind the record.

Rust of Harvard won the quarter mile run in 50 seconds, with Boardman of Yale his closest attendant, neither of the Englishmen being able to get on even terms with the flying leaders at any stage of the game.

In the one mile run Cawthra, Cockshott and Gregson, all of Cambridge, made the running and held the lead between them into the last lap. Knowles of Harvard then made his effort, but the best he could do was to pass Cawthra, who immediately dropped back, Clark of Harvard running into fourth place. They ran in this order into the stretch, with Cockshott twenty-five yards ahead.

In the field events the Americans had it all their own way. May of Oxford caused a good deal of surprise by his exhibition with the sixteen pound hammer, and with a good tutor he will probably develop as a first class man at this branch of sport. His first throw was 119 feet 2 inches, but his second attempt was a wonderful improvement, as he threw the hammer 128 feet 3 inches, gaining second place to W. A. Boal of Harvard, who won with a throw of 136 feet 8 inches.

Spraker of Yale carried off the honors in the running high jump, clearing 6 feet 1½ inches.

He also won the running broad with a jump of 22 feet 4 inches, Ristine of Harvard being second with 21 feet 4 inches.

To Curb Tuberculosis.

BERLIN, Sept. 26.—The Prussian school inspectors are paying particular attention to the prevention of tuberculosis. The department of school inspection has received a pamphlet concerning the disease written by an American physician, with an order from the minister of public instruction directing the inspectors to consult with the teachers regarding preventive measures.

Prince Chun Will Not Visit Us.

BERLIN, Sept. 26.—Prince Chun, the Chinese envoy, will not return home by way of the United States. In accordance with telegraphic instructions the prince will go to Genoa and thence, Oct. 1, will sail direct for China.

WHITE HOUSE'S NEW MISTRESS.

Mrs. Roosevelt Occupies Presidential Apartments For the First Time.

WASHINGTON, Sept. 26.—Mrs. Theodore Roosevelt, the wife of the president, took up her permanent residence in Washington last night when as mistress of the White House she occupied apartments there for the first time. She reached the city about half past 9 o'clock, bringing with her two of the Roosevelt children, a governess and a housekeeper. Colonel Bingham, the superintendent of public buildings and grounds, met the party at the station at the request of the president and escorted them to the White House. President Roosevelt met Mrs. Roosevelt and the children at the porte cochere of the White House. Apartments in the southwestern part of the building have been specially fitted up for the new presidential family. New carpets and furniture have been bought and some painting and varnishing done.

President Roosevelt entertained a party of gentlemen at dinner last night before Mrs. Roosevelt arrived. They included Mr. M. G. Seckendorf of the New York Tribune, Mr. Henley Luce of Boston, former Lieutenant Colonel Brodie of the rough riders and Mr. John Barrett, former minister to Siam. They had left the house before Mrs. Roosevelt came. For two hours late in the afternoon the president enjoyed a horseback ride accompanied by Colonel Sanger, the assistant secretary of war.

Fast Pacing at Allentown (Pa.) Fair.

ALLENTOWN, Pa., Sept. 26.—Prince Alert equaled the world's pacing record of 2:04¾ on a half mile track at the Semicentennial Allentown fair. The race was a special match for $3,000 between Little Boy and Prince Alert. Little Boy broke badly in the first heat, and Prince Alert had to go unaided by competition. Driver Curry sent him for a record in the second heat, and the Prince responded nobly, moving as even as clockwork and finishing in 2:04¾.

CZOLGOSZ FAMILY INTERVIEW.

Prisoner Tells Nothing New to His Father, Brother and Sister.

BUFFALO, Sept. 26.—Paul, Waldeck and Victoria Czolgosz, father, brother and sister of Leon Czolgosz, the convicted assassin of President McKinley, were granted an interview with the prisoner in the Erie county jail. Assistant District Attorney Frederick Haller and Assistant Superintendent of Police P. V. Cusack were present under instructions of District Attorney Penney throughout the interview.

No other person will be allowed to see the prisoner until after the sentence of death is imposed.

The interview between the assassin and his father, brother and sister lasted thirty-five minutes, but no information leading to the implication of any one else in the anarchists' plot to kill the president was given by the prisoner.

"We learned nothing that we did not know before," said Assistant District Attorney Haller at the conclusion of the conference.

"He talked more than he has at any previous time, but even to his family he was not very communicative."

The family returned to Cleveland immediately after the interview.

But little of the conversation which passed between the members of the family could be gleaned. The officials said that the conversation was naturally such as would occur at such a meeting and that it was better to throw the mantle of secrecy over it.

However, authoritative announcement was made that Czolgosz denied absolutely that any one else was concerned in the plot to kill the president. He asserted, as he has from the outset, that he did the deed alone and unaided and that no other person in the world was concerned in the tragedy.

"I did it alone. There was no one else."

Several times the prisoner repeated these sentences when he was pressed to tell the true story of the assassination.

The prisoner asked nothing about the other members of his family or his friends and did not give any evidence of sorrow or regret over his act.

The father and brother were affected, naturally, over the meeting, but they gave little outward evidence of it. The sister cried all of the time.

The Duke's Westward Journey.

FORT WILLIAM, Ont., Sept. 26.—The special trains bearing the Duk and Duchess of Cornwall and their traveling companions westward to British Columbia spent the day on the rugged north shore of Lake Superior and at night had put Fort William and the lake behind them and were speeding on toward Manitoba. The day's run was for the most part through long stretches of unsettled country, but at all the widely separated towns and villages the people gathered to offer their cheers and welcome to the royal party. There were lumbermen, hunters and miners and some Indians in the little crowds, and the welcome was always a hearty one. The railway stations were all decorated, and each little settlement had a display of flags and bunting.

Terrific Storm In Nebraska.

LEXINGTON, Neb., Sept. 26.—A terrific windstorm visited this vicinity, accompanied by rain and lightning. Trees were uprooted, houses were lifted from their foundations and outbuildings of all kinds were destroyed. So far as known nobody was injured, but many horses and cattle were killed. The storm lasted thirty minutes.

Naval Changes.

WASHINGTON, Sept. 26.—Captains James M. Forsyth and George E. Ide have been placed upon the retired list upon their own application with the rank of rear admiral. Lieutenant George E. TROOPS CALLED OUT.

Kentucky's Governor Takes a Hand In Strike Troubles.

LONG STRUGGLE IN HOPKINS COUNTY

The Fight Between Union and Nonunion Miners Begun November Last Assumes More Serious Proportions.

LOUISVILLE, Ky., Sept. 26.—The mining troubles in Hopkins county have reached a crisis, and on the recommendation of State Inspector Hines, who was sent to the scene to investigate, Governor Beckham has ordered militia sent from Bowling Green and Owensboro to protect the property of the operators. Hopkins county has for a month been in a state of turmoil over the troubles between the mine operators and the union. Last November the United Mine Workers undertook to unionize the mines of Hopkins county. Some of the miners went out, but a majority preferred to continue at work. Both sides soon resorted to force. The union miners established a camp and declared war on the nonunion men. The operators hired guards to protect their property. While the company officials have used all the means at hand to preserve peace, numerous affrays have occurred and dozens of men have been wounded, but only two deaths have occurred.

Two union miners were killed by a deputy sheriff and a number of guards. Indictments were returned, and the accused parties are now awaiting trial. Meanwhile the union miners continued to harass the miners who remained at their tasks and tried to keep them from going to work.

Many of the nonunion miners are negroes. Miners' boarding houses have been riddled with bullets and blown up with dynamite. Both sides have repeatedly fired on one another. Last week the union forces, several hundred strong, succeeded in getting between the miners and the Reinecke plant and drove the miners who were on their way to work back at the point of Winchesters. The trouble grew so serious that troops were called out last week and kept waiting several days, but were not ordered to the scene pending the report of the inspector. He says the situation is critical and that the lawless elements are dangerous.

A Queer Will Contest.

UTICA, N. Y., Sept. 26.—A remarkable case is on trial in a special term of the supreme court in Herkimer. Menzo Shaul died and left $21,000 to be divided between those related to him as third cousins. In his will he wrote, "By the term third cousins I mean the children of those persons who are related to me as cousins." Eight hundred and seventy persons from all parts of the United States are asking for shares in the estate. They are represented by forty-three attorneys. The cousins are divided into four classes, and the court will be called upon to decide which class is entitled to the portion of the estate remaining after costs are paid.

Last Move For the Lincoln Remains.

SPRINGFIELD, Ill., Sept. 26.—The remains of Abraham Lincoln will soon be put away for all time, never to be disturbed again, in accordance with the wish of his son, Robert T. Lincoln. An excavation fifteen feet deep is being made beneath the vault where they now rest, and in this the casket will be placed. It will be surrounded by an iron case, which is to be imbedded in and made a part of a solid concrete block 8 by 8 feet and 13 feet long. The transfer will be made after the return of Governor Yates. This will make the twelfth removal of the body.

The Wilson Funeral Today.

WASHINGTON, Sept. 26.—The funeral of Jeremiah M. Wilson, who was Admiral Schley's senior counsel, will be held this afternoon in the Church of the Covenant in this city. The honorary pallbearers will include among others Secretary of Agriculture Wilson, General John M. Wilson, formerly chief of engineers U. S. A.; Admiral Dewey and Rear Admiral Schley, Justice Brewer of the United States supreme court and Justices Morris of the court of appeals and Bingham of the district supreme court.

Minister Bryan's Tour Completed.

RIO DE JANEIRO, Sept. 26.—Mr. Bryan, the United States minister, has returned to Rio de Janeiro, having completed his tour of all the United States consulates in nineteen governments and state capitals. He expresses himself as charmed with the reception everywhere accorded him. Immediately after his arrival he called upon President Campos Salles to thank him for the expressions of condolence on the occasion of the death of Mr. McKinley.

Starving Indians.

PORT TOWNSHEND, Wash., Sept. 26.—According to reports from Nome, brought by the steamer Oregon, the Indians in that section are threatened with starvation. During the past few months about 300 natives have visited Nome, bringing furs to trade for supplies. As soon as their goods were disposed of, however, whisky peddlers got among them, and they changed the proceeds of their sales for liquor.

Central New York Village Scorched.

UTICA, N. Y., Sept. 26.—Fire in West Winfield destroyed the Haggerty House and barn, the Wilcox block and The Star office. The damage is $25,000 and the insurance $13,000. In the Wilcox block were drug, furniture and gents' furnishing stores and barber shop.

The Plague at Naples.

NAPLES, Sept. 26.—Twelve cases of the plague have occurred here among the dock laborers.

Opponents of Progress.

These are the men who are holding up a needed improvement for the taxpayers of Plainfield and North Plainfield:

EDWARD HOGAN,
JACOB CRUSER,
WILLIAM HOWARD,
WILLIAM J. LOGAN,
RICHARD HOGAN.

Responsibility for the neglect to provide a suitable new structure over Green brook at Giraud avenue rests on the heads of the Somerset county Board of Freeholders. The Union county board stands a unit in its desire to construct a substantial concrete bridge, while some of the members of the Somerset county board are foolishly holding out in an effort to induce the others to provide for a cheap plank bridge, which will be throwing the taxpayers' money away.

It is well for the voters of Somerset county to be informed on matters of this kind so that they may be able to act intelligently. For the sake of the voters The Daily Press publishes the following roll of members who persist in acting against the interests of the county. Here is the roll: Edward Hogan, Jacob Cruser, William Howard, William J. Logan and Richard Hogan.

Local Politics.

The politicians appear to have waked up, and, in consequence, there is no end of political gossip going the rounds. Of chief importance is the gubernatorial contest, but then there are the county tickets to be chosen, and, in the cities of the State, the municipal offices are also to be filled. While the city campaign hasn't yet taken much prominence, there are a score of little booms for the various county offices which are being trotted out.

As far as Plainfield is concerned, it will probably secure a candidate for the Assembly, and possibly one for sheriff on the Republican ticket. As far as the Democratic ticket is concerned, the good things haven't been in the habit of coming this direction and there is no reason to think that this year will be any particular exception.

Over in Somerset county the Republicans and Democrats of North Plainfield may be expected to make something on their respective county tickets. From the present aspect of things it looks as if Mayor Smalley would be named for the shrievalty by the Republicans.

This controversy between Mayor N. B. Smalley and the "yellow journals" has its humorous side. The representative of one of the New York newspapers, who came out to do battle royal with His Honor, found out what a really entertaining man Mayor Smalley was. The Mayor did the honors of the town and then entertained the New Yorker at his home over night. Mayor Smalley made a statement, but it failed to show that His Honor had changed his position in the slightest.

It will be the turn of the local Democrats tomorrow evening to select the men who will represent them at the State convention. As the fight for the gubernatorial nomination promises to be exceedingly bitter, there will be more than the usual interest taken in picking the delegates. Supporters of Mayor Seymour do not appear to be remarkably plenty among the local workers.

People are wondering who is directly responsible for the failure of the Jersey Central Railroad to complete the building of the driveways leading to the new east-bound station. It would seem as if the higher officials of that company ought to see whom it is who has so neglected his duties.

Having decided that they want Franklin Murphy as their candidate for governor, the New Jersey Republicans have assembled at Trenton today to formally announce the fact and incidentelly to fix up a few minor details of the party government.

A remarkable interest has been shown in the tennis tournament for the championship of the Plainfield High School. It has also brought out the fact that there are some school boys here who can play good tennis.

There are several young men in this city who are beginning to feel the buzzing of the office-holding bee in their bonnet. Watch for them. It will not be long before they will be out in the open.

It is said that the extension of the trolley to South Plainfield is assured. Let the good work go on.

TEA TABLE TALK.

Short and Gossipy Sketches That Are Not Always News, But Just as Interesting.

In yesterday morning's mail, Justice Mattison received an envelope which enclosed another envelope. There was no writing within either envelope, but from the appearance of them both, some sort of an invitation was intended to be enclosed. The Justice naturally wants to accept the invitation, but is at a loss to whom to direct it, inasmuch as he drew a blank.

* * * * * * *

During the session of the Borough Council the other evening, Councilman Nichols announced that the nine bonds for $1,000 each, recently issued by the municipality, are considered good stock, inasmuch as Edwin S. Hooley, of Rockview avenue, who purchased them, has been offered $9,720 for the lot, by a North Carolinian. "Somebody down there must have heard of me and my administration," ventured the Mayor. "More likely they never heard of you" retorted Senator Reed. And a hearty laugh went around the room. Just then a resident of this city whispered: "Umph, guess they mixed you up with Plainfield." The sarcastic individual, needless to say, got the frigid stare.

Exposure to a sudden climatic change produces cold in the head and catarrh is apt to follow. Provided with Ely's Cream Balm you are armed against Nasal Catarrh. Price 50 cents at Druggists, or Ely Brothers, 56 Warren street, New York, will mail it. The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation, cleanses and cures. Cream Balm quickly cures the cold.

Meeting of Creditors.

There will be another meeting of the creditors of V. L. Frezee, who is now going through bankruptcy proceedings, in the office of Referee Atwood DeCosta at Newark, Monday, October 7. Lawyer Francis J. Blatz is the receiver. His report shows receipts in cash to be $462 80 and the disbursements $54 23

Sunday-School Convention.

The East New Jersey Baptist Sunday-school convention will be held in Jersey City Tuesday, October 15. There will be a large delegation from this city in attendance. Thomas A. Cuming, of Putnam avenue, is president of the association. An interesting programme is being prepared.

Isn't There Ye.

The much-needed stone walk has not yet been laid on the westerly side of Madison avenue, between the bridge and Front street. Such a walk is needed and it is the only improvement left to complete the work of opening the avenue into the borough.

DUNELLEN.

(Special Correspondence.)

Dunellen, Sept. 26—An unusual accident happened to a passenger on one of the trolley cars while going through Dunellen Tuesday. Some boys had previously placed a cartridge upon one of the rails of the trolley track and as the car ran over it there was a sharp report, and the passenger, whose hand was resting on the guard rail, was struck by the bullet which severely wounded the back of his hand. The injured man refused to divulge his name and proceeded on his journey after his injury was attended to.

The young men's class of the Presbyterian church held an informal opening of that organization in its club rooms Tuesday evening. Next Tuesday evening the members will give a reception to their many friends. The present officers of the club are Herbert Wyckoff, president, and Lewis Churchill, secretary and treasurer.

S. C. Sutten, Lewis Titsworth, Magnus Johnston, Nelson Fredricks and Charles Carpenter were delegates to the Newark convention of the Independent Order of Foresters, held yesterday.

The Democratic primary to elect delegates to the State and county conventions, will be held tomorrow evening in the Borough Hall.

Ralph Underzagt has secured the position of hostler at Walter C. Bunyon's livery stables. He takes the place of Fred Wrage who resigned.

William Smith is negotiating for the sale of his butcher business. He intends to start a pool room, to be located on North avenue.

Mr. and Mrs. A. N. Randolph left last evening for Suffren, N. Y., where they will attend the wedding of their nephew, LeRoy Sproul.

The Jr. O. U. A. M. held its regular meeting Tuesday evening in Apgar's Hall. Business of minor importance was transacted.

Rev. N. J. Sproul officiated at the funeral services of James Harris, held at his late residence Tuesday afternoon.

New Market, Sept. 26.—Mr. and Mrs. Charles Smith are rejoicing over the arrival of an infant son, who made his appearance Tuesday.

Mrs. L. E. Livermore is spending a few days at the home of Miss Florence Elle, of Lebanon, N. J.

The nutting season has begun and a consequent absence of boys on the streets is noticed.

Benjamin Carpenter is much improved from an attack of typhoid fever.

A colored troop of minstrels will perform in Friendship Hall this evening.

Miss Cora Dayton has been entertaining friends from out of town.

Daniel Moody has returned home after a trip to New York.

'PLAINS AND FANWOOD.

(Special Correspondence.)

Scotch Plains, Sept. 26—Chester Pope, who has been wanted by the local police for several days for being disorderly and committing an assault upon Special Officer Haberle, was corralled in Plainfield yesterday afternoon by Constable Allen. The prisoner was landed in the jail until last night when he was given a hearing before Judge Clark, who fined him $5 and costs.

Those interested in the formation of a football eleven to represent Scotch Plains on the gridiron this fall, are talking of calling a meeting for organization some evening next week. If the eleven is to be formed it is time it was done, so as to enable the players to get some practice before the opening of the regular season.

Twilight Council, Jr. O. U. A. M., will hold its regular weekly meeting in its rooms this evening. Business of importance will be transacted and a large attendance of the members is desired.

The members of the Epworth Literary Society met in the class rooms of the Methodist church last evening and enjoyed a pleasant reading and study of Sir Walter Scott's works.

George H. Batchelor and family, of West Seventh street, have returned home from a pleasant stay in Massachusetts.

Frank Spillaine, formerly of this city, but now of Brooklyn, has returned home after a visit with Plainfield friends.

The family of H. Raymond Munger, of Washington avenue, has returned to their home after a month spent in the White Mountains.

Charles J. Fisk, of West Seventh street, who has been spending most of the summer at Southampton, L. I., returned home yesterday.

Unique Newspaper.

Maze Edwards, of West Front street, has received from his son, who is in the Navy, a copy of "The Open Door," a very creditable little newspaper, published on the Battleship "Kentucky" by H. Whitman, a friend of Mr. Edwards' son. The paper is dedicated to the upholders of the Stars and Stripes in the Orient and contains much news of interest to those who are serving Uncle Sam in the Navy. It has eight page and on the front page is printed a picture of the "Kentucky."

Fraternal Visit Paid by Officer

Grand Foreman V. W. Nash, of the Ancient Order United Workman, paid a fraternal visit last evening to Enterprise Lodge, of Camden, where he made an address. Yesterday afternoon the finance committee of the Grand Lodge met at Camden and transacted business of a private nature.

Attention Needed.

On Elmwood place, near the corner of West Front street, there is a board walk that is in bad condition, and besides grass and weeds are allowed to grow until at some points the walk is almost covered. Attention on the part of the street commissioner would correct this nuisance.

Organizing a Mixed Choir.

Efforts are being made to organize a choir of mixed voices at St. Stephen's church, Netherwood. There is some excellent talent among the members of the church and a strong choir will no doubt be organized soon that will materially increase the interest in the services.

Act of Mercy.

A horse belonging to Moses Carey, of Manning avenue, dropped from exhaustion and old age on Somerset street yesterday. The animal was put out of its misery by William N. Pangborn, the State officer of the State Society for the Prevention of Cruelty to animals.

Many Cases at Hospital.

During the past few weeks the nurses at Muhlenberg Hospital have been kept very busy with private cases. The accomodations have been taxed to the limit. Fortunately, there have been few accident cases to add to the duties of those in charge.

FACTS ABOUT MANCHURIA.

Russia's Policy a Conciliatory One. Rich Gold Mines Abound.

WASHINGTON, Sept. 26.—The state department has received from Commercial Agent Greener, at Vladivostok, a most comprehensive report on conditions in Manchuria.

Mr. Greener says there is much exaggeration as to the number of Russian troops in Manchuria. He places their number at about 20,000. Manchuria, he says, has an area of 363,000 square miles, is one of the most fertile countries on the globe, and there are no better crops in all Asia.

"The Mantchoos," says Mr. Greener, "have barely scratched the surface, and yet the business activity, the actual traffic and the tangible results are a continual surprise."

American goods, it is stated, are already known and favored on account of their cheapness.

As to Russia's plans in regard to Manchuria Mr. Greener says: "The Russian's policy is one of conciliation. He knows how to deal with Chinese. He will not supersede the Mantchoo as an agriculturist, however, or even as a miner. It will be some time before he is a success, in the western sense, in either of these lines."

As to exploring permits for mining and other purposes, it is stated that such permission does not now depend on Russian authority, but must come from Peking through the Chinese governors.

The area of goldfields in Manchuria, says Mr. Greener, extends more than 1,127 miles along the shores of the Argun and Amur rivers, and there is no doubt as to the richness of the mines. He says that small parties of Russians illegally mining there earned from $30 to $100 a day.

The statements that no foreigners are allowed to go into Manchuria, says Mr. Greener, are to an extent true. Only Russians and Chinese may go into the country overland. It would not be safe, he says, for many foreigners to venture into the country now.

Schroeder Starts For Guam.

WASHINGTON, Sept. 26.—Commander Seaton Schroeder, governor of Guam, who was summoned to this city to appear before the Schley court of inquiry, left here today on his way back to Guam. He has made a report to the navy department of the trouble which occurred in his command several months ago as a result of "hoodlumism and lawlessness." The report will not be made public at this time. Governor Schroeder had an interview at the navy department with Acting Secretary Hackett and Mr. Barnett, foreign representative of the St. Louis exposition, in regard to securing an exhibit of the natural resources of the island of Guam at the St. Louis exposition.

Blackmailers Caught.

PLATTE CITY, Mo., Sept. 26.—A few days ago Superintendent Hohl of the Burlington route received a letter, unsigned, mailed at Waldron, Mo., demanding of the Burlington that $4,000 be deposited by a certain light on the public road below Waldron or the tracks would be blown up with dynamite. Superintendent Hohl, Detective McMichael and Sheriff Elgin of Platte county went to the place at the appointed time and captured John and James Sanderson, one of whom has confessed, implicating his brother. They were brought to Platte City and are now in jail awaiting a preliminary examination.

First Cargo of Coal to Europe.

PHILADELPHIA, Sept. 26.—The British steamship Ormesby has been chartered to take the first full cargo of Pennsylvania anthracite coal that has ever been shipped to Europe from the United States. The cargo will consist of 3,600 tons and will be shipped to Stettin, Germany, but will finally go to Berlin. The coal will be laid down in Berlin at 31s. 6d. per ton, which is 2 shillings cheaper than Welsh cannel, which is generally used on the continent. The coal is for use in American stoves which have been shipped to Europe lately in large numbers.

End of Pan-American Stamps.

WASHINGTON, Sept. 26.—The postoffice department has issued a special notice to all postmasters announcing that the sale of postage stamps of the Pan-American issue will be discontinued at the close of business Oct. 31 next, with the close of the exposition. On Nov. 1 all Pan-American stamps on hand at every postoffice will be sent by registered mail for credit to the department here. Pan-American stamps in the hands of the public will continue to be good for postage indefinitely.

Duryea Will Valid.

NEW YORK, Sept. 26.—The will of the late Edgar Duryea, the millionaire starch manufacturer, over which there has been a contest, has been declared valid by a jury in the supreme court at Mineola, N. Y. The will gives Walter Duryea, who is helpless from a broken spine, the use of the income of the estate for two years, and if at the end of that time he still lives the bulk of the estate goes to him absolutely. Walter's three sisters were the contestants.

At Baron Steuben's Grave.

UTICA, N. Y., Sept. 26.—A party of representative New York Germans headed by Hon. Sixtus Carl Kopff and accompanied by members of the Utica Maennerchor visited the grave of Baron Steuben, the famous Revolutionary hero, near Remsen, and held appropriate exercises.

Snow In North Dakota.

BOTTINEAU, N. D., Sept. 26.—More than two inches of snow has fallen here, and it is still storming. Four inches of rain has fallen in the last three days. Much grain will rot in the fields unless the weather changes soon. Not one-third of the grain is thrashed.

LIVER TROUBLE.
When too much bile, impure and poisonous, is retained in the blood it is sure to result in serious trouble. A lazy liver is the cause of such a condition. Ripans Tabules stimulate the liver and make it do its work properly. "For a number of years I suffered with liver and stomach trouble," says a Philadelphia, Pa., lady. "After eating I would swell so that I would have to undo my clothes. I had such pain in my back that I sometimes thought I would go crazy. Liver spots came on my face and I was a sight. I took every remedy I heard of and went to doctors but obtained no relief. At last I heard of Ripans Tabules. I have taken them for three months and now I am well again and can truly say that they are of great value and I would not be without them. I hope this statement of facts will do others good."

HOW TO SELECT A NEW HAT

The Well Dressed Woman Gives Her Friend a Few Timely Hints.

"Speaking of fall hats, when I go to the milliner's I never wear anything particularly becoming," remarked the well dressed woman. Then, noticing her friend's astonishment, she proceeded to explain. "That doesn't mean that I put on dowdy clothes, but that I don't wear next to my face any color that is particularly flattering. Lots of women make mistakes that way. They buy a hat, thinking it is becoming, and when they get home they realize that it was only the particular gown or collar they had on which made it appear so. Then, too, most women don't study their faces. If hats are fashionable worn off the forehead, they buy one of them, and if, on the contrary, the edict goes forth that small toques are the thing, worn straight over the nose, they immediately change what they are wearing for a hat of the prevailing style.

"TAKE A SIDE VIEW."

"Now, that is all wrong. If women would take a side and a back view of their heads as well as a front view, they would see themselves as others see them and thereby gain better ideas of proportions. The little woman with a long neck and a roll of bushy hair in the back would not increase the apparent length of her head by wearing a heavily trimmed hat tipped forward so as to raise its back. The woman with a high forehead and a receding chin would never in the world wear a hat tilted away from her face if she could see the brainless aspect that it gave her profile, and her neighbor with the heavy jaw would be equally careful not to invest in headgear which tipped so far down that it concealed the upper and better part of her face. The woman with high cheek bones and lines around the eyes would buy a hat inclined sufficiently to throw soft flattering shadows over the upper part of her face if she studied herself, and the woman with hard features would forego her usual tailor made styles and adopt something with a soft draped brim, which would make her look less formidable.

"Then, too, instead of becoming hypnotized by a glib milliner's assistant and a pretty bit of coloring a woman should reflect on what she wants the hat for. In the case of a woman of ordinary means the first hat purchased should be a stylish but well built and practicable one which could be worn on all but very dressy occasions. It should be perfectly black, made of velvet or fine felt and trimmed with a long soft breast or a single full ostrich feather. A long bow of skillfully crumpled panne velvet is infinitely to be preferred to an inferior breast or ostrich feather, the object of the hat being both style and durability. After this practical piece of millinery has been bought then the more showy afternoon or evening hats can be considered. They may even be successfully attempted at home, because by that time the styles will have become more definite and therefore more easily copied, but one's everyday hat, the hat to go with one's tailor made suit, should be durable and correct in every line."

As the well dressed woman triumphantly concluded this advice her friend departed to put it into practice.

UNIVERSAL PEACE.

Women's Organizations the World Over Are Working For It.

Do you know that there is in existence, and has been several years, a society called the Women's Universal Peace alliance, composed of noble and devoted women, who are working to promote good will and brotherhood among all nations? The president of this organization is Princess Wiszniewsik, and its headquarters are at 7½ Rue du Debarcadere, Paris, France. At the exposition last year the alliance had a booth displaying the flags of all the nations of the earth waving in harmony. Except drinking and eating places, this was the only spot where the flags of all countries did thus wave.

Any woman may join the alliance. It inaugurates the grandest crusade ever undertaken in the world's history. This white army marches not over fields of blood, trampling the dead and dying, butchering their brothers, burning the homes of women and babes, tearing people from allegiance to a government they love, forcing them to swear fealty to one they hate. The leader of this army of women is the Prince of Peace. The society has branches in all the civilized countries. It is fitting that the women of the United States should be among the foremost in the peace movement. Their country is the only one that has land enough, the only one China does not suspect of designs on her territory.

Mankind are finding that war is not a necessity. There are obstacles enough for men to conquer, obstacles requiring all their pluck, all their strength and resources, without turning their powers against each other.

The nineteenth century went out in blood. Women who love and suffer are the most unhappy victims of war. Today they are striving, praying that the sun of the twentieth century may go down smiling back in the face of peace upon earth. Hand in hand they stand, wives, mothers, sisters in all the lands, asking that nations shall live and let live; that they shall settle their differences by friendly arbitrations; that human butchery shall be no more.

SUSAN PEPPER.

[CONTINUED.]

"Oh," she said, with an eye-flash, "I know what you have most at heart. But we will go back to the pyramid

"BACK WITH YOU, OUTSIDE THIS CIRCLE."

and talk this out at more leisure. I pray you now, my lord, conduct me back to my riding beast."

It appeared then that I was to be condoned for not offering her worship, and so putting public question on her deification. It appeared also that Ylga's interference was looked upon as untimely, and, though I could not understand the exact reasons for either of these things, I accepted them as they were, seeing that they forwarded the scheme that Zaemon had bidden me to carry out.

So when the empress lent me her fingers—warm, delicate fingers they were, though so skillful to grasp the weapons of war—I took them gravely, and led her out of the great circle, which she had polluted with her trickeries. I had expected to see our Lord the Sun take vengeance on the profanation while it was still in act; but none had come, and I knew that he would choose his own good time for retribution and appoint what instrument he thought best, without my raising a puny arm to guard his mighty honor.

So I led this lovely, sinful woman back to the huge red mammoth which stood there tamely in waiting, and the smell of the sacrifice came after us as we walked. She mounted the stair to the golden castle on the shaggy beast's back, and bade me mount also and take seat beside her. But the place of the fan-girl behind her was empty, and what we said as we rode back through the streets there was none to overhear.

She was eager to know what had befallen me after the attack on the gate, and I told the tale, laying stress on the worthiness of Nais, and uttering an opinion that with care the girl might be won back to allegiance again. Only the commands that Zaemon laid upon me, when he and I spoke together in the sacred tongue, did I withhold, as it is not lawful to repeat these matters save only in the high council of the priests itself as they sit before the Ark of Mysteries.

"You seem to have an unusual kindliness for this rebel Nais," said Phorenice.

"She showed herself to me as more clever and thoughtful than the common herd."

"Aye," she answered, with a sigh that I think was real enough in its way, "an empress loses much that meaner woman gets as her common due."

"In what particular?"

"She misses the honest wooing of her equals."

"If you set up for a goddess—" I said.

"Pah! I wish to be no goddess to you, Deucalion. That was for the common people; it gives me more power with them; it helps my schemes. All you seven higher priests know that trick of calling down the fire, and it pleases me to filch it. Can you not be generous, and admit that a woman may be as clever in finding out these natural laws as your musty elder priests?"

"Remains that you are empress."

"Nor empress either. Just think that there is a woman seated beside you on this cushion, Deucalion, and look upon her, and say what words come first to your lips. Have done with ceremonies, and have done with statecraft. Do you wish to wait on as you are till all your manhood withers? It is well not to hurry unduly in these matters; I am with you there. Yet who but a fool watches a fruit grow ripe, and then leaves it till it is past its prime?"

I looked on her glorious beauty, but as I live it left me cold. But I remembered the command that had been laid upon me, and forced a smile. "I may have been fastidious," I said, "but I do not regret waiting this long."

"Nor I. But I have played my life as a maid time enough. I am a woman, ripe and full-blooded, and the day has come when I should be more than what I have been."

I let my hand clench on hers. "Take me to husband then, and I will be a good man to you. But, as I am bidden speak to Phorenice the woman now, and not to the empress, I offer her fair warning that I will be no puppet."

She looked at me sidelong. "I have been master so long that I think it will come as enjoyment to be mastered sometimes. No, Deucalion, I promise that—you shall be no puppet. Indeed, it would take a lusty lung to do the piping if you were to dance against your will."

"Then as man and wife we will live together in the royal pyramid, and we will rule this country with all the wit that it has pleased the high gods to bestow on us. These miserable differences shall be swept aside; the rebels shall go back to their homes, and hunt, and fight the beasts in the provinces, and the Priests' clan shall be pacified. Phorenice, you and I will throw ourselves brain and soul into the government, and we will make Atlantis rise as a nation that shall once more surpass all the world for peace and prosperity."

Petulantly she drew her hand away from mine. "Oh, your conditions, and your Atlantis! You carry a crudeness in these colonial manners of yours, Deucalion, that palls on one after the first blunt flavor has worn away. Am I to do all the wooing? Is there no little thrill of love under all your ice?"

"In truth, I do not know what love may be. I have had little enough speech with women all these busy years."

"We were a pair, then, when you landed, though I have heard sighs and prostrations from every man that carries a beard in all Atlantis. Some of them tickled my fancy for the day, but none of them have moved me deeper. No, I also have not learned what this love may be from my own personal feelings. But, sir, I think that you will teach me soon, if you go on with your coldness."

"From what I have seen, love is for the poor and the weak, and for those of flighty emotions."

"Then I would that another woman were empress, and that I were some ill-dressed creature of the gutter that a strong man could pick up by force and carry away to his home for sheer passion. Ah! How I could revel in it! How I could respond if he caught my whim!" She laughed. "But I should lead him a sad life of it if my liking were not so strong as his."

"We are as we are made, and we cannot change our inwards which move us."

She looked at me with a sullen glance. "If I do not change yours, my Deucalion, there will be more trouble brewed for this poor Atlantis that you set such store upon. There will be ill doings in this coming household of ours if my love grows for you, and yours remains still unborn."

I believe she would have had me fondle her there in the golden castle on the mammoth's shaggy back, before the city streets packed with curious people. She had little enough appetite for privacy at any time. But for the life of me I could not do it. The gods know I was earnest enough about my task, and they know also how it repelled me. But I was a true priest that day, and I had put away all personal liking to carry out the commands which the council had laid upon me. If I had known how to set about it, I would have fallen in with her mood. But where any of those shallow, bedizened triflers about the court would have been glibly in his element, I stuck for lack of a dozen words.

But here, by a lucky chance for me, an incident occurred which saved me from further baiting. The rebels outside the walls were conducting their day's attack with vigor and some intelligence. More than once during our procession the lighter missiles from their war engines had sang up through the air and split against a building, and thrown splinters which wounded those which thronged the streets. Still there had been nothing to ruffle the nerves of anyone at all used to the haps of warfare, or in any way to hinder our courtship. But presently, it seems, they stopped hurling stones from their war engines, and took to loading them with carcasses of wood lined with the throwing fire.

Now against stone buildings these did little harm, save only that they scorched horribly any poor wretch that was within splash of them when they burst; but when they fell upon the rude wooden booths and rush shelters of the poorer folk, they set them ablaze instantly. There was no putting out these fires.

These things also would have given to either Phorenice or myself little enough of concern, as they are the trivial and common incidents of every siege; but the mammoth on which we rode had not been so properly schooled. When the first blue whiff of smoke came to us down the windings of the street, the huge red beast hoisted its trunk, and began to sway its head uneasily. When the smoke drifts grew more dense, and here and there a tongue of flame showed pale beneath the sunshine, it stopped abruptly and began to trumpet.

The guards who led it tugged manfully at the chains which hung from the jagged metal collar round its neck, so that the spikes ran deep into its flesh, and reminded it keenly of its bondage. But the beast's terror at the fire, which was native to its constitution, mastered all its new-bought habits of obedience. From time unknown men have hunted the mammoth in the savage ground, and the mammoth has hunted men; and the men have always used fire as a shield, and mammoths have learned to dread fire as the most dangerous [illegible]

THE BASEBALL ROW.

Settled by the Expulsion of Shugart from the League.

Decision, Although Seemingly Severe, Is for the Good of the Sport —History of the Disgraceful Episode.

The case of Shortstop Frank Shugart, of the Chicago baseball team, who has been expelled from the American Baseball league by President Ban Johnson, brings to a crisis the recent outbreak of rowdyism in baseball.

There are many baseball enthusiasts who criticise most severely President Johnson's radical course in disbarring Shugart forever from the American league. But before such a view is taken of the case the facts must be considered, says the Chicago Inter Ocean.

Shugart's offense occurred in the game of August 21 at Washington. The Senators were at bat and two men were out. Clark and Foster were on first and second bases. Coughlin came to bat, and had three balls and two strikes called on him. The next ball appeared to be a strike, and if so declared would have ended the inning, but Umpire Haskell said "ball," and Coughlin took first. Jack Katoll, pitching for Chicago, protested. Clingman came to bat and hit for three bases, sending in three runs. The next ball pitched went through Catcher Sugden's hands and hit Umpire Haskell on the shoulder. He gave Clingman a base, scoring another run.

It was an extremely aggravating case, a test of the Chicago's player's good temper. Katoll, enraged, threw the ball at the umpire and hit him on the leg. Shugart came up and struck Haskell a blow on the mouth, cutting his lip. Both Chicago players were arrested by the police.

It may be true that Umpire Haskell had been generally "giving Chicago

BAN B. JOHNSON.
(The Energetic President of the American Baseball League.)

the worst of it." It may be true that the two decisions he gave were unfair to Chicago. But the umpire is designated by the rules of the game to decide such points, and a method of protest is provided in case he makes mistakes. In any event, there is no excuse for a player's losing his temper.

The love of fair play is the strongest characteristic of the American public in sporting matters. For each game of skill or chance or strength which enjoys popularity there is a well-defined set of rules. We believe that the public desires in any game that the rules should be followed by all contestants—in other words, that there should be fair play. Shugart undoubtedly broke the baseball rules most flagrantly. Furthermore, he lost his temper completely, and a man who cannot keep his temper has no place in any game.

Aside from general considerations, if baseball is to remain the national sport—and we earnestly hope it will—it must be kept a clean and fair test of skill. Once let dirty play and rowdyism and breaking of the rules enter, as has been seriously threatened lately, and it will suffer the fate of professional rowing and other sports. For this reason, the sentence pronounced on Shugart was necessary though severe. It is undoubtedly hard on Shugart and the Chicago club, but it means the greatest good for the greatest number in the baseball world.

President McKinley's Mail.

From the date on which the president begins his annual message until the close of each session of congress, from 1,000 to 1,500 letters are received daily, says Leslie's Weekly. Even in summer the daily average is rarely less than 300. The president sees only the letters of his friends, and those of high officials in regard to personal matters. Only those of obvious importance reach even Mr. Cortelyou, who makes a memorandum or brief of the contents of any letter that may be likely to require the president's attention. The letters are all assorted by Mr. Cortelyou's corps of clerks, and fully 80 per cent. are forwarded to the various executive bureaus and divisions of which each department is composed, and all that are worthy of attention are answered as promptly as possible.

Would Not Kiss the Rector.

A young lady student of the University of Prague, upon whom the degree of "Juris utriusque doctor" was to have been conferred, refused to be kissed by the rector of the university, who, following an ancient custom on such occasion, bent down to touch the young doctor's forehead with his lips. The senate of the university will on the reopening of the session consider the advisability of abolishing the academic custom in the case of female graduates.

SPORTING.

ON THE DIAMOND.

Hope chapel's great weakness this year has been at the bat. There are few good hitters on the team and this has materially weakened the show of the nine.

It is probable that the St. Mary team will have for her opponents, Saturday, the Y. M. C. L. A. nine, of Elizabeth. If the game can be arranged in time, it will take place on the St. Mary grounds.

Hope chapel has but one more game this season. This will be played on its own grounds Saturday. Which team will be selected, as opponents to wind up the season with, has not been announced by Manager Foster.

Manager Foster, of the Hope chapel team, is the only conductor of a baseball team in this city who keeps score for the games in which his nine participates. He is in all probability the best scorer in this city and the Hope chapel boys are fortunate in possessing such a man.

Manager Foster, of the Hope Baseball team, has been negotiating for a game to take place Saturday with the Cuban Giants, the colored organization which tied last Saturday with the Scotch Plains nine. If his terms are accepted announcement of the game will be made in due time.

Now is the time to make arrangements for the organization of a letter carriers' nine for next season. The trouble has been in the past that the matter has been deferred until it was too late for the men to get together. They did organize late this season, and the result was lamentable.

Negotiations are still pending between the managements of the St. Mary and Scotch Plains nines for one or more games to be played before the season closes. No agreement has been reached as yet, but matters at present appear as if a successful culmination would be reached. Manager Monahan, of the St. Mary team, has also made overtures to the Y. M. C. L. A., of Elizabeth, for a game in this city within the near future.

An agreement was reached yesterday between Captain Overbaugh, of the local policemen's baseball team, and the manager of the Elizabeth policemen, in regard to the third and last game in the series. It is now certain that it will be played two weeks from today in this city. Captain Overbaugh wished to have it played next week but the Elizabeth men wished time to practice, and also wait until two of the principal players were transferred to night duty.

ON THE GRIDIRON.

The Fair View Giants will play the Manning Athletic Club's eleven on the Westervelt avenue grounds Friday afternoon.

The Fair View Giants defeated the Watchung Specials on the Westervelt avenue grounds yesterday afternoon. The score was 18 to 0. This was the first game of the season for both elevens.

The American college football teams will open their contests on the gridiron Saturday. The last games of the season will be played Thursday, November 28, although the annual contest between Annapolis and West Point will take place two days later.

The Watchung football team, of which Charles Woolston is manager, has secured a game with an eleven from Company M, of Somerville, to be played on the latter's grounds Saturday afternoon. The local eleven will devote considerable time this week to practice.

It has been suggested that the City High School Athletic Association have two teams on the gridiron this fall. The idea is to develop material for the future, as with the light and raw material at hand the boys do not expect to be able to accomplish much this season.

The famous Alls A. A. will again be in the field this season with a hustling football eleven. Most all of the old players have again joined, and from present prospects the team will be stronger than ever. A practice game was held Saturday and it was seen that none of the members had lost their old time strength and ability which made the team a worthy opponent in past years. The management is desirous of arranging games and would be pleased to hear from teams averaging 145 pounds.

VARIOUS SPORTS.

The N. P. H. S. A. A. will hold an important meeting tomorrow afternoon at 2:30. Among the matters to be considered is the adoption of a new constitution. Any other business that the members wish discussed will be attended to.

LAWN TENNIS.

The North Plainfield High School boys have organized a tennis club and are practicing daily. The intention of the pupils is to issue a challenge to the crack players in the Plainfield High School Association.

DEMOCRATIC PRIMARIES.

Balloting For State Delegates in Borough Tomorrow Evening.

The Democratic primaries in North Plainfield will be held tomorrow evening. The call for the primaries has been duly made by the Democratic county chairman of Somerset.

In the borough the place designated for the primary of the First district is the Somerset street schoolhouse and in the Second district the voting will take place in Saengerbund Hall. Both meetings will be called to order at 8 o'clock.

In all other districts of the county the primaries will be held Saturday evening for the reason that it is a more convenient time for the farmers to attend the affair. Delegates will be elected to the State Democratic convention, which meets in Trenton Oct. 1. North Plainfield is entitled to four representatives.

WILL PARADE.

City Fire Department Given Permission to Appear in Borough.

At the meeting of the Councilmanic fire committee, held last evening, permission was given for the majority of the uniformed men of the department to participate in the firemen's parade to be held in the borough. Permission was also given to have the hook and ladder truck and engine used on that occasion. George H. Fairchild, Julius Stahl and David Bodine, as a committee from the borough, waited on the fire committee and secured their support so far as possible toward making the parade a success.

MRS. M. E. SCHOONMAKER DEAD.

Passed Away at Lakeville, Connecticut—Funeral at Family's Convenience.

Mrs. Mary Elizabeth Schoonmaker, wife of George B. Schoonmaker, of this city, died yesterday at Lakeville, Conn., where she was staying for some time past. She is survived by a husband, a daughter, Marjorie Schoonmaker, and a step-daughter, Mrs. Clifford McGee. The latter lives in North Plainfield. The funeral will be at the convenience of the family.

Card of Thanks.

To the Editor of The Daily Press:—Permit me through the columns of your paper to express thanks and appreciation to those friends and neighbors who so generously assisted me during the recent illness of my wife. I also wish to thank them for their thoughtful actions after her death. Respectfully,

FRANKLIN MURPHY REPUBLICAN NOMINEE.

(CONTINUED FROM PAGE 1.)

same place, secretary. The other officers are: Vice-president, Assemblyman H. W. Hoagland, of Somerville; resolutions, C. H. Bateman, of Somerville; permanent organization, John F. Bager, Somerville; rules, Harry Herbert, of Bound Brook; credentials, O. H. Gordon, of Franklin.

The State committee had appointed a committee on resolutions to prepare a platform, and the members selected gathered early in the evening and worked until after midnight. This committee consists of Clerk in Chancery E. C. Stokes, Senator Mahlon Pitney, Supreme Court Clerk William Riker, Jr., Congressman John J. Gardner and Congressman Fowler.

State Senator McCarter, according to arrangements, announced that he was prepared to place Mr. Murphy's name before the convention and that the nomination would be seconded by George L. Record, of Jersey City.

While the last details of the convention were being fixed and the different county caucusses held, there was an informal reception in room 100. While the veteran leader, Gen. Sewell, was not there, the hero of the occasion, Franklin Murphy, was and he had a cordial word for all. U. S. Senator Kean was at his left hand.

At 11:45 the throng of delegates began to move in the direction of the Taylor Opera House, where the convention was to meet. It was not until ten minutes after the noon hour that Chancery Clerk E. C. Stokes, vice-chairman of the State committee, called the assemblage to order. The decorations were simple, consisting of flags and bunting, and a large picture of the martyred President was prominently displayed. Prayer was offered by Rev. H. R. Robinson, pastor of the First M. E. church, of Trenton.

In a short but earnest address Mr. Stokes presented the name of Former U. S. Attorney General John L. Griggs as temporary chairman. When the Attorney General took the chair he began an address which was, without doubt, the feature of the convention. It was a strong exposition of the aims and accomplishments of the Republican party at home and abroad, and contained a grand tribute to the late President McKinley, in whose Cabinet Mr. Griggs had been. It was received with much enthusiasm and was frequently interrupted by applause.

Then followed the appointments of the vice-presidents and committees. The roll was called and each county named its candidates. A short recess was taken to allow the committees to meet and complete their work.

It was not long before the convention went into session and adopted the platform presented by the committee on resolutions. It began by calling attention to the wisdom of President McKinley's last statement and denouncing in vigorous terms the act of the assassin. The Republican party's friendship to labor was called attention to.

The present administration of Gov. Voorhees was heartily endorsed and special stress laid on the large appropriation for the State school taxes. The party is pledged to continue along the same lines and use the State surplus to reduce local taxation. An appeal to the people of New Jersey to continue to support the party ends the platform.

The other committees had the usual reports to make. The temporary organization was made permanent.

In the calls by counties for nominations, the floor was given to State Senator Thomas N. McCarter, of Essex.

In a short address he presented the name of Franklin Murphy for governor. It was received with wild cheers. The nomination was seconded by George L. Record, of Jersey City. There wasn't any question about the nomination and it was promptly tendered by the unanimous vote of the convention.

Held for Rent.

Goods belonging to the Mendele & Blauvelt Vaudeville and Novelty Company are being held pending a settlement of rent for Washington Hall. The janitor of the hall, who leased the same to the company, received $10 down, but there is yet $15 due. The company expects to settle the claim this afternoon.

Piscataway Township Delegates.

At the Piscataway township Democratic primary held Tuesday evening, the following delegates were elected: State convention, J. V. D. Field, alternate, C. E. Kelley; county convention, Abram J. Nelson and Charles M. Kelley, alternates, C. T. Rogers and B. Dewitt Giles.

Death of Infant.

The death of Lizzie, the infant daughter of Mr. and Mrs. Anthony Carono, of Scotch Plains, occurred yesterday. Funeral services will be held from the parents' residence tomorrow afternoon at 2 o'clock. Interment will be in St. Mary's cemetery.

THE SHAMROCK IS LEADING.

BUT IT IS NOT LIKELY THAT THEY WILL FINISH IN TIME.

Columbia Led at the Start—The English Yacht Finally Took the Place.

(Special to The Daily Press.)

New York, September 26, 1901—Large crowds are aboard every sort of available craft anxiously awaiting the appearance of the Columbia, which will fly the flag of the New York Yacht Club, and the Shamrock II, which sails under the colors of the Royal Ulsters. The first of the five races for the America Cup is scheduled for 11 o'clock this morning.

At 10:04 both yachts are now being towed to Sandy Hook Light House. The wind has a velocity of twelve miles an hour and the weather is slightly hazy.

At 11:05, the contesting boats are at the starting point. The wind is moving at the rate of nine miles an hour.

At 11:10, the boats crossed the line at and the Columbia is now leading. The wind is northeast by east.

At 12:10 Columbia is now slightly in the lead.

At 12:45, the Columbia seems to be in the lead. The wind is decreasing.

At 12:55, the wind is increasing somewhat but is unsteady, and the yachts are turning northeast of the turning point.

Columbia has gained considerably in the last twenty minutes and is now a full quarter of a mile in the lead.

At 1:49 the boats are tacking to the stake boat and the Shamrock has a good lead. Both boats are on starboard tack.

At 2:10 the boats have not yet turned the mark and have been out for three hours. Shamrock still leads.

LEAL'S TOURNAMENT.

School Boys Hold Championship Tennis Match at Park Club Courts.

The tennis tournament for the championship of the Leal School was opened yesterday afternoon on the courts of the Park Golf Club.

The contest in singles was started and six matches in the first round played. A fair-sized crowd witnessed some very good tennis.

Donald McGee defeated Charles Perkins, D. C. Hall defeated D. H. Barrows, A. M. Fowler defeated Hartley Mellick, William Doane defeated Kerro Knox, Frank Rogers defeated Stuart Symons and Charles Robert lost to M. P. Rogers. The second round will be played this afternoon.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., FRIDAY SEPTEMBER 27, 1901. TWO CENTS A COPY—$5 A YEAR

ACTIVITY AMONG THE ASSEMBLY CANDIDATES,

A Number of Plainfielders Are Possibilities For Nomination to Lower House.

OTHERS FROM THIS COUNTY.

ASSEMBLYMAN FOOTE WOULD NOT BE AVERSE TO RENOMINATION.

Would Have Chance of Being Speaker—His Colleagues Will Also Be in the Race Against Others Spoken of For Places.

Although the races have not yet begun, there are a number of entries by political thoroughbreds after county honors. Chief among these are several who will be trotted out for the Assembly. Charles S. Foote, of this city; Ellis R. Meeker, of Elizabeth, and Chester M. Smith, of Westfield, are the ones who won the white ribbons last year in the Assembly race and are the present incumbents of seats in the lower House at Trenton. The situation will depend largely on the attitude of these men whether there will be much change this year so far as Union county is concerned.

It is generally understood that Mr. Foote, who resides in the Second ward, wants to be returned. He has his eye on the speakership of the House and may make a fight before the nominating convention in order to win this much-coveted honor. At the last session he made a bid for the leadership on the Republican side of the House, but was defeated by Vivian Lewis, of Essex county. There is an unwritten law in the county that a man is entitled to two terms in this office and no more. Mr. Foote has already served two terms and this may have some material effect on his candidacy, should he decide to run for the nomination again. As to the stand that will be taken by Mr. Meeker nothing is known at present, his friends declaring that he has not announced himself. The third member of the Union county contingent, Chester M. Smith, it is believed, will be urged to make the run again. His backer, Charles M. Codding, who hails from the same district, is the assistant Clerk to the Supreme Court and possesses no small amount of political prestige.

There is no dearth of material that can be counted upon to make a try for the nominations. Among those who will probably enter the lists is Wm. Newcorn, of the Fourth ward.

Judge Newcorn conducted an active campaign for the nomination two years ago, when Collector Frank Smith was also in the race, but was knocked out. He has many friends in this city and if he consents to appear on the political track his backers say he should give a good account of himself. Wm. T. Kirk, the former sheriff, who resides in the Third ward, is also in the game, so rumor goes. He is particularly strong in the upper end of the county and can get quite an aggregation of supporters when needed.

It is also said that former Freeholder Fred Miller, of Elizabeth, had his eye on the track. Still another man among the likely ones is Charles E Reed, secretary of the county executive committee, who lives in Rahway. He is widely known and may be able to make it hot for his opponents. George Ball, of Fanwood, who is known as a candidate on many former occasions, is reckoned upon to announce himself. A Mr Hall, of Cranford, has had his name handed about, possibly unknown, in connection with this nomination.

There's plenty of time for others to gather themselves together and get on the track, before the political judges, the voters, act. No date has as yet been fixed for the county convention and none will be until long after the State convention is held. It is generally held within two weeks of election day and as that time does not arrive until November 5, there is ample time for hunting up available material to make good runs.

MANY ARE ATTENDING.

Mission at St. Mary's Church is Attracting Many People There.

The mission being conducted this week at St. Mary's R. C. church is attracting large numbers both morning and evening. Two members of the Society of Jesus, Fathers Gleason and Gannon, are in charge and are meeting with much success. This week they are conducting services with sermons to the women members of the congregation. The hours of service are 5, 6 and 9 o'clock in the morning and 7:45 o'clock in the evening.

IN MEMORY OF YOUNG MAN.

FUNERAL OF CARMON P. SUTPHEN HELD YESTERDAY AFTERNOON.

Six Brothers Acted As Pall Bearers—Rev. Dr. W. R. Richards In Charge.

A sorrowful gathering of relatives and friends assembled at the home of Mrs. F. A. Sutphen, of LaGrande avenue, yesterday afternoon, where funeral services over the remains of her son, Carmon Parse Sutphen, who died Monday at Divans Corner, N. Y., were conducted. They were in charge of Rev. Dr. W. R. Richards, pastor of the Crescent Avenue church, of which Mr. Sutphen was an attendant from boyhood.

Dr. Richards referred feelingly to the death of the late President in which he spoke of the splendid life suddenly cut short and the parting words, "His will be done—not ours." He compared it with the life of the young man, just entering upon a useful career, being taken away just after manhood was reached. But the Divine Ruler saw fit to summon old and young alike and all must bow to His will.

During the service Elmer E. Runyon rendered with much expression "Lead, Kindly Light," "Nearer My God to Thee" and "Jesus Savior Pilot Me."

Following the obsequies the remains were interred in the family plot in the North Plainfield cemetery. The pall bearers were six brothers, David, Burt, John, Morris, Clarence and Julian Sutphen.

WETUMPKAH IS A YEAR OLD.

LOCAL TRIBE OF RED MEN CELEBRATED ITS BIRTHDAY.

Programme of Speeches and Music Was Followed by Refreshments and a Smoker.

The first anniversary of Wetumpkah Tribe, No. 239, Improved Order of Red Men, was celebrated last evening in a pleasant manner. B. M. Clerk acted as master of ceremonies, and in a very unique way announced the various numbers on the programme. There was a large attendance of members, while the other tribes in the city were well represented.

The programme opened with a cornet solo by Ben. LaVere, accompanied by Herbert Harold on the piano. Nate Samuels then gave a piano solo, after which Victor Christofferson, C. E. Hepburn and Nathan B. Titsworth gave short talks on popular subjects.

The next half hour was occupied with songs and dances given by a quartette of colored men, including John Taylor, William Wilson, William Green and Henry Lewis. The musical programme was concluded with violin selections by David Dreier. Mr. Dreier is a trick violinist and his work was one of the highest order.

Then followed short talks by Wm. A. Westphal and Great Prophet William Newcorn in which the growth of the tribe was referred to in a complimentary way. They congratulated the members of the tribe for their earnest efforts in building up Red Manship.

Wetumpkah Tribe was organized a year ago with forty five members. To-day there are seventy-five on the roll. Under the guiding hand of excellent officers the tribe has progressed and despite its youth is one of the strongest in the city. Fred J. Huff was its first sachem, and Nathan B. Titsworth now holds that position.

After the entertainment and speeches the committee in charge served refreshments and a smoker was enjoyed.

Truck Drill.

Chief T. O. Doane and Acting Foreman W. H. Addis have issued an order to the call men to appear at the fire headquarters this evening to participate in a truck drill. The men are requested to be on hand at 7 o'clock. This is the first drill held since the spring.

Business of Importance.

Benevolent Council, No. 256, Jr. O. U. M., at its regular meeting this evening will transact business of importance. After the regular session an entertainment will be given by the good and welfare committee of the council.

Meeting of Supreme Officers.

The annual meeting of the Superior Officers Protective Association, composed of policemen in Union county, will be held at Lorraine, Thursday, October 3. A number of the local police will attend.

—A large consignment of 275 baskets of fine peaches, will be received tomorrow and sold by Neuman Brothers at the following prices: 50 baskets at 65 cents, 50 baskets at 75 cents, 75 baskets at $1 and 50 baskets of extra fine fruit.

SOME INCIDENTS OF THE STATE CONVENTION.

All United in Singing Favorite Hymns of the Late President McKinley.

ONLY ONE SESSION HELD.

ONE MAN TRIED TO GET RECOGNITION FOR THE BOERS.

All the Delegates Joined In Lord's Prayer, Which Ended the Invocation—Nomination Made By Acclamation.

(By a Staff Correspondent.)

Trenton, September 27—Having accomplished that which they set about to do, to nominate Franklin Murphy as the Republican candidate for governor, there was a general exodus of Republican politicians from this city last evening. The general good feeling which had prevailed previous to the convention and during the sessions of that body, continued unabated. It was altogether a very harmonious convention, with sufficient enthusiasm developed to convince the unprejudiced public that it was a success.

Following the example of the convention three years ago, when Governor Voorhees was nominated, there was only one session of the convention with a brief recess to allow the committees to meet. The nomination was made by acclamation with much enthusiasm and no attempt was made to honor any "favorite sons" with complimentary votes. It was endrely a Murphy convention.

Probably one of the most impressive incidents of any State convention marked the opening of this one. When the band began playing "Nearer, My God, to Thee," the vast crowd rose as one man and joined in the singing of the late President's favorite hymn. "Lead Kindly Light" was sung in the same manner. Tears came to many eyes and all seemed impressed. In the opening prayer, the words of the Lord's Prayer were used in conclusion and the great concourse joined in it. It was a new feature for a political convention.

There was only one thing which was not on the programme as arranged by the party leaders. When it came to the adoption of the party platform, James VanRiper, a venerable old man from one of the rural counties, attempted to get a plank containing a recognition for the Boers. He made a long, rambling speech, but the crowd didn't seem inclined to look seriously on his proposition and the platform went through according to schedule.

A funny incident happened when the call came for the appointment of vice-presidents and members of committees from the various counties. The names, as read off by the chairmen of the county delegations, were usually preceded by either "Hon." or some other title. When Judge Whitehead, of the Morris county delegation, came to give his list, there was not a title among them.

"All privates," explained the Judge in concluding, "there isn't an honorable man among them." The crowd laughed, but the remaining delegates were singularly free from "honorables" after that.

The speech of Attorney-General John W. Griggs was a strong one and was roundly applauded. Senator McCartar's nominating speech was also quite eloquent. At the close of the convention Mr. Murphy appeared in person and made a speech, thanking the delegates for the honor conferred upon him.

LAST DANCE.

Concluding Event at The Netherwood Tomorrow Evening.

The last dance of the season will be given at the Hotel Netherwood tomorrow evening. This will be a public dance and arrangements are being made for a grand affair. The orchestra will leave the hotel next Monday. During the season the several dances have been greatly enjoyed by the guests and people from this city and no doubt there will be a large attendance tomoorow evening at the farewell dance.

Band Concert Postponed.

A lack of funds has compelled Benjamin LaVere to announce that the final band concert, which was planned for this evening, has been postponed indefinitely. Mr. LaVere will make every effort to raise the necessary amount and provided he is successful will close the season with one of the finest musical entertainments he has ever given.

TO RECEIVE VETERANS.

Plans Being Made For Annual Reunion of Union Veterans' Union in This City.

A meeting of Antietam Command, No. 8, Union Veterans' Union, will be held Wednesday evening, October 2, and the session will be devoted to making arrangements for the annual reunion of the New York and New Jersey department of the organization, which will be held in this city in November. It is intended that Mayor O. L. Jenkins be invited to make the address of welcome to the visiting veterans.

The meetings incidental to the encampment will be held in Washington Hall, and the Hotel Plainfield will be used as headquarters. A special committee is arranging for the entertainment of the expected guests. A grand street parade will be a feature of the reunion. Noted soldiers who saw the thickest of the fight during the dark days of the Rebellion will participate in this parade.

BULLETINS ON YACHT RACE.

DAILY PRESS KEPT THE PEOPLE POSTED AS TO ITS PROGRESS.

Other Races Will Be Bulletined In a Similar Fashion Through Courtesy of Telephone Company.

The excellent service of The Daily Press, in reporting the yacht races yesterday, made possible through the courtesy of Charles W. Runyon, manager of the New York and New Jersey Telephone Company, drew a large number of people to the bulletin board in front of the office.

Accurate detailed accounts of the progress made by the fleet boats as they sped, or rather dragged over the course, were received in quick succession and immediately posted. A concise account was also published in the day's issue of the progress made up to the time of going to press.

For the benefit of the lovers of the sport as well as all citizens in general, who are interested in the international event, each race will be bulletined in the same manner by The Daily Press. The next race will take place tomorrow, the start being made at 11 o'clock in the morning. Come around and hear the returns.

FOUR-SCORE YEARS AND TEN.

MRS. JULIETTE RUNYON DIED AFTER LONG RESIDENCE HERE.

Old Age Cause of the Death—Leaves One Daughter—Funeral Tomorrow Afternoon.

Mrs. Juliette Runyon, one of Plainfield's oldest residents, passed away at her home, on Central avenue, yesterday afternoon. She had been an invalid for the past five years, but was able to be about until last Monday when a gradual failing compelled her to take to her bed. The real cause of death was her advanced age, a slight attack of bronchitis causing a general weakness.

Mrs. Runyon was born on the Runyon farm in Piscataway township in 1811. She lived there with her parents until 1840 when she moved to Plainfield and ever since resided on Central avenue, near Front street, in the house where she died. Her husband died many years ago. Mrs. Runyon was of a retiring disposition but took great interest in the First Baptist church, of which she was a member and regular attendant from the time she came to this city until her health failed five years ago. Many will remember her for her many kind acts while she was actively engaged in church work.

She leaves but one daughter, Miss Mary Augustus Runyon, who resided with her.

The funeral services will be held from her late residence tomorrow afternoon at 3 o'clock. Interment will be in Evergreen cemetery.

FORMALLY ORGANIZED.

Important Meeting of Athletic Association of Borough High School Held Yesterday.

The Athletic Association of the North Plainfield High School met yesterday afternoon and acted upon a proposed constitution. There was a large attendance of the pupils of the school and considerable interest was manifested.

The constitution, after thorough discussion, was adopted. A report was made by the committee appointed to select a baseball diamond. There is one field in contemplation. It is situated on Somerset street. Other proposed grounds were also discussed, but no definite action was taken. Nothing will be done in this matter until further investigations are made by the committee.

—Another lot of delicicious Rocky Ford melons will be on sale at Neuman Brothers tomorrow.

SAW STRENUOUS TIMES ON STIGER'S ALLEY.

And Then The Police Came And The Participants In The "Rough House" Fled.

HOW IT ALL HAPPENED.

THREE OF THE GROUP WERE IN THE CITY COURT THIS MORNING.

Said That Trouble Was Caused By Departure Of Mrs. Eliza Apgar—Her Husband Went After Her And All Were Involved In What Followed.

The few law-abiding citizens residing in the aristocratic portion of the city on Watchung avenue, designated in police circles as Stiger's Alley, were the unwilling witnesses of some strenuous times at 11 o'clock last night. Members of six out of the eight families living in the vicinity, with several outsiders, gave a demonstration of a thrillin "rough house" The disturbance of the peace and morals of the city led to the arrest of Mrs. Bridget Sharkey, about whose apartments the hilarity centered, George Gardner and his son-in-law, George Apgar. The latter's wife, Eliza Apgar, displayed her usual running abilities, headed in the direction of the borough and is now a fugitive from justice.

From the stories told in the City Court this morning, Eliza Apgar, accompanied by two men, visited Mrs. Sharkey last evening, leaving her husband to shift for himself. He objected, and, with his father-in-law, started to bring home his recreant spouse.

Mrs. Sharkey refused to let them in. Without any parley they broke open the door. Mrs. Apgar's male friends ran out of the rear door, while she went to the front of the next apartment. Perceiving Mrs. Snyder peering out of a windowless door, the doughty Apgar tapped her a corkscrew blow on the point of the chin, shouting out that it was she who had sent Apgar to Mrs. Sharkey's home. Mrs. Snyder protested in forcible tones while the rest of the alley joined in the squabble and divers shouts broke on the stillness of the night air.

In the midst of it all, while Apgar and his wife, Gardner, Mrs. Sharkey, Mrs. Snyder and a Mrs. Brown were telling all they knew about each other Patrolmen Watson and Lunger came bustling down the street, having heard the shouts three blocks away. All of the participants, on sight of the bluecoats, busied themselves increasing the distance between themselves and the new arrivals and the three mentioned were the only ones secured.

A number of prominent residents of the alley were witnesses this morning. Out of the many conflicting stories City Judge Runyon gleaned enough to fine Mrs. Sharkey $15 or sixty days, while sentence was suspended on Gardner and Apgar. The police were instructed to bring in the missing Eliza, who was greatly maligned by the witnesses, but was not present to tell her own story.

BICYCLE STORE.

Will Sell Photographic Supplies As Well on North Avenue.

Nelson VanWinkle will move his bicycle and repair business from its present location to 139 North avenue, where he will be better prepared to carry on his business. He will handle the best bicycles and do first class repair work of all kinds. In connection with it a photographic department will be conducted by Frank VanWinkle. All kinds of cameras and supplies will be kept constantly on hand. See change of advertisement in today's Press.

Accepted Bridge Plans.

Freeholders Westphal, King, Robinson, Scudder and Gerstung, of the Union County Board, met Wednesday afternoon and accepted the plans of County Engineer Hubbard for the new bridge at Netherwood avenue over Cedar brook. The pipes of the old culvert of the North avenue bridge will be used under the roadway, and the footwalks will be planked.

Gave Concert.

A quartette composed of colored men from the Hotel Netherwood gave a concert at the Mt. Zion A. M. E. church last evening. There was a large attendance and the programme of popular selections was greatly enjoyed.

Hail Columbia!

Every American now hopes that Columbia will again prove herself "gem of the ocean." Every Plainfielder should prove for himself that the gems of the coal fields are in the yards of the Consumers' Coal Company.

GUESTS ARE STILL COMING.

SOME OF THOSE NOW REGISTERED AT THE NETHERWOOD.

House Is Still Well Filled—Will Close the Resort About the First of November.

During the past ten days many new arrivals have been registered at the Hotel Netherwood and the house is quite well filled despite the fact that the season is fast waning. The festivities continue and the prospects are that these will be a factor until the resort closes November 1.

Among those who have arrived lately are a number of New Yorkers, including Mrs. R. B. Weller, Mrs. S. W. Helm, Miss M. Rimmer, Miss Caroline Fuller, Dr. B. C. Young and family, Miss Kate W. Fuller, Miss Helen Fuller, Mr. and Mrs P. L. Lutkins, C. Wille, J. D. Gilliam, J. Staples, A. H Staples, E. A. Craighill Jr., F. Lloyd Kane, Jr., Charles H. Parsons, Edward A. Grossman, E. J. Hefface, P. Hall, Thomas R. Fuller, Velah VanLoan.

From other points have come: Rev. and Mrs. J. P. Beidel, Miss Louise Boleman, Miss Gladys Balch, Mr and Mrs. Sherman Esselstyn and son, Miss Bertha Angevine, C. W. Oppand, Mrs. E. M. Crooker, Brooklyn; Mrs. H. Langdon, Miss A. E. Langdon, Mr. and Mrs. C F. Langdon, of Yonkers, N. Y; Mrs. F. A. Ginna, Plainfield; Mr. and Mrs. Charles W. McCheesney, Miss McCheesney and Mr. and Mrs. George W. McCheesney, of South Orange; D. W. E Atkin and Charles Atkin, of Bergen Point, and Col. W. A. Simpson.

FIGHT OVER RIGHT OF WAY.

ONE JUROR OVERCOME IN COURT—HAD TO BE REPLACED.

Steam Calliope, of Circus Parade, Nearly Broke up Trial—Much Legal Talent Interested in Case.

(Special to The Daily Press.)

Somerville, September 27—The case of Meribah Todd against Wm. Staats is occupying the attention of Justice Garreteon in the Somerset courts here. The dispute is over the right of way in the lane between the Todd property and the new Staats building on Main street in this place. The case has been contested for a number of years in the Chancery Court, and is a most important one.

Should Mr. Staats be a loser he will have to pay the owner's price for certain lands, or remove his large three-story stone structure, which could not be done without immense expense.

There is a great array of legal talent. John A. Freech, of this place, and R. A. Lindabury, of Elizabeth, appear in behalf of the plaintiff and Hon. A. A. Clark and Senator Charles A. Reed, of North Plainfield, represent the defense. Every point of law is hotly contested.

The case was opened under adverse circumstances. As Mr. Lindabury was in the midst of his opening address to the jury the sprightly tones of the steam calliope of W. L. Main's circus just outside of the Court House drowned his words. He appealed to the Justice and asked if man ever had such accompaniments.

After Mr. Lindabury had exhausted his sarcasm on the "infernal machine" Juror Benbrook collapsed in his seat from an attack of heart disease, and had to be carried from the room. He did not recover in half an hour and a new juror was secured to fill his place.

The case will probably go to the jury today.

WAX WORKS.

Under Charge of Madame Jarley, Entertained at Mount Olive Baptist Church.

Madame Jarley and her famous wax works visited the Mount Olive Baptist church last evening, and entertained a highly appreciative audience with the animated figures. The programme comprised some very laughable features which were given by twenty of the characters. Following the entertainment, the women of the church provided refreshments.

Madame Jarley was assisted in giving the exhibition by the member of the Sewing Circle, with Mrs. S. M. Fields and Mrs. Henry Kingslow in charge.

Will Reopen Drug Store.

It has been stated on good authority that the drug store in the Y. M. C. A. building, formerly conducted by J. Howard Leggett, will shortly be reopened. A present employe of one of the local pharmacies will be placed in charge.

Peaches White and Yellow.

The peaches to be sold at Neuman Brothers tomorrow will include the finest varieties of white and yellow fruit.

BULKLEY WON FINALS IN SCHOOL TOURNEY.

Defeated Fred T. VanAuken Three Straight Sets By Playing Some Clever Tennis.

TOURNAMENT IN DOUBLES.

BULKLEY PLAYED IN RARE FORM PLACING THE BALLS CLEVERLY.

VanAuken Did Not Play The Game He Did The Day Before—Double Tournament Completed Up To The Final Round.

In three comparatively easy matches Kenneth Bulkley won the single tennis championship of the Plainfield High School on the courts of the Cedar Brook Tennis Club yesterday afternoon. The finals were played between Bulkley, who holds the championship cup of the Hillside Tennis and Golf Club, and Fred T. VanAuken, one of the best players of the Cedar Brook Club. VanAuken failed to put up the strong game he did the afternoon before and went down rather easily before the Hillside player.

Despite the fact that the sets were not very close, a large crowd watched the match with much interest. Bulkley was in fine form and had wonderful control of his strokes. He placed the ball with deadly accuracy and was almost impossible to pass. VanAuken played a brilliant game but too many of his returns ended in the net or over the back line. Had his control of the ball been better, the match would have been a very hot one.

At the start, Van Auken was evidently nervous and failed on easy strokes. He appeared to gain confidence as the set progressed and made a strong fight. Bulkley was playing winning tennis, however, and captured the set 6-2. The second set showed some better tennis and was won by the same score.

In the third set VanAuken made a desperate fight. For a time it looked as it he might win, but the Hillside player steadied himself and recovered the lead, winning by a score of 6 3.

The tournament for doubles was started and the first and second rounds completed. The finals will be played off tomorrow when Clarence C. Bocap and Chester H. Briggs will meet Fred T. VanAuken and Vincent B. Miner. The other matches were rather one-sided.

Six teams were entered making two byes necessary in the first round. Archibald Brakeley and H. L. Dyer defeated Ira W. Travell and Robert M. Meeker 6 4, 6 3 The play was rather exciting at times. A. D Beers and Harry Thompson defeated Kenneth Bulkley and Harold Nomer by default. Bocap and Briggs and VanAuken and Miner drew byes.

In the semi-finals, Briggs and Bocap put Beers and Thompson out of business 6-2, 6-3. Beers and Thompson played a plucky game, but they were against able opponents. VanAuken and Miner smothered Brakeley and Dyer 6-0, 6 1, in the twilight. This deciding match, the finals in the doubles, will conclude the tournament. The silver loving cups, the prizes in the events, will be awarded at the High School some day next week.

KNOCKED DOWN BY HORSE.

Runaway Steed Slightly Injures Watson Terrill, of Fanwood.

(Special to The Daily Press.)

Fanwood, Sept. 27.—While Watson Terrill, driver for the Plainfield Cleaning and Pressing Company, was in the residence of Mr. Gibbs on Park avenue yesterday noon, the delivery horse, which he had left in charge of William Conover, became restless. It started to run away, and on account of the lines becoming twisted Conover could not stop it.

Terrill came out just in time to get a slight hold on the shafts, to which he clung. He held on until the horse ran into a tree, when he was knocked down and run over. Beyond a number of slight cuts and bruises he was unhurt. The wagon was partially wrecked.

Annual Affair.

The annual fair which will be held at the German Reformed church under the auspices of the Ladies' Aid Society, from October 14 to 19 inclusive, will be attended by entertainments each evening. The bazaar part of the affair will be open each afternoon.

LITERARY.

The Century announces for 1902 a number of papers containing new and hitherto unprinted information regarding famous authors, including Tennyson, Emerson, Browning, Bulwer, Holmes, Whittier, Stevenson and Bryant. The early numbers of the magazine will contain new material regarding the visit of Thackeray to the United States, contributed by General James Grant Wilson, and including a number of new letters and drawings by Thackeray.

In its October issue, "Success" has published an industrial number that is interesting to all. The great progress of the nation, the stories of invention, and the problems of winning and developing the world's trade, are told by such notable men as Park Benjamin, Hudson Maxim, Charles R. Flint and Sir Thomas Lipton. General Benjamin F. Tracy, the eminent attorney, contributes a timely editorial in "Law as Part of a Business Education." Some interesting and inspiring information for middle-aged women will be found in an article by Margaret E Sangster, and a subject that should appeal strongly to both sexes is Thomas Wentworth Higginson's "Success in Marriage." The list of contributors contains some of the most noted names in the United States. "Success" is keeping up its reputation as a magazine of self-help and inspiration, and it has won new glory and power in its current effort to present the best interests of the United States.

The Ladies' Home Journal for October is, perhaps, the best number of this magazine ever issued. The literary features include "How the Leopard Got His Spots," by Rudyard Kipling; "A Fifth Avenue Troubadour," by Ernest Seton-Thompson; the first instalment of "A Gentleman of the Blue Grass," by Laura Spencer Portor; the last of "Miss Alcott's Letters to Her 'Laurie,'" and the closing chapters of "Aileen." "Some Things the President Does Not Do," a collection of anecdotes about Whistler, the artist, and Mr. Bok's advice to a young man about to marry are important features. The regular editorial departments are supplemented by nine new ones of great interest, among which Professor Edward Howard Grigg's talks on "The Education of a Child from Eleven to Eighteen," Professor Schmucker's "Seeing Things Outdoors," and Miss Withey's "Writing and Speaking Correctly" are noteworthy. The illustrations and art features are superb By The Curtis Publishing Company, Philadelphia. One dollar a year; ten cents a number.

INTER-STATE FAIR AT TRENTON.

Septen ber 30, October 1, 2, 3, and 4.

The great Inter-State Fair will be held on September 30, October 1, 2, 3 and 4, on the Fair Grounds, three miles east of Trenton, N. J., on the New York Division of the Pennsylvania Railroad. As in previous years, every department will be replete with superior and instructive displays. The blooded stock exhibit will be particularly fine, and the daily programme of races contains the speediest classes obtainable. Automobile races will be novel and exciting.

The Pennsylvania Railroad Company will sell excursion tickets to the Fair Grounds, including coupon of admission, at greatly reduced rates from stations within a wide radius, and special trains over the New York, Belvidere and Amboy Divisions will be run through to the grounds, thus avoiding street car transfer. The management of the Fair has put forth extraordinary efforts to make this year's exhibition even greater than last year's record-breaking display. 9 23 3 eod

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Astamalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle." 6L

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel.
NEW YORK, Jan. 3, 1901.

DRS. TAFT BROS. MEDICINE CO.,

Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

Very truly yours,
REV. DR. MORRIS WECHSLER.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

AVON SPRINGS, N. Y., February 1, 1901.

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. February 4, 1901.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street.

MURPHY NOMINATED

New Jersey Republicans Select Standard Bearer.

UNANIMOUS CHOICE FOR GOVERNOR

The Resolutions Denounce Anarchy and Demand Its Suppression—A Tribute to McKinley and a Pledge to Roosevelt.

TRENTON, N. J., Sept. 27.—Franklin Murphy, chairman of the Republican state committee, was unanimously nominated for governor by the Republican state convention. There were about 800 delegates present. All of the party leaders were here except United States Senator Sewell, who on account of illness missed his first convention in twenty-six years.

The platform contains the following:

"The blow which ended the life of our beloved president was cruel, inhuman and lawless. It was aimed not at the gentle and lovable McKinley, but at the republic and the majesty of the law, which guarantee liberty of person and safety of property. Any doctrine which justifies or encourages assassination is utterly hostile to civilization and the welfare of mankind and must be no longer tolerated in this country, and we demand and insist that laws, state and national, be enacted for the effective suppression of such teachings.

"The pledge of President Roosevelt that he will continue absolutely unbroken the policy of President McKinley has our unqualified approval and entitles him to our loyal support."

FRANKLIN MURPHY.

Former United States Attorney General John W. Griggs was selected as temporary chairman. On taking the chair he delivered an address in which, referring to the death of President McKinley.

From personal intimate knowledge he said he could say that never has our government been so affectionately regarded by other nations as under President McKinley's administration.

When the resolutions were adopted, a motion by General Congdon was adopted that the officers of the convention send to President Roosevelt a copy of that part of the platform expressing confidence in him. Senator McCarter of Essex then took the platform to place Mr. Murphy in nomination.

Mr. Murphy's nomination was seconded on behalf of Hudson county by George L. Record. Prosecutor Crossley of Mercer then moved that the nomination of Mr. Murphy be made by acclamation. This was done, and Colonel Samuel D. Dickinson of Hudson, Frank H. Scott of Essex and Frank Croft of Camden were appointed a committee to bring Mr. Murphy before the convention.

Destitution at Cape Nome.

WASHINGTON, Sept. 27.—The war department is investigating stories which have reached Washington to the effect that there is danger of great suffering at Cape Nome unless steps are taken at once to remove destitute members of the mining community. The department has issued instructions that the transport Egbert be put in readiness for immediate service, but sailing orders are withheld until the officials can satisfy themselves that the government is not being imposed upon in the matter.

Grieved to Death Over Assassination.

LAPORTE, Ind., Sept. 27.—Caleb Harvey is dead as the direct result of grieving over the assassination and death of President McKinley. The physicians say he literally cried himself to death. He wept for hours continuously from the afternoon the president was shot and frequently went into paroxysms of grief. It was found impossible to assuage his grief, and up to the hour of his death he wailed constantly. The physicians consider the case unique.

Life Imprisonment For a Boy.

BOONEVILLE, Ind., Sept. 27.—Smith Jones, thirteen years old, has been sentenced to prison for life by a jury in the Warwick circuit court. During a fight last July with Herbert Hickerson of similar age the last named was stabbed to death. Jones is the youngest person ever sent to prison from this county.

DATE OF DEATH FIXED

Czolgosz to Be Electrocuted Week of Oct. 28.

ASSASSIN TAKEN TO AUBURN PRISON

In His Final Statement Before Sentence Prisoner Declares He Had No Accomplices—The Killing Not Long Premeditated.

BUFFALO, Sept. 27.—Leon F. Czolgosz, the assassin of President McKinley, was yesterday afternoon sentenced to be electrocuted in Auburn state prison during the week beginning Oct. 28.

Before sentence was passed the assassin evinced a desire to speak, but he could not get his voice above a whisper, and his words were repeated to the court by his counsel.

"There was no one else but me," the prisoner said in a whisper. "No one else told me to do it, and no one paid me to do it. I was not told anything about the crime, and I never thought anything about that until a couple of days before I committed the crime."

Czolgosz sat down. He was quite calm, but it was evident that his mind was flooded with thoughts of his own distress. His eyes were dilated, making them appear very bright. His cheeks were a trifle pale, and his outstretched hand trembled. The guards put the handcuffs on his wrists. He looked at one of the officers. There was an expression of the profoundest fear and helplessness in his eyes. He glanced about at the field of heads which crowded together in efforts to get a look at him. Every eye was cold. The prisoner's eyelids rose and fell tremulously, and then he fixed his gaze upon the floor in front of him.

At this point Judge Titus came over to the prisoner and bade him goodby. Czolgosz replied very faintly, letting his eye rest upon the man who has been his counsel. "Goodby," he said weakly.

Czolgosz was then hurried down stairs and through the "tunnel of sobs" to the jail, where he will remain until removed to Auburn to pay the penalty for his dastardly crime.

Although the time announced for the convening of court was 2 o'clock, every seat and every foot of standing room were occupied before 1:30, and scores were clamoring outside for admission. The doors were locked, and no more were admitted to the room. The prisoner was brought into the room at five minutes to 2. Five minutes later Justice White took his place upon the bench. As soon as Justice White assumed the bench Crier Hess said, "Pursuant to a recess this trial term of the supreme court is now open for the transaction of business."

District Attorney Penney said: "If your honor please, I move sentence in the case of the People versus Leon Czolgosz. Stand up, Czolgosz." Clerk Fisher swore the prisoner, and his record was taken by the district attorney.

The clerk of the court then asked him, "Have you any legal cause to show why the sentence of the court should not now be pronounced against you?" "I cannot hear that," replied the prisoner. Clerk Fisher repeated his question, and Czolgosz replied: "I'd rather have this gentleman here speak," looking toward District Attorney Penney. "I can hear him better."

At this point Justice White told those in the courtroom that they must be quiet or they would be excluded from the room. Mr. Penney then said to the prisoner: "Czolgosz, the court wants to know if you have any reason to give why sentence should not be pronounced against you. Have you anything to say to the judge? Say yes or no."

After considerable urging and explanation on the part of his counsel the prisoner in a feeble tone of voice made the statement given above.

Then Justice White passed sentence as follows:

"In taking the life of our beloved president you committed a crime which shocked and outraged the moral sense of the civilized world. You have confessed that guilt, and after learning all that at this time can be learned from the facts and circumstances of the case twelve good jurors have pronounced you guilty and have found you guilty of murder in the first degree. You have said, according to the testimony of creditable witnesses and yourself, that no other person aided or abetted you in the commission of this terrible act. God grant it may be so. The penalty for the crime for which you stand convicted is fixed by this statute, and it now becomes my duty to pronounce this judgment against you. The sentence of the court is that in the week beginning Oct. 28, 1901, at the place, in the manner and means prescribed by law, you suffer the punishment of death. Remove the prisoner."

The crowd slowly filed out of the room, and court adjourned at 2:26. The death warrant signed by Justice White is addressed to the agent and warden of Auburn state prison.

Czolgosz Taken to Auburn.

BUFFALO, Sept. 27.—Sheriff Caldwell and sixteen men left at 10:06 with Czolgosz in a special car attached to the rear of the second section of the 9:30 train on the New York Central for Auburn.

Secretary Nicolay Dead.

WASHINGTON, Sept. 27.—Mr. John George Nicolay, private secretary to President Lincoln and widely known as the author of several works on the life of this great war president, is dead here, aged seventy years. He had been in feeble health for several years and since his resignation as marshal of the United States supreme court in 1887 had been living quietly at his Washington home with his daughter, Miss Helen Nicolay, the only surviving member of the family.

DEADLY GAS EXPLOSION.

Six Killed and Seven Injured in Newark, N. J.

NEWARK, N. J., Sept. 27.—Six men and possibly seven were killed and seven injured by the explosion of an oil tank of the Essex and Hudson company. The known dead are: Lawrence Kirch, thirty-five years old, employed in the works but two weeks; William Meyer, forty years of age; Otto Newman, twenty-seven years old, foreman at the works; Alfred Snyder, twenty-two years old, resided in Jersey City; Nicholas Miller, forty-five years old, and an unidentified man.

Many witnesses say there is a body in the river, as they saw it hurled high in the air and thrown in that direction.

The tank which exploded was one of a number of immense steel reservoirs which were undergoing their periodical cleanings, and it had been emptied of its oil in the morning. The tank was twenty feet deep, and Kirch and Meyer entered through the manhole first without taking the precaution of having ropes tied about them. They were immediately overcome by the fumes. Foreman Newman saw this and started down after them after shouting a warning to the other workmen in the yard. He, too, collapsed in the tank.

Nicholas Miller, now a grocer nearby, had once been foreman of the works. He was in the yards and at once assumed charge of the rescue. Summoning others, the men began with chisels to cut a large ring in the tank. It is supposed one of the chisels in striking the steel caused the emission of a spark, for instantly there was an explosion like that of a cannon and then a sheet of flame.

Ten men were on the top of the tank at the time. They were swept away in all directions. Miller, Snyder, the unidentified man and the one supposed to be in the river seem to have borne the brunt of the terrific shock. The three first mentioned were not badly mangled, but not a bone in their frames was left unbroken, says the county physician, this fact being due to their being blown many feet into the air and the force with which they struck the ground. The tank was rent in twain, and after all was over the bodies of the three men in it were taken out.

The gas and other tanks in the yard were surrounded by flames for a short space of time, but none exploded, and the firemen had little to do. Ambulances soon conveyed the injured to a hospital.

SOUR MILK

One of the most provoking things that can happen to the housewife is to find at meal time that the milk has soured. But that is nothing to the suffering of the children who depend largely on milk for food.

Customers of Lindsay & Son have no trouble with the milk; always sweet and clean and pure. A postal card will bring one of their wagons to your door.

WHY AMERICA LEADS.

Steel Situation Plainly Stated In England by an Englishman.

LONDON, Sept. 27.—Joseph Lawrence, member of parliament for the Monmouth district, who recently returned from the United States, addressing the Newport chamber of commerce yesterday, made the most interesting and comprehensive statement of the causes of American superiority in the steel trade which has yet been provided for the alarmed British public and business circles.

He told his audience that Charles M. Schwab assured him the steel trust could deliver steel billets in England for $16.50 per ton, whereas the lowest price for which British manufacturers could make them was $19. Mr. Schwab also asserted that when the trust had completed certain ocean transportation arrangements now pending the American price would be still lower. In addition to this statement Mr. Schwab called the attention of Mr. Lawrence to the fact that his steel workers got double the wages paid British workmen in the same line.

Mr. Lawrence went on to draw a striking contrast between freight charges in Great Britain and the United States, showing that the cost of carrying steel from Pittsburg to New York was less than the cost of carrying it from Birmingham to Liverpool, although the distance between the two English cities was only one-quarter of that between the American cities named.

Having pointed out that it would be also necessary to resort to cheaper ores, Mr. Lawrence announced that as a result of several years' study of these problems and consultation regarding them he and Thomas Edison would shortly begin business in Norway with the idea of supplying to Great Britain cheaper ores.

The chamber of commerce adopted a resolution that Newport should levy a municipal rate to carry out the programme of Mr. Lawrence and to attract new industries.

Simultaneously comes the announcement that one of the largest plate mills in Darlington has reduced wages 7½ per cent on account of the low price of plates, making a total reduction of 20 per cent since January.

THE SCHLEY COURT.

A Short Session—Lieutenant Wood Testifies.

WASHINGTON, Sept. 27. — The Schley court of inquiry was in session for only an hour and three-quarters yesterday, adjourning at 12:45 in order to permit its members and others engaged there to attend the funeral of Judge Wilson, late chief counsel for Admiral Schley. Captain Wise concluded his testimony, Admiral Cotton made a brief statement on recall, and Lieutenant Spencer S. Wood, who commanded the dispatch boat Dupont during the Spanish war, began his testimony. Machinist Gray, who was in charge of the starboard engines on the day of the battle off Santiago, also testified briefly. He said that on the day of the battle the starboard engines were stopped and the machinery reversed.

Captain Wise was questioned at considerable length as to what he had done before the arrival of the flying squadron off Santiago toward locating Cervera's fleet in the harbor. He said that, while he had satisfied himself of the presence of the Spaniards, he had been content to communicate his knowledge to Admiral Schley through Captain Sigsbee, not considering it necessary to make direct communication with the commander in chief.

Lieutenant Wood gave the particulars of his delivery of dispatches from Admiral Sampson to Admiral Schley on May 22 while the admiral lay off Cienfuegos. He said that Schley seemed very nervous and especially anxious to know what Sampson's intentions were. He had not concluded his testimony when the court adjourned for the day.

Cresceus Failed Again.

PHILADELPHIA, Sept. 27.—Cresceus, the king of trotters, again failed to lower his record of 2:02¼, made at Columbus on Aug. 2, in a trial on the Belmont Driving park course. The great son of Robert McGregor stepped the mile in 2:04½ without a skip and thereby reduced the track record of 2:08¾ made by Alix on Nov. 7, 1894. Everything was conducive to fine time. The track was lightning fast, and there was not enough breeze to interfere with the progress of the great trotter.

WIND FAILED THEM.

No Race For Columbia and Shamrock II. on First Trial.

MANY SIGHTSEERS DISAPPOINTED.

When the Race Was Declared Off, American Yacht Was Ahead—Sir Thomas Expressed Confidence In His Ability to Lift the Cup.

NEW YORK, Sept. 27.—One of the biggest crowds that ever put to sea went down to the Sandy Hook lightship yesterday to witness Sir Thomas Lipton's second challenger, Shamrock II., and the white flier Columbia, which successfully defended the old America's cup against his first trophy hunter two years ago, struggle for the yachting supremacy of the world in the first of the cup races of 1901. But the excursion fleet returned disappointed. The great single stickers went out in the morning fresh for the battle, but the sea refused them a field of conflict. The wind, never more than nine and sometimes as low as three knots, was too light and shifty to carry the contestants over the thirty mile course in the time allowed by the rules. At the end of five and a half hours—the prescribed time—the race was officially declared off, and the yachts were towed back to their berths inside of Sandy Hook. When the gun aboard the committee boat was fired to call attention to the signal declaring the race off, the American was still seven miles from the finish line. The Englishman was hull down astern of her, the experts estimating her distance behind the Columbia at over three-quarters of a mile.

In windward work the Columbia beat the foreigner 7m. 15s. to the outer mark and increased her lead somewhat in the broad reach for home. While the test was unsatisfactory, the yachting sharps who have been skeptical up to this time as to the ability of the Columbia to successfully defend the cup are more confident now that it will remain on this side of the Atlantic for awhile longer. Certainly Columbia's superiority in light airs appears to have been demonstrated. Shamrock II. did not, in fact, make so good a showing as did Lipton's first challenger in the half dozen flukes that preceded the actual races two years ago. What Shamrock may be able to do in heavy weather is of course problematical, but Columbia has been tried, and all her admirers insist that she is distinctively a heavy weather boat.

Under the rules the unfinished race will be resailed tomorrow, and the course will be again fifteen miles to windward or leeward and return.

When seen on board the Erin after the race, Sir Thomas Lipton said: "It was not a satisfactory race, because the wind was somewhat erratic. I hope we shall have better luck next time. A race sailed on such a day, if it can be finished at all, depends upon the lucky chance position as to wind of one boat or the other. I was never more hopeful for the Shamrock than I am now. I am confident I shall get the cup."

A Concert Against Turkey.

PARIS, Sept. 27.—The Courrier du Soir, which is usually well informed, makes the following sensational statement: "One of the results of the conference between Emperor Nicholas and President Loubet, M. Waldeck-Rousseau and M. Delcasse during the czar's visit to France is an exchange of views between European cabinets now progressing with the object of arriving at an understanding as to action against Turkey. Germany's concurrence is assured, as Emperor William has consented, but Count von Bulow has raised objections to some of the details of the action proposed, thus necessitating a further reference to the other governments before a final decision can be reached."

Lincoln's Coffin Opened.

SPRINGFIELD, Ill., Sept. 27.—The remains of Abraham Lincoln have been placed in what it is expected will be their final resting place. The casket was taken from its former place in the monument to Memorial hall and was there opened, and the body was viewed by Acting Governor John J. Brenhalt, representing the state of Illinois, and by state officers who are members of the association, some members of the old Lincoln guard of honor and the contractors. The location of the present resting place is immediately beneath where the sarcophagus formerly rested. It is understood the remains were not in a very good state of preservation, but were easily identified.

Internal Revenue Receipts.

WASHINGTON, Sept. 27.—A statement prepared at the internal revenue bureau shows that the total receipts from the war revenue act alone during the month of August, 1901, were $5,499,277. The principal items are the following: Beer, $2,839,926; documentary stamps, $1,030,104; tobacco, $781,146; legacies, $285,119; special taxes, $367,290.

Packing Company Reaching Out.

OMAHA, Neb., Sept. 27.—Agents of the Schwarzchild & Sulzberger Packing company of Kansas City announce that the concern will locate a million dollar packing plant at South Omaha in the near future.

Secretary Cortelyou Goes to Canton.

WASHINGTON, Sept. 27. — Mr. George B. Cortelyou, secretary to the president, has left here for Canton. He will settle the estate and adjust some personal affairs of the late president.

Mine Takes Fire.

ST. PAUL, Minn., Sept. 27.—Fire broke out in the Elba mine at McKinley, Minn., and one life probably has been lost, as well as large damage done to the mining property.

Franklin Murphy.

The expected happened at Trenton yesterday. Franklin Murphy, a Newark merchant who has been well-favored with the good things of this earth, was chosen as the candidate of the Republican party in the gubernatorial race. It would be nearer the truth, perhaps, to say that he was formally announced as the candidate, for it has been a foregone conclusion for many weeks that he would be the choice of the Grand Old Party. Yesterday's convention was more of the nature of a ratification meeting than a nominating convention.

The man, who has been chosen as the standard bearer of the Republican party in New Jersey, is by no means unknown to the people of this State. He has proved himself a successful business man, then a successful political manager, and now he asks the opportunity to prove himself equally successful as the Chief Executive of the State.

There is no question of the honesty and integrity of the man, they are above reproach. Friends and foes alike admit that he has shown himself to be a man of high character and good principles. He possesses a pleasing manner which has made him wonderfully popular. Withal, he is a modest and unassuming man. The Republican party is to be congratulated in selecting a man of his ability for such a responsible position. If the Democratic party does as well, New Jersey will be indeed fortunate.

It is greatly to be regretted that the employers and employes in the building trades cannot reach an amicable settlement of their troubles. It is not merely a subject of interest to themselves alone, for a strike or lockout is sure to affect the entire city. The wishes of the public should not be disregarded with impunity. The public is not fully informed as to the merits of the case, so that it is impossible to say just where the trouble lies. If there is something the matter, then both sides should look at it in an impartial manner and not make serious inconvenience and trouble for the rest of the community by demanding that which is not reasonable. There is no question of the labor trouble which cannot be settled by arbitration, and the sooner the trades unions recognize that fact the higher will they rise in the public eye.

There has been much adverse comment over the withdrawal of the borough street sprinkler from its accustomed work during the past two weeks. As one taxpayer expressed the condition this morning: "The borough money is being spent for water for sprinkling purposes in accordance with an agreement with the water company, but some one is responsible for the neglect to take advantage of the contract."

The streets are dry and the blowing dust causes much annoyance to the residents. On inquiry of the street committee it was claimed that it was not responsible for the withdrawal of the sprinkler.

The Democratic primaries throughout Union county are scheduled for tonight. The county committee has declared for Mayor Seymour in the race for the gubernatorial nomination, but it is exceedingly doubtful whether the delegates elected in this city this evening will take the same view of the situation. Plainfield has one citizen who is entitled, at least, to a complimentary vote at the State convention, and the Plainfield delegates should insist on thus honoring James E. Martine. Instructions to that effect by the ward primaries would be timely.

It has not been the habit of the city officials to allow the local fire department to take part in any parade. An exception has been made, however, in the case of the borough parade and the necessary permission has been given for the local fire laddies to turn out with their appartus.

Some fine tennis has been seen in the High School championship tournament. If the return to popularity of this sport continues, there is no doubt but that this tournament will be a regular feature of the school year.

A great programme has been prepared by the Fair Acres Driving Club for its all day meet tomorrow. This is an entirely new feature and its continuance will depend on the support given this event.

At last the policemen of this city and Elizabeth are to meet on the diamond once more. Elizabeth has won twice so it is up to the local police to take the last of the series at least.

While yesterday's attempt was declared no race, there was much consolation in the fact that the cup-defender finished a mile ahead when the race was declared off.

Every patron of the Jersey Central Railorad joins in condemning the present condition of the driveways leading to the new eastbound station.

Something may be expected to happen regarding the new site for Muhlenberg Hospital before many weeks are past.

TEA TABLE TALK

Short and Gossipy Sketches That Are Not Always News, But Just as Interesting.

Some unknown friend in New York has sent Patrolmen Higgins and Saffron thoughtful remembrances. The present received by "Maurie" Higgins is a toy hatchet, which will recall to the happy patrolman the valiant work done by him in emulation of the example of Mrs. Nation. "Andy" Saffron got a cradle, which it should be explained, is for service during the long hours he spends at police headquarters.

* * * *

After the delegation of New Jersey street commissioners, who met here the other day, were driven over the thoroughfares of this municipality, they expressed favorable opinion of the general condition of the streets. Many were inclined to believe that a large appropriation was at the command of Street Commissioner Gavett, and hence he is able to put them in first-class condition. When informed that the appropriation for the year is but $24,000, and that $4,000 of this amount is used for paying for the steam roller, they highly complimented Street Commissioner Gavett.

Re elected Delegate

At a business meeting of the First Baptist church held Wednesday evening L. W. Randolph was re-elected deacon for a full term. The deacons who have in charge the matter of canvassing the church for an opinion regarding the adoption of the individual communion cups have not yet completed their work and a report was not received at the meeting as expected. There seems to be a general opinion, however, that the individual cups will be selected.

A Small Store Building.

The building to be constructed by Mrs. Bessie Sacher, in accordance with the application granted by Building Inspector Doane, is situated on the southwest corner of Spooner avenue and West Third street. The structure will be a store building, one story in height, and will be divided into two rooms. One of these store rooms will be used by Mr. Sacher and the other will be leased.

Teaching in Orange.

DUNELLEN.

(Special Correspondence.)

Dunellen, Sept. 27.—The High Court of the Independent Order of Foresters held its annual session yesterday at Newark and Court Dunellen was represented by five delegates. This year the High Courts elect delegates to attend the Supreme Court convention, which is held once every three years, and will convene next April at Los Angeles, Cal. The High Court of New Jersey is entitled to three members, and Court No. 1,123, of Dunellen, was accorded the honor of furnishing a member in the person of Lewis T. Titsworth by his election to this important position. Four years ago the several courts of the State elected Mr. Titsworth as their High Chief Ranger, and in recognition of his valuable services has retained him in one of its most important positions. Mr. Titsworth's election speaks well, not only for him, but also for the position occupied by Court Dunellen in Forester circles.

Miss Stella Larkin, in honor of the seventeenth anniversary of her birthday, tendered a reception to her many friends at the home of her parents last evening. The evening was pleasantly passed in the playing of games and with music and singing. At a late hour refreshments were served. Those present were the Misses Lizzie Herlick, Maude Wilcox, Julia Dodwell, Bessie Titsworth, Edna Coriell, Ella Dodland and Ernest Peters, William Giles, Abner Coriell, William Herlick, Fred Warden and Robert Hays. The young hostess received many pretty and valuable presents.

The Dunellen Banjo Club met at the home of Abner Coriell, last evening, for the purpose of reorganizing for the winter season. Before adjournment the following officers were elected: President, E. H. Boice; secretary and treasurer, Miss Wethemas. The next meeting will be held Saturday at the home of Miss Titsworth.

The Dunellen Athletic Club is making arrangements for a series of three dances to be held in the near future. The proceeds which are expected to materialize from the "hops" will be used to furnish the baseball team with suits.

The social committee of the Presbyterian church will give an invitation banquet to its male friends in the church chapel next Thursday evening. All present will be prepared to give an appropriate after-dinner speech.

William B. Smith has sold out his bakery business to Mrs. Luckey, of Plainfield. Mr. Smith will remove to the Todd building where he will soon open a combination pool and refreshment room.

The stone work on the new bridge over Green brook at the Dicken's place is completed and ready for the iron work. The Freeholder's committee will meet today to pass upon the work.

Mrs. John W. Griggs, of New Brunswick, is visiting at the home of her parents, Mr. and Mrs. P. C. Staats, of Dunellen avenue.

The baseball team of the Dunellen A. C. will go to Raritan tomorrow afternoon to play a game with a team from that place.

The fire department held its regular monthly meeting last night. Routine business was all that came before the meeting.

John Doty moved today from his Greenbrook farm to a house on Church street where he will reside in the future.

Mrs. Catherine Myers has returned home after a visit at the home of her daughter, Mrs. Hoch, of Somerville.

Miss Vergie Tunison has returned to her home in Glen Gardner after a pleasant visit with local friends.

Mrs. R. H. Batchelor has returned home after a few weeks' visit with relatives in New York.

Benjamin Carpenter who is suffering with typhoid fever is showing a decided improvement.

Mrs. Buslow, of Montclair, is being entertained at the home of Mrs. J. H. L. Peters.

Mrs. E. H. TenEyck is among the Dunellenites at the Pan American Exposition.

Miss Grace Tripp is confined to the house by illness.

NEW MARKE

(Special Correspondence.

New Market, September 27.—Rev. Dr. A. E. Main, of Plainfield, will speak in the Seventh-Day Baptist church tomorrow morning. The pastor, Rev. L. E. Livermore, will preach in the Seventh-Day Baptist church, of Plainfield.

Rev. and Mrs. Frank Fletcher are expected to arrive home from Boston tomorrow, where they have been spending tow weeks.

Joseph A. Ferris, of New York, has purchased the Piscataway farm, which was formerly owned by Mrs. B. M. Field.

The social, given by Lakeside Council, D. of L., Wednesday evening, netted it about $10.

Miss Angie Warren has returned home after a week's visit with friends in Newark.

A meeting of the Township Committee has been called for Tuesday evening.

John Dean, of Bound Brook, has taken possession of the Hotel Nelson.

SOUTH PLAINFIELD.

(Special Correspondence.)

South Plainfield, September 27—The Plymouth Brethren, of Plainfield, will hold a Gospel meeting in Washington Hall, Sunday.

Mrs. May Randolph spent yesterday at the home of her parents, Mr. and Mrs. Bunting, of New Brunswick.

Mrs. Lillian Bunting, of New Brunswick, is visiting at the home of her sister, Mrs. May Randolph.

Mrs. Henry Teeple is spending a few days with relatives at Rocky Hill.

WANT NEW COURT HOUSE.

Somerset County Bar Association Declares in Favor of New County Buildings.

(Special to The Daily Press.)

Somerville, Sept. 27—At a meeting of the Somerset County Bar Association, held in this place, suitable resolutions were adopted in regard to the advisability of erecting a new court house. A committee was appointed and every effort possible will be made by the lawyers to bring the matter into favor by the Freeholders.

One of the members said after the adjournment that the present structure was a disgrace to the county. Everyone seems to favor having the prison erected separate from the court house.

Mr. Kiple will Leave.

Walter Kiple, the violinist, who has been filling an engagement at the Hotel Netherwood during the present season, as a member of the Orpheus Club orchestra, leaves Monday for Lakewood. Mr. Kiple has secured a position in the orchestra at the Laurel House at that resort and will spend the winter season there.

Democratic Primaries,

The Democratic primaries will be held in the city and borough this evening. The hours in the city are from 7 until 9 o'clock, while in the borough they will open at 8 o'clock. The purpose of the primaries is to elect delegates to the Democratic State convention, which meets at Trenton Tuesday.

Illustrated Lecture.

The Young Men's Brotherhood of the First M. E. church will hold its first meeting of the season this evening in Vincent chapel. Dr. Simpson will give an illustrated lecture on the battle of Santiago. Admission will be free.

Mr. Macnab in Command.

J. D. Macnab, the instructor in commercial branches in the Plainfield High School, has taken the command of the school battalion. A drill was held in Washington Hall at noon today.

EPWORTH LEAGUE.

Topic For the Week Beginning Sept. 29—"Growth of the Kingdom." Text, Ps. lxxii.

In nothing is the contrast between Christianity and the other religions of the world more clearly shown than in such passages as this psalm compared with the most elevated passages from their sacred books. China, Japan, India, have nothing to show which for an instant holds place beside it. Islam has nothing in Alkoran to offer in competition, and, singularly, this is not from the New Testament after Christ has come nor from the lips of the Messiah. It is from the Hebrew Scriptures anticipating the coming of the Jehovah's Servant, the King-Man.

It springs like a root out of dry ground. Nothing in the administration of Israel's kings from Saul to Zedekiah could have furnished an illustration or foundation for the hope and expectation which swells here into a clear note of triumph. Justice and equity among men! Where had it ever been seen? The poor protected by the powerful; peace and prosperity encouraged by the mighty ones of earth; righteousness flourishing where fraud and violence have held sway; harvests waving on mountain tops and no robber bands molesting—what a dream for an oriental mind! And this Glorious One a Universal Prince, a World Monarch! They of Babylon and Assyria and Egypt have been here, but as destroyers; fire, blood, ruin, wherever they set their feet. They of Greece and Rome shall stand on Zion, but shall pass and all their cohorts—not theirs the dominion. The God of Israel is the One whose name shall endure forever, and in His name shall all nations of the earth be blessed.

It is hardly possible for any fair minded person to seriously read these Old Testament writings and compare with them the Christian teachings and works and particularly the marvelous extension of Christian influences in the world and not be impressed with the great difference between this religion and all others which the world has ever seen.

It is valuable to trace the gradual extension of the Christian church from the day of Pentecost until the present time in numbers and from land to land. The past century has seen a more rapid diffusion of the church and a more widely extended influence than could be shown by all the previous ages combined. More Bibles have been printed and circulated since 1800 than all the preceding 35 centuries since Moses had produced. The broad stretches of Oceania have in their countless island groups all been evangelized in very recent times. Africa and Asia have but just opened their doors to the gospel, but they are now wide open. Events of the past few years have in the influence of the United States upon international affairs given an object lesson to the world of the supremacy of Jesus Christ as pictured in this Seventy-second Psalm such as the world has never before seen.

To fully realize the mighty change in the affairs of men wrought by the conception set forth here we need to recall the deeds of Nebuchadnezzar, Sennacherib, Alexander and Cæsar, and even Napoleon, and then to compare the events in Cuba and China and the Philippines and Porto Rico. Atrocities have been committed, without doubt, by the troops even of the United States, but evil does not rule.

"Let the whole earth be filled with His glory! Amen and amen!"

A Perpetual Vacation.

Heaven will be a vacation, but of what kind or nature no one may know. Will it be a rest from all work or the rest that comes from activities of another and different kind? Tennyson believed that heaven was the perpetual ministry of one soul for another. Perhaps he was right. Who knows? Jesus arose from the grave as one who had finished his work. The few days that He remained upon the earth were those of an inhabitant from another world. The old wounds were there, but they had ceased to bleed. We all look forward toward it—that faraway, or, possibly, nearby, land, where the cares of life are laid down for the last time and the weary are at rest.—Presbyterian Journal.

Faith and Work.

Faith stands for the religion of the heart; work stands for the religion of the life. These two God has joined together. Let no man put them asunder, for there is no genuine religion without them in active union. Just as love in the soul finds a way to manifest itself so as to attract the attention, please and benefit the one loved, so genuine faith in the Lord Jesus moves its possessor to earnest, joyful action along lines of practical Christian usefulness. Where there is no such action there is no genuine faith.—Religious Telescope.

A Miracle.

I see no miracle in Christ's advent;
It is not mythical in that 'tis old,
But I see grandeur in this sweet intent,
Of love that bears with sin so manifold;
I see the largess our Creator gives
To worlds unnumbered and each thing that lives.

I should have marveled had there been no sign
Of His great purpose given unto man;
No explanation of His love divine
That runs, a golden thread, through all the plan;
'Twould have been wondrous had there been no chord
Of revelation from the Lord.

But one thing must forever be to me
Most wonderful, beyond all things of time,
That there should be such light and man not see
In nature's mirror, burnished and sublime,
A Maker's image and a Father's care,
A refuge from the world and from despair.

O scientist, philosopher and sage,
This is the strangest paradox of all:
Beyond expression that from age to age
Love should endure, yet few accept the call,
And God keeps loving on year after year;
Who seeks a miracle may find it here.

THE RAGE FOR LACE.

No Dressy Gown or Coat Is Complete Without It.

The rage for lace will be as pronounced this winter as formerly. Many of the more stylish fur coats have jabots at the neck and lace frills or undersleeves. Little fur Etons are made with broad collars edged with the heaviest yellow guipure. No evening gown is perfect without some elaborate application of lace. Whole evening coats are being made of it, and the lining is of lustrous panne or oriental silk. Lace empire tea gowns and robes are the height of style, and with these the fan and hair ornaments are of jeweled lace.

Berthas of lace spangled with rhinestones are among the latest novelties. Choux of liberty silk of three shades

RECEPTION GOWN.

of one color artistically blended are finished with long ends of lace jeweled to match the gown in color.

A smart reception gown is made of coffee colored crepe de chine. The collarless waist has a yoke shaped bolero of coffee colored net and Arabian lace, and it is fastened by loops of deep bronze velvet ribbon. The upper part of the sleeves is likewise decorated with a cap of the net and Arabian lace. The blouse is laid in fine tucks, and the upper half of the sleeves is also treated in the same way. These tucks are allowed to flare a little above the waist line and from the elbow down. The skirt is tucked closely at the hips, and the bottom is laid in ten soft folds.

The hat which accompanies this is of coffee colored lace trimmed with a huge brown feather. JUDIC CHOLLET.

NOVELTIES.

Unique Things In Gloves, Collars and Boleros.

One of the French novelties in the way of gloves consists in black suede embroidered with silver. Occasionally a rhinestone is woven into the pattern. These gloves reach half way between the elbow and the shoulder, and they are meant to be worn with black evening gowns. It is quite the thing to accompany a black gown with gloves of gun metal color enlivened by a dazzling row of rhinestone buttons set in gun metal frames. White gloves are ornamented with turquoise buttons, and often beautiful bracelets are worn on the outside of these long evening gloves.

Dinner gowns for less dressy occasions are made with elbow sleeves and a round or V shaped neck. A pretty dinner gown for a young matron is made of many black gauze ruffles over a black princess slip, and each little frill is edged with a narrow black velvet ribbon. The low decolletage is outlined with a floral branch of black silk poppies plentifully jeweled with rhinestones.

NEW BOLERO AND COLLAR.

Two pretty ornaments for a plain dress are here shown. The first is a wide collar of ecru white mousseline de sole laid in fine tucks and edged with a medallion applique of heavy yellow lace. It is fastened a little to one side with a bow of black panne and a gilt buckle.

The second is a bolero jacket composed of alternate strips of black velvet and yellow lace insertion. The lower edges are cut in points, and the sleeves end at the elbow in narrow turn up cuffs. JUDIC CHOLLET.

[CONTINUED.]

Phorenice's brow began to darken as the great beast grew more restive, and she shook her red curls viciously. "Some one shall lose a head for this blundering," said she. "I ordered to have this beast trained to stand indifferent to drums, shouting, arrows, stones, and fire, and the trainers assured me that all was done, and brought examples."

I slipped my girdle. "Here," I said, "quick. Let me lower you to the ground."

She turned on me with a gleam. "Are you fearful for my neck then, Deucalion?"

"I have no mind to be bereaved before I have tasted my wedded life."

"Pish! There is little enough of danger. I will stay and ride it out. I am not one of your nervous women, sir. But go you, if you please."

"There is little enough chance for that now."

Blood flowed from the mammoth's neck where the spikes of the collar tore it, and with each drop, so did the tameness seem to ooze out from it also. With wild squeals and trumpetings it turned and charged viciously down the way it had come, scattering like straws the spearmen who tried to stop it, and mowing a great swathe through the crowd with its monstrous progress. Many must have been trodden under foot, many killed by its murderous trunk, but only their cries came to us. The golden castle, with its canopy of royal snakes, was swayed and tossed so that we two occupants had much ado not to be shot off like stones from a catapult. But I took a brace with my feet against the front and one arm around a pillar, and clapped the spare arm round Phorenice, so as to offer myself to her as a cushion.

She lay there contentedly enough, with her lovely face just beneath my chin, and the faint scent of her hair coming in to me with every breath I took; and the mammoth charged madly on through the narrow streets. We had outstripped the taint of smoke, and the original cause of fear, but the beast seemed to have forgotten everything in its mad panic. It held furiously on with enormous strides, carrying its trunk aloft, and deafening us with its screams and trumpetings. We left behind us quickly all those who had trod in that glittering pageant, and we were carried helplessly on through the wards of the city.

The beast was utterly beyond all control. So great was its pace that there was no alternative but to try and cling on to the castle. Up there we were beyond its reach. To have leaped off, even if we had avoided having brains dashed out or limbs smashed by the fall, would have been to put ourselves at once at a frightful disadvantage. The mammoth would have scented us immediately, and turned (as is the custom of these beasts), and we should have been trampled into pulp in a dozen seconds.

There was no guiding the brute; in its insanity of madness it doubled many times upon its course, the windings of the streets confusing it. But by degrees we left the large palaces and pyramids behind, and got among the quarters of artisans, where weavers and smiths gaped at us from their doors as we thundered past. And then we came upon the merchants' quarters where men live over their storehouses that do traffic with the people over seas, and then down an open space there glittered before us a mirror of water.

"Now here," thought I, "this mad beast will come to sudden stop, and as like as not will swerve round sharply and charge back again towards the heart of the city." And I braced myself to withstand the shock, and took fresh grip upon the woman who lay against my breast. But with louder screams and wilder trumpetings the mammoth held straight on, and presently came to the harbor's edge, and sent the spray sparkling in sheets among the sunshine as it went with its clumsy gait into the water.

But at this point the pace was very quickly slackened. The great sewers, which science devised for the health of the city in the old king's time, vomit their drainings into this part of the harbor, and the solid matter which they carry is quickly deposited as an impalpable sludge. Into this the huge beast began to sink deeper and deeper before it could halt in its rush, and when with frightened bellowings it had come to a stop, it was bogged irretrievably. Madly it struggled, wildly it screamed and trumpeted. The harbor water and the slime were churned into one stinking com-

PHORENICE LAUGHED AS SHE SWAM.

post, and the golden castle in which we clung lurched so wildly that we were torn from it and shot far away into the water.

Still there, of course, we were safe, and I was pleased enough to be rid of the bumpings.

Phorenice laughed as she swam. "You handle yourself like a sore man, Deucalion. I owe you something for lending me the cushion of your body. By my face! There's more of the gallant about you when it comes to the test than one would guess to hear you talk. How did you like the ride, sir? I warrant it came to you as a new experience."

"I'd liefer have walked."

"Pish, man! you'll never be a courtier. You should have sworn that with me in your arms you could have wished the bumping had gone on forever. Ho, the boat there! Hold your arrows. Deucalion, hail me those fools in that boat. Tell them that, if they hurt so much as a hair of my mammoth, I'll kill them all by torture. He'll exhaust himself directly, and when his flurry's done we'll leave him where he is, to consider his evil ways for a day or so, and then haul him out with windlasses, and tame him afresh. Pho! I could not feel myself to be Phorenice if I had no fine, red, shaggy mammoth to take me out for my rides."

The boat was a ten-slave galley, which was churning up from the farther side of the harbor as hard as well-plied whips could make oars drive her; but at the sound of my shouts the soldiers on her foredeck stopped their arrow-shots, and the steersman swerved her off on a new course to pick us up. Till then we had been swimming leisurely across an angle of the harbor, so as to avoid landing where the sewers outpoured; but we stopped now, treading the water, and were helped over the side by most respectful hands.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Sept. 29—Comment by Rev. S. H. Doyle.

Topic.—Missions: growth of the kingdom.—Ps. lxxii.

The Seventy-second Psalm is undoubtedly a Messianic psalm. In its prophetic significance the real king referred to is the King of Kings. The most characteristic feature of the psalm is its richness in prophecy concerning the growth of Christ's kingdom and His universal sway. "He shall have dominion from sea to sea and from the river unto the ends of the earth. They that dwell in the wilderness shall bow before Him, and His enemies shall lick the dust. All kings shall fall down before Him; all nations shall serve Him. His name shall endure forever; His name shall be continued as long as the sun, and men shall be blessed in Him. Blessed be His glorious name forever, and let the whole earth be filled with His glory! Amen and amen!" The growth of Christ's kingdom is thus assured by rich and abundant prophecy.

1. The growth of Christ's kingdom is to be universal. It is to grow until it shall extend from sea to sea and from the rivers unto the ends of the earth. This is the definite and pronounced teaching of the word of God. In the vision of Daniel the stone representing Christ's kingdom increased in size until it occupied the whole earth. In the parables of the leaven and the mustard seed Christ taught that His Kingdom was to become a universal kingdom. The leaven spread until it leavened the whole lump. The mustard seed grew until it became a tree whose branches overshadowed the whole earth. And these prophecies are being fulfilled. Christ's kingdom has steadily been advancing for 19 centuries, and it can soon be said that the whole earth is full of His glory.

2. The growth of Christ's kingdom is to carry with it blessings to mankind. Men shall be blessed in Him; all nations shall call Him blessed. "The march of Christianity has been the march of progress and of blessing to the nations and peoples of the earth; nations, societies, homes and individuals have been transformed; Germany has been changed from the home of savage, ferocious tribes to an empire that stands as a bulwark for a strong and noble type of civilization. The British isles before Christianity crossed the English channel were inhabited by painted savages, who sacrificed human beings in their idolatrous worship. Behold these people today and see what God hath wrought through the blessed influences of the gospel of His Son. Thus it always is—where Christ's kingdom goes the blessing of God follows.

The growth of Christ's kingdom being assured and its results so beneficent both for time and eternity, our zeal in the cause of missions should be redoubled. The increased spread of the gospel means increased blessings to humanity and the hastening of the day when all nations shall know Him and call Him blessed.

THE PRAYER MEETING.

Have a historical missionary meeting, studying the progress of missions down to the present time.

BIBLE READINGS.

Ps. ii, 1-12; Isa. ii, 1-3; ix, 6, 7; lii, 7; lxii, 1-12; Dan. ii, 31-35, 45; Mic. iv, 1-3; Math. xiii, 33; xxviii, 19, 20; Acts i, 8; Rom. x, 14, 15.

In Christ's Keeping.

Let the mind be in Christ's keeping and under His control. Let all our thoughts be gathered up and brought into captivity to the obedience of Him. Let the man be trained to think according to the eternal principles of love and truth and righteousness and purity which Jesus taught. Let us learn to think Christ's thoughts and bring all our opinions to this test: What would Jesus think about it? Let this be the prayer: If my imagination pictures any impurity, O Lord, efface it instantly! If my thoughts are wayward, wandering from the path of right, Lord Jesus, bring them back! If they attempt to fly beyond their proper sphere, oh, clip their wings! If they are bent on mischief, turn them aside! Hold them in complete subjection to Thyself! May they be illumined by Thy light, seasoned by Thy grace, sweetened by Thy love and sanctified by Thy Spirit!—Rev. A. Vennema in Christian Intelligencer.

A Fundamental Error.

Christianity teaches that food, drink, raiment or creature comforts of all sorts, yea, life itself, are infinitely beneath consideration when weighed against the spiritual service of humanity. Bodily health and vigor, sound digestion, good sleep, keen sense perception are all good if rightly used or subordinated to higher faculties, but to speak of them as forming a harmony with the higher is placing the soul and body on the same plane, and this is a fundamental error in educational psychology.—Hon. W. T. Harris in the Congregationalist.

No Room For Despair.

Where Christ brings his cross he brings his presence, and where he is none is desolate, and there is no room for despair.—Mrs. Browning.

Take Thy Cross.

You must not weep. What's past is past and nevermore will be.
Go dry that tear! Now, raise your eyes and look at me.

Your joy is gone for aye, you say; your heart beats dull with pain.
If joy is gone, what use to mourn; will't come again?

Accept thy fate. Go to thy God and ask on bended knee,
"O Lord in heav'n, look down this way and comfort me."

Then rise again, with purpose firm, intent to do the right;
Take up thy cross and trust in Him to make it light.

—New York Observer.

SPORTING.

ON THE GRIDIRON.

Clarence Hand, the captain and manager of the Fair View Giants eleven, wishes to arrange games with teams averaging from fourteen years. Address C. Hand, Fairview avenue.

No definite plans have been laid by the athletic association of the Leal's School for the organization of a foot ball team. The material for one is said to be lighter than in former years and the prospects are not very bright.

The Union Field Club would like to play any football team averaging eighty pounds, the Jockey Club preferred. Games can be aranged for Saturdays and holidays. Address Henry Stephany, 108 Summit avenue.

William Niechwitz, captain and manager of the Manning football team, would like to hear from teams averaging 100 pounds, with a view to arranging games. Communications should be addressed to him at 62 Manning avenue.

The Watchung football team is practising hard for the game at Somerville Saturday. The team from Company M which it is to play is composed of experienced men, who always put up a good game. The local team is determined to make a good showing in its initial game and a hard struggle is anticipated.

Interest in football has not become manifest as yet. No doubt the warm weather which only recently disappeared is responsible for the lack of interest. Within a week or so it can be depended upon that matters in the football world will become lively and then the boys in the city with be at the game in deap earnest.

There is a possibility of the Y. M. A. of Hope chapel placing a football eleven in the field this season. Among the members of the Hope baseball team there are a number desirous of continuing the out door sports until real cold weather, ann football seems to be the only alternative. The association possesses some good material for an eleven, and the matter will be thoroughly discussed at a near meeting.

The Plainfield Athletic Association is rapidly getting its association football team into shape for the coming season. The members practise daily on the field at South Second street and Clinton avenue, which will be the regular grounds this fall. It is expected the first game of the season will be played early next month. Teams wishing to arrange dates are asked to communicate with J. W. Turner, of West Front street.

The complete line-up of the Watchung football team, which will go to Somerville tomorrow to compete with an eleven from Company M, will be as follows: Thomas U Smith, full back; Charles Woolston, right half; Edward Mosher, left half; Fred Hardingham, right guard; Ernest Peters, left guard; James Taylor, right tackle; George Gaddis, left tackle; Frank Emmons, right end; Alfred Eagan, left end; Fred Viewig, quarter back; Joseph Robinson, center. After the game, Plainfield boys will be entertained at the company's armory.

GOLF.

There will be the regular weekly play for the President's cup on the Westfield Golf Club course tomorrow afternoon.

The Hillside Tennis and Golf Club team will go to Baltusrol tomorrow and play a team match with the team from the latter club.

Play for the Mellick and Golf Committee cups and the Reinhart cup will be the attractions at the Hillside Tennis and Golf Club course tomorrow.

Besides the weekly play for the Mellick and Golf Committee cups there will be a play for the Reinhart cup on the Hillside Tennis and Golf Club course next Saturday. This cup was offered by J. W. Reinhart, men's competition for active members only.

Morris J. Dumont, who ever since the introduction of golf in this city, has been one of the most active players, has retired from the game. He says that he has played his last game. Many will regret to learn this for Mr. Dumont played a strong game and was a valuable acquisition to the membership of the Hillside Tennis and Golf Club, where he has made a good record. He gives no special reason for giving up the game, but says he simply desires to withdraw.

Despite the fact that this is the finest time of the year to play golf, the attendance this fall on the Hillside Tennis and Golf Club course has not been as large as formerly. The course is in the best of condition, but there is no denying the fact that interest has decreased a little. The entry lists for the various competitions are quite large, but not what they should be with such a large membership. Now that the Chapman cup competition has been decided the dates selected later on for this play are cancelled, leaving no competitions in its place. However, the golf committee may arrange other events.

ON THE DIAMOND.

James Montross, who during the fore part of the season put up a great game in the box for the Hope chapel team, is not displaying his usual form at present. He has been playing too hard and a good rest, if given him would be advantageous alike to himself and his team.

Manager Foster, of the Hope chapel nine, exercised good judgment in replacing "Ben" Evans, on first base, by "Gus" Feiring. Feiring put up a good game throughout the contest with the Garwood team Saturday, and showed that he is the right material to cover the first bag.

Already there been some discussion among the members of the Young Men's Association as to the probable material for next season's baseball team. There are one or two very good players who did not try to make the team this year, but intend to come out next year. One of these is Fred Dixon, who is considered an all-round good player.

Third Baseman Keene, of the St. Mary team, who seriously injured his arm in a game two weeks ago, is gradually recovering the use of that useful member, but the season will be well over before it is in good shape. Although it pained him greatly, he played four innings in Saturday's game with the Clinton Avenues and did very well. Out of twice at the bat, he made one excellent hit, actually using but one hand.

AMONG THE STEPPERS.

Under the auspices of the Fair Acres Driving Club a big meet will be held at Westfield Saturday afternoon. The entries closed last Saturday and quite a number of speedy trotters and pacers were entered. The events include classes for stallions, brood mares, roadsters, pacers, jumpers, runners. The judging show will commence at 10 o'clock in the morning, and the races will start at 1:30 o'clock in the afternoon. In trotting and pacing there will be events in the 2:25, 2:30 and 2:40 classes. The races will be mile heats, best three in five.

FOR TEMPERANCE.

Meeting Was Held Under the Auspices of the Reform Club Last Evening.

Addresses on temperance and a phonographic entertainment were the features on the programme rendered at the regular meeting of the Reform Club last evening. Despite the fact that the attendance was small, there was considerable enthusiasm displayed.

In opening the meeting Edward P. T. Smith, the president of the club, delivered an address on the baneful influence of the liquor traffic and the degrading results it produces. A short address was also made by William Root, who dwelt on the misery caused by strong drink, citing examples of downfalls.

At the conclusion of the formal exercises Sigmund Frucht gave a phonographic entertainment. The selections consisted of sentimental, patriotic and religious songs, interspersed with instrumental pieces. Many of the selections invoked hearty applause on the part of the attentive audience.

Missionary Meeting.

A missionary meeting will be held at Warren chapel this evening. An address on the subject of mission work will be made. The service commences at 8 o'clock. The topic II Corinthians viii, 9.

Programme by Boys.

The Boys' Orchestra of the Mt. Olive Baptist church will give an entertainment in that edifice this evening. The proceeds are for the purpose of discharging church debts.

Nothing Special Done.

A meeting of the German Beneficial Society was held last evening and the regular monthly business was transacted.

QUIET WEDDING.

Marriage of Miss Laura E. Runyon and Stephen A. Krom is Announced.

There is much interest in the announcement of the marriage of Miss Laura Evelyn Runyon, daughter of Theodore I. Runyon, of West Fourth street, to Stephen Arthur Krom, of Madison avenue, which took place last evening at the home of the bride Rev. J W Richardson, pastor of the Park Avenue Baptist church, officiated at the wedding which was a very quiet one, only the immediate relatives being present.

The bride and groom are well and favorably known in this city, and their friends will extend to them their best wishes. They have both been closely identified with the Park Avenue Baptist church, where they have assisted in various ways in carrying on the departments of work. Mr. and Mrs. Krom will reside in this city.

PERSONAL.

Mr. and Mrs. W. C. Smith, of Grandview avenue, have returned from a visit to the Pan-American Exposition.

Miss Mary Thompson, daughter of David Thompson, of Rockview avenue, left today for Washington, D. C. where she will resume teaching.

Judson Kepler and family, of Manning avenue, have been entertaining Mr. and Mrs. Joseph Kepler, of Hartford, Conn., during the past week.

Miss Sadie Mantz a graduate of the North Plainfield High School, has gone to Trenton, where she will pursue a two years' course at the State State Normal School.

Mr. and Mrs. J. H. Whitenack, who have resided for a number of years at 102 Duer street, are planning to break up housekeeping October 1 and will board for the winter in Craig place.

PANAMA EXCITED.

An Expedition Under General Dias Has Landed at Chame.

COLON, Sept. 27.—Panama for a week or more has been terribly unsettled owing to apparently well founded reports brought by incoming steamers and received from other sources which assert that an expedition numbering between 150 and 200 men under General Domingo Diaz, which sailed from Corinto, Nicaragua, two weeks ago, effected a safe landing at a place called Chame, about fifty miles south of Panama. Chame offers splendid natural facilities for resisting attack, and the expedition is said to be well armed and equipped and to be in possession of modern guns.

General Diaz, whose son played a prominent part in last year's battle at Panama, is a Colombian and a large cattle owner.

A noteworthy feature of the present situation is the fact that the Colombian rebels under General Patino, who a month ago daily and nightly pillaged most of the defenseless railroad stations, have not been heard of recently. It is supposed that the troops under Victoriano Lorenzo, who were recently in the vicinity of Panama, have already effected a junction with Patino's troops and are now near Chorrera, only one day's journey from Panama. Probably they are awaiting the union with the Nicaraguan contingent under General Diaz in order to make a combined assault upon Panama.

The government is on the alert and has already dispatched a force of 200 troops to Matachin station, the nearest point on the railroad leading to Chorrera.

Fully alive to the fact that Venezuela, Ecuador and Nicaragua are openly aiding the Liberal, or insurgent, cause, the Colombian authorities are making strenuous efforts to maintain sovereignty by large importations of rifles, guns and ammunition. They have also purchased in Europe two additional war vessels. The state of Antioquia, always patriotically conservative and loyal, has offered to supply 17,000 men in case of an emergency. Other states will doubtless follow this example.

American Surgeons Praised.

LONDON, Sept. 27.—Speaking at the banquet of the Bowyers' company in London and referring to a touching allusion made by the chairman, Mr. Morgan, M. P., to the death of Mr. McKinley, Sir James Crichton Browne said he was confident he was expressing the unanimous opinion of the British medical profession when he declared that the surgeons who attended the late president of the United States showed the utmost skill at every stage and did everything possible to alleviate the sufferings and prolong the life of their illustrious patient. "American and British yachts may compete for victory," exclaimed Sir James, "but between American and British surgeons there is no rivalry, but only mutual respect and good will."

LITTLE TALK AS YET ABOUT CITY OFFICES.

Some Probabilities and Possibilities For Republican Nominations In Plainfield.

WILL CHOOSE CITY JUDGE.

VERY LIKELY THAT WILLIAM W. RUNYON WILL BE RENOMINATED.

Three Councilmen-at-Large Are to Be Chosen—Mr. Dument and Mr. Craig Are Not Likely to Return—Mr. Buckle May Go Back.

The political atmosphere is a little foggy so far as candidates for the various city offices to be filled this fall are concerned. People's thoughts and actions have centred on the Nation's great tragedy lately and little heed had been paid to the fact that the time is fast drawing nigh when the voters of this city will be called upon to select councilmen and a city judge.

There's little doing in the Democratic wigwam and not much more in the Republican. One thing seems sure. There is likely to be little contest over the city judgeship. Who will be the candidate of Democracy if any, is not disclosed as yet. From all that can be learned from reliable sources William N. Runyon, the present efficient incumbent, has a cinch on the nomination at the hands of the Republicans. Everyone appears to be pleased with his conduct of the office and a renomination is looked upon as a certainty. There's a different story to tell when it comes to councilmanic field.

In all the terms of seven councilmen expire this fall. Three of these are incumbents who were elected as candidates at large. They are James F. Buckle, of the First ward; John B. Dumont, of the Second ward, and James Craig, of the Fourth ward. All are Republicans. The Republican party will select three men to fill their places acceptably should any of them decline to run again. The terms of four councilmen representing various wards also expire. These are William L. Gloak, of the First ward; Jan van Herwerden, of the Second ward; Chas. B. Clifton, of the Third ward, and Robert L. Lee, of the Fourth ward.

John B. Dumont has publicly stated that he does not desire a renomination. It is understood that it was only at the urgent solicitation of his friends that he consented to run for the term that he now fills. The field is open here for new comers. Mr. Buckle it is believed will take another nomination, if extended to him. His name will appear in the Republican column again this fall, it is anticipated. It is reliably reported that Mr. Craig is adverse to accepting a renomination. In case his decision is final it will be necessary for his party to look around for another candidate. No one has prominently been mentioned. Clarence L. Murphy, it is believed, would run if given the opportunity.

No expression has come from Mr. Gloak as to his attitude in regard to another renomination, and it is not known what stand will be taken by Mr. Clifton or Mr. vanHerwerden. One politician predicts that Mr. Clifton will not be renominated and that there is a man for the place who is being kept in the background. So much for rumor. The convention will not be held until ten days or two week before election day, which falls on November 5. There is lots of time for anyone with aspirations to announce himself, and it is generally believed that within the next two weeks some names will be brought to public attention in this connection. This is the Republican end of the political wand and the Democratic will be a different story.

FREE DAY.

When The Good Students Have a Day to Themselves.

Yesterday was "Free Day" in the borough public schools. On periodical occasions the pupils, who have displayed proficiency in their studies, are given a holiday as a reward of merit.

The pupils, who show any backward tendency or are needful of instruction in any particular branch, are given special instruction. In other words, "Free Day," is a day of private tuturing. This arrangement has been in force for a number of years and according to the reports of the teachers exceptionally beneficial results have been obtained from it.

Brick Addition.

W. C. Smith, the contractor, is constructing a brick addition in the rear of VanNest & Edsall's store on East Front street. The new building will be 20x25 feet in dimensions.

FEAST OF TABERNACLES.

Commenced Last Evening at Sunset—Is Being Observed by All of the Jewish Faith.

Sucas, the feast of the tabernacles, commenced last evening at sunset and continues for one week. It is observed by the people of the Jewish faith throughout the world.

In ancient days the Jews, after the harvest, would gather at Jerusalem and give thanks for the crops and the occasion was marked as as a festival. In modern times, when the people of the faith are scattered all over the earth, it is impossible to hold pilgrimages to Jerusalem, and hence a different programme answers the purpose.

The Hebrews now build small temporary quarters on their lawns or in their yards and cover them with branches of trees and vines. Here they eat during the week of the feast. When the festival closes one week from today Simchas Torah is ushered in. This is when the faithful Hebrew begins to read Genesis after having finished Malachi.

JUNIORS NAME OFFICERS.

MARRIED IN CHURCH.

The Groom, Robert Smalley, Was a Former Plainfielder—Wedded at Harrison.

The marriage of Robert Smalley, a former Plainfielder, to Miss Martha Absley, daughter of Mr. and Mrs. Alexander Absley, of 600 South Fourth street, Harrison, took place Wednesday evening. It was performed in Holy Cross church, Harrison, in the presence of a large number of relatives and friends. The rector of the church was the officiating clergyman.

Following the ceremony a reception was held at the home of the bride's parents which was also largely attended, many being present from this city. The young people have taken up housekeeping at Harrison, where the groom is employed in a large manufacturing concern.

Mr. Smalley lived in this city on Manson place for many years. He is very well known by local young people, particularly in the West End.

FORESTRY EXHIBIT.

It is Now Being Shown at the Plainfield Public Library.

A unique forestry exhibit is being given at the Public Library. This exhibit consists of eighteen different species of wood grown under the direction of the State Forester, on an eight acre strip of land at Cedarhurst, N. J. All are of the same period of growth, two years.

The exhibit is valuable as showing the number of varieties that can be successfully grown on even a small piece of land, and also by the growth attained, the relative value of each as timber. Each specimen is numbered, and a key assists in their indentification.

The exhibit is owned by a recent High School graduate.

Address Endeavor Meeting.

Miss Sarah Curry, matron, and D. M. Torrey, manager, of the Little Missionary Day Nursery in New York are to address the Endeavor meeting at the Congregational church Sunday night at 7:30.

MARTINE'S BOOM FOR GOVERNOR LAUNCHED.

Second Ward Democratic Primary Instructed Its Delegates For Martine.

OTHERS FOLLOWED LEAD.

ALL WARD PRIMARIES DENOUNCED COUNTY COMMITTEE'S ACTION.

Objected to the Endorsement of Seymour For Governor—Delegates Elected at All Four Wards of the City.

The Democrats of this city, at their primaries held last evening, took a strong stand against the county executive committee, which was arraigned for having passed resolutions having for their purpose the committal of the Union county delegates to Seymour for governor. Delegates were chosen in all the wards, but this business was of small importance in comparison with the ringing resolutions condemning the county committee.

Much adverse feeling has been caused by the passing of the resolution favorable to Seymour by the county committee and the local Democrats, many of whom desire to see the candidacy of James E. Martine supported by the delegates of his own county, took this means to express their condemnation of the action. In the Second ward the Democrats were not satisfied with passing resolutions of this nature, but launched the boom of Mr. Martine, who is a resident of the ward, and instructed their delegates to vote for him. In two wards the delegates go uninstructed.

The resolutions as passed in the various primary conventions are as follows:

We, the Democrats of the Second ward of the city of Plainfield, take this opportunity to condemn and disapprove the action of the Union county Democratic executive committee for the passage of resolutions having for their aim and purpose the committing of the Democrats of this county to any particular candidates for governor. We hold that the county committee transgressed its authority and established a most dangerous precedent in its endeavor to prejudice the action of primaries yet to be held.

The primary convention of the First ward was held at 161 North avenue and Walter Hetfield, Sr., presided. Andrew J. Nolan acted as secretary and Isaac Taynor and James Dougherty were elected inspector and Henry Molleson, secretary. The delegates chosen were J. A. Staats and Walter Hetfield, Sr., while Charles Bock and William T. Banks were chosen alternates. The resolutions condemning the action of the county committee, in directly endorsing the candidacy of Seymour, were passed without opposition.

In the Second ward James E. Martine was selected as chairman of the convention, which was held in the Bryant School house. James B. Guttridge was chosen secretary. The judge of elections was Alfred Cooks and the inspector Hezekiah Hand. Alfred Cooks and John Ross were elected delegates and Lewis Timpson and James B. Guttridge alternates. The county committee was censured for instructing the delegates before they were elected, and James E. Martine's candidacy was given a boom by the instruction received by the delegates to vote for the "Farmer Orator" for the gubernatorial nomination.

In the Third ward the primary was held at the Park Avenue hotel.

John M. Hillman was made chairman and James Hibbits secretary. The delegates elected were John M. Hillman and A. H. Atterbury. Both have the privilege of choosing their own alternates.

Before adjourning, Chairman Hillman read the resolutions condemning the recent action of the Union County Committee after which they were unanimously adopted.

The Fourth ward Democrats held their primary last evening in T. A. B. Hall. Michael Flynn called the meeting to order and was chairman. James J. Kane was the secretary and clerk of election, while Ira G. Hulburt was the judge. The delegates selected were Elmore D. Moffett from the first district, Clinton A. Shannon from the second district and Ira G. Hulburt from the third district. They are all united in their support of James E. Martine for governor and so declared themselves.

The primary condemned the action of the Union county Democratic executive committee in committing the Democrats to any particular Democrat for candidate. It was held that the committee transgressed its authority and established a most dangerous precedent.

The Democratic primaries were held in North Plainfield last evening and delegates were elected to the Democratic State convention, which meets at Trenton Tuesday. In both districts the primaries were quiet and the business was conducted with dispatch.

The Somerset street schoolhouse was the place of meeting in the First district, John H. Carney was selected as chairman of the meeting and Chas G. Wood acted as secretary. David J. Carney was elected a delegate and the primary was speedily adjourned.

In the Second district the primary was held in Saengerbund Hall. David D. Smalley acted as chairman and James Bailey was selected as secretary. Elston M. French was the unanimous choice of the voters in attendance for delegate.

No instructions were given the delegates in either district and no resolutions were passed. It was the general impression, however, that North Plainfield will support the candidacy of James E. Martine for governor.

THE DELEGATION IS DIVIDED.

UNION COUNTY WILL SUPPORT MARTINE AND SEYMOUR.

Bitter Contest in Essex, Where Both Sides Claim Victory—In This County.

(Special to The Daily Press.)

Elizabeth, Sept. 28—Delegates were elected at the Democratic primaries in all the wards, last evening, and it is understood that they will support the candidacy of Seymour for the gubernatorial nomination, in obedience to the resolution passed previously by the Democractic county executive committee.

From other parts of the county word comes that James E. Martine's candidacy has gained strength and that some of the delegates will support him at Trenton.

Newark, September 28—The Democratic primaries held here last evening were bitterly contested and both the Seymour forces and the opposition claim the victory. There will be contesting delegations and the rights to seats will be decided by the convention Tuesday.

Hackensack, September 28—A caucus of the Bergen county delegates to the Democratic gubernatorial convention, held here yesterday afternoon, was adjourned without any choice being made in the selection of a candidate. It is understood that if Seymour does not control the Essex county delegation, the Bergen county representatives will not support him.

PLAYED THE HOST.

New Council of Juniors Entertained Other Councils in a Pleasing Manner.

Benevolent Council, No. 256, Jr. O. U. A. M., entertained members of Franklin Council, No. 41, and Somerset Council, No. 104, at a regular meeting held last evening in the Sons of Temperance rooms on West Second street. An interesting programme had been prepared and was carried out to the letter.

Addresses were made, songs rendered and phonographic selections given by a number of talented members of the home and visiting councils. On behalf of John V. Beekman, the organizer of the council, Robert M. Clark presented a handsome copy of the Bible to the organization. John P. D. Kirch, the councilor, responded to the address in accepting the gift.

The address of the evening was made by W. L. Loesen, of Providence Council, No, 160, of Pennsylvania. Refreshments were served and a general good time enjoyed until long after the midnight hour.

RAISING FUNDS.

Calvary Baptist Church Will Hold a Rally For That Purpose Sunday.

The members of the Calvary Baptist church are making efforts to raise funds to pay off the second mortgage on their building and will hold a rally for the purpose Sunday afternoon.

Rev. Scott Wallace, pastor of the church, is desirous of making the rally successful and requests all the friends of the church who have intentions of contributing to the fund, would do so before Saturday afternoon. He has already received a number of subscriptions, among them being one for $25 from Mayor Jenkins. Checks may be sent to Mr. Wallace at 312 East Third street.

Mrs. Sarah F. Townsend, of Watchung avenue, is visiting friends on Gates avenue, Brooklyn.

SCOTCH PLAINS MAY GET WATER SUPPLY.

Plainfield Water Supply Company Will Lay Pipes If Subscribers Can Be Secured.

TOWNSHIP COMMITTEE ACTS

WILL MAKE CONTRACT IF NO SERIOUS OBJECTION IS MADE.

Quiet Canvass Has Been Made And Enough Subscribers Have Been Promised To Assure Laying Of Company's Water Mains.

Scotch Plains from present indication will soon have the water mains from the Plainfield Water Company through the village. For several years the scheme of having a water supply has been agitated, but every agitation has been allowed to die a natural death for want of proper support. Eight years ago the Township Committee commenced negotiations with the Plainfield Water Company and an estimate was given by the company. At the following spring election the Township Committee recommended that the sum of $800 be raised for water. The appropriation was carried and it was thought the mains would soon be laid but it was not so, as the water company demanded a certain number of private subscribers who would agree to put the water in for private purposes. As the majority of the residents had their own wells and cisterns it was found impossible to get the required number of guarantees so the matter was dropped.

Since then several plans have been discussed, one of which was that the town build its own plant on the hill near Loftus Hollingsworth's residence. This would give fall enough to meet all demands, whether for fire or private use. While the plan was feasible, still it was thought by many that it would be a burden to the taxpayers, so it was abandoned.

Several months ago the Township Committee began a quiet canvass to see if the requisite number of subscribers could be secured so as to enable them to present the matter once again to the Water Company. Their efforts were rewarded beyond expectation, some of those who were opposed to having water connection made with their houses now being heartily in favor of it. So the matter was presented to the company for its consideration. Superintendent Andrews and the committee have met and discussed the matter several times and the Township Committee at its meeting last evening presented the resolution, as will be found in another column of The Daily Press. The resolution must be advertised, after which anyone desiring to make any remonstrance against the resolution will be given a chance at a stated meeting of the committee. A law recently passed allows the committee to use its own discretion as to the contract. But it is hardly likely that but few remonstrances will be made, as the majority of the residents are heartily in favor of having the water. So the prospects are exceedingly bright that in the near future the mains will be laid.

JAILED AGAIN.

Michael McCarthy Locked Up by Local Police For Being Disorderly on the Street.

The Somerset county Grand Jury at its session yesterday failed to find an indictment against Michael McCarthy of this city, who was arrested on a charge of stealing a pocketbook from Editor D. D. Clark, of Bound Brook. Clark failed to appear to press the complaint and McCarthy was at once released.

His freedom was short-lived, however, for within an hour after he arrived in this city he was arrested at the corner of Park and North avenues. McCarthy was denouncing the papers for the way in which they had reported his arrest, and also the local police for the part they had taken in his incarceration. He became very abusive when Patrolman Lunger appeared and took him in custody.

In the City Court this morning McCarthy declared that he had only been speaking confidentially about the police and would apologize to them for what he had said. He admitted having taken three drinks after his release, but as his actions seemed to show that he had more City Judge Runyon made it a fine of $3 or ten days.

Luncheon for Bridal Party.

Mrs. George Wharton Edwards has sent out invitations for a luncheon in honor of Miss Louise Green Fisk and her bridemaids to be given October 5.

AUXILIARY TO U. V. U.

Officers, Recently Elected, Will be Installed Friday Evening October 4.

It has been arranged to institute a local auxiliary to the Union Veterans Union Friday evening, October 4, when Mrs. Ada Johnson, a State officer, will be in Plainfield for that purpose. The women who are to compose the membership of the new order met Thursday evening at the home of C. B. Stevens on Duer street. There are now twenty members on the charter list and several more will be added within the next week. Officers were elected as follows:

President, Mrs. Andrew Cox; senior vice-president, Mrs. W. R. Mattox; junior vice-president, Mrs. C. B. Stephens; treasuer, Miss Pennington; secretary, Miss Johnson; chaplain, Mrs. Johnson; conductor, Mrs. Wm. Day; inside guard, Mrs. Beglin; outside guard, Mrs. John Naylor. The institution of the auxiliary will take place in the rooms of Winfield Scott Post, No. 73, G. A. R.

COUNTY TEACHERS TO MEET.

SOMERSET COUNTY TEACHERS ASSOCIATION COME TO BOROUGH.

Programme of the Two Sessions to Be Held on Saturday, October 12.

The first regular fall meeting of the Somerset County Teachers' Association will be held in the borough Saturday, October 12 Superintendent Homer J. Wightman has the matter in charge and has prepared an interesting programme for the day's deliberation.

According to arrangements two sessions will be held. The first will commence at 10 o'clock in the morning and the other at 1 o'clock in the afternoon. At the noon recess a luncheon, prepared under the direction of the instructor in cooking, Miss Bessie Taylor, will be served to the visiting teachers.

Among the topics of discussion are "The Kindergarten Idea in First Year Work," Miss Lizzie Southworth, of North Plainfield; "Teaching Pupils How to Study," Superintendent H. C. Krebs, of Somerville; "Short Roads in Arithmetic," Miss Alberta Waterbury, of North Plainfield; "Songs and Songs," Miss Laura Sydenham, North Plainfield; "Busy Work That Pays," Miss Mabel Hare; "Silent Forces of the School Room," Miss Anna L. Holcomb.

LITERARY WORK.

Programme to be Given at the Meeting of the Plainfield Literary Society.

The Plainfield Literary Society will meet at the Y. M. C. A. Hall Monday evening and the members will participate in what promises to be an interesting programme.

Several speakers have been chosen to take part in a debate. E. H. Hartley will deliver an oration of "McKinley." This will be the second meeting of the organization this fall and in order that they may have an opportunity of becoming informed on the purposes of the society, all young men are invited to attend this session.

SOMERSET STREET.

The Improvement to That Thoroughfare is Progressing Rapidly.

Work on the Somerset street improvement is progressing rapidly. Crushed stone is being placed on the thoroughfare from Green brook to Jackson avenue, and as soon as this is completed it will be thoroughly rolled. Street Commissioner William Emmons has a gang of men at work cleaning the upper end of the thoroughfare and getting it in shape.

Three new cross walks and culverts have been placed in position at the intersection of Sycamore and Mercer avenues. The culverts, which are of the six inch kind, are immediately under the cross walks and are a decided improvement over the old wooden ones.

AUCTION SALE.

Will Be Held at Wengie Farm, Near Sterling, Tuesday.

There will be an auction sale of household goods, horses, pigs, wagons and farming implements Tuesday, commencing at 10 o'clock, on the Wengie farm, situated one mile and a half from Sterling, on the road to Summit. There is an endless variety of things to be sold, many of which are new. Hezekiah Hand, of this city, will be the auctioneer. He will sell the things for Mrs. E. Orchard, the owner.

—Use Press want ads.

—Neuman Brothers have a few baskets of peaches left from the large consignment placed on sale today. They will be sold this evening regardless of cost.

REPORTS AND ELECTION; THE REMARKABLE MENU.

Endeavor Society of Congregational Church Combined Business and Pleasure.

ANNUAL MEETING WAS HELD.

ANNUAL REPORTS SHOWED GOOD PROGRESS BY THE SOCIETY.

After the Business Session, Familiar Things Were Served Under New Names—Musical Programme Given—The Menu.

The annual meeting of the Christian Endeavor Society of the Congregational church was held last night at the home of the president, Miss J. Louise Jenkins, Rose Lawn, West Seventh street. A large number of the young people of the society were present.

The business session began a little before 9 o'clock, and included reports of the past year's work and election of officers for the coming year.

Miss Anna E. Manktelow, chairman of the look-out committee, reported that the society's membership had increased during the year. The chairman of the prayer-meeting committee, Miss Alice Miller, told of large and helpful meetings and of a number of special services of various sorts. A good report was also presented by the chairman of the social committee, Miss Agnes B. Freeman, telling of several pleasant social affairs arranged by the committee, among them a Hallowe'en sociable, a periodical party, and a comfort-bag sociable.

Philip Spenser Suffern, of the missionary committee, gave an account of missionary work along many lines, including gifts sent to New York city missions, comfort bags for the sailors, the holding of a missionary sewing circle, and the purchase of a good missionary library for the society. A number of missionary meetings had also been held.

The report of the good literature committe, of which Samuel H. Craig was the chairman, stated that four large boxes of magazines and books and been sent during the year, chiefly to the New York Port Society. Walter Raynolds, chairman of the music committee, in addition to his report of care for the music in the meetings of the society during the year, offered some helpful suggestions for the benefit of the new committee.

The election of officers resulted as follows: President, Miss Anna E. Manktelow; vice-president, Samuel H. Craig; recording secretary, Edward Carey Suffern; treasurer, Warren W. Weseman; chairman prayer-meeting committee, Miss Marion Drake Woodcock; lookout committee, Charles Belknap; social committee, Miss Ethel Millar; missionary committee, Miss W. B. Harold; music committee, Miss Charlotte B. Strong; good literature committee, Walter Raynolds; flower committee, Miss Agnes LaBoyteaux; good citizenship committee, Harold W. Tomlinson.

At the close of the business session an informal social hour was enjoyed. After a song, DeKoven's "Little Doris," by Miss M. G. Morse, accompanied by Walter Raynolds, and an instrumental selection, Leschetizky's "Two Skylarks," by Miss Alberta Waterbury, supper was served.

Much merriment was aroused by the menu which was presented to the guests, and which read as follows: "Flat Jokes, Slivers, Italian Plums, Missing Centers, Gold Bricks, Needed Friends, Lover's Salute, Sidewalk Slippers, Elixir of Life." Guests were requested to order three articles from this bill of fare, and great was the amusement when the orders were filled, some most incongruous combinations being received. This was supplemented later, however, by serving all the guests with everything. The menu, when translated, stood as follows: "Crackers, Toothpicks, Olives, Crullers, Cheese, Sandwiches, Kisses, Bananas, Water." The kisses that remained after supper were auctioned off at astonishing prices by the chairman of the social committee, Miss Freeman.

AT THE THEATRES.

Something About the Attractions Which Plainfield Theatre-Goers May Care to Witness.

Manager F. F. Proctor enters upon his policy of presenting but the best laughing shows, this week. Comedies will prevail at all of his theatres hereafter. Results have shown that in the interlarding of vaudeville and the drama, laughing shows are best suited to the demands of the occasion. In the selections for the coming week are found two plays which were made famous by the late Augustin Daly's Stock Co., a play which brought Nat C. Goodwin into early prominence and an old time farce. The vaudeville element is of the best and a period of genuine enjoyment is promised patrons of the popular Proctor teatres. At the Fifty-eighth Street Theatre "Bootle's Babies," one of the great successes of a few seasons ago, is revived with special scenery, properties and by a carefully chosen cast. "The Last Word," one of the most successful of the Daly plays, will be the Fifth Avenue's attraction. At the One Hundred and Twenty-fifth Street Theatre "A Night Off" will be the comedy with vaudeville for presentation between acts. "Turned Up," one of the comedies in which Nat C. Goodwin scored one of his earliest successes, will be the Stock Co.'s offering at the Twenty-third Street.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel.
NEW YORK, Jan. 3, 1901.

DRS. TAFT BROS'. MEDICINE CO.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

Very truly yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., February 1, 1901.

DR. TAFT BROS. MEDICINE CO.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12½ years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 125th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. February 5, 1901.
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street.

SAMPSON SHUT OUT.

Schley Court Does Not Want His Testimony.

HOOD AND M'CALLA ON THE STAND

Latter Says Coaling Was Feasible Off Santiago and That the Flying Squadron Did Not "Proceed With All Possible Dispatch."

WASHINGTON, Sept. 28.—In the Schley court of inquiry yesterday a letter was presented from Rear Admiral Sampson asking to be allowed to be represented in the court by counsel, but the court refused to grant the request on the ground that "the court does not at this time regard you as a party to the case."

The principal witnesses of the day were Lieutenant John Hood, who commanded the dispatch boat Hawk during the Spanish war, and Captain Bowman H. McCalla, who was in command of the Marblehead. The testimony of both these officers dealt with the delivery of dispatches from Admiral Sampson to Commodore Schley, and both related conversations with the latter. Captain McCalla gave in detail his part in arranging a code of signals with the Cuban insurgents and his communications with them near Cienfuegos on May 24, 1898, when it was learned definitely that Cervera's fleet was not in the harbor there.

Captain McCalla expressed the opinion that coaling was feasible off Santiago at the time Schley began his retrograde movement. He testified that he met the flying squadron on the morning of May 19. He sent the Eagle to communicate with Schley. The Vixen met the Eagle and reported to the Brooklyn. Captain McCalla told of the arrangements he had made to communicate with the insurgents at Cienfuegos. They were to show three lights on the top of the hill at night and three horses in line on the beach by day. He made no written report of this and reported it only to Captain Chadwick at Key West. It was a secret code of his own, and he did not think it wise to obtain any publicity, so that the Cubans might not be betrayed to the Spaniards. He reported it as soon as he found that the flying squadron had gone to Cienfuegos. He expected himself to return to Cienfuegos within twenty-four hours, but owing to accident he did not sail from Key West until 4 p. m. May 21. He reached Cienfuegos at 8 a. m. May 24.

"I told Commodore Schley," said Captain McCalla, "that the information regarding Cervera's presence at Santiago was authoritative and that the Spanish squadron was still there when I left Key West late in the afternoon of the 21st.

"Commodore Schley said he thought the Spanish squadron was in Cienfuegos harbor. He said he had received a newspaper from the British steamship Adula, from Kingston, Jamaica, in which was printed a war bulletin that Cervera had left Santiago.

"I said I had arms and ammunition for the Cubans and would go ashore and deliver them and find out at once if the Spanish ships were there. I asked the commodore if he had seen three lights at night, and he said he had. I said those were the Cubans and offered to go ashore.

"I took the Eagle and went about fifteen miles up the coast, arriving there at noon; learned that Cervera was not in Cienfuegos and sent the Eagle back because she was fastest, and I considered the information of great importance. I landed arms, ammunition, clothing and food by means of four boats. The weather was good, although there was some little sea running, and I had no difficulty in landing, as the harbor was good.

"I reached the Brooklyn between 3 and 4 o'clock in the afternoon, steamed under her quarter and after some conversation with Commodore Schley went aboard. I confirmed the information previously sent by the Eagle that the Spanish squadron was not there."

Captain McCalla testified that the flying squadron certainly did not "proceed with all dispatch" to Santiago. He said that the Marblehead could have coaled on the afternoon and evening of May 26 and 27 off Santiago and at other times. The Marblehead had sufficient coal. Having a thorough knowledge of the south coast of Cuba, he would never have anticipated any trouble in coaling the Marblehead. He told Schley of two good places to coal his squadron, off Cape Santa Cruz and off the north promontory of Haiti.

Valuable Race Horses Killed.

PLYMOUTH, Mich., Sept. 28.—A palace horse car was shunted upon a siding on the Pere Marquette road and overturned, killing two valuable race horses and injuring three others so that they had to be killed. The rest of the animals in the car were cut up badly. Besides the horses a party of eight men and boys, two women and two little girls were in the car. H. King, a boy of fifteen, had his arm broken, but the others of the party escaped with slight bruises. The car was en route from Fort Erie to Cincinnati.

Imagines She Killed the President.

MILWAUKEE, Wis., Sept. 28.—Mrs. Matilda Tonn of this city is insane as a result of the assassination of President McKinley. She is 45 years old and the mother of five children. She labors under the hallucination that she murdered the president. She has been committed to an asylum.

German Crown Prince Goes Hunting.

BERLIN, Sept. 28.—Crown Prince Frederick William has arrived in the Hartz mountains, where he will hunt until the 1st of October. Empress Augusta Victoria has returned from Reminten to Potsdam.

WRECK ON WABASH.

Long List of Injured---Entire Train Derailed.

A HUNDRED PASSENGERS IN PERIL.

Accident Near Council Bluffs Caused by Spreading of the Rails May Result In Death of Three---Line Blocked For Many Hours.

OMAHA, Neb., Sept. 28.—A through passenger train on the Wabash railroad from St. Louis to Omaha was wrecked eleven miles southeast of Council Bluffs. The entire train, consisting of mail and baggage cars, two day coaches, a chair car and a Pullman sleeper, rolled down an eighteen foot embankment and turned bottom side up, the engine alone remaining on the track. The engine stopped with the forward trucks on the edge of the bridge over Indian creek. The train carried nearly a hundred passengers. Three persons were perhaps fatally injured and sixteen seriously hurt.

A score of others were more or less injured, some having gashes caused by glass and broken seats. Some were taken to hospitals and others to the hotels at Council Bluffs, and a number were brought to this city.

A wrecking and relief train, with physicians, was sent to the scene of the wreck. Most of the injured were taken to a farmhouse until relief could arrive.

Passengers say the train was running about thirty miles an hour when the accident occurred. The engineer says that just after the train left Minola and as it was nearing what is known as Madman's crossing the engine left the track, but gained the rails, although the tender went down the bank with the remainder of the train.

The cause of the wreck is thought to be the spreading of rails on the curve where it occurred. The track is badly blocked, and it will be necessary for the road to run its trains over the Burlington road between Malvern, Ia., and Omaha for some time.

Cashier Hoppner Arrested.

NEW YORK, Sept. 28.—William Hoppner, cashier for the A. W. Faber Pencil company of 78 Reade street, who disappeared on June 18 last, has been arrested in Buenos Ayres, Argentine Republic, upon information furnished by the detective bureau here. After Hoppner's disappearance the detectives at police headquarters here say his employers reported to Captain Titus that an examination of his books by expert accountants revealed a shortage of between $30,000 and $40,000. Hoppner's whereabouts were unknown until three days ago, when he was located in the Argentine Republic and arrested there by the local authorities.

Southern Pacific's President Resigns.

SAN FRANCISCO, Sept. 28.—Charles M. Hayes, president of the Southern Pacific company, formally announces that he will resign from the presidency. In his announcement he says: "The change in policy and organization of the company consequent on the change in ownership of the control of the Southern Pacific shortly after my taking service with the company had made a place originally attractive to me so much less so that I several weeks ago voluntarily placed my resignation and a surrender of my contract with the company at the disposal of the executive committee."

Western Trip Planned For President

WASHINGTON, Sept. 28.—President Roosevelt will probably make an extended visit to the Pacific coast next year. The president has spoken of his intention to several of his friends, among them H. W. Scott of the Portland Oregonian and S. A. Perkins of the Tacoma Ledger, who left for the coast in the belief that this trip would be undertaken. It is proposed that the president shall visit Washington and Oregon first, going thence to California and returning through central west or southern states. The president has never visited the Pacific slope.

Grain Rates Advanced.

CLEVELAND, O., Sept. 28.—The grain carrying railroads have decided upon an advance of half a cent a bushel on grain that is carried down the lakes and sent east from Buffalo by rail. This goes into effect Tuesday next. Grain men consider the increase an indication of strength in the eastern grain situation as well as an absence of demoralization which was reported on eastbound cargoes out of Chicago.

The Sultan's Health Failing.

BERLIN, Sept. 28.—The health of Abdul Hamid, sultan of Turkey, is said to be failing. The German embassy in Constantinople receives daily reports as to his condition from its agents stationed near the Yildiz kiosk.

Ibsen, the Author, Very Low.

LONDON, Sept. 28.—A special dispatch from Christiania says that the condition of Henrik Ibsen, the Norwegian dramatist and poet, has grown worse and that his death is hourly expected.

Deadly Waterspout In Texas.

SAN ANTONIO, Tex., Sept. 28.—A waterspout or cloudburst near the headwaters of Alameta creek in Presidio county Sept. 25 caused the death of thirteen prospectors.

Rio de Janeiro an Infected Port.

RIO DE JANEIRO, Sept. 28.—The Brazilian government has declared the city of Rio de Janeiro infected with the bubonic plague. The port of the city is under suspicion.

Weather Probabilities.

Rain; easterly winds, shifting to northeasterly, increasing in force.

AMENDMENTS TO THE CONSTITUTION OF NEW JERSEY, PROPOSED BY THE LEGISLATURE OF 1901.

BE IT RESOLVED by the Senate (the House of Assembly concurring), That the following amendments to the constitution of this state be and the same are hereby proposed, and when the same shall be agreed to by a majority of the members elected to the Senate and House of Assembly, the said amendments shall be entered on their journals, with the yeas and nays taken thereon, and referred to the legislature next to be chosen, and shall be published for three months previous to the first Tuesday after the first Monday of November next (being the fifth day of said month) in at least one newspaper of each county, if any be published therein, the said newspapers to be designated by the president of the Senate, the speaker of the House of Assembly and the secretary of state:

ARTICLE V

EXECUTIVE.

Insert in lieu of Paragraph 10, a new paragraph as follows:

10. The Governor or person administering the government, the Chancellor and the Attorney-General, or two of them of whom the Governor or person administering the government shall be one, may remit fines and forfeitures and grant pardons, after conviction, in all cases except impeachment.

ARTICLE VI.

JUDICIARY.

Insert in lieu of Section II., a new section as follows:

1. The court of Errors and Appeals shall consist of a Chief Judge and four Associate Judges or any four of them.

2. In case any Judge of said Court shall be disqualified to sit in any cause, or shall be unable for the time being to discharge the duties of his office, whereby the whole number of Judges capable of sitting shall be reduced below four, the Governor shall designate a Justice of the Supreme Court, the Chancellor or a Vice-Chancellor, to discharge such duties until the disqualification or inability shall cease.

3. The Secretary of State shall be the Clerk of this Court.

4. When a writ of error shall be brought, any judicial opinion in the cause, in favor of or against any error complained of, shall be assigned to the Court in writing. When an appeal shall be taken from an order or decree of the Court of Chancery, the Chancellor or Vice-Chancellor making such decree or order shall inform the Court in writing of his reasons therefor.

5. The jurisdiction heretofore exercised by the Supreme Court by writ of error shall be exclusively vested in the Court of Errors and Appeals; but any writ of error pending in the Supreme Court at the time of the adoption of this amendment shall be proceeded upon as if no change had taken place.

Section IV.

Insert in lieu of Paragraph 1, a new paragraph as follows:

1. The Court of Chancery shall consist of a Chancellor and such number of Vice-Chancellors as shall be provided by law, each of whom may exercise the jurisdiction of the Court. The Court shall make rules governing the hearing of causes and the practice of the Court, where the same is not regulated by statute.

Section V.

At the end of Paragraph 1, add the following:

The Court may sit in divisions at the same or different times and places.

Strike out Paragraph 3.

Section VI.

Insert in lieu of Paragraphs 1 and 2, the following:

The Court of Common Pleas shall be constituted and held in each county in such manner as may be provided by law.

ARTICLE VII.

CIVIL OFFICERS.

Section II.

Insert in lieu of Paragraph 1, a new paragraph as follows:

1. Judges of the Court of Errors and Appeals, Justices of the Supreme Court, the Chancellor, the Vice-Chancellors and the Judges of the Circuit Court and of the Court of Common Pleas shall be nominated by the Governor and appointed by him with the advice and consent of the Senate. All persons now holding any office in this paragraph named except the Judges of the Court of Errors and Appeals as heretofore existing, shall continue in the exercise of the duties of their respective offices according to their respective commissions or appointments. The Judges of the Court of Errors and Appeals, except those first appointed; the Justices of the Supreme Court, the Chancellor and the Vice-Chancellors shall hold their offices for the term of seven years, and shall at stated times receive for their services a compensation which shall not be diminished during the term of their appointment; and they shall hold no other office under the government of this State or the United States.

2. The Judges of the Court of Errors and Appeals first appointed shall be appointed one for three years, two for five years and two for seven years. Judges of the Court of Common Pleas shall hold their offices for the term of five years.

Strike out Paragraph 2.

1. Resolved (the House of Assembly concurring), That the following amendments to the constitution of this state be and the same are hereby proposed, and when the same shall be agreed to by a majority of the members elected to the senate and house of assembly, the said amendments shall be entered on their journals, with the yeas and nays taken thereon, and referred to the legislature next to be chosen, and published for three months previous to the first Tuesday after the first Monday of November next, being the fifth days of said month, in at least one newspaper of each county, if any be published therein, the said newspaper to be designated by the president of the senate, the speaker of the house of assembly and the secretary of state.

1. Amend Paragraph 3, of Section 1, of Article IV, so as to read as follows:

3. Members of the senate and general assembly shall be elected on the first Tuesday after the first Monday in November; in the year nineteen hundred and three members of the general assembly shall be elected for the term of one year, and in the year nineteen hundred and four, and every second year thereafter, they shall be elected for the term of two years, each house of the legislature shall meet separately on the second Tuesday in January next after each election for members of the general assembly; the time for holding such elections may be altered by the legislature.

2. Amend Paragraphs 1 and 2, of Section 2, of Article IV, so as to read as follows:

1. The senate shall be composed of one senator from each county in the state, elected by the legal voters of the counties respectively for four years, except as provided in the following paragraph:

2. The terms of the senators elected in the year nineteen hundred and two shall be extended to four years from the commencement of their terms; as soon as the senate shall meet after the election to be held in the year nineteen hundred and three the senators elected in that year shall be divided by lot under the direction of the senate into two classes, as nearly equal as may be; the seats of the senators of one class shall be vacated at the expiration of three years, and of the other class at the expiration of five years; the seats of the senators elected in the year nineteen hundred and four, and of all senators elected thereafter, shall be vacated at the expiration of four years from the commencement of their terms, so that one-half the number of senators, as nearly as may be, shall be elected every second year, at the same time that members of the general assembly are elected; and all vacancies caused by resignation or otherwise shall be filled for the unexpired terms only.

3. Amend Section III, of article IV, by striking out the word "annually."

4. Amend Paragraph 7, of Section IV of Article IV, so as to read as follows:

7. Members of the senate and general assembly shall each receive the sum of five hundred dollars for each year of their term, and no other allowance or emolument, directly or indirectly, for any purpose whatever; the president of the senate and the speaker of the house of assembly shall, in virtue of their offices, receive an additional compensation equal to one-third of their allowance as members.

5. Amend Paragraph 3, of Article V, so as to read as follows:

3. The term of the Governor elected in the year nineteen hundred and four shall be extended to four years from the commencement of his term, and he shall hold his office until the third Tuesday of January, nineteen hundred and nine; thereafter the Governor shall hold his office for four years, to commence on the third Tuesday of January next ensuing his election, and to end on the Monday preceding the third Tuesday of January four years thereafter, and he shall be incapable of holding that office for four years next after his term of service shall have expired, and no appointment or nomination to office shall be made by the Governor during the last week of his said term.

K. B. ARMOUR DEAD.

Noted Stockman and Packer Succumbs to Long Illness.

KANSAS CITY, Mo., Sept. 28.—Kirkland B. Armour, the packer, died at his residence here at 6 o'clock last evening. Mr. Armour suffered with Bright's disease and a weak heart and had been sinking gradually for three days.

Mr. Armour had been ill for two years and had vainly sought health at various resorts in the east and south. Last summer he went to Glens Falls, N. Y., but he suffered a relapse and was sent home three weeks ago on a special train to die. He showed improvement steadily until three days ago, when he took a serious turn for the worse.

Kirkland B. Armour was born at Stockbridge, N. Y., in 1854. He was the son of Andrew Watson Armour, who was for many years conspicuously identified with the Armour interests in Kansas City, and entered the firm in 1872. After the death of his father he was made vice president and general manager of the Kansas City branch, and upon the death in 1898 of S. B. Armour he succeeded to the presidency. He was in the directories of half a dozen Kansas City concerns.

Mr. Armour had for years been a breeder of blooded Herefords and on his farm near Kansas City had some of the finest stock in the United States, including among them many importations from the English royal herd. He was twice president of the National Hereford Breeders' association. Mr. Armour leaves a widow and three children.

J. P. Morgan's Clerical Guests.

NEW YORK, Sept. 28.—Forty clergymen of the New York diocese left the Grand Central station yesterday on J. Pierpont Morgan's private train to attend the Episcopal convention which is to be held next week in San Francisco. The party will return as Mr. Morgan's guests also. By Mr. Morgan's orders nothing has been left undone which could add to the comfort of the party. There are three sleeping cars and dining, library and parlor cars on the train. After reaching the Pacific coast the clergymen will be entertained by Mr. Morgan at the Crocker mansion in San Francisco.

Locomotive Spark Starts Big Blaze.

PLYMOUTH, Mass., Sept. 28.—A spark from a locomotive on the New York, New Haven and Hartford railroad started a fire on the property of the Plymouth Cordage company at North Plymouth yesterday afternoon which caused a loss of $100,000. The fire was in a storehouse 585 feet long. The damage was practically confined to the middle section, which contained 4,000 bales of manila hemp valued at $25 a bale. This stock was ruined.

Miss Stone Not Found In Bulgaria.

SOFIA, Bulgaria, Sept. 28.—The Bulgarian government denies the statement of the Turkish government that the abductors of Miss Helen H. Stone, the American missionary, sought refuge in Bulgaria. A search for the missing missionary which was instituted in this country has proved fruitless. The frontier guard has been reenforced to prevent any possible passage of brigands.

M'KINLEY'S ESTATE.

Value May Reach the Sum of $250,000.

TEXT OF THE WILL MADE PUBLIC.

All Real Estate and the Use of All Personal Property Go to Widow, the Only Charge Being For the Support of His Mother.

CANTON, O., Sept. 28.—Secretary Cortelyou is here to assist Mrs. McKinley in disposing of matters connected with the late president's estate. He arrived yesterday and was at once driven to the McKinley home. After meeting Mrs. McKinley the question of filing the will was taken up. The trying task of reading it to her was undertaken by the faithful secretary. Mrs. McKinley made a heroic effort to bear up and succeeded in doing so, although the ordeal was difficult for her. All legal formalities necessary for her to subscribe to were disposed of. At 3 o'clock in the afternoon Judge Day and Secretary Cortelyou went to the office of the probate judge and offered the will of President McKinley for probate.

They carried with them the following:

"I, Ida S. McKinley, widow of William McKinley, deceased, hereby decline the administration of his estate and recommend the appointment of William R. Day and George B. Cortelyou as administrators, with the will annexed." This recommendation bears the date of Sept. 27, 1901.

Following is the text of President McKinley's will, written at the executive mansion, Washington:

"I publish the following as my latest will and testament, hereby revoking all former wills:

"To my beloved wife, Ida S. McKinley, I bequeath all of my real estate wherever situated and the income of any personal property of which I may be possessed at death during her natural life. I make the following charge upon all of my property, both real and personal: To pay my mother during her life $1,000 a year and at her death said sum to be paid to my sister, Helen McKinley. If the income from property be insufficient to keep my wife in great comfort and pay the annuity above provided, then I direct that such of my property be sold so as to make a sum adequate for both purposes.

"Whatever property remains at the death of my wife I give to my brother and sisters, share and share alike. My chief concern is that my wife from my estate shall have all she requires for her comfort and pleasure and that my mother shall be provided with whatever money she requires to make her old age comfortable and happy.

"Witness my hand and seal this 22d day of October, 1897, to my last will and testament, made at the city of Washington, District of Columbia."

The will was witnessed on the 22d day of October, 1897, and is signed by G. B. Cortelyou and Charles Loeffler.

It is given out on authority that the McKinley estate will total $225,000 to $250,000, including life insurance of $67,000. Aside from this insurance the estate consists of real estate here and contiguous to Canton and of deposits in Washington banks. Monday morning has been fixed by the probate court for a hearing prior to probating the will. Then it is expected Secretary Cortelyou and Judge Day will be finally appointed administrators of the estate and will give bond.

Dole's Resignation Rumored.

SAN FRANCISCO, Sept. 28.—Since the arrival here of the steamer Sierra last Wednesday the story has been circulated that just before the vessel left Honolulu Governor Dole wrote his resignation. Whoever is responsible for the story insists that the governor's resignation was given to Secretary Henry E. Cooper, who was a passenger on the Sierra, to be delivered by him to the president. Cooper and Judge A. S. Hartwell of Honolulu left for Washington Wednesday evening.

Italian Laborers Riot.

WORCESTER, Mass., Sept. 28.—Italians in the employ of the Worcester Consolidated Railway company caused a riot because one of their number had been discharged by a section foreman and later assaulted by the foreman because of abusive and vile language. The foreman was struck in the back with a paving stone and a sledge hammer.

Steel Mills Leave Scranton.

SCRANTON, Pa., Sept. 28.—General Manager Henry W. Ehrum and the sixty-three executive department employees of the Lackawanna Iron and Steel company left here today for the new site of the steel works at Buffalo. The mill buildings are being torn down and shipped to Buffalo as rapidly as the work can be prosecuted.

Large Attendance at Cornell.

ITHACA, N. Y., Sept. 28.—Cornell university was formally opened when President J. G. Schurman delivered his annual address before an audience of fully 2,000 persons in the university armory. An increase of nearly 250 students in the freshman class was reported.

To Disinherit Chinese Heir Apparent

LONDON, Sept. 28.—"It is reported here," says a dispatch from Shanghai to The Standard, "that on the arrival of the court at Kaifongfu the empress dowager will disinherit the heir apparent, Pu Chun, on the pretext that he is leading a life of dissipation."

A Poor Custom.

It has long been the habit of a number of the local dealers in New York and Philadelphia daily newspapers to insert circulars and other advertising matter in the newspapers previous to delivery. The Daily Press has often been importuned to follow their example, but we have believed that our subscribers wanted The Daily Press and The Daily Press only, and so have refused all such requests.

In many of the dailies distributed yesterday morning through the city, copies of a page editorial published in the New York Journal were placed. Many of the people who received these copies were very indignant. Some merely complained to the dealers, while others stopped their subscriptions at once. They deemed that unfair means had been taken to get the New York Journal in their households.

It certainly seems as if the dealers were foolish to place any kind of a circular or advertisement in the newspapers they delivered. What the people want are the newspapers. They pay for the particular newspaper they want and expect to get it. Now that the feeling is so high against The Journal in many quarters, it certainly seems an act of poor judgment to insert a copy of the editorial page of that newspaper with a regular purchase. We are more than ever convinced that our course is the proper one and that the wise news-dealer will not seek to force outside advertising on his patrons.

A typographical mistake was made in Thursday's issue in the publication of the names of the freeholders in Somerset county who are defeating the interests of the people in not voting for a concrete bridge over Green brook at Giraud avenue. The corrected list of men, who are responsible for the failure to provide a substantial structure at that point is:

E. B. Hoagland, of Hillsborough township.

R. W. Hoagland, of Branchburg.

Eugene T. Cruser, of Montgomery township.

David Philhower, of Bedminster township.

W. J. Logan, of Bedminster township.

That advertising in the newspaper has become essential to success in most enterprises appears from many indications, remarks the Philadelphia Record. A striking proof is the extraordinary development of the business of writing advertisements for the newspapers. One of the oldest and most successful schools of this city has found it expedient to establish a department for the training of "ad" writers. It is only a question of time when every kind of business will make its announcements regularly through the newspapers.

Now that Acting General Superintendent W. W. Wentz, Jr., and General Passenger Agent C. M. Burt, of the New Jersey Central Railroad, are both residents of this city, there is no doubt but they will use their influence with the proper officials of that company to see that the driveways leading to the new east-bound station are put in proper condition. We shall expect speedy action on the part of the railroad officials.

The Daily Press is much indebted to Manager Charles W. Runyon, of the New York and New Jersey Telephone Company, for his courtesy in furnishing the special bulletins of the yacht races. He has certainly proved the truth of the boast of the telephone company that "the mail is quick, the telegraph is quicker but the telephone is instantaneous."

The Republican State campaign has begun. After the convention, the first event of importance promises to be the clambake and outing of the Union county Republicans at Recreation Park. It is late in the year for political outings but this one will probably be of the nature of a rally and various county and local booms will be worked up.

It is a subject for much regret that the people of Plainfield were not generous enough to support the last of the open-air band concerts. It was scheduled for last night but Leader LaVere had to give it up as there was no prospect that the actual cost of the concert could be met.

TEA TABLE TALK.

Short and Gossipy Sketches That Are Not Always News, But Just as Interesting.

A highly-engraved booklet has been issued as a souvenir of the recent annual convention of the National Association of Chief of Police of the United States and Canada. The pamphlet contains the proceedings of the convention, views of New York, the city where the sessions were held, and the likenesses of the chiefs who participated in the proceedings. Among the photographs is an excellent picture of Chief of Police P. S. Kiely, of the local force.

H. P. Frothingham, president of the Fish and Game Commission of New Jersey, has issued a circular on the subject of the killing of flickers, or high-holders, and calls attention to an apparent conflict of laws passed by the Legislature last year. The fact that it is made unlawful to kill woodpeckers, excepting sapsuckers, at any time, Mr. Frothingham thinks covers the flickers and says "they are high-holders every day in the year." The board of fish and game commissioners have unanimously resolved that section 5 of the present law, which plainly prohibits the killing of flickers at all times of the year, shall be enforced.

FUNERAL OF MRS. TITSWORTH.

Was Held From Residence of John D. Titsworth, of Madison Avenue.

The funeral services of the late Mrs. Charles Titsworth were held Thursday afternoon from the residence of John D. Titsworth, of Madison avenue. Rev. E. M. Bodman, rector of Grace P. E. church, where the deceased was a member, conducted the services.

A quartette composed of Mrs. D. E. Titsworth, Miss Nan. Randolph, D. E. Titsworth and E. E. Runyon, sang "Sun of My Soul," and "Abide With Me." There were many beautiful floral tributes from relatives and friends. The interment took place in Hillside cemetery. The bearers were Joseph M. Titsworth, D. E. Titsworth, John D. Titsworth, Alonzo Titsworth, Sydney B. Titsworth and Nathan B. Titsworth.

CLASS IN COOKING.

Miss Bessie Taylor is Arranging For Special Classes Out of School Hours.

In response to the solicition of some young women in the borough, Miss Bessie Taylor, of the North Plainfield manual training school, proposes to give instruction in cooking to any applicant, not a pupil of the borough schools. Miss Taylor's intention is to form a class in cooking and the pupils will have free use of the school kitchen during the hours of lessons, which will not conflict with the regular school work. Application may be made to Superintendent Wightman or to Miss Taylor for information concerning the proposed venture.

RETAIL CLERKS' DANCE.

Affair Was Given in Washington Hall Thursday Evening.

An enjoyable dance was held Thursday evening in Washington Hall, under the auspices of the Retail Clerks' Association, for the purpose of raising funds to continue the work of early closing. There was a large attendance at the dance and all thoroughly enjoyed the music as furnished by Eugene O'Reilly. The association is now arranging for a masquerade ball to be given Thanksgiving Eve.

DUNELLEN.

(Special Correspondence.)

Dunellen, September 28.—The county clerk of the New Brunswick court has issued subpoenaes for the appearance of witnesses before the Grand Jury to testify about the alleged illegal liquor selling which it is claimed has been going on not far from here during the past several months. State Prosecutor Voorhees took the matter up and, as it is alleged, gave the subpoenas to a constable who was instructed to serve them, but subsequently lost them. They were then re-issued and served by another constable. There is considerable talk of action also being brought against the constable.

NOT AN AUTHORIZED AGENT.

MAN HAS BEEN COLLECTING MONEY FOR SUBSCRIPTIONS TO PRESS.

Victimized People Of Lincoln And Bound Brook—Said He Was Agent For All Newspapers.

Lawrence W. Reidy, a resident of Lincoln, called at The Daily Press office yesterday and showed a receipt he had obtained from an unknown man whereby the latter promised to deliver The Press to him for twelve weeks for fifty cents. The receipt was signed by J. O. Otterson, but he is not known in this vicinity. As The Daily Press has not authorized anyone to canvass in this way, the public should be acquainted with this fact.

Mr. Reidy describes the man as about five feet ten inches in heighth, dark features, well dressed and a very smooth talker. He represented himself as the agent for all newspapers and promised to deliver any paper desired at cost price. Mr. Reidy says that he had a feeling that the man was not doing a straight business, but he thought it a good investment if he could have The Press delivered to his home, as he preferred that paper and it would be an easy way of getting the paper.

So far as can be learned the stranger succeeded in obtaining a great deal of money from residents in the vicinity of Lincoln and Bound Brook. The Daily Press appreciates the fact that Mr. Reidy notified this office concerning the above, thus making it possible to warn all others against doing business with such persons not authorized to do so.

TRADE CONDITIONS.

Stability of Prices and a Brisk Demand Generally Prevails.

NEW YORK, Sept. 28.—R. G. Dun & Co.'s weekly review of trade says:

Nominal conditions have been fully restored in the distribution of merchandise, the placing of delayed orders stimulating the few lines that appeared to halt. One of the most gratifying features of the business situation is the pronounced preference for the better grades of goods, clearly indicating the improved financial condition of consumers. Resumption of work has progressed rapidly in the steel industry since the settlement of the labor controversy, and there is little discord between employer and employed in other lines. Excessive optimism is not desirable, but encouraging symptoms far outnumber unfavorable indications in the realm of industry. Stability of prices, without inflation, is the rule, except where the unusual size of crops introduces a special feature.

Steel production is now progressing at nearly the average rate. There are interruptions and delays through inability to secure special lines of material, and higher prices are quoted for both steel and iron bars, steel billets and some other shapes.

Steadiness in quotations of corn at the present high level is all that producers could desire. Making full allowance for the smaller yield and the decrease in exports, which has thus far been much greater proportionately, there does not appear to be satisfactory reason for the rise of 15 cents over last year's figures and 25 cents over the price at this date in 1899.

Wheat is well sustained, and still better prices are promised by the heavy export movement, which from all United States ports for the week reached 5,268,413 bushels, flour included, against 3,557,482 last year and 4,605,362 in 1899.

Failures for the week numbered 227 in the United States against 204 last year and 34 in Canada against 18 last year.

A BOSS OF THIEVES.

Reputed Broadway Importer Running a Robbers' Den.

NEW YORK, Sept. 28.—Joseph Goldman, who had an office at 415 Broadway and who has been arrested, accused of running a "fence," was held in $1,500 bail by Magistrate Deuel in the Tombs police court. Henry Marcus of 144 Ridge street, his office boy, and Harry Check of 111 Essex street, an expressman, were arraigned with him. They were held on a charge of burglary.

At 415 Broadway he was I. Goldman, an importer. In Brooklyn he was Mr. I. Goldman, gentleman, linguist, family man, good neighbor and regular attendant of the Greene Avenue Baptist church. At police headquarters, where he is stopping at present, Goldman is said to be the prototype in real life of A. Conan Doyle's Harrigan, the boss of the thieves in "Sherlock Holmes."

According to Captain Titus, Goldman followed the methods of the men who form trusts. He had a trust in crime of which he was the absolute owner and dictator. He had scores of thieves working for him, and they were absolutely under his domination. He had a rendezvous in a furnished room house at 172 Forsyth street. There he met the crooks in his employ. They were never seen with him on the street.

Goldman has represented himself as a dealer in silks and has been under suspicion since last January. At that time four thieves now in state prison were arrested for robbing a loft at 407 Grand street. They told the district attorney that Goldman had agreed to pay them $150 for $2,000 worth of goods. Goldman paid them, they said, $15 and then refused to give them any more. No evidence could be secured then upon which to arrest Goldman.

Severe Storm In Wisconsin.

ASHLAND, Wis., Sept. 28.—A fierce electric wind and hail storm wrought considerable damage in this vicinity. Several places were struck by lightning, and trees and fences were demolished. At Kakagon, a fishing point, four hunters, including two sons of Professor Burr of Beloit college, were sleeping in a boat. Lightning struck the spar of the boat. The bolt struck George Burr just back of the shoulder and left highly profiled red marks down his back. The bottom of the boat was punctured, and it was with the greatest difficulty that it was kept from sinking.

Castro to Declare War on Colombia.

WILLEMSTAD, Island of Curacao, Sept. 28.—It is again asserted in well informed circles at Caracas that President Castro will declare war on Colombia at the end of the month. The Venezuelan government is without financial resources and will, it is said, shortly use the methods of South American dictatorships and proceed to raise funds by force. Lack of confidence in the government is manifested everywhere in Venezuela.

Launching of the Des Moines.

DES MOINES, Ia., Sept. 28.—Governor Shaw has been advised by the navy department that the cruiser Des Moines will be ready for launching the latter part of November. He has chosen Miss Frances West, daughter of Mr. and Mrs. Harry West of this city, to christen the boat. The christening will take place at the Quincy (Mass.) shipyards. Governor Shaw and many Iowa people will attend.

Brief Cabinet Meeting.

WASHINGTON, Sept. 28.—Only four members of the cabinet were present at the regular meeting yesterday, and the session lasted only a little more than an hour. The discussion was restricted to routine matters in the executive departments.

R-I-P-A-N-S CURED THIS YOUNGSTER.
The stomachs of children sometimes get out of order and the whole system becomes affected. A gentleman living in Brooklyn, N. Y., says Ripans Tabules cured his boy and relates these facts in the case. "I have a boy who suffered with pains in his head, had constipation and complained of his stomach. Food did him little good. He was thin and of a saffron color. A friend recommended Ripans Tabules and I am anxious to acknowledge the curative power of the medicine. Ripans not only relieved but actually cured my youngster. The headache disappeared, his bowels and stomach are in good condition. His appetite is ravenous and he is a red, chubby-faced boy. I attribute all to the use of Ripans Tabules."
WANTED—A case of bad health that Ripans Tabules will not benefit. They banish pain and [illegible]
Ripans Tabules may be bought at the nearest drug store. The five-cent packet is sufficient for ordinary occasions. The family bottle, containing sixty tabules, is sold for seventy-two cents. Enough for a year. Any druggist will supply them. No. [illegible]

Capes For Traveling and Coats For Driving.

The new steamer capes are long and fit the shoulders very closely, but the edges are rather wide and reach to the knees. Smarter capes suitable for driving are of fawn or palest gray cloth, much braided or inlet with medallions of lace or net, showing a lining of silk.

The loose coat wrap is quite the accepted style for autumn, and there are many charming little coats of black

HUNTING COSTUME.

silk or soft materials which are very smart to be worn with the now universally accepted black skirt. These coats have usually large sleeves, and they are much tucked.

Eminently sportsmanlike and sensible is the smart hunting costume shown in the illustration. It is made of dark green tweed trimmed with bands of leather strongly stitched. The coat is made in the Russian blouse shape, with a yoke and three bands of leather. It is made collarless, and with it there is worn a waist of buff flannel somewhat on the shade of the leather trimmings. The sleeves are bishop, and the cuffs are ornamented with narrow bands of the leather. Each gore of the skirt is ornamented by a band of leather, and the bottom shows an elaborate arrangement of the strappings.

FASHIONS IN SKIRTS.

Tucked and Box Plaited Ruffles Are Headed by Wavy Insertions.

We are again overwhelmed with a craze for polka dots. They are not universally becoming by any means, especially when the tendency is to have them large, as at present.

Skirts are as much ruffled as ever, but few of the ruffles are put on in straight lines. They usually dip in front and are raised slightly in the back to go with the long fronts. A favorite way is to put ruffles in a series of toothed effects or to head them with wide, diamond shaped applications of lace and tuckings. A popular way of making the wide gored ruffle is to lay

DEBUTANTE'S GOWN.

it in small box plaits headed with a strapped effect or a wavy insertion. One of the newest ruffles is tucked on the bias instead of perpendicularly, as was the fashion this summer. A chic touch is given to a skirt ruffle by tacking a smart satin bow a little to the left of the front of it.

It is very easy to lengthen a skirt which has grown too short by letting it down with a lace yoke or putting a wide lace insertion between the ruffles and the body of the skirt.

It would be hard to find a prettier gown for a debutante than the one presented in the illustration. It is made of cream silk veiling over nile green satin and is trimmed with cream chiffon and yellow lace. The waist is made in a full blouse, both back and front confined at the waist line by a crushed belt of green panne. The decolletage is ornamented by a fichu of the cream chiffon edged with deep yellow lace. The skirt is laid in fine tucks at the waist line, and it is finished at the bottom with three ruffles of the yellow lace headed by an elaborate arrangement of green satin ribbon in bows and rosettes. With this is worn a long chain of pearls, and the belt is trimmed with four pearl and brilliant buttons.

[CONTINUED.]

The galley belonged to the captain of the port, a mincing figure of a mariner, whose highest appetite in life was to lick the feet of the great; and he began to fawn and prostrate himself at once, and to wish that his eyes had been blinded before he saw the empress in such deadly peril.

But it seemed she could be cloyed with flattery. "If you are tired of your eyes," said she, "let me tell you that you have gone the way to have them plucked out from their sockets. Kill my mammoth, would you, because he has shown himself a trifle frolicsome? You and your sort want more education, my man. I shall have to teach you that port-captains and such small creatures are very easy to come by, and very small value when got, but that my mammoth is mine—mine, do you understand?—the property of Goddess Phorenice, and as such is sacred."

The port captain abased himself before her. "I am an ignorant fellow," said he, "and heaven was robbed of its brightest ornament when Phorenice came down to Atlantis. But if reparation is permitted me, I have two prisoners in the cabin of the boat here who shall be sacrificed to the mammoth forthwith. Doubtless it would please him to make sport with them, and spill out the last lees of his rage upon their bodies."

"Prisoners you've got, have you? How taken?"

"Under cover of last night they were trying to pass in between the two forts which guard the harbor mouth. But their boat fouled the chain, and by the light of the torches the sentries spied them. They were caught with ropes and put in a dungeon. There is an order not to abuse prisoners before they have been brought before a judgment."

"It was my order. Did these prisoners offer to buy their lives with news?"

"The man has not spoken. Indeed, I think he got his death wound in being taken. The woman fought like a cat also, so they said in the fort, but she was caught without hurt. She says she has got nothing that would be of use to tell. She says she has tired of living like a savage outside the city, and moreover that, inside, there is a man for whose nearness she craves most mightily."

"Tut!" said Phorenice. "Is this a romance we have swum to? You see what affectionate creatures we women are, Deucalion." The galley was brought up against the royal quay and made fast to its golden rings. I handed the empress ashore, but she turned again and faced the boat, her garments still yielding up a slender drip of water. "Produce your woman prisoner, master captain, and let us see whether she is a runaway wife, or a lovesick girl mad after her sweetheart. Then I will deliver judgment on her, and as like as not will surprise you all with my clemency. I am in a mood for tender romance to-day."

The port captain went into the little hutch of a cabin with a white face. It was plain that Phorenice's pleasantries scared him. "The man appears to be dead, your majesty. I see that his wounds—"

"Bring out the woman, you fool. I asked for her. Keep your carrion where it is."

I saw the fellow stoop for his knife to cut a lashing, and presently who should he bring out to the daylight but the girl I had saved from the cave tigers in the circus, and who had so strangely drawn me to her during the hours that we had spent afterwards in companionship. It was clear, too, that the empress recognized her also. Indeed, she made no secret about the matter, addressing her by name and mockingly making inquiries about the menage of the rebels, and the success of the prisoner's amours.

"This good port captain tells me that you made a most valiant attempt to return, Nais, and for an exouse you told that it was your love for some man in the city here which drew you. Come now, we are willing to overlook much of your faults if you will give us a reasonable chance. Point me out your man, and if he is a proper fellow I will see that he weds you honestly. Yes, I will do more for you, Nais, since this day brings me to a husband. Seeing that all your estate is confiscate as a penalty for your late rebellion, I will charge myself with your dowry and give it back to you. So come, name me the man."

The girl looked at her with a sullen brow. "I spoke a lie," she said; "there is no man."

I tried myself to give her advocacy. "The lady doubtless spoke what came to her lips. When a woman is in the grip of a rude soldiery, any excuse which can save her for the moment must serve. For myself, I should think it like enough that she would confess to having come back to her old allegiance, if she were asked."

"Sir," said the empress, "keep your peace. Any interest you may show in this matter will go far to offend me. You have spoken of Nais in your narrative before; and although your tongue was shrewd and you did not say much, I am a woman and I could read between the lines. Now regard, my rebel, I have no wish to be unduly hard upon you, though once you were my fan-girl, and so your running away to these ill-kempt malcontents, who beat their heads against my city walls, is all the more naughty. But you must meet me half-way. You must give an excuse for a leniency. Point me out the man you would wed, and he shall be your husband to-morrow."

"There is no man."

"Then name me one at random. Why, my pretty Nais, not ten months ago there were a score who would have leaped at the chance of having you for a wife. Drop your coyness, girl, and name me one of those. I warrant you that I will be your ambassadress and will put the matter to him with such delicacy that he will not make you blush by refusal."

The prisoner moistened her lips. "I am a maiden, and I have a maiden's modesty. I will die as you choose, but I will not do this indecency."

"Well, I am a maiden, too, and though because I am empress also, questions of state have to stand before questions of my private modesty, and I can have a sympathy for yours—although in truth I did not obtrude unduly when you were my fan-girl, Nais. No, come to think of it, you liked a tender glance and a pretty phrase as well as any when you were fan-girl. You have grown wild and shy among these savage rebels, but I will not punish you for that.

CZOLGOSZ WAS FRIGHTENED.

Sheriff Caldwell Relates the Scene at Auburn Prison.

BUFFALO, Sept. 28.—Sheriff Caldwell returned yesterday afternoon from Auburn, whither he took Leon F. Czolgosz. His account of the excitement outside the prison when the assassin of President McKinley arrived was as follows:

"We arrived in Auburn at 3:15 o'clock in the morning, and there was a crowd of about 200 people outside the prison when we reached there.

"As soon as we reached Auburn we hurried Czolgosz out toward the prison. The crowd quickly surrounded us, and there were cries of 'Kill him!' 'Kill him!' 'Throw bricks at him!' No bricks were thrown, however, and we got him into the prison without any one being much hurt. Some of us were hit on the shouider and bruised a little. We closed the gates the minute the members of our party were all inside.

"Czolgosz collapsed completely as soon as he entered the prison. To say that he went all to pieces is the best way I can describe it. He fell to the floor and yelled and shouted, and his arms and legs jerked around as if he couldn't control them at all. We took off his clothes, and I stooped down beside him and said, 'Czolgosz, don't you know me?' He didn't seem to recognize me at all, but just rubbed his eyes and shouted incoherently. He did not say anything we could understand. I guess he was too frightened to try to talk. He just yelled and hollered like a crazy man. After the doctor came and gave him something he quieted down, and then I left."

KUKLUX ON TRIAL.

A Kentucky Outlaw Gang Have Many Crimes to Their Credit.

PINEVILLE, Ky., Sept. 28.—The Kuklux gang of outlaws which were captured in Letcher county a few days ago and brought to this place are now on trial for a number of crimes, such as murder, highway robbery and attempting to wreck trains.

The trial of this gang was transferred to this place from Whitesburg, Ky., the county seat of Letcher county, on application of counsel for the defendants. This means was taken on account of the feeling against the outlaws in that county. There are thirteen in the gang to be tried, and the first case called was that of Mans Wright.

A Mother's Terrible Deed.

CLEVELAND, O., Sept. 28.—The small town of Little York, a station on the line of the Akron, Bedford and Cleveland railway line, fifteen miles south of this city, was the scene of a terrible tragedy. Mrs. Perry Curtiss, the wife of a farmer, thirty-eight years old, drowned her four children, aged two, four, five and nine years, in a well and then committed suicide by jumping in herself. Her husband, Perry Curtiss, was in Cleveland with a load of potatoes and knew nothing of the tragedy until he read an account of it in the newspapers. Mrs. Curtiss was released from the Massillon insane asylum recently as cured, and it is thought that it was while suffering a relapse that she committed the terrible deed.

Ships Communicate at Sea.

QUEENSTOWN, Sept. 28.—The Cunard line steamer Lucania, which sailed from New York Sept. 21 for Liverpool and arrived here at 2:57 p. m. yesterday, reports having communicated for two hours with the steamer Campania of the same line, which left Liverpool Sept. 21 by way of Queenstown Sept. 22 for New York, in midocean by means of the wireless telegraphy. The shortest distance in which communication was effected was thirty-three miles and the longest sixty-five miles. Many messages were exchanged.

Cuban Tariff Changes.

WASHINGTON, Sept. 28.—The war department has made public the text of the executive order containing modifications of the Cuban tariff promulgated March 31, 1900. The principal changes made have been noted heretofore—namely, a reduction of from 10 to 5 per cent ad valorem in the duty on railway equipment stock, of from 10 to 5 per cent on sugar making machinery and the cancellation of the special concessions relating to Porto Rican coffee.

Another Tunnel For New York.

NEW YORK, Sept. 28.—Plans for the Long Island railroad's proposed $5,000,000 tunnel from Thompson avenue, Long Island City, to Broadway, under the East river and Thirty-third street, have been filed with the rapid transit board by President William H. Baldwin, Jr. It is specified that freight as well as passengers may be carried through the tunnel.

SPORTING.

ON THE DIAMCND.

Fred Dixon, who has some reputation as a baseball player, will fill the position behind the bat on the Hope chapel nine this afternoon.

Claude Roseberry has retired from the Hope chapel team for the season, but will take up his accustomed stand at centre field in the spring.

H. Montroes filled the position of centre field on the Hope chapel nine in Saturday's game against Garwood very acceptably. He appears to be an all round player.

"Brit" Martin, former short stop of the Hope chapel nine, will be placed in the same position on the Clinton Avenue team today in the game against Scotch Plains.

Hartfelter, the catcher on the Hope chapel team, is a clever man behind the bat. He is a sure and steady player, but is inclined to make wild throws when putting the ball to second base.

VARIOUS SPORTS.

Physical Director Heywood, of the Y. M. C. A., has introduced a new feature for muscle development. It is a handball court which has proved very popular in other gymnasiums and which is quite fascinating. It will be used for the first on the opening night of the physical department, October 7.

ROD AND GUN.

Manager E. W. Mills, of the U. S. Express Company, is spending a few days fishing at Barnegat.

JOINT MEETING.

Planning Details for the Big Firemen's Parade in North Plainfield.

A joint meeting of the committees of Warren Engine Company and the West End Hose Company, having charge of the arrangements for the borough firemen's parade, was held last evening.

It was decided to erect a reviewing stand on Dr. Cooley's property, at the corner of Jackson and Westervelt avenues. The view of the two thoroughfares to be had at that point is considered better than at any other place in the borough.

Another meeting will be held during the forepart of the coming week for the purpose of mapping out a definite line of march. In this matter Mayor Newton B. Smalley's views are desired and, as he was unable to be present last evening, he will attend the next session of the committee.

PERSONAL.

Miss Aline McArdle, of New York, has returned home after a visit with Miss Nellie Sullivan, of Arlington avenue. Next week Miss Sullivan will go to New York to attend the marriage of Miss McArdle to Andrew McManus, which takes place Wednesday.

In Interest of G. A. R.

A meeting in the interest of the G. A. R. will be held in the W. C. T. U. rooms on Madison avenue, tomorrow afternoon at 4 o'clock.

MEMBERS ASKED TO ATTEND.

FORMAL CALL ISSUED FOR DIVISION ENCAMPMENT.

Division Commander of The Union Veterans' Union Wants All Members to Come to Plainfield.

A. A. S. Lord, commander of the division of New York and New Jersey of The Union Veterans' Union, has formally issued an order from the headquarters at Binghamton, N. Y., calling upon all members of the organization to attend the encampment, which will be held in this city, November 12 and 13.

According to the order issued the first session will be held at 3:30 o'clock in the afternoon of Nov. 12. In the evening of this day a camp fire and entertainment will be given in Washington Hall. On the morning of the 13th a street parade will be held and a short business session will also be conducted. An election of officers will be held in the afternoon and the remainder of the time will be spent in sight-seeing.

The national encampment of the order will be held in Chicago prior to the division reunion. The dates fixed are October 22 to 25. Col. Drake, of the local organization, Antietam Command, No. 3, has been instructed to forward his third quarterly report with the per capita tax, to the divisional headquarters before October 10.

BAKERY DEPARTMENT.

Joseph W. Wells Will Assume Charge at Rockfellow Grocery Company.

The Rockfellow Grocery Company has completed arrangements with Joseph M. Wells, the well-known Vienna bread and roll baker, whereby he will associate himself with the firm and be installed as manager of the bakery and butter department. Mr. Wells has for some time conducted an independent business and has built up an extensive trade among the best families of Plainfield for his unusually fine bread, rolls and gilt edged butter. He will assume his new duties Monday and will have an elaborate bread and roll display. Mr. Wells would be pleased to have his friends and the public call and inspect the many varieties.

THE YACHTS KEEP TOGETHER.

COLUMBIA WAS FIRST TO CROSS THE LINE.

Shamrock Took the Lead by a Few Seconds—The Wind Is Now Freshening.

(Special to The Daily Press.)

New York, September 28—The crews of the Columbia and Shamrock II were actively engaged at an early hour getting the boats ready for the second attempt for the first race, which is scheduled to take place at 11 o'clock this morning.

At 11:05 the wind was light and was moving at the rate of eight knots an hour. The southeast course was selected.

At 11:10 the yachts crossed the line with Columbia in the lead.

At 11:25 the Shamrock leads by 100 yards.

At 12:30, the Shamrock was leading and the boats were half way towards the outer mark.

At 12:53, the relative positions of the yachts were unchanged, the Shamrock being a few seconds ahead. The wind was moving at the rate of ten knots per hour.

At 1:35, the boats were nearing the outer mark with the Shamrock still in the lead. It appeared at that time that the race would be finished within time limit.

At 2 o'clock the Shamrock was leading on the way home. Both boats appearing through the haze as moving very fast. On the turn Shamrock was leading Columbia by 41 seconds.

At 2:25 Columbia was gaining.

OPENING SESSION.

Special Programme Will Mark It at Park Avenue Baptist Sunday-School.

The opening session of the Sunday-school of the Park Avenue Baptist church of the fall and winter season will take place tomorrow afternoon at 2:30 o'clock, when a programme of interest will be presented, including remarks by the pastor, Rev. J. W. Richardson; recitations, "Others," Miss Cora Brokaw; "If I Were You," Theodore I. Runyon; "Our Inspection Day," Arline Brown; selection by quartette, Miss Ada M. Runyon, Miss Adelia Kunyon, George Watts and T. A. Cuming. Presentation of awards for punctual attendance, solo, Miss Elsie Giles.

WIFE OWNED GOODS.

Trial For Right of Property in Justice Mattison's Court.

A trial for right of property in the case of the Rockfellow Grocery Company against Baldwin Strauss, of Grove street, was decided by the jury in favor of the claimant of the goods, Mrs. Strauss, the wife of the defendant.

The case came up at 10 o'clock before Justice Mattison and W. S. Angleman was the attorney for the claimant. George W. V. Moy appeared for the Rockfellow Grocery Company.

Concert at Mt. Olive Church.

Under the auspices of Opportunity Circle of the King's Daughters of Mt. Olive church, a concert was given in that edifice last evening. The affair was well attended and a considerable sum was realized.

Among those who participated were Harry Kingslow, Harry Mitchell, Bert Green and George Toomey. The Misses Bessie Mitchell and Maude Green also took part in the programme.

Rally Day.

Special rally-day exercises, arranged by the Pilgrim Press of Boston, will be carried out by the Congregational Sunday-school tomorrow afternoon. They will be of interest to old and young. The roll of classes will be called, and any class whose members are all present, either in person or by substitute, will be placed upon the roll of honor.

Second Time This Month.

John Slover made his appearance in the city court this morning for the second time within a month. He was picked up on Park avenue last night, by Sergeant Frederickson. Slover was helplessly intoxicated and was making himself a decided nuisance. He was given his preference of $3 or ten day.

Rally Day Services.

Rally Day services will be held at the East Third Street chapel tomorrow afternoon at 3 o'clock. There will be an address by Rev. L. E. Livermore. Dr. Nice, of New York, will render violin solos, and the quartette from the First Baptist church will sing.

Locomotive Disabled.

Engine No. 534, drawing the 5:34 train, broke a steam valve while crossing the Park avenue bridge last evening and was unable to proceed. The disabled engine, after a delay of twenty minutes, was towed to Dunellen by one of the drill engines.

United For Meeting.

LIFE IN THE AMERICAN NAVY.

LECTURE GIVEN BY DR. M. S. SIMPSON, WITH ILLUSTRATIONS.

Told of Part of Naval Reserves—Described Schley's Famous Loop—At Vincent Chapel.

Under the auspices of the Young Men's Brotherhood of the First M. E. church, an enjoyable entertainment was given in Vincent chapel last evening, when Dr. M. S. Simpson, who took part in the Spanish-American war, gave one of his interesting lectures. The chapel was well filled with members and friends.

Dr. Simpson exhibited a number of excellent pictures depicting scenes and incidents in connection with the war with Spain. He also illustrated a part of the trip of the New Jersey Naval Reserves and told of the work performed by the members in various parts of the country.

Dr. Simpson produced charts and explained in an entertaining manner the famous Schley loop which is now engaging the attention of the officials of this government. In giving this part of his lecture he did not attempt to say who was or was not to blame. The pictures selected by Dr. Simpson for the lecture were of a varied nature and included some of the best that he took while in the service.

After the lecture a silver collection was received for the benefit of the benefit of the Brotherhood. Dr. Simpson very kindly gave his services and the members appreciated his kindness exceedingly.

Promotions at Bank.

F. R. Haynes, of the First National Bank, has been promoted and is now in charge of the individual ledger, which position was formerly held by William E. Day. The latter has been made receiving teller.

Results Of Saturday's Play In The Local Golf Club's Regular Competition.

DR. HEDGES WON AT HILLSIDE

C. T. ROGERS AND SAMUEL TOWNSEND SHARED HONORS.

Play For Reinhart Cup Was Only Special Event At Hillside—Small Attendance At Both Clubs—Standing For The Trophies.

Threatening weather and a rival attraction in the yacht race resulted in a comparatively small attendance at the two local golf clubs Saturday afternoon. The usual weekly competitions were played. Dr. B. Van D. Hedges captured the chief honors at Hillside while George T. Rogers and Samuel Townsend divided them at the Park Club. Next Saturday, the members of the two clubs will meet on the Hillside course.

PARK GOLF CLUB.

First honors for the President's cup at the Park Golf Club Saturday afternoon were shared by George T. Rogers and Samuel Townsend. As a result, Rogers now stands third to Senator Charles A. Reed and H. D. Hibbard in the contest for the President's cup while Townsend advanced well in the list. Third place for the day was won by J. O. McKelvey.

There wasn't a large field out despite the fact that the course was in fine condition and extremely fast. Although the weather was somewhat threatening, it proved excellent for play. No low scores were turned in, H. D. Hibbard's 104 being the lowest. A dozen registered for play and a number of women were on the course during the afternoon.

The standing for the cup is now as follows:

Charles A. Reed	9
H. D. Hibbard	8
George T. Rogers	7
S.St. John McCutchen	6½
Joseph H. Howell	6
H. G. Phillips	6
Allan B. Laing	5½

HILLSIDE TENNIS AND GOLF CLUB.

The three events, the weekly play for the Mellick and Golf Committee cups and the regular play for the Reinhart cup, did not attract a very large number of contestants to the Hillside Tennis and Golf Club Saturday last. As usual there was little interest in the play for the Mellick cup, Miss Edith Tracy and Miss Mary Whiton being the only two to compete. This may be due to the fact that Miss vanHerwerden is considered almost a sure winner with 30½ points, nearly twice as many as her nearest competitor, Miss Daisy Elsberg.

Miss Tracy won first honors Saturday with a net score of 108. Miss Whiton's score was 109. This was Miss Tracy's first win for the trophy. Miss Whiton had one point and the two won Saturday advances her slightly. The scores were as follows:

	G.	H.	N.
Miss Edith Tracy	126	18	108
Miss Mary Whiton	144	35	109

The standing for the trophy is as follows:

	Points.
Miss vanHerwerden	30½
Miss Daisy Elsberg	14½
Miss Maud VanBoskerck	6
Miss Margaret Tracy	6
Miss Adelaide Ball	5½
Miss Margaret Goddard	5
Miss May Holly	5
Miss Edith Tracy	3
Miss Mary Whiton	3
Miss Marjorie Fleming	2
Miss May Evans	1

The play for the Golf Committee and Reinhart cups took place in the afternoon, and there were just an even ten players in the competitions. The scores made in the weekly competition counted for both events. All the contestants except Howard O. Tracy played for both trophies. Dr. B. Van-D. Hedges scored a win for the Reinhart cup and won first honors for the Golf Committee cup with a net score of 77. This was Dr. Hedges' first win in the weekly competition and he is now tie with several contestants for tenth place. Robert Abbott won second honors, which now makes him tie with E. E. Stevenson and Roger F. Murray for seventh place with 4½ points. Mr. Murray won third honors thereby adding one point to the 3½ points previously won. There is no change in the leaders in the competition. C. Westley Abbott still leading with 10½ points. The scores for both cups are as follows:

	G.	H.	N.
Dr. B. VanD. Hedges	85	8	77
Robert Abbott	85	7	78
Roger F. Murray	88	7	81

RALLY DAY.

Special Programme Given at the Congregational Church Sunday-School Yesterday Afternoon.

The Sunday-school of the Congregational church held special review and rally exercises yesterday afternoon. Those who took part in the review exercises, giving an account of noteworthy events or persons mentioned in the lessons of the last quarter were Clarence LaRue, Philip Spenser Suffern, Miss Anna E. Manktelow, Miss Estella Winckler, Anthony C. LaBoyteaux, Alexander Miller, Miss Elsie DeRiemer Suffren, Miss Lulu Fuller, George T. Fisher and Miss M. R. Harold.

Recitations were given by Vreeland VanAlstyne, Miss Myra Emmons, Miss Aimee Vinant and Miss Edith Glaentzer, and a reading from "The Divine Force in the Life of the World," by Rev. Alexander McKenzie, D.D., was given by Miss Mary Whiton.

The programme also included responsive readings and bright songs, and the classes whose members were all present at the service had their names placed upon a roll of honor.

WEDDED AT LITTLE FALLS.

Bride From Plainfield and Groom From Scotch Plains.

(Special to The Daily Press.)

Scotch Plains, Sept. 30.—A very quiet wedding was solemnized yesterday afternoon in the Methodist parsonage at Little Falls, this State, when Rev. C. C. Woodruff, pastor of the church, united in marriage Charles Meyers, eldest son of Mr. and Mrs. Henry C. Meyers, of this place, and Miss Lena Leiber, of East Fifth street, Plainfield. The happy young couple returned to Scotch Plains immediately after the ceremony and have started housekeeping in Wm. Corey's house on Park avenue. Both bride and groom have a host of friends both here and in Plainfield.

A DAY FOR EQUINES AT FAIR ACRES CLUB.

Westfield's Horsemen Gave an All Day Meeting There Saturday.

MANY HORSES ENTERED.

THE PROGRAMME INCLUDED SHOW CLASSES AND SPEED TRIALS.

Morning Was Devoted to Judging in Show Classes of Stallions, Mares, Roadsters and Jumpers—Harness, Running Events in Afternoon.

(By a Staff Correspondent.)

Westfield, Sept. 30.—The horse, by his good points and his speed, was the chief attraction at the all-day meeting of the Fair Acres Driving Club Saturday afternoon. Beautiful weather, a fair track and a large throng of spectators all tended toward the success of this first attempt of Westfield's horsemen to give a meeting on an elaborate scale. The morning was devoted to judging the various show classes, while a good programme of trotting, pacing and running events marked the afternoon.

The stallion class brought out an exceptionally fine lot of horses. The bay "Orator," from Victor Farm, Fanwood, made the best showing. A mare from the same stable scored the most points in the open class for brood mares with foal at side. Of roadsters, there were two classes, trotters and pacers, in which number of local horses appeared. The showing of turnouts was particularly good. J. W. Arkell and R. A. Fairbairn, both of Westfield, carried off the two first prizes. A. C. Vail, of Plainfield, was also a prize winner.

In the jumping class, three horses from the Elizabeth Hunt Club furnished much interest. "Moonbeam" refused to take the hurdles twice but afterwards went over them nicely. Batjer and Van Schiaick's "Hopie" carried off first honors.

The judges for the morning events were Ed. Bowne, of Westfield, E. B. Allen, of Flemington, and Col. Edwards, of Newark.

Ten horses faced the starter in the 2:25 class, the first of the harness events for the afternoon. "Hully Gee," a chestnut stallion from a South Orange stable, carried off first money. Charles C. Brower drove A. C. Vail's "Rover R." for second money. Mayor N. B. Smalley, who was in the sulkey behind Irving's "Fred G.," was third with D. C. Smalley fourth. There were some hot finishes in the three heats.

After J. W. Johnson's "Barney Williams," driven by John Osborne, had taken two straight heats in the 2:30 class for trotters and pacers, "Walter H," a bay gelding from Summit, developed remarkable speed and was driven to victory in three heats. Osborne took second money. Nearly every heat furnished a neck and neck finish.

Five heats were required to settle the 2:40 class which was won by "Maggie Medium" owned by E. E. Bergen, of Raritan. The horses kept well together and finished well bunched.

The one running event was the most exciting race of the day. Two of the crack riders of the Elizabeth Hunt Club, Louis Batjer on "Post Horn" and Singleton VanSchiack on "Hopie," gave a finish that was positively hair-raising. They came down the stretch side by side and "Post Horn" only won out by a nose. Dr. M. O'M Knott, of Plainfield, did well on "Bed Anthony" but the other horses were too fast for him.

The following is a summary of the events of the day:

Summary of show classes.

Stallion class: Won by "Orator," Victor Farm, Fanwood; second, "Carlond," W. H. Emery, Morriston; third, "Sir Walter Raleigh," R. A. Fairbairn, Westfield.

MORE VICTIMS TAKEN FROM STIGER'S ALLEY.

Barney Tracey and Ellen Brun Sent to Jail for Participation in Strenuous Time.

THREE HELD THIS MORNING.

THREE OTHER OFFENDERS ARRAIGNED AT SAME TIME.

William Sanderson Tried to Disrobe a Policeman—Forty Days For Him—John Mee Was a Tramp and A. Ryan Had Family Troubles.

Five disturbers of the peace and morals of the city, gathered in by the police since Saturday, appeared before City Judge Runyon this morning. Three received heavy fines and two were allowed to go with severe reprimands.

Stigers Alley was made the scene of another rumpus yesterday morning. The police descended upon the belligerents but captured only one, the familiar Barney Tracey. He was committed to Elizabeth for forty days in default of a $10 fine.

His step mother, who was in court, swore out a warrant against Ellen Brun for assisting in the disturbance and it was immediately served. Mrs. Brun was given a hard name by two witnesses who corroborated Mrs. Tracey and she received a sentence of $20 or sixty days.

William Sanderson, alias "Mellen," went on a spree Saturday night. He resisted arrest at the hands of Patrolman Watson, tearing the officer's clothing in several places. He will spend forty days at Elizabeth.

John Mee, of Troy, was taken off the 2:14 train this morning for attempting to beat his way through to New York. Sentence was suspended.

Andrew Ryan was arraigned on complaint of his wife, who charged him with drunkenness and non-support. He promised to do better and was dismissed with a reprimand.

SCALDED BY STEAM.

Stephen McIntyre Injured At Aeolian Factory In Accident—Martin MacDonald Hurt.

(Special to The Daily Press.)

Westfield, Sept. 30—Stephen McIntyre, a steam fitter in the Aeolian factory at Garwood, was scalded over the entire body while repairing a boiler valve this morning. A plug blew out and he was enveloped in a cloud of steam. He was taken to his home in Cranford where he now lies in a precarious condition.

Martin McDonald, another employe of the Aeolian factory, had an arm and shoulder crushed Saturday morning, by being caught between a moving car and a partition. His home is also in Cranford. Both men were former residents of Plainfield.

Knocked Down By An Auto.

Frank L. C. Martin, who is now a member of the Consolidated Stock Exchange, is confined to his home on Park avenue from injuries received in New York Saturday. He was knocked down on Sixth avenue by an automobile belonging to Alexander, the shoe dealer. He was injured quite badly about the legs.

Y. M. C. A. Formal Opening.

The formal opening of the various departments of the Y. M. C. A. will be held Saturday evening. S. T. Ford, the famous humorist and impersonator, will entertain. Admission by ticket.

SCOTCH PLAINS WON FROM CLINTON AVENUE.

Deciding Match Was Played at Scotch Plains Grounds Saturday Afternoon.

THE SCORE WAS 8 TO 6.

ST. MARY'S DEFEATED RAHWAY FIELD CLUB SATURDAY.

This Exciting Game Was Played on St. Mary's Grounds—Visiting Pitcher Was Hit Heavely—About the 'Plains Game.

The baseball season is rapidly nearing its end. Another week will probably see the last of the National game in Plainfield this year. Saturday two exciting games were played. The Scotch Plains boys demonstrated their superiorty over the Clinton Avenue team while St. Mary's defeated the Rahway Field Club.

ST. MARY'S, 11; RAHWAY, 6.

The Rahway Field Club, one of Rahway's crack baseball organizations, was taken into camp by the St. Mary nine Saturday afternoon to the tune of 11 to 6. It was played on the St. Mary grounds.

While some of the players on both nines were inclined to make errors at times, their work for the whole was very good. The visitors were fine base runners and it was only through good work of Keene on third that many of them were kept from getting home.

The Rahway pitcher was a little out of form and allowed sixteen hits as against nine given by Doyle.

The batting order and summary was as follows:

SCOTCH PLAINS, 8; CLINTON AVENUE, 6.

(Special to The Daily Press.)

Scotch Plains, Sept. 30—The Scotch Plains baseball team closed their season on the home ground Saturday afternoon, when it met and defeated the Clinton Avenue team, of Plainfield, in one of the most exciting games of the season, as far as interest went.

Both teams had met twice before during the season and each had won one. The game Saturday was arranged as the deciding game. Several hundred enthusiastic rooters were crowded along the line when play was called, with about an even sprinkling of the supporters of both teams.

Scotch Plains went to the bat first and batted out four runs before retiring.

The second half of the eighth inning the visitors pulled themselves together and batted out four clean runs, tieing the score at 6 to 6. The hopes of the rooters were raised but it was short lived as the home team came in in their half of the ninth and scored two more to their tally giving them a lead of 8 to 6. One, two, three was the order of the Clinton Avenue half and the game was over.

Scotch Plains has had better game during the season but never a game where the interest was at such a fever heat, as the result was to practically decide which has been putting up the best article of ball during the season just closing. A great deal has been said about the respective merit of teams from both places, but the result Saturday practically decides that Scotch Plains has a little the best of the season's play.

Five games have been played, two with Hope Chapel and three with Clinton Avenue. The result shows four victories and one defeat. The lovers of the game both here and in Plainfield would like to see a game between Scotch Plains and St. Mary's, the latter being the only Plainfield club that Scotch Plains has not met during the season. Manager Johnston has made a proposition to the St. Mary's club that he will play them on their own grounds Saturday afternoon for a certain guarantee. If the proposition meets with the approval of Manager Monyhan, of the St. Mary's, the two clubs will meet Saturday. If not the local team will disband, with one of the best baseball seasons Scotch Plains has ever known. Eighteen games with the best clubs throughout this section and New York have been played. The standing is thirteen victories and five defeats. Saturday's score was:

Scotch Plains	4	0	0	0	0	2	0	2	—8
Clinton avenue	1	0	0	1	0	0	0	4	0—6

HOPE'S NEW PASTOR.

Rev. L. R. Howard, of Providence Has Accepted the Call to Hope Chapel.

Announcement was made yesterday that Rev. L. R. Howard, of Providence, R. I., had received and accepted a call for the pastorate of Hope Memorial chapel. He will have charge of the services for the first, Sunday.

Mr. Howard is a graduate of Williams College and the Union Theological Seminary. He is a nephew of General O. O. Howard and was recently married. His wife is an active church worker and has already made arrangements for a class at the chapel Sunday-school. He comes highly recommended by Charles Cuthbert Hall.

DRANK PARIS GREEN.

Mrs. Samuel Wilkinson, Who Lives Near Westfield, Successfully Attempted to Take Her Own Life.

(Special to The Daily Press.)

Westfield, Sept. 30—Mrs. Samuel Wilkinson, aged forty-five years, who resides on the Hire farm, between this place and Fanwood, successfully attempted to take her life yesterday morning by drinking a quantity of paris green.

For some time past she has been despondent and it is believed that family differences led her to make the attempt. Dr. Sinclair, of this city, was summoned and worked for several hours in an attempt to save the woman's life. She died at 2 o'clock this morning.

MISSION WORK.

Endeavorers Heard From Miss Curry and D. M. Torrey.

At a special missionary service held last night by the Christian Endeavor Society of the Congregational church, Miss Sara Curry, of the Little Missionary's Day Nursery, New York, who during the summer acts as matron of the Westfield Fresh-Air Camp was present and gave an informal talk about her work.

D. M. Torrey, of Westfield, who is a helper both at the Camp and in the city mission, was also present and told of the beginning of Miss Curry's work, emphasizing the fact that great results might follow from small attempts at work for God.

RESIGNATION ACCEPTED.

Dr. Main's Resignation Accepted by Church With Regret.

At a special meeting of the Seventh-Day Baptist church last evening the resignation of the pastor, Rev. Dr. A. E. Main, who has been appointed dean of the theological seminary of Alfred University, was accepted. Appropriate resolutions were passed. A committee was appointed to obtain pulpit supplies temporarily.

The annex to the Somerset street school, at 108 Somerset street, was opened this morning for the reception of new pupils. There are two classes, one of the second grade and the other of the fifth, receiving instruction under Miss Ruth Hill, of Cortlandt, N. Y., who assumed charge this morning.

Rally Day at Watchung.

At the Rally Day exercises in the Washingtonville chapel yesterday, the superintendent of the Sunday-school, E. L. Bonny, delivered an address on the beginning of things and Miss Willis and Miss Howell rendered some sacred compositions.

Barber Shop Changed Hands.

Albert Butler, who has been employed by Brown & Hill, the barbers, has purchased the barber business on Park avenue, opposite North avenue, and opened the shop this morning.

HOW HE WOULD DEAL WITH THE ANARCHISTS

Rev. John McMurray Preached Strong Sermon At Monroe Avenue Church.

THE CAUSE OF ANARCHY.

WOULD DEAL WITH THEM BEFORE THEY COMMIT A CRIME.

Duty Of Christian People, He Said, To Get At The Root Of The Evil And Teach Them Better—But Still The Law Must Be Enforced.

The all absorbing problem of what is to be done with the anarchist formed the basis of a powerful talk which Rev. John McMurray gave at the evening service in the Monroe Avenue M. E. church last evening. It was treated in a impartial manner and contained many truths which are are daily becoming more pronounced.

"The question which confronts us" said Mr. McMurray, "continues to grow more perplexing every time it is brought forward. There are times when some one anarchist, who has committed a terrible crime, is put to death as was the case in Chicago in 1886, and which has a dampening effect upon others of the same kind. They are stilled but for a short time and then rise again with greater vigor.

"We know what we would do with the present assassin, but his companions and followers should be dealt with in a better way before they commit a similar crime, that is they should be treated in a Christian way. It is our duty as Christians to deal with them civilly, with love instead of hate, with kindness in place of blows.

"The recent trial at Buffalo is a fair example of the proper treatment they should be accorded. The law was enforced there, but it should be enforced with others before they break the statutes.

"Our laws which prescribe penalties should be constructed that all propogating anarchism should be charged with such and dealt with accordingly. Such people of Most, Goldman, the Isaaks—and I almost say Hearst—know what they are saying when they exhort against our laws, but they are still allowed to go on. Some of them have been in prison; put them in again, as no penalty is too great for such people. In doing so I believe we would carry out the teachings of the Master. I say down with Anarchists and anarchy."

Mr. McMurray then gave the analytical description of the making of anarchists in Europe as related by Tolstoi. The great landholders who constitute the government, the heavy taxes which the poor man must pay, the drudgery which he must perform to maintain life in his weary form, and the sight of the luxuries of the extremely wealthy, which are denied him, embitter the poor peasant until through his ignorant brain there comes the thought that to better himself he must overthrow the government through assassination of the great rulers. All Europeans, the speaker said, were either socialists or anarchists and they come to America with their convictions.

"In this country," he said, "they found the conditions almost the same and by reading incendiary papers their hate for those in power increase. What else can we expect from the miserable condition of those poor toilers in the sweatshops in New York's east side. Those pest holes contain many Czolgoszs who have his sentiments but lack his courage. Such people are our weaker brethren and we should not put stumbling blocks in their way. We must treat them from a Christian standpoint. The surest way is to make laws with death penalties and carry it out after a very fair trial.

"We have the power of placing men in office to make the laws and it remains for us individually to see if they are carried out. All, who know laws are being broken and do not inform the proper authorities, are guilty of lawlessness. It is they who should assist in the distribution of good literature to the anarchist and thus get at the root of the evil. Once get down to the cause of the trouble and then apply the remedy."

GERMANS TO LEAVE.

Shanghai Garrison Will Soon Withdraw—Murderers Sentenced.

PEKING, Sept. 30.—It is asserted here on high authority that the German garrison in Shanghai and the German troops who are guarding the railroad beyond the Kiaochou boundary will soon be withdrawn.

At the request of Dr. Mumm von Schwartzenstein, the German minister, seven Chinese have been tried and sentenced to be beheaded for complicity in the murder of a German trader in a village near Peking last month.

Prince Chun Returns.

BERLIN, Sept. 30.—Prince Chun, head of the Chinese mission of expiation, has started for China in obedience to a special command from his brother, Emperor Kwang Su. He will not be allowed to visit other European countries or the United States officially. On Saturday he received a delegation of Protestant missionaries, who presented to him an address and a copy of the New Testament printed in Chinese and German. The Chinese minister acted as interpreter. Prince Chun expressed a hope for the return of peaceable conditions.

Russian Expedition Heard From.

ST. PETERSBURG, Sept. 30.—The Russian Imperial Geographical society has received news from the Kozloff expedition sent out to proceed across country from Hangchowfu to the southern bend of the Hoang river and to follow that stream to Odintalo, near its origin. Lieutenant Kozloff, it appears, opened a new road in June between Chamdo and the headwaters of the Hoang river, returning in July to Tsaidam, where the expedition wintered last year and where its valuable collections were left under a military guard. In August the expedition left for Kiakhta, where Lieutenant Kozloff is expected to arrive in December.

Accidentally Shot.

SOUTH NORWALK, Conn., Sept. 30.—*Edward Farrington, aged thirty-five,* of this city was getting out of his boat on returning from a fishing trip when he was hit in the neck by a rifle bullet which penetrated deeply, narrowly missing the windpipe. The shot is supposed to have been fired accidentally by one of a party of twelve boys who had been shooting at a target. The police are investigating. Farrington's condition is serious.

Autos In a Bullfight.

PARIS, Sept. 30.—A dispatch from Bayonne to the Figaro describes a bullfight which occurred there yesterday in which an automobile replaced the horse of the picador. The novelty drew an enormous crowd, but seven bulls in succession turned tail and fled at sight of the automobile.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.
WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Astamalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel.
NEW YORK, Jan. 3, 1901.

DRS. TAFT BROS.' MEDICINE CO.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.
Very truly yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., February 1, 1901.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

DR. TAFT BROS. MEDICINE CO.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. February 5, 1901.
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Rivington street.

DISASTER IN SAMAR.

Americans Surprised by Insurgents and Forty-eight Slain.

ELEVEN OF THE SURVIVORS WOUNDED

Company C, Ninth Infantry, Attacked by a Superior Force While at Breakfast—Stores and Ammunition Lost.

MANILA, Sept. 30.—A disastrous fight between United States troops and insurgents occurred Saturday near Balangiga, in the island of Samar. A large body of insurgents attacked Company C, Ninth infantry, only twenty-four members of the company escaping.

All the others are reported to have been killed.

The company was at breakfast when attacked and made a determined resistance, but the overwhelming numbers of the insurgents compelled them to retreat.

Of the survivors who have arrived at Basey eleven are wounded.

According to the latest returns the strength of the company was seventy-two. The survivors include Captain Thomas W. Connell, First Lieutenant Edward A. Bumpus and Dr. R. S. Griswold, surgeon.

Captain Edwin V. Bookmiller of the Ninth infantry reports that General Hughes is assembling a force to attack the insurgents.

The insurgents captured all the stores and ammunition of the company and all the rifles except twenty-six.

Captain Lawrence J. Hearn of the Twenty-first infantry reports a severe engagement with insurgents near Candelaria, the Americans losing one killed and two wounded. The insurgent loss has not been ascertained. The Americans captured 30,000 pounds of rice and several hundred rounds of ammunition.

Juan Cardona, who until recently was presidente of Gerona, province of Tarlac, and who was appointed secretary of the Tarlac provincial government, has been arrested on the charge of accusing people of crimes for the purpose of extorting money from them. More than fifty persons assert that they have been robbed by him in this way, some declaring that they have even surrendered title deeds to property.

Company C was a portion of the Ninth regiment of United States infantry which went to China at the time of the Boxer outbreak and which there performed valiant service. Later the troops went to Manila and were engaged in provost duty in that city. During the past summer a battalion of the Ninth was sent to Samar.

THE NEWS AT WASHINGTON.

Officials Not Unprepared For the Reverse—Laid to President's Death.

WASHINGTON, Sept. 30.—News of the disastrous fight between troops of the Ninth infantry and the insurgents in the island of Samar Saturday was sent promptly by General Hughes, commanding in that island, to General Chaffee and by him transmitted to the war department from Manila. It reached the department during the early hours of yesterday, and Adjutant General Corbin, realizing its importance, at once made it public after sending a copy to the White House. General Chaffee's dispatch agrees with the Associated Press dispatch.

The news created a sensation in official circles. It was the first severe reverse that has occurred for a long time. Still, the officials were not unprepared for news of just this character from Samar, in which the revolution started by Aguinaldo still continues. Samar is a country about as large as the state of Ohio, and the American forces of occupation number in all between 2,000 and 2,500 men. These are distributed among various posts in the island, a large number being located at the more important centers.

Spain never made any effort to occupy Samar, and it has been for probably three months past that the United States has undertaken that work. The latest report made by General Hughes to the war department was that the number of insurgent rifles in the island aggregated about 300. The Filipinos carried on a guerrilla warfare, and operations against them were difficult. The disaster to Company C of the Ninth infantry occurred, it is believed, while it was engaged in an expedition to clear the country of roving bands of these insurgents. The fact that the Americans were attacked while at breakfast indicates the daring and pluck of the insurgents.

A well known official of the government in speaking of this outbreak against the American forces in Samar said he regarded it as a consequence of the assassination of President McKinley. In all probability the insurgents had received, he said, only meager reports of the tragedy and possibly believed the shooting to be the result of some popular outbreak against the president. The natives had seized the opportunity in the flickering hope of retrieving some of their lost ground.

During his trip General Corbin visited the island of Samar. It was just seven weeks ago, he remarked when discussing the news of the disaster to Company C, that he was talking with General Hughes at Iloilo about the condition of affairs in the islands.

Fire In an Iowa Town.

DUBUQUE, Ia., Sept. 30.—Fire originating in the Mississippi hotel at Clayton swept through the streets and destroyed five buildings and ten residences, comprising the principal part of the town. The McGregor fire department was sent to the scene on a special train. Estimates of the loss range from $50,000 to $100,000.

YACHTSMEN ANXIOUS

Saturday's Close Race Makes Americans Less Sanguine.

SECOND OF THE SERIES TOMORROW

Victory of Columbia In the First Contest by the Narrow Margin of 37 Seconds Was Closest In International Yachting Annals.

NEW YORK, Sept. 30.—An anxious but determined lot of yachtsmen gathered today at the New York Yacht club for another talk over Saturday's exciting race, the chances of the Columbia in her next contest with the Shamrock II. tomorrow, but above all that dreaded question of the prospects of the famous cup at last returning from whence it came after being in American hands a brief month over half a century.

The anxious members seemed to be in the majority, although the grim air of determination not to give up the cup was quite prevalent. Every member frankly admitted that he had experienced something like a scare, and no one wanted to have the Columbia win another race by so close a margin. The bulletin board on which was tacked the committee's brief summary of the first race was the chief attraction at the club, and before it was a group of more or less expert amateur skippers debating the question of what the Columbia would be able to accomplish in the triangular race. Every one hoped for the best, and many recalled that during the preliminary racing with the Constitution and Independence the Morgan boat had shown much speed when sailing with started sheets.

In the race tomorrow, if the wind holds true, two of the legs of the triangle will be sailed under these conditions: One of the legs, probably the first, will be a beat of ten miles to the windward, the next will be a broad reach under large jib topsails or balloon jibs, while the third leg will be a close fetch to the finish line. On these two reaches the racers have shown great speed, and the Columbia has frequently made one of the ten mile sides of the triangular races in something under three-quarters of an hour.

If Captain Barr can win the second race, the clubmen will heave a long sigh of relief, but until that triangular contest is decided in favor of the Columbia the cup will be considered if not in actual danger of returning at least rocking in its glass case in Tiffany's window on Broadway.

The victory of Columbia in the first race on Saturday for the America's cup was the closest in the history of international yachting. But thirty-seven seconds of actual time separated her from Shamrock II. at the finish. The allowance of forty-three seconds, however, brought the corrected time of the Shamrock's defeat up to 1m. 20s.

Both yachts were handled with consummate skill by their clever and daring skippers. Never before in cup races have the contending yachts been so "close aboard" each other during the entire length of their duels. There was never a time while the Irish yacht and the Yankee were on the same tack and while they were slipping down the wind that their skippers could not hail each other or perhaps toss a biscuit from deck to deck.

A Scotch Opinion.

GLASGOW, Sept. 30.—Clyde yachtsmen frankly admit that the Columbia is a marvelously good boat. They consider the fact that a two-year-old yacht should have hung so close to the counter of the Shamrock II. when running free makes the contest more difficult even for the British. Yachtsmen and designers alike declare that if the Shamrock II. is to win the cup she ought to have beaten the Columbia by nearly three minutes on the turn to the windward.

The President's Sunday.

WASHINGTON, Sept. 30.—President Roosevelt attended divine services at the Grace Reformed church, his chosen house of worship, accompanied by his daughter Ethel and his son Kermit. The little building was even more crowded than a week ago when Mr. Roosevelt first appeared there as president. Every pew was filled, and chairs were placed in the aisles and about the rear of the room. A knot of people collected outside the door, and several availed themselves of seats in the window sills. The president and his children arrived at exactly 11 o'clock, after the building had filled, having walked from the White House. Without ceremony or ostentation he took his seat in the second row at the left of the middle section. At the close of the services the congregation remained standing while the president left the building.

Railway Strike Threatened.

SCRANTON, Pa., Sept. 30.—The employees of the Scranton Railway company have resolved to go out on strike if two of their members recently discharged are not reinstated before tomorrow morning. The grievance committee reported that General Manager Silliman would not give any reason for the discharge of the men. The men claim they were discharged without cause, and the union proposes to stand by them.

A Family Partly Cremated.

PITTSBURG, Sept. 30.—As a result of an attempt to use oil to hurry along the kitchen fire Mrs. Barbara Sturgent is dead and her husband, Andrew, and their son, George, are dying. Two other children of the family, Barbara and Andrew, are very badly burned.

Weather Probabilities.

Generally fair and cooler; fresh winds, shifting to northwesterly and northerly.

BOER LEADERS BANISHED.

General Kitchener Blames War to the Burghers.

PRETORIA, Sept. 30.—A pamphlet has been published here under Lord Kitchener's authority containing a notice of the permanent banishment of several Boer leaders captured since Sept. 15 and also a long letter from Lord Kitchener replying to a communication from Acting President Schalkburger.

Lord Kitchener promises to send the Schalkburger letter to the imperial government, which, he says, reciprocates the Boer statesman's desire for peace.

Lord Kitchener then proceeds to explain that the responsibility for the war rests with the burghers, "whose invasion of unprotected British territory opened the saddest page in South African history." He quotes a letter from a member of the volksraad to a member of the Cape Colony assembly declaring that "the time is ripe to drive the English from South Africa."

In conclusion Lord Kitchener declares that, having annexed the two republics to Great Britain, he cannot break faith with the people who have shown loyalty to the new regime, and, so far as clemency to Cape rebels is concerned, this is the prerogative of the ruler, which must be exercised with unfettered discretion.

A proclamation has been issued providing for the sale of properties of burghers still in the field in accordance with the terms of Lord Kitchener's previous proclamation.

Kitchener Wants More Men.

LONDON, Sept. 30.—The Daily Express publishes a report that Lord Kitchener has asked for 25,000 more seasoned men and for power to hang rebels, traitors and murderers without reference to the home government. "Immediately on his return from the continent," says The Daily News, "the king summoned a meeting of the council to consider Lord Kitchener's position. It is understood that his majesty assumed a very strong attitude and closely questioned ministers upon their proposals."

A CHURCH AROUSED.

Tremont Temple, Boston, Makes an Effort to Retain Dr. Lorimer.

BOSTON, Sept. 30.—The Rev. George C. Lorimer, pastor of the Tremont Temple Baptist church, who has recently received a call from the Madison Avenue church, New York city, yesterday tendered his resignation, the letter being read before an immense congregation by Deacon Wentworth at the close of Dr. Lorimer's sermon yesterday morning. The resignation caused profound surprise to many.

In his letter Dr. Lorimer says that his pledge, made after the temple was destroyed by fire, to remain with the church through the dark days then before her had been fulfilled, and that now the church is strong and powerful he feels that he may, without prejudice to her or discredit to himself, withdraw from the pulpit. He was also influenced in his decision by the hope that a change in his field of labor may diminish the physical strain unavoidable in the temple work and by the further hope that under a new leader the denomination may be made to realize the imperative necessity of liquidating the debt burdening the temple property and impeding the development of its religious and humanitarian activities.

The members of Tremont Temple church then by a unanimous standing vote refused to accept the resignation and by the same act assumed the responsibility of raising the sum required.

President Hill's Visit.

NEW WHATCOM, Wash., Sept. 30.—It has developed here that the purpose of the last visit of President J. J. Hill of the Great Northern railway to the Pacific coast was made personally to inspect a route for his second line of railway across the Cascade mountains in this state. It is said Mr. Hill made the trip on muleback from the headwaters of Lake Chelan country to Bridge creek, in the Cascade mountains. On the eastern side of the mountains the Great Northern is extending the system westward from Marcus to Midway. On the western side their line was taken forty miles eastward from Hamilton to Rockport. Between Rockport, the present terminus of the line on the western side of the mountains, to Midway, where contracts are said to have already been let for construction on the eastern side, is a distance of 150 miles. It was to look over the intervening gap, in which lies Skagit pass, that Mr. Hill made his last trip.

Race Riot In Texas.

LONG VIEW, Tex., Sept. 30.—News has reached here of a race riot at Hallville, in Harrison county. A party of white men whipped a negro so severely that he died. They then attempted to break into the house of another negro, who shot and killed Julian Atwood. Armed citizens have been searching for Tom Walker, who did the shooting, and late reports say he has been hanged. The trouble was over crop mortgages. It is said the negroes secured advances on their crops and then refused to fulfill the contract.

German Empress Ill.

BERLIN, Sept. 30.—Empress Augusta Victoria, whose return from Rominten was earlier than she had intended, is ill and confined to her bed. Professor Olshausen has been consulted. There is evidently no anxiety regarding her majesty's condition, for Emperor William still remains at Rominten.

Christians and Mussulmans Fight.

PARIS, Sept. 30.—A dispatch from Constantinople reports that a sanguinary conflict has taken place between Mussulmans and Christians in Beirut, Syria. No details are given.

FAIR WILL NOT PAY.

Pan-American Lost Much Because of the Tragedy Enacted There.

BUFFALO, Sept. 30.—According to the most optimistic view the Pan-American exposition will be able to pay when it closes in November all debts for construction and nearly if not all of the first mortgage bonds, which amount to $2,000,000.

The indications are that nothing will be paid on the $500,000 of second mortgage bonds, with which stock was given dollar for dollar, or to the original stockholders, who number about 12,000 and are understood to have paid in about $2,200,000.

The exposition opened May 1. It is likely to close Nov. 20, although the date originally set was Nov. 1. An official statement was made Sept. 12 that $1,500,000 was in the treasury, with all running expenses paid to that date. On that day the exposition company paid $1,250,000, or 50 per cent, on the first mortgage bonds and after paying 30 per cent of various contractors' bills had $70,000 remaining. There is still owing to contractors approximately $360,000.

The shooting of the president was disastrous to the fair. Railroad day and New York day, Illinois week and other special events had been advertised at great outlay for several weeks. These were all postponed. It will be impossible to create again the interest that had been aroused, and hundreds of thousands of dollars was lost in this way, to say nothing of the direct loss through the closing of the fair for three days out of respect for the president.

This is carnival week at the Pan-American exposition, and the programme which is presented for the amusement of the visitors during this week is all that could be desired in its own particular line. Early this morning preparations were instituted by which his majesty Rex was fittingly received upon his triumphal entry to the City of Light, as the exposition is appropriately called. The programme for the week consists of brilliant spectacles and dignified formal ceremonies for each day.

A FIGHT WITH STRIKERS.

San Francisco Policemen Attacked. Several Were Shot.

SAN FRANCISCO, Sept. 30.—A pitched battle between strikers and policemen occurred yesterday in Kearney street. Seven men are known to have been wounded, one probably fatally, and it is thought that several others who escaped arrest were injured. Not less than fifty shots were fired. Several of the injured were innocent passers-by. A number of plate glass windows were broken by flying bullets. Four special policemen and a recently discharged naval man were made targets for an assault by a mob of strikers and sympathizers numbering at least 200.

The following are known to have been wounded: William Miller, striking teamster, shot in the left breast, will probably die; H. F. Boehler, special officer, shot in the leg; G. Wissel, druggist, shot in the knee; Eddie Fuller, messenger, shot in the leg; J. Doyne, lacerated scalp wound inflicted with the butt end of a revolver; —— MacDonald, shot in the hand; Peter Johnson, a boxmaker, shot in leg.

Prisoners Break Jail.

CANTON, O., Sept. 30.—Eight prisoners broke from the county jail last night by sawing the bars over a window opening upon a court between the jail and courthouse. They had thirty minutes' start when their absence was discovered. Bloodhounds were immediately put on the trail. One of the men was George Raymond, arrested here during the president's funeral and held for the authorities of Olean, N. Y., where he slipped handcuffs and broke away from the officers. Several of the other prisoners also were arrested by outside detectives. Only one prisoner remains, Michael McGovern, held for a robbery in which the victim was tortured. He was regarded as the most desperate and was held on another floor of the jail.

Electric Railway Men Strike.

PENSACOLA, Fla., Sept. 30.—All the motormen and conductors of the Pensacola Electric Terminal railway are on a strike. The cars are tied up in the sheds, and not a wheel is turning. The grievance is that the company put a nonunion man on one of the cars and instructed Motorman Ackerman to break him in. He refused and the company discharged him. The union met and demanded that Ackerman be reinstated. The company refused to comply with the demand, hence the strike. Both sides are firm, and the indications are that there will be no street car traffic here for several days.

Army of the Cumberland.

LOUISVILLE, Ky., Sept. 30.—The thirtieth annual meeting of the Society of the Army of the Cumberland will be held in this city on Oct. 8 and 9. The headquarters will be at the Galt House and the meetings at the board of trade hall. All honorably discharged officers and enlisted men who served in the army of the Cumberland are eligible to membership and will be welcomed at its meetings, whether members or not, as will all members of other military societies.

Well Known Educator Dead.

SCHENECTADY, N. Y., Sept. 30.—Dr. Henry Whitehorne is dead in this city, aged eighty-six. He was at one time one of the best known educators in the country and was a warm personal friend of Jefferson Davis. He occupied the Greek chair in several of the leading American universities.

THE RUSSIAN FAMINE

Government Takes Vigorous Measures For Relief.

NINETEEN PROVINCES IN WANT.

Enormous Quantities of Grain Needed to Supply the Shortage Caused by Failure of Crops—Scurvy Adds to the Distress.

ST. PETERSBURG, Sept. 30.—Following up the recent publication of the famine conditions in thirteen districts, the minister of the interior, M. Sipiaguine, has issued a long statement on the crop failure and the measures of famine relief upon which the central government has decided.

Acting upon telegraphic reports from the various governors, the government has begun the work vigorously. The sum of 96,000 rubles has been appropriated for the government of Saratov, 407,000 rubles for Tauris, 100,000 rubles for the nonmilitary peasants in the Don basin and 190,000 rubles, with a supply of autumn seed, for the government of Yekaterinoslaf.

On Aug. 15 the central government's famine fund amounted to only 530,000 rubles. Emperor Nicholas ordered that this be increased to 14,000,000 rubles.

According to the reports of the governors, state assistance is required in nineteen provinces, not counting the country of the Don Cossacks, which is under the war department. The reports estimate requirements for autumn and winter only, not mentioning the spring, when the need is greatest. Assistance has been voted as follows: Saratov, 1,000,000 poods of rye; Samara, 1,141,000 poods, which is purchaseable locally; Simbirsk, 741,000 poods; Kasan, 1,141,000 poods; Viatka, 782,000 poods; Oufa, 800,000 poods; Orenburg, 250,000 rubles; Voronej, 1,460,000 poods; Tambov, 1,720,000 poods; Kharkov, 1,600,000 poods; Yekaterinoslaf, 300,000 poods; Tauris, 900,000 rubles, the two districts there having had three successive crop failures; Tobolsk, 460,000 poods, none of which is obtainable locally; Tomsk, 1,500,000 poods, of which 800,000 poods must be shipped from Europe before the close of navigation, and 300,000 rubles for transport; Akmolinsk, 600,000 poods and 100,000 rubles for transport, and Semipalatinsk, 77,000 rubles.

No detailed reports have been received from Orel and Yeniseisk, although it is known that both need assistance. Perm has a shortage, but local effort will suffice there.

Great difficulty will be experienced in transporting grain before the close of navigation. The government is now attending to the most pressing demands. A special commission has been engaged since the beginning of August in buying 6,800,000 poods of rye for the provinces suffering most. In the thirteen districts first mentioned medical organization is active, and special relief is being given.

Scurvy has broken out in the government of Khvalinsk, and two divisions of the Red Cross society are there.

Light on America's Discovery.

PARIS, Sept. 30. — An important work, which throws a fresh light on the discovery of America by Columbus, has been written by Henry Vignaud, first secretary of the United States embassy here. It is in French and will be published in this city Oct. 1. Mr. Vignaud, who is the vice president of the Americanists' society of Paris, has made a life study of the early history of America. In an interview Mr. Vignaud said: "The present work is intended to show that for the last four centuries we have been deceived by a fraud which hides from us the real beginnings of Columbus' project and that the famous documents ascribed to Toscanelli, the learned Florentine astronomer, were fabricated. Columbus' design was not founded on any scientific basis, but on positive information as to the existence of lands to the westward."

The Episcopal Convention.

SAN FRANCISCO, Sept. 30.—The advance guard of visitors and delegates to the triennial convention of the Episcopal church which will convene in this city next Wednesday has arrived. The convention will be in session until Oct. 20. It is expected that 400 members out of a total of 600 will attend the convention. The absence of Rev. Dr. Dix, who has presided over the house of clerical and lay deputies since 1886, will necessitate the election of a new president. Among those mentioned for this honor are Rev. Dr. Alsopp of Brooklyn, Rev. Dr. Huntington of New York and Rev. Dr. Lindsay of Boston.

Woman Died Too Soon.

WILKESBARRE, Pa., Sept. 30.—Rudolph Bock, a bookbinder of Brooklyn, died Nov. 27, 1893, leaving an estate of $40,000. The banking house of Ladenberg, Thalman & Co. of New York was named as executors of the estate. They could find no relatives of the dead man until some months ago, when it was learned that a distant relative named Mrs. Christiana Mathias was once a resident of this city. A representative of the banking firm came on here to investigate, only to find that the woman had died in the poorhouse last November.

An Asheville (N. C.) Man In Trouble.

KNOXVILLE, Tenn., Sept. 30.—H. G. Westall of Asheville, N. C., has been arrested here on the charge of having used the United States mails for carrying checks and drafts with the intention to defraud. Westall was bound over to the federal court and committed to jail in default of bond. He belongs to a prominent Asheville family and has a brother who is superintendent of the money order office at Havana.

Mr. Martine's Candidacy.

The boom of "Farmer Orator" James E. Martine for the gubernatorial nomination of the Democrats has been launched. At two of the local ward primaries Friday evening, the delegates elected to the State convention were instructed to support Mr. Martine for the nomination. Other delegates, which went uninstructed, are understood to be for Mr. Martine. Somerset county has also promised to support him with part, at least, of its delegation.

For some time, the name of Mr. Martine has been mentioned as a possibility for the Democratic nomination. It was generally understood that the Union county delegation might decide to honor with him a complimentary vote. There was little chance that he would be nominated unless he could be put up as a compromise in the factional fight or the convention stampeded for him by some brilliant nominating speech.

There is no man in New Jersey, however, who is entitled to any higher recognition by his party than James E. Martine. While there are many people in this State who do not agree with Mr. Martine's ideas on certain subjects, there is not one who can say he has not been true to his convictions and has been an honest and consistent Democrat according to his views. He has served his party long and faithfully and was long ago entitled to any honor which the State Democractic organization could give him.

In all Mr. Martine's career, however, there has never been any attempt on his part to win position or profit. He has worked his hardest for what he truly believed were the best interests of his party and, in doing so, has won the respect of both Republicans and Democrats alike.

If the Democratic party should in any way happen to name Mr. Martine, it will be sure of having a candidate who will work his hardest to carry the ticket to success and, if elected, perform his duties conscientiously and to the best of his ability. At any rate, the least that the delegates from Union county can do is to present his name at the convention and after it is apparent that their candidate cannot be nominated, then to throw their votes for the next best man.

A Hunterdon county man saw the driveways which lead to the new eastbound station of the New Jersey Central Railroad and remarked that they looked like the macadam roads of Hunterdon. When a Hunterdon county man can say sarcastic things about a road in Plainfield, it is really time that something happened. It might be a good thing for the Board of Trade or the Common Council to politely ask the railroad company how much longer Plainfield is going to wait to see that work completed. Really it is getting tiresome.

It seems likely that there may be a fight for the Republican nomination for city judge after all. There are many people in Plainfield, irrespective of politics, who are anxious to see William N. Bunyon return to the office. The Fourth ward, or a portion of it at least, appears to have a candidate for the place in Clarence L. Murphy. Mr. Murphy's name has also been mentioned as a possibility for the Assembly or the Common Council. He took quite an interest in last year's campaign and his friends are anxious to see him placed on the ticket.

A progressive spirit has finally reached Scotch Plains. A water supply is quite likely to be installed there by the Plainfield Water Supply Company. It is said that the residents prefer it to any municipal ownership scheme. They will do well, however, if they insist that the water company install meters when the pipes are first laid. They will then be saved the enjoyment which the Plainfield public is now having with the water bills.

It has been necessary for the street committee of the City Council to use $4,000 of the total appropriation this year for purposes that are not purely street work done by the commissioner. Of this sum $2,400 was expended for the steam roller and $1,600 for the city's proportion of macadamizing West Third, East Sixth and East Ninth street.

The public is warned to look out for the man who is offering The Daily Press at a reduced subscription rate. The Daily Press has one rate for all and has no agents who have any right to sell it at any other than the regular rate.

One of the greatest events of the season in local golf circles will be the entertainment of the Park Golf Club by the Hillside Tennis and Golf Club Saturday. It also promises to be a social event of unusual importance.

Only a week or two and the local baseball teams will retire for the season. It can truthfully be said that the National game has been more popular here during the past season than for several years.

Yesterday was rally day at a number of local Sunday-schools. It marked the resumption of the autumnal activity after the dull season which invariably accompanies the warm weather

Tomorrow Franklin Murphy and sundry other Republican notables will be on exhibition at Recreation Park when the Union county Republicans will hold their outing.

There is a possibility that we may hear something more about the new buildings for the Muhlenberg Hospital at the meeting of the Board of Governors this evening.

The Democrats do not appear to be troubling themselves about harmony at present.

F. Bechstein Addressed Trinity Reformed Sunday-School Yesterday.

F. Bechstein, an earnest and enthusiastic Sunday-school worker who, for twenty-one years, has been superintendent of one of the mission Sunday-schools connected with Dr. Kittridge's Madison Avenue Reformed church, New York, attended the session of the Sunday-school of Trinity Reformed church yesterday afternoon and was invited by Superintendent F. E. Smith to speak to the school. He spoke entertainingly of his work, and encouraged both superintendent and teachers in their grand efforts to bring the members of the school to Christ and thus carry on God's work.

Mr. Bechstein has between 800 and 1,000 in his Sunday-school every Sunday, and a grand work is being done in that part of the Master's vineyard. Everyone was sorry he did not have more time for his remarks. Mr. Bechstein is a resident on Park avenue, near Oak Tree.

DEATH OF MISS TOWNLEY.

Young Westfield Woman Died Suddenly at Her Home Friday Night.

(Special to The Daily Press.)

Westfield, September 30. — Miss Annie Austin Townley, aged twenty-two years, only daughter of James H. Townley, of Elm street, died suddenly Friday night of acute mania. She had been ill for two months, but her condition was not considered serious.

The funeral services were held yesterday from the house and Dr. James R. Danforth, of the Congregational church, of which the deceased was a member, officiated. Interment was in Fairview cemetery.

Peanut Party.

Miss Maude and Miss Julia Belknap, of First place, entertained a few friends Friday evening with a peanut party. The chief event of the evening was a peanut race, in which the first prize was won by Miss Grace Jones and the consolation prize by Mr. Turp. Other games were also enjoyed and a dainty supper was served, in which the peanut in various forms held a prominent place.

—One hundred and seventy-five baskets of extra fine peaches will be received by Neuman Brothers tomorrow.

Universal Food Choppers.

See the Demonstration in Our Basement.

Every housewife knows that a machine of many parts, difficult to take apart, and clean, and put together again, is never used but a few times. The Universal Food Chopper commends itself by its great simplicity no less than by its cleanliness, rapidity, and the great variety of its work.

It does away with the chopping bowl entirely.

It is an invaluable help in the kitchen—a machine that will be used every day and for almost every meal—self-cleaning, self-sharpening and will last a lifetime.

A child can take it apart and put it together again in half a minute. Chops rapidly and without mashing and in pieces as fine or coarse as wanted. Universal Cook Book, 32 pages, free for the asking.

DUNELLEN.

(Special Correspondence.)

Dunellen, Sept. 30.—Rev. Frank Fletcher, who was appointed a member of the local Board of Health, has declined to serve. Under the present regulations the board is appointed to serve for an indefinite time. This is not in conformity with the State laws. If an action was brought against the board, the first question which would be raised would question the legality of the board's existence. There is considerable talk to the effect that a new ordinance will be passed and the board reorganized.

The Democratic primary held in the Borough hall, Friday evening, resulted in the election of J. Y. Wilson as delegate to the State convention and William Winges and Peter C. Staats to the county convention. The chairman of the meeting was George W. Day with Oscar A. Douglas as secretary.

Invitations have been issued for a men's banquet to be held in the First Presbyterian chapel Thursday. Music and speechmaking will be features of the event.

Daniel Gulick, who was injured in a runaway accident last week, is slightly improved and some hopes are entertained of his recovery.

A party, consisting of Robert Hayes, Miss Lulu Hayes, Miss Dora Fulton and Mrs. Ross, spent Saturday at Washington Rock.

The fall season has revived the local interest in tennis playing and the Dunellen Tennis Club's courts are in use every day.

The Dunellen A. C. is trying to arrange a game of baseball for Saturday with the Hope Chapel team, of Plainfield.

Valentine Kirby, who sprained his ankle some time ago, is much improved, but still unable to resume work.

Miss Dora Fulton, of Brooklyn, is visiting at the home of Charles Ross, of New Market road.

Leslie Gray has returned to his home in Irvington, after a visit with Dunellen friends.

Miss Margeret Wilcox left today for the Pan-American Exposition and Niagara Falls.

Alfred Wilson, of New Brunswick, spent Sunday at the home of his parents.

Dory Apgar's Dunellen avenue house is being improved and modernized.

The regular monthly meeting of the Borough Council will be held this evening.

The Middlesex and Somerset Traction Company has put on its winter cars.

Ernest Peters is playing end on the North Plainfield A. C. football team.

Miss Emma Nelson has returned home from a visit with out of town friends.

Miss Anna Jenner has returned home from a visit with Newark friends.

Friendship Dancing Class will meet tomorrow evening in Friendship Hall.

Mrs. Charles Ross is entertaining Miss Dora Fulton, of Brooklyn.

PLAINS AND FANWOOD.

(Special Correspondence.)

Scotch Plains, Sept. 30.—A bicycle rider, a little under the weather from a too free indulgence in the cup that cheers, fell from his wheel on East Front street Saturday evening. It was at first thought that he had injured himself, as he failed to make any effort to arise. After waiting a few minutes neighbors went out to assist him and it was found that the fellow had gone to sleep where he fell. He was pulled out of the way of passing wagons and finally gotten upon his feet and started toward Plainfild.

Robert Walpole, who is acting deputy-warden at the Union county jail, Elizabeth, during Warden Dodd's absence abroad, has been visiting at the home of his daughter, Mrs. Joseph Schwalbach.

"The growth of the Kingdom," was the subject of an interesting weekly meeting of the Baptist Young People's Society, held in the Baptist church last evening. Edward Johnston led the meeting.

A number from town will attend a temperance meeting this evening at Vincent chapel, Plainfield. Rev. Mr. Shott, of the Baptist church, will make one of the evening addresses.

Miss Kennedy, who is spending the summer at Mrs. Charles N. Flanders, has returned from a week's stay with relatives in New York.

Louis Frentz, who was injured by a fall from a scaffold while at work at Westfield several days ago, is able to return to work again.

Mr. and Mrs. John B. Stiliger and son, of Roselle, were the guests Sunday of Mr. Stiliger's parents, Mr. and Mrs. George Stiliger.

The Misses Hayes, of Fanwood, who have been spending the summer making a tour of Europe, have returned home.

William Flanders, of Plainfield, was the guest yesterday of his uncle, Chas. N. Flanders, of East Front street.

Henry J. Graff spent yesterday with his parents in Elizabeth.

SOUTH PLAINFIELD.

(Special Correspondence.)

South Plainfield, Sept. 30.—The signers of the remonstrance against the annual draining of the local pond apparently have but little chance of seeing their wishes fulfilled. The Middlesex Water Company, an incorporated concern which owns the pond, has, it is claimed, considerable influence with the petitioned authorities. The best that can be hoped for, however, is that the ice dealers will postpone letting the water out until cold weather, and thereby lessen the danger of infecting the community with malaria.

Mrs. Louise Elliott died at her late home, yesterday morning, after an illness lasting six months. The cause of her death was nervous and heart trouble. She was forty-five years old and leaves a husband, Walter Elliott, and two children, Howard and Miss Harriot. The funeral services will be held Wednesday afternoon in the Baptist church, of which she was a member. Rev. J. A. Cubberley will preach the sermon.

The monthly business meeting of the Christian Endeavor Society of the Baptist church will be held tomorrow evening at the close of the regular prayer meeting.

Miss Mary Brooks, of Elizabeth, was entertained Saturday and Sunday at the home of Miss Emma Faulks.

Miss Nellie Manning has returned home after a visit at the home of Miss May Higgins, of Bound Brook.

Mr. and Mrs. William B. Manning have been entertaining out of town friends.

Short Talks by Teachers.

Short talks by the teachers were the principal parts of the programme at the Rally Day exercises at Warren chapel yesterday afternoon. The progress of religion by centuries was related by the pastor, Rev. J. O. McKelvey, Superintendent F. H. Andrews, Leander Lovell, Robert Schoonmaker and others. Miss Perry and Mrs. Dutton, of the Crescent Avenue church choir, sang some solos.

TROLLEY AND 'MOBILE MET.

AND THE STEAM CARRIAGE CAME OUT SECOND BEST.

Collision Between G. E. Greenleaf's Automobile and Trolley Car—No One Hurt.

Trolley car No. 10 of the Fourth street line, in charge of Motorman Howard and Conductor Nevins, and a steam automobile belonging to George E. Greenleaf, of West Front street, in which was seated the owner, his wife and young son, attempted to pass the corner of West Fourth street and Plainfield avenue Saturday afternoon. Unfortunately motorman and chauffeur chose exactly the same time for the crossing, and the result was a collision in which the horseless wagon came out second best.

It was struck on the right side, twisted in the fender of the car and dragged twenty feet. When the car backed away the automobile was left a partial wreck, three wheels being twisted out of shape and the machinery put out of gear. The occupants had retained their seats by clinging tightly to the sides and were uninjured beyond a thorough shaking up.

In explanation of the occurrence, Mr. Greenleaf said he was coming down Plainfield avenue and, not hearing a gong or seeing a car, put on steam to cross the tracks. When too late to back or spurt ahead, he saw the trolley bearing down upon him. He attempted to turn to the left up Fourth street, but it was too late to prevent the collision, although it lessened the shock.

Bystanders, who witnessed the accident, declare both drivers were equally to blame. Howard sounded his gong repeatedly before reaching the corner, they say, but went ahead a little too fast. Greenleaf was speeding his machine at a high rate, it is said, and should have slowed up at the corner.

Mr. Greenleaf has owned the machine for a year and, in 5,500 miles of riding, Saturday's accident was his first.

A joshin' the man with the big mustache,
An' dodging the whip with the crackin' lash.
I wanted ter work in the circus before
I thought about runnin' the little school store.

Ellery Ransom, when he gits big,
He's goin' ter git him a sword an' a gun,
An' all the rest of the soldier rig.
When them Spanyuds see him I bet 'at they'll run!
That'll be swell—ter wear soldier clo'es
An' have people holler wherever he goes!
I was stuck on that, too, but I ain't any more,
I'd druther be runnin' the little school store.

I useter think 'at I'd be the man
What sloshes the mortar about in the box
When I grew up, then I got a plan
'At I'd be a perliceman, an' then i Jocks!
I'd swing my club an' I'd scare that kid
'At lives next door; but then instid
Of being them things I'd heap ruther more
Be ownin' and runnin' the little school store.

Gee! but you ought ter see what they've got
Right in the winder, not countin' inside;
Dandiest whistles an' horns, a lot
Of marbles—all kinds, an' stick horses what ride
'Ith a drum in ther back of 'em—you seen the kind—
There's tops what you whip an' there's tops what you wind,
Them square kites like that one I had what got tore—
Well, say! there's more things in that little school store!

Third readers, slates, rulers an' such,
Pencils an' copybooks, boxes of chalks—
Got 'em o' course, but they ain't so much,
Popcorn an' candy's the stuff what talks—
Taffy an' lickrice an' peanut rock—
'At's what I'd keep in the school store stock.
The other old truck I'd clear out before
I opened 'er up in the little schoolstore.

Then all of the kids could walk right in.
I wouldn't care if they hadn't a cent.
I'd open the showcase an' we'd begin,
I'd fill you up, fellers, before you went.
Gee! but we'd have dandy times, you can bet,
All that you wanted I'd let you get.
I'd never run arrants fer pennies no more
When I was the boss of the little school store.

A Seasonable Argument.

The courtroom was hotter than the Soudan in a sandstorm. The judge was a wreck, the jury had wilted.

"Your honor and gentlemen," said the attorney for the defense, "I will indulge in no heated argument, but proceed at once to marshal the cold facts."

And so he won his case.—Cleveland Plain Dealer.

Wants to Be an Actress.

Emma Calve said in a recent interview in Paris that she had now only one ambition, and that was to become an actress. "I have made a success as a grand opera singer," she is reported as saying. "I am rich, too. But what I now want to be able to do is to move people by acting as I have already done by singing."

A Healthy Wife.....
is a husband's inspiration. A sickly, half-dead-and-alive woman, especially when she is the mother of a family, is a damper to all joyousness in the home. I sometimes marvel at the patience of some husbands. If a woman finds that her energies are flagging and that everything tires her, her sleep is disturbed by horrible dreams, and that she often wakes suddenly in the night with a feeling of suffocation and alarm, she must at once regain her strength. It matters not where she lives or what her name is; what she needs is a Ripans Tabule.

WANTED—A case of bad health that RIPANS will not benefit. They banish pain and prolong life. One gives relief. Note the word RIPANS on the package and accept no substitute. RIPANS 10 for 5 cents, may be had at any druggist's. Ten samples and one thousand testimonials will be mailed to any address on a cents forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

STYLISH WAISTS.

Many of Them Have the Openwork Hemstitched Effect.

Pretty waists are made of taffeta ornamented with rows of hemstitching. This hemstitching gives a semitransparent effect when the goods are cut out from beneath. These waists are usually worn over linings of contrasting colors. Thus a waist of navy blue will show glimpses of bright red silk. White and brocaded satin held together with gold thread hemstitching is one of the novelties. These white waists are worn with lace or crepe de chine skirts.

Most of the separate waists show very elaborate trimmings, and lace and embroidered mousseline boleros figure largely on the most elaborate of them.

Waists made of three different shades of lace are the latest fad in Paris.

A very dainty costume of dark red wool veiling with a silk figure is shown

RED VEILING COSTUME.

in the illustration. It would be very suitable to those women who are slight and therefore cannot wear the conventional close fitting tailor made. The Eton jacket is cut loosely and is shirred in across the arms at an equivalent height on the body above the bust. The sleeves are bishop, with a long tight fitting cuff. There is a long, narrow collar of buff lace edged with narrow black velvet ribbons, and the jacket itself fastens with a rosette of this narrow velvet ribbon. The skirt is made with a wide flounce headed with four rows of shirring and edged with three black velvet ribbons. The wide belt is of black panne.

The hat worn with this costume is of red tucked crepe de chine trimmed with a big bunch of black velvet flowers in front. JUDIC CHOLLET.

NEW COLORINGS.

Sequin Gowns No Longer Such Favorites as Formerly.

Darker colorings are now in request for autumn wear. There are delightful shades of brown which combine well with touches of the new pinks and blues and even look well with dahlia and heliotrope. Brown is also very pretty with creamy white vests and yellowish lace, and the latter is especially effective when threaded with turquoise or black velvet.

Self colored materials are all the style, and anything figured, with the exception of foulards and like thin materials, is very much passe.

Sequin gowns are no longer in high favor. With the present fad for delicate effects, they are considered too glaring and hard. Even their most fond admirers must admit that they often startled rather than pleased.

A very elegant Parisian tea gown is shown in the cut. It is of mauve chiffon over taffeta of the same shade. The front is of velvet spotted ivory white net, and it is trimmed with three bands composed of three narrow mauve velvet ribbons, held together by appliqued figures of black lace. The bottom of the train is ornamented by four chiffon ruffles, and at the lower edges of the elbow sleeves there are two wide ruffles of lace. A unique arrangement in the gown is presented by the decolletage, which is cut in an upward point, held suspended to a narrow collar composed of one of the velvet ribbons. The girdle which is worn with this gown is of massive silver studded with amethysts. JUDIC CHOLLET.

[CONTINUED.]

"Let me call your favorites to memory now. There was Tarca, of course; but Tarca had a difference with that ill-dressed father of yours, and wears a leprosy on half his face instead of that beard he used to trim so finely. And then there is Tatho; but Tatho is away over seas. Eron, too, you liked once; but he lost an arm in fighting t'other day, and I would not marry you to less than a whole man. Ah, by my face! I have it, the dainty exquisite, Rota! He is the husband! How well I remember the way he used to dress in a change of garb each day to catch your proud fancy, girl. Well, you shall have Rota. He shall lead you to wife before this hour to-morrow."

Again the prisoner moistened her lips. "I will not have Rota, and spare me the others. I know why you mock me, Phorenice."

"Then there are three of us here who share one knowledge." She turned her eyes upon me. Gods! who ever saw the like of Phorenice's eyes, and who ever saw them lit with such a fire as burned within them then? "My lord, you are marrying me for policy; I am marrying you for policy, and for another reason which has grown stronger of late, and which you may guess at. Do you wish still to carry out the match?"

I looked once at Nais, and then I looked steadily back at Phorenice. The command given by the mouth of Zaemon from the high council of the Sacred Mountain had to outweigh all else, and I answered that such was my desire.

"Then," said she, glowering at me with her eyes, "you shall build me up the pretty body of Nais beneath a throne of granite as a wedding gift. And you shall do it too with your own proper hands, my Deucalion, while I watch your devotion."

And to Nais she turned with a cruel smile. "You lied to me, my girl, and you spoke truth to the soldiers in the harbor forts. There is a man here in the city you came after, and he is the one man you may not have. Because you know me well, and my methods very thoroughly, your love for him must be very deep or you would not have come. And so, being here, you shall be put beyond mischief's reach. I am not one of those who see luxury in fostering rivals.

"You came for attention at the hands of Deucalion. By my face! you shall have it. I will watch myself while he builds you up living."

So this mighty empress chose to be jealous of a mere woman prisoner!

Now my mind has been trained to work with a soldierly quickness in these moments of stress, and I decided upon my proper course on the instant the words had left her lips. I was sacrificing myself for Atlantis by order of the high council of the priests, and, if needful, Nais must be sacrificed also, although in the same flash a scheme came to me for saving her.

I would avail myself of the drugs, or whatever they might be called, that lay within the image of our Lady the Moon that my priestly knowledge had taught me would so act upon my love that though she be buried beneath the great rocks, yet she could not die, but sleep only, and that my power would again awaken her when opportunity offered.

So I bowed gravely before the empress, and said I: "In this, as in all other things where a mere human hand is potent, I will carry out your wishes, Phorenice." And she on her part patted my arm, and fresh waves of feeling welled up from the depths of her wondrous eyes. Surely the gods won for her half her schemes and half her battles when they gave Phorenice her shape, and her voice, and the matters which lay within the outlines of her face.

CHAPTER XI.

THE BURYING ALIVE OF NAIS.

There is no denying that the wishes of Phorenice were carried into quick effect in the city of Atlantis. Her modern theory was that the country and all therein existed only for the good of the empress, and when she had a desire, no cost could possibly be too great in its carrying out.

She had given forth her edict concerning the burying alive of Nais, and though the words were that I was to build the throne of stone, it was an understood thing that the manual labor was to be done for me by others. Heralds made the proclamation in every ward of the city, and masons, laborers, stonecutters, sculptors, engineers and architects took hands from whatever was occupying them for the moment, and hastened to the rendezvous. The architects chose a chief who gave directions, and the lesser architects and the engineers saw these carried into effect. Any material within the walls of the city on which they set their seal was taken at once without payment or compensation; and as the blocks of stone they chose were the most monstrous that could be got, they were forced to demolish no few buildings to give them passage.

I have before spoken of the modern rage for erecting new palaces and pyramids, and, even though at the moment an army of rebels was battering with war engines at the city walls, the building guilds were steadily at work, and their skill (with Phorenice's marvelous invention to aid them) was constantly on the increase. True, they could not move such massive blocks of stone as those which the early gods planted for the sacred circle of our Lord the Sun, but they had got rams and trucks and cranes which could handle amazing bulks.

The throne was to be erected in the open square before the royal pyramid. Seven tiers of stone were there for a groundwork, each a knee-height deep, and each cut in the front with three steps. In the uppermost layer was a cavity made to hold the body of Nais, and above this was poised the vast block which formed the seat of the throne itself.

Throughout the night, to the light of torches, relay after relay of the stone-cutters and the masons and the sweating laborers had toiled over bringing up the stone and dressing it into fit shape, and laying it in due position; and the engineers had built machines for lifting, and the architects had proved that each stone lay in its just and perfect place. Whips cracked, and men fainted with the labor, but so soon as one was incapable another pressed forward into his place. No delay was brooked when Phorenice had said her wish.

And finally as the square began to fill with people come to gape at the pageant of to-day, the chippings and the scaffolding were cleared away, and with it the bodies of some half-score of workmen who had died from accidents or their exertions during the building, and there stood the throne, splendid in its carvings, and all ready for completion. The lower part stood more than two man-heights above the ground, and no stone of its courses weighed less than 20 men; the upper part was double the weight of any of these, and was carved so that the royal snake encircled the chair and the great hooded head overshadowed it. But at present the upper part was not on its bed, being held up high by lifting-rams, for what purpose all men knew.

It was to face this scene, then, that I came out from the royal pyramid at the summons of the chamberlains in the cool of next morning. Each great man who had come there before me had banner-bearers and trumpeters to proclaim his presence; the middle classes were in all their bravery of apparel; and even poor squalid creatures, with ribs of hunger showing through their dusky skins, had turbans and wisps of color wrapped about their heads to mark the gayety of the day.

The trumpets proclaimed my coming, and the people shouted welcome; and, with the gorgeous chamberlains walking backward in advance, I went across to a scarlet awning that had been prepared, and took my seat upon the cushions beneath it.

And then came Phorenice, my bride that was to be that day, fresh from sleep, and gorgeous in her splendid beauty. She was borne out from the pyramid in an open litter of gold and ivory by fantastic savages from Europe, her own refinement of feature being thrown up into all the higher relief by contrast with their brutish ugliness. One could hear the people draw a deep breath of delight as their eyes first fell upon her; and it is easy to believe there was not a man in that crowd which thronged the square who did not envy me her choice, nor was there a soul present (unless Yigo was there somewhere veiled) who could by any stretch imagine that I was not overjoyed in winning so lovely a wife.

For myself, I summoned up all the iron of my training to guard the expression of my face. We were here on ceremonial to-day—a ghastly enough affair throughout all its acts, if you choose, but still ceremonial; and I was minded to show Phorenice a grand manner that would leave her nothing to cavil at. After all that had been gone through and endured, I did not intend a great scheme to be shattered by letting my agony and pain show themselves in either a shaking hand or a twitching cheek. When it came to the point, I told myself, I would lay the living body of my love in the hollow beneath the stone as calmly and with as little outward emotion as though I had been a mere priest carrying out the burial of some dead stranger. And she, on her part, would not, I knew, betray our secret. With her, too, it was truly: "Before all, Atlantis."

I think it spared a pang to find that there was to be no mockery or flippancy in what went forward. All was solemn and impressive; and, though a certain grandeur and somberness which bit deep into my breast was lost to the vulgar crowd, I fancy that the outward shape of the double sacrifice they witnessed that day would not be forgotten by any of them, although the inner meaning of it all was completely hidden from their minds. When it suited her fancy, none could be more strict on the ritual of a ceremony than this many-moded empress, and it appeared that on this occasion she had given command that all things were to be carried out with the rigid exactness and pomp of the older manner.

So she was borne up by her Europeans on the scarlet awning, and I handed her to the ground. She seated herself on the cushions and beckoned me to her side, entwining her fingers with mine, as has always been the custom with rulers of Atlantis and their consorts. And there before us as we sat a body of soldiery marched up, and, opening out, showed Nais in their midst. She had a collar of metal round her neck, with chains depending from it firmly held by a brace of guards, so that she could not run in upon the spears of the escort, and thus get a quick and easy death, which is often the custom of those condemned to the more lingering punishments.

A SAGACIOUS BARBER.

How He Keeps His Customers in Willingness to Await Their Turn.

A barber in Brooklyn has solved the problem of keeping customers who are in a hurry from running away when they see all the chairs occupied. He has fitted up a gorgeous new shop, and back of it has arranged a gorgeous waiting-room, decorated in very good taste. It has heavy mahogany tables and luxurious easy chairs, and scattered around are not only all the chief illustrated periodicals of the day, but also well-bound popular novels, Macaulay's history, some of the poets, and two or three foreign comic papers and illustrated art journals. A customer on taking his seat, is asked politely if he would like to see a comic paper, a daily, "or, perhaps," says the next hair-trimmer, "you would prefer a history or a book of poems." The shop is a great success.

"You see," said the proprietor, "it used to make my men nervous to know that their particular patrons were sitting on the anxious seat waiting for their turn. Not only did the man in the chair get less attention, but I often lost customers who were too impatient to wait. Now, a man comes in in a hurry, sees the chairs are full; and goes into the parlor, takes up a book, finds a nice easy chair and a cool corner, and forgets all about his hurry. I have ordered some games of chess and draughts, which will help still more to lighten the tedium of waiting for the cry of 'Next!'"—N. Y. Commercial Advertiser.

NORMAL SCHOOLS NOT NEW.

They Originated More Than Two Hundred Years Ago in Reims, France.

The normal school, now such a firmly established feature of education in the United States, is not a product of this country, but of France. Its originator was Jean Baptiste De La Salle, who died in 1719, and was canonized in May, 1900. La Salle was a priest and dignitary in the cathedral at Reims, in France. He enjoyed the best advantages for an education, but his heart was moved when he saw the youth of his city growing up in ignorance and vice. He sought to establish schools for them, but found that there were no capable teachers. To supply instructors of a better class he gathered a chosen band of young men into his own house, where he supported and trained them at his own expense. The work soon outgrew these accommodations, and about 1685, with the aid of benevolent friends, he established a normal school to be devoted to training teachers for elementary schools.

A few years before Demia, a priest of Lyons, performed a similar service, but soon after his death the enterprise failed. La Salle gave up his canonry, with its honors and liberal income, to devote himself to his school. By his self-sacrifice his school became very successful and established a notable system of education, but after his death nothing more was heard of independent normal schools in France for nearly a century.

CUNNING PET MONKEY.

The Clever Creature Kissed the Baby Instead of Pulling Its Ears.

Jack, my pet monkey, is full of mischief. One day he got into the kitchen, and when the cook was not paying particular attention to him he jumped up on the table, seized a pan of water that was standing there and emptied its contents on the sleeping cat, says a writer in the Cincinnati Enquirer. He never lost an opportunity to play a joke on old Tab, or on the younger cats, either, for that matter. He often succeeded, when he was caged, in enticing the cats close to the bars, when he would seize their ears and pull them until the victims fairly squealed.

This habit of his was well known to a neighbor of mine, and once, when she was visiting me with her baby, the little one, unnoticed for the moment, crawled up to the cage to have a good look at Jack. The mother saw it and rushed to rescue the child, but Jack was too quick for her and had grasped it by the shoulders before she could reach the spot. He had no intention of pulling its ears, however, for he drew it gently to the bars and kissed it right on the face.

Norwegian Storehouse.

A peculiarity of the Norwegian farm is the "stabbur," a sort of storehouse set upon posts, with either tin pan or a large sheet of slate on the top of each post to prevent the rats and mice and other depredators from obtaining admission. The "stabbur" is intended for the storage of the winter's supply of provisions for the family, such as flour, dried meat, fish, cured pork, "flatbrod," the bread which is baked only once or twice a year; butter and cheese, and the extra clothing and bedding that are not in daily use. An orthodox "stabbur" is usually built with two stories, one projecting over the other, and it is generally of artistic design, with an ornamental balcony.

Interesting But Unprofitable.

A Yale professor is out in Colorado spending time by demonstrating that the tail of an adder may be grafted onto a rattlesnake. Wouldn't it be more profitable, suggests the Chicago Record-Herald, for the professor to try to discover some means of exterminating potato bugs?

A Wooden Railway.

In the western part of British Columbia is a novel railway, two miles in length. The rails are made of trees, from which the bark has been stripped, and these are bolted together. Upon them runs a car with grooved wheels ten inches wide.

ON THE GRIDIRON.

The Park Field Club is gathering material for a football team. The young athletes had a baseball team in the field during the spring, and in the first part of the summer successfully conducted track and field sports.

The Kearny A. C. is desirous of procuring a series of football games with the Plainfield A. A. It is a strong organization and plays the association game. Communications should be addressed to James Ness, Jr., 39 Maple street, Kearny, N. J.

At a meeting of the Jockey Club, to be held shortly, candidates for positions on the football eleven will be examined and assigned positions. Practice games will commence next week and before cold weather sets in the club expects to begin the season's schedule.

ROD AND GUN.

E. W. Mills, of East Fifth street, has returned from a fishing trip to Barnegat.

CASH AND TRINKETS.

Sneak Thief Plied His Trade With Success at Home of J. Y. Barrett, Near Dunellen.

(Special to The Daily Press.)

Dunellen, September 30—While the members of the family of the late John Y. Barrett, of Jefferson avenue, were engaged in some field work Saturday morning, a sneak thief entered the house by prying open the front door and decamped with $50 and a number of valuable trinkets. A large quantity of jewelry was packed up ready for removal, but was left by the thief, as the barking of the house dog forced him to leave hurriedly.

The robber is supposed to have been an itinerant clock repairer who was seen in the vicinity before the loss was discovered.

Features of Rally Day.

The features of the Rally Day programme at the East Third Street chapel Sunday-school exercises yesterday afternoon were the addresses by Superintendent L. W. Randolph and Rev. L. Livermore, of New Market, and the singing by the First church quartette, composed of Miss Harris, Mrs. Ward, and Messrs. Smith and Holmes.

Reunion of Volunteer Veterans.

The tenth annual reunion of the Thirtieth New Jersey Volunteers will be held at Rahway Wednesday, October 9. There are fourteen members of the company residing in this city. The late F. S. Runyon was also a member and was the only one residing in Plainfield to pass away during the year.

Literary Society Meeting.

The Literary Society of the Y. M. C. A. will begin the regular fall work this evening. An interesting programme has been arranged for that evening.

Rev. Mr. Livermore Preached.

Rev. L. E. Livermore, of New Market, occupied the pulpit at the Seventh-Day Baptist church Saturday in the absence of the pastor, Dr. Main.

Successful Operation.

A successful operation was performed on the nose of Raymond Hart, son of W. W. Hart, of Duer street, Friday. A polephus was removed.

All Members Wanted.

All members of the Y. M. A. of Hope chapel are requested to be present at the rehearsal which is to be held this evening.

WOULD CAST OUT JOURNAL.

REV. L. E. LIVERMORE TALKED ON THE TWIN EVILS.

Said They Were Anarchy And The Saloon, —Declared The Journal Had Influenced Minds Of Some People.

An interesting meeting was held yesterday afternoon in the W. C. T. U. rooms under ther auspices of the committee on soldiers and sailors work. The members of Winfield Scott Post, No. 73, G. A. R. and Woman's Relief Corps were specially invited to listen to a talk given by Rev. L. E. Livermore, of New Market.

Mr. Livermore took for his subject "The Twin Evils: Anarchy and the Saloon." He insisted that if it were not for the saloon there would probably be no anarchy, and he thought it was about time that the American people aroused themselves in an effort to exterminate the evils. Mr. Livermore read clippings from the New York Journal, showing how that paper has inflamed the minds of a certain class of people and urged them on in their dastardly work. Mr. Livermore's advice to all was to cast the Journal from their homes and not assist them by reading the paper.

At the close of the address a bass solo was given by John H. Edsall. Before the meeting closed the veterans enjoyed a short talk by William L. Smalley, Sr.

RALLYING TO MARTINE.

"Farmer Orator" Gaining Supporters—Union County Delegates Divided Between Plainfielder And Seymour.

(Special to The Daily Press.)

Elizabeth, Sept. 30.—Seymour's candidacy for the Democratic gubernatorial nomination has reached the acute stage. The Trenton True American has made a poll of the State and claims that 489 delegates are for Seymour while 592 oppose him, 609 being necessary to a choice. Many delegations are badly split up.

Saturday evening there was a lively time at the Union county caucus held in this city. The supporters of the candidacy of James E. Martine attacked the Democratic County Executive Committe for pledging the county delegates to Seymour without their consent. The Seymour delegates attempted to have the unit rule passed but were frustrated. Finally they were content with an informal vote, which stood Seymour 35, Martine 17 and one blank. The "Farmer Orator" received the united vote of Plainfield and 7 from this city.

It is believed that there will be more converts to Martine before the convention. In Middlesex the delegates are antagonistic to Seymour and will probably join the Martine forces. The entire fight is really a question of leadership between E. S. C. Young, of Jersey City, whose lieutenant, Robert Davis, is back of Seymour and Senator Smith, who will probably support the man who can defeat the Newark man.

Will Dispose of All.

Mrs. S. A. Stout, of 701 East Front street, will dispose of all her household goods, horses, wagons, sleighs, etc., at public auction Tuesday, October 3, commencing at 11 o'clock in the morning at the stables, and at 1 o'clock in the afternoon at the house. Hezekiah Hand will be the auctioneer.

Hospital Governors to Meet.

The Board of Governors of Muhlenberg Hospital will meet this evening in regular session.

—A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin affections. Accept only the genuine. L. W. Randolph.

CLOSING DAYS ARE ACTIVE.

THIS WEEK WILL BE A BRILLIANT ONE AT THE NETHERWOOD.

The Orchestra Has Been Retained and There Will Be Dances Every Evening.

The popularity of the evening festivities at the Hotel Netherwood has caused the management to retain the Orpheus Club orchestra beyond the term of the season's engagement, which expires today. In order that the musical treats may be continued the orchestra will remain until October 15, if not longer.

Each succeeding evening has witnessed some event at the resort. Friday evening an "all prize" progressive euchre was given and the unique affair was enjoyed by the lovers of cards. The regular weekly hop was tendered Saturday evening and the ball room was fairly well filled with guests and society folk from this city. The midnight hour was passing when the last strains of the waltz music died out and only then did the guests and their friends desert the dancing floor. This event was followed by a sacred concert given last evening. The usual allotment of classical and popular selections were mingled with the sacred numbers.

As an innovation a dance will be given every evening this week, the intention of the management being to make the closing days of the season as brilliant as possible. On account of the number of daily arrivals it has been determined to keep the resort open until November 1.

PERSONAL.

Edward Morris, of Metuchen, is at Muhlenberg Hospital under treatment for typhoid fever.

Miss Marion Nevius, of Washington, D. C., is visiting her mother and sister on East Fifth street.

Mr. and Mrs. Clifford McGee, of Willow avenue, are rejoicing over the arrival of a young son who came to their home this morning.

Theo. H. Hardy and wife, of Brooklyn, spent Sunday with relatives in the borough and city. Mr. Hardy returned this morning and Mrs. Hardy will remain several days longer.

Paralyzed.

F. Connett, of Dog Corners, was found on Greenbrook road, Saturday evening, afflicted with a type of paralysis commonly attributed to overindulgence in strong drink. He was conveyed to the borough lookup and will appear before Recorder Doud for trial this evening.

THE M'KINLEY ESTATE.

Late President Died Comparatively Poor—Opportunities Refused.

CANTON, O., Sept. 30.—The will of the late President McKinley was probated here today. He left an estate of little more than $100,000. Of this amount $40,000 was saved from his salary as president, $67,000 is life insurance, and another $10,000 perhaps represents property owned by him when he went into the White House.

This information is from one of the closest friends of the late president and may be taken as official.

"Mrs. McKinley," said this friend, "will have an income from $200,000 or perhaps $250,000. The McKinley block in Canton is her property, as is also the farm, which was always known as the property of the president. The combined value of all the property will not exceed the last figure named, but this will leave Mrs. McKinley comfortably cared for in a financial way.

"Mr. McKinley was always a poor man. Up to the time he went into the White House he never had any money, and while in congress he borrowed money to make campaigns, paying the loan as he drew his salary.

"When he became president, great demands were made upon his purse in a social way. He always did the honors generously and gracefully, but in the four years and a little more that he drew the salary of $50,000 a year he saved little, and the total amount did not exceed $40,000.

"President McKinley could have died a rich man had he so elected. Scores of times he was importuned by social, business and political intimates to invest in great money making enterprises, but he invariably declined. 'I cannot afford to have any relations with the trusts or combinations of capital,' said he, and he never did.

"Some of the opportunities were pure investments, such as any man could make with propriety, but Mr. McKinley was so jealous of his good name that he preferred to remain comparatively poor."

Mrs. McKinley had two drives again yesterday. On account of dismal weather and the rain of Saturday and nearly all night the outing was confined to the streets in the city. It is said at the McKinley home that there has been no material change in her condition and that she continues to bear up remarkably well. Besides administering the estate of the president Mr. Cortelyou and Judge Day are to take charge of the business affairs of Mrs. McKinley. She has considerable property herself aside from the estate left by her husband.

SWEDES IN AMERICA.

Established a Colony in Delaware as Early as 1638.

Some of Their Descendants Did Valiant Service for the Cause of Liberty — Maintain Many Churches and Journals.

As is well known, the Swedes founded a settlement on the Delaware in 1638, and the remembrance of this first Swedish emigration to America teems with interesting episodes. In an article in the Chicago Record-Herald Prof. Rasmus B. Anderson says that the Swedish language was used in a Philadelphia church as late as 1823 and then continues: I cannot here enter more fully into the details of this settlement, but I may be permitted to call attention to the fact, probably not generally known, that John Morton, one of the signers of the declaration of independence, and an active member of the continental congress, born at Ridley, Pa., in 1724, was a descendant of the Swedes on the Delaware. Robert Anderson, the gallant defender of Fort Sumter, against which the first gun of the rebellion was fired, was also a scion of the Swedes on the Delaware. Thomas F. Bayard, who served our country as senator, secretary of state and ambassador to England, repeatedly told me how proud he was of the fact that he was descended on his mother's side from these same Swedes. And so we see that love of freedom, patriotism, statecraft and all that makes for good citizenship came over to America not only in the Mayflower, but also in the Kalmar Nyckel and Vogel Grip. The first Swedish settlers on the Delaware came in the ship Kalmar Nyckel and in the yacht Vogel Grip, in 1638, just as the first Norwegian immigrants in this country left Norway in 1825 in the sloop Restoration.

Among the distinguished representatives of the Swedish-American group of our population I may also mention the famous rear admiral of the United States navy, John A. Dahlgren, who was born in Philadelphia in 1809. During the war of the rebel-

lion he silenced Fort Sumter and secured a safe anchorage for the Monitor inside the bar of Charleston, and in this manner effectually put a stop to the blockade running, which had been so successfully practiced. His name is thus linked with that of the world-renowned John Ericsson, the inventor of the Monitor, and our navy is largely indebted to Dahlgren for the great improvements in its ordnance made since 1840. It is hardly necessary to add that John Ericsson, whose invention of the Monitor in 1862 made the north supreme on the sea and shortened the war of the rebellion, was a Swedish immigrant, born in Sweden July 31, 1803. He emigrated to England in 1826 and to America in 1839. In 1829 he invented the fire engine for extinguishing fires, and in 1834 he applied the screw instead of wheels for propelling vessels.

A large number of Swedes served in the war of the rebellion, and going back to the war of the revolution we find a brilliant Swede, Col. (afterward field marshal) Axel Fersen, who in 1779 went to France, where he was appointed colonel of the royal regiment of Swedes. At the head of his regiment he served in the later campaigns of the American war, and distinguished himself on various occasions, particularly in 1781, during the siege of Yorktown. Axel Fersen also took part in the negotiations between Gen. Washington and Gen. Rochambeau. He afterward became marshal of the kingdom of Sweden.

One of the most distinguished Swedes now living in this country is John Lind. He was born in Sweden March 25, 1854; came with his parents to Minnesota; was a member of congress from 1887 to 1893 and governor of Minnesota from 1899 to 1901.

The great and flourishing Swedish Lutheran Augustana synod was organized in 1851, and Rev. L. P. Esbjorn is regarded as the father of the Swedish Lutheran church in this country. The Augustana synod has a large college at Rock Island, Ill., and a flourishing college at St. Peter, Minn. It has a large number of fine church edifices and a host of able pastors and teachers. The Swedes in this country maintain a number of weekly newspapers which are edited with signal ability. They are loyal to American institutions and at the same time devoted to their Swedish inheritance. It may be said of the Swedes, as of the other representatives of the Scandinavian peoples, that they make excellent American citizens, and that the value of their citizenship is greatly enhanced by the interest they take in the language, history and literature of Sweden.
